DISCRETEEDGE
POWERED BY BIRLASOFT

Solutions from Birlasoft

Ready-to-deploy Discrete Manufacturing Industry solutions from Birlasoft built on SAP S/4HANA, enables customers to implement the latest Enterprise Management solution faster and at lower Total Cost of Ownership.

5 Ready solutions available are:

- **IMCEdge** - Industrial Machinery Component Industry
- **AutoEdge** – Auto Components Industry
- **HiTechEdge** – Hitech Components Industry
- **FMCEdge** – Fabricated Metal Components Industry
- **PRCEdge** – Plastic and Rubber Components Industry

Discrete Manufacturing Industry Value Network

AUTOEDGE
POWERED BY BIRLASOFT

AUTOEdge specialized for automotive suppliers, is a comprehensive enterprise resource planning (ERP) solution based on proven best practices aggregated from various industry implementations. Solution covers key features like Product Development, Procurement, Repetitive Manufacturing, Warehousing, Sales and Service . The solution covers more than 170 processes and are ready to deploy. Sub-Industries coverage includes Auto Tier 1, Tier 2 Motor Vehicle Parts & Accessories manufacturers.

IMCEDGE
POWERED BY BIRLASOFT

IMCEdge specialized for Industrial Machinery and Components suppliers, is a comprehensive enterprise resource planning (ERP) solution based on proven best practices aggregated from various industry implementations. Solution covers key features like New Product Development, Quote and Sales cycle management, Variant Configuration, Make to Order/Make to Engineer manufacturing, Serial Number, Service planning and execution. The solution covers more than 220 processes and are ready to deploy. Sub-Industries coverage includes Pump, Special Dyes & Tools, Ball & Roller Bearings, Machine tools manufacturers.

HITECHEDGE
POWERED BY BIRLASOFT

HITECHEdge specialized for electronics and component manufacturers, is a comprehensive enterprise resource planning (ERP) solution based on proven best practices aggregated from various industry implementations. Solution covers key features like Product Development, Procurement, Configured material, Repetitive Manufacturing, Serial Number, Warehousing, Sales and Service . The solution covers more than 180 processes and are ready to deploy.

Sub-Industries coverage includes Electronic capacitors, resistors, Wiring devices, Electronic connectors, Printed Circuit board manufacturers.

FMCEDGE
POWERED BY BIRLASOFT

FMCEdge specialized for fabricated metal component manufacturers, is a comprehensive enterprise resource planning (ERP) solution based on proven best practices aggregated from various industry implementations. Solution covers key features like Co-Product manufacturing, Product Development, Procurement, Repetitive Manufacturing, Warehousing, Sales and Service . The solution covers more than 180 processes and are ready to deploy.

Sub-Industries coverage includes Electronic capacitors, resistors, Wiring devices, Electronic connectors, Printed Circuit board manufacturers.

PRCEDGE
POWERED BY BIRLASOFT

PRCEdge specialized for plastic and rubber component manufacturers, is a comprehensive enterprise resource planning (ERP) solution based on proven best practices aggregated from various industry implementations. Solution covers key features like Co-Product manufacturing, Batch characteristics, Product Development, Procurement, Repetitive Manufacturing, Warehousing, Sales and Service . The solution covers more than 170 processes and are ready to deploy.

Sub-Industries coverage includes Gasket/Seals, Fabricated rubber products, Plastics foam products manufacturers.
