

## **Ziff Davis Accessibility Policy**

(Last revised April 2022)

Ziff Davis is committed to improving accessibility for all its web, mobile, and app users, and has committed significant resources to making our content accessible to all. Our accessibility improvements are guided by the Web Content Accessibility Guidelines (WCAG) 2.0/2.1, Level AA.

Across Ziff Davis and its businesses, digital accessibility is a core priority for us throughout our design and development phases. Our improvements include the addition of alt-text, navigation by keyboard and screen reader technology, closed captioning, color contrast and zoom features, as well as an accessibility statement on each site with contact information so that users can alert us to any difficulties they have accessing our content.

To have the best user experience, we recommend utilizing the latest available versions of web browsers and assistive technology. We rely on our community to tell us when they experience an issue with any of our sites, and we consider all feedback that is provided to us.

We are dedicated to ensuring that individuals with disabilities can enjoy our content. If at any time you have questions or concerns regarding accessibility or experience technical issues on any of our sites, apps or products, please contact us at [accessibility@ziffdavis.com](mailto:accessibility@ziffdavis.com). Please be sure to specify which Ziff Davis property your feedback is regarding, and we will make all reasonable efforts to address your concerns.
