

Seedling Blocks Technical Specifications

Aqua-Pak Seedling Blocks Rebuilding Our Natural Resources

Aqua-Pak Seedling Blocks are innovative silviculture & horticulture growing systems for healthier plants and efficient operations.

Primarily used for rural & urban reforestation and Christmas trees, the blocks feature specially designed cores to aid growth and extraction.

Made of cost-effective and recyclable Expanded Polystyrene (EPS) that uses air as main ingredient, we are proud to manufacture products that help rebuild our forests with a focus on quality and environmental aspects in our operations.
