BLAZING A TRAIL

THE NATIVE TRAILS STORY

I founded Native Trails with a dream of bridging cultures, of combining artisan heritage with innovative design and sustainable materials. Bringing the beauty of undiscovered artisans to homes all over the world is a passion I gratefully live out every day.

Naomi Neilson, Founder/CEO

PRECIOUS METALS COLLECTION

Genuine 25k Matte Gold, Platinum, and Silver are the luxuriant stars of the Precious Metals Collection. Gunmetal finish ingeniously combines all three precious metals into a seductive dark hue.

Italian artisans expertly form sinks from fine fireclay, then apply the glazes by hand. Each piece is triple kiln-fired, then meticulously sealed, creating the ultimate luxury showpiece that will endure the test of time.

MURANO

glass

The Murano Collection of spun-glass bathroom sinks artfully combines age-old artisan techniques and materials with contemporary design and function.

Artists in the ancient glassmaking center of Murano, Italy have an impressive 1,500-year-old history of producing useful and beautiful pieces that are seen around the world.

Today, the Murano Collection brings to our world exquisite, one-of-a-kind statement pieces for luxury design, made with pride and care by expert Italian glassmakers.

Choose from 6 styles and 7 stunning design series.

NativeStone®

Concrete done better

A masterful blend of contemporary artistry and innovation, NativeStone is exceptional in its lighter weight, one-of-a-kind coloration, and extraordinary stain resistance.

Each piece is sealed with exclusive NativeStone Shield, which penetrates the concrete as never before to create a barrier that is scratch resistant and impervious to water, oils, acids and food.

Hand Hammered C O P P E R

Centuries of tradition merges with contemporary design, as skilled coppersmiths transform recycled copper into genuine works of art.

A typical copper sink or bathtub takes several days and many thousands of hammer strikes to perfect - along with generations of experience.

Maestro Collection

The heavy 15-gauge Maestro Collection basins endure up to 30,000 hammer strikes to bring out the copper's exquisite splendor and distinctive texture, while a complex heating and cooling process creates the remarkable mottling of the unique Tempered finish.

Copper Soaker Tubs

BATHTIME BLISS. A long bath can fix almost anything – especially a long bath in a freestanding copper or concrete bathtub. Since the time of ancient Crete, the restorative qualities of soaker bathtubs have been legendary. Native Trails ups the ante on the legend with our freestanding tubs – an impressive focal point for the bath; a blissful retreat for body and soul.

TOPANGA SERIES

Solid walnut, with its rich natural variegated coloration, is the canvas for master European woodworkers who craft each exquisite piece of the Topanga Collection.

The wood is sustainably harvested from the rich forests of the Danube riverbanks and the high mountains of eastern Europe, and the woodworking traditions go back many generations.

THE AMERICANA COLLECTION

With character as rich as its history

The Americana Collection is handcrafted in the U.S.A. from beautifully textured wood rescued from structures of the past, built to last for generations. The hardware is forged by blacksmiths, and the multi-layered finishes are carefully hand applied.

Bath vanities and mirrors are available in four finishes and three sizes for ample design versatility.

THE VINTNER'S COLLECTION

Featuring wine-making materials salvaged from the heart of California's wine country, the Vintner's Collection reincarnates oak barrels and staves into elegantly functional furniture and mirrors with a unique history.

Vintner's Vanities and Mirrors are made from reclaimed, wine-stained oak staves used to flavor wine during the fermentation process. The oak staves soak in wine for months, infusing tannins and aroma from the wine while absorbing the color of the grapes.

Choose from four finishes and four shapes and sizes, to complement a wide variety of design styles.
