New Hampshire Liberty Alliance

2020 Liberty Rating

This is the seventeenth annual Liberty Rating issued by the New Hampshire Liberty Alliance, based on 57 roll call votes in the House and 20 in the Senate. The number of graded roll call votes is less than recent prior years due to the truncated legislative session resulting from the state's response to COVID-19. In addition, it is worth note that the reduced number of session days means that a single absence on a busy session day will result in a legislator missing a large fraction of scored votes. These factors should be considered when evaluating ratings. Individual grades for each legislator are based on roll call votes for bills that affect liberty. Each bill/vote is assigned an impact score by the NHLA considering the degree to which the bill or vote impacts (positively or negatively) liberty.

Pro-liberty bills protect individual freedom of choice and personal responsibility; recognize the superiority of freedom over coercion; respect the citizen's right of self-ownership; promote governance that is transparent, accountable, and adheres to the Constitution; and recognize the value of voluntary economic decisions.

Anti-liberty bills replace self-governance with interventionist regulation; assume rules made by agencies backed by force are superior to voluntary choices backed by personal accountability; and assume a better economy can be managed by a central authority that compels people and businesses to pay for policies they may not willingly support.

The Liberty Rating is the result of hundreds of hours of work by many volunteers who have read and analyzed bills, testified before committees, called and written their representatives, worked on our other signature publication, the Gold Standard, and culled extensive data from legislative voting records. We encourage New Hampshire citizens to learn the facts about how their elected representatives are voting in Concord and to use this tool to hold them accountable. This report card serves as a valuable voter guide when these same representatives are running for re-election.

Motions of Ought to Pass (“**OTP**”), Ought to Pass with Amendment (“**OTP/A**”), and to accept a Committee of Conference report (“C of C”) pass a bill. If we recommended yea on these motions, it was a pro-liberty bill; if nay, it was an anti-liberty bill. Motions of Inexpedient to Legislate (“ITL”), **Table**, or **Indefinitely Postpone** kill a bill. Interim Study (“**IS**”) will result in the matter being studied and effectively terminates the bill for this legislative session. If we recommended yea on these motions, it was an anti-liberty bill; if nay, it was a pro-liberty bill.

Scores are based on roll-call votes. Each scored roll call vote is assigned a weight based on the impact of the bill/vote. This year, we did not include a sponsorship score modifier as the truncated legislative session resulted in a reduced view of all submitted legislation and fewer roll call votes and as a result, there was concern that the sponsorship score would outweigh actual voting performance.
