

## AUTHOR INDEX III VOLUMES XVI-XX (1975-1979)

MICHELE DAUGHERTY

This author index gives a complete listing of all articles published in the *Notre Dame Journal of Formal Logic*, Volumes XVI-XX (1975-1979). It is arranged alphabetically by surnames of authors. Articles by a given author are listed under his name in chronological order by date of publication. Thus, in this third index, not all authors will have an article numbered 1. Articles with more than one author are listed under the name of each author.

The first author index, for Volumes I-X (1960-1969), was published in Volume X (1969), pp. 453-468. The second, for Volumes XI-XV (1970-1974), appears in Volume XV (1974), pp. 649-664. The following is a list of those authors listed in the first or second author index, but not in the present one.
