*This form is for students requesting evaluation of prerequisite course work completed at schools other than The Ohio State University. If you have attended another institution in Ohio, go to [admissions.osu.edu/standards](http://admissions.osu.edu/standards) to determine if the required prerequisite course work has been fulfilled.*

*Students currently enrolled at Ohio State should contact their academic advisor regarding prerequisite course work. Students with current Ohio State applications, either applying directly to a professional program or to any other degree granting program, are not eligible to use this form.*

**Notes:** In some instances, discussions with the student, program representatives and appropriate departments will be required before a final determination can be made. Additionally, the student may be required to contact specific departments to discuss how prerequisite courses can best be fulfilled. Occasionally the evaluation staff will not have the appropriate college course information needed for an accurate evaluation. Should any of these situations pertain to your Prerequisite Evaluation, Professional Admissions will notify you. All professional programs have a specific admissions application and application deadline. For additional information regarding these dates and the necessary admission procedures for a professional program, go to [gpadmissions.osu.edu](http://gpadmissions.osu.edu). In addition to completed prerequisite courses, admission is based on the quality of the applicant’s record and other criteria unique to the individual college or program.

**Please read the following instructions carefully!**

**Personal data**

Complete all that applies. Completed evaluations will be returned via email unless an email address is not provided.

**Previous education**

Complete in order of attendance of all universities (including Ohio State), colleges, schools, technical schools or other post high school educational programs. *One official, or copy of an official, and complete transcript of all courses attempted at each college and university attended, other than The Ohio State University, must be sent to Graduate and Professional Admissions.*

**Prerequisite Evaluation Request**

Check the appropriate box indicating the program for which you want a Prerequisite Evaluation. Only one evaluation for one professional program per prospective applicant will be completed. The prerequisite evaluation takes four weeks to complete. Results will be emailed to you once it is completed or sent by U.S. postal mail if no email address is provided.

**Schedule of courses**

List all courses in which you are currently enrolled in addition to courses you plan to complete **prior** to applying to the college, school or division. Complete all sections.

**Special instructions for international students**

International education systems differ from those in the U.S., therefore Graduate and Professional Admissions frequently needs more than an academic record to determine course equivalency. If you have completed college-level course work in a foreign country, it may be necessary for you to submit detailed course descriptions in effect at the time the class was taken.

**Retention of prerequisite evaluation materials**

Prerequisite evaluation materials are retained by Graduate and Professional Admissions for two years. If you wish to apply to the professional program within this period and your transcripts are current, you need not resubmit transcripts. The request form and official transcripts become the property of The Ohio State University and may not be returned to the student, forwarded to another institution or duplicated.

**For review and processing this PDF form and official, or copy of official, transcripts must be submitted.**

**To Submit this completed form and transcripts and any other supporting documents:**
