

MONCTON

New Brunswick's largest city was named the most polite city in Canada by Reader's Digest in 2008. Moncton is a popular tourist destination due to its central location, offering easy access to Prince Edward Island, Shediac and the Bay of Fundy. It is also home to some rare natural phenomena such as the Tidal Bore and Magnetic Hill.

WHAT TO DO

TIDAL BORE ★

The Tidal Bore occurs twice daily when the high tidal waters in the Bay of Fundy cause the water in the placid Petitcodiac River to roll back upstream in one wave, which can be up to 60 cm high. The best place to observe the Tidal Bore is in Bore Park, in downtown Moncton. Visit the Visitor Information Center located beside **Bore Park** for Bore arrival times and more information. Please note that it is best to arrive early, as the **Tidal Bore can occur 15 to 20 minutes before or after the anticipated time!**

MAGNETIC HILL ★

This amazing natural phenomenon has been baffling visitors since 1933. Drive your car to the bottom of Magnetic Hill, put your car in neutral and

be amazed as your car rolls back uphill, all by itself – Incredible! Even trucks and RVs will roll up the hill, defying the laws of gravity. Magic, magnetism or optical illusion? It's up to you to

decide.

★ Noteworthy ★★ Worth the detour ★★★ Must see

NEARBY

BAY OF FUNDY ★★

The Bay of Fundy, in Fundy National park, is home to the highest tides in the world.

This impressive natural phenomenon has created dramatic coastal landscapes, such as the sensational

Hopewell Rocks ★★★. At

Hopewell Rocks, at low tide, you can walk on the ocean floor among immense, tree-topped rock formations sculpted by tidal erosion into the shape of flowerpots. It is hard to believe that at high tide, the huge flowerpot rocks are almost completely submerged, becoming tiny islands surrounded by water! Kayak tours in the Bay of Fundy are a great way to explore its spectacular cliffs, hidden coves and mysterious caves. You can also go whale watching on a fishing boat, a sailboat or a zodiac.

to the **largest lobster in the world**, a 55-ton sculpture next to which visitors like to have their picture taken. Needless to say, you simply must stop

and sample the excellent lobster or seafood! Shediac also boasts **beautiful beaches where the water is a balmy 24 degrees**.

4 LITTLE LOUIS' OYSTER BAR (\$\$\$\$)

In an unlikely location on a predominantly industrial street, this restaurant is a real find, so don't be deterred by the unpromising exterior. The desserts will leave you speechless, such as the crème brûlée with a basket of fruit and ice-wine pearls. A first-rate wine list and impeccable service complete the experience.
