

Time cognition throughout a light

Fernando Visockis and Maja Tisel

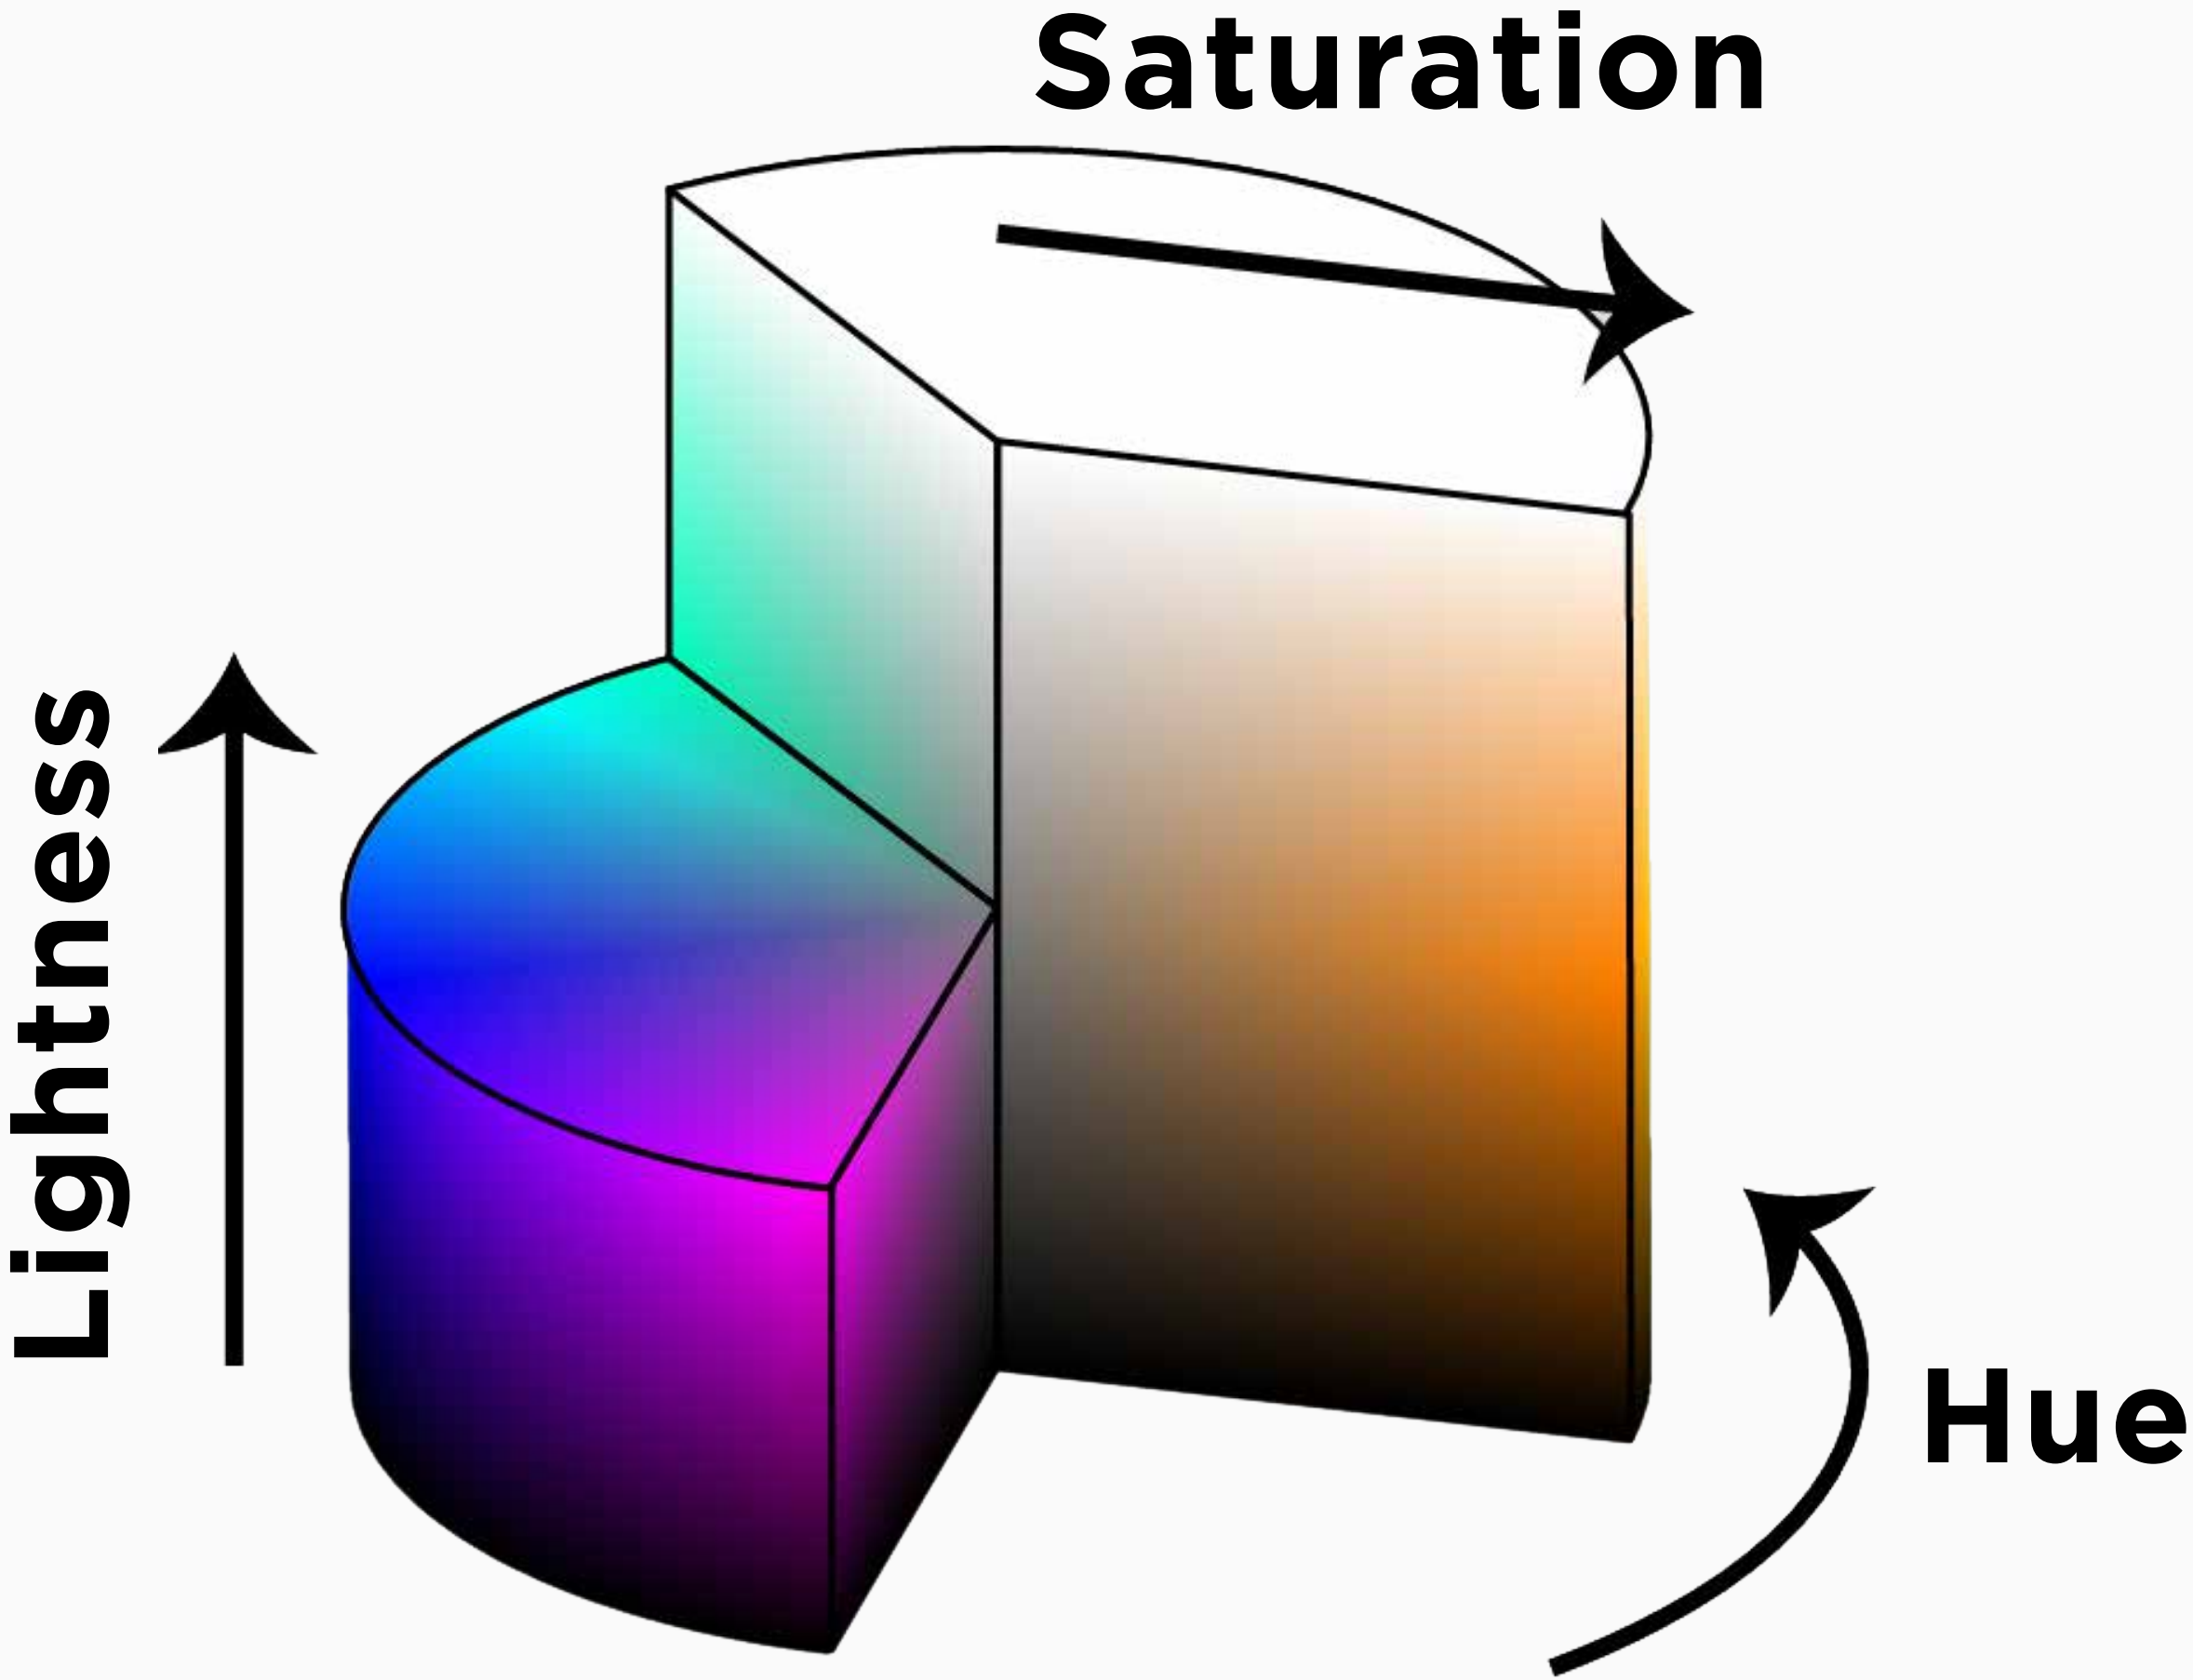

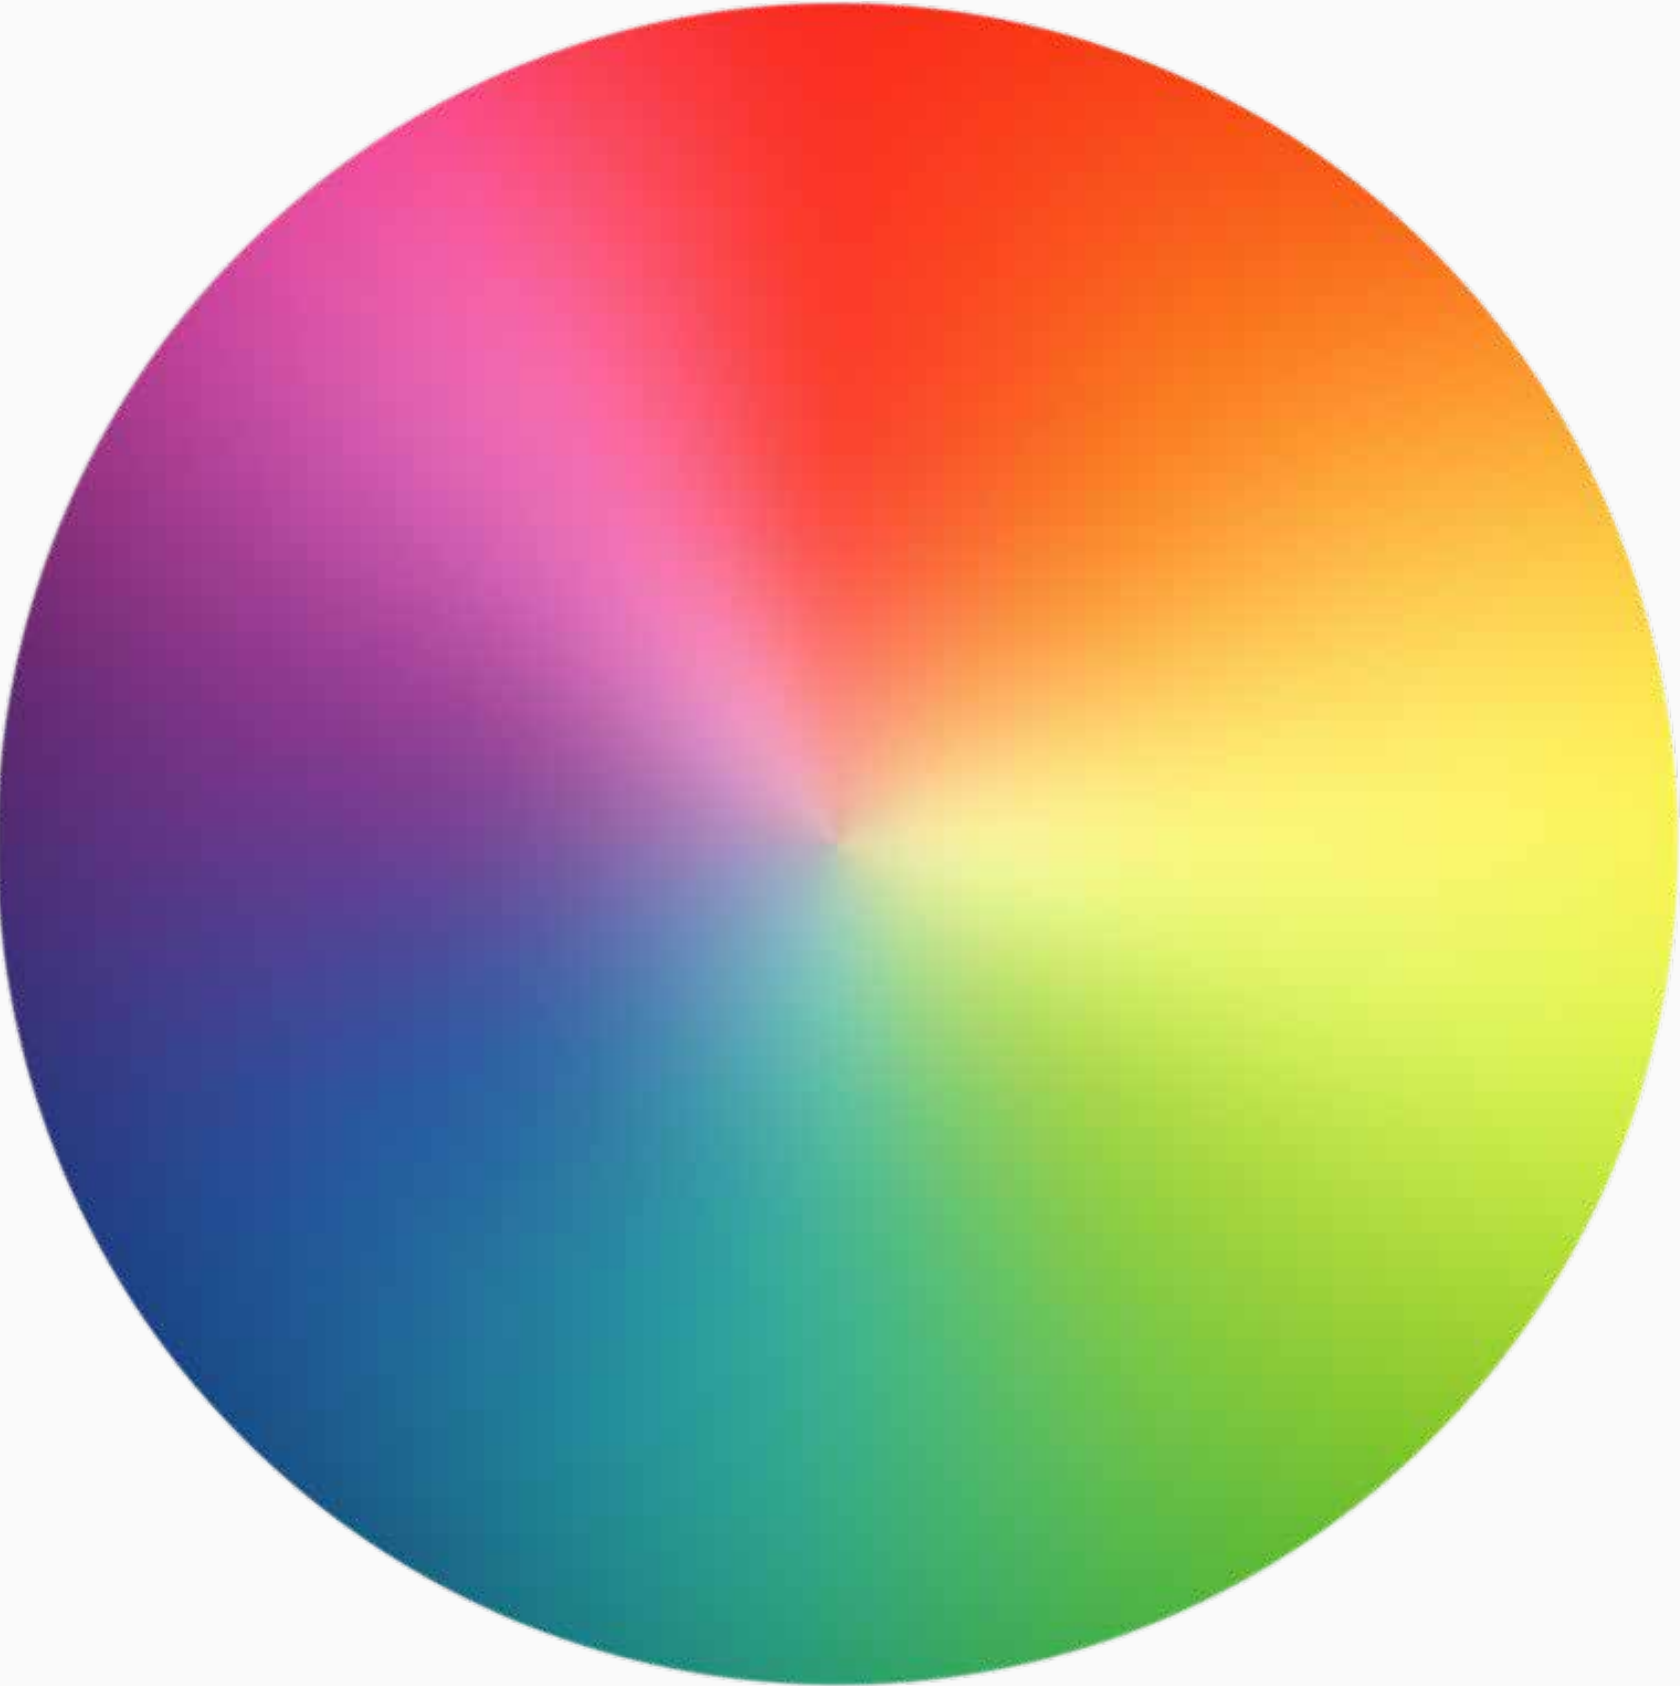

**Tools for measuring time
always use discrete system.**

**We want to explore time also
as continuous phenomenon.**

**Adding new criteria to time -
light.**

**Object that would show
motion of time with a help
of light.**

**Presenting time with
HSL colour space.**

**Design object that
doesn't give you exact time
but showes time in motion.**
