1.0 Release Notes for VALERI 17.0

Release Notification

From: VALERI

Version: 17.0

Production Deployment Date: September 8, 2022 @ 8:00PM CT/9:00PM ET

Focus of Release: VALERI 17.0 release improves the Servicer User experience in VALERI by allowing servicers to report a disaster option on a loan through a nightly file. The servicer system will use the existing code "BUS" (which will show Business failure in their system) and the code will be translated to "Disaster" upon arrival into the VALERI system. Veterans will also see indirect value by improvements made for servicers in the fix being made to display the correct claim certification date to the Claims Hub in the Servicer Web Portal.

1.1 Enhancements

Key	Component	Summary
LM-321766	LM	This enhancement allows servicers to report a disaster option through the nightly file by using the existing code "BUS" (which will still show Business failure in their servicing system) it will be translated to "Disaster". This enhancement will eliminate the need for RLCs to correct the RFD.

1.2 Bugs

Key	Component	Summary
LM-319803	LM	This fix will display the correct claim certification date to the Claims Hub in the Servicer Web Portal.
