

## Wi-Fi Remote Control

App Remote control,  
the App is available on iOS and Android.

## UVC Lamp Sterilization

Effectively eliminates the harmful bacteria  
and viruses in the air.

# Freedom

Healthy & Clean Air

Easy to control  
and Plug and Play system

Night mode:  
extra silent

Energy efficient  
due to timer function

## Size & Packaging

Per piece in an export carton,  
device dimensions:  
320x320x620mm (with castors).

## Smart Air Purifier

PROTECTS AGAINST  
**BACTERIA, VIRUSES**  
AND OTHER  
**AIR POLLUTION!**

Viruses

Bacteria

Smoke

Odor

HCHO

PM2.5

PM10

Wifi

## Ensure Safe Indoor Air

Scientific evidence shows that aerosols, tiny solid or liquid particles that contain pollutants, float in the air for a longer period of time and can be inhaled.

An airco has a high concentration of pollution in the air major impact on the health of your staff, visitors, residents, patients, etc. With a view to the presence of bacteria and viruses, such as COVID-19, this is a very important topic.

In indoor spaces where people spend a long time together the risk of spreading viruses such as COVID-19 is increased by air. An air conditioner or a malfunctioning central ventilation system helps spreading the particles instead of reducing them.

## Filters

Each filter can be used for 1.200 ~ 2.000 operating hours, depending on the environment. The Freedom Air Purifier has a filter change indicator to inform the user when the filter needs to be replaced.

Spare filters: per piece in a box.

## 5 Stages Of Air Filtration

Avoid absence costs due to illness!

## Smart Air Purifier

This Smart Air Purifier uses advanced purification technology, HEPA technology as the working principle, with high purification efficiency, purification speed, and other significant features.

Due to the H13 class filter and the PM 2.5 laser particle sensor, it is highly effective against a multitude of viruses and bacteria.

It is also effective against house dust, animal hair and dander, pollen, harmful gasses, smells and odours.

### REAL TIME AIR QUALITY

You are always aware of the air quality in the room, thanks to Air Quality Indicator. The colour indicates the air quality.

### AIR VOLUME + AREA

800 m<sup>3</sup>/h / 40-60 m<sup>2</sup>

## Different Modes

The appropriate fan speed can be selected according to the requirement. The 4 lights on the control panel correspond to the setting and the display panel also displays the setting.

Level (1) Sleep ~ Level (2) Slow ~ Level (3) Medium ~ Level (4) High

## Special Design

Power off automatically when the machine is dumping.

## Easy To Move

Silent, Easy and Convenient.  
Power cord = 3m.

*“ We spend an average of 80% of our time indoors. We breathe more than 23.000 times a day. Enough chance to inhale polluted particles hanging around in the air. ”*

## Built-in Ultrasonic Diffuser

Get your room disinfected and humidified in minutes.

## Where to use?

Thanks to the high efficiency on suspended aerosols, which can contain viruses and dust, the Freedom Air Purifier is extremely suitable for:

offices, home use, schools, medical waiting areas, medical treatment rooms, nurseries, nursing homes, canteens, gyms, therapy rooms, event halls, party venues, restaurants, religious spaces, supermarkets, convention centers, etc.

Freedom  
Healthy & Clean Air

Thanks to the Freedom Air Purifier and HEPA filter you create a Corona-proof work environment.
