TO THE
ZONING & DEVELOPMENT BY-LAW,
VARIOUS OFFICIAL DEVELOPMENT PLANS,
AND THE PARKING BY-LAW

REDLINE VERSION

JUNE 2020

NOTE: This document is being provided for information only as a reference tool to highlight the proposed amendments. The draft amending by-laws attached to the Council report RTS No. 13686 entitled "Regulation Redesign -Amendments to Zoning & Development and Parking By-laws" represent the amendments being proposed to Council for approval. Should there be any discrepancy between this redline version and the draft amending by-laws, the draft amending by-laws prevail.

Summary of Proposed Amendments to the Zoning and Development By-law, Official Development Plans, and Parking By-law

The following are the key amendments proposed to simplify regulations and improve clarity and consistency in the Zoning and Development By-law (By-law) and various Official Development Plans (ODPs). These amendments are incremental changes toward a more simplified, user-friendly By-law. Minor housekeeping amendments are proposed for the Parking By-law. The amendments are explained in more detail in Council report RTS No. 13686 entitled "Regulation Redesign - Amendments to Zoning & Development and Parking By-laws".

Note: The volume of amendments is a reflection of the repetition of the regulations between district schedules (similar amendments are being proposed in each of 60+ district schedules to create more consistency).

1. Authorities, Administration of Development Permits, Relaxation and Discretion

- Consolidate regulations by topic in sections 3, 4, and 5 of the By-law (authorities, administration of development permits and relaxation and discretion) so they are easier to find (Schedules A, B and C in Appendix A of the Council report include the previous section numbers of each clause for quick reference).
- Clearly spell out the administration of relaxations and variances and when they apply.
- Clarify criteria for when the Director of Planning will refer a development permit application to the Development Permit Board for review.
- To streamline permit processing, amend regulations to enable the Director of Planning, as well as the Development Permit Board, to relax any regulation of the by-law where application would result in unnecessary hardship. A definition for unnecessary hardship is also introduced in section 2 to provide greater clarity and understanding.
- Correct terms related to the application of relaxations ('relax' or 'relaxation') and discretion ('vary' or 'variation') throughout the By-law and ODPs and move regulations to the appropriate section of each district schedule, i.e.:
 - move discretionary clauses currently located in section 5 Relaxations to the appropriate section of by-law (e.g. if they apply to height, move to the section on height)
 - move relaxation clauses to section 5 Relaxations
- Consolidate clauses in RS and RT district schedules which allow variances to regulations to enable the retention of a character house into section 10, general regulations (in existing section on Character Houses) so they are located in one section and easier to find.

2. Balconies, Porches, Decks, Patios, Canopies, and Awnings

- Introduce definitions with illustrations for awning, balcony, enclosed balcony, deck, roof deck, canopy, entry, porch and verandah, and patio in section 2 of the By-law to provide greater clarity and consistency.
- Make balconies more functional by increasing the permitted projection into yards in section 10 of the By-law (allowable proximity to an internal side yard remains unchanged).
- Update terms throughout the By-law and ODPs to align with new definitions and to improve consistency.

- Simplify and clarify regulations for balconies, decks, and entries, porches, and verandas and make them consistent in similar districts:
 - More consistent regulations for the projection of an entry, porch or verandah into the front yard
 - More consistent floor area exclusions which includes increasing floor area exclusions for balconies and decks in some districts to align with the exclusions in newer district schedules
 - Update terms in older district schedules to align with newer/more recently updated schedules and to be more clear
- Combine floor area exclusions for balconies, decks, and entries, porches, and verandas to provide more flexibility to allocate these spaces.
- Introduce a floor area exclusion for the space below an entry, porch or verandah, which can be used for storage
- Broaden balcony and deck exclusions to apply to non-residential uses to allow outdoor amenity space for employees.

3. Zoning and Development By-law Housekeeping Amendments

- Remove outdated terms and correct references and errors in numbering and spelling.

4. Parking By-law Housekeeping Amendments

- Correct section references, terms and column headings.

- 3.1.4 The Director of Planning is authorized to provide plans and documents filed pursuant to the provisions of this By-law for inspection, subject to the provisions of the Freedom of Information and Protection of Privacy Act (**British Columbia**).
- 3.1.5 The Director of Planning may charge a fee as set out in the ~~Fee Schedule~~ **Miscellaneous Fees By-law**, payable in advance, for the inspection of records referred to in Section 3.1.4.
- 3.1.6 The Director of Planning, the City Building Inspector or the Director of Licenses and Inspections may enter any building, land or premises at any reasonable time for the purpose of administering or enforcing this By-law.
- ~~3.1.7 The Director of Planning, in granting or refusing development permits, granting relaxations or imposing conditions, must give due regard to the spirit and intent of the By-law.~~

3.2 Relaxation

- ~~3.2.1 The Director of Planning may relax the provisions of this By-law where, due to conditions peculiar either to the site or to the proposed development, literal enforcement would result in unnecessary hardship in any of the following cases:~~
- ~~alterations or additions to an existing building which lacks minimum yards required by the appropriate district schedule. Any relaxation in this case shall be with respect to yard requirements only and in no case shall such yard requirements be reduced to less than 60 percent of the amount specified in the district schedule, or if applicable, already relaxed by section 10;~~
 - ~~erection of more than one principal building on one site or structural alterations or additions to two or more principal buildings existing on the same site and located in a C, M, I or CD District;~~

 - ~~the placement of one or more portable classrooms on an elementary or secondary school site, where the existing or proposed development exceeds permitted floor space ratio or site coverage, or lacks minimum yards or setbacks, as specified in the district schedule or~~

Section 3

~~section 11;~~

- ~~(f) erection of a new elementary or secondary school building, or alterations or additions to an existing elementary or secondary school building, where the existing or proposed development exceeds permitted floor space ratio, or site coverage, or lacks minimum yards or setbacks, as specified in the district schedule or section 11;~~
- ~~(g) despite anything to the contrary in this By law, if:
 - ~~(i) the construction or alteration of, or addition to, a one family dwelling, two family dwelling, one family dwelling with secondary suite, two family dwelling with secondary suite or laneway house is to include enhanced accessibility to and from the dwelling, by way of ramps, lifts, or other like means, for persons who find conventional accesses impossible or difficult because they have a loss or reduction of functional ability or activity, and~~
 - ~~(ii) the Director of Planning first considers all applicable guidelines and policies adopted by Council,~~~~

~~the Director of Planning may relax the requirements in the appropriate district schedule, regarding yards, setbacks, site coverage, impermeability, building depth, and side door entrance to the extent necessary to allow such enhanced accessibility; or~~

- ~~(h) for Low Operational Cost Housing containing 6 or more dwelling units, except that permitted floor area may not be increased or relaxed above the maximum permitted within the district schedule under this By law, and may be granted by the Director after consideration of all Council adopted policies and guidelines. This subsection (h) does not apply to Comprehensive Development zones, and shall not apply to applications made after December 31, 2025.~~

~~3.2.2 The Director of Planning may relax the provisions of this By law relating to any of the following:~~

- ~~(a) required setbacks to off street parking areas where, in the opinion of the Director of Planning, the landscaping provided or to be provided is adequate to warrant such relaxation, except that in a C-1 or R District, no relaxation shall be granted which has the effect of reducing the front yard to less than the required depth of an adjoining front yard;~~
- ~~(b) the maximum projection of balconies into required yards, horizontal daylight control angles and limitations on building length.~~

~~3.2.3 The Director of Planning, before granting any relaxation pursuant to subsection 3.2, shall be satisfied that any property owner likely to be adversely affected is notified. Such notification shall be in the form appropriate to the circumstances.~~

~~3.2.4 The Development Permit Board, in the exercise of its jurisdiction, may relax the provisions of this By law in any case where literal enforcement would result in unnecessary hardship. In granting any relaxation, the Board shall have regard to the intent of this By law, the regulations and policies of any Official Development Plan, and such other applicable policies and guidelines adopted by Council.~~

~~3.2.5 The Director of Planning or the Development Permit Board, as the case may be, may relax the provisions of this By law where~~

- ~~(a) literal enforcement would result in unnecessary hardship in carrying out any restoration or renovation of a building or site on the Heritage Register, or~~
- ~~(b) Council determines that the proposed development would make a contribution to conserving a building or site designated by Council as protected heritage property or a building or site on the Heritage Register.~~

~~Any development permit issued shall specify the heritage aspects of the building or site that merit the relaxation authorized by this section. Before granting any relaxation, the Director of Planning or the Development Permit Board shall:~~

- ~~(c) consider any advice from the Vancouver Heritage Commission or any other body established by Council for this purpose defining the aspects of the building or site that give it heritage value and advising on the proposed conservation work;~~
- ~~(d) notify such adjacent property owners and tenants as deemed necessary, consider the responses received, and if there is significant objection, refer the matter to Council for~~

- advice; and
- (e) consider the provisions of this By-law and all applicable policies and guidelines adopted by Council.

~~3.2.6 The Director of Planning is authorized to determine whether or not a building is a character house and, in making that determination, may consider the age and architectural form and style of the building, in accordance with all applicable Council policies and guidelines.~~

~~3.2.7 If an owner applies to replicate a Multiple Conversion Dwelling or Infill use damaged by fire to the extent of 60% or more of its value above its foundations, and the Director of Planning has previously given a bonus or relaxation under the RT 3, RT 4, RT 4A, RT 4N and RT 4AN, RT 5 and RT 5N, RT 6, RT 7, RT 8, RT 9, RT 10 and RT 10N, RT 11 and RT 11N, RM 1 and RM 1N, RM 7, RM 7N and RM 7AN, RM 8, RM 8A, RM 8N and RM 8AN, RM 9, RM 9A, RM 9N, RM 9AN and RM 9BN, RM 10 and RM 10N, RM 11 and RM 11N, or RM 12N District Schedules in respect of such use, and the proposed replication is in accordance with the most recently issued development or building permits for that use, the Director of Planning must relax the provisions of the applicable districts schedules to the extent necessary to permit the replication.~~

~~3.2.8 The Director of Planning may relax the provisions of this By-law regulating the siting of a building where literal enforcement would result in unnecessary hardship if an existing tree could not be retained, provided that:~~

- (a) the proposed siting of a building will accommodate the retention of an existing tree which, in the opinion of the Director of Planning, warrants retention; and
- (b) the resulting siting of a building will not, in the opinion of the Director of Planning, result in unduly adverse effects on adjacent properties.

~~3.2.9 The Director of Planning must relax the provisions in regards to minimum site width in the RS 1, RS 5, and RS 6 district schedules to permit the construction of a one family dwelling on an existing lot which is on record in the Land Title Office as of June 24, 2014 if the use was previously approved under issued development or building permits.~~

~~3.2.10 The Director of Planning or the Development Permit Board may relax the provisions of this by-law where the proposed development makes provision for low cost housing for persons receiving assistance, if the Director of Planning or the Development Permit Board first considers:~~

- (a) all applicable Council policies and guidelines;
- (b) the impact on the liveability of neighbouring residents; and
- (c) the proposed development is not in the RS 1, RS 1A, RS 1B, RS 2, RS 3 and RS 3A, RS 5, RS 6, RS 7, RT 1, RT 4, RT 7, RT 9, RT 10 or RT 11 zoning district or in any other zoning district that permits one family dwellings and does not permit multiple dwellings.

~~For the purposes of this section, low cost housing for persons receiving assistance means social housing, except that 70% of the dwelling units must be occupied by persons eligible for either Income Assistance or a combination of basic Old Age Security pension and Guaranteed Income Supplement and must be rented at rates no higher than the shelter component of Income Assistance, and the remainder of the dwelling units must be occupied by households with incomes below housing income limits, as set out in the current 'Housing Income Limits' table published by the British Columbia Housing Management Commission, or equivalent publication.~~

~~3.2.11 The authority of the Director of Planning or the Development Permit Board to relax any provision of this by-law pursuant to this section 3.2 includes the authority to impose conditions, including but not limited to time limitations.~~

3.3 Development Permits

~~3.3.1 In dealing with applications for development permits the Director of Planning or the Development Permit Board may in every case and in accordance with the provisions of this By-law grant such permits either unconditionally or subject to conditions, including a limitation in time, or may refuse such applications.~~

Section 3

3.3.2 Notwithstanding the provisions of this By-law, an application for a development permit may be refused if the development in respect of which application is made:

- (a) ~~does not conform to an amendment to the Zoning and Development By-law for which a formal application has been made prior to the application for the development permit;~~
- (b) ~~refers to a site or a portion thereof required for any civic purpose, in which case the Director of Planning shall refer the application to the City Council for authority either to negotiate with the applicant or to issue the development permit;~~
- (c) ~~would prejudice the future subdivision of the property;~~
- (d) ~~refers to a site where adequate drainage, sanitary facilities or water supply are not available;~~
- (e) ~~would in the opinion of the City Engineer adversely affect the public safety;~~
- (f) ~~would in the opinion of the Director of Planning or the Development Permit Board adversely affect public amenity. If matters of design are involved, the application may first be referred to the Urban Design Panel for consideration and advice; or~~
- (g) ~~includes a conversion or demolition under the Single Room Accommodation By-law but Council has not approved issuance of a conversion or demolition permit for such conversion or demolition.~~

3.3.2 A ~~In making a determination regarding the adequacy of drainage under section 3.3.2(d) of this By-law, the Director of Planning or the Development Permit Board may require any development permit applicant to submit a Hydrogeological Study and an impact assessment, and may consider drainage to be inadequate if the proposed development will result in:~~

- (a) ~~any groundwater discharge from the site into the City collection system;~~
- (b) ~~rainwater or stormwater discharge from the site into the City collection system that would increase the downstream flow; or~~
- (c) ~~water infiltration that could reasonably be expected to compromise the underlying aquifer or geology.~~

3.3.2B ~~In order to address the inadequacy of drainage the Director of Planning or Development Permit Board may impose conditions on development requiring the applicant to develop the proposed site in accordance with a:~~

- (a) ~~rainwater management plan designed to achieve prescribed performance targets; and~~
- (b) ~~groundwater management plan designed to prevent groundwater discharge into the City collection system and limit or reduce environmental impacts, including stricter targets if the development is below the water table.~~

3.3.2C ~~In order to ensure compliance with a rainwater management plan or a groundwater management plan or both, the Director of Planning or Development Permit Board may refuse to issue the development permit unless the property owner has first entered into a rainwater and groundwater management agreement, to the satisfaction of the Director of Legal Services and the City Engineer, to:~~

- (a) ~~construct a rainwater management system or groundwater management system, or both, on the site that is designed and certified by a Professional Engineer to:
 - (i) ~~prevent groundwater discharge from entering the City's collection system;~~
 - (ii) ~~retain the first 24mm of rainwater in a 24 hour period from all areas, including rooftops, paved areas, and landscape;~~
 - (iii) ~~treat the first 24 mm of rainwater in a 24 hour period from all pervious and impervious surfaces to remove 80% Total Suspended Solids (TSS) by mass prior to discharge from the site;~~
 - (iv) ~~treat an additional 24mm of rainwater in a 24 hour period to remove 80% Total Suspended Solids (TSS) by mass prior to discharge from the site of all rainwater flowing from roads, driveways and parking lots; and~~
 - (v) ~~limit the peak flow rate discharged to the sewer under post-development conditions to a flow not greater than the peak pre-development flow rate for the return period specified in the City of Vancouver's Intensity Duration Frequency curves (IDF curves) set out in Schedule I of this By-law, using the City of Vancouver's 2014 IDF curve for pre-development design flow calculations, and the City's 2100 IDF curve for post-development design flow calculations.~~~~
- (b) ~~maintain the rainwater management system or groundwater management system or both at the expense of the owner;~~
- (c) ~~grant a statutory right of way and equitable charge to the City; and~~
- (d) ~~release and indemnify the City from all liability related to the installation, operation and maintenance of the rainwater management system or groundwater management system or~~

both:

- 3.3.3 ~~Notwithstanding the provisions of this By law, the Director of Planning may in the Director of Planning's discretion either approve, approve subject to conditions or refuse development permit applications for which the consent of the Development Permit Board would otherwise be required. However, a member of the Development Permit Board may, prior to consideration of an application by the Director of Planning, require that it be considered by the Development Permit Board and in that case the Director of Planning shall not exercise the sole discretion otherwise given by this section.~~
- 3.3.4 ~~The Director of Planning shall not exercise the Director of Planning's discretion pursuant to subsection 3.3.3 above where, in the Director of Planning's opinion:~~
- ~~(a) the development would have a significant effect on the existing immediate environment;~~
 - ~~(b) the development would create traffic implications that could affect the general environment;~~
 - ~~(c) the height or density of any proposed building would not be in keeping with the general building heights or density in the immediate environment;~~
 - ~~(d) there may be possible significant buildings of heritage value on the site or in the surrounding area that may be adversely affected by the development;~~
 - ~~(e) the design is not of an acceptable standard and may adversely affect public amenity, in which case the Director of Planning may first request advice from the Urban Design Panel;~~
 - ~~(f) the development is such that special public amenities could be considered for density bonus or other special advantages; or~~
 - ~~(g) the proposed development could affect any public policy objectives, established or potential, including future transit locations and open space needs.~~
- 3.3.5 ~~The Development Permit Board or the Director of Planning may refer any application for a development permit to the Urban Design Panel for advice and may notify such property owners and tenants it deems necessary.~~
- ~~[See By law No. 4722, Appendix F]~~
- 3.3.6 ~~Despite anything to the contrary in this by law, the Director of Planning or the Development Permit Board must not issue a development permit for:~~
- ~~(a) a multiple dwelling with three or more dwelling units in the RM 2, RM 3, RM 3A, RM 4 and RM 4N, RM 5, RM 5A, RM 5B, RM 5C and RM 5D, RM 6, or FM 1 districts;~~
 - ~~(b) a multiple conversion dwelling with three or more dwelling units in the RM 2, RM 3, RM 3A, RM 4 and RM 4N, RM 5, RM 5A, RM 5B, RM 5C and RM 5D, or FM 1 districts; or~~
 - ~~(c) an infill multiple dwelling with three or more dwelling units in the RM 4 and RM 4N, RM 5, RM 5A, RM 5B, RM 5C and RM 5D, or FM 1 districts;~~
- ~~unless the development permit is subject to conditions that comply with the requirements of the applicable districts schedule or district schedule.~~

~~^{††} NOTE: Council instructed Director of Planning to continue to accept plans submitted in either metric or imperial measurement (92-09-03).~~

- 4.2.3 If within thirty days or such longer period as may be agreed by the applicant from the date on which the applicant has furnished all the information and material required by the Director of Planning in accordance with the last preceding section, no development permit has been issued to ~~the such~~ applicant, then the issue of the development permit shall be deemed to have been refused, so as to enable ~~such the~~ applicant to exercise their right to appeal, provided always that if the Council pursuant to the terms of Section 570 of the Vancouver Charter (**British Columbia**) has withheld or has authorized its proper officer to withhold the issuance of a development or building permit relative to the property in question, then the issue of a development or building permit shall not be deemed to have been refused during such period that issuance of such development or building permit so continues to be withheld.

4.3 ~~Development Permit Issuance~~

- ~~4.3.1 — When such application for a development permit and also the terms of the proposed development conform to the provisions of this By-law, the Director of Planning or the Director of Planning's nominee shall issue a development permit and return one set of the approved plans to the applicant. Of the remaining sets of plans or drawings the City may retain such number as required for record purposes.~~
- ~~4.3.2 — The approval of plans or drawings and the issuing of a development permit and any inspection in connection therewith made by the Director of Planning or the Director of Planning's accredited representatives shall not in any way relieve the applicant from full responsibility for the carrying out of the development in accordance with the provisions of this By-law.~~
- ~~4.3.3 — The approval of any application and plans or drawings, or issuing of a development permit, shall not prevent the Director of Planning from thereafter requiring the correction of errors or from prohibiting a development from being carried out when the same is in violation of this or any other By-law.~~
- ~~4.3.4 — Save and except as provided in this By-law, it shall be unlawful for any person to erase, alter or modify any development permit including the application therefor or any plans or drawings accompanying the same.~~

- (g) includes a conversion or demolition under the Single Room Accommodation By-law but Council has not approved issuance of a conversion or demolition permit for such conversion or demolition.

4.3.4 In making a determination regarding the adequacy of drainage under section 4.3.3(d) of this By-law, the Director of Planning or the Development Permit Board may require any development permit applicant to submit a Hydrogeological Study and an impact assessment, and may consider drainage to be inadequate if the proposed development will result in:

- (a) any groundwater discharge from the site into the City collection system;
- (b) rainwater or stormwater discharge from the site into the City collection system that would increase the downstream flow; or
- (c) water infiltration that could reasonably be expected to compromise the underlying aquifer or geology.

- (d) there may be possible significant buildings of heritage value on the site or in the surrounding area that may be adversely affected by the development;
- (e) the design is not of an acceptable standard and may adversely affect public amenity, in which case the Director of Planning may first request advice from the Urban Design Panel;
- (f) the development is such that special public amenities could be considered for density bonus or other special advantages;
- (g) the proposed development could affect any public policy objectives, established or potential, including future transit locations and open space needs; or
- (h) the public response to the application is such that review by the Development Permit Board is warranted,

4.4 Development Permit Issuance

4.4.1 When an application for a development permit and also the terms of the proposed development conform to the provisions of this By-law, the Director of Planning or the Director of Planning's nominee shall issue a development permit and return one set of the approved plans to the applicant. Of the remaining sets of plans or drawings the City may retain such number as required for record purposes.

4.4.2 The approval of plans or drawings and the issuing of a development permit and any inspection in connection therewith made by the Director of Planning or the Director of Planning's accredited representatives shall not in any way relieve the applicant from full responsibility for the carrying out of the development in accordance with the provisions of this By-law.

4.4.3 The approval of any application and plans or drawings, or issuing of a development permit, shall not prevent the Director of Planning from thereafter requiring the correction of errors or from prohibiting a development from being carried out when the same is in violation of this or any other By-law.

4.4.4 Save and except as provided in this By-law, it shall be unlawful for any person to erase, alter or modify any development permit including the application therefor or any plans or drawings accompanying the same.

4.4.5 The issue of a development permit shall not absolve the applicant from complying with all City by-laws.

4.4.6 In the event of a discrepancy between any written description and the plans or drawings the written description shall prevail.

4.4.7 The Director of Planning shall upon application being made therefor issue a development permit in accordance with any decision of the Board of Variance.

4.5 Development Permit Amendment

4.5.1 If at any time it is desired to alter in any manner, or to deviate from, the particulars of the application or plans or drawings previously submitted for which a development permit has already been issued, a new application shall be made. However, if an amendment is of a minor nature whereby a new application is deemed to be unnecessary, the Director of Planning may waive this requirement and endorse any necessary amendment to the application, plans or drawings and development permit accordingly.

Section 5

By-law Relaxations and Powers of Discretion

5.1 Relaxation of By-law Provisions

5.1.1 Except as otherwise specified in this By-law, in any case where enforcement of this By-law would result in unnecessary hardship, the Director of Planning or the Development Permit Board, in the exercise of their jurisdiction, may relax the provisions of this By-law to the extent necessary to relieve such hardship. In granting any such relaxation, the Development Permit Board or the Director of Planning, as the case may be, shall consider whether the relaxation would result in any adverse effects on adjacent properties and shall have regard to the intent of this By-law, the regulations and policies of any Official Development Plan, and such other applicable policies and guidelines adopted by Council.

5.1.2 Except as otherwise specified in this By-law, the Director of Planning or the Development Permit Board, in the exercise of their jurisdiction, may relax the provisions of this By-law where Council determines that the proposed development would make a contribution to conserving a building or site designated by Council as protected heritage property or a building or site on the Heritage Register. Any development permit issued shall specify the heritage aspects of the building or site that merit the relaxation authorized by this section. Before granting any relaxation, the Director of Planning or the Development Permit Board shall:

- (a) consider any advice from the Vancouver Heritage Commission or any other body established by Council for this purpose defining the aspects of the building or site that give it heritage value and advising on the proposed conservation work;
- (b) notify such adjacent property owners and tenants as deemed necessary, consider the responses received, and if there is significant objection, refer the matter to Council for advice; and
- (c) consider the provisions of this By-law and all applicable policies and guidelines adopted by Council.

5.1.3 Except as otherwise specified in this By-law, the Director of Planning or the Development Permit Board, in the exercise of their jurisdiction, may relax the provisions of this By-law where the proposed development makes provision for low cost housing for persons receiving assistance, if the Director of Planning or the Development Permit Board first considers:

- (a) all applicable Council policies and guidelines;
- (b) the impact on the liveability of neighbouring residents; and
- (c) the proposed development is not in the RS-1, RS-1A, RS-1B, RS-2, RS-3 and RS-3A, RS-5, RS-6, RS-7, RT-1, RT-4, RT-7, RT-9, RT-10 or RT-11 zoning district or in any other zoning district that permits one family dwellings and does not permit multiple dwellings.

For the purposes of this section, low cost housing for persons receiving assistance means social housing, except that 70% of the dwelling units must be occupied by persons eligible for either Income Assistance or a combination of basic Old Age Security pension and Guaranteed Income Supplement and must be rented at rates no higher than the shelter component of Income Assistance, and the remainder of the dwelling units must be occupied by households with incomes below housing income limits, as set out in the current 'Housing Income Limits' table published by the British Columbia Housing Management Commission, or equivalent publication.

- 5.1.4 The authority of the Director of Planning or the Development Permit Board to relax any provision of this By-law pursuant to this section 5.1 includes the authority to impose conditions, including but not limited to time limitations.
- 5.2 Powers of Discretion Related to Zoning Matters
- 5.2.1 The Director of Planning may vary the provisions of this By-law relating to any of the following:
- (a) alterations or additions to an existing building which lacks minimum yards required by the appropriate district schedule, except that any variation in this case shall be with respect to yard requirements only, and provided that the Director of Planning first considers the impact on neighbouring properties;
 - (b) erection of more than one principal building on one site or structural alterations or additions to two or more principal buildings existing on the same site and located in a C, M, I or CD District;
 - (c) erection of more than one principal building on one site or structural alterations or additions to two or more principal buildings existing on the same site where such principal buildings consist of multiple dwellings located within any R district, subject to the arrangement of such principal buildings being satisfactory to the Director of Planning;
 - (d) retention of more than one principal building on one site where an application for a development permit has been made but the permit cannot be issued because of a requirement to consolidate or subdivide the site;
 - (e) placement of one or more portable classrooms on an elementary or secondary school site, where the existing or proposed development exceeds permitted floor space ratio or site coverage, or lacks minimum yards or setbacks, as specified in the district schedule or section 11;
 - (f) erection of a new elementary or secondary school building, or alterations or additions to an existing elementary or secondary school building, where the existing or proposed development exceeds permitted floor space ratio or site coverage, or lacks minimum yards or setbacks, as specified in the district schedule or section 11;
 - (g) Low Operational Cost Housing containing 6 or more dwelling units, except that permitted floor area or density of units may not be increased or varied above the maximum permitted within the district schedule under this By-law, and may be granted by the Director of Planning after consideration of all Council adopted policies and guidelines. This subsection (g) does not apply to Comprehensive Development zones, and shall not apply to applications made after December 31, 2025;
 - (h) required setbacks to off-street parking areas where, in the opinion of the Director of Planning, the landscaping provided or to be provided is adequate to warrant such reduction, except that in a C-1 or R District, no reduction shall be granted which has the effect of reducing the front yard to less than the required depth of an adjoining front yard; and

Section 5

- (i) the maximum projection of balconies into required yards, horizontal daylight control angles and limitations on building length.

5.2.2 Despite anything to the contrary in this By-law, if

- (a) the construction or alteration of, or addition to, a building is to include enhanced accessibility to and from the dwelling by way of ramps, lifts, or other like means, for persons who find conventional access impossible or difficult because they have a loss or reduction of functional ability or activity, and
- (b) the Director of Planning first considers all applicable guidelines and policies adopted by Council,

the Director of Planning may vary the requirements in the appropriate district schedule regarding yards, setbacks, site coverage, impermeability, building depth, and side door entrance to the extent necessary to allow such enhanced accessibility.

5.2.3 The Director of Planning may vary the provisions of this By-law regulating the siting of a building, provided that:

- (a) the proposed siting of a building will accommodate the retention of an existing tree which, in the opinion of the Director of Planning, warrants retention; and
- (b) the resulting siting of a building will not, in the opinion of the Director of Planning, result in unduly adverse effects on adjacent properties.

5.2.4 The Director of Planning, on the advice of the Chief Building Official, may vary any necessary provisions in an RS district schedule in order to permit additional above grade floor area if soil or hydrological conditions on a site are not suitable to below grade construction, provided that:

- (a) the soil or hydrological conditions are documented to the satisfaction of the Director of Planning; and
- (b) the area of all floors at or above finished grade does not exceed a floor space ratio of 0.6.

5.2.5 If an owner applies to replicate a Multiple Conversion Dwelling or Infill use damaged by fire to the extent of 60% or more of its value above its foundations, and the Director of Planning has previously given a bonus, relaxation or variation under the RT-3, RT-4, RT-4A, RT-4N and RT-4AN, RT-5 and RT-5N, RT- 6, RT-7, RT-8, RT-9, RT-10 and RT-10N, RT-11 and RT-11N, RM-1 and RM-1N, RM-7, RM-7N and RM-7AN, RM-8, RM-8A, RM-8N and RM-8AN, RM-9, RM9A, RM-9N, RM-9AN and RM-9BN, RM- 10 and RM-10N, RM-11 and RM-11N, or RM-12N District Schedules in respect of such use, and the proposed replication is in accordance with the most recently issued development or building permits for that use, the Director of Planning must vary the provisions of the applicable districts schedules to the extent necessary to permit the replication.

5.2.6 The Director of Planning must vary the provisions in regards to minimum site width in the RS-1, RS-5, and RS-6 district schedules to permit the construction of a one-family dwelling on an existing lot which is on record in the Land Title Office as of June 24, 2014 if the use was previously approved under issued development or building permits.

Section 5

- 5.2.7 The Director of Planning is authorized to determine whether or not a building is a character house and, in making that determination, may consider the age and architectural form and style of the building, in accordance with all applicable Council policies and guidelines.
- 5.2.8 The Director of Planning, before exercising its powers of discretion pursuant to this section 5.2, shall be satisfied that any property owner likely to be adversely affected is notified. Such notification shall be in the form appropriate to the circumstances.

RS-3 and RS-3A Districts Schedule

1 Intent

- 4.4.2 If the provisions of Section 4.4.1 and Section 4.6.1 of this Schedule result in a distance between the front yard and the rear yard which is less than 40 percent of the depth of the site, and provided that the principal building is sited so that it abuts the required rear yard, the depth of the required front yard may be reduced so that the distance between the front yard and the rear yard is equal to 40 percent of the depth of the site.
- 4.4.3 If the depth of the required front yard is greater than 20 percent of the depth of the site, the Director of Planning may permit a reduction in the depth of the required front yard prescribed by Section 4.4.1 by an amount not exceeding 60 percent of the difference between the depth of the required front yard and 20 percent of the depth of the site, provided that such a reduction shall not exceed 1.5 m.

4.2 Frontage -- Not Applicable.

4.3 Height

- 4.3.1 The height of a building shall not exceed:
- (a) 10.7 m above the horizontal datum plane; and
 - (b) 2 ½ storeys; and
 - (c) an envelope located in compliance with the side yard regulations and formed by planes vertically extended 9.2 m in height above the horizontal datum plane and then extending inward and upward at an angle of 45 degrees from the horizontal.
- 4.3.2 For a building, including any accessory building, located within the allowed building depth as described in section 4.16, height shall be measured from the horizontal datum plane.
- 4.3.3 For the purposes of this Schedule, the horizontal datum plane shall be a single horizontal, flat surface, the elevation of which shall be the average of the existing site elevations taken at the intersections of the required front and rear yard setback lines with the side property lines.
- 4.3.4 Notwithstanding section 4.3.3, the elevation of the horizontal datum plane shall not exceed an elevation of 1.5 m above the lowest of the elevations averaged to determine the elevation of this plane.
- 4.3.5 Notwithstanding sections 4.3.2 through 4.3.4 the height of an accessory building not within the allowed building depth as described in section 4.16 shall be measured from existing grade around the perimeter of the accessory building.
- ~~4.3.6 For sites where the average slope within the allowable building envelope as determined by yard setbacks exceeds 15 percent or for sites exceeding 30.5 m in width and 1 393 m² in area and where, due to conditions peculiar to the site, literal enforcement of sections 4.3.3 and 4.3.4 would result in an unnecessary hardship, the Director of Planning may permit the height to be measured from a hypothetical surface determined by joining the existing grades at the intersections of the hypothetical lines defining the front and rear yards and the side property lines, except that if the Director of Planning is of the opinion that the hypothetical surface determined by joining the existing grades is not compatible with the existing grades of adjoining sites or general topography of the area, the Director of Planning may instead require that height be measured from base surface.~~

4.4 Front Yard

- 4.4.1 A front yard with a minimum depth of 20 percent of the depth of the site shall be provided, except that:
- (a) on a site where the average front yard depth of the two adjacent sites on each side of the site is more than the 20 percent depth by at least 1.5 m or is less than the 20 percent depth, the minimum depth of the front yard to be provided shall be that average, subject to the following:
 - (i) where an adjacent site is vacant, it shall be deemed to have a front yard depth of 20 percent of the depth of the site;
 - (ii) if one or more of the adjacent sites front on a street other than that of the development site or the adjacent sites are separated by a street or lane, then such adjacent sites shall not be used in computing the average;
 - (iii) where the site is adjacent to a flanking street or lane, the average depth shall be computed using the remainder of the adjacent sites;
 - (b) the Director of Planning may vary the front yard requirement on a double fronting site or a site where a building line has been established pursuant to section 14.1 of this By-law.
- 4.4.2 Notwithstanding the provisions of section 10.32.1(b) of this By-law, eaves, gutters or other similar projections as determined by the Director of Planning may project into the required front yard to a maximum of 1.0 m, measured horizontally.
- 4.4.3 If the provisions of section 4.4.1(a) and section 4.6.1 of this Schedule result in a distance between the front yard and the rear yard which is less than 40 percent of the depth of the site, and provided that the principal building is sited so that it abuts the required rear yard, the depth of the required front yard can be reduced so that the distance between the front yard and the rear yard is equal to 40 percent of the depth of the site.
- 4.4.4 ~~Covered Entries~~, porches ~~and verandahs~~ complying with the conditions of section 4.7.3(g) shall be permitted to project into the required front yard a maximum of ~~2.01.8~~ m provided that:

 - (b) no decks are directly above those portions of ~~an covered-entry, porch or verandah~~ which project into a required front yard.

4.5 Side Yard

- 4.5.1 A side yard shall be provided on each side of the building with a minimum width equal to:
- (a) 12 percent of the site width for sites less than or equal to 21.3 m in width; or
 - (b) for sites exceeding 21.3 m in width, the following formula shall be used, except that this percent need never be more than 20 percent:

$$\% \text{ of site width} = [(\text{site width in metres} - 21.3 \text{ m}) \times 0.66] + 12$$

- 4.5.2 In the case of a corner site which has located at its rear, with or without the intervention of a lane, a site which fronts on the street flanking the corner site, the exterior side yard shall be regulated by the provisions of section 10.27 of this By-law.
- 4.5.3 Notwithstanding the provisions of section 10.32.1(b) of this By-law, eaves, gutters or other similar projections as determined by the Director of Planning may project into the required side yard to a maximum of 1.0 m, measured horizontally, except that they shall not be less than 0.6 m from an interior side property line.

- where an abutting site is vacant, it shall be deemed to have a rear yard depth of 40 percent of its site depth;
 - where an adjacent site abuts the site by way of its rear property line or is separated by a street or lane, it shall not be used in computing the reduction in the depth of the rear yard to be provided;
 - where the site has an exterior side yard, the rear yard to be provided can be reduced to that of the abutting site; and
 - any portion of the principal building to be located within that part of the rear yard decreased as provided for in this section 4.6.1 must comply with the provisions of section 2.2.A(a) of this Schedule.

- 4.17.5 For the purpose of providing light or access to a basement or cellar, the surface of the ground adjoining a building can be lowered without affecting the calculation of average floor elevation, provided that:
- (a) the lowered surface does not extend into the required front yard nor more than 3.1 m into the required rear yard including access to the lowered surface; and
 - (b) that portion of the building abutting the lowered surface:
 - (i) faces either the front street or the rear property line; and
 - (ii) is not greater than half the width of the building, or 4.6 m, whichever is the lesser.
- 4.17.6 Notwithstanding section 4.17.3 or section 4.17.4, the Director of Planning may:
- (a) on the advice of the Chief Building Official, permit one additional entrance facing a front yard or a side yard if it provides access to a building existing prior to March 14, 1989; or
 - (b) permit one additional entrance facing a front yard for a one-family dwelling with a secondary suite if both entrances facing the front yard are located at or above grade.
- 4.17.7 For portions of a building more than 7.3 m above the horizontal datum plane as defined by 4.3.3 and 4.3.4:

RT-11 and RT-11N Districts Schedules

1 Intent

The intent of this schedule is to allow a variety of housing options by encouraging development of multiple small houses and duplexes on larger lots and assembled sites, while continuing to permit lower intensity development on smaller sites. Siting and massing are intended to be compatible with, but not the same as, pre-existing single family development. Laneway houses, secondary suites, and lock-off units are permitted, within limits, to provide flexible housing choices. Retention of character buildings and high quality architectural design of new development is encouraged. The RT-11N District differs from the RT-11 District because it requires evidence of noise mitigation for residential development.

Individual one-family dwellings and one-family dwellings with a secondary suite (with or without a laneway house) are permitted uses; however, where developed as the only principal building on a site, these uses are regulated by the RS-1 District Schedule.

RM-7, RM-7N and RM-7AN Districts Schedule

RM-8, RM-8A, RM-8N and RM-8AN Districts Schedule

1 Intent

The intent of this schedule is to encourage development of ground-oriented stacked townhouses or rowhouses, including courtyard stacked townhouses and rowhouses, while continuing to permit lower intensity development. In the RM-8A and RM-8AN, a certain percentage of smaller units is required to increase the supply of smaller townhouses. Siting and massing of new development are intended to be compatible with, but not the same as, pre-existing single-family development. Secondary suites and lock-off units are permitted to provide flexible housing choices. Retention of character buildings and high quality design and liveability standards are encouraged for new development. The RM-8N and RM-8AN Districts differ from the RM-8 and RM-8A Districts, because they require noise mitigation for dwelling units close to arterial streets.

Individual one-family dwellings and one-family dwellings with a secondary suite (with or without a laneway house) are permitted uses; however, if developed as the only principal building on a site, these uses are regulated by the RS-1 District Schedule. In all other cases, this schedule will apply

RM-9, RM-9A, RM-9N, RM-9AN and RM-9BN Districts Schedule

1 Intent

The intent of this Schedule is to permit medium density residential development. In the RM-9, RM-9N and RM-9BN Districts, this includes a variety of multiple dwelling types including low-rise apartments, ground-oriented stacked townhouses, and rowhouses, including courtyard and freehold rowhouses. In the RM-9A and RM-9AN Districts, dwelling uses are more limited: the emphasis is on 4-storey low-rise apartments, with stacked townhouses limited to exceptionally deep lots, which provide a transition between higher building forms and ground-oriented residential neighbourhoods.

In all Districts, emphasis is on a high standard of liveability and creation of a variety of dwelling unit sizes, including those appropriate for families with children. Secondary suites and lock-off units are permitted, within limits, to provide flexible housing choices. All new development will demonstrate high quality design and good neighbourhood fit.

The RM-9N, RM-9AN and RM-9BN Districts differ from the RM-9 and RM-9A Districts in that they require evidence of noise mitigation for residential development in close proximity to arterial streets or a rapid transit guideway.

RM-11 and RM-11N Districts Schedule

1 Intent

The intent of this Schedule is to permit medium density residential development primarily in the form of four-storey “T”-shaped apartments, and to foster compact, sustainable, multi-family neighbourhoods that support walking, cycling and transit use.

Emphasis is on a high standard of liveability and dwelling units that are varied in size, composition and tenure, including those suitable for families with children. Common and private outdoor spaces are required. Lock-off units are permitted, within limits, to provide flexible housing choices. All new development will demonstrate high-quality design and enrich the public realm.

Additional options for lower density development are only permitted on locked in lots, as set out in the RM-11 design guidelines. New one-family dwellings and new laneway houses are not permitted.

The RM-11N District differs from the RM-11 District in that it requires evidence of noise mitigation for residential development in close proximity to arterial streets or a rapid transit guideway.

- (a) if it is new development that requires demolition of one or more buildings on that site, or if it is an existing development that requires major alterations resulting in a change to the unit mix of the building(s) and the reconfiguration of a majority of the existing dwelling units, housekeeping units, or sleeping units:
 - (i) enter into a housing agreement, satisfactory to Council, that secures:
 - A. one for one replacement of existing rental housing units with dwelling units on the site or in the same zoning district, or one for one replacement with another type of affordable housing if permitted under an applicable community plan, except that in cases where the existing rental housing units are sleeping or housekeeping units, the Director of Planning may permit less than one for one replacement, having regard for the Council’s intention to maximize the replacement of such rental units; and
 - B. a Tenant Relocation Plan in keeping with the city’s Tenant Relocation and Protection Policy, if applicable, and
 - (ii) ensure that at least 35% of the total number of dwelling units include two or more bedrooms, except where the Director of Planning considers that such requirement would deter or prevent:

- (i) secure, to the satisfaction of the Director Planning, one for one replacement of existing rental housing units with dwelling units on the site or in the same zoning district, except that in cases where the existing rental housing units are sleeping or housekeeping units, the Director of Planning may permit less than one for one replacement, having regard for the Council's intention to maximize the replacement of such rental units; and
- (ii) provide a Tenant Relocation Plan in keeping with the city's Tenant Relocation and Protection Policy, if applicable;

3.3.3 The Development Permit Board may increase, subject to approval of Council, the maximum permissible floor space for commercial uses as established in section 3.3.1 with respect to development on consolidated sites, which, by virtue of their size and location, comprise land in two or more Sub-areas as illustrated in Figure 1 at the end of this schedule provided that:

- (a) any increase shall be confined to the transfer of the permitted commercial floor space of one Sub-area to other Sub-areas;
- (b) the Board considers the overall quality of the development, the surrounding developments and potential for redevelopment both within the FM-1 District and other zoning districts that are adjacent to the consolidated site, surrounding traffic patterns, and the intent of this Schedule and all applicable policies and guidelines adopted by Council; and

HA-1 and HA-1A Districts Schedule (Chinatown Historic Area)

1 Intent

Chinatown is one of the city’s original communities. It is a distinct community, which was established in response to the cultural and social needs of its Chinese population, primarily from Guangdong Province. The resulting “Chinatown Architecture” combined 19th century building patterns from Guangdong Province - which themselves were influenced by early contact with European, primarily Portuguese and Italian, cultures - with the local adaptations of Victorian forms. The significant buildings of this period were built between the Great Fire of 1886 and the beginning of the Great Depression in 1929 and many are protected heritage properties. Chinatown has traditionally accommodated a variety of uses from retail to residential to light industrial with a degree of tolerance not found in all parts of the city.

The intent of this Schedule is to encourage the preservation and rehabilitation of the significant early buildings of Chinatown, while recognizing that the evolving activities that make this district an asset to the city need to be accommodated contextually. The Schedule may permit a range of uses provided that reasonable, but not rigorous, concerns for compatibility are met.

To achieve this intent, this Schedule provides the basic development controls that regulate land uses and building form. There are two Districts: HA-1 corresponds to the boundaries of the protected heritage properties and the National Historic Site on Pender Street; HA-1A is the remainder of Chinatown. There are also two sets of related design guidelines. The guidelines are important for achieving an appropriate level of design sensitivity.

C-5, C-5A and C-6 Districts Schedule (West End Commercial Districts)

1 Intent

The intent of this Schedule is to provide for retail and services uses and forms of development compatible with the primarily residential character of the West End and to provide for dwelling units in C-5A and C-6 designed to be compatible with commercial uses. This schedule encourages external building design, the scale and function of which is oriented towards pedestrians. The C-5 district provides opportunities for commercial uses throughout the district and opportunities for nightlife in the Davie Village. The C-5A district differs from the C-5 district because C-5A provides density bonuses for social housing and secured market rental housing. The C-6 district differs from the C-5 and C-5A Districts because the C-6 district provides a transition between the Downtown and the West End by permitting a greater density and scale than the C-5 and C-5A districts.

FC-1 District Schedule

(East False Creek)

1 Intent

The intent of this Schedule is to permit and encourage the development of a high-density mixed commercial use neighbourhood, including some residential and compatible industrial uses. For commercial development, a variety of small-scale retail and service uses are encouraged. Larger, more regional-oriented office and retail commercial uses are limited in size and extent for individual sites.

The retention and upgrading of existing multi-unit residential buildings and the development of new residential units on upper floors of commercial buildings are encouraged. Similarly, the development of new hotels is encouraged, provided that these do not result in the conversion of existing residential units. New residential and hotel development in the short-term will occur mostly to the west of Main Street, oriented to False Creek and the waterfront park system. Special design measures, however, will be necessary to mitigate the air and noise pollution problems, particularly adjacent to some existing industries and major traffic streets.

Because of the extended time required for the transition from an industrial to a mixed-use neighbourhood, certain uses (e.g. residential) may not be feasible on certain sites until a later phase of the area's development. Initially, the most intensive development is likely to be focussed on sites nearby the Main Street ALRT station to take advantage of excellent transit accessibility, good views and park outlook amenities. Higher building forms will be concentrated adjacent to the Main and Terminal location, with a transition to medium-scaled buildings around Thornton Park and adjacent to existing development on the northerly part of Main Street.

IC-3 District Schedule

1 Intent

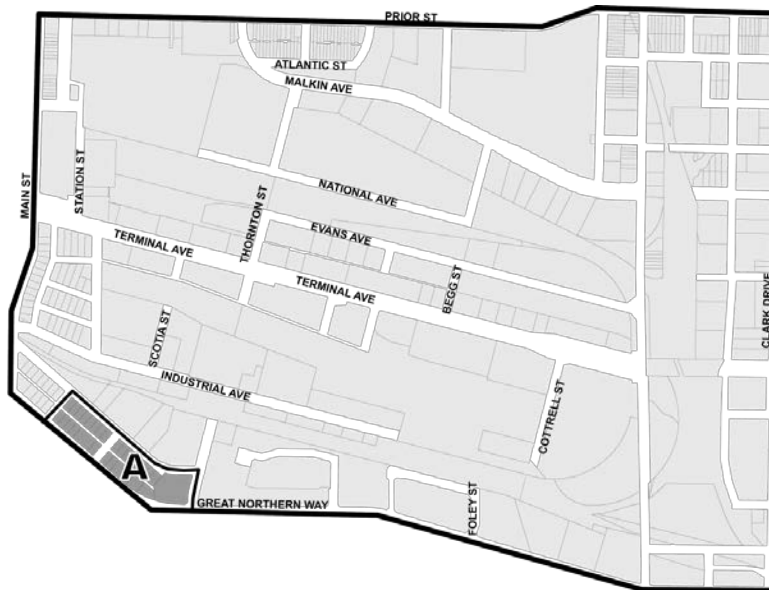

1.1 The primary intent of this Schedule is to permit a mix of light industrial, live arts and theatre, residential and related uses that are generally compatible with adjoining residential and commercial districts. Service uses compatible with and complementing light industrial uses and a limited number of office uses are also permitted, but not general retail stores.

In the False Creek Flats, north of Great Northern Way, additional discretionary height and density may be considered where 20% of the residential floor area is used for social housing or where all of the dwelling units are secured market rental housing.

The general intent of the external design regulations is to achieve certain public objectives with respect to the historic Brewery Creek water course.

1.2 Within the False Creek Flats, the area north of Great Northern Way and 2nd Avenue illustrated in Figure 1 is referred to as sub-area A, solely for the purpose of establishing permitted uses, setbacks, floor area and height.

 - ~~(i) the design of landscape treatments;~~
 - ~~(ii) the effect on privacy and overlook; and~~
 - ~~(iii) all applicable Council policies and guidelines.~~
- (c) where floors are used for off-street parking and loading, the taking on or discharging of passengers, bicycle storage, heating and mechanical equipment, or uses which in the opinion of the Director of Planning are similar to the foregoing, those floors or portions thereof so used, which are at or below the base surface, provided that the off-street parking spaces do not have a length of more than 7.3 m for the purpose of exclusion from floor space ratio computation;

The Development Permit Board will require that any such facility be preserved in the public domain by way of a registered agreement and operated by the City or its delegates.~~

~~In determining the increase in floor area that may be permitted, the Development Permit Board or Director of Planning shall consider:~~

- ~~(a) the construction cost of the facility;~~
- ~~(b) any costs to the developer of continuing maintenance required for the facility;~~

In determining the amount of the increase in floor space ratio that may be permitted by this section 4.7.5, the Director of Planning or the Development Permit Board, with advice from the Manager of the Housing Centre and the Manager of Real Estate, shall consider:

- (a) the cost to the developer of adhering to the conditions of the housing agreement;

- (b) for the purpose of this clause an artist studio and its associated residential unit shall together be considered a dwelling use; and
- (c) a minimum of 20% of the residential floor area included in the calculation of floor space ratio must be used for social housing, or
- (d) all dwelling units must be secured market rental housing.

4.8 to 4.14 (Reserved)

4.15 Acoustics

4.15.1 In sub-area A as shown in Figure 1, a development permit application for dwelling uses requires evidence in the form of a report and recommendations prepared by persons trained in acoustics and current techniques of noise measurements, demonstrating that the noise levels in those portions of the dwelling units listed below do not exceed the noise levels expressed in decibels set opposite such portions of the dwelling units. For the purposes of this section the noise level is the A-weighted 24-hour equivalent (Leq) sound level and will be defined simply as the noise level in decibels.

Portions of dwelling units	Noise levels (Decibels)
Bedrooms	35
Living, dining, recreation rooms	40
Kitchen, bathrooms, hallways	45

4.16 (Reserved)

~~4.17.2 If the Director of Planning is satisfied that enforcement of section 4.17.1 will result in unnecessary hardship, and that the form of development will otherwise achieve building continuity, the Director of Planning may relax all or some of the requirements of section 4.17.1.~~

4.17.23 Garbage container storage areas, heating and mechanical equipment, and off-street parking and loading facilities shall be enclosed, located or screened so as not to be visible from the centre line of an abutting street.

4.17.43 Any use which is not carried on wholly within a completely enclosed building, including parking use, shall be set back 1.2 m from the street property line at an abutting street and screened, so as not to be visible from the centre line of every abutting street, by evergreen planting, wall, or fence with related landscaping.

- ~~(d) all dwelling units must be secured market rental housing.~~

~~5.1 Where a need for a cultural facility has been demonstrated to the satisfaction of the Development Permit Board, the Development Permit Board may relax the maximum floor space ratio for any one building, which includes one or more of such facilities. The Development Permit Board will require that any such facility be preserved in the public domain by way of a registered agreement and operated by the City or its delegates.~~

~~In determining the increase in floor area that may be permitted, the Development Permit Board or Director of Planning shall consider:~~

- ~~(a) the construction cost of the facility;~~
- ~~(b) any costs to the developer of continuing maintenance required for the facility;~~
- ~~(c) the rental value of the increased floor area;~~
- ~~(d) the value of any authorized relaxation of other restrictions;~~
- ~~(e) the opinion of City Council; and~~
- ~~(f) all applicable policies and guidelines adopted by Council~~

~~5.2 In sub-area A, as shown in Figure 1, the Director of Planning may relax the regulations regarding permitted height for dwelling units in conjunction with other permitted uses, if the~~

4.4 Front Yard

4.4.1 The minimum depth of the front yard is 25% of the depth of the site.

4.4.2 Despite the provisions of section 4.4.1 of this District Schedule and of section 10.32.1(b) of this by-law:

- (a) eaves, gutters, sills and chimneys and other projections that, in the opinion of the Director of Planning, are similar, may project into the minimum front yard to a maximum of 1.0 m measured horizontally;
- (b) eaved entries, porches and verandahs that conform to section 4.7.4(f) of this District Schedule may project into the minimum front yard to a maximum of 1.8 m measured horizontally; and
- (c) basement floor area underneath eaved entries, porches and verandahs may project into the minimum front yard to a maximum of 1.8 m measured horizontally.

4.5 Side Yard

4.5.1 The minimum width of each side yard is:

- (a) 20% of the site width on a site with a frontage of 22.86 m or more; and
- (b) 15% of the site width on a site with a frontage of less than 22.86 m.

4.5.2 Despite the provisions of section 10.32.1(b) of this by-law, eaves, sills and chimneys and other projections, that, in the opinion of the Director of Planning are similar, may project into the minimum side yard to a maximum of 1.0 m measured horizontally, except that there must be at least 0.7 m between the projection and the side property line.

4.5.3 An infill dwelling must be no less than 4.5 m from a side property line, except that:

- (a) the Director of Planning may permit a lesser setback for an existing accessory building that is converted to residential use; and
- (b) the Director of Planning may require a greater setback if, in the opinion of the Director of Planning, it is necessary to protect the privacy or liveability of a neighbouring site or building.

4.6 Rear Yard

- 4.6.1 A rear yard must have a minimum depth of 12.19 m, measured from the rear property line.
- 4.6.2 Despite the provisions of section 10.32.1(b) of this by-law, eaves, gutters, sills and chimneys and other projections that, in the opinion of the Director of Planning are similar, may project into the minimum rear yard to a maximum of 1.0 m measured horizontally.
- 4.6.3 An infill dwelling must be set back no less than 4.5 m from the rear property line, except that:
- (a) the Director of Planning may permit a lesser setback for an existing building that is converted to residential use; and
 - (b) the Director of Planning may require a greater setback if, in the opinion of the Director of Planning, it is necessary to protect the privacy or liveability of a neighbouring site or building.

4.7 Floor Area and Density

- 4.7.1 Floor space ratio for protected heritage property must not exceed:
- (a) 0.45 for protected heritage property that is conserved; and
 - (b) for infill buildings, a maximum of 0.30 of the infill site area as determined by the following calculation:
 - (i) where the gross floor area of the basement, first and second storey of the principal building is equal to or less than 543 m², the infill site area is the total site area minus 1 208 m², and
 - (ii) where the gross floor area of the basement, first and second storey of the principal building is more than 543 m², the infill site area is calculated in accordance with the following formula, where “x” equals the gross floor area of the basement, first and second storey of the principal building, measured in m²:

$$\text{site area for infill floor space ratio calculation} = \frac{\text{total site area} - x}{0.45},$$

except that:

- (iii) the maximum floor area for an infill building is the lesser of 279 m² and 50% of the gross floor area of the basement, first and second storey of the principal building.
- 4.7.2 Floor space ratio for all development other than protected heritage property must not exceed 0.25 plus 139 m², to a maximum permitted floor area of 910.44 m².
- 4.7.3 Computation of floor area must include:
- (a) all floors having a minimum ceiling height of 1.2 m, including earthen floor, both above and below ground level, to be measured to the extreme outer limits of the building;
 - (b) stairways, fire escapes, elevator shafts and other features that the Director of Planning considers similar, to be measured by their cross-sectional areas and included in the measurements for each floor at which they are located; and
 - (c) where the distance from a floor to the floor above, or where there is no floor above, to the top of roof joists exceeds 3.7 m, an amount equal to the area of the floor below the excess height, except that the Director of Planning may exclude an area designed with venting skylights, opening clerestory windows or other similar features if:
 - (i) in the opinion of the Director of Planning, the area is designed to reduce energy consumption or improve natural light and ventilation, and
 - (ii) the area does not exceed 1% of the permitted floor area.

- 4.7.4 Computation of floor area may exclude:

- (a) ~~open residential~~ balconies, ~~sun~~decks, and other appurtenances that in the opinion of the Director of Planning, are similar to the foregoing if the total area of these exclusions does not exceed 8% of the permitted floor area;
- (b) areas of undeveloped floors located above the highest storey or half-storey, or adjacent to a half-storey with a ceiling height of less than 1.2 m, and to which there is no permanent means of access other than a hatch;
- (c) where floors or portions of floors, not exceeding 7.3 m in length, are located in an accessory building or infill building, and are used for off street parking or loading;
- (d) basements in principal buildings where the floor elevation of the first storey is located at least 1.4 m above finished grade and the basement does not extend beyond the outermost walls of the first storey, including ~~covered entries~~, porches ~~and verandahs~~, except that this exclusion will only apply to that part of basements used for parking in principal buildings if:
 - (i) there is unnecessary hardship due to the slope or configuration of the site, or because it would be necessary to alter or remove features that have heritage character or heritage value worthy of conservation, in order to accommodate parking in an accessory building,
 - (ii) the site has no lane access, and
 - (iii) the exclusion does not exceed 80.77 m²;
- (e) basements or cellars in protected heritage property, except that this exclusion will only apply to that part of basements or cellars used for parking in protected heritage property if:
 - (i) there is unnecessary hardship due to the slope or configuration of the site, or because it would be necessary to alter or remove features that have heritage character or heritage value worthy of conservation, in order to accommodate parking in an accessory building, and
 - (ii) the exclusion does not exceed 80.77 m²;
- (f) ~~covered entries, porches or verandas and covered porches above the first storey or sleeping porches that are located at or above the first storey, if provided that:~~
 - (i) the ~~entry, porch or verandah~~ is open and protected by ~~_guards_ rails the height of which that must do~~ not exceed the ~~required minimum height specified in the Building By Law, _ and~~
 - (ii) the total area ~~of this exclusion being excluded~~ does not exceed 20% of the ~~permitted floor area being provided; and~~
- (g) ~~unconditioned floor areas with a ceiling height or height to the underside of joists less than 2.0 m, located below the floors of entries, porches and verandahs complying with subsection 4.7.3(f), to which there is no access from the interior of the building; and~~
- (gh) for protected heritage property that is conserved, the floor area of a Coach House to a maximum of 63.7 m².

4.7.5 The Director of Planning may vary the requirements of section 4.7.3(c) if, in the opinion of the Director of Planning:

- (a) the resulting building massing does not overshadow or adversely affect the site or neighbouring sites;
 - (b) the excluded floor area enhances the design, liveability, and architectural expression of the building; and
 - (c) the excluded floor area enhances the heritage character and heritage value of the area; and
- the total excluded area does not exceed 37 m².

4.8 Storm Water Storage and Impermeability

4.8.1 This section applies to a permit for any development that:

- (a) increases the impermeable area of a site existing as of May 11, 1982, by more than 1% of the site area; or
- (b) creates a community care facility, group residence, multiple conversion dwelling, infill one family dwelling or infill two-family dwelling.

4.8.2 For the purposes of determining whether or not a development would increase the impermeable area of a site, the following definitions apply:

- (a) “impermeable area” means the projected area of the outside of the outermost walls of all buildings including carports, ~~covered-entries~~, porches and ~~entries~~verandahs, asphalt, concrete, brick, stone, and wood; and
- (b) “permeable area” means gravel, river rock less than 5 cm in size, wood chips, bark mulch, wood decking with spaced boards and other materials that, in the opinion of the Director of Planning, have fully permeable characteristics when placed or installed on grade with no associated layer of impermeable material, such as plastic sheeting, that would impede the movement of water directly to the soil below.

4.8.3 The Director of Planning must not issue a permit referred to in section 4.8.1, unless the property owner has first entered into a storm water storage agreement, to the satisfaction of the Director of Legal Services and the City Engineer, to:

- (a) construct a storm water storage system on the site that is designed and certified by a professional engineer to meet the following criteria:
 - (i) a minimum storage capacity equal to the volume of water that would be present if water 15 mm deep covered the entire site, and
 - (ii) equipped with a device to restrict the maximum storm water flow from the site into the public sewer to 17.5 litres per second per hectare of site area;
- (b) maintain the storm water storage system at the expense of the owner;
- (c) grant a statutory right of way and equitable charge to the City; and
- (d) release and indemnify the City from all liability related to the storm water storage system.

4.15 Dwelling Unit Density

4.15.1 The permitted number of dwelling units for multiple conversion dwellings is in accordance with the following table, except that a dwelling unit in a Coach House is excluded from the calculation of the permitted number of dwelling units:

Number of Dwelling Units	Minimum Site Area Required in sq. ft.	Minimum Site Area Required in m ²
2	15 000	1 394
3	30 000	2 878
4	40 000	3 716
4	50 000	4 645

- 4.15.3 Despite sections 4.15.1 and 4.15.2, the Director of Planning may increase the permitted number of dwelling units by one additional dwelling unit, if the Director of Planning first considers:
- all applicable policies and guidelines adopted by Council;
 - the submissions of any advisory group, property owner or tenant;
 - the effect of any additional on-site parking on mature trees, existing gardens and landscape design; and
 - the effect of the additional unit on the protected heritage property.

4.16 Building Depth

- 4.16.1 The building depth must not exceed 40% of the depth of the site, measured in a straight line parallel to the side property line, from the required front yard to the required rear yard, except that where an existing building encroaches into the required front yard, the distance must be measured from the front exterior wall rather than the required front yard.
- 4.16.2 Projections into the front and rear yards that are permitted under Sections 4.4.2, 4.5.2, and 4.6.2 must not be included in the calculation of building depth.

4.16.3 The Director of Planning may permit an increase in the maximum permitted building depth requirements in section 4.16 if the Director of Planning first considers:

- all applicable policies and guidelines adopted by Council;
- the submissions of any advisory group, property owner or tenant;
- the height, bulk, location and overall design of the building or buildings and the effect on the site, surrounding buildings, neighbouring sites, streets and views;
- the amount of open space; and
- the preservation of the heritage character and heritage value of the area; and

the increase does not exceed 50% of the building depth requirements in this Schedule.

5 Relaxation of Regulations

- 5.1 The Director of Planning may relax the front, side, and rear yard requirements in sections 4.4, 4.5, and 4.6 if, in the opinion of the Director of Planning, there is unnecessary hardship due to the configuration of the site and the Director of Planning first considers:
- all applicable policies and guidelines adopted by Council;
 - the submissions of any advisory group, property owner or tenant;
 - the height, bulk, location and overall design of the building or buildings and the effect on the site, surrounding buildings, neighbouring sites, streets and views;
 - the amount of open space; and
 - the preservation of the heritage character and heritage value of the area; and

the relaxation does not exceed 60% of the front, side, or rear yard requirements in this Schedule.

~~5.2 The Director of Planning may relax the building depth requirements in section 4.16 if the Director of Planning first considers:~~

- ~~(a) all applicable policies and guidelines adopted by Council;~~
- ~~(b) the submissions of any advisory group, property owner or tenant;~~
- ~~(c) the height, bulk, location and overall design of the building or buildings and the effect on the site, surrounding buildings, neighbouring sites, streets and views;~~
- ~~(d) the amount of open space; and~~
- ~~(e) the preservation of the heritage character and heritage value of the area; and~~

~~the relaxation does not exceed 50% of the building depth requirements in this Schedule.~~

~~5.3 The Director of Planning may relax the maximum building footprint in section 4.2.4 if the Director of Planning first considers:~~

- ~~(a) all applicable policies and guidelines adopted by Council;~~
- ~~(b) the submissions of any advisory group, property owner or tenant;~~
- ~~(c) the height, bulk, location and overall design of the building or buildings and the effect on the site, surrounding buildings, neighbouring sites, streets and views;~~
- ~~(d) the amount of open space; and~~
- ~~(e) the preservation of the heritage character and heritage value of the area; and~~

~~the relaxation does not exceed 20% of the maximum building footprint in this Schedule.~~

~~5.4 The Director of Planning may relax the requirements of section 4.7.3(c) if, in the opinion of the Director of Planning:~~

- ~~(a) the resulting building massing does not overshadow or adversely affect the site or neighbouring sites;~~
- ~~(b) the excluded floor area enhances the design, liveability, and architectural expression of the building; and~~
- ~~(c) the excluded floor area enhances the heritage character and heritage value of the area; and~~

~~the total excluded area does not exceed 37 m².~~

~~5.25~~ The Director of Planning may relax any regulation in this District Schedule, apart from those regulations regarding use or density, with respect to protected heritage property that is conserved, if, in the opinion of the Director of Planning, the protected heritage property is conserved and the proposed development will make a contribution to conserving heritage property, except that, before granting a relaxation under this section, the Director of Planning must consider:

- (a) the submissions of any advisory group, property owner or tenant; and
- (b) the intent of this District Schedule and all applicable Council policies and guidelines.

CENTRAL WATERFRONT OFFICIAL DEVELOPMENT PLAN

(Adopted by By-law No. 5261, June 19, 1979)

Section 4 Sub-area Development Guidelines

Intent

The sub-area development guidelines provide more detailed guidance with respect to the development of the two sub-areas which have been identified within the Central Waterfront.

Central Waterfront Sub-areas

[Sub-areas 1 and 2 deleted - see CH ODP] Sub-area 3 --

Burrard Street to Seymour Street Sub-area 4 -- Seymour

Street to Gore Avenue

Identification of these two sub-areas is based on:

1. existing land use;
2. relationship to existing character areas of Downtown and Gastown;
3. projected future land use.

Except for the westerly boundary which follows the Coal Harbour ODP zoning boundary at the foot of Burrard Street, the boundaries of the sub-areas are determined by the northerly extension of the centrelines of the respective boundary streets noted above. However, as development occurs these may require, for planning or administrative purposes, redefinition by amendment to this plan or adoption of specific Area Development Plans.

Central Waterfront Sub-areas

The operation and development of port and rail facilities within the Central Waterfront are under the separate jurisdictions of the Vancouver Port Corporation and Canadian Pacific and thus are not legally bound by “development guidelines” as contained in this section. However, both Vancouver Port Corporation and Canadian Pacific officials have expressed their commitment to co-operate in achieving the intent of these “development guidelines” which represent the consensus of the property owners and public authorities.

Interpretation and Change

The development guidelines are subject to interpretation by the Development Permit Board. They may be amended, if necessary, by amending this Official Development Plan By-law. They may also be amended when necessary through the Area Development Plan process as described in section 1 “Application and Intent” under the heading “Area Development Plan”.

- 4.1 [Deleted - see CH ODP]
- 4.2 [Deleted - see CH ODP]

4.3 Sub-area 3 - Burrard/Seymour

Uses

In addition to the continuing port and rail uses, this area should retain and expand its current transportation role. Facilities such as the passenger terminal, ferry system and commuter rail should be integrated with future transit systems to create an efficient transportation interchange. Commercial uses such as retail facilities, hotels, and entertainment/cultural facilities, should be incorporated to serve the surrounding population and visitor needs and provide the much needed activity node for this part of the Central Area.

Other potential uses would include those which are similar in character or customarily accessory to the above.

Density

Maximum land development density for urban use in this sub-area should be 3.5 F.S.R. gross maximum with office-commercial density not exceeding 3.0 F.S.R. gross.

The Development Permit Board may permit an increase in the floor space ratio for hotels provided that:

- (a) the increase in no case exceeds a maximum of 15% of the floor area of that portion of the building having floor-to-floor dimensions of less than 10 feet and used for guest accommodation and ancillary corridors, access and service areas;
- (b) it first considers the impact of additional density on built form, neighbouring sites and buildings, livability, views, shadowing and local pedestrian and vehicular circulation; and
- (c) it first considers all applicable policies and guidelines adopted by Council.

For density calculation purposes, the maximum gross land development area within this sub-area should not exceed 12 acres (excluding Canada Place). The maximum development potential for Canada Place will be further reviewed at a time when there is a definitive redevelopment proposal.

Physical Form

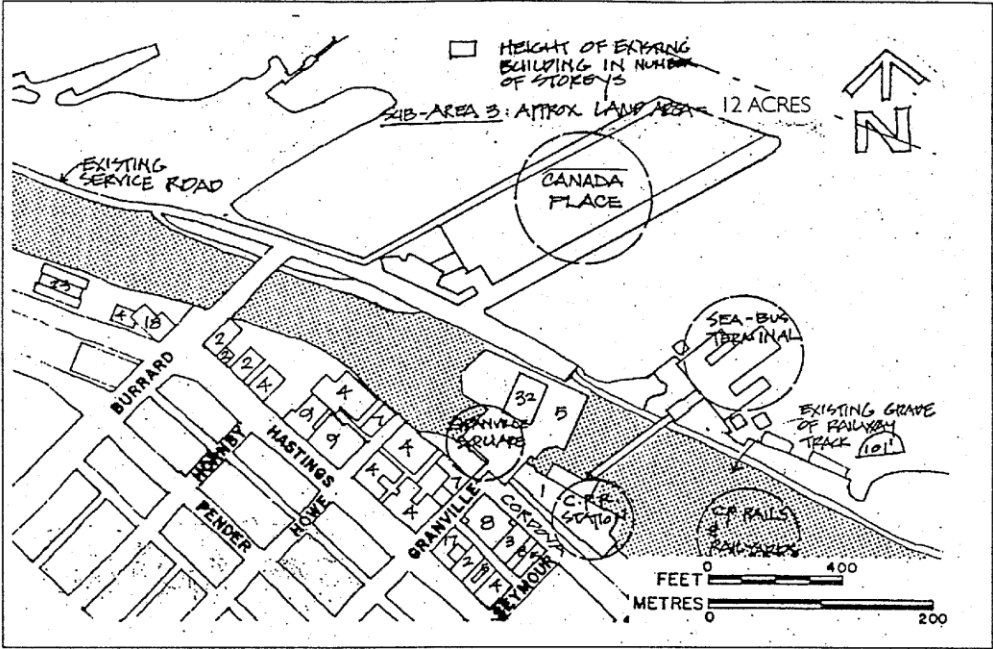

Slender building forms rather than bulky masses would maximize view potential of the waterfront activities from nearby Downtown buildings. Building height should not exceed 230 feet as measured from the existing grade level of the railway track (level 101). Existing street-end views at Howe and Granville Streets and the view from Granville Square toward the harbour ferry terminal should be preserved.

However, in order to provide further flexibility for quality development, the Development Permit Board may, under special circumstances, ~~relax~~ vary the “height” and/or “street-end view” guidelines as follows:

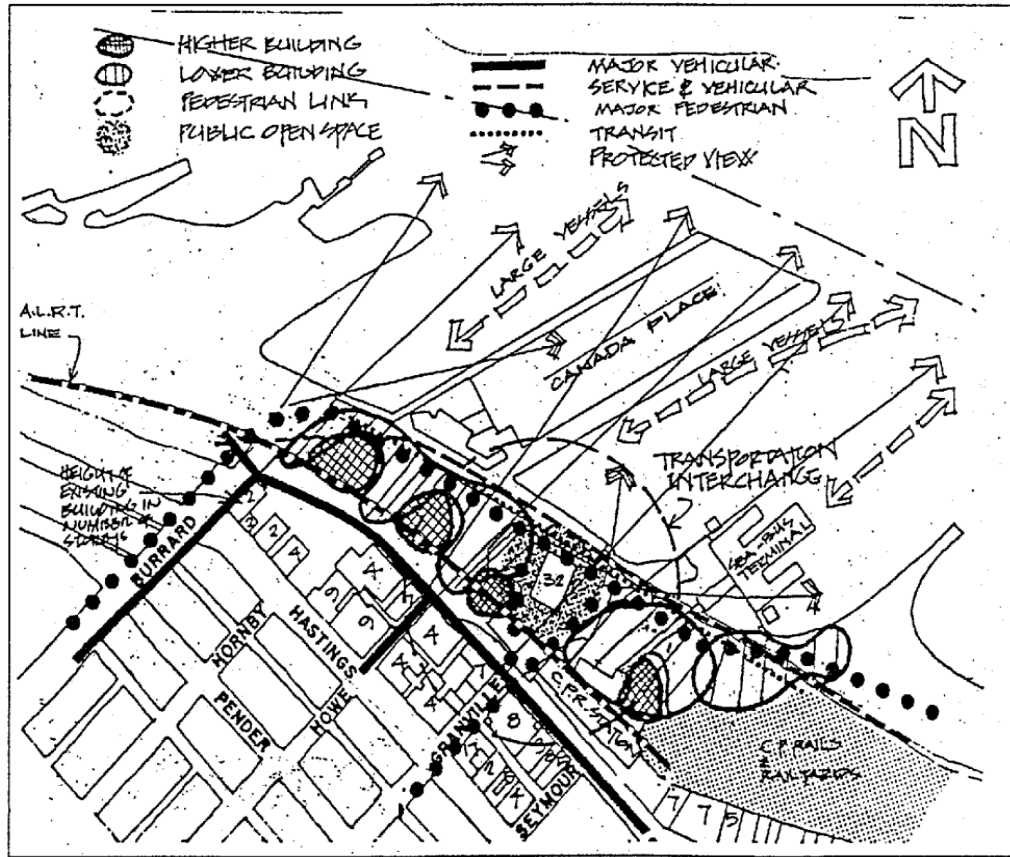

- (a) height — the Development Permit board may permit buildings which exceed the height of 230 feet after taking particular account of the overshadowing, view obstruction and other related environmental criteria; however, in no case shall the maximum height as may be permitted exceed 300 feet;
- (b) street-end view — the Development Permit Board may permit reduction of an existing street-end view if it can be demonstrated to the satisfaction of the Board that:
 - (i) the view reduction is essential to the overall quality of the waterfront development; and/or
 - (ii) the view reduction is not detrimental to the overall quality of the existing street-end view from Downtown and Gastown; and/or

- (iii) the physical design of the portion of the waterfront development which causes the view reduction is of high quality and will enhance the physical character of the immediate surroundings; and/or
- (iv) an alternative access to view the waterfront activities, Burrard Inlet and the North Shore mountains is provided as a trade-off at a location in the vicinity of the particular street-end and is easily accessible to the public from Downtown and Gastown.

Existing (as of November 6, 1990)

Proposed (as of November 6, 1990)

Public Open Space

Existing public open space at Granville Square should be integrated with the proposed Burrard Street-end open space to create a highly urban open space system. Further development of the existing Granville Square Plaza to orientate more effectively to pedestrian uses in terms of scale and weather protection would increase the overall usability of that area.

Movement Pattern

Vehicular/Transit/Railway

Automobile access should primarily be from the Cordova Street extension. Seymour and Howe Streets should replace Granville as the primary traffic linkage to the Cordova Street system.

The continuous service vehicle route should be provided at the same level as the railway track.

Waterfront transit should be integrated into the transportation interchange.

The existing railway will remain to serve the commuter rail system, trans-continental passenger train operations and freight rail services.

Pedestrian access to the light rapid transit system should be provided from the transportation interchange.

Pedestrian

Primary pedestrian access should be from Granville Street through Granville Square.

Other existing adjacent north-south street ends should be linked for secondary access through new developments to the waterfront.

Parking and Loading [See also Parking By-law.]

For the purpose of this section 4.3, “grade” shall mean the curb level of public roadways adjoining the development site, excluding the Waterfront Service Road at Elevation 101, except that for that portion of Sub-area 3 situated to the north and east of the existing Granville Square development, “grade” shall mean Elevation 132.

Where parking is required or provided, it shall be regulated as follows:

- (a) Parking facilities shall not obstruct existing major public views from the Downtown District toward Burrard Inlet and the North Shore Mountains, including prescribed street-end views, and shall not obstruct views to Burrard Inlet and Canada Harbour Place Plaza from grade or above-grade public rights of way and public open spaces within the Central Waterfront.
- (b) No parking shall be located above grade, except that the Development Permit Board may permit the partial protrusion above grade of one level only of the parking facilities, subject to the following conditions:
 - (i) that such protrusion does not interfere with any of the above-prescribed protected view areas and corridors,
 - (ii) that such protrusion is adequately screened from public view through the use of landscape, architectural treatment, or both or wherever possible through the use of retail or restaurant facilities as screening devices.
- (c) Parking facilities shall not prevent the provision of enclosed or weather protected pedestrian connections in the following locations:
 - (i) between the ALRT SeaBus Concourse under Howe Street and Block 15 (Sinclair Centre); and
 - (ii) between the ALRT SeaBus Concourse under Howe Street and Project 200 Tower 2; and
 - (iii) between the ALRT SeaBus Concourse under Howe Street and the Marathon site west of Howe Street; and
 - (iv) between the ALRT SeaBus Station easterly entry and the existing SeaBus ferry dock passenger loading areas.
- (d) Parking facilities shall include a component of short-term public parking equivalent to a minimum of 25% of the total number of parking spaces required or provided, to be secured by a limit on the total number of long-term reserved spaces. The location of reserved spaces shall be to the satisfaction of the Development Permit Board to ensure that the short-term public parking spaces are easily accessible to the public.
- (e) Parking facilities shall be provided with a stair exit facility conveniently situated for ease of access to major public open spaces within the development site.
- (f) All parking areas which comply with the above regulations shall be excluded from the calculation of floor space ratio.
- (g) Except for port-related uses, where loading facilities are visually exposed to either streets or public pedestrian walkways space, such exposed areas of loading shall be adequately screened from public view through the use of landscape, architectural treatment, or both.

Shoreline

Limited filling and excavation would be permitted in this sub-area in accordance with conditions set out in section 3.6 -- Shoreline.

4.4 Sub-area 4 - Seymour/Gore

Uses

Port and rail uses should continue. New urban uses should be incorporated whenever possible to create an exciting mixed environment. The Canadian Pacific railyard will remain in the foreseeable future to serve the commuter rail, trans-continental passenger and freight rail services, and no major urban development will be anticipated within this area until such rail facilities are relocated.

Other potential uses would include those which are similar in character or customarily accessory to the above.

Density

- (a) Maximum land development density for urban use in this sub-area (excluding the C.P. railyard) should be 2.75 F.S.R. gross maximum with office-commercial density not exceeding 1.25 F.S.R. gross.

For density calculation purposes, the maximum density permitted within this sub-area will be based on both the existing land area (excluding the C.P. railyard) and future approved land fill.

- (b) Maximum development density for urban use within the C.P. railyard prior to its relocation should be 0.75 F.S.R. gross maximum with office-commercial density not exceeding 0.35 F.S.R. gross.

For density calculation purposes, the existing land area within the C.P. railyard equals 12 acres.

When the C.P. railyard facilities are relocated, the above densities for maximum urban development should be reviewed.

Physical Form

The historic character and physical scale of the adjacent Gastown buildings should be respected in the future development of the area. New development should be small-scale not more than 60 feet high as measured from the existing grade of the railway track (level 101) so as to be in scale with adjacent Gastown. The pedestrian-oriented environment as existing in Gastown should be continued through to this area.

Views of Burrard Inlet and the North Shore mountains currently existing at the street-ends of Cambie, Abbott, Carrall and Columbia Streets, should be preserved, particularly at Carrall Street which is a major pedestrian link to Downtown and Chinatown. It is recognized that most of the existing street-end views are very often reduced by the existing rail activities at the C.P. railyard since there is no escarpment in this part of the waterfront. The north end of Main Street should accommodate a viewing area with a panoramic view potential westward towards the entire Central Waterfront plus major access to the continuous vehicular route.

In order to provide further flexibility for quality development, the Development Permit Board may, under special circumstances, ~~relax~~ vary the “height” and/or “street-end view” guidelines as follows:

- (a) height — the Development Permit board may permit buildings which exceed the height of 60 feet after taking particular account of the overshadowing, view obstruction and other related environmental criteria;
- (b) street-end view — the Development Permit Board may permit reduction of an existing street-end view if it can be demonstrated to the satisfaction of the Board that:
 - (i) the view reduction is essential to the overall quality of the waterfront development; and/or
 - (ii) the view reduction is not detrimental to the overall quality of the existing street-end view from Downtown and Gastown; and/or
 - (iii) the physical design of the portion of the waterfront development which causes the view reduction is of high quality and will enhance the physical character of the immediate surroundings; and/or
 - (iv) an alternative access to view the waterfront activities, Burrard Inlet and the North Shore mountains is provided as a trade-off at a location in the vicinity of the particular street-end and is easily accessible to the public from Downtown and Gastown.

Public Open Space

Public open space should be provided at the foot of Main Street, Columbia Street and Carrall Street. Such spaces should expand the maritime flavour of this area and optimize pedestrian contact with maritime activities. A series of small open spaces linked by pedestrian routes would create visual interest and would be more in scale with future redevelopments in this area. Segregation of pedestrian open space from certain essential port facilities will be necessary for the safety of pedestrians and the security of the operations.

Movement Pattern

Vehicular/Transit/Railway

Automobile ingress/egress should be from Main Street with secondary access from Gore Avenue if possible.

The service vehicle route should be continuous with ingress/egress at Main Street. Due to the constraint of the existing C.P. rails and railyard, the alignment of the service route in this sub-area may need to be located closer to the shoreline.

A waterfront transit stop may be located near the east end of this sub-area.

The existing railway will remain in the foreseeable future to serve the commuter rail system, trans-continental passenger train operations and freight rail services.

Pedestrian

Primary pedestrian access should be from Main, Columbia and Carrall Streets, continuing the existing pedestrian flow from Gastown and Chinatown.

Pedestrian access west of Carrall Street would depend upon the future status of the railway tracks. However, every effort should be directed toward providing pedestrian access through future developments into the waterfront. Opportunities should also be taken to link existing pedestrian nodes such as Gaslight Square to waterfront developments.

[Parking and Loading deleted -- see Parking By-law.]

COAL HARBOUR OFFICIAL DEVELOPMENT PLAN

(Adopted by By-law No. 6754, November 6, 1990)

3.2.7 Parks and Public Open Space

It is intended that parks be distributed throughout the area as a focus of each neighbourhood. The size, location, and configuration shall meet the needs of residents and workers, provide attractions for visitors and take full advantage of the waterfront environment.

The use, design, materials, and construction specifications of each park shall be determined by the Park Board in consultation with the Director of Planning, Superintendent of Schools, and the City Engineer at the sub-area zoning stage. Land devoted to parks is to be useable for park and community purposes. Slopes between adjacent development parcels and parks that are required to meet park grades shall generally occur on the development parcels.

Neighbourhood parks should preferably be located at natural grade, but could be associated with private or public parking structures because of the new base surface proposed for the site. The land on which the park and any supporting structures are constructed shall be dedicated to the City. Parks with structures within them shall be able to accommodate all landscaping and other features normally included in a park.

At least 6.48 hectares of public open space and parks shall be provided, of which 4.19 hectares shall be dedicated for neighbourhood parks. These parks and open space provisions shall be located as illustrated on Figure 7. In addition, a continuous waterfront walk having a minimum width of 7.6 metres shall be provided as illustrated on Figure 9C. Adjacent to the walkway, buildings shall be set back a minimum of 7.6 metres from this walkway, and this area shall be appropriately landscaped and treated so as to enhance the walkway. ~~Minor relaxation~~ A minor variation may be permitted to the required setback to achieve public interest or urban design objectives.

The property owner shall provide the sites and full development of neighbourhood parks at no cost to the City.

3.2.8 Provision and Phasing of Parks and Community Facilities

Parks, the community centre, the community components of the school, and child care facilities shall be completed and conveyed to the satisfaction of the City and school sites shall be made available to the School Board generally in accordance with the phasing as illustrated in Figure 8. Specific sites for cultural, institutional, and other community facilities shall be allocated at the sub-area zoning stage. Agreements securing the provision and construction of parks and community facilities will be required prior to the enactment of sub-area zonings.

A temporary waterfront walkway accessible to the public shall be constructed and maintained by the developer along or as close to the water's edge as is considered safe for the public in regard to rail and industrial operations, with the width and location of the walkway to be to the City's satisfaction. This walkway shall extend between Burrard Street and Cardero Street, as a condition

of enactment of the first sub-area zoning. After rail removal, the section of the temporary walkway generally to the east of Jervis Street located away from the shoreline shall be relocated adjacent to the water's edge, as a condition of enactment of the next sub-area zoning.

3.2.9 Convention and Exhibition Centre

The commercial precinct between Burrard and Thurlow Streets may include a convention and exhibition centre. If the convention and exhibition centre is constructed, the full floor area of other uses permitted in the relevant sub-area of that precinct shall be reallocated to accommodate this use and related commercial uses, not including office or hotel. An additional maximum of 23 225 square metres of floor area may also be permitted to accommodate an exhibition hall as an integral part of a convention and exhibition centre. The use shall be integrated to provide a transition between the urban environment of the adjacent downtown and the adjoining amenities of the waterfront, port and water uses, Harbour Green Park and a major public institutional facility (arts complex).

3.3 Movement

A variety of means of moving through the area including streets, walkways, bicycle routes, and transit shall be provided. Bus routes shall be jointly determined by the City and B.C. Transit as ridership is generated by completed developments. Passenger ferries along the Coal Harbour waterfront shall also be considered.

Movement facilities, routes and patterns of dedicated rights-of-way and improvements shall be integrated with the adjacent city development.

A right-of-way for a public transit system linking activity centres throughout the Downtown core shall be reserved through the Coal Harbour area. The right-of-way shall allow for a variety of transit modes. A lower level street system as far as Thurlow Street shall be provided to meet port and commercial area servicing needs. A lower level driveway arrangement shall be considered to service the escarpment properties no more westerly than Bute Street. Ramp connections between these upper and lower level systems shall be integrated with the surrounding environment and be as unobtrusive as possible.

A lower level street system as far as Thurlow shall be provided to meet port and commercial area servicing needs. A lower level driveway arrangement shall be considered to service the escarpment properties no more westerly than Bute Street. Ramp connections between these upper and lower level systems shall be integrated with the surrounding environment and be as unobtrusive as possible.

These facilities shall be adequate to serve the needs of the population and be generally as illustrated on Figures 9A, 9B and 9C. Streets, walkways, and bicycle routes shall be designed, constructed, and conveyed by the owner. Agreements securing the design, construction, and conveyance of these facilities will be required prior to the enactment of the first sub-area zoning. The developer will be obligated to construct the streets and utilities in phases which will be specified for the range of sub-area rezoning phasing possibilities.

Prior to processing a sub-area zoning and application for the Coal Harbour development site, a comprehensive traffic and transit study shall be completed to determine the impact of the Coal Harbour development on new and existing streets and transit systems, and the traffic situation in this area shall be regularly monitored with a report back to Council at least prior to each sub-area zoning stage.

3.4 Parking and Loading

Parking and loading shall be adequate to serve all uses. Visitor parking shall be provided and clearly identified. Parking and loading requirements will be determined with each sub-area zoning.

3.5 Views

The development of Coal Harbour shall preserve views and maximize potential views of the city’s natural setting and unique features contributing to its special identity, as follows:

Public Street End Views:

All northerly corridor views along existing Downtown north-south streets to the water and mountains shall be maintained. Minor intrusions into the Burrard and Thurlow Street-end view corridors shall be permitted for floating marine vessel berths, and for minor building and landscape elements providing public amenity.

A minimum 5 degree view angle from each side of the extension of existing downtown streets shall be taken from the following positions, which vary according to the street location along the waterfront:

- Burrard Street: from the south side of Cordova Street extension at the intersection with an extension of the Burrard street property line of the property north of the Cordova Street extension;
- Burrard, Thurlow and Bute Streets; from the south side of the Cordova Street extension;
- Jervis Street – for buildings above 10.7 m in height; from the north side of the Hastings Street extension at the corner cut-off junction points; for buildings up to 10.7 m in height, from the south side of the Cordova Street extension;
- Broughton and Nicola Streets; from the south side of the Hastings Street extension;
- Cardero Street; from a point midway between the north side of Georgia Street and the north side of the waterfront loop road alignment east of Cardero Street.

The new base surface and street grades should be contoured to maximize preservation of views downward to the water from north-south streets.

Public Open Space Views:

New opportunities should be provided in new development to view waterfront activities, Stanley Park and/or the North Shore mountains wherever possible. In particular, views from existing public places such as Portal Park should be protected. Some panoramic views should be maintained to at least 45 degrees.

The development should preserve major view corridors towards Stanley Park. The development should preserve reasonable northerly and Stanley Park views from all existing buildings and publicly accessible plazas.

Landmark Views:

New development should respect views to important landmarks, such as the Marine Building and Canada Place ‘sails’.

Private Views:

The new private views created for the on-site development should also allow for preservation of some private views from existing and likely future development south of the site.

The minimum extent of public views to be protected and created is illustrated on Figure 10A. Other public open space and landmark views that will be confirmed at the sub-area zoning stage are illustrated on Figure 10B. Additional public and private views may be required as a result of sub-area zoning analysis to meet the above intents.

3.6 Building Height

No building shall exceed 100 metres in height, except as noted below, and except roof projections may be permitted above this height, provided that they do not contain habitable space and are designed as capping elements complementary to the design of the building. Heights shall be varied and sculpted to respond to public open spaces and to enhance the sense of the water basin. Generally, buildings shall step back from the shoreline, with the higher buildings located at the easterly end of the area, and lower buildings at the westerly edge. In the Harbour Green residential precinct (area 2) the maximum building height may be ~~relaxed by up to 10 percent~~ **increased by up to 10 percent** and in the Burrard Landing mixed-use hotel/commercial precinct (area 3) the maximum building height may be ~~relaxed up to 137 m~~ **increased up to 137 m** if, in both cases, improvements to the criteria noted below can be demonstrated.

Building heights shall be measured from new adjacent street grades, if specified in the CD-1 By-law, or the new base surface, such surface configured to ensure gradual transitions from the downtown grade to the waterfront edge.

The heights for lower level commercial office buildings between Thurlow and Burrard Streets should relate to the heights and cornice lines of adjacent older buildings, and shall in no case exceed a maximum height of 30 metres or 6 storeys, whichever is less.

Building heights for specific locations will be determined in each sub-area zoning, having regard to the Illustrative Plans described in Section 6 and:

- (a) public and private views, including views created by the development form;
- (b) shadowing of public and private open spaces and streets;
- (c) privacy;
- (d) effects on the scale and character of open spaces; and
- (e) form relationships to nearby buildings.

Downtown Official Development Plan

Application and Intent

A By-law to regulate the development of that part of the City of Vancouver for which the Zoning District is described as “Downtown District (DD)”.

Downtown District

The Downtown District is the regional centre of commercial development.

It contains the greatest concentration of the working and shopping public within the region.

The well-being of this concentration of people requires more than the customary regulatory mechanisms in order that the buildings, the open spaces, the streets, the transportation systems and other components of the urban scene can be arranged appropriately for the benefit of the general public.

The intent, in the adoption of this Official Development Plan and the accompanying guidelines, is as follows:

- (1) to improve the general environment of the Downtown District as an attractive place in which to live, work, shop and visit;
- (2) to ensure that all buildings and developments in the Downtown District meet the highest standards of design and amenity for the benefit of all users of the Downtown;
- (3) to provide for flexibility and creativity in the preparation of development proposals;
- (4) to encourage more people to live within the Downtown District;
- (5) to support the objectives of the Greater Vancouver Regional District as referred to in “The Livable Region 1976/1986” as issued March 1975, to decentralize some office employment to other parts of Greater Vancouver by discouraging office developments considered inappropriate in the Downtown District;
- (6) to improve transportation downtown by encouraging greater transit usage, discouraging automobile usage for journeys to work, and by maintaining automobile access for non-work trips including shopping, business and entertainment;
- (7) to create a distinctive public realm and a unique and pleasing streetscape in the Downtown District.

The Official Development Plan By-law provides the general framework for the preparation of development plans for all individual buildings or complexes of buildings.

Development permit applications will be made in accordance with the procedures in the Zoning and Development By-law No. 3575.

Consideration of any development permit application will be based upon the regulations and requirements of the Official Development Plan and all applicable policies and guidelines adopted by Council.

A significant degree of flexibility is given to architects and others in the preparation of development proposals. A significant degree of discretion is also given to the Development Permit Board in the interpretation of regulations, policies and guidelines.

Guidelines approved by Council form an integral part of the development control procedure for the Downtown District.

In approving any development permit application within the District, the Development Permit Board shall be satisfied that the spirit and intent of such guidelines has been fulfilled.

Interpretation

A distinction is drawn in this By-law between regulations and interpretive requirements as follows:

1. Regulations are set out for land use; maximum and minimum standards for building density in terms of floor space ratio; maximum standards for parking and minimum requirements for loading.
2. Interpretive requirements are set out with respect to the permitted height of buildings, social and recreational amenities and facilities.

In the design and/or approval of individual developments variations are permitted in the interpretive requirements.

The Development Permit Board, in the exercise of its jurisdiction, may relax the provisions of this Plan in any case where literal enforcement would result in unnecessary hardship. In granting any relaxation, the Board shall have regard to the intent and policies of this Plan, and such other applicable policies and guidelines adopted by Council.

The Director of Planning or the Development Permit Board, as the case may be, may relax any of the provisions of this Plan where literal enforcement would result in unnecessary hardship in carrying out any restoration or renovation of buildings or sites on the Vancouver Heritage Register adopted by Council and in effect at the time of application for relaxation under this section. Any development permit issued shall specify the heritage aspects of the building or site that merit the relaxation authorized by this section. Before granting any relaxation, the Director of Planning or the Development Permit Board shall:

- (a) consider any advice from the Vancouver Heritage Commission or any other body established by Council for this purpose defining the aspects of the building or site that give it heritage merit and advising on the proposed conservation work;
- (b) notify such adjacent property owners and tenants as deemed necessary, consider the responses received, and if there is significant objection, refer the matter to Council for advice; and
- (c) consider the provisions of this Plan and all applicable policies and guidelines adopted by Council.

Section 2 – Retail Use Continuity

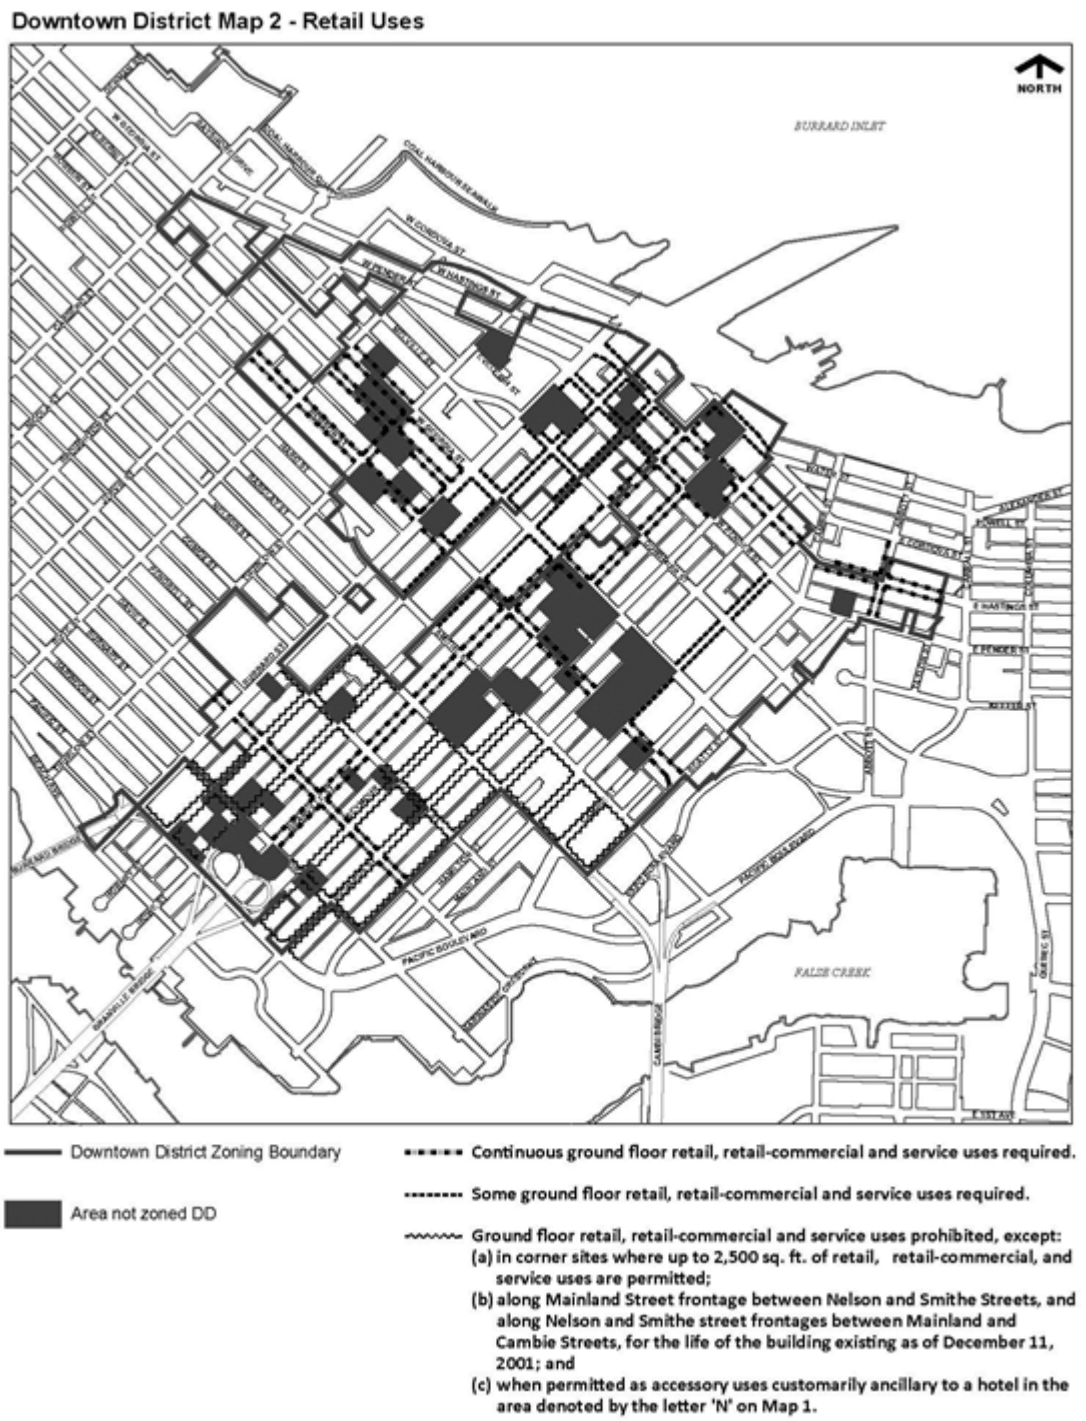

The intent of this section is to provide for retail, retail-commercial and service uses along existing and potential pedestrian routes for the interest and enjoyment of pedestrians and to identify where continuous retail and service uses are prohibited.

1. Retail, retail-commercial or service uses shall be required on the ground floor of street frontages, as designated by and in accordance with Map 2, subject to such conditions, regulations and design guidelines that apply or that may be determined by the Development Permit Board or the Director of Planning.

In cases where Map 2 designates a street frontage as requiring ‘some ground floor retail, retail-commercial and service uses’, the following shall apply:

- (a) retail, retail-commercial and service uses shall only be required where a development site has a frontage of 75 feet or more;
 - (b) in cases of sites identified in (a) above, a minimum of 25 percent of each of the development site’s frontages on streets shall contain retail, retail-commercial or service uses; and
 - (c) the Development Permit Board or the Director of Planning may waive the retail or service use requirement identified in (a) and (b) above, in cases where pedestrian interest is maintained through building design or use, and the Development Permit Board or the Director of Planning is satisfied that the building could be easily converted to retail use.
2. Notwithstanding sub-section 1, retail, retail-commercial and service uses are permitted on the ground floor of all street frontages where such uses are not otherwise prohibited by Map 2, but shall be subject to such conditions, regulations and design guidelines that apply or that may be determined by the Development Permit Board or the Director of Planning.
3. In cases where retail, retail-commercial or service uses are provided on the ground floor at the fronting street, there shall be direct pedestrian access from the street to each retail, retail-commercial or service use.
4. Notwithstanding sub-sections 1 and 3, in cases where the proposed use is located in a building or site on the Vancouver Heritage Register, the Development Permit Board or the Director of Planning may waive the requirement for continuous ground floor retail, retail-commercial and service uses and the requirement for direct pedestrian access, both subject to such conditions, regulations and design guidelines that apply or that they may determine.
5. Notwithstanding sub-section 1, the Development Permit Board or the Director of Planning may permit social, recreational, cultural, public and institutional uses where they are satisfied that there is a need for such uses, subject to such conditions, regulations and design guidelines that apply or that they may determine.
6. To increase activity on the street, retail and service uses in the areas denoted by the letters ‘K1’, ‘K2’, ‘K3’, ‘L1’, ‘L2’, ‘M’, and ‘N’ on Map 1 shall be oriented to the street frontage. Buildings with retail oriented to interior circulation, such as malls, are not appropriate except that the Development Permit Board or the Director of Planning may, in unusual circumstances, ~~relax vary~~ this sub-section 6.
7. Retail, retail-commercial and service uses shall be prohibited on the ground floor of street frontages, as designated by and in accordance with Map 2.

8. Despite anything to the contrary in this Downtown Official Development Plan, the Development Permit Board or Director of Planning may permit social service centre, general office, or health care office uses on the ground floors of buildings having street frontages on Hastings Street east of Cambie Street subject to such conditions, regulations, and design guidelines that apply or that the Development Permit Board or Director of Planning may determine.

 - B in the area denoted by the letter 'B', the total density for all permitted uses must not exceed a floor space ratio of 9.00;
 - C1 in the area denoted by the letter 'C1', the total density for all permitted uses must not exceed a floor space ratio of 7.00;
 - C2 in the area denoted by the letter 'C2', the total density for all permitted uses must not exceed a floor space ratio of 5.00;
 - C3 in the area denoted by the letter 'C3', the total density for all permitted uses must not exceed a floor space ratio of 5.00, and, for new construction, an addition to an existing building that increases the residential floor area, or a change of use in an existing building that increases the residential floor area, the total density for non-residential uses must not be less than a floor space ratio of 2.00;
 - C4 in the area denoted by the letter 'C4', the total density for all permitted uses must not exceed a floor space ratio of 5.00;
 - E in the area denoted by the letter 'E', the maximum density for any non-residential use shall be floor space ratio 3.00;
 - F in the area denoted by the letter 'F', the total density for all permitted uses must not exceed a floor space ratio of 9.00;

 - H in the area denoted by the letter 'H', the total density for all permitted uses must not exceed a floor space ratio of 6.00 except that:
 - residential uses must not exceed a floor space ratio of 3.00,
 and, for new construction, an addition to an existing building that increases the residential floor area, or a change of use in an existing building that increases the residential floor area, the total density for non-residential uses must not be less than a floor space ratio of 2.00;
 - J in the area denoted by the letter 'J', the maximum density shall be floor space ratio 3.00.
 - K in the areas denoted by the letters 'K1', 'K2' and 'K3', the maximum density for all permitted uses shall be floor space ratio 3.50, subject to the provision of retail and service uses at grade as specified in section 2;

The Director of Planning or the Development Permit Board may permit an increase in floor space ratio for a development which includes the restoration of an existing building, site, landmark or feature, if the existing building, site, landmark or feature is listed in the Vancouver Heritage Register, if Council first approves a heritage designation by-law, and if the Director of Planning or the Development Permit Board first considers:

- (a) all applicable Council policies and guidelines;
- (b) the cost and extent of the heritage restoration;
- (c) the value of the increased floor area; and
- (d) the impact of the development upon neighbourhood livability and environmental quality.

For the purpose of this subsection, heritage floor space means floor space on a site where the site or a building or a structure is designated by the Heritage By-law and, according to the development limitation mechanism regulating land for that site, is available to be transferred to another site and is located within areas shown as transfer of density areas for heritage preservation illustrated in the Transfer of Density Policy and Procedure adopted by Council and in effect at the time of application for relaxation under this section.

15. Despite subsections 1, 4, and 5, if the Development Permit Board first considers the intent of this district schedule, all applicable Council policies and guidelines and the submissions of any advisory groups, property owners or tenants, and there is no heritage floor space available for transfer, the Development Permit Board may permit an additional increase in permitted floor area of one m² for each amenity share provided to the city at no cost to the city, to a maximum increase of 10% above the maximum permitted floor space ratio.

In this by-law, amenity means conservation of protected heritage property and the cost of an amenity share is the amount specified per m² in the Heritage Amenity Share Cost Schedule set out in Table 3.1 below.

Section 4 – Height of Buildings

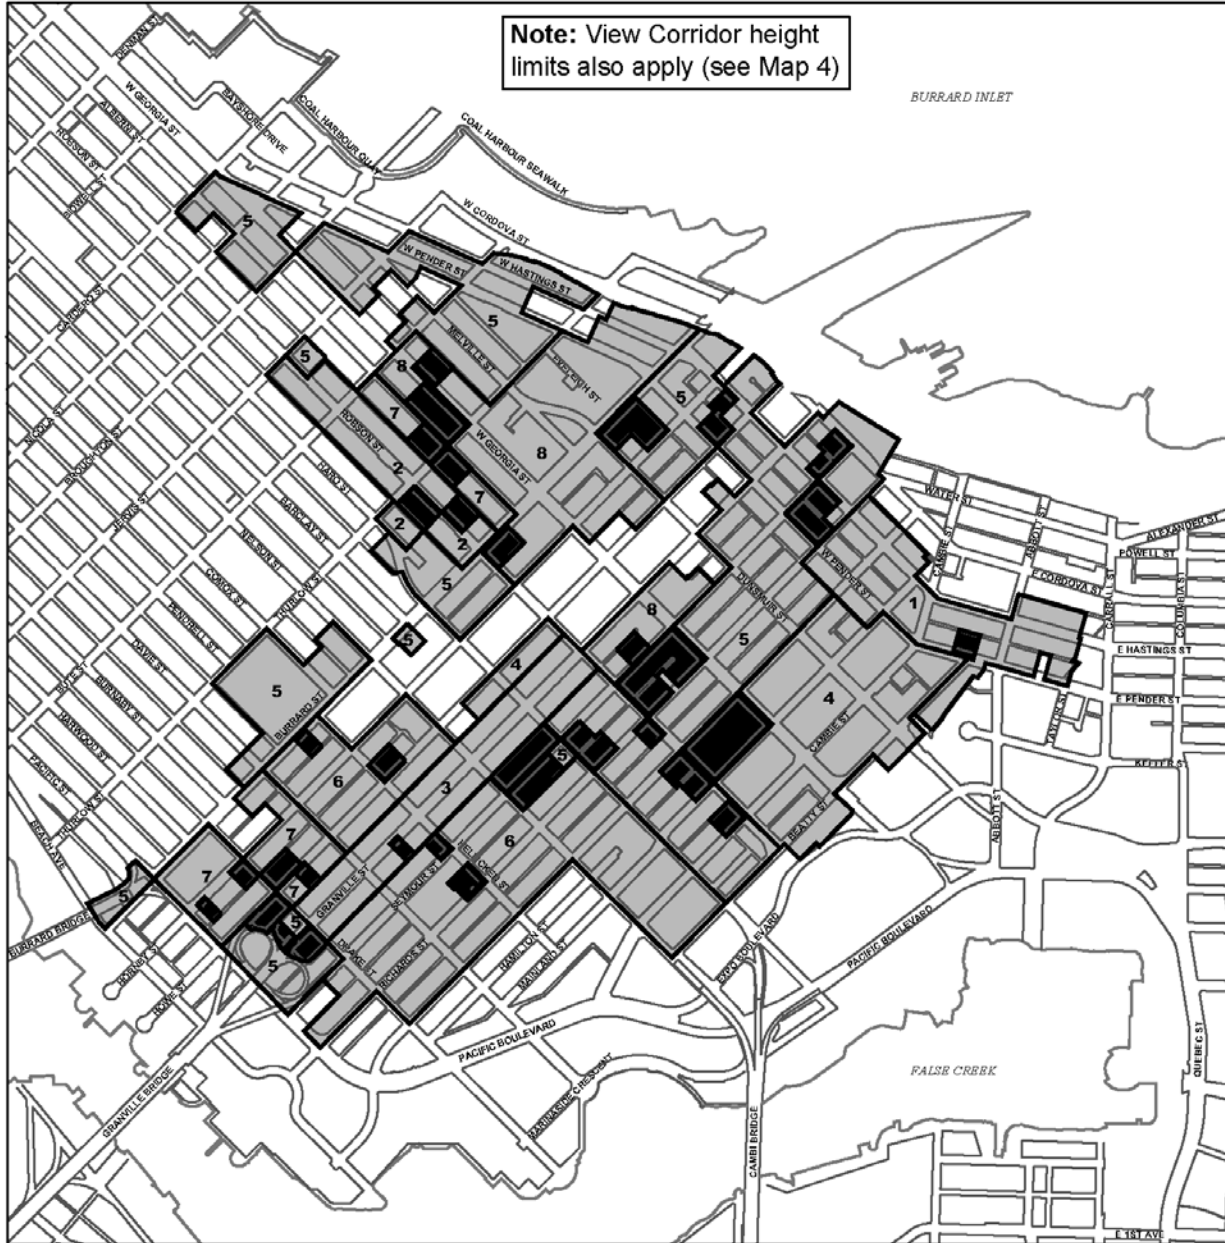

1. The purpose of this Section 4 is to ensure that the height of new development is compatible with the height of existing development.
2. The height of a building in a numbered area shown on Map 3 must not exceed the basic maximum height in Column 2 of Table 1 opposite the corresponding numbered area in Column 1 unless:
 - (a) subsection 4 of this Section 4 applies; or
 - (b) the Development Permit Board allows an increase in height under Column 3 of Table 1 opposite the corresponding numbered area or under subsection (4).
3. The criteria referred to in Column 3 of Table 1 are the size and location of the site; the relationship of the development with nearby residential areas; the intent of this Plan; Council’s policies and guidelines; the bulk, location, and overall design of the building; the building’s effect on the site, surrounding buildings, streets, and existing views; the amount of open space; the effects of overall design on the general amenity of the area; the provision of pedestrian amenities and public realm requirements; the preservation of the character and general amenity desired for the area; overshadowing and view obstruction; environmental criteria set out in Council’s design guidelines; and the submission of any advisory group, property owner, or tenant.

Section 5 – Horizontal Angle of Daylight

1. Each habitable room must have at least one window on an exterior wall of a building.
2. Each exterior window must be located so that a plane or planes extending from the window and formed by an angle of 50 degrees, or two angles with a sum of 70 degrees, will encounter no obstruction over a distance of 24.0 m.
3. The plane or planes referred to in Section 2 must be measured horizontally from the centre of the bottom of each window.
4. The Director of Planning or Development Permit Board may ~~relax~~vary the horizontal angle of daylight requirement, if:
 - (a) the Director of Planning or Development Permit Board first considers all the applicable policies and guidelines adopted by Council; and

6. A habitable room referred to in section 1 does not mean:
 - (a) a bathroom; or
 - (b) a kitchen whose floor area is the lesser of:
 - (i) 10% or less of the total floor area of the dwelling unit, or
 - (ii) 9.3 m².

Section 7 – Social, Cultural and Recreational Amenities and Facilities

It is the purpose of this section to provide in the Downtown area social and recreational amenities primarily for the enjoyment of downtown residents and employees.

- (1) facilities which provide opportunities for physical fitness;
- (2) facilities for general recreation;
- (3) facilities which provide a service to the public; and
- (4) facilities for arts and culture.

Facilities or areas which contribute to physical amenity, such as parks, plazas, arcades or ornamental elements in the landscape, are not included in this section. These items and others of a similar nature will be provided where appropriate, as part of the design of the buildings.

I. Exclusion from Floor Space Ratio

The following ancillary facilities are excluded from the floor area measurement provided that the area of such excluded facilities contained in this section does not exceed 20 percent of allowable floor space ratio or 10,000 square feet, whichever is the lesser.

List of Excluded Uses:

- (i) saunas;
- (ii) tennis courts;
- (iii) swimming pools;
- (iv) squash courts;
- (v) gymnasiums and workout rooms;
- (vi) games rooms and hobby rooms;

In determining the ~~increase in relaxation to permitted~~ floor area or density that may be authorized, the Development Permit Board shall consider:

- (a) the construction cost of the facility;
- (b) any costs to the developer of continuing maintenance required for the facility;
- (c) the rental value of the increased floor area; and
- (d) the value of any authorized relaxation of other restrictions.

If appropriate, such facilities shall be preserved in the public domain by way of a registered agreement and operated by the City or its delegates.

Section 8 – Public Realm Design

The purpose of this section is to help create distinctive areas and neighbourhoods in the Downtown through the enhancement of the public realm with special treatment of the streetscape.

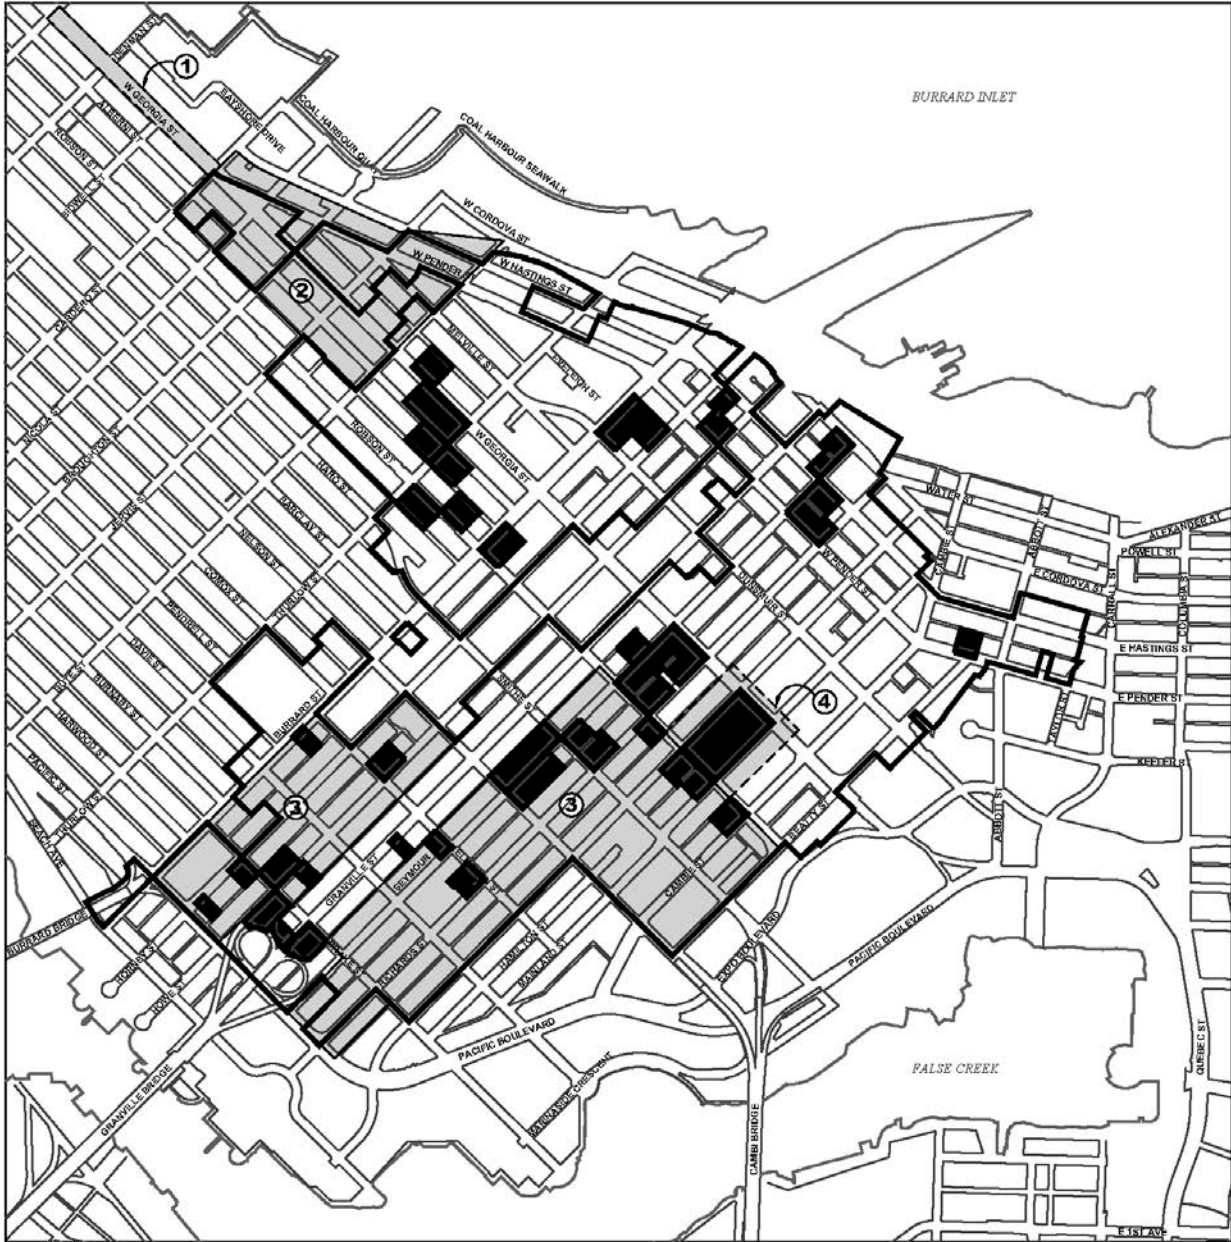

The City has developed plans and guidelines for the design of the public realm for those areas highlighted on Map 6.

In addition to park designs and the normally required street designs, special public realm designs shall be provided in the denoted areas.

Buildings, semi-public open spaces and setback areas should be designed and detailed to complement the design of the public realm. Streetscape designs as outlined in Council-adopted guidelines, manuals, and policies, will form an integral part of development permit applications.

Aspects to consider include, but are not limited to: setback requirements, paving, lighting, planting, driveway crossings, pedestrian entrances and walks, seating, display windows, weather protection, garbage storage, and loading facilities.

Section 4 Sub-area 1 Main/Hastings

4.1 Intent

The development of the Main/Hastings sub-area, outlined on Map 1, should further establish its importance as a gateway to the Downtown, and help to clarify the functions of the adjacent Historic Areas of Gastown and Chinatown and the Oppenheimer and Strathcona residential neighbourhoods.

Therefore, this area is intended to be a high-density, mixed commercial and residential area, appropriate for a mix of office, retail, local social services, and other similar uses.

Residential uses are also permitted. Pedestrian-oriented uses, primarily retail and restaurant, are encouraged at ground level with an emphasis on continuity of facade and narrow frontages for individual uses on Main Street from Hastings to Cordova and along Hastings Street from Carrall to approximately Dunlevy.

The retention and upgrading of existing multi-unit residential buildings is encouraged. The development of new residential units on upper floors of buildings is encouraged through a floor space bonus system. Special design measures, however, should be undertaken to mitigate the air and noise pollution problems.

4.2 Uses

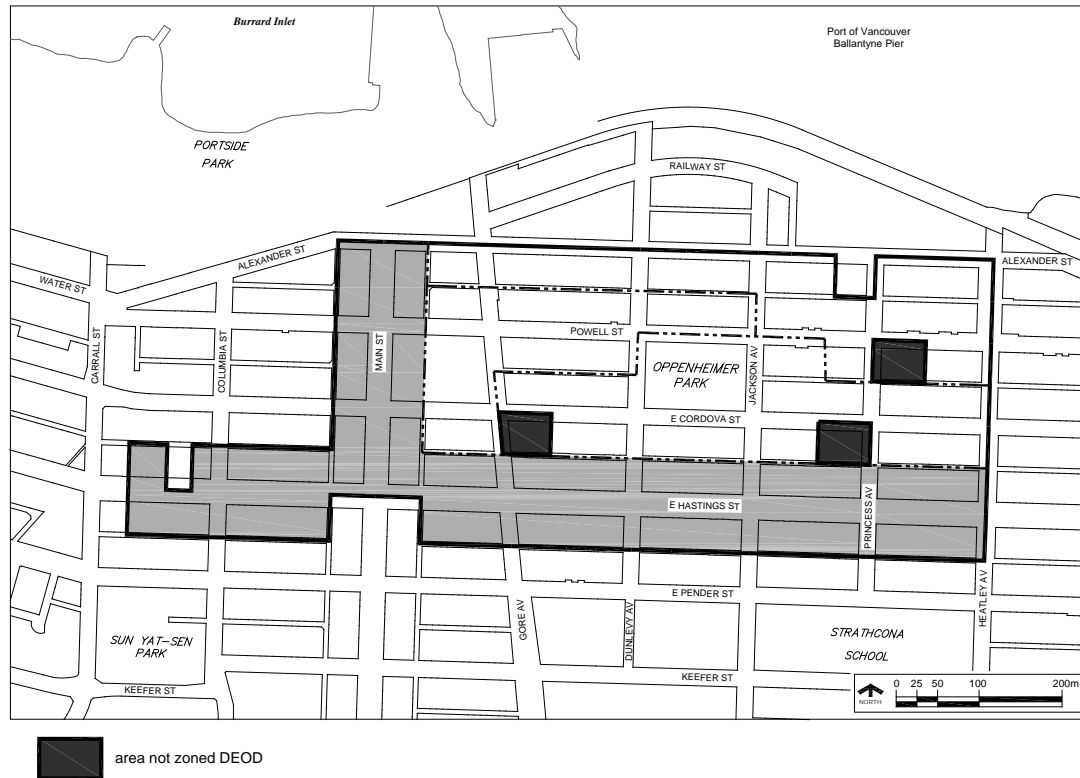

4.2.1 The following uses, and others accessory thereto, may be permitted, subject to the CONDITIONS OF USE and to such conditions or regulations as may be prescribed by the Development Permit Board:

- (a) Office commercial, except that:
 - (i) on the ground floor, any office commercial use shall be limited to a financial, law, insurance, travel agency, medical-dental or real estate office; and
 - (ii) on floors above the ground floor, construction for office commercial use shall only be permitted if a minimum of 50 percent of the floor area created after April 20, 1982 is developed for residential purposes.

- (c) Other commercial, including, but not necessarily limited to, a business or vocational school, a drama or dance academy, a billiard hall, bowling alley, steam bath, photography studio, theatre, artist studio, or sign or showcard painting, but not including a hotel, restaurant - class 2, cabaret or neighbourhood public house.
- (d) Residential, with an emphasis on self-contained units.
- (e) Micro dwelling, subject to section 11 of the Zoning and Development By-law.
- (f) Community Care Facility – Class B and Group Residence.

 - Lithography; printing; publishing; warehousing; wholesaling; food or beverage product manufacturing (but not involving the milling of grain, rice, malt; the refining of sugar; the refining of vegetable oil or fat; the brewing or distilling of alcoholic beverages; the processing of fats, bones, hides, skins, offal, or animal products of a like nature; the use of fish; or the use of live animals or live poultry); manufacturing of miscellaneous light products, including brooms or brushes; jewelry or silverware; musical instruments; novelties, decorations or ornaments; scientific or professional equipment; signs or displays; stationery supplies or office supplies; toys; window shades or blinds.
- (h) Live-Work Use, subject to section 11 of the Zoning and Development By-law.

5.1.2 HA District and Sub-area C2 Loading Requirements

In HA Districts and sub-area C2, the Director of Planning may permit or require fewer spaces than in section 5.1.1, where, after considering the recommendations of any advisory group, policies or guidelines approved by Council for the area, he is satisfied that literal enforcement would result in a development that is out of character with the architectural, historical, or cultural nature of the area.

5.1.3 BCPED and FCCDD District Requirements

Unless otherwise provided in an Official Development Plan, the number of spaces for the off-street loading and unloading of motor vehicles required for any development in the BCPED and FCCDD District shall be calculated according to section 5.2.

If a use is not listed in the tables, the number of loading spaces shall be calculated on the basis of a similar use as determined by the Director of Planning.

5.1.5 Multi-Use Developments

For the purposes of this section, uses with the same formula for determining required loading spaces shall be considered to be of the same class. If a development contains more than one use as defined in section 5.2, the total number of loading spaces shall be the sum of the loading spaces required for the various classes of uses calculated separately and, unless otherwise permitted by the Director of Planning, in consultation with the City Engineer, taking into account the time-varying demand of uses, a loading space required for one use shall be deemed not to meet the requirement for any other use in that development.

5.1.7 Rounding of Fractional Numbers

Where the calculation of total required loading spaces results in a fractional number, the nearest whole number above zero shall be taken. Subject to section 5.2.1 or to any other specific requirement of this By-law, a fraction of one-half shall be rounded up to the next whole number.

5.1.8 Loading Space Requirement Exemptions

The required number of off-street loading spaces need not be provided where, subsequent to original construction of a building, any additions, alterations or change in use would, in total, result in an increase of less than 10 percent of the number of parking spaces required for the originally constructed building before any addition, alteration or change in use.

5.1.9 Farmers’ Market Exemption

A farmers’ market is exempt from off-street loading space requirements.

5.2 Table of Number of Required Off Street Loading Spaces

6.1.2 Bicycle Space Requirement Exemptions

The required number of off-street bicycle spaces need not be provided where any additions, alterations or changes of use to a building existing on October 17, 1995 would, in total, result in an increase of less than 10 percent of the number of spaces required before the additions, alterations or change in use.

For the purposes of this section uses with the same formula for determining required bicycle spaces shall be considered to be of the same class. If a development contains parking for more than one use as listed in section 6.2, the total number of bicycle spaces shall be the sum of the bicycle spaces required for the various classes of uses calculated separately and, unless otherwise permitted by the Director of Planning, in consultation with the City Engineer, taking into account the time-varying demand of uses, a bicycle space required for one use shall be deemed not to meet the requirement for any other use in that development.

6.1.5 Floor Area Calculation

Where gross floor area is used to calculate the number of required bicycle spaces, it shall be calculated in the same manner as the floor space ratio of the applicable district schedule or official development plan.

6.1.6 Rounding of Fractional Numbers

Where the calculation of total required bicycle spaces results in a fractional number, the nearest whole number shall be taken, unless specified otherwise in section 6.2. A fraction of one-half shall be rounded up to the next whole number.
