

IARC HANDBOOKS

# CERVICAL CANCER SCREENING

VOLUME 18

This publication represents the views and expert opinions of an IARC Working Group on the Evaluation of Cancer-Preventive Interventions, which met remotely, 12–16 October 2020

LYON, FRANCE - 2022

IARC HANDBOOKS OF  
CANCER PREVENTION

International Agency for Research on Cancer

# CONTENTS

<b>NOTE TO THE READER .....</b>	<b>1</b>
<b>LIST OF PARTICIPANTS .....</b>	<b>3</b>
<b>PREAMBLE – SECONDARY PREVENTION .....</b>	<b>9</b>
A. GENERAL PRINCIPLES AND PROCEDURES .....	9
1. Background .....	9
2. Objectives, scope, and definitions .....	10
3. Identification and selection of interventions and outcomes for review .....	12
4. The Working Group and other meeting participants .....	13
5. Development of a volume of the <i>IARC Handbooks</i> .....	16
6. Overview of the scientific review and evaluation process .....	17
7. Responsibilities of the Working Group .....	19
B. SCIENTIFIC REVIEW AND EVALUATION .....	20
1. Definitions .....	20
2. Characterization of the disease .....	22
3. Screening methods .....	22
4. Current global screening practices .....	23
5. Epidemiological studies of each screening method .....	23
6. Summary of data reported .....	34
7. Evaluation and rationale .....	34
References .....	37
<b>GENERAL REMARKS .....</b>	<b>39</b>
<b>LIST OF ABBREVIATIONS .....</b>	<b>45</b>
<b>GLOSSARY .....</b>	<b>49</b>
<b>1. CERVICAL CANCER .....</b>	<b>53</b>
1.1 Global cervical cancer burden .....	53
1.1.1 Incidence .....	53
1.1.2 Mortality .....	53
1.1.3 Trends in incidence .....	57
1.1.4 Lifetime risk of cervical cancer .....	60
1.1.5 Survival .....	60

1.1.6 Prevalence of HPV infection in women .....	62
1.1.7 Projections of global burden .....	63
1.2 Cervical neoplasia .....	64
1.2.1 Biology of HPV and of the cervix relevant to carcinogenesis and screening .....	64
1.2.2 Transmission and natural history of HPV infection and multistage cervical carcinogenesis .....	69
1.2.3 Terminology for pathological classification .....	74
1.2.4 Stage at diagnosis and survival .....	77
1.2.5 Treatment of cervical cancer and of precancerous lesions .....	78
References .....	88
<b>2. CERVICAL CANCER SCREENING PROGRAMMES .....</b>	<b>97</b>
2.1 Introduction .....	97
2.2 Availability and use of cervical cancer screening worldwide .....	98
2.2.1 WHO African Region .....	98
2.2.2 WHO Eastern Mediterranean Region .....	102
2.2.3 WHO European Region .....	106
2.2.4 WHO Region of the Americas: North America .....	114
2.2.5 WHO Region of the Americas: Latin America and the Caribbean .....	119
2.2.6 WHO South-East Asia Region .....	124
2.2.7 WHO Western Pacific Region .....	127
2.3 Quality assurance of screening programmes .....	132
2.3.1 Description and role of quality assurance in screening programmes .....	132
2.3.2 Examples of quality assurance within screening programmes .....	133
References .....	135
<b>3. PARTICIPATION IN SCREENING FOR CERVICAL CANCER .....</b>	<b>153</b>
3.1 Negative and positive determinants of participation .....	153
3.1.1 Health policy determinants .....	153
3.1.2 Structural determinants .....	155
3.1.3 Intermediate determinants at the individual level .....	157
3.1.4 Intermediate determinants at the programme or service organization level .....	158
3.1.5 Intermediate determinants at the health provider level .....	159
3.1.6 Informed decision-making .....	160
3.2 Interventions to increase screening participation .....	161
3.2.1 Interventions to increase participation in cytology-based screening .....	161
3.2.2 Interventions to increase participation in screening by HPV testing .....	169
References .....	180
<b>4. PREVENTIVE AND ADVERSE EFFECTS OF CERVICAL CANCER SCREENING .....</b>	<b>187</b>
4.1 Methodological issues .....	187
4.1.1 Considerations about beneficial effects of cervical screening .....	187
4.1.2 Considerations about harms of cervical screening .....	192
References .....	195

---

4.2 Screening by visual inspection.....	200
4.2.1 Visual inspection techniques .....	200
4.2.2 Beneficial effects of screening using VIA.....	203
4.2.3 Harms of screening using VIA .....	206
References.....	208
4.3 Cytological methods .....	211
4.3.1 Technical descriptions .....	211
4.3.2 Beneficial effects of screening using conventional cytology .....	221
4.3.3 Beneficial effects of screening using LBC .....	236
4.3.4 Cytology based on Romanowsky–Giemsa staining.....	249
4.3.5 Harms of cytological techniques.....	254
References.....	261
4.4 HPV testing.....	275
4.4.1 Technical descriptions .....	275
4.4.2 Comparison of HPV DNA testing versus cytology .....	279
4.4.3 Comparison of HPV DNA testing versus VIA.....	296
4.4.4 Comparison of HPV DNA testing alone versus co-testing .....	309
4.4.5 HPV testing on self-collected versus clinician-collected samples .....	320
4.4.6 Comparison of HPV RNA testing versus HPV DNA testing .....	324
4.4.7 Triage of women with a positive primary HPV screening test result.....	328
4.4.8 Harms of HPV testing.....	333
References.....	342
4.5 Colposcopy.....	357
4.5.1 Technical description of a colposcopic examination .....	357
4.5.2 Accuracy of colposcopy in cytology-based screening .....	361
4.5.3 Colposcopy in HPV-based screening .....	362
4.5.4 Random biopsies for diagnosis of CIN2+.....	363
4.5.5 Risk-based colposcopy practice .....	364
4.5.6 Harmful effects of colposcopy.....	365
References.....	368
4.6 Emerging technologies .....	373
4.6.1 Emerging technologies using artificial intelligence .....	374
4.6.2 Emerging molecular technologies .....	379
References.....	381
<b>5. SCREEN-AND-TREAT APPROACH AND WOMEN AT DIFFERENTIAL RISK .....</b>	<b>385</b>
5.1 Screen-and-treat approach.....	385
5.1.1 Rationale for screen-and-treat strategies .....	385
5.1.2 Screening and triage modalities in screen-and-treat programmes.....	386
5.1.3 Treatment modalities in screen-and-treat programmes .....	387
5.1.4 Evaluation of screen-and-treat strategies.....	388
5.2 Screening of women at differential risk .....	393
5.2.1 Screening of women living with HIV.....	393
5.2.2 Screening of older women .....	401
5.2.3 Screening of women with a personal history of precancerous lesions.....	405
5.2.4 Screening of HPV vaccinated populations .....	415
References.....	420

<b>6. SUMMARY .....</b>	<b>431</b>
6.1 Cervical cancer .....	431
6.1.1 Cervical cancer burden.....	431
6.1.2 Cervical neoplasia .....	431
6.2 Cervical cancer screening programmes .....	433
6.2.1 WHO African Region.....	433
6.2.2 WHO Eastern Mediterranean Region.....	433
6.2.3 WHO European Region.....	434
6.2.4 WHO Region of the Americas: North America.....	434
6.2.5 WHO Region of the Americas: Latin America and the Caribbean.....	434
6.2.6 WHO South-East Asia Region .....	434
6.2.7 WHO Western Pacific Region .....	435
6.2.8 Quality assurance of screening programmes .....	435
6.3 Participation in screening for cervical cancer.....	435
6.4 Preventive and adverse effects of cervical cancer screening methods .....	436
6.4.1 Visual screening methods .....	436
6.4.2 Cytological methods .....	437
6.4.3 HPV testing .....	439
6.4.4 Colposcopy.....	443
6.4.5 Emerging technologies.....	443
6.5 Screen-and-treat approach and women at differential risk.....	444
6.5.1 Screen-and-treat approach.....	444
6.5.2 Screening of women at differential risk .....	445
<b>7. EVALUATIONS AND COMPARISON STATEMENTS .....</b>	<b>447</b>
7.1 Visual inspection with acetic acid.....	447
7.2 Conventional cytology .....	448
7.3 Liquid-based cytology .....	449
7.4 HPV nucleic acid testing .....	450
7.5 Cytology based on Romanowsky–Giemsa staining .....	451
7.6 HPV DNA testing versus VIA .....	451
7.7 HPV DNA testing versus cytology .....	451
7.8 HPV DNA testing alone versus co-testing .....	452
7.9 Considerations on related issues .....	452
7.9.1 Triage .....	452
7.9.2 Self-sampling .....	453
7.9.3 Screen-and-treat strategies .....	453
7.9.4 Interventions to increase participation in screening.....	453
<b>ANNEX 1. Supplementary material for Section 4.4.7 Triage of women with a positive primary HPV screening test result .....</b>	<b>455</b>
