Paramount Automotive's mission has always been to design and manufacture innovative vehicle-enhancing products for off-road enthusiasts. To maintain our position at the peak of our industry, we are investing ourselves in new product developments and quality improvements for a wide variety of vehicles and customers. Whether you drive a Truck, Jeep, or SUV, Paramount Automotive is here to enhance your vehicle with products that deliver quality, functionality, and profitability.

To deliver on that highest standard of quality and innovation, Paramount Automotive has enhanced our designs and manufacturing operations in metal and plastics to create superior off-road products. Our metalworking and thermoforming machinery are the finest in the industry, surpassing our competition by all standards of quality and innovation, as we continue to advance from strength to strength.

This positions Paramount Automotive as the pinnacle in off-road design and manufacturing both now and in the future.

Paramount Automotive's Canyon Bumpers are designed to take on the toughest trails and beyond. The Canyon series bumpers are engineered for durability, great looks, and extreme clearance on the trail. The recessed winch mount with integrated fairlead plate provides a low center of gravity and accommodates up to a 12,000 lb. winch. Beefy recovery tabs are located above the bumper deck to maintain the highest possible trail clearance. The "stubby" width that allows the tires direct access to the terrain. And when contact with the rocks is inevitable, the Canyon series bumper bites back with beefy 4mm thick plate steel construction. Every Canyon Series product is finished in fine-textured black powder coat and backed by Paramount's Lifetime Structural Warranty.

FEATURES

- High clearance design tucks up tight to provide extreme approach angle and clearance on tight trails
- 4mm thick steel plate construction, CNC laser cut and precision brake-formed
- Multi-stage fine-textured black powder coat finish
- Faceted ends for high clearance at the corners of the Jeep
- Beefy recovery tabs are located on a recessed plane for added clearance
- Intergrated winch plate supports up to 12,000 lb winch
- NOTE: D-Rings are not included.

Paramount Automotive presents the new Guardian line of Jeep front bumpers. Featuring a multi-piece design manufactured from a stamped steel process that produces a lightweight product of strength and durability. Featuring interchangeable mid-width and full-width end caps to provide two unique profiles, the Guardian line of front bumpers accommodates larger tires while still providing clearance and protection. The Guardian line is built tough to last you through the road and offroad hazards ahead - no problem!

FEATURES

- Multi-piece design with detachable end caps
- Intergrated winch plate supports up to 12,000 pound winch
- D-Ring mounts with intergrated jack points. NOTE: D-Rings are not included.
- Textured black powder-coat finish for durability and corrosion protection
- Lifetime structural warranty against manufacturers defect
- 5 year finish warranty

Paramount Automotive's Rear Bumpers for the JK Wrangler incorporate heavy construction and increased clearance with integrated 2" class III receiver hitch. The spare tire carrier can accommodate up to a 37" tire and mounts to the factory tailgate.

FEATURES

- Improves tire clearance while providing superior protection
- 2" Class 3 rated receiver hitch with safety chain loop
- Third light bracket is included
- CNC laser cut and welded for precision and durability
- Manufactured from durable 4mm steel plate
- Textured black powder-coat finish for durability and corrosion resistance
- Easy bolt-on installation
- Lifetime structural warranty against manufacturers defects
- 5 year finish warranty
- NOTE: D-Rings are not included.

Paramount Automotive's Gen3 bumper for Jeep Wrangler was designed from the ground up to meet the performance needs of everyone from casual to extreme off-roaders. The body-width bumper tucks tightly to the Jeep's corners and has a multi-faceted design to give the best departure angle possible. The high clearance recovery shackle tabs are welded inside and out for strength and the class III hitch receiver is tucked up high and tight. This bumper-mounted carrier removes weight from the Jeep's body while maintaining convenient one-handed operation as it opens and closes in tandem with the tailgate. Mount up to a 40" tire in either vertical or high clearance 45-degree configuration. Rotopax fluid cans may be mounted either high or low according to each Jeeper's needs. Provisions are also included for mounting a high-lift jack, CB antenna, and relocating the license plate, brake light and backup camera to the center of the spare tire.

FEATURES

- Body width, multi-faceted design for high clearance and maximum departure angle in a full-featured bumper
- Integrated high clearance class III tow hitch receiver and mounting provisions for backup sensors
- 1" thick extreme duty recovery shackle tabs are angled for high clearance and welded inside & out
- Heavy duty bumper-mounted tire & accessory carrier removes weight and stress from the Jeep's tailgate & body
- Single-Action operation conveniently opens and closes in tandem with the Jeep's tailgate
- Accommodates up to 40" tire; may be configured in vertical or 45-degree orientation (with fastback top or topless only)
- Configurable mounting positions for Rotopax fuel/fluid jugs; fixed mounts for radio antenna and high-lift Jack
- License plate, backup camera and brake light relocation brackets included
- NOTE: D-Rings are not included

JK/JL/JT HALF DOORS

JK/JL/JT HALF DOORS

Nothing beats taking the top and doors off your Jeep Wrangler or Gladiator. But going topless and doorless can leave you feeling a bit exposed. While open-air wheeling is amazing, getting smacked by a branch or covered in mud quickly gets old. **Paramount Automotive's** Half Doors give the best of both worlds by offering both protection and tons of airflow. And they do all of this while looking awesome too. A key feature of their design are the aluminum mesh screens. Not only do the mesh screens increase visibility and airflow, but they are also removable and easy to paint or powder coat. The rest of the Half Doors feature stout 3mm-thick steel plate construction that is CNC laser-cut and precision brake-formed. Rattling doors can easily lead to insanity, so ours include bump stops to eliminate any unwanted vibrations. The Paramount Half Doors even come complete with rearview mirrors keeping you legal and making the swap to them simple. Paramount Automotive's Half Doors feature a lifetime structural warranty and a five-year finish warranty.

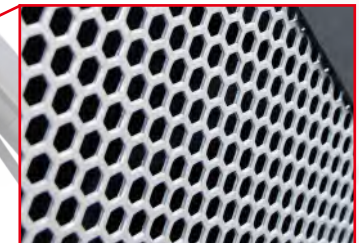

FEATURES

- Combines open-air wheeling with protection
- Increases visibility on the trail over full doors
- Includes rearview mirrors to keep your Jeep legal and simplify swapping doors
- Bump stops keep the doors rattle-free while limit straps prevent them from over opening
- Constructed from brake-formed and CNC laser-cut 3mm thick steel
- A multi-stage, fine-textured powder coat provides protection and great looks

Paramount Automotive outfits your 2007+ Jeep Wrangler for serious off-road duty with great looking, rugged Hydro Series fender flares. The first of their kind on the market, these flares are precision die-formed from a single piece of thick 14-gauge cold rolled steel under extreme hydraulic pressure. This process yields the brutal strength of a fabricated steel flare combined with the refined look of a factory component. Hydro Series flares provide increased tire clearance compared to the stock flares and are engineered to withstand the punishment of hard trail use. Installation is easy with the included stainless steel hardware and simple hand tools. Hydro Series flares are finished in durable fine-textured black powder coat and backed by Paramount's Lifetime Structural Warranty.

FEATURES

- Thick 14-gauge steel one-piece construction for extreme strength
- High pressure die-formed for a precision fit and unmatched "factory" styling
- Integrated DOT approved plug-and-play LED turn signal DRL and side marker lamps
- Easy installation with hand tools and included stainless steel hardware
- Textured black powder-coat finish for protection and durability
- Multi-stage fine-texture black powder coat finish for long lasting great looks and corrosion resistance

Paramount Automotive's Gen2 Inner Liners will seriously upgrade the appearance of your Jeep Wrangler and Gladiator. Precision-cut and brake-formed lightweight aluminum plate combines with aluminum mesh to add some much-needed style to your otherwise boring inner fenders. A multi-stage, fine-textured black powder coat adds to the striking good looks of the Gen2 Inner Liners. Not only do the Gen2 Inner Liners look amazing, but they are also functional. The fine mesh helps improve airflow to the engine bay keeping temperatures in check whether you are crawling over rocks or cruising through the desert. While more air flows into your engine bay, the mesh still keeps out rocks, mud, and other debris. The Paramount Gen2 Inner Liners work with the factory fenders as well as most aftermarket ones. A five-year finish and lifetime structural warranty back the liners making them a great addition to your Jeep.

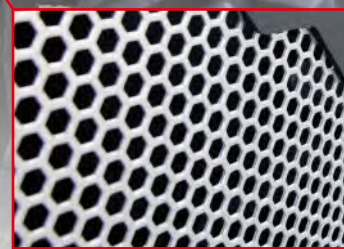

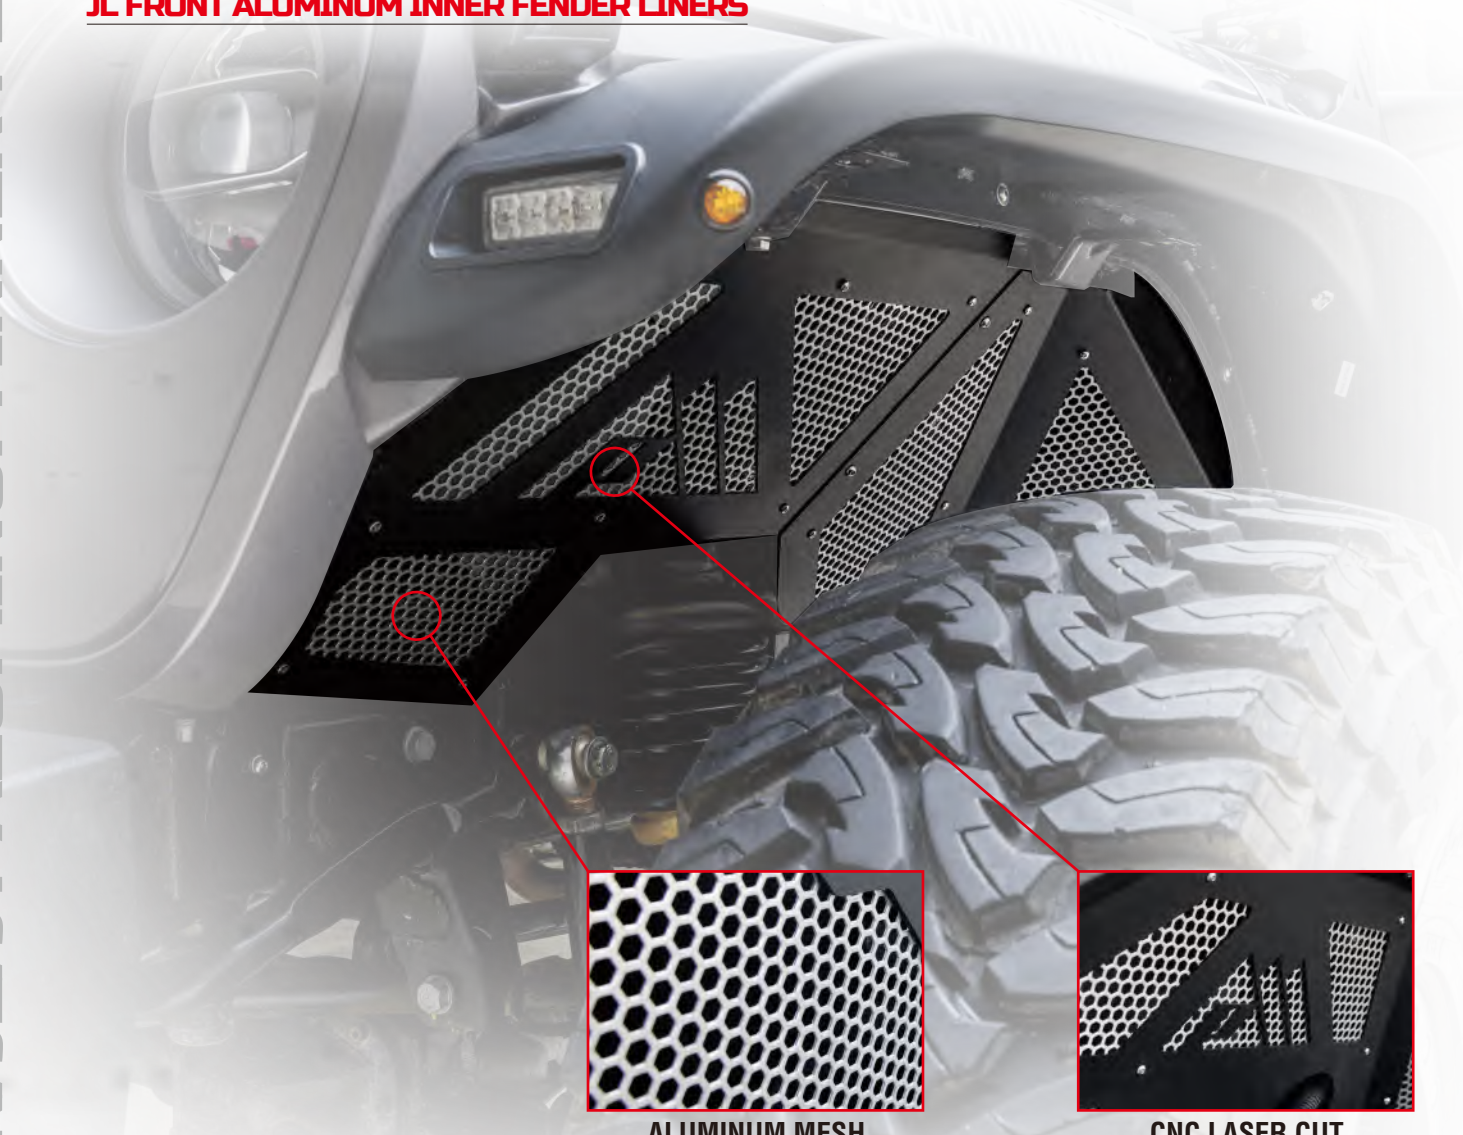

FEATURES

- Adds serious style to the inner fenders of your Jeep
- Crafted from precision-cut, brake-formed aluminum plate with aluminum mesh
- Fits stock and most aftermarket fenders and includes all installation hardware
- Improves airflow to the engine bay at any speed for better cooling
- A multi-stage, fine-textured powder coat offers corrosion resistance and good looks
- Available for both the front and rear fenders and sold as a pair

Designed to take on the toughest trails and beyond, **Paramount Automotive's** Canyon Series Rock Sliders are designed with durability, protection, and clearance for fitting through, over and around the tightest obstacles. Canyon Rock Sliders mount directly to the Jeep at the body mounts rather than placing impact stresses on to the Jeep body itself. The sliders tuck up tight to maintain breakover angle and still provide a beefy rub rail for when the canyon gets tight. And when the trail gets tight, Canyon Series Rock Sliders bite back with beefy 4mm thick plate steel construction, precision brake-formed and professionally welded. Every Canyon Series product is finished in fine-textured black powder coat and backed by Paramount's Lifetime Structural Warranty.

FEATURES

- Sliders mount directly to the Jeep at the body mounts rather than the body itself
- High clearance design tucks up tight to provide great breakover angle on tight trails
- Rock Sliders protrude outward to keep the Jeep's rockers and doors safely away from the rocks
- Integrated entry step features non-slip pads for safe entry and exit in wet and muddy conditions
- 4mm thick steel plate construction, CNC laser cut and precision brake-formed
- Multi-stage fine-texture black powder coat finish for long lasting great looks and corrosion resistance
- Backed by Paramount's lifetime structural warranty and 5-year finish warranty

Space is always at a premium when loading up your Jeep for its next off-road adventure. **Paramount Automotive's** Flat Roof Rack creates the perfect place to stow and secure additional gear. Made with heavy-duty 20-gauge steel crossbars, the Flat Roof Rack is plenty stout and capable of holding up to 150 lbs. of whatever you want to throw on it. The flat design allows oversized items like tents to fit flush to the rack for better aerodynamics, increased fuel economy, and clearance for low-hanging trail obstacles or garage doors. Installation is an easy bolt-on process with no drilling and corrosion-resistant stainless-steel hardware. The Flat Roof Rack bolts together for easy shipping and storage when not in use. Like all of Paramount's products, the rack features a five-year finish and a lifetime structural warranty.

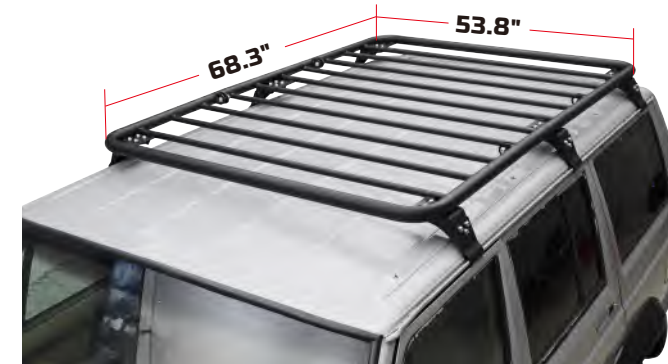

RR

JK/JL/XJ FLAT ROOF RACKS

JK/JL/XJ FLAT ROOF RACKS

FEATURES

- Creates a secure and robust spot to haul more gear and cargo
- The flat design can handle larger items like rooftop tents and solar panels
- Maximizes clearance for low-hanging trail obstacles or garage doors
- Heavy-duty 20-gauge steel crossbars and fully welded joints yield an impressive 150-lb. load rating
- A fine-textured, multi-stage powder coat fights corrosion and looks great
- Bolts together for less shipping costs and easy storage options

Carry more gear for those extended overland adventures, the **Paramount Automotive's** Gen 2 Roof Racks are rated to safely carry up to 150 lbs of gear. The canted front wind deflector reduces wind noise and damage to your cargo. The modular design incorporates fully welded, all steel perimeter sections with raised upper bar for containing and securely tying down loads. The floor of the rack is made of heavy gauge rectangular tubing to provide a flat, secure load surface. Easy, no-drill installation using the included stainless steel hardware. Even empty, the rack will look great on your rig with a multi-stage fine texture black powder coat finish. Backed by Paramount's lifetime structural warranty and 5-year finish warranty.

RR

JK/JL/XJ GEN2 ROOF RACKS

JK/JL/XJ GEN2 ROOF RACKS

Note: The 2 door roof racks can be used on a 4 door jeep if you want to use your Freedom tops.

While the smaller dimensions of the Wrangler help add to its off-road capability, they don't exactly produce a cavernous interior. Load up your Jeep Wrangler with gear and you will quickly run out of space. **Paramount Automotive's** Tailgate Cargo Carrier solves this by adding some much-needed cargo capacity to your Jeep Wrangler. The carrier easily bolts into place onto the tailgate without any drilling necessary creating a 39x18x7-inch platform. Rugged construction and 1-inch steel tubing give the Tailgate Cargo Carrier a 35-lb. load rating, making it a perfect spot for coolers, recovery gear, or anything else that won't fit in your Jeep. It is height adjustable allowing the carrier to clear different size spare tires and is a great place to mount a jack or shovel. Comes with a lifetime structural warranty and a five-year finish warranty.

FEATURES

- 100% bolt-on installation with no drilling required
- An easy way to add additional cargo-carrying capacity to your Jeep
- Made from 1-inch tubing for maximum strength with a 35-lb. load rating
- Height adjustable to accommodate various size spare tires and allow proper positioning
- Allows for mounting of accessories like shovels and jacks
- A fine-textured, multi-stage powder coat protects it and gives great looks

JL SKID PLATES

Tackle the most extreme terrain with the confidence of knowing your Jeep's vulnerable undercarriage components are protected by beefy 5mm thick plate steel armor. These skid system protects the Jeep's engine oil pan, transfer case fuel tank, and muffler. The components have been 3D CAD designed to tuck up as high as possible for almost no loss of ground clearance. Bolt heads are recessed both to protect the hardware and to reduce snags when sliding over rocks. The plates are finished in fine-texture black powder coat and backed by Paramount's lifetime structural and 5-year finish warranty.

FEATURES

- Undercarriage armor protects the Jeep's vulnerable engine and transmission oil pans when traversing extreme terrain
- High clearance design tucks the skid plates up close to the Jeep's undercarriage for almost no loss of ground clearance
- Recessed bolt heads facilitate sliding over obstacles while protecting hardware from rock damage
- Beefy 5mm thick steel plate construction, CNC laser cut and precision brake-formed
- Multi-stage fine-texture black powder coat finish for long lasting great looks and corrosion resistance
- Backed by Paramount's lifetime structural warranty and 5-year finish warranty

While the small size of the Jeep Wrangler makes it perfect for trail use, maximizing its interior space can be a challenge. **Paramount's** new Tailgate Table and Rear Cargo Rack allow you to carry more gear and add versatility to your Jeep. The Rear Cargo Rack mounts in the empty space above the rear cargo area, creating a versatile spot to stow extra gear. A multitude of holes and slots make securing items to the rack a simple process. The Tailgate Table integrates into your Jeep's tailgate creating a perfect spot for trail repairs, cooking, beverages, or other table-related activities. Both the rack and the table use 2mm-thick, precision CNC-machined, and brake-formed steel. And, both feature a fine-textured powder coat for good looks and protection against corrosion. Making adding extra versatility and storage to your Jeep easy.

FEATURES

- The Trail Table is perfect for trail repairs, meal prep, or beverage placement
- The Rear Cargo Rack allows you to take more gear on your next off-road excursion or camping trip
- Installation is easy, drilling required
- Made from 2mm-thick, CNC precision-cut steel for strength without excessive weight
- A fine-textured, multi-stage powder coat prevents corrosion and is good looking
- Both are backed by a five-year finish and lifetime structural warranty

The **Paramount Automotive** Adventure Rack is the perfect solution for securely mounting a rooftop tent to your Toyota Tacoma. A heavy-duty design gives the rack an impressive 600-lb. static load rating making it capable of handling the heaviest rooftop tents and gear. Additional panels between the crossbars make ideal locations to mount anything you need on your next off-road excursion. With 3mm thick precision laser-cut and brake-formed steel, the Adventure Rack is rugged enough for off-road use. Installation is simple with the rack mounting to your Tacoma's factory bed track system and it sits on top of the bed rail for better weight distribution and additional strength. Backed by a five-year finish and lifetime structural warranty and protected with a multi-stage, fine-textured powder coat, the Adventure Rack is available for both short- and long-bed Toyota Tacoma.

FEATURES

- Installs easily by mounting to the factory Toyota Tacoma bed track system
- Can easily handle heavy rooftop tents and cargo with a 600-lb static load rating
- Additional panels allow mounting of recovery boards, Rotopax containers, shovels, and other gear
- Sits on top of the bed rail for better weight distribution and strength
- A heavy-duty design and 3mm thick laser-cut and brake-formed steel make it rugged enough for off-road use
- A fine-textured, multi-stage powder coat provides protection and looks great

Paramount Automotive's Adventure Roof Rack is a solid and secure way to carry additional gear and cargo on your Toyota Tacoma. Made from precision-cut and brake-formed steel, the Adventure Rack is strong enough to yield a 350-lb. static load rating. Multiple crossbars and tie-down points make attaching anything to the rack an easy process. The sleek design of the Adventure Roof Rack and its built-in wind deflector reduce both wind noise and fuel consumption. Other well-thought-out details include grab handles on the side rails to ease access to the top of the rack and cutouts in the front and rear of the rack for LED lights. The Paramount Adventure Toyota Tacoma Roof Rack requires no drilling to install, attaching to factory mounts found on the cab's roof. A multi-stage, fine-textured black powder coat with a five-year warranty protects the rack along with a lifetime structural warranty.

TACOMA ADVENTURE ROOF RACKS

TACOMA ADVENTURE ROOF RACKS

FEATURES

- Easily installs using existing mounts with no drilling required
- An aerodynamic design reduces wind noise and fuel consumption
- Multiple crossbars and tie-down slots make mounting gear easy
- Built-in cutouts in the front and back of the rack for mounting LED lights
- Rugged construction gives the Adventure Roof Rack a 350-lb. load rating for lots of gear-hauling capability
- A multi-stage, fine-textured black powder coat finish protects the rack and looks great

Designed to take on the toughest trails and beyond, **Paramount Automotive's** Canyon Series Rock Sliders are designed with durability, protection, and clearance for fitting through, over and around the tightest obstacles. Canyon Rock Sliders mount directly to the truck at the body mounts rather than placing impact stresses on to the truck body itself. The sliders tuck up tight to maintain breakover angle and still provide a beefy rub rail for when the canyon gets tight. And when the trail gets tight, Canyon Series Rock Sliders bite back with beefy 4mm thick plate steel construction that's precision brake-formed and professionally welded. Every Canyon Series product is finished in fine-textured black powder coat and backed by Paramount's lifetime structural warranty.

FEATURES

- Sliders mount directly to the truck at the body mounts rather than the body itself
- High clearance design tucks up tight to provide great breakover angle on tight trails
- Rock Sliders protrude outward to keep the truck's rockers and doors safely away from the rocks
- Integrated entry step features non-slip pads for safe entry and exit in wet and muddy conditions
- 4mm thick steel plate construction, CNC laser cut and precision brake-formed
- Multi-stage fine-texture black powder coat finish for long lasting great looks and corrosion resistance
- Backed by Paramount's lifetime structural warranty and 5-year finish warranty

TERMS AND CONDITIONS:

WARRANTY/DEFECTIVE RETURNS

UNLESS OTHERWISE SPECIFIED:
ALL Paramount Automotive products carry a 5 year warranty on finish and lifetime warranty against manufacturer defect.

Damage due to improper installation, on or off road hazards, product modification, or neglect are not covered.

This warranty is not transferable from the original buyer. For the original buyer to be eligible for the limited warranty coverage, the buyer must provide proof of purchase.

Paramount Automotive's only obligation shall be to replace its product proven to be defective. Paramount Automotive shall not be liable for any injury, loss or damage, direct or consequential, arising out of the use or the inability to use the product.

Before use, the user shall determine the suitability of the product for its intended use, and assumes all risk and liability whatsoever in connection therewith.

Customer's remedy therefore shall be limited to repair or replacement (at Paramount Automotive's option) of any defective part(s) returned to Paramount Automotive at customer's expense. The determination of whether or not a returned part is defective or subject to coverage under the limited warranties stated herein shall be made at Paramount Automotive's sole discretion.

All returned items must have an RGA number assigned and written visibly on the outside of the package. Issuance of an RGA number is not an approval for credit. Paramount Automotive will repair, replace, or issue credit for the defective product only after its receipt and inspection.

Any modifications made to returned product will nullify qualification for credit. Product must be in its original condition. Paramount Automotive is not responsible for shipping, handling, labor or paint costs for items returned or replaced.

THE FORGOING LIMITED WARRANTIES ARE EXCLUSIVE, AND ARE IN LIEU OF ALL OTHER WARRANTIES, WHETHER WRITTEN, ORAL OR IMPLIED, INCLUDING, WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR ANY WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE.

RETURNS/WARRANTY:

Warranty: 5 Year warranty on finish. Lifetime warranty against manufacturer's defect.

All return requests must be sent on a return goods authorization form ("RGA") provided by Paramount Automotive. The RGA number will be issued by the Paramount Automotive and must appear on the bill of lading.

All return authorizations are valid for 90 days from the date of approval.

Any goods returned without an RGA number will be refused and returned to the sender.

All returns could be subject to a minimum of 20% restocking fee. This charge will be dependent upon the condition of the merchandise received.

Goods must be in saleable condition in the original package with all its original content.

A packing slip must go with all shipments. The packing slip must be in the carton marked as such.

The packing slip must show the following:

- Reseller's complete name and address.
- RGA number.
- Reason for return (e.g., warranty, stock adjustment, etc.). Items listed by part number, in numeric order, and boxes numbered and marked with contents.
- All returns must be shipped prepaid. In case of a shipping error or warranty return, freight credit will be issued.
- All return shipments must be packaged appropriately to prevent damage in transit.
- Resellers will be notified in writing if any product is considered not returnable, and will be given ten (10) business days to inform Paramount Automotive whether such product should be returned freight collect. If Paramount Automotive is not notified within this ten (10) business day period, Paramount Automotive will automatically destroy the product.
