STURM, RUGER & COMPANY, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

(Dollars in thousands, except per share)

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation of the results of the interim periods. Operating results for the six months ended July 1, 2017 may not be indicative of the results to be expected for the full year ending December 31, 2017. These financial statements have been prepared on a basis that is substantially consistent with the accounting principles applied in our Annual Report on Form 10-K for the year ended December 31, 2016.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Organization:

Sturm, Ruger & Company, Inc. (the “Company”) is principally engaged in the design, manufacture, and sale of firearms to domestic customers. Approximately 99% of sales are from firearms. Export sales represent approximately 5% of total sales. The Company’s design and manufacturing operations are located in the United States and almost all product content is domestic. The Company’s firearms are sold through a select number of independent wholesale distributors, principally to the commercial sporting market.

The Company also manufactures investment castings made from steel alloys and metal injection molding (“MIM”) parts for internal use in its firearms and for sale to unaffiliated, third-party customers. Less than 1% of sales are from the castings segment.

Principles of Consolidation:

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary. All significant intercompany accounts and transactions have been eliminated.

Fair Value of Financial Instruments:

The carrying amounts of financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities, approximate fair value due to the short-term maturity of these items.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Reclassifications:

Certain prior period balances have been reclassified to conform to current year presentation.

Recent Accounting Pronouncements:

On November 20, 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-17, Balance Sheet Classification of Deferred Taxes (Topic 740). The new guidance requires that all deferred tax assets and liabilities be presented as a net noncurrent asset or liability on the balance sheet. Previously such items were presented as a net current asset or liability and a net noncurrent asset or liability. The new guidance was effective for fiscal years beginning after December 15, 2016 and interim periods thereafter. The Company adopted ASU 2015-17 in the first quarter of 2017 and applied it retroactively to all prior periods presented in the financial statements. The impact of adopting this change in accounting principle on the December 31, 2016 balance sheet was to reduce current deferred tax assets and working capital by \$8,859 and noncurrent deferred tax liabilities by \$8,526 from the amounts previously reported for these items.

On March 30, 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718). The most significant change in the new compensation guidance is that all excess tax benefits and tax deficiencies (including tax benefits of dividends) on share-based compensation awards should be recognized in the Statement of Income as income tax expense. Previously such benefits or deficiencies were recognized in the Balance Sheet as adjustments to additional paid-in capital. The new guidance was effective in fiscal years beginning after December 15, 2016 and interim periods thereafter. The Company adopted ASU 2016-09 in the first quarter of 2017. The impact of adopting this change in accounting principle reduced the Company’s effective tax rate by 1% for the period ending July 1, 2017. This did not have a material impact on the Company’s results of operations or financial position.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The updated standard will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective and permits the use of either a full retrospective or retrospective with cumulative effect transition method. In August 2015, the FASB issued ASU 2015-14 which defers the effective date of ASU 2014-09 one year making it effective for annual reporting periods beginning after December 15, 2017. We plan to adopt the provisions of ASU 2014-09 on a modified retrospective basis. We do not expect the adoption of ASU 2014-09 to have a material impact on our consolidated revenue. We continue to assess the overall impact the adoption of ASU 2014-09 will have on our consolidated financial statements.

On February 25, 2016, the FASB issued ASU 2016-02, Leases (Topic 842), its long-awaited final standard on the accounting for leases. The most significant change in the new lease guidance requires lessees to recognize right-of-use assets and lease liabilities for all leases other than those that meet the definition of short-term leases. For short-term leases, lessees may elect an accounting policy by class of underlying asset under which these assets and liabilities are not recognized and lease payments are generally recognized over the lease term on a straight-line basis. This change will result in

lessees recognizing right-of-use assets and lease liabilities for most leases currently accounted for as operating leases under legacy U.S. GAAP. The new lease guidance is effective in fiscal years beginning after December 15, 2018 and interim periods thereafter. Early application is permitted for all entities. The Company is currently evaluating the effect that the standard will have on the consolidated financial statements.

NOTE 3 - INVENTORIES

Inventories are valued using the last-in, first-out (LIFO) method. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs existing at that time. Accordingly, interim LIFO calculations must necessarily be based on management's estimates of expected year-end inventory levels and costs. Because these are subject to many factors beyond management's control, interim results are subject to the final year-end LIFO inventory valuation.

During the six month period ended July 1, 2017, inventory quantities were reduced. If this reduction remains through year-end, it will result in a liquidation of LIFO inventory quantities carried at lower costs prevailing in prior years as compared with the current cost of purchases. Although the effect of such a liquidation cannot be precisely quantified at the present time, management believes that if a LIFO liquidation occurs in 2017, the impact may be material to the Company's results of operations for the period but will not have a material impact on the financial position of the Company.

Inventories consist of the following:

	July 1, 2017	December 31, 2016
Inventory at FIFO		
Finished products	\$ 29,529	\$ 24,100
Materials and work in process	69,336	75,317
Gross inventories	98,865	99,417
Less: LIFO reserve	(44,021)	(42,542)
Less: excess and obsolescence reserve	(2,603)	(2,340)
Net inventories	\$ 52,241	\$ 54,535

NOTE 4 - LINE OF CREDIT

The Company has a \$40 million revolving line of credit with a bank. This facility is renewable annually and terminates on June 15, 2018. Borrowings under this facility bear interest at LIBOR (1.740% at July 1, 2017) plus 200 basis points. The Company is charged three-eighths of a percent (0.375%) per year on the unused portion. At July 1, 2017 and December 31, 2016, the Company was in compliance with the terms and covenants of the credit facility, which remains unused.

NOTE 5 - EMPLOYEE BENEFIT PLANS

The Company sponsors a 401(k) plan that covers substantially all employees. The Company matches a certain portion of employee contributions using the safe harbor guidelines contained in the Internal Revenue Code. Expenses related to these matching contributions totaled \$0.8 million and \$1.8 million for the three and six months ended July 1, 2017, respectively, and \$0.8 million and \$1.7 million for the three and six months ended July 2, 2016, respectively. The Company plans to contribute

approximately \$1.6 million to the plan in matching employee contributions during the remainder of 2017.

In addition, the Company provided supplemental discretionary contributions to the 401(k) plan totaling \$1.3 million and \$3.2 million for the three and six months ended July 1, 2017, respectively, and \$1.3 million and \$3.1 million for the three and six months ended July 2, 2016, respectively. The Company plans to contribute approximately \$2.5 million in supplemental contributions to the plan during the remainder of 2017.

NOTE 6 - INCOME TAXES

The Company's 2017 and 2016 effective tax rates differ from the statutory federal tax rate due principally to state income taxes partially offset by tax benefits related to the American Jobs Creation Act of 2004. The Company's effective income tax rate in both the three and six months ended July 1, 2017 was 35.0%. The Company's effective income tax rate in both the three and six months ended July 2, 2016 was 36.0%. This reduction is primarily the result of the Company's adoption of ASU 2016-09 on January 1, 2017, as previously discussed in the Recent Accounting Pronouncements section of Note 1.

Income tax payments for the three and six months ended July 1, 2017 totaled \$16.2 million and \$16.3 million, respectively. Income tax payments for the three and six months ended July 2, 2016 totaled \$16.3 million and \$20.9 million, respectively.

The Company files income tax returns in the U.S. federal jurisdiction and various state jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal and state income tax examinations by tax authorities for years before 2014.

The Company does not believe it has included any "uncertain tax positions" in its federal income tax return or any of the state income tax returns it is currently filing. The Company has made an evaluation of the potential impact of additional state taxes being assessed by jurisdictions in which the Company does not currently consider itself liable. The Company does not anticipate that such additional taxes, if any, would result in a material change to its financial position.

NOTE 7 - EARNINGS PER SHARE

Set forth below is a reconciliation of the numerator and denominator for basic and diluted earnings per share calculations for the periods indicated:

	Three Months Ended		Six Months Ended	
	July 1, 2017	July 2, 2016	July 1, 2017	July 2, 2016
Numerator:				
Net income	\$10,199	\$23,515	\$32,423	\$46,792
Denominator:				
Weighted average number of common shares outstanding – Basic	17,668,514	18,968,548	17,944,035	18,955,851
Dilutive effect of options and restricted stock units outstanding under the Company’s employee compensation plans	232,214	237,592	195,326	217,672
Weighted average number of common shares outstanding – Diluted	17,900,728	19,206,140	18,139,361	19,173,523

The dilutive effect of outstanding options and restricted stock units is calculated using the treasury stock method. There were no stock options that were anti-dilutive and therefore not included in the diluted earnings per share calculation.

NOTE 8 - COMPENSATION PLANS

In May 2017, the Company’s shareholders approved the 2017 Stock Incentive Plan (the “2017 SIP”) under which employees, independent contractors, and non-employee directors may be granted stock options, restricted stock, deferred stock awards, and stock appreciation rights, any of which may or may not require the satisfaction of performance objectives. Vesting requirements are determined by the Compensation Committee of the Board of Directors. The Company has reserved 750,000 shares for issuance under the 2017 SIP, of which 738,000 shares remain available for future grants as of July 1, 2017.

In April 2007, the Company adopted and the shareholders approved the 2007 Stock Incentive Plan (the “2007 SIP”), which had similar provisions as the 2017 SIP. The 2007 SIP plan expired April 24, 2017. The Company had reserved 2,550,000 shares for issuance under the 2007 SIP, of which 2,181,000 shares were issued.

Compensation costs related to all share-based payments recognized in the statements of operations aggregated \$1.0 million and \$1.6 million for the three and six months ended July 1, 2017, respectively, and \$0.7 million and \$1.4 million for the three and six months ended July 2, 2016, respectively.

Stock Options

A summary of changes in options outstanding under the 2007 SIP is summarized below:

	Shares	Weighted Average Exercise Price	Grant Date Fair Value
Outstanding at December 31, 2016	11,838	\$8.95	\$6.69
Granted	-	-	-
Exercised	-	-	-
Expired	-	-	-
Outstanding at July 1, 2017	11,838	\$8.95	\$6.69

The aggregate intrinsic value (mean market price at July 1, 2017 less the weighted average exercise price) of options outstanding under the 2007 SIP was approximately \$0.6 million.

Restricted Stock Units

Beginning in 2009, the Company began granting restricted stock units to senior employees in lieu of incentive stock options. The vesting of these awards is dependent on the achievement of corporate objectives established by the Compensation Committee of the Board of Directors. Beginning in 2011, a three year vesting period was added to the performance criteria, which had the effect of requiring both the achievement of the corporate performance objectives and the satisfaction of the vesting period.

There were 114,300 restricted stock units issued during the six months ended July 1, 2017. Total compensation costs related to these restricted stock units are \$4.7 million. These costs are being recognized ratably over the vesting period of three years. Total compensation cost related to restricted stock units was \$0.9 million and \$1.6 million for the three and six months ended July 1, 2017, respectively, and \$0.7 million and \$1.4 million for the three and six months ended July 2, 2016, respectively.

NOTE 9 - OPERATING SEGMENT INFORMATION

The Company has two reportable segments: firearms and castings. The firearms segment manufactures and sells rifles, pistols, and revolvers principally to a select number of independent wholesale distributors primarily located in the United States. The castings segment manufactures and sells steel investment castings and metal injection molding parts.

Selected operating segment financial information follows:

(in thousands)	Three Months Ended		Six Months Ended	
	July 1, 2017	July 2, 2016	July 1, 2017	July 2, 2016

Identifiable Assets				
Firearms			\$225,621	\$242,758
Castings			13,648	16,096
Corporate			44,822	88,025
			\$284,091	\$346,879

NOTE 10 – RELATED PARTY TRANSACTIONS

The Company contracts with the National Rifle Association (“NRA”) for some of its promotional and advertising activities, including the 2016 “Ruger \$5 Million Match Campaign” and the 2015-16 “2.5 Million Gun Challenge”. Payments made to the NRA in the three and six months ended July 1, 2017 were insignificant. The Company paid the NRA \$1.0 million and \$2.0 million in the three and six months ended July 2, 2016. One of the Company’s Directors also serves as a Director on the Board of the NRA.

The Company has contracted with Symbolic, Inc. (“Symbolic”) to assist in its marketing efforts. During the three and six months ended July 1, 2017, the Company paid Symbolic \$0.3 million and \$1.0 million, respectively, which amounts included \$0.1 million and \$0.4 million, respectively, for the reimbursement of expenses paid by Symbolic on the Company’s behalf. During the three and six months ended July 1, 2016, the Company paid Symbolic \$0.4 million and \$1.0 million, respectively, which amounts included \$0.1 million and \$0.4 million, respectively, for the reimbursement of expenses paid by Symbolic on the Company’s behalf. Symbolic’s principal and founder was named the Company’s Vice President of Marketing in June 2017, and remains a partner of Symbolic.

NOTE 11 - CONTINGENT LIABILITIES

As of July 1, 2017, the Company was a defendant in four (4) lawsuits and is aware of certain other such claims. The lawsuits fall into three categories: traditional product liability litigation, patent litigation, and municipal litigation, discussed in turn below.

Traditional Product Liability Litigation

Two of the four lawsuits mentioned above involve claims for damages related to allegedly defective products due to their design and/or manufacture. These lawsuits stem from specific incidents of personal injury and are based on traditional product liability theories such as strict liability, negligence and/or breach of warranty.

The Company management believes that the allegations in these cases are unfounded, that the incidents were unrelated to the design or manufacture of the firearms, and that there should be no recovery against the Company.

Patent Litigation

Davies Innovations, Inc. v. Sturm, Ruger & Company, Inc. is a patent litigation suit originally filed in the United States District Court for the Southern District of Texas, Galveston Division. Upon motion by the Company, the case was transferred to the United States District Court for the District of New Hampshire. The suit is based upon alleged patent infringement as the plaintiff claims that certain features of the Ruger SR-556 and SR-762 modern sporting rifles infringe its patent. The complaint seeks a judgment of infringement and unspecified monetary damages including costs, fees and treble damages.

Pursuant to the Company's Motion for Summary Judgment, on February 15, 2017, the Court dismissed the plaintiff's claim of literal infringement, but allowed the case to proceed to discovery on alternate theories.

The Company management believes that the allegations in this case are unfounded, that there is no infringement of plaintiff's patent, that plaintiff's patent is invalid, and that there should be no recovery against the Company.

Municipal Litigation

Municipal litigation generally includes those cases brought by cities or other governmental entities against firearms manufacturers, distributors and retailers seeking to recover damages allegedly arising out of the misuse of firearms by third-parties.

There is only one remaining lawsuit of this type, filed by the City of Gary in Indiana State Court in 1999. The complaint in that case seeks damages, among other things, for the costs of medical care, police and emergency services, public health services, and other services as well as punitive damages. In addition, nuisance abatement and/or injunctive relief is sought to change the design, manufacture, marketing and distribution practices of the various defendants. The suit alleges, among other claims, negligence in the design of products, public nuisance, negligent distribution and marketing, negligence per se and deceptive advertising. The case does not allege a specific injury to a specific individual as a result of the misuse or use of any of the Company's products.

After a long procedural history, the case was scheduled for trial on June 15, 2009. The case was not tried on that date and was largely dormant until a status conference was held on July 27, 2015. At that time, the court entered a scheduling order setting deadlines for plaintiff to file a Second Amended Complaint, for defendants to answer, and for defendants to file dispositive motions. The plaintiff did not file a Second Amended Complaint by the deadline.

In 2015, Indiana passed a new law such that Indiana Code § 34-12-3-1 became applicable to the City's case. The defendants have filed a joint motion for judgment on the pleadings, asserting immunity under §34-12-3-1 and asking the court to revisit the Court of Appeals' decision holding the Protection of Lawful Commerce in Arms Act inapplicable to the City's claims. The motion has been briefed by the parties and is awaiting a hearing.

On September 29, 2016, the court entered an order staying the case pending a decision by the Indiana Supreme Court in *KS&E Sports v. Runnels*, which presents related issues. The Indiana Supreme Court decided *KS&E Sports* on April 24, 2017, and the *Gary* court lifted the stay. The *Gary* court also entered an order setting a supplemental briefing schedule under which the parties are to address the impact of the *KS&E Sports* decision on defendants' motion for judgment on the pleadings. The parties are working through the supplemental briefing schedule and the defendants' motion for judgment on the pleadings is set for hearing on September 15, 2017.

Summary of Claimed Damages and Explanation of Product Liability Accruals

Punitive damages, as well as compensatory damages, are demanded in certain of the lawsuits and claims. In many instances, the plaintiff does not seek a specified amount of money, though aggregate amounts ultimately sought may exceed product liability accruals and applicable insurance coverage. For product liability claims made after July 10, 2000, coverage is provided on an annual basis for losses exceeding \$5 million per claim, or an aggregate maximum loss of \$10 million annually, except for certain new claims which might be brought by governments or municipalities after July 10, 2000, which are excluded from coverage.

The Company management monitors the status of known claims and the product liability accrual, which includes amounts for asserted and unasserted claims. While it is not possible to forecast the outcome of litigation or the timing of costs, in the opinion of management, after consultation with special and corporate counsel, it is not probable and is unlikely that litigation, including punitive damage claims, will have a material adverse effect on the financial position of the Company, but may have a material impact on the Company's financial results for a particular period.

Product liability claim payments are made when appropriate if, as, and when claimants and the Company reach agreement upon an amount to finally resolve all claims. Legal costs are paid as the lawsuits and claims develop, the timing of which may vary greatly from case to case. A time schedule cannot be determined in advance with any reliability concerning when payments will be made in any given case.

Provision is made for product liability claims based upon many factors related to the severity of the alleged injury and potential liability exposure, based upon prior claim experience. Because the Company's experience in defending these lawsuits and claims is that unfavorable outcomes are typically not probable or estimable, only in rare cases is an accrual established for such costs.

In most cases, an accrual is established only for estimated legal defense costs. Product liability accruals are periodically reviewed to reflect then-current estimates of possible liabilities and expenses

incurred to date and reasonably anticipated in the future. Threatened product liability claims are reflected in the Company's product liability accrual on the same basis as actual claims; i.e., an accrual is made for reasonably anticipated possible liability and claims-handling expenses on an ongoing basis.

A range of reasonably possible losses relating to unfavorable outcomes cannot be made. However, in product liability cases in which a dollar amount of damages is claimed, the amount of damages claimed, which totaled \$0.1 million and \$0.1 million at December 31, 2016 and 2015, respectively, are set forth as an indication of possible maximum liability the Company might be required to incur in these cases (regardless of the likelihood or reasonable probability of any or all of this amount being awarded to claimants) as a result of adverse judgments that are sustained on appeal.

NOTE 12 - SUBSEQUENT EVENTS

On August 1, 2017, the Company's Board of Directors authorized a dividend of 23¢ per share, for shareholders of record as of August 15, 2017, payable on August 31, 2017.

The Company has evaluated events and transactions occurring subsequent to July 1, 2017 and determined that there were no other unreported events or transactions that would have a material impact on the Company's results of operations or financial position.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Company Overview

Sturm, Ruger & Company, Inc. (the "Company") is principally engaged in the design, manufacture, and sale of firearms to domestic customers. Approximately 99% of sales are from firearms. Export sales represent approximately 5% of total sales. The Company's design and manufacturing operations are located in the United States and almost all product content is domestic. The Company's firearms are sold through a select number of independent wholesale distributors, principally to the commercial sporting market.

The Company also manufactures investment castings made from steel alloys and metal injection molding ("MIM") parts for internal use in its firearms and for sale to unaffiliated, third-party customers. Less than 1% of sales are from the castings segment.

Orders for many models of firearms from the independent distributors tend to be stronger in the first quarter of the year and weaker in the third quarter of the year. This is due in part to the timing of the distributor show season, which occurs during the first quarter.

Results of Operations

Demand

The estimated unit sell-through of the Company's products from the independent distributors to retailers decreased 13% in the first half of 2017 from the comparable prior year period. For the same period, the National Instant Criminal Background Check System ("NICS") background checks (as adjusted by the National Shooting Sports Foundation ("NSSF")) decreased 7%. The decrease in estimated sell-through of the Company's products from the independent distributors to retailers is attributable to:

- Decreased overall consumer demand in 2017 due to stronger-than-normal demand during most of 2016, likely bolstered by the political campaigns for the November 2016 elections,
- Reduced purchasing by retailers in an effort to reduce their inventories and generate cash as they head into the typically slower summer season, and
- Aggressive price discounting and lucrative consumer rebates offered by many of our competitors.

Sales of new products, including the Mark IV pistols, the LCP II pistol, and the Precision Rifle, represented \$84.9 million or 29% of firearm sales in the first half of 2017. New product sales include only major new products that were introduced in the past two years.

Estimated sell-through from the independent distributors to retailers and total adjusted NICS background checks for the trailing six quarters follow:

	2017		2016			
	Q2	Q1	Q4	Q3	Q2	Q1
Estimated Units Sold from Distributors to Retailers (1)	362,400	533,800	529,100	453,400	453,700	571,000
Total adjusted NICS Background Checks (thousands) (2)	3,116	3,694	4,861	3,519	3,199	4,148

(1) The estimates for each period were calculated by taking the beginning inventory at the distributors, plus shipments from the Company to distributors during the period, less the ending inventory at distributors. These estimates are only a proxy for actual market demand as they:

- Rely on data provided by independent distributors that are not verified by the Company,
- Do not consider potential timing issues within the distribution channel, including goods-in-transit, and
- Do not consider fluctuations in inventory at retail.

(2) NICS background checks are performed when the ownership of most firearms, either new or used, is transferred by a Federal Firearms Licensee. NICS background checks are also performed for permit applications, permit renewals, and other administrative reasons.

The adjusted NICS data presented above was derived by the NSSF by subtracting out NICS checks that are not directly related to the sale of a firearm, including checks used for concealed carry (“CCW”) permit application checks as well as checks on active CCW permit databases.

Orders Received and Ending Backlog

The Company uses the estimated unit sell-through of our products from the independent distributors to retailers, along with inventory levels at the independent distributors and at the Company, as the key metrics for planning production levels. The Company generally does not use the orders received or ending backlog for planning production levels.

The units ordered, value of orders received and ending backlog, net of excise tax, for the trailing six quarters are as follows (dollars in millions, except average sales price):

(All amounts shown are net of Federal Excise Tax of 10% for handguns and 11% for long guns.)

	2017		2016			
	Q2	Q1	Q4	Q3	Q2	Q1
Units Ordered	214,400	395,000	432,100	445,700	399,400	969,400
Orders Received	\$62.4	\$131.9	\$130.2	\$116.5	\$145.7	\$296.1
Average Sales Price of Units Ordered	\$291	\$334	\$301	\$261	\$365	\$305
Ending Backlog	\$95.0	\$163.8	\$195.0	\$219.1	\$257.6	\$276.1
Average Sales Price of Ending Unit Backlog (1)	\$342	\$331	\$314	\$306	\$331	\$313

- (1) The average sales price of units in the third quarter of 2016 was reduced due to strong orders for the relatively lower priced LCP II pistol, and the cancellation of orders for the original version of relatively higher priced Precision rifle, which was discontinued due to the popularity of the new Enhanced Precision rifle.

Production

The Company reviews the estimated sell-through from the independent distributors to retailers, as well as inventory levels at the independent distributors and at the Company, semi-monthly to plan production levels. These reviews resulted in decreased total unit production of 18% and 7% for the three and six months ended July 1, 2017, respectively, from the comparable prior year periods.

Summary Unit Data

Firearms unit data for the trailing six quarters are as follows (dollar amounts shown are net of Federal Excise Tax of 10% for handguns and 11% for long guns):

	2017		2016			
	Q2	Q1	Q4	Q3	Q2	Q1
Units Ordered	214,400	395,000	432,100	445,700	399,400	969,400
Units Produced	432,900	529,900	566,200	527,600	529,600	502,100
Units Shipped	432,000	521,000	527,300	507,500	504,000	516,700
Average Sales Price of Units Shipped	\$302	\$319	\$304	\$315	\$330	\$332
Ending Unit Backlog	277,800	495,400	621,400	716,600	778,400	883,000

Inventories

During the second quarter of 2017, the Company's finished goods inventory increased by 1,000 units and distributor inventories of the Company's products increased by 69,600 units.

Inventory data for the trailing six quarters follows:

	2017		2016			
	Q2	Q1	Q4	Q3	Q2	Q1
Units – Company Inventory	167,200	166,200	157,400	118,500	98,500	72,800
Units – Distributor Inventory (1)	376,000	306,400	319,300	321,100	267,000	216,700
Total inventory (2)	543,200	472,600	476,700	439,600	365,500	289,500

- (1) Distributor ending inventory is provided by the Company's independent distributors. These numbers do not include goods-in-transit inventory that has been shipped from the Company but not yet received by the distributors.
- (2) This total does not include inventory at retailers. The Company does not have access to data on retailer inventories of the Company's products.

Net Sales

Consolidated net sales were \$131.9 million for the three months ended July 1, 2017, a decrease of 21.5% from \$167.9 million in the comparable prior year period.

For the six months ended July 1, 2017, consolidated net sales were \$299.2 million, a decrease of 12.3% from \$341.1 million in the comparable prior year period.

Firearms net sales were \$130.5 million for the three months ended July 1, 2017, a decrease of 21.5% from \$166.3 million in the comparable prior year period.

For the six months ended July 1, 2017, firearms net sales were \$296.9 million, a decrease of 12.1% from \$337.8 million in the comparable prior year period.

Firearms unit shipments decreased 14.3% and 6.6% for the three and six months ended July 1, 2017, respectively, from the comparable prior year periods.

Casting net sales were \$1.3 million for the three months ended July 1, 2017, a decrease of 17.7% from \$1.6 million in the comparable prior year period.

For the six months ended July 1, 2017, castings net sales were \$2.3 million, a decrease of 27.6% from \$3.2 million in the comparable prior year period.

Cost of Products Sold and Gross Profit

Consolidated cost of products sold was \$96.9 million for the three months ended July 1, 2017, a decrease of 12.9% from \$111.3 million in the comparable prior year period.

Consolidated cost of products sold was \$208.5 million for the six months ended July 1, 2017, a decrease of 7.4% from \$225.2 million in the comparable prior year period.

Gross margin was 26.5% and 30.3% for the three and six months ended July 1, 2017, respectively, compared to 33.8% and 34.0% in the comparable prior year periods as illustrated below (in thousands):

	Three Months Ended			
	July 1, 2017		July 2, 2016	
Net sales	\$131,854	100.0%	\$167,944	100.0%
Cost of products sold, before LIFO, overhead and labor rate adjustments to inventory, product liability, and product recall	94,271	71.5%	109,578	65.2%
LIFO expense	754	0.6%	546	0.3%
Overhead rate adjustments to inventory	(978)	(0.7)%	976	0.6%
Labor rate adjustments to inventory	(89)	(0.1)%	143	0.1%
Product liability	450	0.3%	7	-
Product recall	2,500	1.9%	-	-
Total cost of products sold	96,908	73.5%	111,250	66.2%
Gross profit	\$ 34,946	26.5%	\$ 56,694	33.8%

	Six Months Ended			
	July 1, 2017		July 2, 2016	
Net sales	\$299,210	100.0%	\$341,053	100.0%
Cost of products sold, before LIFO, overhead and labor rate adjustments to inventory, product liability, and product recall	205,484	68.7%	222,495	65.2%
LIFO expense	1,480	0.5%	1,199	0.4%
Overhead rate adjustments to inventory	(1,221)	(0.4)%	491	0.1%
Labor rate adjustments to inventory	(24)	-	223	0.1%
Product liability	292	0.1%	838	0.2%
Product recall	2,500	0.8%	-	-
Total cost of products sold	208,511	69.7%	225,246	66.0%
Gross profit	\$ 90,699	30.3%	\$115,807	34.0%

Cost of products sold, before LIFO, overhead and labor rate adjustments to inventory, product liability, and product recall — During the three months ended July 1, 2017, cost of products sold, before LIFO, overhead and labor rate adjustments to inventory, product liability, and product recall increased as a percentage of sales by 7.3% compared with the corresponding 2016 period primarily due to the reduction in volume which resulted in unfavorable de-leveraging of fixed manufacturing costs, including depreciation and indirect labor.

For the six months ended July 1, 2017, cost of products sold, before LIFO, overhead and labor rate adjustments to inventory, product liability, and product recall increased as a percentage of sales by 3.7% compared with the corresponding 2016 period due the reduction in volume which resulted in unfavorable de-leveraging of fixed manufacturing costs, including depreciation and indirect labor.

LIFO — For the three months ended July 1, 2017 the Company recognized LIFO expense resulting in increased cost of products sold of \$0.8 million. In the comparable 2016 period, the Company recognized LIFO expense resulting in increased cost of products sold of \$0.5 million.

For the six months ended July 1, 2017, the Company recognized LIFO expense resulting in increased cost of products sold of \$1.5 million. In the comparable 2016 period, the Company recognized LIFO expense resulting in increased cost of products sold of \$1.2 million.

Overhead Rate Adjustments — The Company uses actual overhead expenses incurred as a percentage of sales-value-of-production over a trailing six month period to absorb overhead expense into inventory. During the three and six months ended July 1, 2017, the Company became less efficient in overhead spending and the overhead rates used to absorb overhead expenses into inventory increased, resulting in an increase in inventory values of \$1.0 million and \$1.2 million, respectively, and a corresponding decrease to cost of products sold.

During the three and six months ended July 2, 2016, the Company became more efficient in overhead spending and the overhead rates used to absorb overhead expenses into inventory decreased, resulting in decreases in inventory values of \$1.0 million and \$0.5 million, respectively, and corresponding increases to cost of products sold.

Labor Rate Adjustments — The Company uses actual direct labor expense incurred as a percentage of sales-value-of-production over a trailing six month period to absorb direct labor expense into inventory. During the three and six months ended July 1, 2017 the Company became slightly less efficient in direct labor utilization and the labor rates used to absorb labor expenses into inventory increased, resulting in insignificant increases in inventory value and corresponding decreases to cost of products sold.

During the three and six months ended July 2, 2016, the Company became more efficient in direct labor utilization and the labor rates used to absorb labor expenses into inventory decreased, resulting in decreases in inventory value of \$0.1 million and \$0.2 million, respectively. These decreases in inventory values resulted in increases to cost of products sold.

Product Liability — This expense includes the cost of outside legal fees, insurance, and other expenses incurred in the management and defense of product liability matters.

During the three and six months ended July 1, 2017 product liability expense was \$0.4 million and \$0.3 million, respectively.

During the three months ended July 2, 2016 product liability expense was de minimis. During the six months ended July 2, 2016 product liability expense was \$0.8 million.

Product Recall – In June 2017, the Company discovered that Mark IV pistols manufactured prior to June 1, 2017 had the potential to discharge unintentionally if the safety was not utilized correctly. The Company recalled all Mark IV pistols and recorded a \$2.5 million expense in the second quarter, which is the expected total cost of the recall. No such expense was recorded in the prior year.

Gross Profit — As a result of the foregoing factors, for the three and six months ended July 1, 2017, gross profit was \$34.9 million and \$90.7 million, respectively, a decrease of \$21.8 million and \$25.1 million from \$56.7 million and \$115.8 million in the comparable prior year periods.

Gross profit as a percentage of sales decreased to 26.5% and 30.3% in the three and six months ended July 1, 2017, respectively, from 33.8% and 34.0% in the comparable prior year periods.

Selling, General and Administrative Expenses

Selling, general and administrative expenses were \$19.7 million for the three months ended July 1, 2017, a decrease of \$0.5 million or 2.8% from \$20.2 million in the comparable prior year period. This decrease is primarily attributable to the absence of the “2.5 Million Gun Challenge”, which ended in the fourth quarter of 2016.

Selling, general and administrative expenses were \$41.5 million for the six months ended July 1, 2017, a decrease of \$1.6 million or 3.7% from \$43.1 million in the comparable prior year period. This decrease is primarily attributable to the absence of the “2.5 Million Gun Challenge”, which ended in the fourth quarter of 2016.

Other income, net

Other income, net was \$0.4 million and \$0.7 million in the three and six months ended July 1, 2017, respectively, compared to \$0.3 million and \$0.4 in the three and six months ended July 2, 2016, respectively.

Income Taxes and Net Income

The Company’s effective income tax rate in the three and six months ended July 1, 2017 was 35.0%. The Company’s effective income tax rate in the three and six months ended July 2, 2016 was 36.0%. The decrease in the effective tax rate in 2017 is attributable to the inclusion of the tax impact of 2017 equity-based compensation in income taxes, as required by newly issued Accounting Standards Update (ASU) 2016-09, “Improvements to Employee Share Based Payment Accounting.” In the prior year, the tax impact of equity-based compensation was recorded directly into equity.

As a result of the foregoing factors, consolidated net income was \$10.2 million and \$32.4 for the three and six months ended July 1, 2017, respectively. This represents a decrease of 56.6% and 30.7% from \$23.5 million and \$46.8 million in the comparable prior year periods.

Non-GAAP Financial Measure

In an effort to provide investors with additional information regarding its financial results, the Company refers to various United States generally accepted accounting principles (“GAAP”) financial measures and one non-GAAP financial measure, EBITDA, which management believes provides useful information to investors. This non-GAAP financial measure may not be comparable to similarly titled financial measures being disclosed by other companies. In addition, the Company believes that the non-GAAP financial measure should be considered in addition to, and not in lieu of, GAAP financial measures. The Company believes that EBITDA is useful to understanding its operating results and the ongoing performance of its underlying business, as EBITDA provides information on the Company’s ability to meet its capital expenditure and working capital requirements, and is also an indicator of profitability. The Company believes that this reporting provides better transparency and comparability to its operating results. The Company uses both GAAP and non-GAAP financial measures to evaluate the Company’s financial performance.

EBITDA is defined as earnings before interest, taxes, and depreciation and amortization. The Company calculates its EBITDA by adding the amount of interest expense, income tax expense, and depreciation and amortization expenses that have been deducted from net income back into net income, and subtracting the amount of interest income that was included in net income from net income.

EBITDA was \$25.0 million for the three months ended July 1, 2017, a decrease of 44.5% from \$45.1 million in the comparable prior year period.

For the six months ended July 1, 2017, EBITDA was \$68.6 million, a decrease of 23.7% from \$89.9 million in the comparable prior year period.

Non-GAAP Reconciliation – EBITDA

EBITDA

(Unaudited, dollars in thousands)

	Three Months Ended		Six Months Ended	
	July 1, 2017	July 2, 2016	July 1, 2017	July 2, 2016
Net income	\$10,199	\$23,515	\$32,423	\$46,792
Income tax expense	5,491	13,227	17,458	26,321
Depreciation and amortization expense	9,326	8,346	18,653	16,690
Interest expense, net	32	35	66	70
EBITDA	\$25,048	\$45,123	\$68,600	\$89,873

Financial Condition

Liquidity

At the end of the second quarter of 2017, the Company’s cash totaled \$44.0 million. Pre-LIFO working capital of \$141.8 million, less the LIFO reserve of \$44.0 million, resulted in working capital of \$97.8 million and a current ratio of 2.7 to 1.

Operations

Cash provided by operating activities was \$39.9 million for the six months ended July 1, 2017, compared to \$66.1 million for the comparable prior year period. This decrease is primarily due to decreased earnings in 2017 and a decrease in accounts payable and accrued liabilities in 2017 compared to an increase in those accounts in the prior year period, and various other working capital fluctuations in both periods.

Third parties supply the Company with various raw materials for its firearms and castings, such as fabricated steel components, walnut, birch, beech, maple and laminated lumber for rifle stocks, wax, ceramic material, metal alloys, various synthetic products and other component parts. There is a limited supply of these materials in the marketplace at any given time, which can cause the purchase prices to vary based upon numerous market factors. The Company believes that it has adequate quantities of raw materials in inventory or on order to provide sufficient time to locate and obtain additional items at then-current market cost without interruption of its manufacturing operations. However, if market conditions result in a significant prolonged inflation of certain prices or if adequate quantities of raw materials cannot be obtained, the Company's manufacturing processes could be interrupted and the Company's financial condition or results of operations could be materially adversely affected.

Investing and Financing

Capital expenditures for the six months ended July 1, 2017 totaled \$10.9 million, a decrease from \$11.3 million in the comparable prior year period. In 2017, the Company expects to spend approximately \$35 million on capital expenditures to purchase tooling fixtures and equipment for new product introductions and to upgrade and modernize manufacturing equipment. Due to market conditions and business circumstances, actual capital expenditures could vary significantly from the projected amount. The Company finances, and intends to continue to finance, all of these activities with funds provided by operations and current cash.

Dividends of \$16.3 million were paid during the six months ended July 1, 2017.

On August 1, 2017, the Board of Directors authorized a dividend of 23¢ per share, for shareholders of record as of August 15, 2017, payable on August 31, 2017. The payment of future dividends depends on many factors, including internal estimates of future performance, then-current cash and short-term investments, and the Company's need for funds. The Company has financed its dividends with cash provided by operations and current cash.

During the six months ended July 1, 2017, the Company repurchased 1,074,285 shares of its common stock for \$53.5 million in the open market. The average price per share purchased was \$49.73. These purchases were funded with cash on hand. As of July 1, 2017, \$100 million remained authorized for future stock repurchases. No shares were repurchased in the six months ended July 2, 2016.

Based on its unencumbered assets, the Company believes it has the ability to raise cash through the issuance of short-term or long-term debt. The Company's unsecured \$40 million credit facility, which expires on June 15, 2018, remained unused at July 1, 2017 and the Company has no debt.

Other Operational Matters

In the normal course of its manufacturing operations, the Company is subject to occasional governmental proceedings and orders pertaining to workplace safety, firearms serial number tracking

and control, waste disposal, air emissions and water discharges into the environment. The Company believes that it is generally in compliance with applicable Bureau of Alcohol, Tobacco, Firearms & Explosives, environmental, and safety regulations and the outcome of any proceedings or orders will not have a material adverse effect on the financial position or results of operations of the Company.

The Company self-insures a significant amount of its product liability, workers' compensation, medical, and other insurance. It also carries significant deductible amounts on various insurance policies.

The Company expects to realize its deferred tax assets through tax deductions against future taxable income.

Adjustments to Critical Accounting Policies

The Company has not made any adjustments to its critical accounting estimates and assumptions described in the Company's 2016 Annual Report on Form 10-K filed on February 22, 2017, or the judgments affecting the application of those estimates and assumptions.

Forward-Looking Statements and Projections

The Company may, from time to time, make forward-looking statements and projections concerning future expectations. Such statements are based on current expectations and are subject to certain qualifying risks and uncertainties, such as market demand, sales levels of firearms, anticipated castings sales and earnings, the need for external financing for operations or capital expenditures, the results of pending litigation against the Company, the impact of future firearms control and environmental legislation, and accounting estimates, any one or more of which could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. The Company undertakes no obligation to publish revised forward-looking statements to reflect events or circumstances after the date such forward-looking statements are made or to reflect the occurrence of subsequent unanticipated events.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The interest rate market risk implicit to the Company at any given time is typically low, as the Company does not have significant exposure to changing interest rates on invested cash. There has been no material change in the Company's exposure to interest rate risks during the six months ended July 1, 2017.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (the "Disclosure Controls and Procedures"), as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of July 1, 2017.

Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of July 1, 2017, such Disclosure Controls and Procedures are effective to ensure that information required to be disclosed in the Company's periodic reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer or persons performing similar functions, as appropriate, to allow timely decisions regarding disclosure.

Additionally, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this Quarterly Report on Form 10-Q, there have been no changes in the Company's internal control over financial reporting that occurred during the quarter ended July 1, 2017 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

The effectiveness of any system of internal controls and procedures is subject to certain limitations, and, as a result, there can be no assurance that the Disclosure Controls and Procedures will detect all errors or fraud. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the internal control system will be attained.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The nature of the legal proceedings against the Company is discussed at Note 11 to the financial statements, which are included in this Form 10-Q.

The Company has reported all cases instituted against it through April 1, 2017, and the results of those cases, where terminated, to the SEC on its previous Form 10-Q and 10-K reports, to which reference is hereby made.

There were no lawsuits formally instituted against the Company during the three months ending July 1, 2017.

ITEM 1A. RISK FACTORS

There have been no material changes in the Company's risk factors from the information provided in Item 1A. Risk Factors included in the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Not applicable

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable

ITEM 5. OTHER INFORMATION

None

Financial Officer

CERTIFICATION

I, Christopher J. Killoy, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q (the “Report”) of Sturm, Ruger & Company, Inc. (the “Registrant”);
2. Based on my knowledge, this Report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this Report;
3. Based on my knowledge, the financial statements, and other financial information included in this Report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this Report;
4. The Registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this Report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the Registrant’s disclosure controls and procedures and presented in this Report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this Report based on such evaluation; and
 - d) Disclosed in this Report any change in the Registrant’s internal control over financial reporting that occurred during the Registrant’s most recent fiscal quarter (the Registrant’s fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant’s internal control over financial reporting; and

5. The Registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
- a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.

Certification Pursuant to 18 U.S.C. Section 1350,
As Adopted Pursuant to
Section 906 of the Sarbanes-Oxley Act of 2002

In connection with the Quarterly Report on Form 10-Q of Sturm, Ruger & Company, Inc. (the "Company") for the period ended July 1, 2017, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Christopher J. Killoy, Chief Executive Officer of the Company, hereby certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respect, the financial condition and results of operations of the Company.
