

THE
OCEANOGRAPHY
SOCIETY

membership application

The Oceanography Society (TOS) was founded in 1988 to advance oceanographic research, technology, and education, and to disseminate knowledge of oceanography and its application through research and education. TOS promotes the broad understanding of oceanography, facilitates consensus building across all the disciplines of the field, and informs the public about ocean research, innovative technology, and educational opportunities throughout the spectrum of oceanographic inquiry. TOS includes members from all nations.

Individuals, businesses, or organizations meeting membership criteria are welcome to join and to participate in the activities and benefits of the society. All members receive *Oceanography*, the Society's quarterly journal. All applications for membership are subject to approval by The Oceanography Society Council.

The membership period is January 1 through December 31 of each year. Upon joining, new members will receive access to back issues of *Oceanography* magazine for that membership period.

Detailed information on eligibility and benefits for each membership level is available at <https://tos.org/membership>.
