STUDY IN BALI

OVERVIEW

SUMMER SCHOOL TROPICAL ARCHITECTURE

4 WEEKS FULL OF TROPICAL DESIGN IN SOUTHEAST ASIA TROPICAL ARCHITECTURE SUMMER SCHOOL AT IDB BALI

During this comprehensive course, you'll team up with fellow participants and dive into various aspects of architecture and urban design. From planning and construction to design, landscape architecture, interior design, and even resort design, you'll be working closely with experts to create exciting concepts that blend East and West influences, resulting in something they call "East-Meets-West Harmony." It's a fantastic opportunity for those interested in the field of architecture.

A RICH TAPESTRY OF LEARNING

Engage in insightful lectures, hands-on workshops, and design projects. Explore the linguistic charm of "Bahasa Indonesia", and revel in selected cultural events that paint a vivid picture of Bali's rich heritage.

But, who's invited?

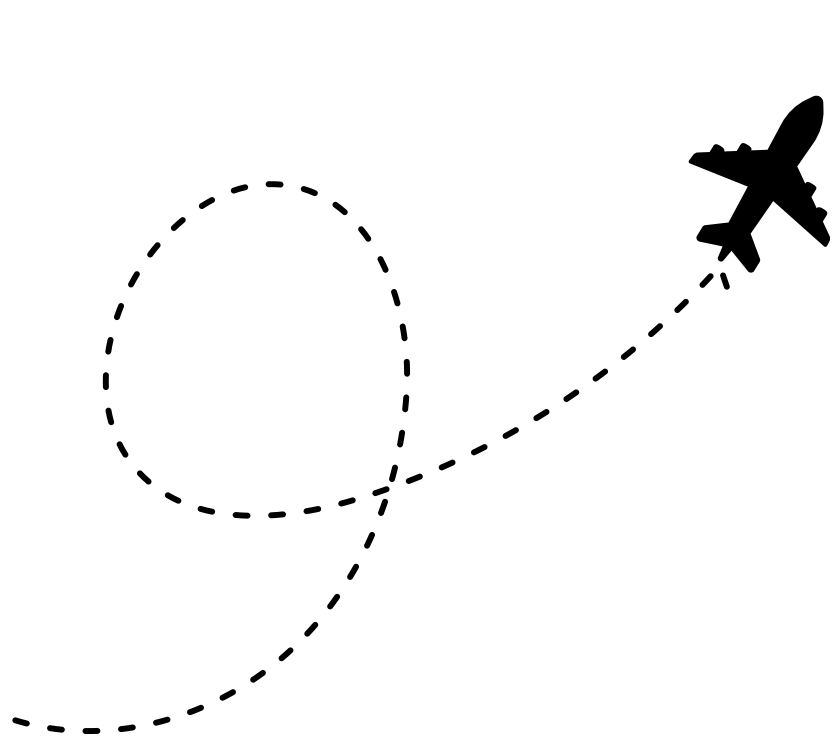

Whether you're an aspiring architect, interior designer, or a professional from related domains, this program welcomes a diverse cohort. Master students, graduates, and even enthusiasts without a formal background in architecture & design are invited to explore this educational odyssey.

Why Bali?

Acquire a detailed understanding of exotic and sustainable building culture in the tropics. Experience tropical living in Bali through engaging workshops and excursions and connect with a global community of like-minded individuals. Immerse in the cultural opulence of Indonesia.

Ready to turn the Page?

Eager minds can easily apply online through our online application form at StudyInBali.com. Step into a realm where education transcends traditional boundaries, and every day is a rendezvous with creativity, innovation, and cultural richness. Join us at IDB Bali, where every corner is a classroom waiting to unfold lessons embedded in the core of tropical design.
