1/4 Mile

Working with the U.S. Forest Service and other members of the Clackamas Recreation Resources Working Group, Portland General Electric has developed a Dispersed Site Management Plan to guide the use and management of dispersed recreation areas adjacent to Timothy Lake.

The plan is intended to protect the health and beauty of the natural environment surrounding the lake, while enhancing the quality of visitors' experience as they enjoy camping, boating, hiking and other activities in the area.

Beginning in 2014, PGE will designate and improve several existing sites around the lake for visitor use. Other sites where over-use has caused damage will be closed. Camping will only be permitted in "designated" sites. Improvements to designated sites will include better access from trails and/or the lake, as well as site boundaries to improve privacy. The use of this area will further be governed by USFS Rules and Regulations.

Approximately 7 miles to Highway 26

Approximately 40 miles to Estacada

To Road 42
