Clearly and Quickly Identify YOUR Existing Products by Color Difference – In Green

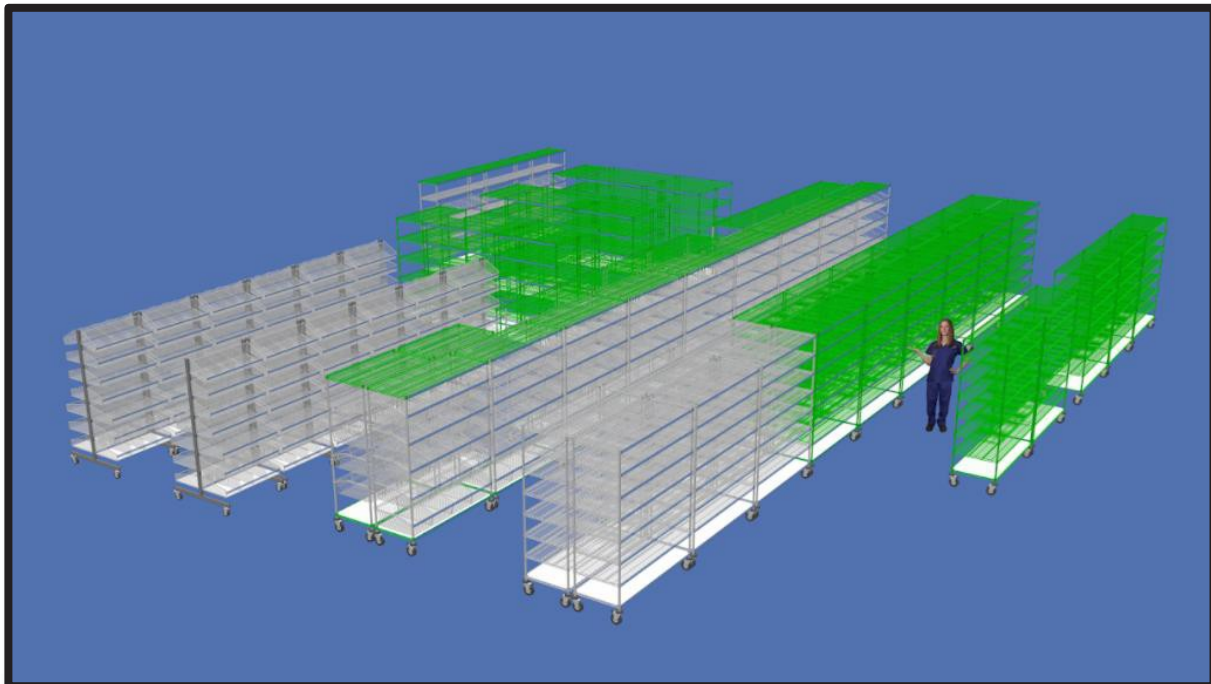

Your New Proposed Storage Area Can Be Experienced With 3D Walk Through.
INSPECT Each Aisle – Each Shelf Unit - Each Detail
Before You Purchase!

Your New Proposed Storage Area Can Be Experienced With 3D Walk-Through.
Each Aisle – Each Shelf Unit – Each Detail – **BEFORE You PURCHASE!**

Clearly and Quickly Identify **YOUR Existing Shelving** by Color Difference - In Green.

Ask Yourself One Simple Question.....

**Does Your Existing Storage
Area Work Well For You?**

**IF NOT – Why Would
You Want To REPEAT It?**

**70% of healthcare inventory items DO NOT FIT well on Flat Shelves.
Do Not Use Plastic Bins that Gather Dust, Occlude Light and Waste Space.**

We make it EASY for you and your staff throughout the process.

- NO CHARGE to Assess, Design and Quote your areas.
- We inventory your existing storage shelving for reuse.
- Our full CAD design department can work with your contractor, planner and architect.
- Detailed images of all products quoted (no guess work on what you are potentially buying!)

Wire Shelving – How To Build Your Unit

STEP #1. The Proper Finish for Your Shelf Need:

- **Chrome Finish** – Standard Silver Chrome finish is perfect for **standard storage needs** in ambient temperature areas where *humidity*, the **need for refrigeration, exposure to outdoor elements or high temp washer exposure** is not a factor.
- **DuroSeal Finish** - Is the standard for storage applications that **include exposure to outdoor elements (humidity)**, as well as areas such as **Dietary, Lab, Pharmacy and for areas that require refrigeration.**
- **Stainless Steel Finish** – is necessary when the shelving or carts are **exposed to High Temp Cart Washers**. Stainless Steel shelves can be *either* Solid or Open Wire shelves; however, both can be mixed together in a single unit.
- **Galvanized Finish** – Galvanized shelves are always “solid” shelves, however they can be mixed with open wire shelves of a different finish in a single unit.

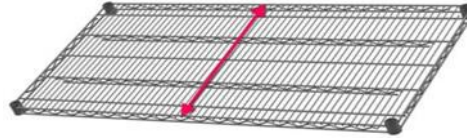

STEP #2. The Proper Base for Your Shelf Need:

- **Stationary** – This is the standard stationary, stand alone, shelf unit base with leveling bolts at the bottom of all 4 poles.
- **Casters** – The standard configuration on casters includes **(2) 5” Locking casters** and **(2) 5” swivel casters**. Casters are appropriate for nominal movement of shelf units or cart within a facility.
- **Dolly Base** - This base is a rigid frame on casters utilized on larger carts and shelf units that are used for transport over long distances or regular and repeated transport over elevator thresholds .
- **Seismic** - Seismic anchorage may be specified. This may include OSHPD approved seismic floor mounts for all (4) posts of any shelf unit.
- **Track (High Density)**– Track with shelving on **Skates or Carriages** can be utilized where **Maximum Storage Capacity is desired**.

STEP #3 The Proper Size for Your Shelf Need:

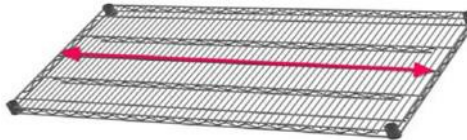

- **How Deep (Front to Back)**

Available In The Follow Depths					
14"	18"	21"	24"	30"	36"

- **How WIDE (Side to Side)**

Available In The Follow Widths							
24"	30"	36"	42"	48"	54"	60"	72"

- **Baskets available in 18” & 24” Depths.**

Available In The Follow Widths			
24"	36"	48"	60"

- **Post Mount QWall available in 18” & 24” Depths.**

Available In The Follow Widths		
36"	48"	60"

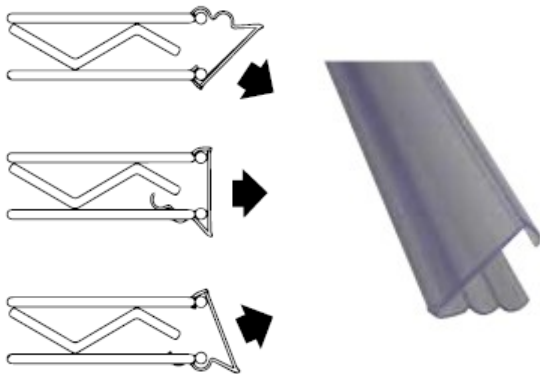

Mix and Match BASKETS with Flat Shelves for a Better Fit for Your Bulky Hard to Contain Products that always wind up falling on the floor.

STEP #4. Available accessory Items:

OTHER SHELF OPTIONS

HIGH DENSITY TRACK SHELVING

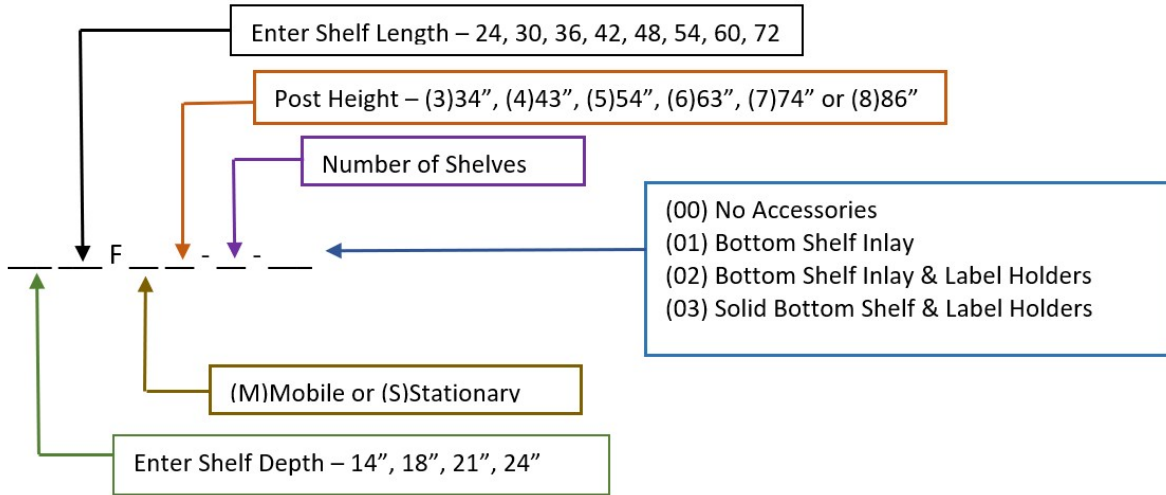

**Maximizes Storage Capacity + Increases Productivity
= Cost-Saving Performance**

QC Storage HD System uses a skate concept, utilizing the structural integrity of the storage shelving units.

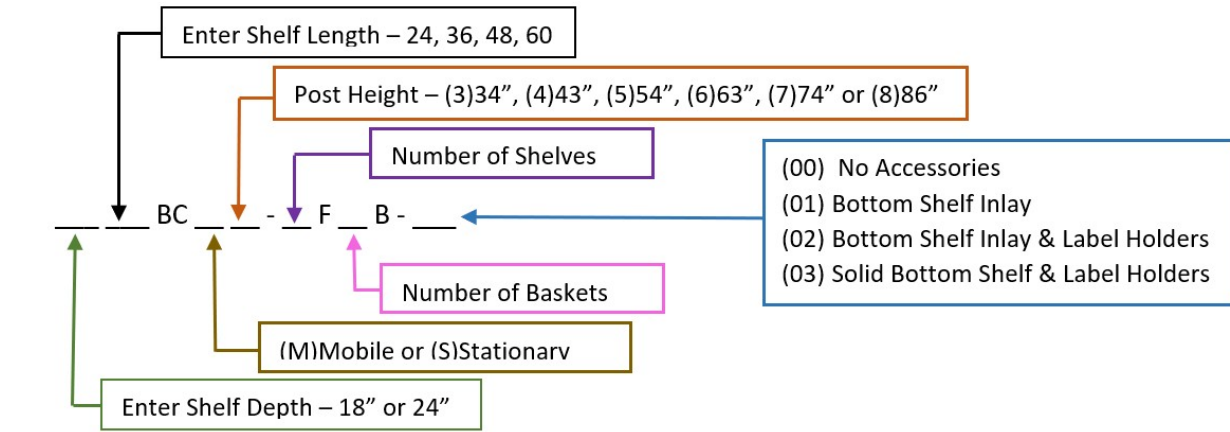

The low-profile, non-corrosive aircraft aluminum track measures 7/16" at its highest peak, allowing for easy cleaning and ADA compliance. Floor tracks provide a smooth, level surface, when inconsistent or uneven floor conditions exist.

Durable Dolly Base for Over the Road Transportation

IV Poles and Accessories

IV Pole Buying Guide

Pole Selections

Standard

Chrome Pole:
For use in non-acute areas.

Premium

Stainless Steel Pole:
For use in OR and our most durable pole option

Caster Selections

Standard

20 Ball Bearing Casters:
Quality Caster for Lighter Weight Bases.

Premium

30 Ball Bearing Casters:
For heavy duty bases. Better elevator transitions.

Base Selections

Standard

5 Leg Economy Base:
240 diameter
For lighter use areas.

6 Leg Economy Base:
240 diameter
Better stability for use where only standard IVs administered.

Premium

5 Leg Weighted Base:
160 diameter
Available in five standard colors.
For infusion pumps when paired with SSPole.

5 Leg Spider Low Center of Gravity Base:
220 diameter
Available in five standard colors
For infusion pumps when paired with SSPole.

6 Leg Spider Low Center of Gravity Base:
220 diameter
Available in five standard colors
For infusion pumps when paired with SSPole. Most stable pole and best elevator transition.

Top Selections

Standard

2-Hook Ram's Horn Top:
For light use areas.

4-Hook Ram's Horn Top:
For standard applications.

Premium

6-Hook Ram's Horn Top:
For use in specialty applications where several different IV Bags are needed.

8-Hook Rake Top:
For use in specialty applications where several different IV Bags are needed.

MCM280 Series

Double IV Pole with Steering Wheel and Tray

MCM286

Double IV Pole with Steering Wheel and Tray

This IV Pole is designed for areas where several infusion pumps are needed such as ICU. Double poles make more spots to hang pumps and the two four hook tops make it easier to keep IV lines organized. Height adjusts from 85"-110". Our 6 Leg spider base with 3" ball bearing casters make this a very stable and easy to move pole. Full circle steering wheel makes it easy to maneuver from any side. Complete pole construction is 304 grade stainless steel. Removable plastic tray makes a great place for storage and a spot to set things during bag changes and setup.

MCM290 Series

5 Leg Foot Control IV Pole

MCM290

5 Leg Foot Control IV Pole

Fully welded stainless steel constructed IV Pole with 22" diameter 5 Leg spider base. Foot control height adjustment leaves hands free to adjust pole, IV Tubing and bags. 2" swivel casters make moving easy. Bar to protect foot pedal from getting bumped. 4 Hook ram's horn style top. 1.25" diameter pole adjust in height from 52"-94". Easy to raise, simply by lifting pole to desired height. Ships fully assembled-no further assembly required.

MCM200 Series

Lift Assist IV Poles

MCM251

4 Hook Stainless Steel Lift Assist IV Pole

MCM252

8 Hook Stainless Steel Lift Assist IV Pole

MCM253

28 Hook Stainless Steel Lift Assist IV Pole

An IV Pole designed for the nurse! Eliminates lift bags up high and straining backs and shoulders. Simply load the pole up with bags and turn the crank to raise. Adjusts in height from 56"-96" just by turning the crank. Large 6 leg base adds the needed stability. 3" scuff resistant casters provide unmatched maneuverability. Base post is 2" square stainless steel tube with upper extension tube of 1 1/4" stainless steel tube. No electric motors or hydraulic pumps to replace. Available with 4-hook, 8-hook or 28-hook top.

MCM200 Series

Infusion Pump Frame for IV Pole

MCM259

Infusion Pump Frame for IV Pole

Mounts with 2 Universal Clamps (sold separately)

This frame attaches to an IV Pole with two universal clamps (sold separately). Designed to hold up to 4 infusion pumps. 1" tubular frame in chrome construction. Measures 17 3/4" x 27 3/4".

Medical Storage Carts and Accessories

Medical Storage Carts Are Available In Single, Double or Triple Column Width with Tambour or Hinged Doors. The Interiors are Available with Shelves, Trays, Cath Slides or Any Combination To Meet Your Needs. Cart Bases Can Be Customized to Accommodate a Robotic Delivery Cart.

MRI Conditional Procedure Carts

- Designed for compatibility in MRI suites
- Tested by independent testing authority to 3 Tesla level (copies of report available)
- Meets American Society for Testing and Materials (ASTM) International, designation: F2503-05 definition of “MR-Conditional”
- Cabinet painted gloss white with MRI identification sticker applied
- Low-ferrous, ball-bearing, full extension drawer slides
- Low-ferrous 5” sealed ball-bearing casters; full swivel – one with brake, one directional
- BEST® brand lock on cabinet, with 2 keys
- Painted aluminum break-away lock bar with 100 break-away seals
- Corner bumpers, protecting the cart
- Painted aluminum pull-out shelf
- Antimicrobial plastic top, removable
- MR-Conditional accessories available
- Latex free
- Durable, hard-baked powder coat finish

Scope Cabinets

The Sure-Dry Scope Cabinet includes the industry best Positive Pressure HEPA Filtered Drying system. Inside air is replaced inside the cabinet 4 times per minute. Meets or exceeds Joint Commission, AORN, SGNA, and AAMI guidelines. Available In Painted Steel or Stainless Steel.

Stainless Steel O.R. Equipment

Stainless Steel Tables

MCM500 Series Instrument Tables with Shelf

Our most common instrument table with lower shelf. Also known as a back table in the OR. Fully welded stainless steel construction. These tables are manufactured to our CR specifications and do not have any open cavities to collect unwanted substances. All edges are glove friendly. Ships fully assembled.

- › Easy to clean
- › Noripped gloves
- › Transport & moves smoothly

MCM501	160W x 200L x 340H
MCM519	200W x 200L x 340H
MCM502	160W x 300L x 340H
MCM503	180W x 330L x 340H
MCM504	200W x 360L x 340H
MCM505	240W x 360L x 340H
MCM506	200W x 480L x 340H
MCM507	240W x 480L x 340H
MCM508	240W x 600L x 340H
MCM509	240W x 720L x 340H

MCM510 Series Instrument Tables with H-brace

Instrument table with H-brace adds more clearance around the base of the tables for storage and fitting around obstacles. Fully welded stainless steel construction. These tables are manufactured to our CR specifications and do not have any open cavities to collect unwanted substances. All edges are glove friendly. Ships fully assembled.

- › Easy to clean
- › Noripped gloves
- › Transport & moves smoothly
