

# Letter of Appreciation

*from Yiyan Wu*

*Editor-in-Chief of the IEEE Transactions on Broadcasting*

I wish to extend my deep appreciation to all those who have so generously volunteered their time and talents during 2018 to the peer review and publication of the IEEE TRANSACTIONS ON BROADCASTING. Special thanks go to our BTS Publications Chair and Associate Editors who have shared their valuable time and broadcast engineering expertise in managing a steadily increasing flow of papers and evaluating manuscripts through the peer review process.

Numerous engineering professionals, both in academia and industry, volunteered their time and expertise as peer reviewers during 2018. These reviewers are critical to the peer review process and ensure that the IEEE TRANSACTIONS ON BROADCASTING publishes high quality and timely papers.

Finally, I wish to extend my appreciation to the IEEE Transactions Administrator in the BT Publications Office and the IEEE BTS Society Staff for the excellent professional support provided for the final preparation of each manuscript as it is published. All issues of the IEEE TRANSACTIONS ON BROADCASTING publication in 2018 represent the dedication and hard work of these professionals.

## **BTS Publications Chair**
