## PLEASE NOTE: SOY WARNING

We fry **everything** in a soybean oil blend, and we use a **soy-based butter substitute** for anything grilled.

Available soy-free options include:

- Side Salad: may add grilled chicken breast with oil modification\*
- House Wedge: no bacon, no cornbread croutons, may add grilled chicken breast with oil modification\*
- Deconstructed Cobb Salad: no smoked eggs, grilled chicken with oil modification\*

\*Grilled chicken may be grilled in **olive/pomace oil** in a separate, **freshly washed pan**. **We ask that you use your discretion based on your knowledge of the allergy since there is high risk of cross-contamination.**

\*\*Please note that smoked chicken options are **not** soy-friendly, as our chicken is prepared in a soy sauce brine. Grilled chicken in olive/pomace oil is the only available option for a soy allergy. If you or someone in your party has a soy allergy, please let your server **and** a manager know of the allergy so we can do our best to eliminate risk.
