Stainless Steel Performance Valve Sets

We continually beat up valve manufacturers on large quantities of valves. When they compete with each other to increase their sales, we pass the savings on to you. These are the same valves that other people are selling, but up to 65% less!

These valves are manufactured of high grade 21-4N stainless steel material. Quality one-piece forgings. Valve stems are hard chromed and micro polished for an exceptional finish and to reduce wear. Fully machined combustion faces. Hardened tips to resist valve stem wear.

- One piece Forgings
- 21-4N Stainless steel
- Chrome stems
