

CIOL UK HE Offer

Why UK Higher Education & CIOL?

- The UK's **Royal Charter** body for languages and language professionals, 110 years of established history.
- We share common purpose with universities to **encourage** the effective study and practice of **languages**.
- HE **staff** and **student membership** and **mutual support, recognition and endorsement** are all vital routes to delivering our **purpose**.
- We value up-to-date **relationships** with named university academic leads for **languages** and **translation** and **interpreting** and believe there is significant value to students of free CIOL student **membership**.

Business Model

- Given the objects of the **Royal Charter** we should be supporting and aiding **universities** and **HE Institutions** and their **language students**.
- We want to offer UK HEIs '**added value**' but we do need to cover our admin and support costs to **sustain** such an offer.
- We can offer, **staff** and **student memberships**, career and case study **resources** and **high quality** and motivating **speakers** (member translators, interpreters and those using languages in business for example) who can **engage and inform students** about professional language **career** options – but only if we can cover **time** and **costs**.
