GROUP

# CUBIK

SANIPEXGROUP

Designing and manufacturing elegant, stylish bathroom furniture and accessories for the modern bathroom since 1987, Idea Group brings a balanced combination of functionality, comfort and beauty.

Preserving the local traditions of its local province of Treviso, Italy, the Group uses local expertise to handcraft various materials and finishes which are then merged with the use of new materials and innovations. Its own established Idea Production System (IPS) enables the company to stay ahead of the curve with the latest technologies and manufacturing processes.

By creating architectural bathrooms, the company underscores its brand mission: to redefine bathrooms into areas for wellbeing, with products characterised by sleek, architectural lines.

## CUBIK COLLECTION

A genuine expression of a contemporary style trend, the Cubik collection portrays rational, geometric design and uses clean-cut lines to create a new, dynamic, modular style. Exclusive materials are skilfully combined in a captivating exploration of patterns and visual effects.

Shapes and materials are mixed and matched, offering a refreshed and unexpected idea of the modern bathroom.

### **The essential language of architectural style**

The Cubik modern bathroom furniture line by Idea Group gets a new look, with new modular solutions and finishes, including aluminium-framed glass doors. A project that uses the essential language of architecture to fit naturally into any environment and harmonise with different lifestyles.

This collection is distinguished by its uncluttered linearity and good looks. The drawers and doors are made with 45° edges without external handles and divided by grooves, creating a pattern of diagonal lines that achieve a minimal style.

Customisation is possible with a choice of installation options, with floor-standing or suspended bathroom

cabinets, and a wide range of materials and finishes in line with the latest trends. Taps and fittings are carefully selected to balance the design. In addition, the use of innovative materials such as wood with a continuous grain match finish, legno fossile, rovere, Ecomalta and HPL laminates, gives the bathroom a versatile look. The wash basin can be integrated into the top to create a desirable look with tone-on-tone components.

The Cubik collection is equally perfect for bathrooms where space is at a premium; its single-piece solutions with matching mirror cabinets make the most of the space without compromising on functionality.

### COLLECTION FEATURES

Door and drawer fronts with 45 degree edges on all sides

Rovere Fossile

Wood finishes with a continuous grain match

**Integrated Wash Basin**

As Cubik is a modular collection, you can pick and choose your desired elements and material combinations for a look that works with your interior – from Woodvener and Unicolor HLP Laminate to glass and lacquer.

Many colours in both matt and gloss finish along with numerous wood types are available. Extensive modularity meets the needs of the widest possible design solutions, including "over-sized" applications.

For a one-of-a-kind look, choose a BAGNODESIGN Alpine countertop or countertop basin in a range of styles and sizes custom-made to fit all Cubik furniture. Simply select your 6mm slab of choice to either match or contrast with your design, and allow a lead time of 6 weeks plus additional shipping time. Where extra storage space is required, choose the Alpine shelves in either the same finish or a different finish to complement the entire look.
