Introduction

Escambia County Public Schools are committed to increasing student achievement and school improvement. One of the goals of school improvement is to provide an environment which is orderly, drug-free, and which protects students' health, safety, and civil rights. To achieve this goal, a committee of parents, students, principals, deans, teachers, and other administrative officials have created a code of student conduct for Escambia County Public Schools.

The Code of Student Conduct is centered on the protection of students' individual rights according to the United States Constitution, the laws of Florida, the rules of the School Board of Escambia County and the State Board of Education. Accompanying these rights are the students' responsibilities which are essential for a safe and orderly learning environment. Students are expected to follow this Code of Student Conduct to ensure personal and academic growth and a safe learning environment.

The Code of Student Conduct encourages self-discipline and responsible behavior. To achieve positive self-discipline, students must understand the rights and responsibilities in this book. Parents are expected to become familiar with these rules, to be supportive, and to offer guidance to assure the students' understanding and compliance.

Following the Code of Student Conduct will help assure a positive learning environment for all students. Students who do not follow the rules will have consequences which are explained in this document.

Frequently Asked Questions

1. When can I use my electronic communication device?

Answer: A student may not use a wireless communications device during instructional time, except when used solely for educational purposes as directed by the teacher, or when used as a medical alert device registered with the school clinic. A teacher may withhold a student's wireless device during instruction time.

Students are not allowed to access social media platforms at school except when directed to so by a teacher solely for educational purposes. This means you cannot access social media such as Tik Tok, Snapchat, or other social media AT ANY TIME on school grounds, including before and after school, during lunch, between classes, or at extracurricular activities. The use of Airdrop is prohibited.

You can use your electronic communication device when a teacher gives you permission to use it as part of a lesson. You may use your electronic communication device before and after school and while on the bus, but the electronic communication device must be on silent during the school day and while on the bus. At some schools, you may be able to use your electronic communication device between classes and during lunch.

2. What should not be done with my electronic communication device at any time?

Answer: You cannot take, send, transfer or share any obscene, pornographic, lewd, illegal images or photographs or videos and if you do, you may be committing a crime and you will be reported to law enforcement or other agencies resulting in possible arrest, criminal prosecution, and LIFETIME inclusion on sexual offender registries. There may be school consequences too.

WARNING: The taking, disseminating, transferring, or sharing of obscene, pornographic, lewd, illegal images or photographs of oneself or others, whether by electronic data transfer or otherwise (commonly called texting, sexting, e-mailing, etc.) will result in discipline as indicated in the Disciplinary Response Code. In addition, such activity may constitute a CRIME and/or invasion of privacy under state and/or federal law. Any person taking, disseminating, transferring, or sharing obscene, pornographic, lewd, or otherwise illegal images or photographs will be reported to law enforcement and/or other appropriate state or federal agencies, which may result in arrest, criminal prosecution, and LIFETIME inclusion on sexual offender registries.

3. Can my electronic communication device and Chromebook be searched?

Answer: Yes, a student's electronic communication device and Chromebook can be searched if there is reasonable suspicion that the student has violated the Student Responsible Use Guidelines for Technology and/or the student possesses a prohibited or illegally item.

Answer: Students are not allowed to use headphones, air pods, ear buds, or any similar devices at any time in common areas or hallways because you may not be able to hear announcements or alarms. Students can use headphones, air pods, ear buds, or any similar device in class only when directed by a teacher for instructional purposes.

In addition, the School District home page has a link for parents and students to report bullying incidents, and you may also be directed by school administration to use this process. <https://ecsd-fl.schoolloop.com/bullyinghelp>

8. What should I do if I realize I brought something to school that I should not have at school such as a knife or prescription medication?

Answer: As soon as you recognize that you have brought something that is not allowed, you need to go directly to the nearest school district employee and turn the item in to them right away. This employee will find the principal or the designee so that you can explain what happened. Giving up this item voluntarily and immediately upon discovery, may limit or eliminate the consequences that may have been given if this item was discovered as a result of an investigation.

9. Who is allowed to check students out of school and what is required?

Answer: The only people allowed to check your child out of school are those individuals who have been named in the Focus Student Information System. The only person who can change any contact information for a student is the person who verified by signature, either electronically or on paper, the information in the Focus Student Information System. If someone arrives at school to check out a student, that name must be noted in the Focus Student Information System, and that person's valid form of identification must be shown. A valid driver's license is the best form of identification for quick student check out.

10. What length can my shorts or clothing be to comply with the dress code?

Answer: The bottom of the hem of your shorts, skirt, skort, dress or top should be no shorter than the tip of your longest finger around the entire circumference of the article of clothing when you are standing straight and your shoulders are relaxed.

11. What are my rights when being accused of a discipline infraction resulting in a referral?

Answer: All students have the right to be treated fairly. The procedures to be followed vary with the severity of the act and the consequences which may be imposed. Repeated or serious events may result in a disciplinary referral. Students will always be informed of the accusations orally and in writing. The student will be allowed to present his/her version of the events. If the student claims innocence, or chooses not to speak, the evidence against him/her will be explained. All evidence will be considered by the principal or designee. The severity of the charge and past disciplinary history will determine the punishment in compliance with the Disciplinary Response Code.

12. Who do I talk to as a parent(s)/guardian(s) if my child has had a discipline problem?

Answer: The first person you should contact if your student has a discipline problem is one of the school administrators or designee. The principal, the assistant principal, and their designee are the people that will have the most recent and accurate information.

13. What does due process mean?

Answer: Due process means that under federal law, a student is not entitled to legal counsel, to cross examine witnesses, or to call his/her own witnesses unless a suspension exceeds ten (10) days. If the suspension does exceed ten (10) days, students have the right to due process including notice of charges, opportunity to be heard and right to consult their own attorney if desired.

14. Which offenses have to be reported to Law Enforcement Officers?

Answer: The following require consultation with Law Enforcement: alcohol, arson, battery, breaking and entering/burglary, disruption on campus-major, drug sale/distribution excluding alcohol, drug use/possession excluding alcohol, hazing, homicide, kidnapping, physical attack, robbery, larceny/theft, sexual assault, sexual battery, sexual offenses (other), threat/intimidation, trespassing, vandalism, weapons possession, other major. For more information, please see Disciplinary Response Code.

15. Can something I do outside of school impact me at school?

Answer: Yes, sometimes something a student does away from school can impact him/her at school. For example, if a student is charged with a felony (a serious crime) that has an adverse effect on the education or discipline at the school, the School District can suspend, reassign, or expel the student. In addition, a student's use of social media can result in discipline; if the school believes that there is a substantial possibility that a post will cause a disruption at school; or if the post is lewd, vulgar, threatening, or advocating dangerous or illegal behavior.

These are only two (2) examples of behaviors that occur outside of school that could affect a student's ability to remain in school.

16. Which offenses would immediately result in a disciplinary reassignment and/or expulsion?

Answer: Use, possession, or sale of an illegal or controlled substance by any student while the student is on school property, at a school bus stop, on a bus, or while attending a school function. Bringing a firearm or weapon to school, school function, or transportation. Participating in a bomb threat involving a school, bus or facility where a school function is being held.

17. What does it mean for a school to be implementing PBIS?

Answer: Positive Behavioral Intervention Support schools use strategies and systems to assist schools in reducing and eliminating problem behaviors while increasing positive behaviors of students. PBIS advocates the use of positive behavioral interventions and strategies that reduce or eliminate the need to use suspension and expulsion as disciplinary options. Schools that are implementing PBIS may skip the first consequence on the Disciplinary Response Code because multiple classroom interventions have been implemented prior to writing a discipline referral.

18. What is gang-related behavior?

Answer: Gang related behavior could include wearing accessories, clothing, markings or slogans showing you are part of or sympathetic to a gang. It could include using gang-related hand signs or signals. Gang related behavior could also include taking part in or organizing an initiation, hazing and/or intimidation of others.

D. Parental Rights

Parents have the right to participate in their child's education and to be informed of issues pertaining to their child. Parents have the right to be notified any time there is a change in their child's services and monitoring and the school's ability to provide a safe, supportive learning environment. School officials cannot withhold information about a student from a parent unless a reasonably prudent person would believe that such disclosure would result in abuse, abandonment, or neglect. Section 1001.42, Florida Statutes. Written parental consent must be obtained for the use of any deviation from their child's legal name in school.

Parents or guardians have a right to raise concerns regarding a school's compliance with Florida's Parental Rights in Education, s. 1001.42 (8)(c), Fla. Stat. The following is a summary of the concerns that may be raised under the law:

1. The required notice regarding a change in the student's services or monitoring related to the student's mental, emotional, or physical health or well-being and the school's ability to provide a safe and supportive learning environment for the student.
2. The requirement for School District personnel to encourage a student to discuss issues related to their well-being with their parent(s).
3. The prohibition against School District personnel prohibiting or discouraging parental notification of and involvement in critical decisions affecting a student's mental, emotional, or physical health or well-being.
4. The prohibition of classroom instruction by school personnel or third parties on sexual orientation or gender identity in prekindergarten through grade 8, except when required by ss. 1003.42(2)(n)3, and 1003.46. If such instruction is provided in grades 9 through 12, the instruction must be age-appropriate or developmentally appropriate for students in accordance with state standards.
5. The requirement that student support services training adhere to student services guidelines, standards, and frameworks established by the Florida Department of Education.
6. The requirement that, at the beginning of each school year, the District notify parents of each healthcare service offered at their child's school and of the option to withhold consent or decline any specific service.
7. The requirement that the District provide a copy of a well-being questionnaire or health screening form to the parent and obtain the permission of the parent before administering the questionnaire or health screening form to a student in kindergarten through grade 3.

Steps for Raising and Responding to a Parent Concern

1. Step One. In order to raise a concern about any of the issues listed above, the parent or guardian must first summarize the nature of the concern in writing specifically describing the factual issues and presenting it to the principal/designee. A school administrator will conduct an investigation into the complaint and respond to the parent with a proposed resolution within seven (7) days of receipt of the original notification.

2. Step Two. If a parent or guardian believes the concern is not resolved by the principal, they may then notify the Superintendent/designee in writing, again describing the nature of the concern and the reason the principal's proposed resolution failed to address the concern. Within 30 days after receipt of the notification, the District will either resolve the concern or provide a statement of the reasons for not resolving the concern.

3. Step Three. If a parent still feels their concern has not been resolved, they may request the Commissioner of Education to appoint a special magistrate to conduct an independent inquiry which will be decided by the State Board of Education. In the alternative, they may seek declaratory and injunctive relief in court. These options for further redress may be found in s. 1001.42 (8)(c)7.b., Florida Statutes.

All students have the following permissions: to access the Internet for educational purposes; to be photographed, videotaped, or interviewed by the news media regarding school-sponsored activities; to publish school authorized work on the School District of Escambia County web pages; and to have access to a digital device for educational purposes. A parent/guardian may deny his/her child any or all of these permissions by proactively requesting, completing, and returning a Denial of Permission Form to the student's school administration. The Denial of Permission Form is available to a parent/guardian upon request at the student's school. For additional information, refer to the Student Responsible Use Guidelines for Technology located on the District web site and in this handbook.

WARNING: The taking, disseminating, transferring, or sharing of obscene, pornographic, lewd, illegal images or photographs of oneself or others, whether by electronic data transfer or otherwise (commonly called texting, sexting, e-mailing, etc.) will result in discipline as indicated in the Disciplinary Response Code. In addition, such activity may constitute a CRIME and/or invasion of privacy under state and/or federal law. Any person taking, disseminating, transferring, or sharing obscene, pornographic, lewd, or otherwise illegal images or photographs will be reported to law enforcement and/or other appropriate state or federal agencies, which may result in arrest, criminal prosecution, and LIFETIME inclusion on sexual offender registries.

Many electronic communication devices have the capacity to record and/or transmit conversations. Students and parents should be aware of §934.03, F.S., which makes it a third-degree felony to record or transmit a conversation without the knowing consent of all parties. Students should not record conversations at school unless all parties to the conversation are aware of and consent to the recording.

E. Extra-Curricular Activities

a) Attendance

Students must be present at school at least one half of the day of the event. Students may not participate in the event on the day of the absence, subject to administrative review.

b) In-School/Out-of-School Suspension (ISS/OSS), In Lieu of Removal (ILR), Disciplinary Reassignment, & Expulsion

A student placed in ISS, OSS, or ILR will not be allowed to participate in any extracurricular activities during the duration of the placement. A student whose suspension period ends on a Friday may not participate in extracurricular activities that evening. A student whose suspension period includes a weekend may not participate in extracurricular activities over the weekend.

A student who is disciplinary reassigned or expelled is no longer eligible to participate for the duration of the disciplinary reassignment or expulsion.

c) Felony Offenses

Any student arrested and charged with a felony will not be eligible nor permitted to publicly represent the school or the school district in any extracurricular activity until the resolution of court proceedings.

Any student convicted of a felony, adjudicated delinquent, or had adjudication withheld will not be eligible nor permitted to publicly represent the school or the school district in any extracurricular activity for the balance of the school year.

d) All appeals of school board policy should be submitted to the appropriate level director

E. Student Athlete Eligibility Requirements

1. Florida High School Athletic Association (FHSAA) Requirements

All high schools in the Escambia County School District are members of the Florida High School Athletic Association (FHSAA). Interscholastic athletic eligibility is determined according to the FHSAA Handbook Operational Bylaws. Additional information regarding FHSAA bylaws can be found at <http://www.escambiaschools.org/athletics>

Student athletes are eligible to participate at the school in which he/she first enrolls each school year or at the school to which the student has transferred with approval from the Office of Enrollment Service

A student who transfers to a school during the school year may seek to immediately join an existing team if the roster has not reached the maximum size and the coach for the activity determines that the student has the requisite skill and ability to participate.

An exception is a student may not participate in a sport if the student participated in that same sport at another school during the same school year, unless the student is:

- a dependent child of active duty military personnel whose move resulted from military orders;
- a child who has relocated due to a foster care placement in a different school zone;
- a child who moved due to a court ordered change in custody due to separation, divorce, or the serious illness or death of a custodial parent; and/or authorized for good cause in Board policy.

The following exemptions may be granted:

- Reassigned by District School Board or Charter School Board as long as reassignment is not for athletic or disciplinary reasons and is not requested by the student or his/her parent/guardian.
- Relocation to a new residence due to a move by the student and the person with whom he/she has been previously living that makes it necessary for the student to attend a different school.
- Transfer, approved by the Office of Enrollment Services, to a new school within the first ten (10) days of the semester i.e. acceptance to a previously applied for magnet program, academy, charter school or private school.
- Undue hardship.

The FHSAA does not have the authority to make eligibility rulings on student transfers.

Students enrolled in Home Education, Full Time Florida Virtual School, Charter School, and/or an alternative program may participate at the student's residentially zoned public school or

the residential public school the student could choose to attend according to the controlled open enrollment provisions. 1002.31.F.S.

Students enrolled in a private school may participate at his/her residentially zoned school if the private school is not a member of FHSAA, does not offer the sport and has a school enrollment of one hundred twenty-five (125) students or fewer. Students not enrolled in a district school who participate in interscholastic extracurricular activities are subject to the District School Board's Code of Student Conduct for the limited purpose of establishing and maintaining the student's eligibility to participate at the school.

2. Escambia County School District (ECSD) Requirements Student Conduct Standards

In order to maintain eligibility, each student is expected to comply with the most current edition of the Escambia County School District's Code of Student Conduct and all team, District, and FHSAA rules and regulations.

- FHSAA Rule Violation--Student athletes who are charged during a competition

with unsportsmanlike conduct, which results in the school being fined by the FHSAA, will be held responsible for reimbursing the school for such fines. Any student that fails to reimburse the school will be ineligible to continue participation in the sport for which the school was fined. All appeals of FHSAA rule violations and sanctions must follow FHSAA procedures as set forth in the FHSAA Official Handbook.

- Team Rules--A copy of the team rules will be provided to each player. Parents and players are required to sign verification of receipt of the team rules.
- Attendance--Students must be present at school at least one half of the day of the event. Students may not participate in the event on the day of the absence, subject to administrative review.
- In-School/Out-of-School Suspension, In Lieu of Removal, Disciplinary--Reassignment, & Expulsion.--A student placed in ISS, OSS, or ILR will not be allowed to participate in any extracurricular activities during the duration of the placement. A student whose suspension period ends on a Friday may not participate in extracurricular activities that evening. A student whose suspension period includes a weekend may not participate in extracurricular activities over the weekend.

A student who is disciplinary reassigned or expelled is no longer eligible to participate for the duration of the disciplinary reassignment or expulsion.

- Felony Offenses--Any student arrested and charged with a felony will not be eligible nor permitted to publicly represent the school or the school district in any extracurricular activity until a court rendering.

Any student convicted of a felony, adjudicated delinquent, or had adjudication withheld will not be eligible nor permitted to publicly represent the school or the school district in any extracurricular activity for the balance of the school year.

- F. Appeal Process--All appeals of School Board Policy shall be submitted to the District Athletic Director in writing. All pertinent information will be forwarded to the Superintendent for a final decision. A written appeal of exceptions must be filed with the District Athletic Director using the Student Athlete Eligibility Review (SAER) Form available on the district's Athletic Department website. The SAER Committee will meet and render a decision within ten (10) calendar days from the date the appeal is received.
- G. Responsible Use Guidelines

The Escambia County School District makes a variety of communications and information technologies available to students through computer/network/Internet access. These technologies, when properly used, promote educational excellence in the District by facilitating resource sharing, innovation, and communication. Illegal, unethical or inappropriate use of these technologies can have dramatic consequences, harming the District, its students and its employees. These Responsible Use Guidelines are intended to minimize the likelihood of such harm by educating District students and setting standards that will serve to protect the District. The District firmly believes that digital resources, information, and interaction available on the computer/network/Internet far outweigh any disadvantages.

Indemnity of School for Loss or Damage: If the Chromebook is damaged or lost due to negligence, the school shall have the option of requiring the student to repair the Chromebook to a state of good working order or to reimburse the school for the replacement cost of such Chromebook. The cost of a new Chromebook is approximately \$300.00.

Parental Responsibility of Student Internet Use: Outside of school, parents bear responsibility for the same guidance of Internet use as they exercise with other technology information sources. Parents are responsible for monitoring their student's use of ECSD system and educational technologies, even if the student is accessing the ECSD system from home or a remote location. If there are additional questions, please call the school.

Mandatory Review. To educate students on proper computer/network/Internet use and conduct, students are required to review the information contained in the *Code of Student Conduct Handbook*. Employees supervising students who use the District's system must provide training emphasizing its appropriate use.

Acceptable Use. If network access is needed, connection to the filtered, wireless network provided by the District is required. Computer/Network/Internet access will be used to enhance learning consistent with the District's educational goals. The District requires legal, ethical, and appropriate computer/network/Internet use.

Access to Computer/Network/Internet. Access to the District's electronic communications system, including the Internet, shall be made available to students for instructional purposes. Each District computer and public Wi-Fi (available for students who bring their own electronic communication devices) has filtering software that blocks access to visual depictions that are obscene, pornographic, inappropriate for students, or harmful to minors, as defined by the federal Children's Internet Protection Act (CIPA). Filtered Internet access is provided to students as defined by CIPA.

Student Access. Computer/Network/Internet access is provided to all students unless

parents or guardians request in writing to the campus principal that access be denied. Student Internet access will be under the direction and guidance of a District staff member and in accordance with campus policies during school hours. Although the District does provide Internet filtering for devices checked out to students for use outside of school, students still need to be monitored at home to ensure that they are accessing appropriate content. Students may also be allowed to use the local network and public Wi-Fi with campus permission. For safety purposes, headphones and ear buds are not to be used in common areas or hallways. Students may bring headphones or ear buds to use in class as directed by a teacher.

Parental Permission. For students under the age of thirteen (13), the Children’s Online Privacy Protection Act (COPPA) requires parental permission for educational software tools. Examples of these tools are learning management tools, collaboration tools, wikis, and blogs. These tools can be accessed through the District’s student Webpage. Parents wishing to deny access to these educational tools must do so by delivering a completed Denial of Permission Form to the campus principal. The Denial of Permission Form can be found on the school district website.

Use of Electronic communication devices. The District believes technology is a powerful tool that enhances learning and enables students to access a vast amount of academic resources. The District’s goal is to increase student access to digital tools and facilitate immediate access to technology-based information, much the way that students utilize pen and paper. If network access is needed, connection to the filtered, wireless network provided by the District is required.

To this end, the District will open a filtered, wireless network through which students will be able to connect privately owned electronic communication devices. Students using electronic communication devices must follow the guidelines stated in this document while on school property, attending any school-sponsored activity, or using the Escambia County School District network.

- Students are allowed to bring electronic communication devices that can access the Internet for educational purposes as determined by the Principal and the classroom teacher.
- Each campus will develop procedures for use and management.
- For safety purposes, headphones and ear buds are not to be used in common areas or hallways. Students may bring headphones or ear buds to use in class when directed by a teacher.

Security. A student who gains access to any inappropriate or harmful material is expected to discontinue the access and report the incident to the supervising staff member. Any student identified as a security risk or as having violated the Responsible Use Guidelines

may be denied access to the District's system.

Other consequences may also be assigned. A student who knowingly brings prohibited materials into the school's electronic environment will be subject to suspension of access and/or revocation of privileges on the District's system and will be subject to disciplinary action in accordance with the *Code of Student Conduct*.

Subject to Monitoring. All District computer/network/Internet usage shall not be considered confidential and is subject to monitoring by designated staff at any time to ensure appropriate use. Students shall not use the computer system to send, receive or store any information, including email messages, that they consider personal or confidential and wish to keep private. All electronic files, including email messages, transmitted through or stored in the computer system will be treated no differently than any other electronic file. The District reserves the right to access, review, copy, modify, delete or disclose such files for any purpose. Students shall treat the computer system like a shared or common file system with the expectation that electronic files, sent, received, or stored anywhere in the computer system, will be available for review by any authorized representative of the District for any purpose. Electronic communication devices are subject to examination in accordance with disciplinary guidelines if there is reason to believe that the Responsible Use Guidelines have been violated.

Student Computer/Network/Internet Responsibilities.

District students are bound by all portions of the Responsible Use Guidelines. A student who knowingly violates any portion of the Responsible Use Guidelines will be subject to suspension of access and/or revocation of privileges on the District's system and will be subject to disciplinary action in accordance with the *Code of Student Conduct*.

Use of Social Networking/Digital Tools. Students may participate in District-approved social media learning environments related to curricular projects or school activities and use digital tools, such as, but not limited to, mobile devices, blogs, discussion forums, RSS feeds, podcasts, wikis, and on-line meeting sessions. The use of blogs, wikis, podcasts, and other digital tools are considered an extension of the classroom.

Verbal or written language that is considered inappropriate in the classroom is also inappropriate in all uses of blogs, wikis, podcasts, and other District-approved digital tools.

Password Confidentiality. Students are required to maintain password confidentiality by not sharing their password with others. Students may not use another person's system account.

Reporting Security Problem. If knowledge of inappropriate material or a security problem on the computer/network/Internet is identified, the student shall immediately notify the supervising staff member. The security problem shall not be shared with others.

The following guidelines must be adhered to by students using a personal communication device at school:

- Communication devices are only to be used during class for educational purposes at the direction of a classroom teacher.
- Internet access is filtered by the District on electronic communication devices in the same manner as District-owned equipment. If network access is needed, connection to the filtered, wireless network provided by the District is required.
- These devices are the sole responsibility of the student owner. The campus or District assumes no responsibility for electronic communication devices if they are lost, loaned, damaged or stolen and only limited time or resources will be spent trying to locate stolen or lost items.
- These devices have educational and monetary value. Students are prohibited from trading or selling these items to other students on District property, including school buses.
- Each student is responsible for his/her own device: set-up, maintenance, charging, and security. Staff members will not store student devices at any time, nor will any District staff diagnose, repair, or work on a student's personal telecommunication device.
- Communication devices will not be used as a factor in grading or assessing student work. Students who do not have access to electronic communication devices will be provided with comparable District-owned equipment or given similar assignments that do not require access to electronic devices.
- Campus administrators and staff members have the right to prohibit use of devices at certain times or during designated activities (i.e. campus presentations, theatrical performances, or guest speakers) that occur during the school day.
- Students are only allowed to use video and audio-conferencing tools under the direct supervision of a staff member.
- An administrator/designee may examine a student's electronic communication device and search its contents, in accordance with disciplinary guidelines.
- When students are participating in Google classrooms remotely, they should turn on the camera. Expectations for conduct and dress are the same as students who are in person learners.
- Students may face disciplinary or criminal penalties if a cell phone or other wireless communication device is used in a criminal act.

Inappropriate Use.

Inappropriate use includes, but is not limited to, those uses that violate the law, that are specifically named as violations in this document, that violate the rules of network etiquette, or that hamper the integrity or security of this computer/network/Internet system or any components that are connected to it. The appropriateness of a given use will be assessed on a case-by-case basis with a "reasonable person" standard. Although the District uses an Internet filter to block inappropriate material, simply because something is not blocked does not mean that it is appropriate. Students shall report any inappropriate material to the supervising staff member immediately.

Tampering with or theft of components from District systems may be regarded as criminal activity under applicable state and federal laws. Any attempt to break the law through the use of a District computer/network/Internet account may result in prosecution against the offender by the proper authorities. If such an event should occur, the District will fully comply with the authorities to provide any information necessary for legal action.

The following actions are considered inappropriate uses, are prohibited, and could result in revocation of the student's access to the computer/network/Internet:

Modification of Computer. Modifying or changing computer settings and/or internal or external configurations without appropriate permission is prohibited.

Transmitting Confidential Information. Students may not redistribute or forward confidential information without proper authorization. Confidential information shall never be transmitted, redistributed or forwarded to outside individuals who are not expressly authorized to receive the information. Revealing personal information such as, but not limited to, home addresses, phone numbers, email addresses, or birthdates about oneself or others is prohibited.

Commercial Use. Use of the system for any type of commercial or personal income-generating activity is prohibited.

Marketing by Non-ECSD Organizations. Use of the system for promoting activities or events for individuals or organizations not directly affiliated with or sanctioned by the District is prohibited.

Vandalism/Mischief. Any malicious attempt to harm or destroy District equipment, materials or data is prohibited. Deliberate attempts to degrade or disrupt system performance are violations of District policy and administrative regulations and may constitute criminal activity under applicable state and federal laws. Such prohibited activity includes, but is not limited to, the uploading or creating of computer viruses.

Vandalism as defined above is prohibited and could result in the cancellation of system use privileges. Students committing vandalism could be required to provide restitution for costs associated with system restoration and may be subject to other appropriate consequences.

School District Software. The unauthorized use of school district software is prohibited.

Intellectual Property. Students must always respect copyrights and trademarks of third-parties and their ownership claims in images, text, video and audio material, software, information and inventions. The copy, use, or transfer of others' materials without appropriate authorization is not allowed.

Copyright Violations. Downloading or using copyrighted information without following approved District procedures is prohibited. District procedures can be found in the School Board section of the district web site. "Rules and Procedures of the District School Board of Escambia County, Florida", Section 4.09

Plagiarism. Fraudulently altering or copying documents or files authored by another individual is prohibited.

Impersonation. Attempts to log on to the computer/network/Internet impersonating a system administrator or District employee, student, or individual other than oneself, could result in revocation of the student's access to computer/network/Internet.

Illegally Accessing or Hacking Violations. Intentional or unauthorized access or attempted access of any portion of the District's computer systems, networks, or private databases to view, obtain, manipulate, or transmit information, programs, or codes is prohibited.

File/Data Violations. Deleting, examining, copying, or modifying files and/or data belonging to other users without their permission is prohibited.

System Interference/Alteration. Deliberate attempts to exceed, evade, or change resource quotas are prohibited. The deliberate causing of network congestion through mass consumption of system resources is prohibited.

Taking or Sharing Videos. Taking or sharing images or recordings of others without permission is prohibited.

Circumventing or Compromising Security. Students must not utilize any hardware or software in an attempt to compromise the security of any other system, whether internal or external to the District's systems and network. Examples of prohibited activities include, but are not limited to, web proxies, Trojan horses, password crackers, port security probes, network snoopers, IP spoofing, and intentional transmission of viruses or worms.

Email and Communication Tools.

Email and other digital tools such as blogs and wikis are used to communicate within the District. The use of these communication tools shall be limited to instructional, school-related activities, or administrative needs. All students will be issued email accounts. Students should check email frequently, delete unwanted messages promptly, and stay within the email server space allocations. Internet access to personal email accounts is not allowed.

Students shall keep the following points in mind:

Perceived Representation. Using school-related email addresses, blogs, wikis, and other communication tools might cause some recipients or other readers of the email to assume that the student's comments represent the District or school, whether or not that was the student's intention.

Privacy. Email, blogs, wikis, and other communication within these tools shall not be considered a private, personal form of communication. Private information, such as home addresses, phone numbers, last names, pictures, or email addresses, shall not be divulged. To avoid disclosing email addresses that are protected, all email communications to multiple recipients shall be sent using the blind carbon copy (bcc) feature.

Inappropriate Language. Using obscene, profane, lewd, vulgar, rude, inflammatory, threatening, or disrespectful language in emails blogs, wikis, or other communication tools is prohibited. Sending messages that could cause danger or disruption, personal attacks, including prejudicial or discriminatory attacks are prohibited.

Political Lobbying. District resources and equipment, including, but not limited to, emails, blogs, wikis, or other communication tools must not be used to conduct any non-instructional political activities, including political advertising or lobbying. This prohibition includes using District email, blogs, wikis, or other communication tools to create, distribute, forward, or reply to messages, from either internal or external sources, which expressly or implicitly support or oppose a candidate for nomination or election to either a public office or an office of a political party or support or oppose an officeholder, a political party, or a measure (a ballot proposition). These guidelines prohibit direct communications as well as the transmission or forwarding of emails, hyperlinks, or other external references within emails, blogs, or wikis regarding any political advertising.

Forgery. Forgery or attempted forgery of email messages is prohibited. Attempts to read, delete, copy or modify the email of other system users, deliberate interference with the ability of other system users to send/receive email, or the use of another person's user ID and/or password is prohibited.

Junk Mail/Chain Letters. Students shall refrain from forwarding emails that do not relate to the educational purposes of the District. Chain letters or other emails intended for forwarding or distributing to others are prohibited. Creating, distributing or forwarding any annoying or unnecessary message to a large number of people (spamming) is also prohibited.

Video and Audio-Conferencing Tools. Students are only allowed to use video and audio-conferencing tools under the direct supervision of a staff member.

Consequences of Agreement Violation. Any attempt to violate the provisions of this agreement may result in revocation of the student's access to the computer/network/Internet, regardless of the success or failure of the attempt. In addition, school disciplinary and/or appropriate legal action may be taken.

Denial, Revocation, or Suspension of Access Privileges. The System Administrator and/or building principal may deny, revoke, or suspend computer/network/Internet access as required, pending an investigation.

Warning. Sites accessible via the computer/network/Internet may contain material that is illegal, defamatory, inaccurate or controversial. Each District computer with Internet access has filtering software that is designed to block access to visual depictions that are obscene, pornographic, inappropriate for students, or harmful to minors, as defined by the federal Children's Internet Protection Act. The District makes every effort to limit access to objectionable material; however, controlling all such materials on the computer/network/Internet is impossible, even with filtering in place. With global access to computers and people, a risk exists that students may access material that may not be of educational value in the school setting.

Student Access. Computer/Network/Internet access is provided to all students unless parents or guardians request in writing to the campus principal that access be denied after school hours. If a parent decides to deny afterhours access, the student will still have access during school hours but will be under the direction and guidance of a District staff member and in accordance with campus policies during school hours. Although the District does provide Internet filtering for devices checked out to students for use outside of school, students still need to be monitored at home to ensure that they are accessing appropriate content. Students may also be allowed to use the local network and public Wi-Fi with campus permission.

Disclaimer. The District's system is provided on an "as is, as available" basis. The District does not make any warranties, whether expressed or implied, including, without limitation, those of merchantability and fitness for a particular purpose with respect to any services provided by the system and any information or software contained therein. The District does not guarantee that the functions or services performed by, or that the information or software contained on the system will meet the system user's requirements, or that the system will be uninterrupted or error free, or that defects will be corrected.

Opinions, advice, services, and all other information expressed by system users, information providers, service providers, or other third-party individuals in the system are those of the providers and not the District. The District will cooperate fully with local, state, or federal officials in any investigation concerning or relating to misuse of the District's electronic communications system.

Chapter 2: Attendance

A. Compulsory Attendance

It is important that students attend school all day, every day, to get the most out of the educational opportunities provided by the Escambia County School District.

Attendance is defined as being present from the first bell of the day to the dismissal bell. Compulsory school attendance age applies to students between six (6) and eighteen (18) years of age unless the parent/guardian files a notice with the school of the student's intent to terminate school enrollment. This notice of intent applies to students between the ages of sixteen (16) and eighteen (18) only. **All students are expected to attend school each day except for reasons indicated under excusable absence.** 1003.24, 1003.26, 1003.27, F.S.

Excusable absence includes

- That which is caused by the illness of student, serious illness or documented death in the family, or quarantine.
- That which has the sanction of both parents/guardians and principal. This agreement should be made prior to the absence.
- That which the principal deems excusable because of unusual circumstances.
- That which recognizes absence for a religious holiday. Prior administrative approval of absence is required.
- That which results from a visit to the parent/guardian/immediate family member who is being deployed or who is returning from a tour of duty in the military.
- That which is for an appointment scheduled to receive a therapy service provided by a licensed health care practitioner or behavior analyst certified pursuant to Florida law for the treatment of autism spectrum disorder including, but not limited to, applied behavioral analysis, speech therapy, and occupational therapy.

Each absence must be explained. Parents/guardians are responsible for providing notification within three (3) days of the student's return to school, or the absence will result in an unexcused absence. Notification of a student's absence can be completed on an Absence Verification Form that is available either on the District's website or at the schools. The Absence Verification Form includes the student's name, the date(s) the student was absent, the reason for the absence, and parent's/guardian's legal name. If a parent/caregiver is unable to access or print the Absence Verification Form, a note may be written requesting an absence be excused and should include the student name, the date(s) of absence, reason, and parent's/caregiver legal name.

Students who check in or out of school for a medical appointment must provide a parent note upon returning to school for the absence to be excused.

Absences related to illness or injury of the student shall be excused upon receiving notification by the parent/guardian for absences of no more than five (5) consecutive days or a total of ten (10) days in a period of ninety (90) calendar days.

Absences related to illness or injury of the student that exceed five (5) consecutive days or a total of ten (10) days in a period of ninety (90) calendar days may require a physician's statement. After the student exceeds the ten (10) days of absence, at the level director's discretion, a doctor's note may be required for all subsequent absences that are due to illness. The physician's statement should indicate the student is under his/her care and the dates (or period of time) that the care is medically necessary for the student to be absent. Absences related to illness or injury that exceed the number of days described above and lack a physician's statement as required shall be recorded as unexcused absences.

Any student who accumulates five (5) unexcused absences in a thirty (30) calendar day period or ten (10) days in a period of ninety (90) calendar days will be referred to an attendance child study team. The student's unresolved or chronic attendance problems, which include excessive tardies and/or early checkouts, will involve District school social workers and a possible referral to the court system. The student's parent/guardian shall be notified, and a meeting will be scheduled to identify potential remedies. This policy applies to absences from individual class periods, as well as to absences from the entire school day. 1003.26, F.S.

Students with excused absences will be allowed to make up all missed work. All missed work during an excused absence must be requested by the student or parent/guardian either during the absence or on the first day the student returns to school or to the class. All work assigned during a student's excused absence may be submitted without penalty upon the student's return at a time agreed to by the teacher and student but no fewer than the number of consecutive days absent. The request can be made to the teacher within the time frame by email.

Students shall make up all graded class work and tests assigned or due during an unexcused tardy, check in or check out, or absence. All missed work during an unexcused absence must be requested by the student or parent/guardian either during the absence or on the day the student returns to school. A timeline for the completion of all missed work and/or tests will be determined by the teacher and the student and shall not exceed the number of days the student was out of school. At the teacher's discretion, graded class work/tests may be accepted for partial credit (with no more than a ten percent (10%) reduction), or full credit.

Students shall make up all graded class work and tests assigned during an out-of-school suspension. All missed work during an out-of-school suspension must be requested by the student or parent/guardian either during the suspension or on the first day the student returns to school or to the class. A timeline for the completion of all missed work and/or tests will be determined by the teacher and the student and shall not exceed the number of days the student was out of school. At the teacher's discretion, graded class work/tests may be accepted for partial credit or full credit. The request can be made by email to the teacher within the time frame.

To be counted present in a class, the student must be in attendance at least half the class period. Students in attendance for any part of the school day are counted present for the day but counted absent for any classes unattended. Students who wish to participate in extracurricular or co-curricular activities must be present at school at least half the day of the event.

State law requires the name of any minor at the secondary level with fifteen (15) unexcused absences during a period of ninety (90) calendar days be reported to the Department of Highway Safety and Motor Vehicles. Students reported to the Department of Highway Safety and Motor Vehicles shall have their license suspended or withheld upon making application for a license unless the department is provided with proof of compliance or a hardship waiver. Request for proof of compliance or a hardship waiver should be made to the school administration within fifteen (15) days from the date of receipt of the notice of intent to suspend the license.

Should the request for a hardship waiver be denied by the principal/designee, the student or parent/guardian may request to appeal that decision to the Board. Requests to appeal the school's decision regarding a hardship waiver shall be made in writing and submitted to the Office of School Social Workers, 30 East Texar Drive, Pensacola, Florida, 32503.

B. Tardiness

It is important for all students to arrive at school on time each day. On time arrival will establish good habits for the future and ensure that students do not miss any school work.

Tardiness is the absence of any student when the official school day begins or when a student fails to report to any class during the school day before the class bell rings. When a student reports to school late or to a class late, the tardy must be appropriately identified as excused or unexcused. Repeated and/or excessive incidents of tardiness may potentially result in disciplinary action for the student.

An excused tardy will be given when either a parent or physician note is provided if a student is late to school or to a class as the result of: sickness or injury; death in the family; medical or dental appointment; school-sponsored activities; court date; or other reason that was pre-approved by the school principal. An unexcused tardy will be given any time a student is late to school or to class as a result of (but not limited to) oversleeping, missing the school bus, shopping trips, pleasure trips or excessive tardiness as a result of illness without a physician's note stipulating that the medical condition justifies the student's tardiness.

The expectation for the instructional day/period is that instruction occurs from bell to bell. Tardiness to school/class negatively impacts the opportunity for student success. Checking in/out of school should be kept to a minimum to protect the productivity of the student's instructional time and to avoid disruptions to the school day.

Each school shall have a written tardy procedure which will encourage on-time arrival to school and to class. Each school shall notify students and parents of the school's tardy policy. Each secondary teacher will provide written notice to students regarding the tardy policy to class. Students cannot be suspended out-of-school for tardiness or truancy. 1006.09(1), F.S.

C. Religious Holidays

Students shall receive an excused absence for an absence related to the observance of a religious holiday. The observance of the holiday shall be consistent with the tenets of the student's religion. Parents/guardians shall provide written notice of the observance and receive administrative

approval prior to the absence. A note shall not be required upon the student's return to school. Students shall not be adversely affected by an absence related to the observance of a religious holiday and shall be allowed to make up any work missed as the result of the absence. 1002.20, F.S.

D. Truancy

Each parent/guardian is responsible for his/her child's school attendance as required by law. Whenever a child of compulsory school attendance age is absent without the permission of the school principal/designee, the parent/guardian of the child shall report and explain the cause of the absence as soon as reasonable after learning of the absence.

If a student under the age of eighteen (18) is absent from school without a valid reason, the parent/guardian shall be given written notice requiring the child be in attendance at school within three (3) days from the date of the notice. Failure to comply with such notice may subject the parents/guardians to criminal prosecution.

During the school day, students between the ages of six (6) and eighteen (18) who are not in school or under the supervision of an adult shall be taken into custody and/or transported to school when a law enforcement officer has reasonable grounds to believe the child is truant. 984.13, F.S.

Students who become habitual truants will be dealt with according to the provisions of Chapters 39 and 1003, F.S.

E. Out-of-Attendance-Zone Students

Students attending schools out of their attendance zone must maintain passing grades, demonstrate appropriate behavior, be on time, and maintain good attendance. Failure to do so may result in the principal requesting a student be returned to the home school at the end of a quarterly grading period. A documented parent/guardian conference must be held prior to such a request being made by the principal/assistant principal.

Chapter 3: Campus Arrival/Departure

A. Campus Hours

The principal of each school will designate a time when students may arrive on the school campus. Students shall arrive at school no more than thirty (30) minutes early and must leave within thirty

(30) minutes of dismissal. Exceptions may be allowed for those students involved in supervised extracurricular activities and tutoring. The school shall not be responsible for students who are on school premises outside of designated times.

B. Arriving/Leaving During School Day

A student must be in attendance throughout the school day in order to benefit fully from the educational program of the District. The Board recognizes, however, that there could be compelling circumstances requiring that a student be late to school or dismissed before the end of the school day.

During school hours, students shall be permitted to leave school only in the custody of one (1) of the following:

- A person (with photo ID) who is listed as an authorized contact in the Focus Student Information System
- A law enforcement officer, emergency medical worker, worker from the Department of Children and Families, or court official
- School employee for the purpose of a field trip, athletic competition, or other approved event.

Once a student has arrived on campus, he/she may not leave campus without the permission of the school. Parents/guardians may designate individuals to whom the school may release the student by providing their names and contact information in the Focus Student Information System.

If there is no designated primary custodian, the child may be released only to the persons listed in the Focus Student Information System. In the absence of a change of custody, only the person who completes the Focus Student Information, either on paper or online, may make changes to it. Parents/guardians are required to provide the school a certified copy of all current court orders affecting custody. Certified copies are obtained from the Clerk of Court.

C. Early Checkouts

For safety and efficiency, student check outs will not be allowed during the last thirty (30) minutes of the school day.

D. Pick Up/Drop Off Area

The principal of each school will designate a specific area for students who are waiting for school to begin or who are waiting to be picked up at the conclusion of school or after school activities.

In the event a student must call his/her parents/guardians, a specific telephone will be designated. It shall be the responsibility of the student to wait in the designated area. Any student not in the designated pick-up area after school shall be subject to disciplinary action.

E. Students Walking to School

Parents/guardians should discuss safety rules with students who walk to school. Students should use designated and monitored crosswalks and follow all safety rules for walkers. The District's supervisory responsibility is limited to times when students are on the school campus. 1003.31, F.S.

F. Driving on Campus

At no time may a middle school student drive to or from school or park a vehicle on any school campus during the school day. High school students who drive may have the privilege of parking on campus subject to school policy and consent to random drug screening.

Chapter 4: Transportation Services

Additional information is available at <http://www.escambiyellow.com>.

A. Authority of School Bus Operator

The school bus operator has the authority to manage students transported to and from school and school functions. The school bus operator may enlist the assistance of school officials when behavior is inappropriate. If a student compromises the safety of the bus, law enforcement may be called.

B. School Bus Student Expectations

1. Students will always follow the school bus operator or assistant's instructions and comply with the Code of Student Conduct Handbook. The bus operator and assistant's primary concern is for student safety.
2. Students will exercise good manners, caution, and consideration for other people. They will show respect for the bus operator and assistant, the bus, other students, and other adults.
3. Students will not annoy or bother others, engage in horseplay or rough play.
4. Students will not use profanity or make offensive gestures.
5. Students will respect private property and observe good behavior while at the bus stop. They will be at their assigned bus stop ready to board the bus five (5) minutes prior to the scheduled bus arrival time. They will not run after the bus once it has begun to drive away.
6. Students will sit in their assigned seats and remain properly seated with their seat belts securely fastened while the bus is in motion.
7. Students will wait until the bus comes to a complete stop before boarding or leaving the bus. They will enter and leave the bus in an orderly single file. If it is necessary to cross the road before boarding or after exiting the bus, students will cross in FRONT of the bus after the bus operator gives a signal indicating that crossing is safe.
8. Students will leave the bus only with the consent of the bus operator at their assigned bus stop.
9. Students will talk in a normal conversational voice, but remain silent as the bus approaches and crosses railroad tracks. They will not distract the school bus operator.
10. Students will keep their head, hands, and other objects inside the bus at all times.

11. Students will keep the aisle and step-well clear at all times. They will hold musical instruments and other objects in their lap. (Instruments may be transported only when space is available.)
12. Students will not eat, drink, spit, or chew gum while on the bus.
13. Students may use wireless and/or cellular communication devices while on the bus, but the devices must be placed on silent for the duration of any bus transportation. (Student use of an electronic communication device may be restricted by the bus operator to ensure the safe operation of the bus.) Earbuds must be worn if listening to the electronic communication device.
14. Students will not use aerosols, fragrances, or sprays of any kind on board the bus.
15. Students will promptly report to the principal/designee when instructed to do so by the school bus operator.
16. Students are subject to all school rules, to include dress code, when being transported by school bus.

C. School Bus Discipline

1. Students should expect and respond to progressive disciplinary action for minor infractions occurring on the school bus.
2. Infractions that are considered serious in the classroom are no less serious when they occur on the school bus. Students should expect disciplinary action for a serious infraction occurring on the school bus that is identical to disciplinary action that would be taken if the infraction occurred in school, unless the infraction compromised safety of the school bus and thereby increased the severity of the situation.
3. Infractions that compromise the safety of the school bus, students riding the school bus, or others are serious infractions.
4. Any disciplinary student removal from school district transportation for longer than ten (10) days will require a disciplinary removal hearing. Prior to the student being removed for longer than ten (10) days, the principal will request a removal hearing by letter from the Office of Student Engagement. The coordinator of student engagement will then establish a date, time, and location for the removal hearing to be held. This hearing will take place during the ten (10) day bus suspension issued by the school for the behavior infraction.

Chapter 5: Student Conduct

A. Subject to Control

All students attending a public school are under the control and supervision of the principal or designee

- While on the bus.
- While attending school.
- While on school premises.
- While at any school-sponsored event.

Each student enrolled in a public school, during the time he/she is being transported to or from school at public expense, during the time he/she is attending school, and during the time he/she is on the school premises or at any school-sponsored event, shall be under the control and direction of the principal/designee and under the immediate control and direction of the teacher or other member of the instructional staff or of the school bus operator to whom such responsibility may be assigned by the principal. 1003.31, F.S.

All students have access to digital devices provided by the district. Students shall comply with the district's Responsible Use Guidelines. Students in grades 3-12 may be given a device to take home. See Chapter 1 for Responsible Use Guidelines.

B. Safe Harbor

If a student who is in possession of an item of contraband (such as a pocket knife, drugs, etc.) voluntarily surrenders the item as soon as he/she realizes that it is in his/her possession to a responsible staff member, then the student may be eligible for mitigation, in whole or part, of the penalty for possessing the item as appropriate under the circumstances. To qualify for this provision, such surrender must occur prior to the beginning of any investigation or search that might uncover the item.

C. Zero Tolerance Policy for School-related Violent Crimes and Gun-free School Act

Disciplinary infractions shall be reported to the state in accordance with School Environmental Safety Reporting (SESIR) requirements through the approved reporting tool provided by the School Board. For additional guidance regarding the SESIR definitions and the appropriate Florida Statutes, please refer to <http://www.fldoe.org/schools/safe-healthy-schools/safe-schools/sesir-discipline-data/>. All SESIR incidents, with the exception of petty acts of misconduct, shall be reported to the appropriate law enforcement agency. Petty acts of misconduct are those that *solely* constitute violations of School Board policies, infractions or misdemeanors which do not involve bodily harm, including, but not limited to, minor fights or disturbances, disorderly conduct, or any other example listed in the disciplinary guidelines below.

To comply with the State Board of Education Rule for Zero Tolerance for school-related violent crimes and for the Gun-Free School Act, families and students must understand that certain criminal acts, violent acts and disruptive behavior occurring on School Board property, on school-

sponsored transportation or during school-sponsored activities must be reported to local law enforcement. These acts include but are not limited to homicide, sexual battery, armed robbery, aggravated battery, battery on a teacher or other school personnel, kidnapping or abduction, arson, possession, use or sale of any firearm, razor blade, box cutter, knife or explosive device, willful property damage, bomb threats, conspiring or inciting a riot, trespassing on school property, possession or sale of illegal drugs or alcohol. These acts pose a serious threat to school safety, i.e.—acts which directly or indirectly pose a significant risk of serious injury. Violence against any school district personnel is grounds for in-school suspension, out-of-school suspension, expulsion, or imposition of any other disciplinary action, and may result in criminal penalties being imposed.

The School District’s definition of weapons is broader than the definition for weapons listed in Chapter 790 Florida Statutes. No student may possess any firearm, weapon, electric weapon or device, destructive device, or any other weapon as defined in section 790.001(13), Fla. Stat., including razor or box cutter, at any meeting of the public-school district; any athletic event; any school administration building; any school facility, and/or school sponsored event, except as authorized in support of school-sanctioned activities.

The School Board expressly waives the exception in section 790.115(2)(a)3, Fla. Stat., with regard to student parking privileges. Accordingly, no student may possess a firearm on School Board property, even if it is securely encased in the interior of a vehicle.

D. Simulating a Firearm

Simulating a firearm or weapon while playing or wearing clothing or accessories that depict a firearm or weapon or express an opinion regarding a right guaranteed by the Second Amendment to the United States Constitution is not grounds for disciplinary action or referral to the criminal justice or juvenile justice system. However, a student may be subject to disciplinary action if simulating a firearm or weapon while playing substantially disrupts student learning, causes bodily harm to another person, or places another person in reasonable fear of bodily harm. The severity of consequences imposed upon a student, including referral to the criminal justice or juvenile justice system, must be proportionate to the severity of the infraction and consistent with district school board policies for similar infractions.

The nature of the offense and/or the student’s past disciplinary record may be considered in disciplinary action under the progressive disciplinary policy.

NOTE: Corporal punishment will **not** be administered on **any** District property.

E. Involuntary Transfer, Disciplinary Reassignment or Expulsion

The Superintendent or his designee has the authority to involuntarily transfer or assign a student to another zoned school of attendance when such placement is determined to further the interest of the Board in maintaining a safe and orderly environment. A student who is repeatedly disruptive or who poses a threat to the health, safety, or welfare of others may be assigned involuntarily to an alternative setting. 1006.09, F.S.

A student’s juvenile justice information and criminal record, in conjunction with other relevant

information, may be used for the purpose of reviewing a student's educational placement and need for services and to protect the safety of other students and school personnel. Ch. 1006, F.S.

Consistent with the District's aim to provide a safe and orderly learning and work environment in all District schools, the Board has adopted and will enforce a policy in which the three (3) offenses described below will result in disciplinary reassignment, expulsion, and/or referral for mental health services with or without continuing educational services, from the student's regular school. Enforcement of this policy is not intended to imply a disregard of the rights of any individual or lack of concern by the District for any student. Enforcement of this policy shall be consistent with applicable laws including the Individuals with Disabilities Education Act (IDEA). The Superintendent may consider the one (1) year expulsion requirement on a case-by-case basis and modify the requirement by assigning the student to a disciplinary program or alternative school if the modification is determined to be in the best interest of the student and the District. If a student committing any of the offenses in this subsection is a student who has a disability, the Board shall comply with applicable State Board of Education rules. 1006.13, F.S. This policy will be enforced for violation of the following:

- Drugs: The unlawful use, possession, or sale of an illegal or controlled substance by any student while the student is upon school property, at a school bus stop, or while in attendance at a school function.
- Weapons: Bringing a firearm, weapon, destructive device, or dangerous item to school, to any school function, or onto any school-sponsored transportation or possessing any firearm or weapon at school, at any school function, or on any school-sponsored transportation. Examples include, but are not limited to, ammunition, fireworks or tasers.
- Bomb Threat: Initiating or knowingly and willingly actively participating in the commission of a bomb threat or a false report of a bomb, explosive, weapon of mass destruction or concerning the use of a firearm in a violent manner, involving a District school, school site, school bus, or facility in which a school function is held or scheduled to be held.

The Board may assign the student to a disciplinary program for the purpose of continuing educational services.

F. Personal Property of Students

Schools are not responsible for loss, theft, or destruction of students' personal items. Students are encouraged not to bring items of value such as cash, credit cards or gift cards to school. For safety purposes, headphones and ear buds are not to be used in common areas or hallways. Students may bring headphones or ear buds to use in class as directed by a teacher. Electronic games, media devices including, but not limited to, radios, CD/DVD players, laser pointers, two-way radios, smart watches or listening devices are not allowed. The principal or designee may determine that other devices are not allowed and will contact parents.

G. Gang Activity

The District does not allow gang activity as defined by Florida Law. Gang activity includes gang-affiliated signs, symbols, and dress. It is the policy of the District that all students and

employees have an educational setting that is safe, secure, and free from harassment and bullying of any kind. The District will not tolerate unlawful harassment of any type. Conduct that constitutes bullying, as defined herein, is prohibited. Ch. 874, F.S.

H. Clubs and Organizations

Students can benefit from the experiences in clubs and before and after school activities. Some clubs are already established and often, students wish to start additional clubs and activities. To start a club, students must follow the steps below:

Step one: The proposed club must secure a sponsor. Sponsors must be District employees, approved by the school principal/designee, and adhere to all the School District of Escambia County guidelines concerning club sponsors.

Step two: The School District of Escambia County club information sheet must be completed and turned in to the principal/designee.

Step three: The principal/designee will review the information sheet and will accept or deny the club application.

Step four: The application will be returned to the club sponsor to notify the students of the club's status. Upon approval, the club will begin drafting its constitution and bylaws. Once the constitution is completed, it is to be submitted to the principal/designee for approval. Upon approval, the club sponsor will be notified.

Step five: The principal/designee will notify the Student Government Association and/or the Inter Club Council (if applicable) of the formation of the new club.

Step six: The club will begin to recruit members and elect officers in accordance with the club constitution, District guidelines (as listed in the Code of Student Conduct) and the District club procedures.

Step seven: The club sponsor and officers shall meet with the school financial specialist. The specialist will give the club a copy of the District guidelines for fundraising and establish a club internal funds account.

Step eight: The club shall schedule an annual service project.

Club Constitutions must include the following components:

- The constitution must adhere to the principles stated in the Code of Student Conduct.
- All club members must be in good academic standing as determined by the club sponsor and administration of each school.
- Each club shall create a set of disciplinary procedures for the removal of members.
- Every constitution should state that members are subject to voluntary drug screening per the School District of Escambia County Random Drug Screening Policy.
- Every club must have a minimum of four officers; president, vice president, secretary, and treasurer.

- All volunteers or chaperones must adhere to the School District of Escambia County guidelines.
- All activity requests must be submitted to and approved by the principal/designee.

It is unlawful for any person, group, or organization to organize or establish a fraternity, whole or in part, of students enrolled in any public school or to go on any school campus for the purpose of soliciting any students to join such an organization. A secret society shall be interpreted to be a fraternity, sorority or other organization whose active membership is comprised wholly or partly of students enrolled in K-12 public schools. It perpetuates itself wholly or partly by taking in additional student members based on the decision of its membership. Membership must instead be based on the right of any student who is qualified by the rules of the school to be a member of and take part in any class or group exercise designated and classified according to gender, subjects included in the course of study, or program of school activities fostered and promoted by the Board, Superintendent, or school principal. 1006.14, F.S.

Clubs, organizations, and activities must be open to all students. If a student qualifies, he/she has a right to join. Secondary students must consent to random drug screening in order to participate in any extracurricular activity. Members shall not be selected by secret ballot. Membership in a club or organization should not interfere with a student's instructional program. A charter and constitution stating membership qualifications and rules of conduct must be written by both students and teachers, be approved by the administration, and be kept on file so that all students, parents/guardians, and school personnel may read them. The constitution of a club shall determine its number of members. All club meetings must be held on the school grounds except for special meetings or events which are approved by the administration.

I. Off-Campus Felony Charges – Adverse Impact

Any student who is formally charged with an off-campus felony (or with a delinquent act which would be a felony if committed by an adult) may be suspended from school if that incident is shown to have an adverse impact on the school in which the student is enrolled. Parents should be aware that the School District does not have the authority to discipline students for off-campus incidents unless there is a clear indication that the incident had an adverse impact on campus. See cases *Mahanoy Area School District v. B.L.*, 141 S. Ct. 2038 (2021); *Morse v. Frederick*, 551 U.S. 393 (2007); and *M.T. v. School Board of Manatee County*, 779 So.2d 338 (2d DCA 1979). A suspension resulting from an adverse impact determination may exceed ten (10) days, as determined by the Superintendent. The suspension shall not affect the delivery of educational services to the student, and the student shall be immediately enrolled in a daytime alternative education program, or an evening alternative education program, where appropriate. 1006.09(2), F.S.

Any student who is found by a court to have committed a felony (or delinquent act) may be expelled by the Board or may be given a disciplinary reassignment. Such expulsion or disciplinary reassignment shall not affect the delivery of educational services to the student in any residential, nonresidential, alternative, daytime, or evening program outside of the regular school setting. Any student who is subject to discipline or expulsion for an off-campus felony involving a substance controlled under Chapter 893, F.S. may be entitled to a waiver of the discipline or expulsion

1. If the student provides information leading to the arrest and conviction of the person who

supplied the controlled substance to him/her or if the student voluntarily discloses his/her unlawful possession of the controlled substance prior to his/her arrest. Any information provided which leads to arrest and conviction is not admissible in a subsequent criminal trial against the student divulging the information.

2. If the student commits himself/herself or is referred by the court in lieu of a sentence to a state-licensed drug abuse program and successfully completes the program.

J. Extracurricular Activities

1. Any student who is arrested for a felony act may be suspended from participation in extracurricular activities if, in the opinion of the school administrator, the student's continued participation in extracurricular activities would adversely impact the school.
2. Any student who has been charged with a felony, (per accompanying documentation from the state attorney's office), will not be eligible nor permitted to publicly represent the school or the school district in any extracurricular activity until the resolution of court proceedings.
3. Any student who has been convicted of a felony, adjudicated delinquent or had adjudication withheld will not be eligible nor permitted to publicly represent the school or the school district in any extracurricular activity for the balance of the school year.

K. Search of Lockers, Vehicle, Electronic Devices, or Personal Property

Students do have the right to bring approved personal property onto campus. Student lockers, personal property, and vehicles are subject to search by the principal/designee where reasonable suspicion is present to believe a prohibited or illegally possessed item is contained therein.

Any search of a student's personal belongings, including a purse, backpack, or bookbag, must be conducted discreetly to maintain the privacy of the student's personal items within such belongings. Personal items that are not prohibited on school grounds must be immediately returned to the student's personal belongings.

Any vehicle while on the school campus or the grounds of a facility where a school sponsored function is being held or any vehicle used in connection with a school sponsored activity is subject to search by the principal/designee and/or the appropriate law enforcement agency when a reasonable suspicion exists that a prohibited or illegally possessed item is stored in the vehicle. The person in control of the vehicle will be present during the search. 1006.09, F.S.

A student's electronic device is subject to search. The principal/designee may confiscate a student's electronic communication device and search its contents including, but not limited to, phone usage, texting, and images/videos when a reasonable suspicion exists that the student violated the District's Student Responsible Use Guidelines for Technology. Such search is not subject to prior parent/guardian notification.

The search of a student may be conducted when reasonable suspicion exists that the student possesses a prohibited or illegally possessed item. The search must be conducted (with an adult

witness present) in a discreet manner out of view of other students. Such search is not subject to prior parent/guardian notification.

L. Disciplinary Response Code for Secondary/Post-Secondary Schools

Secondary/Post-Secondary

Level 1 – Disciplinary Response Code

Level 1 offenses are minor acts of misconduct that interfere with the orderly operation of the classroom, a school function, extracurricular/co-curricular program or approved transportation. It is the expectation that a parent should be contacted anytime a referral is written or processed

The school district employee involved should intervene in the misconduct. If further action is necessary, the school district employee should refer the student to school administration for disciplinary action. After hearing the student’s explanation, consulting with staff members and doing any other investigation necessary, the administrative designee will decide on disciplinary action. **The school administration will contact the parent and may use any consequence that is listed under the leveled infraction to remedy the student’s behavioral incident.** Factors which will be considered to determine appropriate consequences include, but are not limited to, the severity of the offense, the number of prior disciplinary incidents, the age of the student, the student's acceptance of responsibility, and the consequence most likely to result in positive behavioral change.

Level 2 offenses are more serious acts of misconduct than Level 1 offenses. Level 2 includes repeated acts of misconduct from Level 1 and acts directed against people or property that do not seriously endanger the health or safety of others.

The school district employee involved should intervene in the misconduct. If further action is necessary, the school district employee should refer the student to school administration for disciplinary action. After hearing the student’s explanation, consulting with staff members and doing any other investigation necessary, the administrative designee will decide on disciplinary action. **The school administration will contact the parent and may use any consequence that is listed under the leveled infraction to remedy the student’s behavioral incident.** Factors which will be considered to determine appropriate consequences include, but are not limited to, the severity of the offense, the number of prior disciplinary incidents, the age of the student, the student's acceptance of responsibility, and the consequence most likely to result in positive behavioral change.

D. Sexting

Students commit the crime of sexting when they knowingly use any computer or electronic communication device to distribute or send any image or video that depicts or shows nudity or sexual conduct to another person.

Sexting also applies to any situation where a student receives and possesses a nude or explicit image or video sent by another person. When the student did not request the image or video and did not send it to or share it with others, then the student must immediately report the image/video to a guardian, school official or law enforcement official in order to avoid school consequences.

E. Discrimination

All students have the right to participate in the educational and extracurricular activities offered by the School Board free from unlawful discrimination or harassment based on their gender, age, race, religious creed, color, sexual orientation, marital status, national origin, or disability. The School Board does not tolerate any such discrimination or harassment. Any person, student or employee who believes that he or she has suffered or witnessed unlawful discrimination or harassment has the responsibility to immediately report the incident(s) to his or her teacher, guidance counselor, coach, dean, assistant principal, principal, Equal Employment Officer, Assistant Superintendent for Human Resource Services or the Superintendent.

Formal complaints alleging violation of this policy shall be made to Melia Adams, Equal Employment Officer (EEO)/Title IX Coordinator at 75 North Pace Boulevard, Pensacola, Florida 32505. Complaints alleging discrimination on the basis of disability should be reported to Dr. Lisa Joyner, Director of Student Services, 30 East Texar Drive, Pensacola, Florida 32503.

The formal complaint procedure shall be started by filing a written or oral complaint as set

forth below within sixty (60) days of the alleged discriminatory act. The EEO shall be responsible for conducting a thorough investigation of the matter and making recommendations for remedial or affirmative action. All information gathered will remain confidential until the conclusion of the investigation. An alleged victim of employment discrimination who does not file a complaint may request that all records relating to the allegation of employment discrimination be designated confidential and exempt from public disclosure.

Step 1

- The complainant shall present the matter in writing or orally to the EEO stating

- The EEO shall provide the respondent with a copy of the complaint. Within ten (10) days of the receipt of the complaint, the EEO shall notify the complainant, respondent, and the immediate supervisor, in writing of the recommendation for resolving the matter. If the complaint is resolved and no further action is requested in writing or orally within five (5) days of receipt of the Step 1 recommendation, the matter shall be considered closed.

Step 2

The complainant may, in writing or orally to the EEO, request a conference within five (5) days of receipt of the Step 1 recommendation. This conference shall be held within ten (10) days after the receipt of the written/oral request. The following shall attend:

Chapter 7: Safe Schools

A. Disturbing School Functions

Any person not subject to the rules and regulations of the school who creates a disturbance on the property or grounds of any school or who commits any act that interrupts the orderly conduct of a school or any activity thereof commits a misdemeanor of the second degree, punishable as provided by law. 1006.145, F. S.

B. Trespass on School Property (including school buses)

Any person who does not have legitimate business on school district property (including a school bus) including license or invitation to enter or remain upon such property, or a student currently under suspension or expulsion, who enters or remains upon such property, commits a trespass upon school property, a misdemeanor of the second degree. Any person who trespasses upon school property (including a school bus) after the principal/designee has directed such person either to leave or not to enter upon such property commits a trespass upon school property, a misdemeanor of the first degree. 810.097, F.S.

C. Interviews of Students by Law Enforcement

All students have the right to a safe, orderly learning environment. The School District relies on law enforcement agencies to help protect the health, safety, and welfare of its students, staff, and families.

Sometimes, investigative agencies need to conduct interviews of students at school, whether they are a victim, witness, or suspect. Law enforcement questioning of students will be conducted in compliance with Florida Statute and the United States Constitution. Every effort should be made to avoid interviewing students during the school day; however, sometimes circumstances require it. In those instances, the following guidelines apply:

1. Interviews by School Resource Officers

Some schools have School Resource Officers assigned to their campus. The purpose of a School Resource Officer is to assist in maintaining safety in the school and also to help instill in students a positive understanding of law enforcement.

Matters of discipline are the responsibility of school officials. However, if a situation possibly involves criminal activity, the School Resource Officer might investigate, and students may be interviewed in school by School Resource Officers. Students suspected of criminal activity are under no obligation to speak with law enforcement until they have had a chance to consult with a parent or guardian. School officials will grant School Resource Officers interviews with a student after considering whether a minor student is a suspect. If appropriate, school personnel will be present during the interview with the School Resource Officer. An attempt will be made by school personnel to contact a parent/guardian prior to the interview of a student suspect, and such attempt shall be documented.

If a witness or victim becomes a suspect, an attempt will be made to contact a parent/guardian and such attempt shall be documented. If appropriate, school personnel

will be present during the interview of a victim/witness. In matters of urgent school or personal safety, School Resource Officers may require immediate access to students before parents are notified. In these cases, parents will be contacted as soon as possible, and such shall be documented. If a student is a victim or a witness as a result of child abuse or neglect and allegations exist that a parent/guardian is abusing the student or a sibling, the parent/guardian will not be contacted prior to School Resource Officer/Department of Children and Families (DCF) interviews. DCF and/or the School Resource Officer will determine when the parent/guardian is contacted. Any directive that the school not contact the parent shall be documented.

2. Interviews of Students by Officers (Not School Resource Officers)

If any officer wishes to question a student at school, a suitable place will be provided after the officer has presented proper identification. The principal/designee shall be present during the interview, if appropriate. The conference area will be so located as to create as little attention as possible to the matter. An attempt will be made by school personnel to contact a parent/guardian prior to the interview of a student suspect, and such attempt shall be documented. The school shall also document if law enforcement directs that parental notification should not be made or should be delayed.

If a student is a victim or a witness as a result of child abuse or neglect, and allegations exist that a parent/guardian is abusing the student or a sibling, the parent/guardian will not be contacted prior to law enforcement/Department of Children and Families (DCF) interviews. DCF and/or law enforcement will determine when the parent/guardian is contacted and any such directive shall be documented.

If the officer decides to take the student from the school grounds, he/she will be permitted to do so only on the basis of a warrant of arrest, court order, or statement of the officer that he/she is placing the student under arrest or taking the student into custody. The officer shall be asked to sign an affidavit accepting custody for the student before removing him/her from the school grounds. Affidavit forms are available in the school's front office. The school shall make a reasonable effort in a timely manner to notify the parent(s)/guardian(s), when appropriate, that the student has been questioned or has been placed under arrest.

D. Child Abuse

Florida Statutes require District employees to report any and all suspected or reported cases of child abuse to the Department of Children and Families. Parents/guardians are advised that they should report known or suspected incidents of child abuse of a student by a District employee occurring while the student is attending school, a school function, or otherwise under the jurisdiction of the District to the Florida Child Abuse Hotline, 1-800-96ABUSE, the school principal, and/or local law enforcement. 39.201, F.S.

E. Campus Security/Crime Stoppers

Local law enforcement agencies and private security companies work in cooperation with the District to provide armed security on all campuses. Students are encouraged to prevent or report a crime by calling CRIME STOPPERS @ 433-STOP or using the P3 app on their Chromebook.

F. Random Metal Detector Searches

To continue to safeguard students and personnel, daily random searches, which may include the use of metal detecting devices, will be conducted in schools. No student will be selected to be searched based upon their gender, race, ethnicity, physical appearance, manner of dress or association with any particular group of persons. Random searches will include student personal effects.

Students refusing to submit to a random search consistent with these guidelines may be subject to disciplinary action.

G. Minimizing Victimization of Students and Staff

In a disciplinary action, there is a rebuttable presumption that the actions of a student who intervened, using only the amount of force necessary, to stop a violent act against a student, staff, or volunteer were necessary to restore or maintain the safety of others.

Chapter 8: Disciplinary Actions and Procedures

A. Students' Rights/Due Process

All students have the right to be treated fairly. The procedures to be followed vary with the severity of the act and the consequences which may be imposed. Minor infractions may be handled by the teacher at the classroom level. Repeated or more serious events may result in a disciplinary referral. During the initial investigation of a disciplinary referral, parental notification is not required. However, the district will keep parents informed regarding the results of disciplinary referrals and a school administrator or designee will promptly notify a parent/guardian of any disciplinary action taken against the student and document that the notification was made.

1. Students will be informed of the accusations in the disciplinary referral orally and in writing.
2. The student will be allowed to present his/her version of the events.
3. If the student claims innocence, or chooses not to speak, the evidence against him/her will be explained.
4. All evidence will be considered by the principal/designee.
5. The severity of the charge and the student's past disciplinary record will determine the punishment in compliance with the Disciplinary Response Code.

Under federal law, a student is not entitled to legal counsel, to cross examine witnesses, or to call his/her own witnesses unless a suspension exceeds ten (10) days. For disciplinary sanctions in excess of ten (10) days, students have the right to due process including notice of charges, opportunity to be heard, right to consult their own attorney if desired, etc. School personnel cannot provide legal advice.

B. Students with Disabilities

For students eligible under the Individuals with Disabilities Education Act (IDEA), disciplinary actions shall follow applicable laws, School Board policies and provisions of the Individual Education Plan (IEP). Likewise, for students determined to be disabled under Section 504 of the Rehabilitation Act of 1973, suspension, expulsion and other disciplinary measures shall follow applicable laws, School Board policies, and provisions of the Section 504 Accommodation Plan. Additional detailed information may be found regarding exceptional students with IEPs in the Exceptional Student Education Policies and Procedures linked on the Exceptional Student Education (ESE) Department's website or by calling the ESE Department at (850)469-5518. Additional information regarding discipline and Section 504 may be obtained by contacting the Student Services Department at (850) 469-5382.

C. Severe Interventions and Consequences

Schools strive to keep students in their districted schools while maintaining a safe environment for all stakeholders. Sometimes students require more serious consequences,

resulting in removal to a different setting. In these situations, the principal/designee will promptly inform the parent/guardians of these consequences.

Suspension: In-School – In-school suspension is the temporary removal of a student from his/her regular school program and placement into an alternative program on campus under the supervision of school personnel for a period not to exceed ten (10) school days per incident. This disciplinary alternative may not be available on all campuses.

Suspension: Out-of-School – Out-of-school suspension is the temporary removal of a student from all classes of instruction on any public-school grounds to include all other school-sponsored activities, except as authorized by the principal/designee, for a period not to exceed ten (10) school days per incident.

The principal/designee will make a good faith effort to inform the parent/guardian of any suspensions and the reasons supporting the consequences. A good faith effort shall be made by the principal/designee to employ parental assistance or another alternative measure prior to suspension except in the case of emergency or disruptive conditions which require immediate suspension. No student shall be placed in out-of-school suspension for unexcused tardiness, absence, or truancy. 1006.09, F.S.

. Students shall make up all graded class work and tests assigned during an out-of-school suspension. All missed work during an out-of-school suspension must be requested by the student or parent/guardian either during the suspension or on the first day the student returns to school or to the class. A timeline for the completion of all missed work and/or tests will be determined by the teacher and the student and shall not exceed the number of days the student was out of school. At the teacher's discretion, graded class work/tests may be accepted for partial credit or full credit. The request can be made by email to the teacher with the time frame.

Disciplinary reassignment is the removal of the student from the current school to an alternative setting. Continued educational services are provided.

Expulsion means the student loses the right and obligation to attend public school for a period of time no greater than the remainder of the term or school year and one (1) additional year. Expulsions may be imposed with or without continuing educational services or other conditions.

In the event that a student is recommended for expulsion or disciplinary reassignment, the student or his/her parent/guardian may request a formal administrative hearing. Such requests shall be submitted to the Superintendent in writing and within seven (7) days of receipt of the Superintendent's Notice of Recommendation for Expulsion. When Board action on a recommendation for the expulsion of a student is pending, the Superintendent may extend the suspension assigned by the principal beyond ten (10) school days if such suspension period expires before the regular or special meeting of the Board. 1006.08(1), F.S.

Restrictions During In-School or Out-of-School Suspension/Disciplinary Reassignment/Expulsion

Students who have been suspended from school shall not be allowed to participate in or attend any school-related extracurricular activities on any Escambia County School District property. A student must be in attendance in school to be eligible to participate in any extracurricular activity; therefore, a student who is suspended may not participate in extracurricular activities for the duration of the suspension. A student whose suspension period ends on a Friday may not participate in extracurricular activities that evening. A student whose suspension period includes a weekend may not participate in extracurricular activities over the weekend.

A student on disciplinary reassignment or expulsion shall not be allowed to participate in or attend any extracurricular activities on any Escambia County School District property. Violation of this policy will result in a charge of trespassing, making the student subject to immediate arrest by a law enforcement officer.

Chapter 9: Dress Code

A. Requirements for Student Dress

Chapter 10: Educational Records

Students have a right to have education records which accurately reflect their educational program and achievement. Parents have a right to have access to their child's education records and to challenge any materials they believe are incorrect. Those rights generally transfer to the student upon turning 18 years' old. Student education records are confidential and cannot be disclosed without consent of the parent or eligible student, except in certain circumstances.

A complete copy of the Student Record Guidelines is available for use in each school or center in the District. The principal, school counselor, or data clerk can provide access to the Student Records Guidelines. Each school keeps individual records including electronic records which are part of the cumulative records of its students. Parents/guardians and students at age eighteen (18) may ask to see these records at any time. Each school and the District have the following information about records for parents/guardians and students to read:

A complete set of written policies and procedures about educational records;

Whenever possible, medications must be administered at home. If it is necessary to administer medication during the school day or school-sponsored activity, Board Policy will be followed. 1006.062, F.S. Only Food and Drug Administration (FDA) regulated medications or products will be administered by school/clinic personnel.

- Each prescription/non-prescription medication provided by the parent/guardian must be authorized in writing on a current District “Dispersion of Medication Form” that is completed in its entirety and signed by the parent/guardian. - The school nurse shall assess the student’s capability to administer medication through an individual health care plan. A District “Dispersion of Medication Form” signed by both the parent/guardian and physician must be on file in the clinic before the student can carry or self-administer these medications. 1002.20(3), F.S. Variance to this rule requires approval from the Superintendent on a case by case basis.

A child with a disability and/or food allergy must be provided substitutions in foods when that need is supported by a completed “Medical Statement to Request Special Meals and/or Accommodations Outside of Meal Pattern” form signed by a licensed physician, physician’s assistant or registered nurse practitioner. The form must identify: the child’s disability; an explanation of why the disability restricts the child’s diet; the major life activity affected by the disability; the food or foods to be omitted from the child’s diet, and the food or choice of foods that must be substituted.

Head Lice Management:

Students with a live louse and/or nit within one-quarter ($\frac{1}{4}$) inch from the scalp will be temporarily excluded from school for parents/guardians to perform head lice treatment. Treatment should be completed at home, and the student must return to the school clinic for clearance before returning to the classroom. If needed, one (1) day of absence will be excused to complete treatment.

The school shall make a reasonable effort in a timely manner to notify the parent(s)/guardian(s), when appropriate.

4. Positive Behavior Intervention and Support

Positive Behavior Intervention and Support (PBIS) is the application of evidence-based strategies and systems to assist schools to increase academic performance, increase safety, decrease problem behavior, and establish positive school cultures. PBIS is based on understanding why problem behaviors occur - the behavior's function. This approach to behavior can occur on a school-wide level, in a specific setting, classroom, or with an individual student. The PBIS process is a team-based approach that relies on a strong collaboration between families and professionals from a variety of disciplines regardless of the level implemented. PBIS provides a positive and effective alternative to the traditional methods of discipline. PBIS methods are research-based and proven to significantly reduce the occurrence of problem behaviors in the school, resulting in a more positive school climate and increased academic performance.

5. Psychological Services (850-469-5569)

- Assistance to parents/guardians who have children with attention, motivation, discipline, or adjustment problems through consultation.
- Evaluation of exceptionally bright students evidencing a need for placement in the program for gifted students.

F. Family Educational Rights and Privacy Act (FERPA) Notice

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the accuracy and privacy of students' education records.

FERPA, sections 1002.22 and 1002.221, and School Board Policy 6Gx17-7.05 (Students: Records and Reports) afford parents, guardians or eligible students (students over 18 years of age or attending a postsecondary institution) certain rights with respect to the student's education records maintained by ECSD. These rights are:

1. **The right to inspect and review a student's education records within 30 days of the day ECSD receives a request for access.** Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The principal will arrange for access and notify the parent or eligible student of the time and place where the records may be inspected. When the education records contain information about more than one student, a parent may review the information related only to his or her child. E-mails not maintained in a student's file folders kept by the schools or ECSD departments are not education records.

2. **The right to request the amendment of a student's education records.** Parents or eligible students may ask ECSD to amend a record they believe is inaccurate, misleading, or in violation of the student's privacy rights. They should write the school principal, clearly identify the part of the record they want changed, and specify the reasons for the request. If ECSD decides not to amend the record as requested, ECSD will notify the parent or eligible student of the decision and advise them of their right to a hearing within a reasonable period of time regarding the request for amendment. Additional information regarding the hearing procedures will be provided when the parent or eligible student is notified of the right to a hearing.

3. **The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without written consent.** FERPA permits disclosure without written consent in many situations, including:

a) to school officials with a legitimate educational interest. A "School Official" is a person employed by ECSD as an administrator, supervisor, instructor, or support staff member (including health and medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom ECSD has contracted to perform a special function that would normally be performed by ECSD personnel (such as an attorney, auditor, medical consultant or therapist); a clerical or paraprofessional staff member assisting another school official in performing his or her professional duties. A "Legitimate educational interest" exists when a school official needs to review an educational record in order to fulfill his or her professional responsibility;

b) to contracted outside agencies and organizations, whose personnel perform their duties in a "school official" role and who are prohibited from re-disclosing personally identifiable information from education records, except as required or permitted by law;

c) to school officials of other institutions for the purposes of student transfer or student enrollment. School officials may disclose any and all education records, including disciplinary records and records that were created as a result of a student receiving special education services under Part B of the *Individuals with Disabilities Education Act*, to another school or postsecondary institution at which the student seeks or intends to enroll;

d) to authorized federal, state and local officials, including educational authorities, and for audits or evaluations of federal and state supported programs;

- e) to comply with judicial orders or lawfully issued subpoenas; the parent/guardian/majority age student will be notified in advance of ECSD's intent to comply in ten (10) days so the parent or majority age student may seek protective action, except where the law prohibits or does not require said notification;
- f) to appropriate parties in connection with a health or safety emergency; and,
- g) to an agency caseworker or representative of a state or local child welfare agency, or tribal organization, when the agency is legally responsible for the care and protection of the student.

Additional requirements and conditions may apply to non-consensual disclosures.

Designation of Directory Information:

"Directory Information" is personally identifiable information that would not generally be considered harmful or an invasion of privacy if disclosed. Pursuant to the FERPA, ECSD may disclose - in its discretion - directory information of a student in any grade level, if the parent or student age 18 or over did not "opt out" of the disclosure. ECSD designates the following as "directory information": student's name; residential address; telephone number(s), photograph; degrees, honors, and awards; the most recent educational agency or institution attended; major field of study; dates of attendance; grade level; participation in officially-recognized activities and sports. For student athletes, student ID number, cumulative GPA, gender, race, and date of 9th grade enrollment may be shared with the Florida High School Athletic Association for the sole purpose of certifying and managing athletic eligibility. Student ID Number may be shared with yearbook and photographic vendors for the sole purpose of accurately linking students to their photographs.

Purposes of Disclosure of Directory Information:

ECSD reserves the right to release Directory Information only:

- a) to colleges, universities or other institutes of higher education in which the student is enrolled, may seek enrollment or may be recruited;
- b) for athletic events, school publications, instructional materials and other school communication tools (including, but not limited to, yearbooks, athletic programs, graduation programs, recruitment brochures, theatrical programs, school and ECSD websites, social media, and postings and displays throughout the school facility);
- c) to Escambia County health officials for purposes of communicating with parents to address conditions of public health importance as determined by Florida Department of Health (64D-3, F.A.C.), including information to meet or to prepare for a potential or confirmed health threat; and/or,
- d) to class reunion committees (and the like) for purposes of class reunion activities.

Opt-Out Procedure:

Parents/guardians of students in any grade level (or eligible students, those over the age of 18 or attending a postsecondary institution) may opt out of (refuse to permit) the release of any or all of the above Directory Information. Parents/guardians or eligible student must indicate the types of Directory Information they do not want disclosed. The FERPA opt out notification must be

submitted to the school principal in writing annually. Regarding former students, ECSD shall continue to honor any valid request to opt out of the disclosure of directory information made while a student was in attendance, unless the former student rescinds the opt out request. (34 CFR §99.37(b)).

Disclosures to Military, Armed Forces and Postsecondary Institutions:

ECSD is required to disclose, upon request, student name, address, and telephone number of **11th and 12th grade students** to the armed services, military recruiters, and/or postsecondary institutions without prior written consent, unless the parent/guardian or eligible student opts out of disclosure. Parents/guardians of students or eligible students in 11th and 12th grade may opt out of having student's name, address and telephone number provided to the armed services, military recruiters, and/or postsecondary institutions. This opt out notification must be submitted to the school principal in writing annually.

The right to file a complaint with the U.S. Department of Education concerning alleged failures by ECSD to comply with the requirements of FERPA. The name and address of the office that administers FERPA is Family Policy Compliance Office • U. S. Department of Education • 400 Maryland Avenue, S.W. • Washington, DC 20202.

3. activities involving collection, disclosure, or use of personal information obtained from students for marketing or to sell or otherwise distribute the information to others.

 3. instructional material used as part of the educational curriculum.

These rights transfer from the parents to a student who is eighteen (18) years old or an emancipated minor under State law.

The Escambia County School District (ECSD) has developed or will develop and adopt policies, in consultation with parents, regarding these rights, as well as arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. ECSD will directly notify parents of these policies at least annually at the start of each school year and after any substantive changes. ECSD will also directly notify, such as through U.S. Mail or e-mail, parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or her child out of participation of the specific activity or survey. ECSD will make this notification to parents at the beginning of the school year if the District has identified the specific or approximate dates of the activities or surveys at that time. For surveys and activities scheduled after the school year starts, parents will be provided reasonable notification of the planned activities and surveys listed below and be provided an opportunity to opt their child out of such activities and surveys. Parents will also be provided an opportunity to review any pertinent surveys. Following is a list of the specific activities and surveys covered under this requirement:

- Collection, disclosure, or use of personal information for marketing, sales, or other distribution.
- Administration of any protected information survey not funded in whole or in part by ED.
- Any non-emergency, invasive physical examination or screening as described above.
