Zeuxippus (fl. 250 BCE)

Ancient Greek mathematician, one of the  [sister projects: Wikidata item](#)
immediate successors of [Euclid](#) in the school at Alexandria, and correspondent
of [Archimedes](#).

Works

We have no works listed by this author, though works that may link to this author are [here](#). Please add the titles of works by this author, by clicking "Edit".

Some or all works by this author were published before January 1, 1930, and are in the **public domain** worldwide because the author died at least 100 years ago. Translations or editions published later may be copyrighted. Posthumous works may be **copyrighted based on how long they have been published** in certain countries and areas.

About this digital edition

This e-book comes from the online library [Wikisource](#). This multilingual digital library, built by volunteers, is committed to developing a free accessible collection of publications of every kind: novels, poems, magazines, letters...

We distribute our books for free, starting from works not copyrighted or published under a free license. You are free to use our e-books for any purpose (including commercial exploitation), under the terms of the [Creative Commons Attribution-ShareAlike 4.0 Unported](#) license or, at your choice, those of the [GNU FDL](#).

Wikisource is constantly looking for new members. During the transcription and proofreading of this book, it's possible that we made some errors. You can report them at [this page](#).
