

Wrecker Body LEDs Using BOOGIE LIGHTS[®] **HEAVY DUTY (HD) LED STRIPS**

Maximum length of a single **HEAVY DUTY LED** strip is 52 inches. They can be ordered in five different lengths: 12", 22", 32", 42" and 52". They cannot be cut nor can they be produced in longer lengths. This kit can be provisioned to have up to EIGHT HEAVY DUTY LED strips on each side of the truck (labeled as **HD 1 thru HD 8** in this diagram - sold in pairs). The body style of the wrecker in this diagram is for illustration only. They will work on any wrecker body style (light duty, heavy duty, roll back, rotator, etc) that has the built in channel common for many wrecker body styles including Miller Industries wreckers. See product description for complete specifications and installation details.
