

Pathways Community HUB Certification

20 Standard Pathways

For each risk a Community Care Coordinator identifies in their clients, they assign a Pathway: an evidence-based care coordination plan to help patients overcome barriers to improving their health. Each Pathway is tied to specific outcomes which Care Coordinators work to see their clients meet. A certified Pathways HUB must offer at least these 20 standard Pathways:

Adult Education	Confirm that client successfully completes stated education goal: course/class completed; quarter/semester completed; training program completed
Behavioral Health	Verify that client has kept 3 scheduled appointments for behavioral health issue(s).
Developmental Referral	Document the date and results of the completed developmental evaluation.
Developmental Screening	Confirm child successfully screened using the age-appropriate ASQ or ASQ-SE.
Education	Document educational content and format given. Client reports that he/she understands the educational information presented.
Employment	Verify client has found consistent source(s) of steady income and is employed over a period of 3 months.
Family Planning	Confirm that client has kept appointment and document family planning method.
Health Insurance	Document plan and insurance number to verify client has received health insurance .
Housing	Confirm that client and/or family has moved into an affordable suitable housing unit for a minimum of 2 months.

Immunization Referral

Verify that a client who was behind on immunizations has his/her immunization record is now up to date.

Immunization Screening

Confirm that client is up to date on all age appropriate immunizations.

Lead

Document that appointment was kept and the results of lead blood test.

Medical Home

Confirm that client in need of ongoing primary care has kept first appointment.

Medical Referral

Verify with health care provider that client has kept appointment.

Medication Assessment

Verify with primary care provider that medication chart was received. (requires patient chart)

Medication Management

Verify with primary care provider that client is taking medications as prescribed. (requires patient chart)

Postpartum

Confirm that client has kept postpartum appointment.

Pregnancy

Confirm that client has delivered a healthy baby weighing more than 5 pounds 8 ounces (2500 grams).

Smoking/Tobacco Cessation

Confirm that client has stopped using tobacco products.

Social Service Referral

Verify that client has kept scheduled appointment with social service provider.
