SOLUTIONS

# AQUADRAIN™

## DOMESTIC AND COMMERCIAL DRAINS

AQUAZONE UK was established in England in 2008 to manufacture and supply high quality plumbing products to the commercial project sector. The company's sub-brands AQUAECO and AQUADRAIN™ have become well established in the UK and export markets, supplying many prestigious projects around the world.

AQUADRAIN™ is a specialist brand of design-led, high-quality shower channels and floor drains for domestic, commercial and industrial installations. Catering to the finer details of design & specification, the extensive offering covers a range of finishes from industrial grade Brushed Stainless Steel, Titanium, Brushed Brass and Dark Brushed Copper to elegant Matt Black, ensuring exacting colour coordination to your brassware.

All AQUADRAIN™ channels and drains are crafted from Grade 316 or Grade 304 stainless steel and are produced using laser welding. The stainless steel production process is completed with acid-free electrolysis, anti-bacterial and easy clean surface cleaning which results in a stronger, more durable as well as anti-corrosion performance and comes with a 5 year guarantee. AQUADRAIN™ is easy to install and with removable adjustable legs it makes it simpler and quicker to install.
