## # DA Form 5987: Your Comprehensive Guide

Navigating the complexities of military paperwork can feel like traversing a minefield. One form that often causes confusion is DA Form 5987, the Request for Personnel Action. This comprehensive guide will demystify this crucial document, providing a clear understanding of its purpose, usage, and proper completion. We'll cover everything you need to know to successfully utilize DA Form 5987, ensuring a smooth and efficient personnel action process.

## What is DA Form 5987?

DA Form 5987, officially titled "Request for Personnel Action," is the Army's standard form used to initiate various personnel changes. This isn't a single-purpose form; instead, it's a versatile tool used for a wide range of actions, making it a cornerstone of Army administrative processes. Think of it as the central hub for initiating personnel changes - from simple address updates to more complex requests involving promotions, awards, or separations. Understanding its nuances is crucial for both soldiers and administrative personnel.

## When to Use DA Form 5987?

The versatility of DA Form 5987 is both its strength and its potential source of confusion. It's used for a broad spectrum of personnel actions, including but not limited to:

### Common Uses of DA Form 5987:

**Change of Address:** Updating your permanent or mailing address is a frequent use.

**Change of Name:** Reflecting a legal name change due to marriage, divorce, or other legal proceedings.

**Award Recommendations:** Submitting a request for an award or decoration for yourself or another soldier.

**Promotion Requests:** Initiating the process for a promotion to a higher rank.

**Separation/Retirement:** Beginning the official process for separating from or retiring from the Army.

**Leave Requests (Specific Circumstances):** In certain situations, it might be used for leave requests, although other forms are typically preferred.

**Correction of Records:** Requesting a correction of errors in your official military records.

## **Less Common, but Still Important Uses:**

Special Duty Assignments: Requesting assignment to specific duties or roles.

Waiver Requests: Submitting a request for a waiver to address specific eligibility requirements.

Administrative Actions: A wide range of other administrative requests related to personnel matters.

# **Completing DA Form 5987 Accurately: A Step-by-Step Guide**

Successfully completing DA Form 5987 requires attention to detail. Inaccurate information can significantly delay the process or even lead to rejection. Here's a breakdown of the key sections:

## **Section I: Identifying Information**

This section requires accurate personal information, including your name, social security number, rank, and unit. Double-check for accuracy - errors here can derail the entire process.

## **Section II: Type of Action Requested**

This is arguably the most crucial section. Clearly and concisely state the action you're requesting. Be specific. Avoid vague language. If requesting a promotion, specify the rank. If changing your address, provide the complete new address.

## **Section III: Supporting Documentation**

This section indicates whether you need to attach any supporting documents. Always attach any required documentation. Failure to do so will likely result in delays.

## **Section IV: Approving Officials**

This section usually requires signatures from your chain of command. Ensure you follow the proper approval channels within your unit.

# Submitting Your DA Form 5987

Once completed and signed, the method of submission will depend on your unit's procedures. Some units may require electronic submission through a specific system, while others may still utilize paper submissions. Always inquire with your unit's personnel office to confirm the proper submission method.

## Potential Pitfalls and How to Avoid Them

**Incomplete Information:** Ensure all sections are fully and accurately completed.

**Missing Documentation:** Attach all necessary supporting documents.

**Incorrect Channels:** Submit the form through the correct channels within your chain of command.

**Unclear Requests:** Be specific and concise in your request.

## Conclusion

Mastering DA Form 5987 is essential for any soldier navigating Army administrative processes. By understanding its purpose, proper completion, and potential pitfalls, you can ensure your personnel actions are processed efficiently and effectively. Remember to always double-check your work and seek clarification from your unit's personnel office if you have any questions.

## FAQs

1. Can I use DA Form 5987 for a leave request? While possible in very specific circumstances, other forms are typically preferred for leave requests. Check with your unit's regulations.
2. What happens if I make a mistake on DA Form 5987? If you identify a mistake before submission, correct it. If the mistake is discovered after submission, contact your personnel office to initiate a correction process.
3. Where can I find a blank copy of DA Form 5987? Blank copies are readily available online through official Army resources and your unit's personnel office.
4. Is there a time limit for processing a DA Form 5987? Processing times vary depending on the type of action requested and the workload of the processing office.
5. What if my request is denied? If your request is denied, you'll receive notification outlining the

reasons for denial. You may have options to appeal the decision, but this process depends on the specific request.

**da form 5987: Decently and In Order** Otis H. Corbitt, III, 2022-04-14 Seminary taught me to be a pastor, but the Army taught me to be a leader! We live in a broken, fallen world which does not work exactly the way God originally intended. Instead of being a well-ordered and totally functional environment like the perfect, Holy God who created it, the world in which we live often manifests its brokenness by descending into near chaos. Unless action is taken to correct the decline, all aspects of our world descend towards chaos, and our ministry efforts are no exception. The military forces of the United States operate in a harsh environment that does not tolerate failure. Whether it is rescuing hostages from a terrorist camp, flying high-performance aircraft in all types of weather, operating nuclear power-plants, or even just feeding its troops in an austere field location, military operations must succeed because the price of failure is too high. Therefore, the military has developed excellent schemes for ensuring the success of events and operations. Without a doubt, the U.S. military knows how to operate in every clime and every country across the world. Anyone who wants to be successful in leading any kind of team, operation, or event can do no better than to learn how to operate the way the military does. The purpose of this book is not to turn churches into armies or ministry volunteers into soldiers but to provide a powerful tool, which used appropriately in context, can help any church or ministry conduct their operations effectively and efficiently. In short, do not be afraid because these techniques originated in a military context; your author's personal experience of using them in ministry revealed them to be valuable and effectual.

**da form 5987: Frontiers in Clinical Drug Research - Dementia: Volume 2** José Juan Antonio Ibarra Arias, 2021-11-09 Among neurodegenerative diseases, those that lead to a state of dementia are the aim of several investigations. Dementia is a chronic disease the prevalence of which is increasing worldwide. The number of dementia patients in the world is approximately 50 million, and it is estimated that the number of patients will reach 131.5 million by 2050. This increase will be accompanied by a significant increase in medical expenditures and other expenses, especially for elderly patients. Therefore, the maintenance cost of dementia in the future is expected to be quite high. For this reason, several investigations aim, firstly, to describe the key mechanisms involved in the origin of dementia and, secondly, to establish preventive and therapeutic strategies in order to understand and mitigate this debilitating pathology. This volume of *Frontiers in Clinical Drug Research - Dementia* explores the current comorbidities that cause cognitive impairment and the current management alternatives for clinical cases of dementia. The reviews contributed in these volume will provide readers with a current perspective on the subject. The topics covered in this volume include: - Comorbidities inducing mild cognitive impairment - an evaluation of the risk caused by some pathological conditions - Tau-targeted therapy in Alzheimer's disease - history and current state - Emerging nanotherapeutic strategies in Alzheimer's disease - Implication of dehydroepiandrosterone on dementia related to oxidative stress - Polyphenol compounds as potential therapeutic agents in Alzheimer's disease The volume is a timely update on dementia treatment for clinical physicians, neurologists, gerontologists, pharmaceutical and medicinal chemistry researchers, and physiologists.

**da form 5987: The Health Effects of Cannabis and Cannabinoids** National Academies of

Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Population Health and Public Health Practice, Committee on the Health Effects of Marijuana: An Evidence Review and Research Agenda, 2017-03-31 Significant changes have taken place in the policy landscape surrounding cannabis legalization, production, and use. During the past 20 years, 25 states and the District of Columbia have legalized cannabis and/or cannabidiol (a component of cannabis) for medical conditions or retail sales at the state level and 4 states have legalized both the medical and recreational use of cannabis. These landmark changes in policy have impacted cannabis use patterns and perceived levels of risk. However, despite this changing landscape, evidence regarding the short- and long-term health effects of cannabis use remains elusive. While a myriad of studies have examined cannabis use in all its various forms, often these research conclusions are not appropriately synthesized, translated for, or communicated to policy makers, health care providers, state health officials, or other stakeholders who have been charged with influencing and enacting policies, procedures, and laws related to cannabis use. Unlike other controlled substances such as alcohol or tobacco, no accepted standards for safe use or appropriate dose are available to help guide individuals as they make choices regarding the issues of if, when, where, and how to use cannabis safely and, in regard to therapeutic uses, effectively. Shifting public sentiment, conflicting and impeded scientific research, and legislative battles have fueled the debate about what, if any, harms or benefits can be attributed to the use of cannabis or its derivatives, and this lack of aggregated knowledge has broad public health implications. The Health Effects of Cannabis and Cannabinoids provides a comprehensive review of scientific evidence related to the health effects and potential therapeutic benefits of cannabis. This report provides a research agenda—outlining gaps in current knowledge and opportunities for providing additional insight into these issues—that summarizes and prioritizes pressing research needs.

**da form 5987: Preparing for Future Products of Biotechnology** National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Board on Chemical Sciences and Technology, Board on Agriculture and Natural Resources, Board on Life Sciences, Committee on Future Biotechnology Products and Opportunities to Enhance Capabilities of the Biotechnology Regulatory System, 2017-07-28 Between 1973 and 2016, the ways to manipulate DNA to endow new characteristics in an organism (that is, biotechnology) have advanced, enabling the development of products that were not previously possible. What will the likely future products of biotechnology be over the next 5–10 years? What scientific capabilities, tools, and/or expertise may be needed by the regulatory agencies to ensure they make efficient and sound evaluations of the likely future products of biotechnology? Preparing for Future Products of Biotechnology analyzes the future landscape of biotechnology products and seeks to inform forthcoming policy making. This report identifies potential new risks and frameworks for risk assessment and areas in which the risks or lack of risks relating to the products of biotechnology are well understood.

Readers are assumed to be able to fill in the details, which in many places are left as exercises.

**da form 5987: Dictionary of the c Inscriptions (2 vols)** Hoftijzer, Karel Jongeling, 2015-11-02 The North-West Semitic epigraphic contributes considerably to our understanding of the Old Testament and of the Ugaritic texts and to our knowledge of the North-West Semitic languages as such. This dictionary is concerned with the North-West Semitic material found in inscriptions, papyri and ostraca in Phoenician, Punic, Hebrew, various forms of Aramaic, Ammonite, Edomite, the language of Deir Alla et cetera. The material covers the period from ca. 1000 B.C. to ca. 300 A.D. Besides translations, the entries include discussions and full references to scholarly literature. The book is a translated, updated and considerably augmented edition of Jean & Hoftijzer, Dictionnaire des inscriptions sémitiques de l'ouest. The additions concern newly found texts as well as references to new scholarly literature. The book is an indispensable tool for research in North-West Semitic epigraphy, on the Old Testament and on Ugaritic texts, and for Semitic linguistics. Please note that this version is an unrevised reprint of the original version published in 1995.

**da form 5987: Na-ion Batteries** , 2021-05-11 This book covers both the fundamental and applied aspects of advanced Na-ion batteries (NIB) which have proven to be a potential challenger to Li-ion batteries. Both the chemistry and design of positive and negative electrode materials are examined. In NIB, the electrolyte is also a crucial part of the batteries and the recent research, showing a possible alternative to classical electrolytes - with the development of ionic liquid-based electrolytes - is also explored. Cycling performance in NIB is also strongly associated with the

quality of the electrode-electrolyte interface, where electrolyte degradation takes place; thus, Na-ion Batteries details the recent achievements in furthering knowledge of this interface. Finally, as the ultimate goal is commercialization of this new electrical storage technology, the last chapters are dedicated to the industrial point of view, given by two startup companies, who developed two different NIB chemistries for complementary applications and markets.
