Our Products

Every **Pollite** mast is manufactured at our state-of-the-art manufacturing facility in the UK by trained experts who have been producing fibreglass masts for over 50 years. Our products are unlike any other fibreglass masts in their composition, and careful control of the manufacturing process ensures every mast is ICAO compliant.

- Corrosion and maintenance free masts.
- Environmental, climate, temperature, weather, jet blast and wind speed resistant.
- Hollow mast construction for concealment of cables.
- Lightweight for easy installation and low shipping costs.
- No electro-magnetic interference.
- Strength and deflection compliant.
- UV resistant gel coat finish.
