Title:Muscle activity during hand dexterity tasks in women with arthritis

Version:3**Date:**6 January 2014

Reviewer:Cheryl Metcalf

Reviewer's report:

Minor essential revisions:

- Figure 1 is still unclear. Although the activity is clear, the hand posture remains occluded in many cases.
- Figure 2 - I was not able to see where this had changed while veiwing it through the BMC online portal.

All other comments have been addressed.

Level of interest:An article of importance in its field

Quality of written English:Acceptable

Statistical review:Yes, and I have assessed the statistics in my report.
