

**SUPERIOR PANEL
CONSTRUCTION**

**THE FUTURE IN
*INSULATED ROOFING***

Superior Panel Construction

Superior Panel Construction was started as a way to provide Australians with quality roofing panels that not only look great but will withstand the test of time.

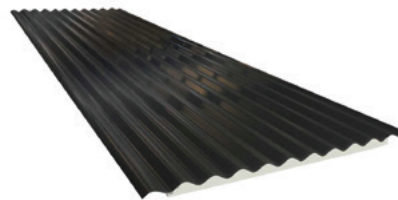

Over the years we have continued to develop our panels by listening to our customers and catering to their needs, by working with the latest advanced technology available in Australia.

Superior Design

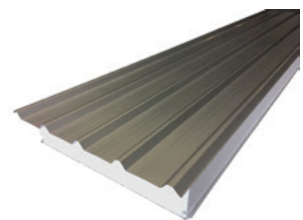

Superior Panel is proud to be an innovator and market leader when it comes to our product design. Our products are made from years of research and development.

Some of our superior design features include:

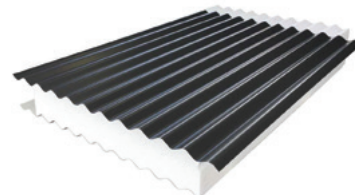

- ▶ Convenient 762mm Wide panels up to 25% lighter making it easier to install
- ▶ Available up to 16 metre lengths (longer to special order)
- ▶ Span up to 9.4 metres unsupported
- ▶ Thickness ranging from 50mm - 175mm
- ▶ Minimum 2 degrees roof pitch available in Trimspan only
- ▶ Cyclone test-wind classification to C3 (W60)
- ▶ Available in full Colorbond® colour range
- ▶ Superior 15 year Warranty

Superior Strength

One thing our customers really care about is that our products are built to last. That's why we manufacture to the strictest quality standard and the most advanced technology available in Australia.

Our products are:

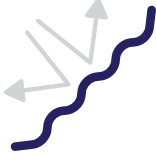

- ▷ Made using high-tech adhesive systems and with proven bonding experience
- ▷ Made using the latest in polyurethane technology purpose-built for Superior Panels
- ▷ Made to withstand constantly changing environmental conditions
- ▷ Adhesive made to flex in harmony with steels expansion and contraction during changing conditions
- ▷ All panels are made using BlueScope Colorbond Hi-Tensile Steel
- ▷ Group 1 Fire rating test Standard AS ISO 9750

**15 YEAR
WARRANTY**

Superior Panel is number one in quality, strength and flexibility. Get it right the first time.

Superior Look

Not only do our products last longer than our competitors they look better for longer.

- ▷ Largest colour range on the market with 45 colours available
- ▷ Panels are available in five attractive designs
- ▷ Genuine Colorbond® steel made to last in Australian conditions
- ▷ Custom designs to suit your vision

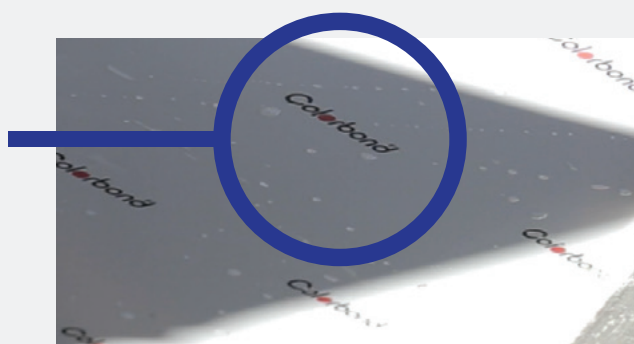

How to know if you're getting a Superior Panel?

1. ARE YOUR PANELS BLUESCOPE STEEL?

Some companies will claim their products are BlueScope when they are not. Before investing in panels be sure the panel has the Colorbond® logo.

2. WHAT IS YOUR THERMAL RATING?

With an R value of up to 1.71 and available in 50mm thick panels, Superior Panels have the highest thermal rating on the market.

3. DOES YOUR PANEL HAVE A 15-YEAR WARRANTY?

Be careful, some companies have warranties for some products and not for others. We warrant all colours and products!

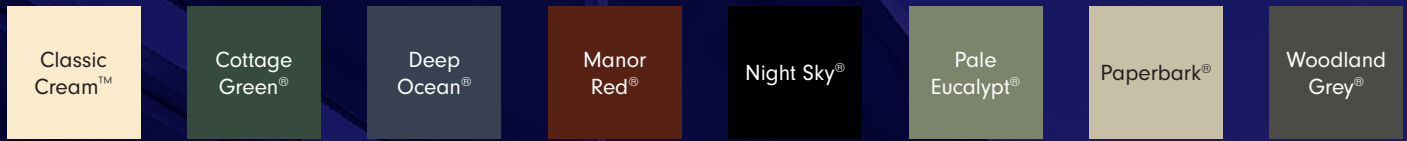

Superior Experience

We are committed to listening to our customers so we can continue to provide an enjoyable customer experience while also supplying them with the product they need.

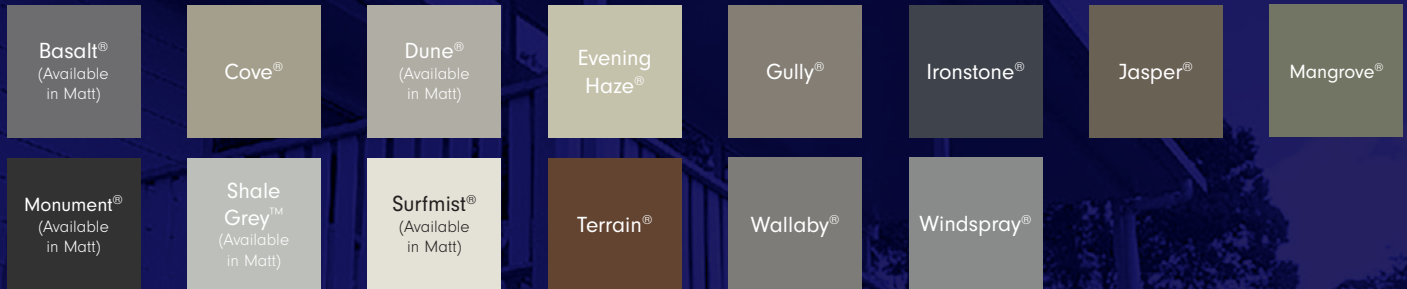

Available Colours

Classic

Contemporary

Also available in COLORBOND® Ultra steel for coastal and industrial environments.
All other colours are available in COLORBOND® Ultra steel on request, please speak with your supplier.

Colorbond® Metallic Steel

Ultra Colour Range

COLORBOND®, BlueScope and ® colour names are registered trade marks and ™ colour names are trade marks of BlueScope Steel Limited. The COLORBOND® steel colours shown above are a guide only and not for colour accuracy. We recommend checking your chosen colour against the actual sample of the product before purchasing.
