Live **Your Style**

Unique imagination, **signature designs.**

Every home carries a distinctive soul.
Every living space is a story that houses
different characters.

As the Belenco family, we dream up different
visions with quartz in every step we take.

The solid nature of quartz, combined with
our dreams and the latest technology in the
industry, creates elegant colors and patterns.

An endless design world...

At Belenco, we produce each surface with rich pattern and texture options. We offer alternative solutions for interior designers that will make a difference for their customers' preferences.

We derive our power from being the only brand in our industry with an R&D center in Turkey and having won international awards in our field.

Hygiene and maintenance. The easiest adventure...

We design surfaces that will fit any lifestyle, requiring only simple daily cleaning and maintaining their first day shiny look and natural vitality and vibrancy as if they were new for many years.

Our LGA Qualitest GMBH hygiene report confirms that Belenco surfaces are easy to clean and microbiologically completely safe afterward. Moreover, our NSF certification confirms that Belenco surfaces are safe for food preparation and contact.

9113 ALINDA

Brand Awareness and Reliability **Flawless service at every stage!**

We have become a preferred and trusted brand by industry professionals from the beginning to the end of each project, with zero defect tolerance.

Besides being awarded the EFQM Regional Excellence Award in the Aegean Region, we take pride in being Turkey's export champion and domestic market leader in our field*.

*Based on export and domestic sales data over the years.

For those who prefer **natural choices...**

Living spaces for those who carry the calmness and power of nature must promise both safety and freedom... At this point, **BELENCO NATURAL** is unique with its colors, textures, and brilliance, presenting all the characteristics of nature.

BELENCO NATURAL was created to harmonize you with nature, whether you are cooking a meal in the kitchen, experiencing a peaceful bath, taking a step, or walking around during the day.

Truly pure and clean elegance...

4123 KASHMERA WHITE

We have surpassed the dream of achieving peace in any environment. **BELENCO PURE** offers a unique environment to experience rejuvenation.

At Belenco, we produce quartz, the gift of nature, as a legacy surface for today and tomorrow with a philosophy of conscious use of natural resources.

Our products require no special care, and their cleaning and maintenance require less water, detergent, energy, and costs.

Belenco® PURE

Innovation nurtures creativity.

Technology and innovation are two elements that we cannot think of separately, cannot give up, and have integrated into all of our business processes.

Belenco's infinite commitment to innovation and strong investment policy is what has made us the "first" in many areas. We lead innovations in our industry with our belief in R&D, our trend-setting taste, design skills, and the latest technologies we use.

The national and international awards we receive every year in the fields of design and innovation are a reflection of Belenco's privilege.

Belenco became the Turkey Champion in the "Innovation Results" category in the large-scale category at the 2022 InovaLIG by competing with Turkey's most innovative companies.

We cannot settle for anything less than the best.

Since the beginning of this valuable journey we started in 2011, we have been using the most advanced technology of Italian Breton S.p.A, the world's leading natural and composite stone technology company, in our production lines.

Today, we work to produce the best quartz surfaces with our design, technology, and quality in our two production facilities, with a total of 63,724 square meters, 38,634 of which are closed, and with fully automatic 3 casting and 4 polishing lines.

As one of the leading brands in Turkey and international markets, we continue to be a reliable partner for designers and practitioners in their projects.

A style that suits every change for years...

4217 RAPTURE

We are Passionate about Nature

Establishing a sustainable order on this planet and respecting all living creatures around us is a fundamental Belenco value.

We conduct our production in Green Building certified areas, with Smart Factory technological equipment and “ZERO WASTE Goal”, and we adopt the “ZERO WASTE Management System” principles in all our office areas, in line with the Industry 4.0 concept.

We transform quartz, one of the toughest minerals in nature, into a sustainable and environmentally friendly surface material by combining our design and technology power.

A qualified choice that will accompany you for a lifetime.

Functionality is a priority in the living spaces that Belenco touches.

BELENCO ESSENTIAL is the best example of what can be created with quality materials and proper workmanship. This collection, with its simple details that meet all expectations, is a clear reflection of the power of simplicity.

Correct Edge Profile Application

The workmanship and application of front edge profiles on countertops and benches are carried out by authorized workshops. The types of edge profiles applied may vary depending on the workshop's machine and equipment park. Therefore, it is recommended to discuss and reach an agreement with the workshop that will perform the application beforehand.

Belenco preserves the right to change color, technical specifications and dimensions of the products without any prior notice. Stone images provided in the leaflet reflect a part of our slabs. They may not represent the design characteristics of the actual slab. Before purchasing, viewing the whole slab for color, distribution and vein patterns is recommended.

The most accurate information for the right choice

Always hygienic

Belenco surfaces are hygienic due to their liquid-absorbent, non-porous, compact structure that does not retain stains and does not allow microorganisms to reproduce within itself. Belenco's hygienic structure has been certified by NSF with the NSF51 certificate, indicating that food can be safely prepared on its surface. You do not need to apply any special chemicals to ensure hygiene.

Stain Proof

Belenco, produced using the most advanced technology in the world and containing over 90% natural quartz mineral, binder, and inorganic pigment in its formula, is a non-porous surface resistant to calcification. Tea, coffee, vinegar, lemon, and other countertop materials that can cause permanent stains or surface wear do not affect Belenco.

Easy to maintain

It shines like the first day with a simple daily cleaning! A damp, cotton cloth and a small amount of mild neutral liquid soap (glass surface cleaner or dishwashing liquid) is sufficient for daily cleaning. If you wipe off the residues that drip or stain the surface before they dry and turn into permanent lime, you can maintain the pristine appearance of your surface for many years with a simple cleaning.
