## TOWING PRODUCTS

### ITD2878 Speed Lube X-Series

Standard Duty  
Speed Dolly Set  
Capacity 3,040 lbs

### ITD2890 Speed Lube X-Series

Extreme Duty  
Dolly Set  
Capacity 4,000 lbs

### ITD2778 Extended Life X-Series

Standard Duty  
Speed Dolly Set  
Capacity 3,040 lbs

### ITD2790 Extended Life X-Series

Extreme Duty  
Dolly Set  
Capacity 4,000 lbs

**Features:**

- Speed® Lube Through Spindle Lubrication System
- X-Series™ Design is Lighter Weight Than Older Models
- Billet Break Over Bar Receiver Tube (CNC Machined for Exact Fit)
- Patented Cam Lock Design
- Comfort Grip Billet Aluminum Carry Handle
- Bolt-on, Easy to Replace Spindle with High Wear Bushings
- ITD Endurance™ Powder Coat Black or Plated Zinc Finish with ITD Endurance™ Powder Coat Black Spindles

**Features:**

- Maintenance Free Extended Life™ Automotive Sealed Hub & Bearings (Never Needs Greased)
- X-Series™ Design is Lighter Weight than older models
- Billet Break Over Bar Receiver Tube (CNC Machined for Exact Fit)
- Patented Cam Lock Design
- Comfort Grip Billet Aluminum Carry Handle
- Bolt-on, Easy to Replace Spindle with High Wear Bushings
- ITD Endurance™ Powder Coat Black or Plated Zinc Finish with ITD Endurance™ Powder Coat Black Spindles

**Features**

- Two-Toned silver and gold colored Zinc plating
- Lifting is made easier and safer
- Ratchet mechanism keeps the dollies from dropping while loading
- Axles are less than 23lbs each
- Maximum usable axle width is 84"
- No need to lift or jack the vehicle up
- Aluminum telescoping cross rails makes it easy to adjust for different size vehicles
- Diamond Cut Finished wheels for a cleaner look

**Jerr-Dan Rotators & Heavy Wreckers** are all capable heavy-duty recovery and towing solutions. Each offering unique features and customization options, they are designed to meet the demands of challenging recoveries, stabilize loads effectively, provide exceptional pulling capacity, leverage sufficient power, and cater to the specific needs of operators.

**Jerr-Dan Standard Duty Wreckers** are designed to handle various situations such as breakdowns, recoveries, and repossessions. These wreckers are reliable and dependable, ensuring that they are with you every step of the way. Their easy operation and tough construction make them a trusted tool for professional towing operators.

Overcome even the toughest loading challenges with Jerr-Dan's steel and aluminium series Low Profile Rollbacks available with 20 to 22 foot decks, including dual-angle models. The XLP Series features a low-profile subframe that lowers the deck height above the frame rail and provides greatly improved load angles. All models have a 12,000 lb. deck capacity and can be equipped with a 3,500 lb. wheel lift for extra versatility.

Multilifts and Cable Hoists by Hiab are engineered with radical innovations that ensure greater control, safety, and productivity in any loading operation. With freedom to load any type of container that sits on rails you can offer several services bringing diversity to your business while maintaining a small fleet of trucks.

East Coast Truck and Trailer Sales, Inc. originally began in 1995 in the auto transport business. As a fellow auto transport company, we realized the demand for dealers specializing in auto transport equipment during our search for a new truck and trailer. Shortly after, we began selling car carrier trailers and quickly became the largest dealer for Cottrell, Inc.

Looking to diversify our business, in 2005 ECTTS ventured into the Towing service industry quickly becoming a leading provider to the industry.

Meanwhile, the dealership established for auto transport developed into one serving two industries. In December 2011 we partnered with a leader in the towing and recovery business, Jerr-Dan, for their unsurpassed commitment to product innovation, quality, value and customer service. Jerr-Dan's engineering and design team have earned more than 25 patents around the world for their products, including the advanced rollback wheel-lift and the lightweight/rust resistant tow truck body. We are committed to the quality and longevity our customers get from Jerr-Dan towing and carrier bodies.

In 2020 we introduced a new product line of waste management equipment and accessories by Galfab. Galfab is recognized throughout the waste industry as a premier manufacturer of container hoists for roll-off trucks. Roots of the Galfab brand traverse several decades and they have become known as the leading manufacturer of durable long-lasting roll-off hoist systems. All Galfab Roll-Off Hoist equipment utilizes innovative design, new technology, and superior craftsmanship to ensure quality and durability. Galfab's legendary roll-off hoists, designed by Don Galbreath, are built tough to endure rigorous daily use and accommodate your business' needs safely and with the operator in mind.

Being in the transportation industry ourselves we continued to see the need for dealers to supply quality parts at a reasonable price for both the auto transport and the towing & wrecker industry. So, we began stocking a variety of parts to serve you! We continue to update our inventory to bring you new parts that help you get the job done, promptly and safely! Our parts inventory ranges from towing parts, car hauling parts, safety signs and apparel, winch cables, straps and chains, lighting, and even OEM and chassis parts! If we don't have what you are looking for, just pick up the phone and call us. We will do our best to help find you what you need! Whatever the make or model truck or trailer, we will strive to give you quality parts and quick service from a knowledgeable and friendly staff, all at reasonable prices. We even include free shipping within the continental U.S.! Visit our [parts.ectts.com](http://parts.ectts.com) website for more details!
