WINCHESTER SAFES

LEGACY

For over 40 years, Winchester Safes has stood as the leader of protection for the things that matter most. From cherished heirlooms to vital documents, Firearms, and everything in between, we've been safeguarding your treasures with a dedication that runs deep. As a veteran owned and family run enterprise, we understand the profound importance of trust.

It's not just about the steel and bolts; it's about the peace of mind that comes from knowing your valuables are shielded by the Winchester® Advantage.

OUR COMMITMENT TO OUR CUSTOMERS GOES FAR BEYOND THE SALE. It's a bond forged in integrity and backed by a guarantee of enduring quality.

Firearm safety is important to us, and we are dedicated to providing a safe that exceeds the standards. We introduced

the first UL® listed gun safe in the United States, **SETTING THE INDUSTRY STANDARD FOR QUALITY AND SECURITY.**

Our fire ratings are not just numbers; they are a testament to the unwavering strength of our safes when faced with the fiercest trials. Our team, comprised of **AVID HUNTERS, VETERANS, OUTDOORSMEN, AND GUN ENTHUSIASTS,** are the embodiment of those who understand the value of safeguarding what's dear.

We don't just sell safes; we live the lifestyle, and we bring that passion into our product and the service our customers deserve. We honor the past with pride while keeping a clear vision for the future. By blending time-tested traditions with bold innovation, we consistently rise above the rest—delivering excellence time and time again.

WE WELCOME YOU AND YOUR FAMILY TO THE WINCHESTER SAFES LEGACY.

THE WINCHESTER® ADVANTAGE

LIMITED LIFETIME WARRANTY

At Winchester® Safes, we stand by our products with a warranty as robust as our legacy. Your safe is protected against fire-related damage, burglary, defects in materials, and workmanship. Safes must be registered to activate the warranty.

FIRE & BURGLARY LIFETIME GUARANTEE

If your safe is ruined by fire or burglary, we'll replace it free of charge (conditions apply). Claims must be filed within six months of the loss.

WARRANTY HIGHLIGHTS (CONDITIONS AND EXCLUSIONS APPLY)

-  **DEFECTS IN MATERIALS & WORKMANSHIP:** Covered for five years.
-  **INTERIOR SHELVING & ACCESSORIES:** Covered for up to two years.
-  **LOCKS:** Coverage varies by model, with extended options available.

IMPORTANT DETAILS

Safes must be registered within one year of purchase to activate warranty claims.

All warranty claims require prior authorization. Unauthorized repairs will not be reimbursed. Insurance coverage for safe contents is highly recommended, as the warranty does not cover contents.

Conditions apply. Extended warranty options available. Please read all warranty conditions/exclusions and register your safe today. Safes must be registered to activate the warranty.

Want to file a claim or need assistance?

Contact our Customer Service Team. For faster service, please provide your safe's serial number, photos of any damage, and relevant incident reports when filing your claim.

FIRE PROTECTION

Winchester® Safes set the standard in the industry for fire-rated gun safes, offering protection ranging from 45 minutes to 2.5 hours. In addition to advanced security features, our safes are designed with materials and construction methods that provide excellent fire protection.

■ FIREBOARD

All Winchester Safes use fireboard for fire resistance. The bodies and doors have varying layer amounts to increase fire and heat resistance.

■ COMPOSITE DOORS

All Winchester Safes use a composite door design. The steel of the door is wrapped around the fireboard, creating complete fireboard coverage on the door of the safe. This also creates a thicker composite door by allowing more layers of fireboard, increasing the fire rating between safe series.

■ PALUSOL® HEAT EXPANDABLE DOOR SEAL

Palusol® expands 7 times its size when subjected to heat. This creates a gap barrier between the door and the door frame to minimize heat transfer into the safe.

■ EXTERNAL DOOR HINGES

In addition to allowing 180° door swing, external hinges also have a very important function. Unlike safes with internal hinges, an external hinge does not have to have a cut-out in the fireboard of the body of the safe. External hinges allow complete, uninterrupted coverage of the fireboard inside the walls of the safe.

HOME AND OFFICE SERIES
45 MIN. FIRE RATING at 1400°F

BURGLARY PROTECTION

The majority of Winchester® Safes have gone through and passed the rigorous testing for burglary protection by Underwriters Laboratories® (UL®). We were the first safe manufacturer to be listed by UL® under the Residential Security Container 9L60 (RSC) category. The Bandit® and Ammo Series are not UL® Listed for Burglary (RSC). All Winchester® Safes are also California DOJ approved.

MANY FEATURES ARE NEEDED TO PASS THE UL® TEST FOR BURGLARY IN A GUN SAFE INCLUDING:

UL® Listed Locks
Minimum 14 Ga. Steel Construction
Drill Resistant Hard Plate
Auxiliary Relocker

In addition to these features listed above, Winchester® Safes have many features that increase the security of our gun safes.

■ LOCKS

UL® Listed electronic locks

■ 4-WAY LOCKING BOLT SYSTEM

Solid steel locking bolts on all four sides of the door with three sides active, creates complete pry coverage on all four sides of the door frame.

■ 2-WAY LOCKING BOLT SYSTEM

Solid steel locking bolts on two sides of the door with one side active, hinge side and open side.

■ DRILL RESISTANT HARD PLATE

Heat treated .25" steel plate that fits over the lock inside the door and provides exceptional protection against drilling.

■ AUXILIARY RELOCKER

Spring loaded pin that activates on an attack of the lock and makes bolt work completely inoperable.

■ RECESSED DOORS

All doors (except Home and Office) are slightly recessed and add increased resistance to pry attacks.

■ REINFORCED STEEL RETURN DOOR JAMB

A wrap around steel door jamb that adds increased security towards prying.

GRAND AMERICAN™

FIRE PROTECTION

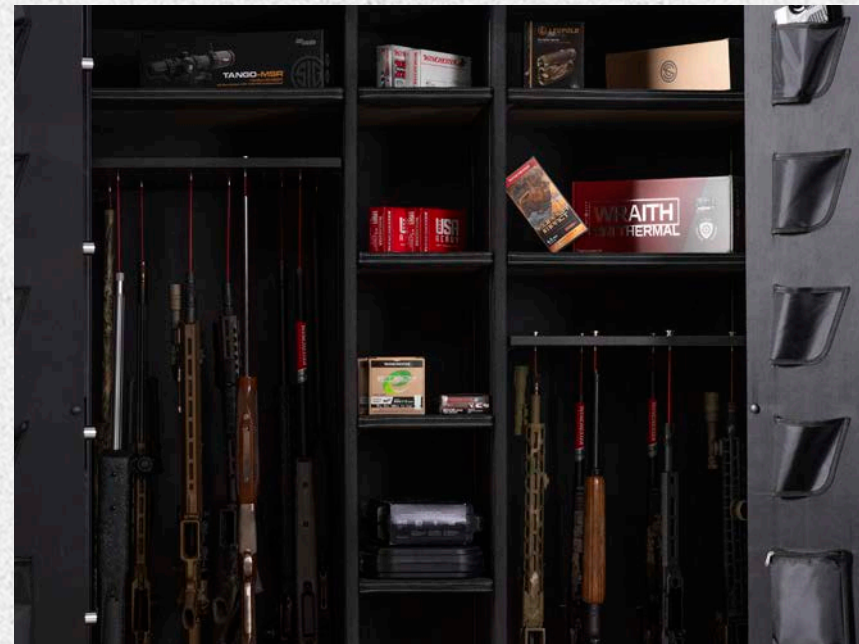

- 60 Minute fire rating at 1400° F
- Palusol® Heat expanding door seal expands to over 6x its size under heat
- UL® rated fireboard protection in the ceiling, walls and door

BURGLARY PROTECTION

- Solid steel 3/16" thick plate door & 10 ga. body

GUNSTiXX™

STORAGE SYSTEM

MAXIMIZE YOUR SAFE'S STORAGE WITH THE GUNSTiXX™

Eliminate the frustration of cluttered and disorganized safes with the GunStiXX™ Storage System. Designed to securely store firearms in a vertical position, they maximize storage capacity while providing effortless access to every firearm, including the ones in the back.

Upgrade your safe's organization and make space for more with the GunStiXX™.

■ VERSATILE & DAMAGE FREE

- Works with rifles and shotguns down to .20 caliber.
- Made from sturdy, damage-free plastic to prevent scratches.
- Rods can be trimmed to fit your specific needs.
- Engineered for long-term durability and reliable use.

■ MORE SPACE, EASY ACCESS

- Eliminate clutter and keep your firearms safe, neat and accessible.
- Store firearms vertically to maximize safe capacity.
- Quickly disconnect rods at the top to retrieve firearms with ease.
- Ensures all firearms, even those in the back, remain within easy reach.

■ KITS FOR ANY SAFE

- Kits specifically designed for our current Winchester® Safes or retrofit your existing Winchester® or competitor safe.
- Kits include plates to transform existing gun racks into the GunStiXX™ system.

Also available in popular Tractor Supply Co. and Academy safe models.
