

Half Round Gutter

A traditional Spanish style gutter, our Half Round gutter has good water carrying capabilities and is particularly suitable to conventional homes as well as industrial and office type buildings because of its attractiveness and practicability.

Queensland Sheet Metal manufactures Half Round gutter in a variety of different sizes to suit a range of applications. Half Round gutter is available in Zinalume®, Colorbond® or Galvanised materials as well as specialty metals such as Copper or Stainless Steel for those special projects. We cut these gutters to length and can manufacture them any length up to 8m.
