ML-specific F1 performance for the target variables DBP, EERATIO, EARATIO and LAVI

DBP

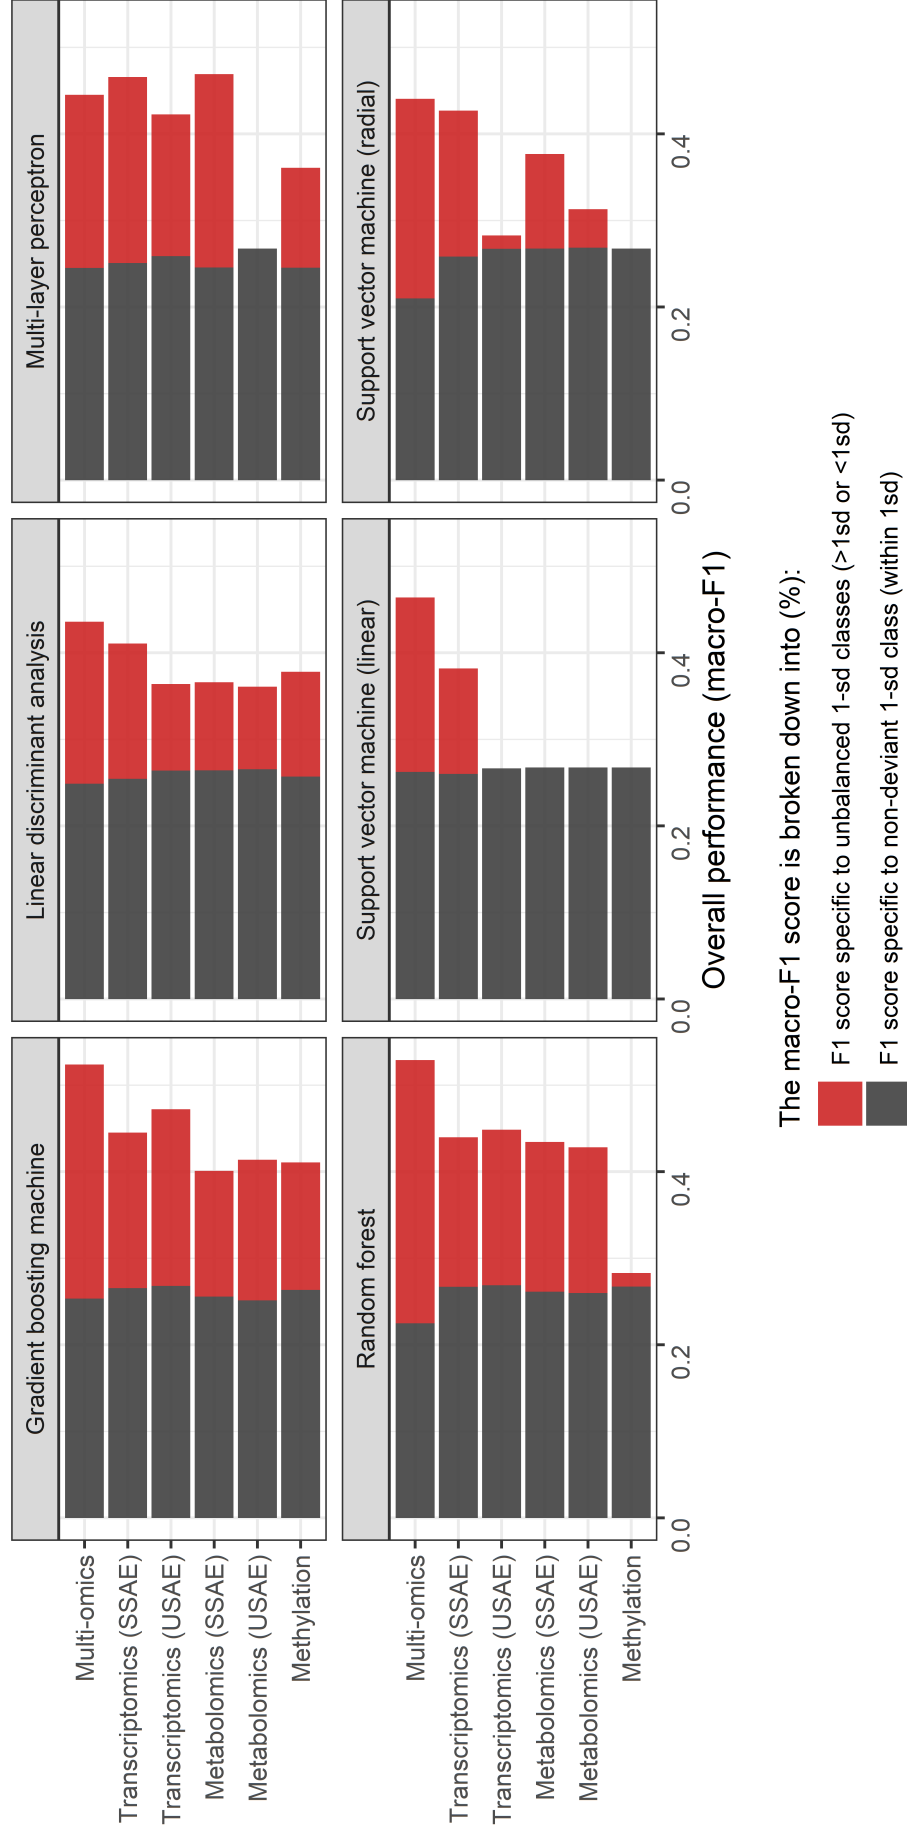

Figure S1: multi-method (cross-)omics performance for DBP prediction.

E/e' ratio

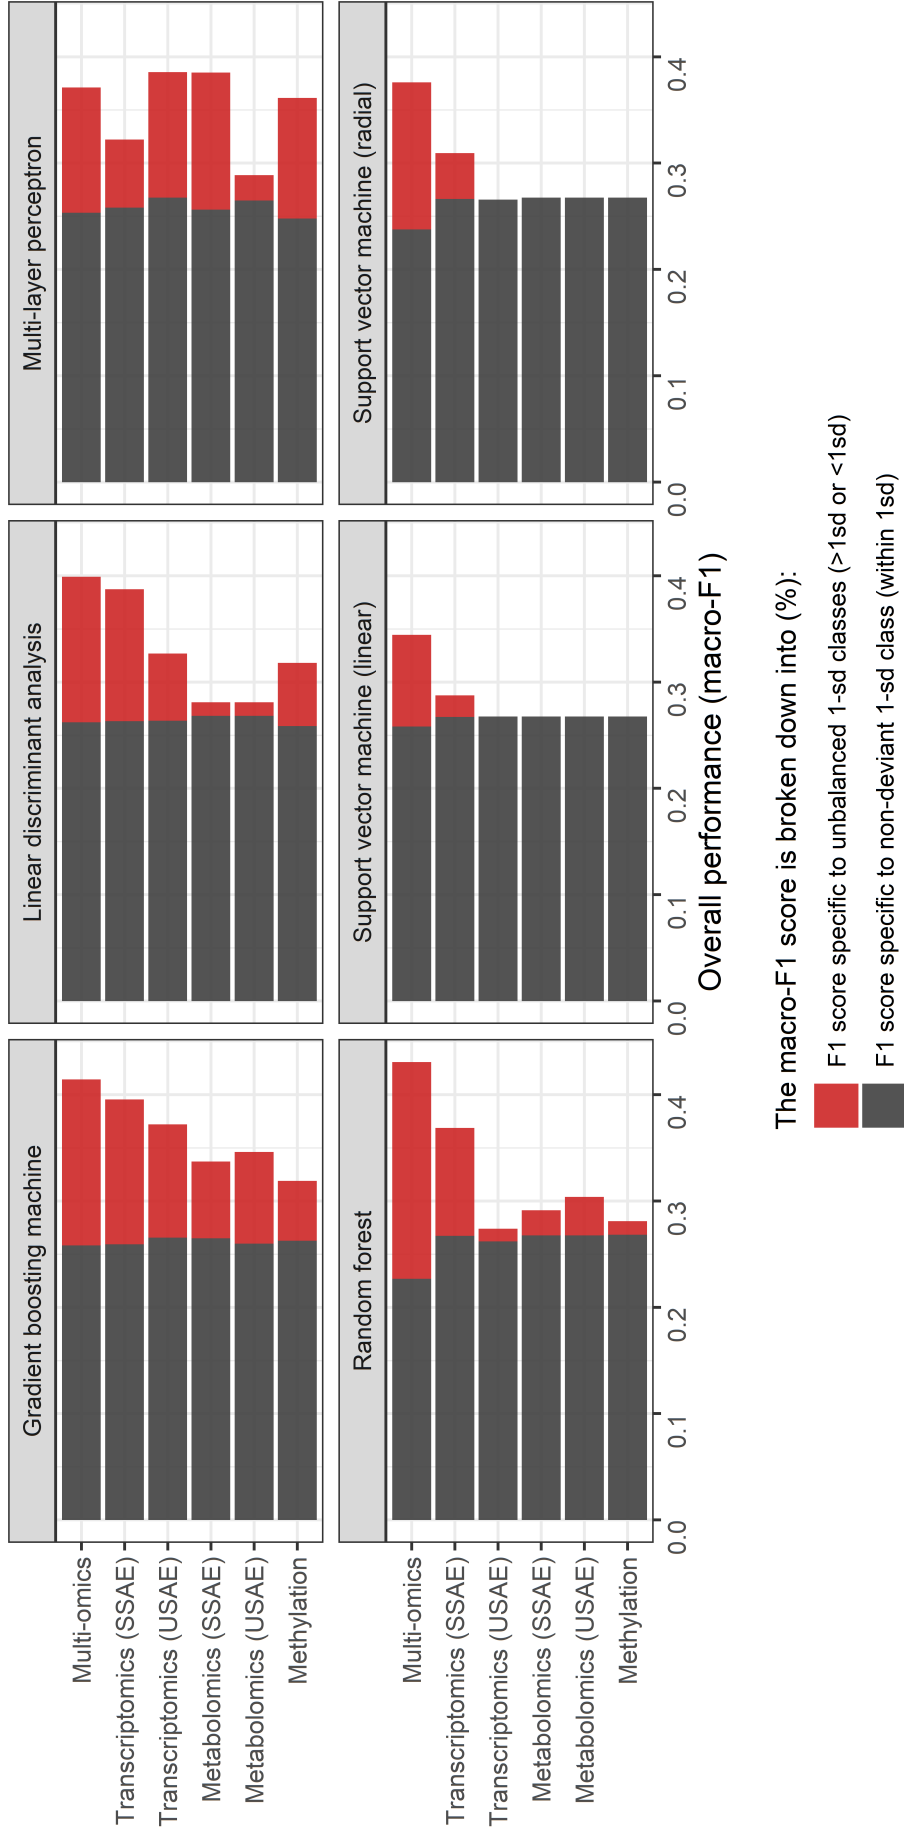

Figure S2: multi-method (cross-)omics performance for E/e' ratio prediction.

E/A ratio

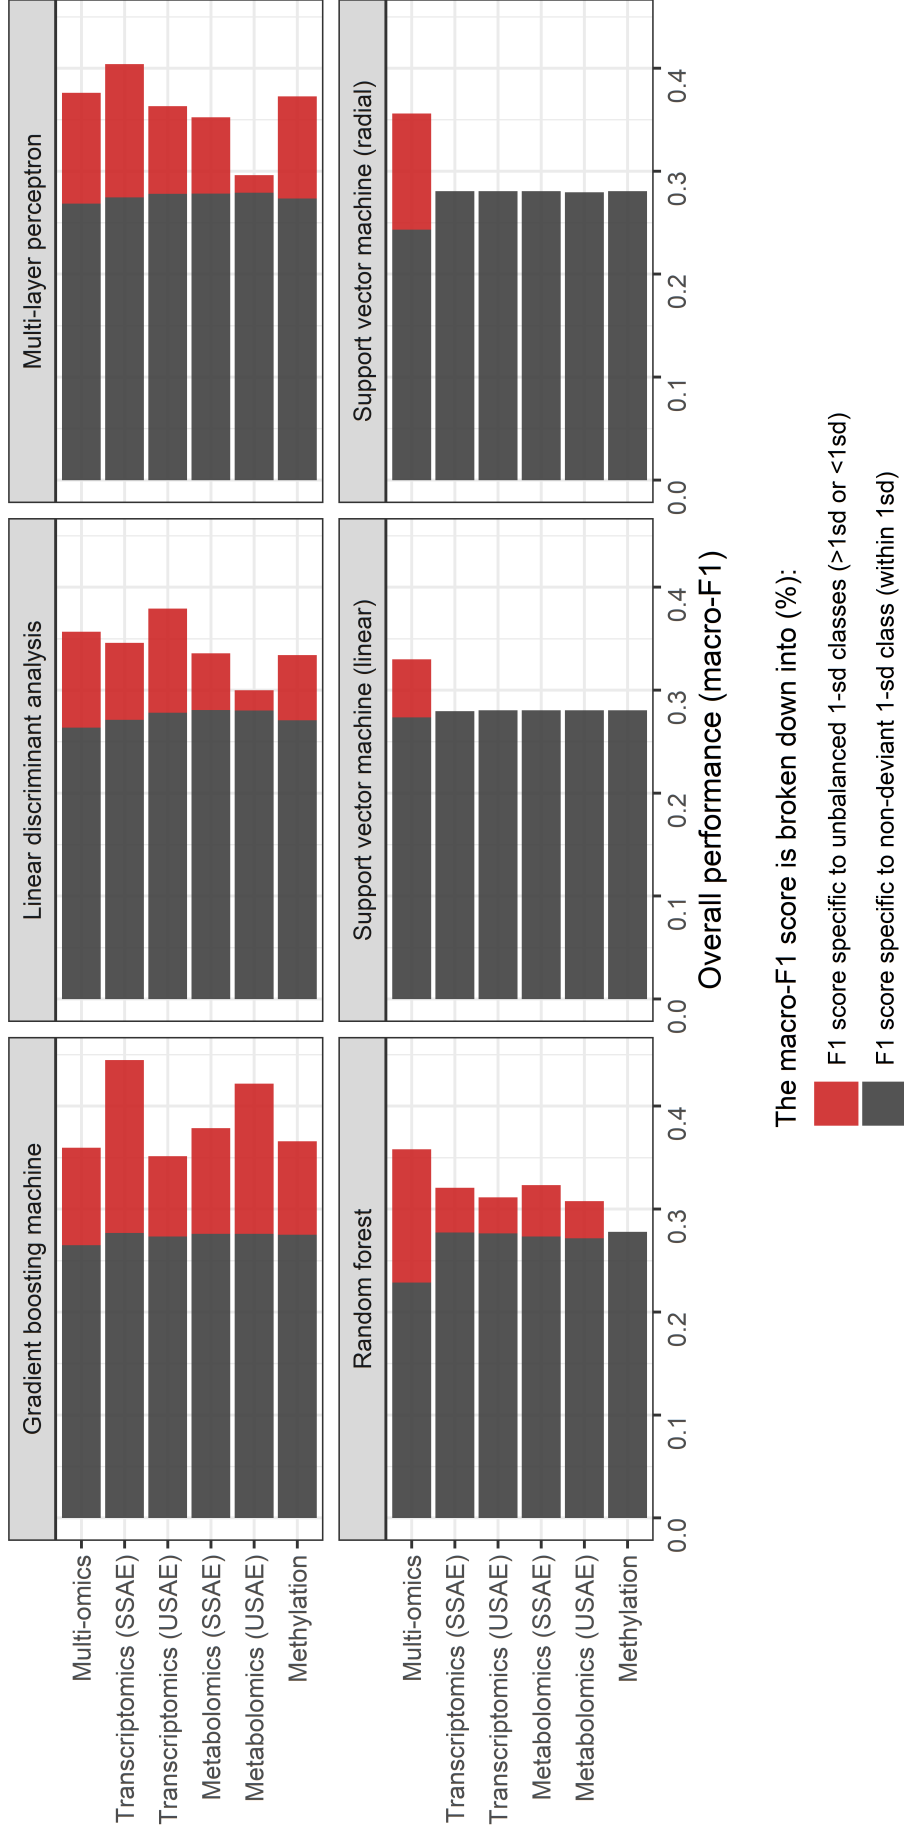

Figure S3: multi-method (cross-)omics performance for E/A ratio prediction.

LAVI

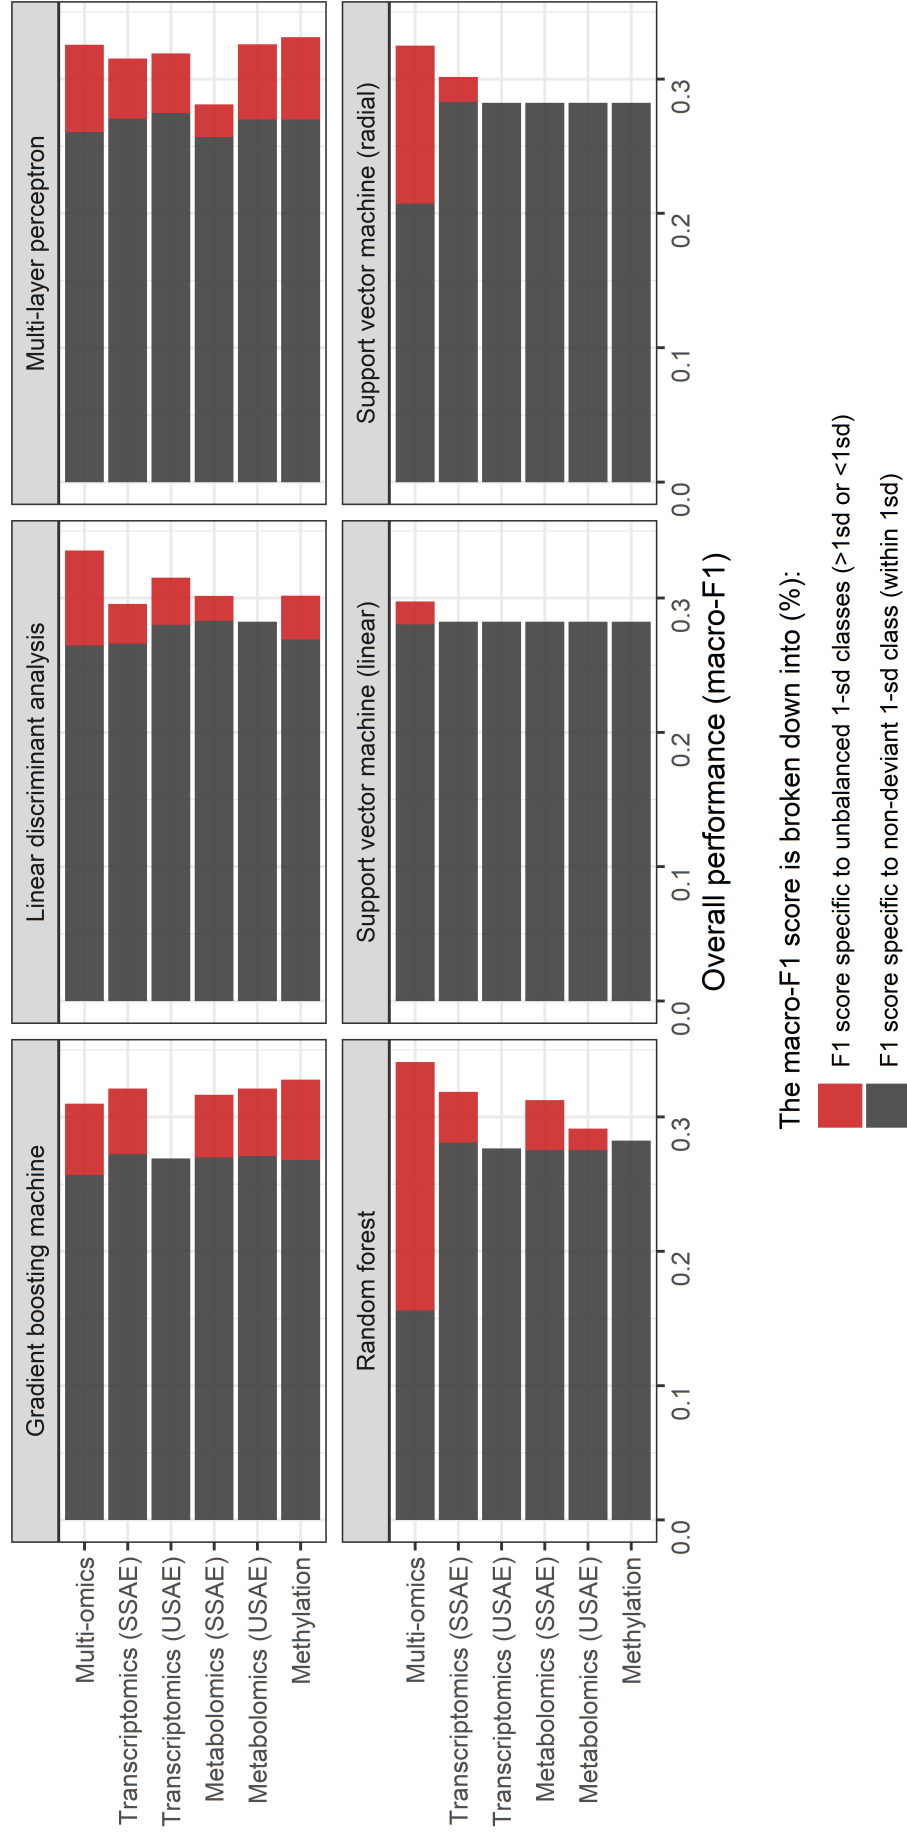

Figure S4: multi-method (cross-)omics performance for LAVI prediction.
