

# DisplayLink Docks: Compatible. Expandable. Ideal.

Ultimate Universal Docks

Compatibility is king and these Dual and Triple Display docks play well with other devices to give workers powerful workstations. Rely on docks designed for mixed use environments with ample ports to easily connect additional peripherals.

Universal DisplayLink™ technology connects to MacBook, Windows, and Chromebook laptops

85W pass-through power for fast charging

Room for peripherals like multiple displays, audio, Ethernet and more

4K TRIPLE

High definition resolution for 2 (Dual Display) or 3 (Triple Display) monitors

USB-C host performance will be limited. Note that not all USB-C ports support the full functionality of the USB Type-C standard. USB-C hosts may not support extended display to external monitors. Our products charge the newer 2021 M1 MacBooks at an output of 85W. Note: charging rate is subject to host device's real-time power requirement.
