Patient-Centered Medical Home Agreement

A Patient-Centered Medical Home is a Partnership between the Patient and their Physician

Being a part of a Patient-Centered Medical Home, your doctor will:

- Work with you to improve your health
- Review your medications during every visit
- Electronically prescribe all medications
- Develop an action plan addressing your chronic condition(s)
- Set goals with you and monitor your progress
- Inform you of all test results
- Help you take control of your health by providing educational materials, referring to specialists or provide you with additional resources

By choosing to participate in a Patient-Centered Medical Home, I agree to:

- Make sure to openly discuss my entire medical history with my doctor
- Inform my doctor of all medication I am taking
- Actively participate with my doctor in planning my care
- Keep my appointments as scheduled
- Adhere to the action plan designed by my doctor
- Consult my doctor before making my own appointments with any other specialists
- Request that any other doctor I see send Dr. Jaddou a report of any lab work, test results, and x-rays.
- Know my insurance and what it covers
