Simplicity Six: Where do I start with dimensional letters?

PLASTIC

Affordable Dimension • Crisp Edges

THICKEST

INJECTION
MOLDED

The look and feel of cast metal letters. Suitable for upscale applications — indoors or outdoors.

THICK

FORMED

Features rounded edges, unlimited variety and impressive flexibility. Over 128 standard styles and 31 standard colors.

THIN

CUT ACRYLIC

Precision laser cut plastic with polished edges. Beautiful enough for any application.

METAL

Permanence • Durability • Profile Options

THICKEST

FABRICATED

Stainless steel fabricated architectural letters are perfect when high-end quality fabrication is an absolute must.

THICK

CAST

Classic and prismatic cast bronze and aluminum offer durability and long-lasting beauty. Many finishing options.

THIN

CUT METAL

Custom cut by waterjets and lasers. Six metals, six gauges and 50 standard finishes.
