PRESS KIT

our story

SALT was founded in 2013 in an effort to bring new voices of contemporary dance to Utah. In its 10 seasons, SALT has grown into a well-respected company, worked with some of the most sought-after choreographers, built in-depth training programs, and shared our innovative productions with our community. The creative prowess of our seasoned performers melds with cutting-edge choreography that pushes the edge of what dance has been.

our mission

SALT Contemporary Dance is the look of now, celebrating innovation in dance through performance and creation, inspiring generations through compelling arts education, and using dance as a salve for current social issues, thus elevating the vibrancy, diversity and health of our community.
