DEPARTMENT OF DEFENSE APPROPRIATIONS BILL, 2022

JULY 15, 2021.—Committed to the Committee of the Whole House on the State of the Union and ordered to be printed

Ms. MCCOLLUM of Minnesota, from the Committee on Appropriations, submitted the following

R E P O R T

together with

MINORITY VIEWS

[To accompany H.R. 4432]

The Committee on Appropriations submits the following report in explanation of the accompanying bill making appropriations for the Department of Defense, and for other purposes, for the fiscal year ending September 30, 2022.

BILL TOTALS

Appropriations for most military functions of the Department of Defense are provided for in the accompanying bill for fiscal year 2022. This bill does not provide appropriations for military construction, military family housing, civil defense, and military nuclear warheads, for which requirements are considered in connection with other appropriations Acts.

The President's fiscal year 2022 budget request for activities funded in the Department of Defense Appropriations Act totals \$706,197,170,000 in new discretionary budget obligational authority.

COMMITTEE BUDGET REVIEW PROCESS

During its review of the fiscal year 2022 budget request and execution of appropriations for fiscal year 2021, the Subcommittee on Defense held 18 hearings and one briefing during the period of February 2021 to May 2021. Hearings were held in open session, except when the security classification of the material to be discussed presented no alternative but to conduct those hearings in executive or closed session.

INTRODUCTION

The Committee recommendation for total discretionary fiscal year 2022 Department of Defense funding is \$705,939,000,000, which is an increase of \$9,977,500,000 above the fiscal year 2021 enacted level and \$258,170,000 below the budget request.

This bill carries out the Committee's constitutional responsibility to recommend the appropriations necessary to provide for the common defense of the Nation. The Committee performed its role in a collegial and bipartisan fashion consistent with long-standing traditions.

Oversight of the management and expenditure of the \$705,939,000,000 provided to the Department of Defense and the Intelligence Community is a core function of the Defense Subcommittee. The Subcommittee performed this responsibility with a detailed review of the fiscal year 2022 budget request and held 18 hearings and one briefing.

While the budget request was delayed, as is customary in the first year of a new presidential administration, the Subcommittee thoroughly reviewed the budget request and identified programs where reductions are possible without adversely affecting the safety and effectiveness of military personnel. Examples of such reductions include savings from favorable contract pricing adjustments, contract or schedule delays resulting in savings, unjustified new programs and cost increases, funds requested ahead of need for the year of budget execution, projected or historical underexecution, and rescissions of unneeded prior year funds.

The fiscal year 2022 request for the Department of Defense increases funding for modernization, continuing the effort to reorient the focus of the Department from counterterrorism to great power competition with well-equipped peer or near-peer adversaries. The Committee recommendation provides the resources to maintain the technological advantage which currently exists for the United States and provides funding in areas to further these efforts. It is imperative that resources are directed toward capable platforms and weapons that are effective in high-end conflicts. Additionally, the Committee recommendation also reflects the importance placed on the servicemembers and their families who protect American freedoms, providing uniformed and civilian personnel with a 2.7 percent pay raise.

The Committee recommendation includes significant investments to combat climate change, which is an existential threat to national security. The Department estimates that it has spent \$8,000,000,000 to remedy the impacts of extreme weather. These events occur with greater frequency, leading to more instances of personnel being unable to train or facilities unable to be used at

installations that lack resiliency. Not only does climate change hamper readiness, but it also increases instability, as rising sea levels, drought, and other weather events constrain resources and forces the movement of people.

With regard to Overseas Contingency Operations (OCO) funding, House Report 116–453 stated, “The OCO experiment has been an abject failure and has given the Department a budgetary relief valve that has allowed it to avoid making difficult decisions.” The Committee builds upon that statement by not providing any funding for OCO in fiscal year 2022. Instead of separate base and OCO accounts, all activities will be funded in base accounts, including direct war and enduring requirements. This change will increase transparency and accountability, although it necessitates adding amounts in base and OCO accounts enacted in fiscal year 2021 when comparing to recommended levels in base accounts in fiscal year 2022.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99–177), as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100–119), and by the Budget Enforcement Act of 1990 (Public Law 101–508), the terms “program, project, and activity” for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2022, the related classified annexes and Committee reports, and the P–1 and R–1 budget justification documents as subsequently modified by congressional action.

The following exception to the above definition shall apply: the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget request for fiscal year 2023, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the M–1 and O–1, which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2023.

REPROGRAMMING GUIDANCE

The Secretary of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110–279). The dollar threshold for reprogramming funds shall be \$10,000,000 for military personnel; operation and maintenance; procurement; and research, development, test and evaluation.

Additionally, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees annual DD Form 1416 reports for titles I and II and quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-

wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a military personnel (M-1); an operation and maintenance (O-1); a procurement (P-1); or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or items for which funding is specifically reduced as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in the Committee report.

CLASSIFIED ANNEX

Adjustments to the classified programs are addressed in the classified annex accompanying this report.

COMMITTEE RECOMMENDATIONS BY MAJOR CATEGORY

ACTIVE, RESERVE AND NATIONAL GUARD MILITARY PERSONNEL

In title I of the bill, the Committee recommends a total of \$166,797,135,000 for active, reserve, and National Guard military personnel, a decrease of \$487,960,000 below the budget request. The Committee recommendation provides full funding necessary to increase basic pay for all military personnel by 2.7 percent, effective January 1, 2022.

OPERATION AND MAINTENANCE

In title II of the bill, the Committee recommends a total of \$254,320,053,000 for operation and maintenance support to the military Services and other Department of Defense entities, an increase of \$696,201,000 above the budget request. The recommended levels will fund robust operational training, readiness, and facilities needs in fiscal year 2022.

PROCUREMENT

In title III of the bill, the Committee recommends a total of \$134,288,195,000 for procurement, an increase of \$1,742,190,000 above the budget request.

Major initiatives and modifications include:

\$841,763,000 for the procurement of 33 UH/HH-60M Blackhawk helicopters, an increase of nine helicopters designated for the National Guard;

\$494,136,000 for the procurement of 30 remanufactured AH-64 Apache helicopters;

\$140,900,000 for an additional five CH-47F Block II Chinook aircraft;

\$100,000,000 for additional modernized Army National Guard HMMWVs;

\$977,161,000 for the procurement of 12 F/A-18E/F Super Hornet aircraft, an increase of \$889,329,000 and 12 aircraft above the President's request;

\$1,481,006,000 for the procurement of 11 CH-53K helicopters, an increase of two aircraft and \$194,742,000 above the President's request;

\$8,535,811,000 for the procurement of 85 F-35 aircraft, an increase of \$2,827,000 and the same number of aircraft as the President's request: 17 short take-off and vertical landing variants for the Marine Corps, 20 carrier variants for the Navy and Marine Corps, and 48 conventional variants for the Air Force;

\$23,486,398,000 for the procurement of eight Navy ships, including two DDG-51 guided missile destroyers, two SSN-774 attack submarines, one Frigate, one TAO Fleet Oiler, one T-AGOS(X) auxiliary general ocean surveillance ship; and one Towing, Salvage, and Rescue Ship; a total increase of \$915,339,000 and one DDG-51 Destroyer above the President's request;

\$1,122,087,000 for the procurement of 12 F-15EX aircraft;

\$1,355,512,000 for the procurement of 13 C/MC/KC-130J aircraft, an increase of \$485,780,000 and four C-130J aircraft above the President's request;

\$351,233,000 for the procurement of 12 MQ-9 Reaper unmanned aerial vehicles, an increase of \$114,259,000 and six aircraft above the President's request;

\$2,315,315,000 for the procurement of 14 KC-46 tanker aircraft;

\$792,221,000 for the procurement of 14 combat rescue helicopters;

\$1,337,347,000 for the procurement of five space launch services;

\$601,418,000 for the procurement of two Global Positioning System satellites; and

\$200,000,000 for the Israeli Cooperative Programs under the Missile Defense Agency.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

In title IV of the bill, the Committee recommends a total of \$110,368,824,000 for research, development, test and evaluation, a decrease of \$1,595,364,000 below the budget request.

Major initiatives and modifications include:

\$1,275,355,000 for the continued development of the conventional prompt strike program;

\$187,541,000 for the continued development of the Marine Corps ground-based anti-ship missile and long range fires programs;
 \$2,053,316,000 for the continued development of the F-35 Lightning Joint Strike Fighter aircraft;
 \$2,872,624,000 for the continued development of the B-21 bomber;
 \$619,065,000 for the development of a Presidential Aircraft Replacement;
 \$2,531,602,000 for the development of the Ground Based Strategic Deterrent;
 \$630,243,000 for the design, build, and test of prototypes for the Army's Future Attack Reconnaissance Aircraft;
 \$300,928,000 for planning, prototype manufacturing, and testing of the Army's Long Range Hypersonic Weapon;
 \$264,265,000 for the Global Positioning System III F;
 \$413,766,000 for the Global Positioning System III Operational Control Segment;
 \$2,451,256,000 for the Next-Generation Overhead Persistent Infrared system;
 \$3,484,729,000 for the Defense Advanced Research Projects Agency; and
 \$300,000,000 for the Israeli Cooperative Programs under the Missile Defense Agency.

DEFENSE HEALTH PROGRAM

The Committee recommends a total of \$36,658,536,000 for the Defense Health Program to support worldwide medical and dental services for active forces and other eligible beneficiaries.

DESIGNATED CONGRESSIONAL SPECIAL INTEREST ITEMS

In the explanatory statement accompanying the Department of Defense Appropriations Act, 2021, the Secretary of Defense was directed to limit Department overhead costs on all congressional program increases. The Committee was encouraged that the Army developed a system for tracking overhead costs on congressional program increases, and believes that all of the Services and Defense-Wide agencies should similarly track these costs to ensure that the overwhelming amount of each congressional program increase is used to further the intended program and not simply supplement or supplant established overhead budgets. The Committee also notes that fiscal year 2022 Community Project Funding (CPF) provides valuable resources to community projects with established needs.

The Committee again directs the Secretary of Defense to limit Department overhead and operating costs on congressional program increases to not more than ten percent of the funding level provided. In addition, the Committee directs the Secretary of Defense to ensure that all CPF project funding is awarded to its intended recipient. The Service Secretaries and the Under Secretary of Defense for Acquisition and Sustainment may request a waiver to these requirements by submitting a prior approval request in writing to the House and Senate Appropriations Committees.

LAW ENFORCEMENT TRAINING

The Committee notes that the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2022 directs the Attorney General to implement training programs to cover the use of force and de-escalation, racial profiling, implicit bias, and procedural justice, to include training on the duty of federal law enforcement officers to intervene in cases where another law enforcement officer is using excessive force, and make such training a requirement for federal law enforcement officers. The Committee further notes that each of the Services, the civilian entities that provide security, and the Pentagon Force Protection Agency (PFPA) funded by this Act are considered federal law enforcement officers and Federal Law Enforcement Training Centers partner organizations. The Committee directs the Secretary of Defense, the Service Secretaries, the civilian entities, and the PFPA to adopt and follow the training programs implemented by the Attorney General, and to make such training a requirement for its federal law enforcement officers and any contractors providing security. The Committee further directs the Secretary of Defense, the Service Secretaries, and the PFPA to brief the House and the Senate Appropriations Committees on their efforts relating to training not later than 90 days after the enactment of this Act. In addition, the Committee directs the Service Secretaries, the civilian entities, and the PFPA, to the extent that each have not already done so, to develop policies and procedures to submit their use of force data to the Federal Bureau of Investigation (FBI)'s National Use of Force Data Collection database. The Committee further directs the Secretary of Defense and the Service Secretaries to brief the House and the Senate Appropriations Committees not later than 90 days after the enactment of this Act on their current efforts to tabulate and submit its use of force data to the FBI.

LITTORAL COMBAT SHIPS

The Committee recommendation includes a general provision which allows for the decommissioning of only the USS Coronado. The Committee is disappointed that the Navy has planned to decommission two ships, the USS Detroit and the USS Little Rock, that are five and four years old, respectively. The Committee believes this is a misuse of taxpayer funds and directs the Secretary of the Navy to provide a report to the congressional defense committees not later than 60 days after the enactment of this Act on specific plans and missions for the USS Fort Worth, the USS Detroit, and the USS Little Rock in the fiscal year 2023 budget request.

OVERSEAS CONTINGENCY OPERATIONS

The Committee supports the elimination of overseas contingency operations funding in the Department of Defense budget, as proposed in the budget request. This change will increase transparency and accountability for funds appropriated by Congress.

MISSILE DEFENSE OF GUAM

The fiscal year 2022 budget request includes \$118,300,000 for the initial development of survivable and operationally effective inte-

grated air and missile defenses for Guam. While supportive of the defense of Guam from ballistic, hypersonic, and cruise missile threats, the Committee notes that the report on the defense of Guam from integrated air and missile threats, required by the National Defense Authorization Act for Fiscal Year 2021, has not yet been submitted to the congressional defense committees. Additionally, the lack of detailed information on the budget request, especially the request for \$40,000,000 in procurement, is troubling. Therefore, the Committee has denied funding for procurement and reduced the amount recommended for research, development, test and evaluation until the Department submits the required report and adequate budgetary information for the Committee to make informed funding decisions on these efforts.

ANOMALOUS HEALTH INCIDENTS/HAVANA SYNDROME

The Committee is concerned by reports of adverse health incidents and their origins affecting United States government personnel abroad. Victims should receive prompt and appropriate medical care and related support without unnecessary delays or bureaucratic obstacles. The Committee is concerned that the victims of anomalous health incidents, who serve or have served across the federal government, have been afforded inconsistent access to treatment.

The Committee directs the Secretary of Defense to provide a report to the congressional defense and intelligence committees not later than 30 days after the enactment of this Act on the prompt provision of adequate medical care and related support to personnel affected by anomalous health incidents, as well as any affected family members. The report shall include the roles and responsibilities of the Department of Defense, and those of the interagency, in evaluating and treating impacted personnel; the plan for the Department to better manage incidences of care to more effectively and efficiently treat patients based on geography and health conditions; and the resources required by the Department to ensure adequate evaluation and treatment of impacted personnel, including the most appropriate model by which interagency partners reimburse the Department for medical services provided to interagency personnel. The Committee understands the hesitancy of some personnel to self-report and urges the Secretary of Defense and interagency leaders to engage affected populations to ensure care can be provided expeditiously.

The Committee directs the Secretary of Defense, in coordination with appropriate stakeholders across the interagency, to ensure that all intelligence and health information related to anomalous health incidents is shared and appropriately disseminated within proper channels in a timely manner, and to provide a briefing to the congressional defense and intelligence committees on a monthly basis on the status of the executive branch's activities related to treating anomalous health incidents, including medical treatment, investigation of their origins, and any new incidents reported across any agency.

SHIPYARD DOMESTIC INDUSTRIAL BASE

The Committee supports the Navy's efforts to procure domestically sourced industrial and marine gear drives, motors, and gen-

erators; industrial cranes; and associated maintenance and installation services for use in Navy public shipyards. The Committee directs the Secretary of the Navy to conduct a study examining the economic impact on domestic suppliers and their supply chains that would arise from the application of a domestic content requirement to manufactured articles, materials, supplies, and services. The Secretary of the Navy shall prioritize critical items, including but not limited to those previously mentioned, for executing construction at the four shipyards under the Shipyard Infrastructure Optimization Program. The analysis shall include possible expansion of Buy America laws to the prioritized procurements. The Committee further directs the Secretary of the Navy to provide a report on the study's findings to the congressional defense committees not later than 180 days after the enactment of this Act.

TITLE I

MILITARY PERSONNEL

The fiscal year 2022 Department of Defense military personnel budget request totals \$167,285,095,000. The Committee recommendation provides \$166,797,135,000 for the military personnel accounts. The table below summarizes the Committee recommendations:

MILITARY PERSONNEL
(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

RECAPITULATION			
MILITARY PERSONNEL, ARMY.....	47,973,824	47,875,354	-98,470

MILITARY PERSONNEL OVERVIEW

The Committee recommendation provides \$166,797,135,000 for the military personnel accounts, which funds military pay and allowances, recruitment and retention initiatives, and overall quality of life programs for active duty, National Guard, and reserve personnel. The recommendation provides increased basic pay for all military personnel by 2.7 percent, effective January 1, 2022. The Committee continues to encourage constructive evaluations of recruitment and retention programs, bonus and special pay incentives, and personnel benefit programs for fiscal year 2022. The Committee remains supportive of programs intended to enhance the morale and quality of life of military personnel and their families.

SUMMARY OF END STRENGTH

The fiscal year 2022 budget request includes a decrease of 1,975 in total end strength for the active forces and a decrease of 2,500 in total end strength for the Selected Reserve as compared to the fiscal year 2021 authorized levels. The following tables summarize the Committee recommendations for end strength levels, both in the aggregate and for each active and Selected Reserve component.

OVERALL ACTIVE END STRENGTH

Fiscal year 2021 authorized	1,348,375
Fiscal year 2022 budget request	1,346,400
Fiscal year 2022 recommendation	1,346,400
Compared with fiscal year 2021	- 1,975
Compared with fiscal year 2022 budget request	- - -

OVERALL SELECTED RESERVE END STRENGTH

Fiscal year 2021 authorized	802,000
Fiscal year 2022 budget request	799,500
Fiscal year 2022 recommendation	799,500
Compared with fiscal year 2021	- 2,500
Compared with fiscal year 2022 budget request	- - -

SUMMARY OF MILITARY PERSONNEL END STRENGTH

	Fiscal year 2022				
	Fiscal year 2021 authorized	Budget Request	Committee Recommended	Change from request	Change from fiscal year 2021

REPROGRAMMING GUIDANCE FOR MILITARY PERSONNEL ACCOUNTS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2022 appropriations accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Defense Appropriations Subcommittees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' military personnel accounts between budget activities in excess of \$10,000,000.

MILITARY PERSONNEL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in the Committee report. Below threshold reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

SKILLBRIDGE PROGRAMS

The Committee is encouraged by the Department's efforts to incorporate SkillBridge programs for transitioning servicemembers and recognizes the positive impact the program has among veterans. However, the Committee is concerned with the dispropor-

tionate demographics of participants, primarily the lack of some enlisted servicemembers' participation in the programs. The Committee directs the Service Secretaries to review policies that may preclude some enlisted servicemembers from having the opportunity to attend SkillBridge programs and to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act on the demographics of eligible and participating servicemembers in the SkillBridge program by Service, rank, and occupation; barriers to servicemembers' participation in the program; and recommendations to close the participation gap.

MINORITY OUTREACH AND OFFICER ACCESSIONS

Minorities remain underrepresented in the general officer ranks across the Services. To build a more diverse organization, the Committee supports efforts to conduct effective outreach and recruiting programs focused on increasing officer accessions in minority communities and encourages the Secretary of Defense and the Service Secretaries to support efforts, with both personnel and resources, to improve diversity in the military.

CULTURAL SENSITIVITY TRAINING

The Committee recognizes that the Department of Defense and the military Services have multiple cultural sensitivity training programs for military personnel. The Committee also believes in the importance of protecting servicemembers' rights regarding exercise of religion and ethnic heritage. As such, the Committee supports efforts to identify resource and personnel gaps that may exist in the Office for Diversity, Equity, and Inclusion of the Department of Defense as well as efforts to identify existing gaps in protections for new and prospective servicemembers.

TRAUMA TRAINING PROGRAM

The Committee recognizes the valuable support that universities, hospitals, and other military partners provide by offering civilian based emergency response trauma and critical care training including public health, bio-environmental, and biomedical instruction to sustain capabilities of the National Guard Enhanced Response Forces Packages, National Guard Homeland Response Forces, and Army Reserve Consequence Management Response Forces. The Committee encourages the Director of the National Guard Bureau and the Chiefs of the reserve components to continue pursuing advanced trauma and public health training with these civilian partners in order to maintain unit readiness. The Committee also encourages the development of enhanced medical and critical care preparedness programs.

EXTREMISM IN THE MILITARY

In March 2021, the Office of the Director of National Intelligence released an assessment which found domestic violent extremists, galvanized by recent political and societal events in the United States, pose a heightened threat to the homeland. The assessment found these extremists to be motivated by a range of ideologies, including white supremacy and anti-government sentiments. Fur-

ther, the assessment found that false narratives such as fraud in the recent general election and conspiracy theories promoting violence will almost certainly spur domestic extremists to attempt acts of violence. This is particularly troubling when coupled with the Department of Defense's October 2020 assessment that found extremist groups are actively seeking to recruit military personnel or enlist their own members in the military to obtain combat and tactical experience and gain sensitive national security-related knowledge.

While senior leaders in the Department of Defense and the Services are speaking candidly about the threat of extremist ideologies in their ranks, their efforts to make serious strides are undoubtedly hamstrung by the lack of definition of "extremism" and "extremist activities" in Department policy. The Department's efforts to address this threat are further complicated by an inability to collect and track extremist activity of servicemembers, gaps in investigative and record keeping procedures, and the absence of a mechanism to report extremist behavior or attempts at recruiting military personnel by extremist groups. Moreover, previous prevention programs implemented by the Department have yielded mixed results. Undoubtedly, the programs the Department establishes in the coming months aimed at preventing and responding to extremist ideology among servicemembers will be a critical part of what should be a holistic approach to this complex problem.

As the Department begins to implement the first National Strategy for Countering Domestic Terrorism, the Committee expects the Secretary of Defense to prioritize resources necessary to execute the strategy. The Committee directs the Secretary of Defense and the Service Secretaries to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the Department's progress in implementing the Strategy, including the funding requirements for each effort. Further, the Committee directs the Secretary of Defense to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the Department's progress on implementation of the recommendations set forth in the report provided in response to section 530 of Public Law 116-92 and dated October 14, 2020, as well as the Secretary of Defense memorandum "Immediate Actions to Counter Extremism in the Department and Establishment of the Countering Extremism Working Group" dated April 9, 2021. The Committee directs the Secretary of Defense to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the Department's progress in developing improved security clearance policies, procedures, and training to ensure that individuals who adhere to extremist ideologies do not have security clearances. Finally, the Committee encourages the Secretary of Defense and the Service Secretaries to study how counseling and other support services could be leveraged to prevent and reverse extremist beliefs held by active duty military personnel who are identified or self-identify as endorsing white supremacist or violent anti-government ideologies.

SEXUAL ASSAULT PREVENTION AND RESPONSE

The Committee believes that sexual assault and sexual harassment in the military and at the Service academies have reached crisis proportions. The Fort Hood Independent Review Committee Report details the failures of senior leaders to create a safe and professional environment for all servicemembers and the failure at the command level to prevent and punish sexual harassment and assault at the most basic level. While specific to Fort Hood, the report describes deficiencies in command climate that pervade all the Services. The report findings are emblematic of the broader culture in the military where systemic leadership failures have led to a permissive environment, resulting in higher rates of sexual assaults and harassment.

The Committee notes the Independent Review Commission on Sexual Assault and Sexual Harassment recently completed its work and delivered its findings and recommendations to the Secretary of Defense. The Commission's work focused on holding perpetrators accountable, preventing sexual assault before it occurs, improving the military's climate and culture, and victim care and support. The Committee directs the Secretary of Defense, in coordination with the Service Secretaries, to submit a report to the House and Senate Appropriations Committees not later than 30 days after the enactment of this Act on its progress in implementing the Commission's recommendations and provide the funding requirements for each effort.

The Committee recommendation includes \$442,653,000, an increase of \$54,500,000 above the budget request, for sexual assault prevention and response programs. This recommendation includes \$7,500,000 above the request for the Sexual Assault Prevention and Response Office and an additional \$47,000,000 for the Special Victims' Counsel program for transfer to the Services, including the National Guard and reserve components.

MILITARY FAMILIES AND FOOD INSECURITY

The Committee is concerned by the alarming rate of food insecurity faced by military families. While servicemembers and their families may have access to government food assistance, their ability to qualify can vary by program and location, forcing servicemembers to seek charitable food assistance or limit the ability to eat healthy or nutritious food. The coronavirus pandemic and its economic repercussions have only magnified the problem of food insecurity experienced by military families. For National Guard and reserve personnel, the past year of near constant deployments to respond to the pandemic, civil unrest, and natural disasters has exacerbated the problem of food insecurity. Recent data from the United States Census Bureau found hunger among guardsmen and reservists is more than double the national rate. The Committee notes the Secretary of Defense is required to submit a report providing an assessment of the current extent of food insecurity among servicemembers and their dependents as directed by the National Defense Authorization Act for Fiscal Year 2020. The Committee directs the Secretary of Defense to provide the report to the House and Senate Appropriations Committees in conjunction with

its submission to the House and Senate Armed Services Committees and to provide a briefing to the House and Senate Appropriations Committees not later than 30 days after the submission of the report.

MILITARY PERSONNEL, ARMY

Fiscal year 2022 budget request	\$47,973,824,000
Committee recommendation	47,875,354,000
Change from budget request	-98,470,000

The Committee recommends an appropriation of \$47,875,354,000 for Military Personnel, Army which will provide the following program in fiscal year 2022:

TITLE II

OPERATION AND MAINTENANCE

The fiscal year 2022 Department of Defense operation and maintenance budget request totals \$253,623,852,000. The Committee recommendation provides \$254,320,053,000 for the operation and maintenance accounts. The table below summarizes the Committee recommendations:

OPERATION AND MAINTENANCE
(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

REPROGRAMMING GUIDANCE FOR OPERATION AND MAINTENANCE
ACCOUNTS

The Secretary of Defense is directed to submit the Base for Re-programming (DD Form 1414) for each of the fiscal year 2022 appropriation accounts not later than 60 days after the enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until this report is submitted to the House and Senate Defense Appropriations Subcommittees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities, or between sub-activity groups in the case of Operation and Maintenance, Defense-Wide, in excess of \$10,000,000. In addition, the Secretary of Defense shall follow prior approval reprogramming procedures for transfers in excess of \$10,000,000 out of the following readiness sub-activity groups:

Army:

- Maneuver units
- Modular support brigades
- Land forces operations support
- Aviation assets
- Force readiness operations support
- Land forces depot maintenance
- Base operations support
- Facilities sustainment, restoration, and modernization
- Specialized skill training
- Flight training

Navy:

- Mission and other flight operations
- Fleet air training
- Aircraft depot maintenance
- Mission and other ship operations
- Ship depot maintenance
- Combat support forces
- Facilities sustainment, restoration, and modernization
- Base operating support

Marine Corps:

- Operational forces
- Field logistics
- Depot maintenance
- Facilities sustainment, restoration, and modernization

Air Force:

- Primary combat forces
- Combat enhancement forces
- Depot purchase equipment maintenance
- Facilities sustainment, restoration, and modernization
- Contractor logistics support and system support
- Flying hour program
- Base support

Space Force:

Global C3I and early warning
 Space operations
 Contractor logistics support and system support
 Administration

Air National Guard:

Aircraft operations

Additionally, the Secretary of Defense is directed to use normal prior approval reprogramming procedures when implementing transfers in excess of \$10,000,000 into the following budget sub-activities:

Operation and Maintenance, Army National Guard:

Base operations support
 Facilities sustainment, restoration, and modernization

Operation and Maintenance, Air National Guard:

Aircraft operations
 Contractor logistics support and systems support

REPROGRAMMING GUIDANCE FOR SPECIAL OPERATIONS COMMAND

The Committee directs the Secretary of Defense to submit a baseline report that shows the Special Operations Command's operation and maintenance funding by sub-activity group for the fiscal year 2022 appropriation not later than 60 days after the enactment of this Act. The Secretary of Defense is further directed to submit quarterly execution reports to the congressional defense committees not later than 45 days after the end of each fiscal quarter that addresses the rationale for the realignment of any funds within and between budget sub-activities and the movement of any base funds used to support overseas contingency operations. Finally, the Secretary of Defense is directed to notify the congressional defense committees 30 days prior to the realignment of funds in excess of \$10,000,000 between sub-activity groups.

OPERATION AND MAINTENANCE SPECIAL INTEREST ITEMS

Items for which additional funds have been provided or have been specifically reduced as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount as specifically addressed in this report. Below Threshold Reprogrammings may not be used to either restore or reduce funding from congressional special interest items as identified on the DD Form 1414.

QUARTERLY OPERATION AND MAINTENANCE UPDATES

Regular interaction with each of the Service's financial management offices enhances the ability of the Committee to perform its essential oversight responsibilities. Through these interactions, the Committee gains a better understanding of the challenges each of the Services face with the obligation and execution of their programs and contracts. The Committee notes the successful quarterly meetings this year with each of the Services and directs the Direc-

tor of each of the Service's Operations Divisions (Financial Management and Budget) to continue to provide quarterly briefings to the House and Senate Appropriations Committees on their respective operation and maintenance execution rates in fiscal year 2022.

RESTORING READINESS

The Committee recommendation includes additional readiness funds for each of the Services within the operation and maintenance accounts which shall only be used to improve military readiness, including providing for increased training and depot maintenance activities. None of the funding provided may be used for recruiting, marketing, or advertising programs. The additional funding is a congressional special interest item. The Committee directs the Secretary of Defense and the Service Secretaries to submit a detailed spend plan by sub-activity group to the House and Senate Appropriations Committees not less than 30 days prior to the obligation of these funds.

TUITION ASSISTANCE PROGRAM

The Committee recognizes that servicemembers can utilize the Military Tuition Assistance Programs (TAP) to enroll in civilian education programs and commends the Marine Corps and the Air Force for augmenting these programs in their fiscal year 2022 budget requests. However, the Committee is concerned that the current academic and career advising programs do not provide structured guidance that aligns military and civilian workforce requirements with TAP education programs and courses. The Committee directs the Under Secretary of Defense for Personnel and Readiness and the Service Secretaries to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act with recommendations to augment the Services' academic and career advising programs to provide servicemembers with structured guidance for TAP education programs and courses, as if they were to attend a military education program. The recommendations should also include guidance for servicemembers who wish to transition to a hard-to-fill career in their respective Service. The report should also create an annual survey to align academic and career counseling and structured guidance with servicemembers' career goals in the military or civilian workforce.

MILITARY CRIMINAL INVESTIGATIVE ORGANIZATIONS

The Committee recognizes that Military Criminal Investigative Organizations (MCIOs), which include the United States Army Criminal Investigation Division, the Naval Criminal Investigative Service, and the Air Force Office of Special Investigations, play a critical role in bringing servicemembers who commit felonies to justice. As the volume and complexity of investigations increase, including the doubling of sexual assault cases over the last decade, the resources made available to the MCIOs by the Services have not kept pace. Additional resources and significant reforms to the structure of each of the MCIOs will help address these shortfalls. The Committee encourages the Service Secretaries to review the re-

quirements for their specific MCIOs commensurate with their increased caseloads; hire, train, and equip digital forensics examiners capable of downloading and analyzing mobile phone and laptop data at each large installation; hire more civilian special agents; and refrain from making mid-year budget reductions to the MCIOs.

PILOT SHORTAGES

The Committee supports efforts throughout the Department of Defense to address the shortage of pilots across the Services. The Committee encourages the Secretary of Defense to work with higher education institutions, including Historically Black Colleges and Universities, Hispanic Serving Institutions, and other Minority Serving Institutions, to develop programs that will prepare more students to meet the eligibility requirements for pilot training. In addition, the Committee encourages the Secretary of the Air Force to examine university-based training for Air Force ROTC cadets and civilian aviation students as pilots and sensor operators for remotely piloted aircraft. The Committee directs the Secretary of Defense, in coordination with the Service Secretaries, to submit a report to the congressional defense committees on these efforts not later than 90 days after the enactment of this Act.

MINORITY AND WOMEN-OWNED BUSINESSES

The Committee is concerned that the Department of Defense does not take full advantage of the products and services available to the Department from minority and women-owned small businesses. The Committee directs the Secretary of Defense to submit a report to the House and Senate Appropriations Committees not later than 60 days after the enactment of this Act, and quarterly thereafter, on the Department's efforts to work with minority and women-owned small businesses. The report shall specify the number and value of Department of Defense contracts for minority and women-owned small businesses and include a description of specific outreach programs the Department uses to reach minority and women-owned small businesses. The report shall also include disaggregated data, to include gender and ethnicity.

MILITARY FOOD TRANSFORMATION

The Committee remains concerned about the growing obesity crisis in the Department of Defense and its impact on military recruitment, readiness, and retention. To address this challenge, the Committee directs the Secretary of Defense to establish a food transformation cell, similar to the office that led the Healthy Base Initiative, not later than 90 days after the enactment of this Act. The food transformation cell shall be composed of subject matter experts in food service operations who possess knowledge of modern healthy food delivery systems and an understanding of all aspects of Department of Defense laws and policies related to food service.

This cell should develop and execute a plan for improving on-base accessibility to healthfully prepared and pre-prepared food. The plan should leverage leading practices from university and private-sector campus dining, and lessons learned from previous De-

partment of Defense food service transformation efforts. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act which provides an outline of these efforts.

Further, the Committee encourages the Secretary of Defense to use the Department's proposed plan to conduct demonstration pilots at two installations per Service. Where appropriate, pilot sites should partner with the local community to improve the food environment and encourage smart eating. The goal of each pilot should be to develop and test appropriate business models that increase the availability, affordability, and acceptability of healthy performance foods. Each pilot should also include expansion of the use of the meal card by servicemembers at exchange-controlled food locations and morale, welfare, and recreation-controlled food locations.

MEALS READY-TO-EAT WAR RESERVE

The Committee recommendation fully supports the fiscal year 2022 request for the Defense Logistics Agency for a minimum of 2,500,000 cases of meals ready-to-eat and reaffirms support for the War Reserve stock objective of 5,000,000 cases.

GEO-ECONOMICS, INNOVATION, AND NATIONAL SECURITY

The Committee recognizes that the long-term national security challenges for the United States are broad and encompass not just military preparedness but also the economic, technological, and political spheres. The Committee is concerned that professional military education is not keeping pace with rapid developments in geoeconomics, innovation, and national security, and believes that the education of military officers and other national security leaders must include all aspects of great power competition. The Committee encourages the Secretary of Defense and the Service Secretaries to explore opportunities, including the establishment of public-private partnerships, to research, develop, and implement professional military education course curricula related to geoeconomics, innovation, and national security.

HARD-TO-FILL POSITIONS

The Committee supports improving the coordination of federal efforts involved in growing and sustaining a robust defense workforce. To help achieve this for the Department of Defense, the Committee directs the Secretary of Defense and the Service Secretaries to provide a report to the congressional defense committees not later than 60 days after the enactment of this Act which details both civilian and military hard-to-fill positions in the Department of Defense and the Services. The report should include how the Department and Services' modernization strategies may impact these needs and possible future gaps in the next five to ten years.

The Committee recognizes that the Department and Services' hiring authorities can generally classify a position as civilian, contractor, or military. For civilian and contractor positions, the Department and Services must comply with the Office of Personnel Management's occupation codes and Federal Acquisition Regulations for minimal education and work experience requirements, re-

spectively. The Committee believes there is an opportunity to leverage the variation in the hiring authorities' decision making on position classification, education, and work experience requirements for comparable positions to assess whether these variable categories are positively associated with recruitment for hard-to-fill positions. The Committee directs the Under Secretary of Defense for Personnel and Readiness and the Service Secretaries to provide a report to the congressional defense committees not later than 120 days after the enactment of this Act which evaluates the effect of these three variables on recruitment for comparable hard-to-fill positions in the Department and Services. The report should include an evaluation of the three variables on recruitment of women, minorities, individuals with disabilities, and veterans for hard-to-fill positions.

In addition, the Committee is concerned about hiring gaps relating to Career and Technical Education (CTE) and Science, Technology, Engineering, and Math (STEM) programs and careers throughout the Department of Defense. The Committee directs the Secretary of Defense to coordinate with the Service Secretaries to provide a report to the congressional defense committees not later than 60 days after the enactment of this Act that delineates the programs and funding levels relating to CTE and STEM programs in the Department of Defense. The report should clearly identify any programs and funding that promotes advancement for females, minorities, individuals with disabilities, military students, or veterans. For each program, the report should include the award recipients' funding amount, use, and the effectiveness of the program to recruit students into CTE or STEM programs or careers in the Department, Services, or defense industry.

After the above-mentioned report is delivered to Congress, the Committee directs the Secretary of Defense to establish a Defense CTE and STEM Education and Workforce Pipeline Strategy. The Committee directs the Secretary of Defense to provide an initial overview of the strategy to the congressional defense committees not later than 45 days after the delivery of the above report with a final report to be provided to the congressional defense committees not later than 270 days after the enactment of this Act.

The Secretary of Defense should coordinate with the Secretaries of Education, Energy, Labor, and Veterans Affairs, and the Director of the Office of Science and Technology Policy on this strategy. The strategy should include an analysis of currently hard-to-fill positions and those in the next five to ten years. The strategy should also provide recommendations on creating and/or modifying all levels of current CTE and STEM programs and funding to develop a comprehensive group of programs to address current and possible future defense workforce gaps in this arena. Within the recommendations, particular emphasis should be placed on programs that encourage women, minorities, individuals with disabilities, and veterans to pursue CTE and STEM careers.

RECRUITING AND RETENTION FOR HARD-TO-FILL POSITIONS

The Committee is concerned that Department of Defense recruiting and retention programs are not as effective as they could be to employ personnel for the challenging types of vacancies the Depart-

ment and the Services have. To address this need, the Committee directs the Under Secretary of Defense for Personnel and Readiness and the Service Secretaries to provide an initial overview to the congressional defense committees not later than 60 days after the enactment of this Act, and quarterly updates thereafter on the progress of the report, with a final report due not later than 270 days after the enactment of this Act. The initial overview and subsequent report shall align enlisted and officer recruitment incentives, education and workforce development programs, retention incentives, and manpower requirements, for hard-to-fill positions for each Service.

The report should include an annual survey to ensure requirements are matched to goals to fill these positions. The report should include desired educational and technical skills, retention incentives, education or workforce development programs and enrollment, and recruitment incentives for hard-to-fill positions. The report should identify all relevant entities, an overview of their responsibilities, and a formal means of evaluation between entities. The report should address how each Service will utilize the survey to incorporate its modernization priorities into each of the listed constructs. Finally, the report should include an overview of modernization-related changes to these incentives and programs and their estimated costs.

ADVERTISING

The Committee notes that, as the largest advertiser in the United States, the federal government should work to ensure fair access to its advertising contracts for small disadvantaged businesses and businesses owned by minorities and women. The Committee directs the Secretary of Defense to include with the fiscal year 2023 budget submission the total level of expenditures for fiscal year 2022 and the requested level of funding for fiscal year 2023 for all contracts for advertising services; contracts for advertising services by minority or women owned businesses; and contracts for advertising services by socially and economically disadvantaged small businesses (as defined in section 8(a)(4) of the Small Business Act (15 U.S.C. 637(a)(4)).

LANGUAGE FLAGSHIP PROGRAM

The Committee recognizes the National Security Education Program provides training for servicemembers and civilians in languages and cultures critical to national security. The Committee recommendation restores the funding removed in the budget request for this critical program and includes a total of \$22,000,000 for the program. The Committee encourages the Secretary of Defense to continue supporting programs that ensure warfighters receive the language and culture training needed to effectively complete missions. Additionally, the Committee directs the Secretary of Defense to submit a spend plan for this program's funding to the House and Senate Appropriations Committees not later than 15 days before the obligation of funds.

The Committee is concerned about the lack of military personnel with advanced language skills and believes this could be addressed by promoting foreign language study programs targeting elemen-

tary and secondary students. The National Defense Authorization Act for Fiscal Year 2020 authorized the development of a competitive grant program to provide support to eligible entities, including Department of Defense Education Activity schools, for the establishment, improvement, or expansion of world language study for this population. In support of this program, the Committee recommendation includes an additional \$15,000,000 for Department of Defense Education Activity schools. The Committee directs the Secretary of Defense to provide a detailed spend plan to the House and Senate Appropriations Committees for the implementation of the program, which should commence with the 2022–2023 academic year, not later than 45 days after the enactment of this Act.

Additionally, the Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than October 1, 2022 which lists the schools that receive funds, in what amount, and how the funds were executed, as well as how the Department plans to expand the program to public schools in a local education agency that hosts a unit of the Junior Reserve Officers Corps Training Center, in the following academic year.

CLOSE AIR SUPPORT

The Committee notes the January 2021 report released by the Government Accountability Office entitled “Close Air Support: Actions Needed to Enhance Friendly Force Tracking Capabilities and Fully Evaluate Training” included recommendations to prevent friendly fire incidents in this type of operation. The Committee encourages the Secretary of Defense to fully implement the report’s recommendations. Further, the Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on the status of the implementation of the recommendations.

UNPLANNED EXERCISES

The Committee is aware that the Secretary of Defense, upon the recommendation of the Joint Chiefs of Staff, may order impromptu operations for each of the Services for execution in the different combatant commands. Given the inability of the Department of Defense to provide prior budgetary information for such unplanned exercises to the congressional defense committees due to the ambiguity of the schedule, the Committee directs the Secretary of Defense to submit a quarterly report on the use of operation and maintenance funds for activities or exercises in excess of \$5,000,000 that are designated as unplanned activities for fiscal year 2022. The reports shall include, but not be limited to the title, date, location, and which Services and units participated (with an estimated number of participants); the total cost, by budget line item (with a breakdown by cost element such as transportation); and a short explanation of the objective.

The reports may be provided with a classified annex, as necessary, and shall be submitted to the congressional defense committees not later than 30 days after the close of each quarter of the fiscal year.

CHILDCARE

The Committee appreciates the efforts the Services have made over the past two years to address the readiness limitations that military personnel face when there is limited access to appropriate childcare. The Committee encourages each of the Service Secretaries to investigate expanding access to childcare for servicemembers during irregular times, such as evenings and weekends. The Committee directs the Service Secretaries to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act which describes methodologies to meet these demands and the approximate costs of expanding these opportunities for military personnel.

ALIGNING CIVILIAN AND MILITARY EDUCATION FOR WORKFORCE DEVELOPMENT

The Committee directs the Under Secretary of Defense for Personnel and Readiness and the Service Secretaries to provide a report to the congressional defense committees not later than 120 days after the enactment of this Act that aligns enlisted and officer military education and workforce development programs with civilian education and workforce development programs for each Service. The report should include how each Service utilizes this information for servicemember recruitment and retention, and for transitioning servicemembers to translate their education and work experience into the civilian education system and workforce. In cases where there is an incomparable military education or workforce development program to align with civilian stackable certificates, associate's degrees, and bachelor's degrees, the Under Secretary of Defense for Personnel and Readiness and the Service Secretaries must identify and justify the lack of a comparable military education program on the basis of the Service's manpower requirements or cost efficiency.

VIEQUES AND CULEBRA

The Committee remains concerned with the pace and scope of environmental restoration on the island municipalities of Culebra and Vieques in Puerto Rico. The Committee encourages the Secretary of the Army and the Secretary of the Navy to work closely with the Environmental Protection Agency, the Fish and Wildlife Service, and the Puerto Rico Environmental Quality Board to maximize public participation and transparency in the decontamination process in order to achieve a thorough decontamination result on both islands.

The Committee also is concerned about public safety on the northwest peninsula of Culebra due to unexploded ordnance identified there by the Army. The Committee encourages the Secretary of the Army to exercise available authorities, including the authority clarified in the National Defense Authorization Act for Fiscal Year 2015, to decontaminate the northwest peninsula. Additionally, the Committee directs the Secretary of the Army and the Secretary of the Navy each to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act detailing all respective decontamination authorities and plans ap-

plicable to Culebra and Vieques, to include particular emphasis on the decontamination of the northwest peninsula of Culebra.

The Committee also notes that there are gaps in information about the types and amounts of ordnance used on Vieques and Culebra, as well as potential links between the ordnance used and threats to public health. The Committee directs the Secretary of the Army and the Secretary of the Navy to provide a report to the congressional defense committees not later than 60 days after the enactment of this Act on previously released information related to the ordnance on the two islands. The Committee also urges the Secretaries to publish the relevant documents on the internet in a single location and in a user-friendly format.

INDIAN FINANCING ACT

The Committee recommendation includes funds for activities authorized in the Indian Financing Act of 1974 and directs the Secretary of Defense to obligate such funds not later than 90 days after the enactment of this Act.

PFOS/PFOA EXPOSURE ASSESSMENT

The National Defense Authorization Act for Fiscal Year 2021 authorized a study and assessment of the health implications of perfluorooctane sulfonate (PFOS) and perfluorooctanoic acid (PFOA) contamination in drinking water. The Committee recommendation includes \$15,000,000 for the study and assessment. The Committee also directs the Assistant Secretary of Defense for Energy, Installations, and Environment to submit a report to the House and Senate Appropriations Committees not later than 30 days after the enactment of this Act on the Department's strategy to execute this funding.

The Committee remains concerned about PFOS/PFOA contamination on current and former domestic military installations. As the Department conducts its exposure assessment on all installations known to have PFOS/PFOA drinking water contamination, the Committee directs the Assistant Secretary of Defense for Energy, Installations, and Environment to publicly release the measured levels of contamination found at each installation. For all remediation activities, the Department is directed to achieve a drinking water cleanup standard no higher than the threshold of the Environmental Protection Agency health advisory level (currently 70 parts per trillion) for federally controlled sites and surrounding communities whose water sources were contaminated as a result of Department activities. The Committee urges the Secretary of Defense to focus continued investments in groundwater remediation technologies that are both cost effective and efficacious.

Additionally, the Committee directs the Department to comply with the provisions of section 322 of the National Defense Authorization Act for Fiscal Year 2020. The Committee notes that today's currently available Aqueous Film Forming Foams (AFFF) contain Per- and Polyfluoroalkyl Substances (PFAS) and currently, none of the commercially available PFAS-free foams meet the Department's strict safety standards to rapidly extinguish dangerous fuel fires. The Committee understands that a prohibition on the use of current versions of AFFF would drastically reduce the ability of the

Department's firefighters to fight fuel fires and increase risk to servicemembers and firefighters. However, due to the significant and salient public health risks associated with PFOS/PFOA contamination, the Committee urges the Secretary of Defense to expedite replacement of fluorinated AFFF throughout all branches of the military and cease use of AFFF prior to October 1, 2024.

PER- AND POLYFLUOROALKYL SUBSTANCES CLEANUP COST REPORTING

The Committee notes the creation of a Per- and Polyfluoroalkyl Substances (PFAS) Task Force to address the growing health concerns over releases of these substances and their effects on military installations and the surrounding communities. To support the Department's efforts, the Committee directs the Secretary of Defense to submit to the House and Senate Appropriations Committees, not later than 90 days after the enactment of this Act, and semi-annually thereafter, a report on costs associated with investigating and cleaning up PFAS at sites with funding provided by either the environmental restoration or operation and maintenance appropriation accounts. The report shall provide, for each component and by installation name, for the investigation and cleanup of PFAS: the actual obligations through the end of fiscal year 2019; the actual obligations in fiscal year 2020; the planned and actual obligations in fiscal year 2021; the planned obligations for fiscal year 2022; and the estimated cost after fiscal year 2022.

PERFLUORINATED CHEMICALS CONTAMINATION AND FIRST RESPONDER EXPOSURE

The Committee remains concerned with the health implications of exposure to perfluorinated chemicals (PFCs), including the increased rate of cancer in Department of Defense firefighter and first responder personnel. The Committee understands there are ongoing efforts to develop an alternative firefighting foam that meets military requirements and is free from PFCs that have been linked to higher rates of certain cancers. Given the lack of definitive guidance around exposure levels, the Committee encourages the Secretary of Defense to accelerate adoption of other forms of foam that meet military specifications and do not contain PFCs. Further, the Committee understands that testing for firefighters for exposure to PFCs has begun and that the Department is developing firefighter population-level summation statistics for PFCs blood sampling of firefighters. The Committee is encouraged by these efforts but believes that additional measures need to be taken. The Committee directs the Assistant Secretary of Defense for Health Affairs to provide a report to the House and Senate Appropriations Committees not later than 180 days after the enactment of this Act on the Department's ongoing efforts to test and track potential first responder exposure to these chemicals as part of their existing, annual medical surveillance exams.

MINIMUM WAGE

The Committee concurs with Executive Order 14026 which increases the minimum wage for federal contractors to at least \$15 per hour. The Committee understands that the Department of De-

fense did not budget for this level of compensation for its non-appropriated funded employees for fiscal year 2022. The Committee requires a better understanding of the scope of the cost for the Department and the Services for non-appropriated funded employees. Therefore, the Committee directs the Secretary of Defense and the Service Secretaries to provide a report to the congressional defense committees not later than 60 days after the enactment of this Act that includes an overview of the number of non-appropriated funded personnel that do not receive at least \$15 per hour for their employment; the cost to provide every non-appropriated funded employee with a salary of at least \$15 per hour; and how those costs could be addressed in the fiscal year 2023 budget request submission.

HOUSING

The Committee believes that providing quality housing will improve recruitment, retention, and quality of life for junior enlisted servicemembers. The Army is currently testing a pilot program to use commercially available technology to allow military personnel to request maintenance and improvements to installation housing via mobile applications, websites, and other online tools to allow the timely reporting of a maintenance issue for tracking and repair purposes. The Committee encourages the Service Secretaries to consider scaling this program to all government-owned and government-leased housing on their respective installations.

OPERATION AND MAINTENANCE, ARMY

Fiscal year 2022 budget request	\$54,616,397,000
Committee recommendation	54,343,965,000
Change from budget request	-272,432,000

The Committee recommends an appropriation of \$54,343,965,000 for Operation and Maintenance, Army which will provide the following program in fiscal year 2022:

OPERATION AND MAINTENANCE

SMALL BUSINESS AND ARMY FUTURES COMMAND

The Committee is concerned with the findings of the Government Accountability Office in its report, “Army Future Command Should Take Steps to Improve Small Business Engagement for Research and Development,” which notes the lack of coordination between the Army Futures Command and small businesses. The Committee recognizes the importance of small businesses to the Department of Defense and encourages the Commanding General, Army Futures Command, to develop methods to improve small business engagement for research and development and to coordinate with the Army Office of Small Business Programs in its engagement efforts. The Committee directs the Secretary of the Army to create performance measures to track the Army Futures Command’s efforts and to submit a report to the congressional defense committees on these efforts not later than 90 days after the enactment of this Act.

UNITED STATES MILITARY ACADEMY

The Committee understands the United States Military Academy at West Point and Army Installation Management Command have developed a Sustainment, Restoration and Modernization (SRM) Bridge Plan to ensure that facilities at Camp Buckner and Camp Natural Bridge can sustain cadet training along with associated training task force housing requirements. The Committee appreciates this plan, which bridges the gap to planned military construction investments starting in fiscal year 2026. The Committee encourages the Secretary of the Army to robustly fund the SRM Bridge Plan in accordance with programmed amounts to ensure cadets and the associated training task force have the facilities necessary to carry out essential training.

EQUIPMENT AND FACILITIES SUSTAINMENT

The Committee notes the shift by the Army to a Holistic Health and Fitness system and recognizes the importance of equipment and facilities to a successful system. Given the ongoing requirement for functional fitness equipment, the Committee is concerned by the Army’s lack of a centralized purchasing system for the acquisition of new fitness equipment and the absence of a plan for the sustainment of such equipment. The Committee directs the Secretary of the Army to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act that details sustainment plans for fielded equipment, refurbished or re-equipped fitness facilities, containerized strength equipment, Army combat fitness test lane equipment, and other commercial fitness equipment.

AFRICAN CONTINENT SECURITY AND NATURAL RESOURCES
MANAGEMENT

The Committee is concerned that competition for scarce strategic resources and the impacts of climate change have led to increasing instability on the African continent. The Committee notes that land management and conservation efforts are an important tool to support security in resource-poor environments. The Committee recommendation includes an additional \$5,000,000 for the United

States Africa Command to partner with the United States Forest Service in support of international programs to develop land conservancies, prevent the trafficking of natural resources and protected animals, provide disaster assistance, address landscape-level water security, and develop a Youth Conservation Corps in African nations.

CAMOUFLAGE EQUIPMENT

The Committee recognizes the need to equip soldiers with effective camouflage equipment that will enable them to succeed in combat against near peer adversaries. However, the Committee notes that inconsistent purchasing for such equipment by the Army has led to significant challenges for the camouflage industrial base. Therefore, the Committee directs the Secretary of the Army to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on how the Army will acquire proper camouflage equipment. The report should include how the Army intends to ensure the industrial base is robustly maintained, and how cost savings and operational efficiencies can be achieved while preventing force readiness issues.

OPERATION AND MAINTENANCE, NAVY

Fiscal year 2022 budget request	\$60,441,228,000
Committee recommendation	61,086,598,000
Change from budget request	+645,370,000

The Committee recommends an appropriation of \$61,086,598,000 for Operation and Maintenance, Navy which will provide the following program in fiscal year 2022:

SUBMARINE MAINTENANCE

The Committee notes that the Congressional Budget Office released a report on submarine maintenance activities which suggested that the Navy's actions are still off course. The Committee believes that the Navy must increase congressional confidence that the Service will be able to maintain its vessels effectively and efficiently. Therefore, the Committee directs the Secretary of the Navy to provide a quarterly report to the congressional defense committees, beginning not later than 30 days after the enactment of this Act, on the status of maintenance and repair work for submarines. The report shall include the amount of funding budgeted for submarine maintenance in fiscal year 2022 and the prior three years, the original estimated amount of time expected for maintenance activities to be completed, any adjustments to the schedule, the reasons why any changes were necessary, and the new expected timeframe for completion and any additional costs involved. The report shall be broken out by shipyard and/or private entity (by site), by name, and type of submarine. The report shall also include any new efforts the Navy has taken to address the delays it continues to face.

AIRFRAME MAINTENANCE

In addition to submarine maintenance delays, the Committee notes delays have been reported on airframe repair and maintenance programs of the Department of the Navy. The Committee directs the Secretary of the Navy to provide quarterly reports to the congressional defense committees, beginning not later than 30 days after the enactment of this Act, on the status of maintenance and repair work for each airframe. The report shall include the amount of funding budgeted for airframe maintenance in fiscal year 2022 and the prior three years, the original estimated amount of time expected for maintenance activities to be completed, any adjustments to the schedule, the reasons why any changes were necessary, and the new expected timeframe for completion and any additional costs involved.

MK VI PATROL BOATS

The Committee is concerned by conflicting announcements from the Department of the Navy regarding possible divestiture of Mk VI patrol boats from its inventory. Given these inconsistencies, the Committee directs the Secretary of the Navy to conduct a review prior to making any final decision on the program, and submit a report to the congressional defense committees not later than 60 days after the enactment of this Act that includes an assessment of the Mk VI platform's current and future mission capabilities; any capability gaps that are not currently fulfilled by the Mk VI fleet; any possible modifications necessary to ensure identified capability gaps are filled and the system engineering, testing, and evaluation data to support such conclusions; the vessel's utility in foreign partnership building and engagement with allies; and the Navy's proposal to independently fulfill current and future patrol boat missions.

OPERATION AND MAINTENANCE, MARINE CORPS

Fiscal year 2022 budget request	\$9,024,791,000
Committee recommendation	9,090,653,000
Change from budget request	+65,862,000

The Committee recommends an appropriation of \$9,090,653,000 for Operation and Maintenance, Marine Corps which will provide the following program in fiscal year 2022:

OPERATION AND MAINTENANCE
(DOLLARS IN THOUSANDS)

	BUDGET REQUEST	COMMITTEE RECOMMENDED	CHANGE FROM REQUEST

RQ-21A SYSTEM

The Committee recognizes that the RQ-21A system provides the Marine Corps and Naval Special Warfare operators a shipboard-capable Intelligence, Surveillance, and Reconnaissance (ISR) platform capable of delivering intelligence products directly to the tactical commander in real time. The Committee understands that the Marine Corps is implementing a gradual divestment of the current Group 3 RQ-21A system, adopting the Group 5 MQ-9 for medium altitude/long endurance surveillance, and developing future requirements for a new “Group 3 Light” long range/long endurance small unmanned aerial system for Marine Corps units. While the Committee acknowledges the need for a diversified portfolio, it is concerned with the omission of the RQ-21A system as a cost-effective, operationally proven solution for ISR delivery. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act which outlines the basis for the divestiture decision. Specifically, the report should explain the requirements driving the change, the RQ-21A’s capacity to meet those requirements, the cost implications associated with the change, the estimated cost to upgrade the RQ-21A to satisfy the new requirements, the timeline for the divestiture of the RQ-21A system compared to the timeline for fielding the new unmanned aerial system concept, and the strategy for addressing any gap in capability that results from this transition.

OPERATION AND MAINTENANCE, AIR FORCE

Fiscal year 2022 budget request	\$53,876,475,000
Committee recommendation	53,756,603,000
Change from budget request	- 119,872,000

The Committee recommends an appropriation of \$53,756,603,000 for Operation and Maintenance, Air Force which will provide the following program in fiscal year 2022:

OPERATION AND MAINTENANCE

AIR FORCE PILOT SHORTFALL

The Committee remains concerned by the inability of the Air Force to maintain the requisite number of pilots each year. The Committee supports new initiatives that the Air Force is implementing this year, such as Pilot Training Next, and other efforts to increase training throughput and anticipates seeing positive results of the programs. However, the Committee notes that a report required by House Report 116–453, and the analysis associated with it, has not yet been provided to the Committee. Therefore, the Committee directs the Commander of Air Education and Training Command and the Deputy Chief of Staff of Operations at Air Force Headquarters to brief the House and Senate Appropriations Committees not later than 30 days after the enactment of this Act on the status of the report and which initiatives are being considered in fiscal year 2022 to address the Air Force’s chronic pilot shortfall. The Committee also directs the Commander of Air Education and Training Command to provide quarterly updates to the House and Senate Appropriations Committees beginning not later than 45 days after the enactment of this Act.

PILOT TRAINING SAFETY

The Committee is concerned that recent events have highlighted negligence, equipment issues, and unnecessary risk at Air Force pilot training centers during F–16 training and qualification. The Committee believes that the Air Force needs to prioritize pilot safety and ensure that it follows its own directives. The Air Force must follow emergency procedures regarding landing or ejecting, utilize emergency checklists, and ensure that equipment has received the necessary upgrades to protect pilots in the event of an ejection. Additionally, the Air Force should ensure that the flying operation supervision structure is staffed with individuals possessing the correct level of experience to successfully address emergency situations. To ensure these guidelines are followed, the Committee directs the Secretary of the Air Force to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act which details the methods used to ensure pilot safety. The report shall include the efforts the Air Force is taking to implement the use of reality systems during pilot training to reduce overall training risk and applications during combat training scenarios, non-combat training scenarios, and emergency procedure training scenarios.

AIRCRAFT PROTECTION

The Committee recognizes the adverse impact that sunlight and hail can have on the readiness and service life of aircraft. Unprotected aircraft can sustain significant damage during hailstorms and long-term damage due to extensive sun exposure, creating additional, yet preventable, maintenance costs. The Committee encourages the Secretary of the Air Force to prioritize maintenance that may provide protection for aircraft to prevent damage caused by weather.

OPERATION AND MAINTENANCE, SPACE FORCE

Fiscal year 2022 budget request	\$3,440,712,000
Committee recommendation	3,372,212,000
Change from budget request	-68,500,000

HELICOPTER AND TILTROTOR NOISE MITIGATION STUDY

The Department of Defense Appropriations Act, 2021, directed the Office of Local Defense Community Cooperation to begin efforts on the Noise Mitigation Communities Partnership program which will fund mitigation efforts for communities affected by jet noise. While helicopter and tiltrotor aircraft do not generate the same noise level as jets, their accumulated noise over longer periods of time, as well as their lower flight profiles, can have similar effects on local communities. In order to assess which local communities are impacted by military helicopter and tiltrotor noise, the Committee directs the Director of the Office of Local Defense Community Cooperation to conduct a study and submit a report to the congressional defense committees not later than 360 days after the enactment of this Act with a list of military installations and training routes that are in close proximity to local communities that are used by military helicopters and tiltrotors; the accumulated day-night average sound level over a 24 hour period for these locations; noise contour maps of the defined locations exceeding a 65 decibel threshold; and the challenges of incorporating any communities affected by helicopter or tiltrotor noise into the existing Noise Mitigation Community Partnership.

FOSSIL FUELS

The Committee is concerned with the ongoing effects of climate change, including extreme weather events, recurring flooding, and sea level rise, on the Department of Defense and its operations. The Committee is also concerned that the Department is contributing to this crisis as a large consumer of fossil fuels and producer of greenhouse gases. While the Department must conduct the missions required to carry out the National Defense Strategy, the Committee believes the Department can both lower its carbon footprint and defend the nation. The Committee directs the Secretary of Defense to submit a report, with a classified annex if necessary, to the congressional defense committees not later than 180 days after the enactment of this Act on the use of fossil fuels across all defense activities in fiscal year 2021. The report shall be categorized by Service and major activity, shall include a summary of efforts by the Department to prioritize missions which lower the use of fossil fuels, and shall include technological investments made by the Department to increase energy efficiency.

CIVILIAN CYBER WORKFORCE

The Committee recognizes the challenge that the Department of Defense faces in hiring individuals with the necessary security clearances for the cyber workforce and encourages the Secretary of Defense to find innovative solutions to increase the civilian cyber workforce. The Committee believes that the Department of Defense should collaborate with colleges and universities to recruit cyber-focused students during their junior or senior years, with the intent that upon graduation the student will have a completed security clearance. The Committee notes the Secretary of Defense is currently required to submit a report to the congressional defense committees on efforts to increase the throughput of security clear-

ances and further directs the Secretary of Defense to provide an update to the congressional defense committees not later than 60 days after the enactment of this Act with any changes to the anticipated date of completion for the report.

CYBER EDUCATION COLLABORATIVES

The Committee remains concerned by widespread shortages in cybersecurity talent across both the public and private sector. In accordance with the recommendations of the Cyberspace Solarium Commission, the Committee encourages the Under Secretary of Defense for Research and Engineering to direct cyber-oriented units to collaborate with local colleges and universities on research, fellowships, internships, and cooperative work experiences to expand cyber-oriented education opportunities and grow the cybersecurity workforce. The Committee also appreciates that veterans and transitioning servicemembers could serve as a valuable recruiting pool to fill gaps in the cybersecurity workforce. Accordingly, the Committee encourages the Under Secretary of Defense for Research and Engineering to prioritize collaboration with colleges and universities near military installations as well as the veteran population.

FOREIGN LANGUAGE AND CULTURAL COMPETENCY EDUCATION AND WORKFORCE PIPELINE STRATEGY

The Committee is concerned that federal foreign language and cultural competency programs do not adequately invest in civilian early childhood, K–12, and higher education programs. The Committee directs the Secretary of Defense, in coordination with the Director of National Intelligence and the Service Secretaries, to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act that delineates the programs and funding levels relating to foreign language and cultural competency programs in the Department of Defense and the Intelligence Community. The report shall clearly identify any programs and funding that promote advancement particularly for females, minorities, individuals with disabilities, military students, or veterans. For each program, the report shall include each recipient's award amount, use, and effectiveness of the program to recruit students into foreign language or cultural competency programs or careers in the Department of Defense or defense industry.

Further, the Committee directs the Secretary of Defense to establish a Defense Foreign Language and Cultural Competency Education and Workforce Strategy. The Committee directs the Secretary of Defense to submit an update to the congressional defense committees not later than 45 days after the receipt of the report cited above on initial concepts, and provide the completed strategy to the congressional defense committees not later than 270 days after the enactment of the Act. The Secretary of Defense should coordinate with the Director of National Intelligence and the Secretaries of Education and State on this strategy. The strategy should include an analysis of current civilian and military hard-to-fill positions for foreign language and cultural competencies and what is estimated for the next five to ten years. The strategy should also provide recommendations on creating and/or modifying all levels of

current foreign language and cultural programs and funding to develop a comprehensive group of programs to address possible future defense workforce gaps in this arena. Within the recommendations, particular emphasis should be placed on programs that encourage women, minorities, individuals with disabilities, and veterans to pursue foreign language and cultural competency careers.

PROGRAMS FOR MILITARY SPOUSES

The Committee believes the Department's "Survey of Active Duty Spouses" lacks necessary local data to determine whether military spouse unemployment and underemployment is consistent across domestic military installations. The Committee directs the Director of Military Community Support Programs to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act which details military spouse unemployment and underemployment levels from a random sampling of domestic military installations. The report should include military spouses' employment statistics by Service and rank, and should describe possible barriers for spouses to achieve employment commensurate with their education and work experience. The report should provide recommendations to facilitate local or remote military spouse employment, including hiring opportunities for military spouses in the Department of Defense or the Services.

Multiple surveys have documented the underemployment of military spouses. Given this need, the Committee recommendation includes \$5,000,000 for a pilot program, to be executed by the Director of Military Community Support Programs, for military spouse apprenticeships and fellowships. Eligibility would be the same as the requirements included in the My Career Advancement Account (MyCAA) scholarship program. The Committee directs the Director of Military Community Support Programs to provide a report to the congressional defense committees not later than 270 days after the enactment of this Act which describes the results of the pilot program, to include spouses securing full-time employment with the host organization or another organization in the same sector, and any other beneficial effects of the pilot program.

Further, the Committee recognizes that military spouses utilize MyCAA to pursue a variety of licenses or degrees. The Committee is concerned that current academic and career advising programs do not provide structured guidance that aligns civilian workforce requirements with MyCAA education institutions, programs, and courses. The Committee directs the Director of the Military Community Support Programs to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act with recommendations to augment the MyCAA academic and career advising programs with structured guidance for recommended education institutions, programs, and courses. The report should include metrics that align academic and career counseling and structured guidance with military spouses' career goals.

IMPACT AID

The Committee supports the Impact Aid and Impact Aid for Children with Disability programs. However, the Committee is concerned by possible discrepancies in how local education agencies el-

igible for both programs receive funding. The Committee directs the Director of the Department of Defense Education Activity to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act that addresses any inconsistencies and recommendations to close any funding gaps.

READINESS AND ENVIRONMENTAL PROTECTION INTEGRATION
PROGRAM

The Committee recommendation includes \$155,000,000 for the Readiness and Environmental Protection Integration (REPI) program and notes the importance of REPI and Sentinel Landscape Partnerships to the successful land and wildlife conservation activities on land buffering military installations, as well as activities to address the threats of stormwater, riverine, and storm surge flooding. Additionally, the Committee directs the Secretary of Defense to use \$5,000,000 in funds provided for REPI to partner with the United States Forest Service in establishing habitats for the monarch butterfly on land managed through the REPI program.

GUANTANAMO BAY DETENTION FACILITY

The Committee directs the Secretary of Defense to submit a report to the House and Senate Appropriations Committees not later than 60 days after the enactment of this Act, and quarterly thereafter, on the current number of detainees at the Guantanamo Bay detention facility; their legal status; a description of all Department of Defense costs associated with the facility during the last two fiscal years by program, account, and activity; the status of funds for the current fiscal year; and a description of steps taken to close the facility.

MILITARY BASES OF THE PEOPLE'S REPUBLIC OF CHINA

According to the 2020 China Military Power Report, the People's Republic of China is seeking to establish more overseas logistics and basing infrastructure. The Committee is concerned that the expected locations of these additional Chinese bases are in countries where the United States has strong bilateral defense relationships. These potential basing locations could also threaten logistics and supply lines in the event of conflict. The Committee directs the Secretary of Defense and the Director of National Intelligence to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act on China's efforts to establish military bases abroad and United States efforts to work with partner nations to prevent their establishment. The report shall describe the potential risks to United States national security, including in relation to the stationing of United States troops and the freedom of movement of United States and allied forces. The report shall also include a description of any provisioning of United States military equipment and detail the bilateral intelligence sharing relationships that exist between the United States and countries suspected to host Chinese bases.

REPORT ON HOSTILITIES

The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act on ongoing activities considered hostilities under the War Powers Resolution (50 U.S.C. 1541 et seq.).

WESTERN HEMISPHERE

The Committee encourages a thorough assessment of activities and resources in the preparation of the report required by section 1265 of the National Defense Authorization Act for Fiscal Year 2020 and looks forward to reviewing the final Department of Defense report and recommendations.

ASSISTANT SECRETARY OF DEFENSE FOR SPECIAL OPERATIONS AND
LOW INTENSITY CONFLICT

The fiscal year 2022 budget request includes an additional \$9,420,000 and 19 full-time equivalents (FTE) for the Office of the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict. The Committee recommendation includes a reduction of \$3,664,000 and five FTEs for the Secretariat for Special Operations and transfers five FTEs to the Information Operations Directorate within the Office of the Deputy Assistant Secretary of Defense of Special Operations and Combatting Terrorism.

INFORMATION OPERATIONS

The Committee recognizes the unique capabilities of United States Special Operations Command (USSOCOM) to conduct operations in the information environment and supports the Department's efforts to enable special operations forces to counter Chinese and Russian malign influence. The establishment of the Information Warfare Center, the maturation of the Joint Military Information Support Operations WebOps Center and the regular deployments of Military Information Support Teams from psychological operations regiments, uniquely position special operations forces for great power competition. While the Committee recommendation includes the four requested full-time equivalents (FTE) for the Principal Information Operations Advisor and five additional FTEs for the Information Operations Directorate within the Office of the Assistant Secretary of Defense for Special Operations and Low Intensity Conflict, the Committee believes special operations forces can be more impactful in the information environment in support of United States policy objectives. Additional resources to support new and novel operations are necessary. Therefore, the recommendation includes an additional \$5,000,000 above the budget request for USSOCOM Information Operations. The Committee directs the Commander of USSOCOM to submit a detailed spend plan to the House and Senate Appropriations Committees not fewer than 30 days prior to the obligation of the funds.

JOINT SPECTRUM CENTER

The Committee directs the Secretary of Defense to provide the House and Senate Appropriations Committees with an update on

the facility chosen for the Joint Spectrum Center's relocation and the timeline for execution not later than 120 days after the enactment of this Act.

WARTIME OPERATIONAL CONTROL AUTHORITY

The Committee recognizes the central role the alliance between the United States and the Republic of Korea plays in maintaining peace and security on the Korean Peninsula and across the region. As the Department of Defense and the South Korean Ministry of National Defense evaluate the conditions-based Operational Control Transition Plan, the Committee encourages the Secretary of Defense to continue to incorporate emerging regional threats into the transition process.

THEATER SPECIAL OPERATIONS COMMAND ACTIVITIES

The Committee directs the Assistant Secretary of Defense for Special Operations/Low Intensity Conflict, in coordination with the Commander of United States Special Operations Command, the Service Secretaries, and the Chairman of the Joint Chiefs of Staff, to provide a report on the activities of Theater Special Operations Commands (TSOCs). The report shall be provided with the fiscal year 2023 budget request submission and include a detailed accounting of activities performed by the TSOCs in the preceding year, current fiscal year, and current budget request submission at the budget line item level of detail. The report shall include a detailed accounting of resources allocated by the military Services, United States Special Operations Command, and the combatant commands.

CLIMATE CHANGE REPORT AND ADAPTATION ROADMAP

The Committee notes the Secretary of Defense is required to submit a report which contains a list of the top ten most climate-vulnerable bases within each Service and provides a cost estimate to mitigate the risks at each of these bases to the congressional defense committees as directed in House Report 116-84. The Committee understands that the Department, in coordination with the Army Corps of Engineers, has completed the development of a tool to meet this requirement and better assess exposure to extreme weather and climate impacts. The Committee understands the Department is near completion of an updated report and expects the Secretary of Defense to brief the congressional defense committees on the updated report upon release. Further, the Committee directs the Secretary of Defense to make the report available on the Department's website not later than 30 days after the enactment of this Act.

GREENHOUSE GAS EMISSIONS REPORT

The Committee encourages the Secretary of Defense, in cooperation with the Secretary of Transportation and the Secretary of Energy, to evaluate the risks and national security implications of United States greenhouse gas emissions on military bases. The Committee recognizes the urgent necessity of reducing greenhouse gas emissions to mitigate the impacts of global climate change. The

Committee expects the Department of Defense to integrate considerations of climate impacts into all aspects of military planning and funding. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees outlining the Department's plans to reduce greenhouse gas emissions on military bases not later than 180 days after the enactment of this Act. The report shall be categorized by Service and include a summary of efforts to reduce greenhouse gas emissions by installation.

ENERGY RESILIENCE AND CONSERVATION

The Committee encourages the Secretary of Defense to capitalize on current growth in the fields of energy efficiency, management, and resiliency, and explore opportunities to make significant progress towards reducing energy costs, increasing the use of renewable energy sources, and reducing carbon emissions. The Department currently segregates energy into two categories: installation energy, which is 30 percent of the Department's portfolio, and operational energy, which is 70 percent of the Department's portfolio. Only installation energy, encompassing energy for fixed installations and non-tactical vehicles, is subject to federal energy management requirements. The Committee directs the Secretary of Defense to study the implications of applying federal energy management requirements to both its installation energy operations as well as its operational energy operations and to provide a report to the congressional defense committees not later than 120 days after the enactment of this Act on the Department's findings. The report should include a study of the implication of requiring the Department to establish energy security and resilience metrics to evaluate the Services' and the combatant commands' energy consumption, carbon footprints, and progress towards energy conservation.

SUPPORT FOR TRIBAL CONSULTATION AND NATION-TO-NATION RELATIONSHIPS

In January 2021, the Administration issued a Presidential Memorandum on Tribal Consultation and Strengthening Nation-to-Nation Relationships. The Memorandum requires all executive departments and agencies to create a plan of action to implement Executive Order 13175, which requires federal agencies to engage in regular, meaningful, and robust consultation with tribes when developing policies with tribal implications. The Committee expects the Department of Defense to begin tribal consultations as soon as possible for any project that is likely to impact tribal lands, cultural properties, or treaty rights. The Committee directs the Secretary of Defense to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act which outlines the Department's progress in implementing its plan of action to adhere to Executive Order 13175.

AUDIT OVERSIGHT

In 2018, the Department of Defense conducted its first department-wide audit, which revealed significant technological, security, and organizational deficiencies in the Department's financial management systems. These deficiencies prevent the Department from

collecting and reporting financial and performance information that is accurate, reliable, and timely. The current estimate for the Department to receive a clean audit opinion is 2027.

The Committee directs the Under Secretary of Defense (Comptroller) to include with the annual Department of Defense Agency Financial Report an accompanying report that provides a summary for each component that has not received an unqualified opinion, the progress being made, the root cause of identified deficiencies, and the significant outstanding challenges that remain. The report shall also include, in consultation with the Chief Information Officer, which information technology systems are impeding the ability of the Department to achieve an unqualified audit opinion. The report shall include a detailed description of the Department's strategy to improve or replace its information technology systems and implement business process reengineering initiatives aimed at producing an accurate, timely, and reliable audit across all the Services. Further, the report shall include a plan detailing how the Department will improve tracking of Department assets. The report shall be made available publicly, with a classified annex to the congressional defense committees as necessary, at the time of publication of the annual Department of Defense Agency Financial Report. Finally, the Committee directs the Comptroller General to review the Department's audit efforts and make recommendations for steps the Department should take to achieve a clean audit opinion before 2027 and provide a report to the congressional defense committees on its findings not later than 270 days after the enactment of this Act.

VOTING

The Committee supports the timely distribution of ballots to all military personnel, including by electronic means, to ensure they have the opportunity to vote. The Committee encourages the Secretary of Defense to execute the provisions of the Military and Overseas Voter Empowerment Act as efficiently and effectively as possible to ensure servicemembers receive timely voting ballots.

NATIONAL GUARD YOUTH CHALLENGE

The Committee is disturbed by reports of inconsistent approaches taken by individual states in the execution of the National Guard Youth Challenge program. The Committee notes the last review of the program by the Government Accountability Office was in 2005. Therefore, the Committee directs the Comptroller General to provide a report to the congressional defense committees not later than 180 days after the enactment of this Act that reviews historical trends of the program; the consistency of mission execution by each of the states; details of the guidelines and lesson plans by each of the states; metrics for what is considered a "successful" program and those used to meet that goal; and what, if any, consistent oversight is being accomplished by the National Guard Bureau, the Department of Defense or other department or agency.

DEFENSE SECURITY COOPERATION AGENCY PROGRAMS

The Committee recommendation includes \$2,113,146,000 for programs administered by the Defense Security Cooperation Agency. Section 8146 of the Act requires the Secretary of Defense to submit a detailed spend plan for these funds, which shall include amounts planned for each program listed in the budget justification documents and, for International Security Cooperation Programs, amounts provided in the prior two fiscal years and planned for fiscal year 2022 by combatant command, country, and authority. Amounts in the plan shall only reflect amounts requested in the fiscal year 2022 budget justification materials as modified by this Act. A similar document with requested amounts shall also be provided to the House and Senate Appropriations Committees concurrent with the fiscal year 2023 budget submission.

The Committee recommendation includes \$1,138,150,000 for International Security Cooperation Programs, \$87,244,000 above the budget request. This includes \$165,000,000 for programs with countries in the Africa Command area of responsibility, \$59,571,000 above the request; \$90,000,000 for programs with Jordan, \$12,699,000 above the request; and \$150,000,000 for the Baltic Security Initiative, \$45,140,000 above the request. The Committee directs that not less than such amounts be specified in the spend plan. The recommendation also supports International Security Cooperation Programs with countries in the Indo-Pacific Command area of responsibility, including for maritime security programs.

The Committee is concerned by Russia's aggressive actions this year, including increased deployment of troops in the border region with Ukraine and the restriction of navigation in the Black Sea. The Committee continues to support the defense of Ukraine by providing \$275,000,000 for the Ukraine Security Assistance Initiative, \$25,000,000 above the budget request. The Committee expects the Secretary of Defense to obligate funds in a timely manner and continues to include legislative language requiring the Secretary to inform the congressional defense committees if funds have not been obligated 60 days after a notification is submitted. The Committee directs that congressional notifications submitted for International Security Cooperation Programs and the Ukraine Security Assistance Initiative specify the fiscal year, whether funds support ongoing or new programs, and the duration and expected cost over the life of each program.

The Committee encourages the Government of Ukraine to continue to adopt reforms in the defense sector, including in the areas of capability-based planning, defense industry and procurement, human resources management, democratic civilian control of the military, and establishing a process to review foreign direct investments on national security grounds. The Committee also supports measures to reduce corruption in Ukraine's security services and directs the Secretary of Defense to update the report required by House Report 116-84 and to submit it concurrently with the second notification of funds. The Committee recommendation does not continue an authority included in prior fiscal years that provides replacement funds for items provided from the inventory of the

United States as a similar authority is available under the Economy Act.

The Committee supports increased measures to ensure that security cooperation programs supported by this Act are strategic, address clearly defined goals and objectives, and are integrated with other programs. Accordingly, section 8154 of the Act requires the Secretary of Defense, in cooperation with the Secretary of State, to submit an integrated security cooperation strategy for assistance for certain priority partner countries, including Colombia, Jordan, Mexico, the Philippines, Tunisia, and Ukraine. Each strategy shall include an overview of the security relationship between the United States and the country; a description of the goals, objectives, and milestones of security cooperation programs and initiatives supported by the Department of Defense and the Department of State; a description of how programs complement rather than duplicate one another; funding by account and program for fiscal year 2022 and the prior two fiscal years; and a description of host country capabilities and financial contributions towards shared security goals. The Secretary shall consult with the House and Senate Appropriations Committees not later than 30 days after the enactment of this Act.

The Committee recommendation includes \$6,000,000 for the Center for Arctic Security Studies, which is in the process of being established. The Committee believes the work of the Center should complement and not duplicate the work of other institutions that focus on arctic issues such as the Woodrow Wilson's Polar Institute, and expects the Department of Defense to consider such work as it establishes this Center.

The Committee recommendation does not include funding for any unit of the Guatemalan Armed Forces that has engaged in a gross violation of human rights or has misused United States military assistance, especially by threatening United States or international personnel in Guatemala. The Committee directs that any notification for funds for Guatemala include a description of enhanced end-use agreements and other measures in place to avoid any misuse of equipment. The Committee further directs the Secretary of Defense, in coordination with the Secretary of State, to submit a report to the House and Senate Appropriations Committees not later than 45 days after the enactment of this Act on security cooperation programs with Guatemala supported by this Act, including a description of the goals of such programs; how such programs complement those supported by the Department of State; and information on measures taken or planned to prevent the misuse of equipment.

The Committee remains interested in Army security force assistance brigade deployments and directs that any congressional notification made pursuant to 10 U.S.C. 321 or 10 U.S.C. 333 include a description of the number of individuals deployed and their training; the amount, type, and purpose of the training and equipment to be provided to the recipient country's security forces; the timeline and source of funds; and how the proposed program fits into the overall security cooperation goals of the brigade or country.

The Committee is concerned with the recent practice by the Department of Defense of submitting congressional notifications for

funds that have not been made available by Congress. On October 8, 2020, the Department submitted a notification for fiscal year 2021 security cooperation programs totaling \$563,930,000, nearly twice the amount available under the continuing resolution. A second notification was submitted on December 9, 2020 for fiscal year 2021 funds totaling \$228,145,000. These notifications also proposed to obligate funds for new programs during the continuing resolution period. The Committee expects the Department to discontinue this practice, which prejudices congressional action on appropriations.

The Committee notes the significant unobligated balances from prior year appropriations and the Committee recommendation includes a rescission of some of these funds. The Committee directs that such funds are not derived from congressional priorities, including programs increased by fiscal year 2021 appropriations, and directs the Secretary of Defense to consult with the House and Senate Appropriations Committees not later than 30 days after the enactment of this Act.

The Committee appreciates the Department's in-depth briefings provided to the Committee on certain country programs, which contribute to congressional oversight, help clarify congressional intent regarding program execution, and increases comity between the executive and legislative branches of government. At the same time, the Committee is concerned about organizational changes made to the Defense Security Cooperation Agency without congressional approval or oversight. In April 2021, the agency informed the Committee that it had undergone a reorganization, executed outside of the budget cycle and without consultation with Congress or key stakeholders. The Committee expects the Director of the Defense Security Cooperation Agency to consult with the House and Senate Appropriations Committees prior to making any further changes.

DIGITAL PROTECTION

The Committee understands that protecting military personnel from a variety of social media crimes such as fraud, spoofing, or phishing is critically important as criminals and other nefarious actors attempt to use social media networks to try to commit fraud, harm military personnel, or spread disinformation. The Committee encourages the Under Secretary of Defense for Intelligence and Security to consider creating a Digital Persona Protection pilot program to protect military personnel from these digital scams and the spread of disinformation.

OFFICE OF SPECIAL NEEDS

The Committee recognizes that military families with special needs face unique challenges and that, to assist these families, each Service implements its own program. In 2018, the Government Accountability Office found that variations in the support provided to military family members with special medical and educational needs through the Department of Defense Exceptional Family Member Program (EFMP) led to potential gaps in assistance. The Committee recognizes the value of community partners to provide vital support and coordination services to military personnel and their families and urges the Service Secretaries to con-

tinue partnering with leading non-profit organizations aimed at addressing the broad range of services required by individuals with special needs. The Committee encourages the Director of the Department of Defense Office of Community Support for Families with Special Needs and the leader of each Service Exceptional Family Member Program to establish partnerships with nonprofit organizations that offer coordinated and tracked services for individuals with special needs that focus on providing comprehensive, integrated medical, and nonmedical services for individuals with special needs.

AFGHANISTAN SECURITY FORCES FUND

Fiscal year 2022 budget request	\$3,327,810,000
Committee recommendation	3,045,341,000
Change from budget request	-282,469,000

The Committee recommends an appropriation of \$3,045,341,000 for the Afghanistan Security Forces Fund which will provide the following program in fiscal year 2022:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommendation	Change from Request

AFGHANISTAN SECURITY FORCES FUND

The Committee honors the service and sacrifices made by United States servicemembers over the nearly two decades of war in Afghanistan. The Committee also expresses its gratitude to international allies and partners for their important contributions to Operation Enduring Freedom and Operation Freedom's Sentinel. Finally, the Committee recognizes the sacrifices made by the Afghan Security Forces and Afghan citizens in defense of their country.

The Committee recommendation provides the financial resources necessary for the Afghan Security Forces to sustain combat and

counterterrorism operations. The Committee continues to monitor the ongoing conflict and the retrograde of the United States military and will consider the appropriate level of resources as the situation on the ground evolves. The Committee directs the Secretary of Defense to provide quarterly briefings on the status of the conflict to the House and Senate Appropriations Committees.

The United States has a responsibility to Afghans who, often at great risk, have supported the mission in Afghanistan, and the Committee supports efforts to ensure that they are afforded a path to safety, including through the Afghan Special Immigrant Visa program. However, the Committee is concerned with the backlog of current applications and urges the Secretary of Defense to review and improve the Department of Defense's contribution to this process. Furthermore, and in light of the Department's unique security and logistical capabilities, the Committee recommendation provides \$25,000,000 to the Department of Defense to provide transport and safe passage to Afghans who have provided faithful and valuable service to the United States and who are under serious threat. The Committee expects the Secretary to use this authority and funding in relation to the dynamic security environment.

The Committee recommendation continues to include legislative language that provides that funds appropriated under this heading may only be obligated if the Secretary of Defense, in consultation with the Secretary of State, certifies in writing to the congressional defense committees that such forces are controlled by a civilian, representative government that is committed to protecting human rights and women's rights and preventing terrorists and terrorist groups from using the territory of Afghanistan to threaten the security of the United States and its allies. The Committee directs that the certification include a written justification and be submitted prior to the first notification of funds provided under this heading.

The Committee continues to be concerned with the proper oversight of funds, particularly given the challenges of administering programs from over-the-horizon locations. Accordingly, the Committee recommendation includes new legislative language requiring that funds may only be obligated after the Secretary of Defense certifies in writing to the congressional defense committees that a program is in place to monitor, evaluate, and oversee such funds. The certification shall include a detailed description of the program, including measures to ensure that supplies and equipment are reaching their intended recipients and used for their intended purposes, and any other measures to prevent waste, fraud, and abuse.

The Committee recommendation does not include funding for major capital projects, major upgrades, infrastructure, or the procurement of new systems. The recommendation includes funding for Afghanistan Army personnel in line with historical levels rather than authorized levels. The recommendation does not include funding requested for the Ministry of Defense Advisors Program, which is instead funded under Operation and Maintenance, Defense-Wide, for the Defense Security Cooperation Agency. The Committee supports ongoing efforts to transition Afghanistan Security Forces costs from the United States to the Government of Afghanistan,

and the recommendation assumes the transition of an increasing portion of costs related to fuel and facilities sustainment, restoration, and modernization.

The Committee recommendation fully funds the request for the Afghanistan Personnel and Pay System and continues to include legislative language that requires that funding only be used to pay personnel who are enrolled in the system. The recommendation also includes funding for items to reduce Afghanistan Security Forces casualties, including equipment for explosive ordnance disposal and to counter improvised explosive devices. The recommendation also provides funding for the Afghanistan Air Force to replace three light attack support aircraft.

The Committee recommendation provides not less than \$20,000,000 for the recruitment and retention of women in the Afghanistan National Security Forces, and the recruitment and training of female security personnel. The Committee directs the Secretary of Defense to submit an updated report to the congressional defense committees describing the proposed use of such funds, including programmatic details, personnel targets, and other goals and objectives to be achieved with this funding. The Committee directs that the report be submitted concurrently with the submission of the first notification of funds provided under this heading.

The Administration has stated the intent to continue the counterterrorism mission in Afghanistan by establishing over-the-horizon logistics and counterterrorism platforms. The Department has provided several updates to the Committee, but they lack clarity on the scope and cost of future operations. Therefore, the Committee directs the Secretary of Defense to brief the House and Senate Appropriations Committees not later than 30 days after the enactment of this Act on plans to establish over-the-horizon platforms, including the number of United States personnel necessary to carry out these missions; basing agreements and arrangements with host countries; a description of the authorities used to conduct these operations; and costs during the current fiscal year and requested for fiscal year 2022, by program, account, and activity.

The Committee notes that the Department of Defense has not complied with reporting requirements included under this heading in the Department of Defense Appropriations Act, 2021, and directs that such reports be submitted not later than 30 days after the enactment of this Act.

COUNTER-ISIS TRAIN AND EQUIP FUND

Fiscal year 2022 budget request	\$522,000,000
Committee recommendation	500,000,000
Change from budget request	-22,000,000

The Committee recommends an appropriation of \$500,000,000 for the Counter-ISIS Train and Equip Fund which will provide the following program in fiscal year 2022:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
Iraq Train and Equip	345,000	345,000	0
Syria Train and Equip	177,000	155,000	-22,000
Program decrease		-22,000	
TOTAL, COUNTER-ISIS TRAIN AND EQUIP FUND	522,000	500,000	-22,000

COUNTER-ISIS TRAIN AND EQUIP FUND

The Committee recommendation supports the Iraqi Security Forces, Kurdish Peshmerga, and the Syrian Democratic Forces to participate in activities to counter the Islamic State of Iraq and Syria (ISIS). The Committee recommendation includes \$345,000,000 to counter ISIS in Iraq, including stipend support to the Ministry of Peshmerga Affairs, if necessary, to ensure the Peshmerga’s continued ability to conduct operations against ISIS. The Committee expects that future budget requests will provide a glidepath for stipend support while continuing training, equipment, and sustainment. The Committee also notes that continued insecurity in northern Iraq has hindered the return of religious minorities and encourages a focus on programs that increase security in these areas.

The Committee recommendation includes \$155,000,000 to counter ISIS in Syria. The Committee continues to require that the Secretary of Defense ensure elements are appropriately vetted and receiving commitments that they promote respect for human rights and the rule of law.

The Committee directs that congressional notifications for funds provided under this heading include a description of the amount, type, and purpose of assistance to be funded, and the recipient of the assistance; the budget and implementation timeline, with anticipated delivery schedule for assistance; and a description of any material misuse of assistance since the last notification was submitted, along with a description of any remedies taken by the Department of Defense. The Committee also directs the Secretary of Defense to consult with the House and Senate Appropriations Committees prior to submitting any notification for construction for facility fortification.

The Committee supports efforts to normalize the security relationship with Iraq. In line with expected progress to normalize security assistance, the Committee recommendation reduces funding requested under Operation and Maintenance, Air Force, for the Office of Security Cooperation-Iraq.

No funds were requested for the Badr Organization or for the Iraqi Popular Mobilization Forces and none are provided by this Act.

OPERATION AND MAINTENANCE, ARMY RESERVE

Fiscal year 2022 budget request	\$3,000,635,000
Committee recommendation	2,992,135,000
Change from budget request	-8,500,000

The Committee recommends an appropriation of \$2,992,135,000 for Operation and Maintenance, Army Reserve which will provide the following program in fiscal year 2022:

TOTAL, OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID	110,051	150,051	40,000

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

The Committee directs the Secretary of Defense to submit a spend plan to the House and Senate Appropriations Committees not later than 45 days after the enactment of this Act for the Humanitarian Assistance and the Humanitarian Mine Action Program. The plan shall include amounts planned for each combatant command, country, and program area, as well as a comparison to funding provided in the previous two fiscal years. The Committee further directs that such information be included in the justification materials that accompany the fiscal year 2023 budget request.

The Committee is concerned that humanitarian assistance shipping programs have reduced shipments to areas of need, particularly in Africa and Asia. The Committee directs the Secretary of Defense to submit a report to the House and Senate Appropriations Committees not later than 90 days after the enactment of this Act on measures to ensure the equitable distribution of humanitarian assistance across countries in need, including assistance that supports basic education.

COOPERATIVE THREAT REDUCTION ACCOUNT

Fiscal year 2022 budget request	\$239,849,000
Committee recommendation	344,849,000
Change from budget request	+105,000,000

The Committee recommends an appropriation of \$344,849,000 for the Cooperative Threat Reduction Account which will provide the following program in fiscal year 2022:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
Strategic Offensive Arms Elimination	2,997	2,997	0
Chemical Weapons Destruction	13,250	13,250	0
Global Nuclear Security	17,767	17,767	0
Biological Threat Reduction Program	124,022	229,022	105,000

Proliferation Prevention Program	58,754	58,754	0
Other Assessments/Admin Costs	23,059	23,059	0

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS—Continued

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
TOTAL, COOPERATIVE THREAT REDUCTION ACCOUNT	239,849	344,849	105,000

COOPERATIVE THREAT REDUCTION PROGRAM

The Committee supports the biological threat reduction program and its crucial role in detecting, preparing for, and fighting emerging global diseases, including pandemics, as well as reducing the proliferation of biological weapons and related technologies and expertise. The Committee recommendation includes \$229,022,000, an increase of \$105,000,000 above the budget request, to expand the program’s cooperation with partner nations to improve biosafety and biosecurity and surveillance of potentially dangerous disease outbreaks. The Committee directs the Director of the Defense Threat Reduction Agency to submit a plan to the congressional defense committees not later than 90 days after the enactment of this Act detailing specific projects and activities that will be conducted in fiscal year 2022 and the associated metrics to evaluate the effectiveness of the program.

DEPARTMENT OF DEFENSE ACQUISITION WORKFORCE DEVELOPMENT ACCOUNT

Fiscal year 2022 budget request	\$54,679,000
Committee recommendation	54,679,000
Change from budget request	---

The Committee recommends an appropriation of \$54,679,000 for the Department of Defense Acquisition Workforce Development Account.

TITLE III
PROCUREMENT

The fiscal year 2022 Department of Defense procurement budget request totals \$132,546,005,000. The Committee recommendation provides \$134,288,195,000 for the procurement accounts. The table below summarizes the Committee recommendations:

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110-279). Specifically, the dollar threshold for reprogramming funds shall be \$10,000,000 for procurement and research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test and evaluation (R-1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

PROCUREMENT SPECIAL INTEREST ITEMS

Items for which additional funds have been recommended or items for which funding is specifically reduced as shown in the project level tables detailing recommended adjustments or in paragraphs using the phrase “only for” or “only to” in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed elsewhere in this report.

AIRCRAFT PROCUREMENT, ARMY

Fiscal year 2022 budget request	\$2,806,452,000

GENERAL FUND ENTERPRISE BUSINESS SYSTEM

The Army financial environment involves multiple financial systems at various stages of modernization. Only one of the Army systems currently is auditable and none of the systems can accomplish the broader Planning, Programming, Budget, and Execution (PPBE) process that is a fundamental part of the Department of Defense's financial environment. With the recent direction to migrate to the cloud to improve performance, it is prudent to investigate alternative solutions that could offer both a broader portfolio of capabilities and greater potential to accomplish the fundamental task of achieving auditability for the Army.

The Committee directs the Secretary of the Army, in coordination with the Army Chief Information and Financial Officers, to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act which provides a detailed analysis of alternatives (AoA) regarding the General Fund Enterprise Business System (GFEBs). The AoA shall compare GFEBs to other financial systems within the Department of Defense, including comparisons to audit compliance; business process support; total ownership cost; data dominance capability; planning and budgeting; analytics; support to the PPBE process; and compliance with federal financial governance requirements. The AoA shall also include a comparison of Enterprise Resource Planning cloud leaders that hold existing Department of Defense authorizations, have a roadmap for required federal financials functionality as a potential solution, and support a common data model for finance, personnel, supply chain management, and procurement.

ACTIVE HEARING PROTECTION

The Committee recognizes that military hearing loss and auditory injuries continue to occur during training events and combat operations. Active hearing protection can minimize training and battlefield hearing loss, improve overall situational awareness, and increase mission effectiveness, safety, and survivability. The Committee recommendation includes an increase of \$10,000,000 to acquire commercial-off-the-shelf advanced, active hearing protection products evaluated to protect the hearing of soldiers.

TACTICAL WHEELED VEHICLE ACQUISITION

The Committee notes that the strategic posture of the tactical wheeled vehicle (TWV) industrial base is an important national security priority and encourages the Secretary of the Army to develop a long-term acquisition strategy that articulates requirements and resources needed to support multi-domain operations in future conflicts. The Army's Joint Light Tactical Vehicle (JLTV) is expected to remain in the inventory for the next 20 years, and the Committee supports the Army's decision for a full-and-open competitive process to help accelerate cost savings, capability upgrades, and lifecycle sustainment improvements. The Committee encourages the Secretary of the Army to consider the potential benefits of alternative competitive acquisition strategies as part of the JLTV re-compete and any future competitive TWV programs to support the long-term viability for a competitive TWV industrial base.

AIRCRAFT PROCUREMENT, NAVY

Fiscal year 2022 budget request	\$16,477,178,000
Committee recommendation	16,998,875,000
Change from budget request	+521,697,000

The Committee recommends an appropriation of \$16,998,875,000 for Aircraft Procurement, Navy which will provide the following program in fiscal year 2022:

ADVANCED HELICOPTER TRAINING SYSTEM

The Committee notes that the Navy is replacing the outdated TH-57 helicopter training system with the Advanced Helicopter Training System and believes that the Department of the Navy must continue to rapidly field modern rotary training platforms to help ensure that the next generation of naval aviators remains skilled and proficient in conducting sustained air support operations while deployed worldwide. The Committee encourages the Secretary of the Navy to adequately resource the Advanced Helicopter Training System in future defense budget submissions.

NAVY ADVERSARY AIRCRAFT FOR TRAINING PURPOSES

The Committee is aware of the growing requirement for near-peer representative air-to-air training using aggressor aircraft with capabilities similar to that of advanced adversaries. Although the Committee is supportive of and commends recent efforts to increase capabilities of aircraft assigned to aggressor squadrons, there are remaining concerns about the continued use of some legacy aircraft to carry out this mission in the long-term. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act which provides a description of the current air aggressor fleet, an identification of any risk incurred by the continued use of legacy aircraft, and a plan to complete the transition of all Navy Reserve aggressor squadrons to a more capable aircraft fleet over a ten-year period.

WEAPONS PROCUREMENT, NAVY

Fiscal year 2022 budget request	\$4,220,705,000
Committee recommendation	3,718,711,000
Change from budget request	-501,994,000

The Committee recommends an appropriation of \$3,718,711,000 for Weapons Procurement, Navy which will provide the following program in fiscal year 2022:

DDG-51 FLIGHT III DESTROYER

The Committee is dismayed by the Navy's decision to remove one DDG-51 Flight III Destroyer from the planned fiscal year 2022 budget request. For the second consecutive fiscal year, the Navy has chosen to remove a major ship procurement from the budget request rather than make difficult funding decisions in a fiscally constrained environment. This represents a troubling trend of underfunding ship acquisition programs and then requesting the removed ship as the highest priority on the unfunded priority list. Furthermore, removing the ship from the budget request breaks the program's multi-year procurement contract, which adversely impacts the already fragile domestic shipbuilding industrial base. Therefore, the Committee recommendation reduces multiple Navy programs to include an additional \$1,500,000,000 for a second DDG-51 Destroyer.

Further, the Committee notes that the current multi-year procurement contract for the DDG-51 Flight III destroyer ends in fiscal year 2022 and that the Navy has already delayed the detail design and construction schedule of the planned follow-on program until no earlier than fiscal year 2026. The Committee believes that a follow-on multi-year procurement contract beginning in fiscal year 2023 may be a prudent plan to ensure a smooth shipbuilding manufacturing and design industrial base transition from the DDG-51 to the follow-on large surface combatant.

ICEBREAKERS

The Committee understands that the Coast Guard is expanding its fleet of polar icebreakers but is disappointed that the Navy has not also considered purchasing either new or used icebreakers. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act which details the Navy's plan to address this capability requirement in fiscal year 2022 and the future years defense program.

CVN-81 ELECTROMAGNETIC AIRCRAFT LAUNCHING SYSTEM AND
ADVANCED ARRESTING GEAR ACQUISITION STRATEGY

The Committee is concerned by the continued delays in the Navy's approval of the acquisition strategy for the Electromagnetic Aircraft Launching System and Advanced Arresting Gear for CVN-81. The National Defense Authorization Act for Fiscal Year 2018 authorized a dual-hull buy which allowed for equipment and shipsets to be procured earlier in the acquisition of CVN-80 and CVN-81, with a goal of realizing significant savings. However, the three-year delay in approving an acquisition strategy and contracting for these main mission components of the carrier is causing a disruption to the production and manufacturing processes of these essential components, impacting the construction and increasing the cost growth of CVN-81. The Committee encourages the Secretary of the Navy to prioritize consideration and approval of an acquisition strategy to procure these components.

RETIREMENT OF OHIO-CLASS GUIDED MISSILE SUBMARINES

The Committee notes the delicate balance of timing between the retirement of OHIO-class guided missile submarines with the delivery and fielding of the new COLUMBIA-class submarines and wants to ensure that undersea capabilities will not be adversely impacted. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act which identifies the timeline of OHIO-class guided missile submarine retirements and how their mission capabilities will be replaced, including how the COLUMBIA-class submarines will integrate into existing military installations.

AMPHIBIOUS SHIPS

The Committee understands that the Navy has not yet entered into a contract for the procurement of three San Antonio-class amphibious ships and one America-class amphibious ship as authorized by Section 124 of the National Defense Authorization Act for Fiscal Year 2021. The Committee encourages the Secretary of the Navy to expeditiously enter into such a contract in order to take advantage of cost savings provided by contracting for more than one ship at a time. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act which outlines the Navy's acquisition plan for these amphibious ships.

OTHER PROCUREMENT, NAVY

Fiscal year 2022 budget request	\$10,875,912,000
Committee recommendation	10,451,162,000
Change from budget request	-424,750,000

The Committee recommends an appropriation of \$10,451,162,000 for Other Procurement, Navy which will provide the following program in fiscal year 2022:

PRIVATE CONTRACTED SHIP MAINTENANCE

The Committee directs the Secretary of the Navy to continue to provide the quarterly reports regarding private contracted ship maintenance as directed in House Report 116–453.

CENTRIFUGE PURIFIERS

The Committee is concerned by the dependence on one manufacturer for centrifuge purifiers in the surface combatant program, despite the use of multiple suppliers for this same equipment in non-surface combatant ships. Dependence on a single manufacturer for critical equipment introduces risk, potential cost growth, technology obsolescence, and potential delays for ship construction and maintenance. The Committee recommendation includes \$1,000,000 for the Navy to complete a final review and approval for additional centrifuge purifier providers for surface combatant ships. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act on the status of final review and approval of additional suppliers of centrifuge purifiers for surface combatants.

PROCUREMENT, MARINE CORPS

Fiscal year 2022 budget request	\$3,043,091,000
Committee recommendation	2,835,365,000
Change from budget request	–207,726,000

The Committee recommends an appropriation of \$2,835,365,000 for Procurement, Marine Corps which will provide the following program in fiscal year 2022:

C-130J RESERVE COMPONENT BASING

The Committee has provided funding in recent fiscal years to recapitalize Air National Guard (ANG) and Air Force Reserve (AFR) C-130H aircraft with new C-130J aircraft. The Committee has provided this funding on the presumption that the Air Force will utilize its established strategic basing process to determine which units and locations will receive these new aircraft as they are made available. This process was described in a recent report to Congress by the Secretary of the Air Force as deliberate, repeatable, standardized, and transparent. The Committee finds that recent basing actions by the Air Force have weakened the qualities of standardization and transparency in this process. The Committee has operated with the understanding that the Air Force would, at minimum, not announce preferred alternatives for C-130J basing unless all the aircraft required to equip each unit and location in question had been funded by enacted appropriations legislation. However, the November 2020 announcement of the preferred alternative for the location known as Main Operating Base 6 was made prior to funds for aircraft to equip that location being made available. The Air Force has defended that decision as preparatory based on high confidence that the funds would be enacted. However, the timing of the announcement was not necessitated by such considerations and had the effect of prejudicing congressional deliberations on pending legislation. The announcement also contradicted other communications to the Committee regarding the proper timing of C-130J basing decisions.

In order to restore standardization and transparency to the C-130J basing process, the Committee directs the Secretary of the Air Force to submit a report to the House and Senate Appropriations Committees clarifying when it is appropriate to initiate or announce each major decision point in the strategic basing process for C-130J aircraft appropriated for the ANG and AFR, as well as clarifying which offices hold responsibility for such decisions within the Department of the Air Force. This report shall be submitted to the Committees not later than September 30, 2021.

In addition, the Committee is concerned that the strategic basing process does not consider unit readiness and performance metrics for existing Air National Guard and Air Force Reserve C-130H units in the basing criteria. The Committee understands that in some cases a unit's performance can be affected by the age and condition of its C-130H aircraft but can also be indicative of effective maintenance and management of the fleet, and believes that the Air Force should take unit performance metrics such as mission capable rate into account. Therefore, the Committee directs the Secretary of the Air Force to submit a report on the extent to which unit-controllable readiness and performance factors are, or could be, factored into strategic basing criteria for reserve component C-130J basing. This report shall be submitted to the congressional defense committees not later than 90 days after the enactment of this Act.

MISSILE PROCUREMENT, AIR FORCE

Fiscal year 2022 budget request	\$2,669,811,000
Committee recommendation	2,529,462,000
Change from budget request	- 140,349,000

The Committee recommends an appropriation of \$2,529,462,000 for Missile Procurement, Air Force which will provide the following program in fiscal year 2022:

AIR-LAUNCHED RAPID RESPONSE WEAPON

The budget request includes \$160,850,000 to procure the first twelve Air-Launched Rapid Response Weapon (ARRW) hypersonic missiles in support of a rapid fielding program. This rapid fielding initiative overlaps, and presumes the success of, the ARRW rapid prototyping program. The Committee fully funds the ARRW rapid prototyping program in the Research, Development, Test and Evaluation, Air Force account. The Committee notes that the flight test regimen for the rapid prototyping program has become increasingly delayed and compressed, increasing the concurrency risk to the first production lot of weapons funded in this account. The Air Force plans to address discoveries in the remaining flight tests with engineering change orders that are funded here. Due to the increased risk, the Committee recommends a reduction of \$44,000,000, an amount approximately equal to four missiles, to the request while noting that the rapid prototyping effort intends to provide up to four all-up round missiles as a residual early operational capability. Should the prototyping flight tests result in minimal discoveries, rendering the budgeted funds for engineering change orders excess to need, the Committee supports the use of these funds to procure missiles above the eight funded in this recommendation by utilizing buy-to-budget authority.

PROCUREMENT OF AMMUNITION, AIR FORCE

Fiscal year 2022 budget request	\$795,168,000
Committee recommendation	672,321,000
Change from budget request	- 122,847,000

The Committee recommends an appropriation of \$672,321,000 for Procurement of Ammunition, Air Force which will provide the following program in fiscal year 2022:

NATIONAL SECURITY SPACE LAUNCH

The Committee directs the Secretary of Defense and the Director of National Intelligence to utilize the Space Force launch enterprise for National Security Space Launch-class missions unless the Secretary of Defense and, if appropriate, the Director of National Intelligence, certify to the congressional defense and intelligence committees that an alternative launch procurement approach for a designated mission is in the national security and financial interest of the government, and provide a cost analysis and any other rationale for such a determination.

DEFENSE PRODUCTION ACT PURCHASES

Fiscal year 2022 budget request	\$340,927,000
Committee recommendation	385,927,000
Change from budget request	+45,000,000

The Committee recommends an appropriation of \$385,927,000 for the Defense Production Act Purchases which will provide the following program in fiscal year 2022:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
DEFENSE PRODUCTION ACT PURCHASES	340,927	385,927	45,000
Program increase—rare earth supply chain		40,000	
Program increase—manufacturing of shipbuilding components		5,000	
TOTAL, DEFENSE PRODUCTION ACT PURCHASES	340,927	385,927	45,000

DOMESTIC LOW-COST TITANIUM PRODUCTION

Titanium is critical to aerospace, ground vehicle, and weapon system applications because of its relatively high strength, corrosive resistance, and lightweight properties. The Committee understands that the availability of domestically manufactured, low-cost titanium can greatly improve the performance and capabilities of warfighting assets and United States competitiveness and reduce commercial reliance on Russia and China. The Committee encourages the Secretary of Defense to support investments through the Defense Production Act to assist in the creation of an alternative supply chain to produce non-aerospace titanium using proven low-cost production methods. Such investments will reduce risk for the defense industrial base by assisting with production and reducing supply risk for non-aerospace customers allowing for production of low-cost, non-aerospace titanium.

RARE EARTH SUPPLY CHAIN ACTIVITIES

The Committee recommendation includes an increase of \$40,000,000 for rare earth supply chain activities and encourages the Secretary of Defense to adequately fund, and accelerate, existing commercial light rare earth separation and processing initiatives. The Committee directs the Secretary of Defense to submit a report to the House and Senate Appropriations Committees not later than 30 days after the enactment of this Act on the plan for executing the additional funding.

RECYCLING OF STRATEGIC AND CRITICAL MINERALS

The Committee notes that the recycling of industrial waste streams is a promising way to recover rare earth elements and critical minerals of national security importance. Portions of industrial waste are exported to China to be reprocessed, leaving the United States unable to access valuable commodities of strategic importance. The Committee encourages the Secretary of Defense to coordinate with the Secretary of Energy, the Secretary of Commerce, and academic institutions to support the research and development

of recycling of rare earth elements and critical minerals in industrial waste streams.

NATIONAL GUARD AND RESERVE EQUIPMENT ACCOUNT

Fiscal year 2022 budget request	---
Committee recommendation	\$950,000,000
Change from budget request	+950,000,000

The Committee recommends an appropriation of \$950,000,000 for the National Guard and Reserve Equipment Account.

NATIONAL GUARD AND RESERVE EQUIPMENT ACCOUNT

The Committee recommends \$950,000,000 for the National Guard and Reserve Equipment Account. Of that amount, \$285,000,000 is for the Army National Guard; \$285,000,000 is for the Air National Guard; \$155,000,000 is for the Army Reserve; \$52,500,000 is for the Navy Reserve; \$17,500,000 is for the Marine Corps Reserve; and \$155,000,000 is for the Air Force Reserve to meet urgent equipment needs in the coming fiscal year.

This funding will allow the National Guard and reserve components to procure high priority equipment used by these components for both their military missions and missions in support of State governors. The funding within this account is not to be used to procure equipment designated as high-density critical equipment, major weapon systems, aircraft, and other equipment central to a unit's ability to perform its doctrinal mission. The funding within this account is not to be used to procure equipment purchased by the senior Service, to expand or accelerate current Service procurement plans, to purchase expendable items, or to purchase facilities or equipment for any requirement able to be satisfied elsewhere.

The Committee directs the Secretary of Defense to ensure that the National Guard and Reserve Equipment Account is executed by the Chiefs of the National Guard and reserve components with priority consideration given to the following items: acoustic hailing devices; airborne and ground detect and avoid systems; containerized ice making systems; aviation status dashboard; crash-worthy, ballistically tolerant auxiliary fuel systems; counter-UAS systems; gamma radiation protection; helmet-mounted display system; hypervisor-based cross domain access solution; KC-135 aircraft forward area refueling/defueling stations; mobile solar power units; modular small arms ranges and small arms training simulators and tools; radiological screening portals; training systems and simulators; UH-72A/B S&S mission equipment modernization and virtual language training systems.

TITLE IV

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The fiscal year 2022 Department of Defense research, development, test and evaluation budget request totals \$111,964,188,000. The Committee recommendation provides \$110,368,824,000 for the research, development, test and evaluation accounts. The table below summarizes the Committee recommendations:

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The Secretary of Defense is directed to continue to follow the reprogramming guidance as specified in the report accompanying the House version of the Department of Defense Appropriations bill for Fiscal Year 2008 (House Report 110–279). Specifically, the dollar threshold for reprogramming funds shall be \$10,000,000 for procurement and research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act. Reports for titles III and IV shall comply with the guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of a procurement (P–1) or research, development, test and evaluation (R–1) line exceeds the identified threshold, the Secretary of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the tables.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION SPECIAL INTEREST ITEMS

Items for which additional funds have been recommended or items for which funding is specifically reduced as shown in the project level tables detailing recommended adjustments or in paragraphs using the phrase “only for” or “only to” in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed elsewhere in this report.

OTHER TRANSACTION AUTHORITY

The Committee notes the significant increase in use of Other Transaction Authority (OTA) by the Department of Defense. In February 2021, the Under Secretary of Defense for Acquisition and Sustainment reported that the number of OTA prototype projects more than quadrupled, increasing from 308 in fiscal year 2016 to 1,434 in fiscal year 2020. Additionally, the amount of funding obligated using OTAs increased from \$1,400,000,000 to \$7,700,000,000, not including an additional \$8,000,000,000 in COVID-related OTAs awarded in fiscal year 2020. While the Committee supports the use of OTA authority when appropriate, it remains concerned about

transparency and accountability of OTA awards, especially projects carried out under an OTA consortium model, which accounts for 74 percent of the obligations in fiscal year 2020. The challenges of using the consortium model include lack of transparency with reporting in the Federal Procurement Data System, the presence of competition for awards by the consortium managers, accountability of performance, and intellectual property rights.

The Committee directs the Under Secretary of Defense for Acquisition and Sustainment to submit a report to the congressional defense committees not later than 120 days after the enactment of this Act with recommendations to revise current congressional requirements for OTAs in a manner that provides greater transparency and accountability and makes such data available to the public to the maximum extent practicable.

BOOSTER ENGINE FOR HYPERSONIC WEAPONS PROGRAMS

The Committee notes that a new booster engine, to be used for both the Navy and Army offensive hypersonic weapons programs, is being developed as part of the Navy Conventional Prompt Strike system. The Committee is concerned that the policy against indemnification for this development may lead to delays and unanticipated cost increases in both programs. The Committee encourages the Under Secretary of Defense for Acquisition and Sustainment to take maximum practicable advantage of existing statutory authority under Public Law 85–804 to provide indemnification for large rocket programs employing “unusually hazardous” propulsion systems and to develop a policy for consistently applying such authority.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

Fiscal year 2022 budget request	12,799,645,000
Committee recommendation	13,381,427,000
Change from budget request	+581,782,000

The Committee recommends an appropriation of \$13,381,427,000 for Research, Development, Test and Evaluation, Army which will provide the following program in fiscal year 2022:

ENTERPRISE INFORMATION TECHNOLOGY AS A SERVICE

The Army is assessing, evaluating, and deploying commercial solutions for data transport, end-user device provision, and cloud services at select installations. The Committee supports the Army's direction to utilize commercial best practices and capabilities from multiple vendors and encourages the Secretary of the Army to expand beyond the current pilot sites to other Army installations. The Committee directs the Secretary of the Army to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the plan for expansion of the Enterprise Information Technology as a Service (EITaaS) program and efforts to support a more holistic enterprise approach to take advantage of cost savings by leveraging a greater number of sites and user populations. The report shall include a detailed cost model for the expansion of EITaaS which shall draw comparisons from the current EITaaS lines of effort to the funding being utilized from baseline programs.

MICROGRID RELIABILITY AND RESILIENCY RESEARCH

The Committee recognizes the growing need for advanced microgrid technologies that enhance the reliability and resiliency of energy systems at Department of Defense installations and in forward operations environments. The Committee recommendation includes an additional \$10,000,000 to develop advanced control technologies, maneuverability and portability innovations for microgrids, and advanced cybersecurity technologies and protocols.

INTEGRATED PHOTONICS

Integrated photonics provide secured, laser-based communications, data networking, and weapons system signal processing capabilities which improve data throughput performance and reductions in size, weight, and power usage. The Committee encourages the Secretary of the Army to continue to invest in this technology which can provide long-term industrial benefits and improved battlefield communications.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

Fiscal year 2022 budget request	\$22,639,362,000
Committee recommendation	20,694,650,000
Change from budget request	-1,944,712,000

The Committee recommends an appropriation of \$20,694,650,000 for Research, Development, Test and Evaluation, Navy which will provide the following program in fiscal year 2022:

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[In thousands of dollars]

R-1	Budget Request	Committee Recommended	Change from Request
1 UNIVERSITY RESEARCH INITIATIVES	117,448	146,898	29,450
Program increase - university research initiatives		10,000	
Program increase - defense university research instrumentation program		10,000	
Project increase - coastal adaptation research for improved coastal community and NWS Earle military		450	
Project increase - coastal equity and resiliency hub		5,000	
Program increase - biocoherent energy transfer research		4,000	
3 DEFENSE RESEARCH SCIENCES	484,421	489,421	5,000
Program increase - silicon-germanium-tin alloy research		5,000	
4 POWER PROJECTION APPLIED RESEARCH	23,013	32,984	9,971
High speed propulsion and advanced weapon technologies excess growth		-2,029	
Program increase - manufacturing of high temperature hypersonic materials		8,000	
Program increase - miniaturization of lasers		4,000	
5 FORCE PROTECTION APPLIED RESEARCH	122,888	156,888	34,000
Program increase - direct air capture and blue carbon removal technology		7,500	
Program increase - talent and technology for Navy power and energy systems		10,500	
Program increase - advanced energetics research		3,000	
Program increase - coastal environmental research		5,000	
Program increase - relative positioning of autonomous platforms		3,000	
Program increase - additive manufacturing of unmanned maritime systems		5,000	
6 MARINE CORPS LANDING FORCE TECHNOLOGY	51,112	58,612	7,500
Program increase - unmanned logistics solutions		7,500	
7 COMMON PICTURE APPLIED RESEARCH	51,477	47,901	-3,576
Applied information sciences for decision making excess growth		-3,576	
8 WARFIGHTER SUSTAINMENT APPLIED RESEARCH	70,547	80,488	9,941
Biocentric technologies previously funded		-1,059	
Program increase - health and safety research of underground fuel storage facilities		5,000	
Program increase - advanced nanocomposite coatings		6,000	

R-1	Budget Request	Committee Recommended	Change from Request
10 OCEAN WARFIGHTING ENVIRONMENT APPLIED RESEARCH	70,086	90,586	20,500
Program increase - task force ocean		10,000	
Program increase - climate change hydraulic modeling risk analysis		1,500	
Program increase - continuous distributed sensing systems		5,000	
Program increase - research vessel cyber infrastructure improvements		4,000	
12 UNDERSEA WARFARE APPLIED RESEARCH	57,484	88,484	31,000
Program increase - academic partnerships for innovative research		25,000	
Program increase - energetics global awareness		2,000	
Program increase - undersea sensing and communications		4,000	
13 FUTURE NAVAL CAPABILITIES APPLIED RESEARCH	173,356	169,699	-3,657
Ocean battlespace sensing excess growth		-2,123	
Sea warfare and weapons excess growth		-4,306	
Warfighter performance excess growth		-2,228	
Program increase - improved detection of submarine threats		5,000	
17 FORCE PROTECTION ADVANCED TECHNOLOGY	21,661	27,661	6,000
Program increase - power electronics building block		6,000	
18 ELECTROMAGNETIC SYSTEMS ADVANCED TECHNOLOGY	8,146	12,146	4,000
Program increase - advanced machine learning and artificial intelligence		4,000	
19 USMC ADVANCED TECHNOLOGY DEMONSTRATION	224,155	242,312	18,157
Command, control, communications, computers failure to comply with congressional direction		-3,859	
Force protection previously funded		-1,605	
Maneuver unjustified growth		-3,350	
Combat service support and force protection excess growth		-9,029	
Program increase - expeditionary process, exploitation and dissemination		4,000	
Program increase - advanced mission planning system			
SBIR technology insertion		5,000	
Program increase - data analysis and sharing augmentation		2,000	
Program increase - low-cost atrittable aircraft technology		25,000	
21 FUTURE NAVAL CAPABILITIES ADVANCED TECHNOLOGY DEVELOPMENT	265,299	248,176	-17,123
Information warfare excess growth		-9,188	
Surface warfare excess growth		-6,228	
Undersea warfare excess growth		-6,707	
Program increase - advanced energetics research		3,000	
Program increase - advanced lidar sensor and data processing		2,000	
22 MANUFACTURING TECHNOLOGY PROGRAM	57,236	62,236	5,000
Program increase - energetics processing		5,000

SMALL BUSINESS INNOVATION RESEARCH PROGRAM

While the Committee notes that the Navy's Automated Test and Retest (ATRTR) Small Business Innovation Research (SBIR) Phase III program has made improvements in reducing the time required to field new capabilities, it remains concerned that these programs are not properly resourced. The Committee recommendation includes a total of \$37,805,000 for the ATRTR SBIR Phase III program. The Committee supports the use of the Navy's Digital Integration Support Cell and encourages the Secretary of the Navy to accelerate the development and deployment of the Office of Naval Research's Cloud to Edge ATRTR System and Force Level capabilities, to include virtualized warfare systems and edge analytics on all platforms. Furthermore, the Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act which outlines an accelerated ATRTR program schedule, efficiencies projected across the enterprise, ATRTR demonstrated technologies, and a SBIR Phase III commercialization plan compliant with the use of the SBIR awardee when perfecting and scaling expansions, derivatives, or logical conclusions of these technologies.

NAVY TECH BRIDGES

The Committee is encouraged by the development and maintenance of NavalX Tech Bridges which are a connected network of individuals from industry, academia, and the Department of Navy that provide access to new technologies through a variety of existing authorities. The Committee is encouraged by the collaboration and coordination with non-traditional defense sector actors as well as continued partnerships with academia and believe that these partnerships have the potential to help the Navy transform and innovate. Open dialogue is critical to ensuring that the Navy meet and exceed its requirements through innovation and agility. The Committee encourages the Secretary of the Navy to ensure that the leadership of the Tech Bridges continue to make acquisition personnel available at Tech Bridge events so that non-traditional defense sector companies and higher education institutions more fully understand the requirements of the Navy.

UNDERGROUND FUEL STORAGE TANK SAFETY RESEARCH

The Committee remains concerned about the safety of underground fuel storage tanks commonly used on military installations by the Department of Defense. The Committee encourages the Secretary of the Navy to conduct additional research on the safety of underground fuel storage tanks to mitigate any risks to drinking water supplies for military bases and surrounding communities. Research areas should focus on corrosion evaluation, automated inspection, technical support for the development and assessment of double-wall structures and their equivalents, early leak detection, and x-ray photoelectron spectroscopy to support detailed surface analysis.

TALENT AND TECHNOLOGY FOR NAVY POWER AND ENERGY SYSTEMS

The Committee supports the Navy's continued investment in next-generation integrated power and energy systems for future surface combatant ships. However, technology and workforce gaps have prevented the Navy from optimally integrating, operating, and maintaining this important research. The Committee recommendation includes an increase of \$10,500,000 for workforce talent and technology development efforts in support of Navy integrated power and energy systems.

INFRARED TELESCOPE TECHNOLOGY

The Committee recognizes the importance of infrared telescope technology for northern sky surveys in the short-wave infrared H and K bands, astrophysics observations, Earth orbital debris, and space traffic management research. The Committee encourages the Secretary of the Navy to prioritize research for infrared telescope technology because the collection of critical stellar data supports future ground- and space-based defense systems.

ULTRA COMPACT HEAT EXCHANGERS

The Committee believes that the Department of the Navy would benefit from using ultra-compact heat exchangers in vehicle fleets and power systems in order to store greater quantities of heat while using less space and weight compared to existing technology. The Committee encourages the Secretary of the Navy to research ultra-compact heat exchangers for use in future vehicle fleets and power systems.

LIGHTWEIGHT ANTI-CORROSION NANOTECHNOLOGY COATING
ENHANCEMENT

The Committee remains concerned about the high cost of corrosion to Department of Defense assets. The Services, particularly the Department of the Navy, face complex threats in the Indo-Pacific region that require military equipment and infrastructure to be resilient and have maximum operational availability. The Committee encourages the Secretary of the Navy to research lightweight, nanotechnology-based technologies that provide high corrosion resistance which will decrease the cost of corrosion and increase operational availability of military equipment and infrastructure.

STERN TUBE SEALS

The Committee remains concerned by data indicating a higher than desired failure rate of stern tube seals on some classes of Navy ships. Premature, partial, or complete failure of these stern tube seals may increase procurement costs, negatively affect combat readiness, and disrupt the cadence of major operation and maintenance intervals. The Committee encourages the Secretary of the Navy to partner with the appropriate shipyards and industry partners to design, prototype, and test new seals that are more durable, safe, and cost-effective. New stern tube seal designs should not require modifications to the stern tubes of existing classes of

ships to ensure a cost-effective approach to developing and evaluating modernized seals.

COASTAL ENVIRONMENTAL RESEARCH

The Committee understands the importance of the littoral region to Navy operations worldwide and believes that testing and training must replicate the operational and threat environments that submarines and unmanned systems are likely to encounter in these areas. The Committee believes that additional research of the magnetic, electric, and acoustic ambient fields in the littoral regions and the development of predictive techniques to distinguish ships and submarines from naturally occurring background features would be beneficial for littoral operations. The Committee encourages the Secretary of the Navy to conduct additional research in this area.

ACOUSTIC MONITORING FOR THE PROTECTION OF MARINE MAMMALS

The Committee is concerned by the level of incidental takes of marine mammals in the Navy's Northwest Testing and Training Activities plan. The Committee encourages the Secretary of the Navy to use passive acoustic monitoring to detect southern resident orcas and other marine mammals during all active sonar training and testing exercises. The Committee also encourages the Secretary of the Navy to update the Navy's mitigation measures for testing and training activities to include, but not be limited to, expanding the no-use range of sonar to 0.5 nautical miles from any orcas or other marine mammals, incorporate a real-time whale alert system and manned spotter systems onboard Navy vessels, and establish seasonal limitations on the use of sonars in traditional whale and other marine mammal foraging areas.

OVERSIGHT OF SMALL BUSINESS INNOVATION RESEARCH PROJECTS

The Committee is concerned that there may be conflicts of interest in the oversight of Small Business Innovation Research (SBIR) projects at Navy Warfare Centers. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that details a plan to mitigate professional and organizational conflicts of interest in the oversight of SBIR Projects by Navy Warfare Centers that may have the same or similar technology development activities or objectives. The report shall include a plan for the protection of SBIR awardees' intellectual property and commercialization opportunities from Warfare Centers that have or may have competing activities and a plan for establishing partnership arrangements for Warfare Centers to assist SBIR awardees with the commercialization of their projects in the defense sector.

ELECTROMAGNETIC RAILGUN PROGRAM

The Committee notes that the fiscal year 2022 budget request does not include funding for the electromagnetic railgun program after the Navy has invested in the program for several years. The Committee recognizes that the development of a functional railgun has the potential to provide the Navy with a safe, effective, and

significantly less expensive offensive capability than traditional legacy weapons systems. The Committee directs the Secretary of the Navy to submit a report to the congressional defense committees not later than 90 days after the enactment of this Act that details the status of the electromagnetic railgun program. The report shall include, but not be limited to, the status of the development and testing of the program, the amount of funding invested to date, the funding level necessary to achieve a fully functional system in the future, and the plan to incorporate this program onto Navy ships.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR
FORCE

Fiscal year 2022 budget request	\$39,184,328,000
Committee recommendation	39,062,352,000
Change from budget request	- 121,976,000

The Committee recommends an appropriation of \$39,062,352,000 for Research, Development, Test and Evaluation, Air Force which will provide the following program in fiscal year 2022:

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

HYPERSONICS PROTOTYPING

The budget request includes \$438,378,000 for hypersonics prototyping, comprising \$238,262,000 for the continuation of the Air-Launched Rapid Response Weapon (ARRW) and \$200,116,000 for the new Hypersonic Attack Cruise Missile (HACM). The Committee recommendation includes full funding for ARRW and \$190,116,000 for HACM, but also takes action to increase transparency and oversight. The Committee previously has expressed concern with the Air Force's budgeting practices for hypersonics prototyping. The budget request resumes the funding of simultaneous prototyping efforts within a single budget line following last year's termination of the Hypersonic Conventional Strike Weapon (HCSW) effort at the critical design review. The funds made available by the termination of HCSW were critical to keeping the ARRW effort on track and adequately funded. In order to ensure transparency and budget discipline, the Committee separates the funding for hypersonics prototyping into two new lines, one for the ARRW effort and one for the HACM effort. This increases the transparency of funding and subjects both efforts to normal prior approval reprogramming requirements.

The ARRW effort will transition to a rapid fielding program in this budget request. Funding for the rapid fielding of ARRW is addressed under the heading "Missile Procurement, Air Force" in this report. The Committee understands that the Air Force intends to decide on proceeding with procurement upon conclusion of the first of three all-up round flight tests. The Committee notes and commends the efforts by the Air Force to keep the Committee informed of the progress of ARRW flight testing. The Committee directs the Secretary of the Air Force to notify the congressional defense committees not later than 30 days following the initiation of the first all-up round test on both the result of that test and whether the result supports a decision to initiate procurement of the first lot of ARRW missiles.

GROUND BASED STRATEGIC DETERRENT

The Committee recommendation includes \$2,531,602,000 for the Ground Based Strategic Deterrent (GBSD) program, a reduction of \$21,939,000 from the budget request. This recommendation supports the continuation of GBSD. The Department of Defense has stressed the "just in time" nature of GBSD to replace the aging Minuteman III weapon system, but the Committee wishes to stress the equivalent necessity of controlling costs. The Committee notes that the largest proportion of not just cost, but cost uncertainty, in the acquisition of GBSD lies in the procurement phase. Cost growth beyond affordability targets can drive perturbations in the schedule as surely as any other facet of the program. Given that the program has achieved both Milestone B and awarded a development contract with options for initial lots of production, the Committee directs the Secretary of the Air Force to make available to the congressional defense committees a quarterly brief on the progress of the GBSD program. This brief shall, at minimum, provide consistent metrics to track cost and schedule performance by the prime contractor and its suppliers, the retirement of technical

risk, software development, and progress on efforts to support the recapitalization of launch facilities, launch control centers, and other supporting infrastructure. The first such briefing shall be made available by October 31, 2021, and thereafter shall be made available not later than 30 days after the close of each fiscal quarter.

LONG RANGE STANDOFF WEAPON

The Committee recommendation includes \$581,042,000 for the Long Range Standoff Weapon (LRSO) program, a reduction of \$28,000,000 from the budget request. The Committee notes that the LRSO program achieved a Milestone B decision in May 2021 and is poised to award a contract for the engineering and manufacturing development phase before the end of fiscal year 2021. The Committee directs the Secretary of the Air Force to make available to the congressional defense committees a quarterly brief on the progress of the LRSO program. This brief shall, at minimum, provide consistent metrics to track cost and schedule performance by the prime contractor and its suppliers, the retirement of technical risk, and reliability and maintainability metrics. The first such briefing shall be made available by October 31, 2021, and thereafter shall be made available not later than 30 days after the close of each fiscal quarter.

MAINTENANCE, REPAIR, AND OVERHAUL TECHNOLOGIES

The Committee is concerned that technologies for advanced maintenance, repair, and overhaul (MRO) processes are not keeping pace with the rapid pace of technology development for weapon systems. As the Air Force increases the development and procurement of critical platforms, such as the F-35A, the Committee believes that it should also ensure aircraft and other systems achieve the highest readiness rates possible. The Committee encourages the Secretary of the Air Force to make investment in advanced MRO process technologies and capabilities a high priority for the manufacturing technology program.

AIR FORCE SPECIAL OPERATIONS COMMAND PHYSICAL READINESS TRAINING PROGRAMS

The Committee supports efforts to strengthen the resiliency, lethality, and readiness of the military and notes that Special Tactics groups under the Air Force Special Operations Command have broad mission sets that require unique physical and mental performance standards. The Committee notes that previous research has shown that adaption of physical fitness and human performance programming to the specific demands of servicemember duties can reduce injury incidence, optimize physical readiness, and better achieve military objectives. The Committee believes development of a physical readiness program aligned with duty-specific tasks is warranted to improve performance and reduce the likelihood of training-related injuries. The Committee urges the Secretary of the Air Force to support research and development of physical readiness training programs unique to the duty-specific demands of these Special Tactics groups.

MULTI-FUNCTIONAL AEROSPACE COMPOSITES

The Committee recognizes that the development of scalable and affordable multi-functional and thermal protection aerospace composites manufacturing is critical to significant warfighter capabilities. The Committee encourages the Secretary of the Air Force to continue partnerships with public universities to rapidly advance scalable manufacturing of multi-functional aerospace composites.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION,
SPACE FORCE

Fiscal year 2022 budget request	\$11,266,387,000
Committee recommendation	10,774,318,000
Change from budget request	-492,069,000

The Committee recommends an appropriation of \$10,774,318,000 for Research, Development, Test and Evaluation, Space Force which will provide the following program in fiscal year 2022:

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

SPACE FORCE ACQUISITION

The Committee remains concerned that the Air Force has not taken more aggressive action in addressing longstanding space acquisition issues and has made little progress in defining what the Space Force will be doing that is fundamentally different than when it was a component of the Air Force.

The fiscal year 2022 budget request is the first budget developed by the Space Force since its establishment, yet it includes many of the same type of “big juicy targets” that the current Vice Chairman of the Joint Chiefs of Staff has warned against for at least four years. The Space Force lacks a clear plan which defines its future space architecture and lacks a strategy for how this architecture will be acquired.

The plans for establishing the new acquisition unit, Space Systems Command, consist primarily of renaming the Space and Missile Systems Center and incorporating existing space launch units. The plan does not resolve the fundamental issues of overlap and duplication in roles, responsibilities, and authorities among the various other space acquisition units in the Department of the Air Force.

The Committee believes the Space Force needs a clear and concrete vision for its future system architectures, based not on philosophy but on rigorous technical analysis with executable plans resourced by realistic budgets. Further, the Committee believes the current life-cycle based organizational construct of the Space and Missile Systems Center should be re-examined and encourages the Secretary of the Air Force to consider organizing units around mission-based program areas which correspond to their operational counterparts in Space Operations Command. The Committee also encourages the Secretary of the Air Force to simplify the decision chain from program managers to program executive officers to a service acquisition executive.

The Committee is aware of the significance of these challenges and notes the features that differentiate space acquisition from most other military acquisitions. These include technical complexity, long development timelines, low quantities of production, a unique operating environment, and the degree to which all other military systems fundamentally rely on space as the integrating utility that enables the joint force to project power globally and react decisively.

Overseeing and successfully leading an organization attempting to deliver such technically complex systems is not a part-time job and should not continue to be so. The Committee remains concerned that the Department of the Air Force still does not have a service acquisition executive solely focused on space programs. The Committee believes the Space Force was established to bring greater attention and focus to fixing its acquisition issues because previous attempts to do so did not produce lasting results. Nevertheless, the Committee remains hopeful that with strong new leadership and a greater sense of urgency the Space Force can put its acquisition issues behind it and deliver the capabilities the nation needs.

Therefore, the Committee urges the Secretary of the Air Force to seek a space acquisition professional to serve as the Assistant Secretary of the Air Force for Space Acquisition and Integration and to accelerate the transition of the service acquisition executive authority for space programs to this position at the earliest opportunity. Further, the Committee directs the Secretary of the Air Force to submit to the congressional defense committees, not later than 60 days after the enactment of this Act, a report, including a draft mission directive, which clarifies the roles and responsibilities of senior civilian and uniformed leaders who have space responsibilities, a proposed plan for organizing the acquisition units of the Space Force, and a plan to ensure the Assistant Secretary of the Air Force for Space Acquisition and Integration has the resources, responsibilities, and authorities necessary for success.

SPACE INTEGRATION READINESS REPORT

The Committee notes that the Department of Defense lacks a comprehensive system for measuring the readiness and extent to which space-enabled capabilities, such as satellite communications terminals, Global Positioning System receivers, and other terminals and user equipment, have actually been fielded into weapons platforms and systems designed to use such capabilities. Comprehensive and accurate metrics on the readiness of space-enabled capabilities actually installed in the field will help Department leaders make decisions on priorities for future investment and improve synchronization of plans between the space segment and the user equipment segment. Therefore, the Committee directs the Assistant Secretary of Defense for Space Policy and the Assistant Secretary of the Air Force for Space Acquisition and Integration to jointly develop, in consultation with the Service Secretaries, the Under Secretary of Defense for Personnel and Readiness, and the Director of the Joint Chiefs of Staff, a recommended approach to measure and track the readiness of space-capabilities installed in weapons platforms and other systems fielded. The draft plan on proposed approaches for a space integration readiness report shall be provided to the congressional defense committees not later than 120 days after the enactment of this Act, with a final plan ready to begin implementation submitted one year after the enactment of this Act.

NEXT GENERATION OVERHEAD PERSISTENT INFRARED

The Committee remains concerned about the Next Generation Overhead Persistent Infrared missile warning program. Analysis by the Office of Cost Assessment and Program Evaluation (CAPE) concludes that the schedule to launch the first geosynchronous satellite by 2025 is unrealistic and that the program's cost estimate is overly optimistic. In another independent assessment, the Government Accountability Office (GAO) concludes that despite early risk reduction activities, the program faces significant technical and management challenges that are likely to delay the initial launch by at least a year. Such delays typically result in cost increases. GAO further reports that Space Force officials are tracking numerous schedule risks, while continuing to present stable costs and on-time schedule estimates in reports to the Committee.

The Committee cautions the Space Force that providing unrealistic cost and schedule estimates undermines the credibility of the Space Force's management of this and other programs. Therefore, the Committee directs the Secretary of the Air Force to conduct a thorough review of the program, the acquisition strategy, the realism of its cost and schedule estimates, and the adequacy of plans to mitigate program risks. The Committee directs the Secretary of the Air Force to provide a report to the congressional defense committees, not later than 180 days after the enactment of this Act, summarizing this review, including any recommendations for corrective actions. Further, the Committee directs the Secretary of the Air Force to continue to provide quarterly briefings to the congressional defense committees on the status of the program.

ON-ORBIT SERVICING AND UPGRADE OF STRATEGIC SATCOM

The Committee notes recent advancements in robotic satellite servicing technology, both in government and commercial industry, to support extension of spacecraft mission life, as well as the potential to upgrade and enhance capabilities of systems currently on-orbit. Such a capability holds promise to alter the economics of space by providing options to repair or enhance current capabilities without the full cost of replacement when a spacecraft degrades, has a minor failure, or runs out of propellant. Further, the Committee believes that the ability to upgrade or enhance systems on-orbit provides a previously unavailable path to increase resilience and ease the transition to future capabilities. Therefore, the Committee directs the Secretary of the Air Force to conduct a study to define and validate technical concepts, cost, schedule, risks, and benefits of on-orbit servicing of current strategic communications satellites and evaluate the merits of the concept in providing a transition path for future capabilities. The study shall be submitted to the congressional defense committees not later than 120 days after the enactment of this Act, and may include a classified annex, if necessary.

COMMERCIAL SATELLITE COMMUNICATIONS SYSTEMS

The Committee continues to be supportive of integrating commercial satellite communications capabilities into the national security space communications architecture. Over the past several years, the Air Force has carried out various pilot programs and pathfinder initiatives to explore and assess the tools and acquisition models to integrate commercial satellite communications systems more effectively and efficiently into this architecture. The fiscal year 2022 budget request includes \$23,400,000 for commercial satellite communications. The Committee recommendation fully funds this request; however, the Committee requires greater clarity on the goals and strategy for this funding. Therefore, the recommendation prohibits obligation of these funds until the Secretary of the Air Force submits a report to the congressional defense committees, not later than 90 days after the enactment of this Act, which provides a detailed spend plan that addresses the tools needed to advance the operational integration of commercial satellite communications into a hybrid enterprise management system for space communications, and what acquisition models will be

used to facilitate cost effective and efficient purchase of commercial satellite communications.

SPACE SECURITY AND DEFENSE PROGRAM

The budget request includes \$56,546,000 for the Space Security and Defense Program (SSDP), which was established in 2013 by the Deputy Secretary of Defense and Principal Deputy Director for National Intelligence as a joint activity of the Department of Defense and the Intelligence Community. The SSDP was chartered to develop and assess options and strategies for a more resilient national security space enterprise. The SSDP conducts studies, analysis, modeling, warfighter engagements, and prototype experimentation for more resilient space architectures as well as new space warfighting and force design concepts. The Committee supports the work the SSDP is undertaking across the national security space community to understand the threats and provide recommendations on how to best respond.

The budget request also includes \$37,000,000 for a new program to establish a unit within the Space Force, the Space Warfare Analysis Center, which is chartered, much like the SSDP, to conduct analysis, modeling, wargaming, and experimentation to create operational concepts. The Committee understands that space is a potential warfighting domain and the scope of work currently conducted may need to be expanded and tailored to more fully define the requirements, systems, and operational concepts to meet this specialized mission. However, the Committee is not persuaded that an additional, separate analysis unit that overlaps with the SSDP is necessary or that this work could not be carried out by the existing SSDP. Therefore, the recommendation provides no funding for the Space Warfare Analysis Center and provides \$66,546,000 for the SSDP, an increase of \$10,000,000, to expand the scope of its activities to support the space warfighter analysis tasks. Further, the Committee directs the Director of the SSDP to brief the congressional defense committees, not later than 90 days after the enactment of this Act, on the proposed workplan of the SSDP for the next two years, and specifically, its plan to address the space warfare analysis requirements of the Space Force.

LASER THREATS TO LOW-ORBIT SATELLITES

The Committee is concerned by the growing threats posed by ground-based lasers capable of damaging or destroying sensitive space sensors in low-orbit, and the lack of a coordinated strategy to understand this threat and develop concepts to mitigate its risks. The Committee directs the Secretary of Defense, in coordination with the Director of National Intelligence and other stakeholders across the national security community, to provide a plan to collect, consolidate, and characterize laser threat activity data of potential adversaries, and to develop strategies to mitigate these threats. This plan shall be submitted to the congressional defense committees not later than 120 days after the enactment of this Act and may include a classified annex, if necessary.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION,
DEFENSE WIDE

Fiscal year 2022 budget request	\$25,857,875,000
Committee recommendation	26,239,486,000
Change from budget request	+381,611,000

The Committee recommends an appropriation of \$26,239,486,000 for Research, Development, Test and Evaluation, Defense-Wide which will provide the following program in fiscal year 2022:

RESEARCH, DEVELOPMENT, TEST AND EVALUATION
(DOLLARS IN THOUSANDS)

STRATEGIC NATIONAL STOCKPILE OF ACTIVE PHARMACEUTICAL
INGREDIENTS

The Committee remains concerned about vulnerabilities in America's reliance on foreign-sourced supplies of active pharmaceutical ingredients and their chemical components, and more generally, the nation's reliance on off-shore drug production. In the Department of Defense Appropriations Act, 2021, the Committee encouraged the Secretary of Defense, the Director of the Defense Advanced Research Projects Agency, and the Director of the Biomedical Advanced Research and Development Authority to cooperatively research areas of mutual interest to address public health vulnerabilities, secure a national stockpile of life-saving drugs, and address vulnerability points for the military. The Committee directs the Director of the Defense Advanced Research Projects Agency to brief the House and Senate Appropriations Committees, not later than 120 days after the enactment of this Act, on the status of these efforts, actions taken to date, and plans for future collaborations.

NEXT-GENERATION NEUROTECHNOLOGY

The Committee notes the success of the Next-Generation Nonsurgical Neurotechnology program by the Defense Advanced Research Projects Agency (DARPA) which aims to develop high-performance brain-machine interfaces for able-bodied servicemembers without requiring the implantation of electrodes directly into the brain. The program also has the opportunity to help wounded warriors regain independence without invasive surgery by providing new clinical opportunities in areas such as controlling their own limbs via muscle stimulation and rehabilitation, stroke interventions, and overcoming tinnitus. The Committee believes that continued collaboration between DARPA and the Department of Veterans Affairs has the potential to develop and test neurotechnology for veteran movement rehabilitation and other clinical treatments. The Committee encourages the Director of DARPA to collaborate with the Secretary of Veterans Affairs to identify and develop opportunities to improve quality of life for disabled veterans via DARPA's minutely invasive and noninvasive brain computer interfaces.

SUPPLY CHAIN RISK MANAGEMENT

The Committee notes that Sections 845 and 847 of the National Defense Authorization Act for Fiscal Year 2020 require the Department of Defense to use technology and analytic tools to expand efforts to identify, mitigate, and monitor supply chain risks, including foreign ownership, control, and influence across the classified and unclassified defense industrial base. The Defense Counterintelligence and Security Agency's Critical Technology Protection Directorate supports the Department's efforts to comply with these new requirements for protecting supply chains aimed at further reducing defense industrial base risks.

The Committee directs the Under Secretary of Defense for Intelligence and Security to provide a report to the House and Senate Appropriations Committees not later than 60 days after the enactment of this Act that enumerates and discusses the distinct ana-

lytic tools and innovative technological enhancements in which the DCSA is investing to assess, mitigate, and continuously monitor foreign ownership, control, and influence in Department of Defense contracts and subcontracts.

USING TECHNOLOGY TO HELP SMALL BUSINESSES ACHIEVE SUPPLY
CHAIN CERTIFICATIONS

The Committee encourages the Secretary of Defense to evaluate whether artificial intelligence technology, in combination with open-source intelligence, can increase the Department's visibility into the supply-chain lineage of software and hardware. The Committee is hopeful that this evaluation could eventually provide smaller businesses an affordable option for achieving the supply chain certifications that are required for contractors and sub-contractors in the defense industrial base.

GEOSPATIAL ANALYTICS PLATFORM FOR ENHANCED INTELLIGENCE,
SURVEILLANCE, AND RECONNAISSANCE CAPABILITIES

The Committee supports the efforts made by the Department of Defense and the Intelligence Community to use innovative technologies such as those that employ artificial intelligence and machine learning to maximize and enhance intelligence, surveillance, and reconnaissance capabilities. Regardless, the deluge of data generated by new and existing commercial and government assets increasingly inundates the analytical cadre and, by extension, senior leadership within the Department and Intelligence Community. The Committee is aware of new and innovative commercial platforms that automate computer vision applications and data interpretations of satellite and other imagery for rapid and effective decision-making. The Committee encourages the Secretary of Defense and the Director of National Intelligence to explore commercially available custom computer vision algorithms on commercial, both classified and unclassified, data sets to minimize analytic burden.

OFFICE OF INDUSTRIAL POLICY—CAREER AND TECHNICAL EDUCATION
PILOT PROGRAM

The Committee recognizes the need to increase student enrollment in relevant career and technical education (CTE), pre-apprenticeship, and apprenticeship programs to address labor shortages in the defense manufacturing sector. The Committee recommendation includes \$10,000,000 to develop a pilot program to promote awareness and enhancement of CTE programs and career pathways in middle schools, high schools, trade schools, technical schools, community colleges, and four-year colleges and universities by funding activities that may, but need not only, complement resources made available to Perkins, pre-apprenticeship, or apprenticeship grant recipients specializing in fields relevant to the defense sector. The Committee directs the Deputy Assistant Secretary of Defense for Industrial Policy to submit a report to the House and Senate Appropriations Committees not later than 120 days after the enactment of this Act on the priorities for this pilot program relative to other defense manufacturing education and workforce development programs. The report shall list current education and workforce

programs and associated funding levels in the Defense Manufacturing Community Support Program, Industrial Base Analysis and Sustainment, Manufacturing Innovation Institutes, and National Defense Education Program.

DIGITAL ENGINEERING ENABLED WORKFORCE DEVELOPMENT

The Committee recognizes the critical need to train and educate the defense industrial base workforce to ensure a more resilient and secure supply chain of aircraft systems, decoys, drones, missiles, and other defense and commercial aerospace applications. Advanced digital technology, engineering services, and technical support is essential to meet current and future workforce demands. The Committee recommendation includes \$7,000,000 above the request to deploy advanced digital engineering technology, provide engineering support, and provide workforce education to effectively enable manufacturing and delivery of such systems and subsystems.

OFFICE OF RESEARCH AND ENGINEERING,
OFFICE OF PERSONNEL AND READINESS—UTILIZING
RESEARCH AND DEVELOPMENT GRANTS FOR RECRUITMENT

The Committee recognizes an opportunity for the Department of Defense to utilize its investments in research and development to recruit undergraduate students, graduate students, post-doctoral researchers, academic faculty and researchers, and industry researchers for civilian and military hard-to-fill positions across the Department of Defense. The Committee directs the Under Secretary of Defense for Research and Engineering to submit a report to the House and Senate Appropriations Committees not later than 120 days after the enactment of this Act on programs and funding applied to recruitment of students and researchers for civilian and military hard-to-fill positions throughout the Department of Defense; the return on investment from those efforts; the utilization of grants for such efforts; and plans to increase or enhance recruitment of students and researchers for positions identified as hard-to-fill by utilizing grants or some other means.

COMMERCIAL SATELLITE IMAGERY

The Committee notes the increasing availability and value of high-quality commercial satellite imagery to support a wide range of national security applications, including intelligence, military operations, disaster relief and response, and scientific research. However, the Committee is concerned that the federal government is not adequately leveraging its buying power to ensure the best value and is not minimizing the redundancy and duplication of purchases across all departments, agencies, and offices, including government-sponsored activities at non-profit organizations and academic institutions.

Therefore, the Committee directs the Comptroller General to provide a report to the congressional defense committees, not later than 180 days after the enactment of this Act, with an inventory of contracts for commercial imagery products and services across the national security community; a determination of the effectiveness of coordination on procurements for these products and serv-

ices; an identification of any areas where there is duplication or redundant procurements; and recommendations on actions to improve the coordination, efficiency, and effectiveness of procurements for commercial satellite imagery and related services.

DOMESTIC SOURCING OF CRITICAL MINERALS

The Committee recognizes that battery metals are a critical resource for the domestic defense industrial base and that other countries, including China, are investing state funds to grow their own lithium-ion battery supply chains. The Committee directs the Under Secretary of Defense for Acquisition and Sustainment to develop a needs assessment study for the domestic sourcing of critical battery metals, including lithium, cobalt, and nickel, and submit a report to the congressional defense committees on findings from the assessment not later than 180 days after the enactment of this Act.

WOMEN AND MINORITIES IN STEM PIPELINE

The Committee believes the Department of Defense faces challenges recruiting and retaining a workforce skilled in science, technology, engineering, and mathematics (STEM). While this is a nationwide concern, the Committee supports Department of Defense efforts to grow the STEM workforce pipeline, particularly for women and minorities. The Committee encourages the Under Secretary of Defense for Research and Engineering to continue these efforts by partnering with Hispanic Serving Institutions, Historically Black Colleges and Universities, and other Minority Serving Institutions on research, fellowships, internships, and cooperative work experiences at defense laboratories. Additionally, the Committee encourages the Under Secretary of Defense for Research and Engineering to collaborate with Hispanic Serving Institutions, Historically Black Colleges and Universities, and other Minority Serving Institutions to build a pipeline for scientists and engineers to enter the cyber workforce upon graduation.

BIO-BASED CHEMICALS FOR CORROSION CONTROL

The Committee encourages the Under Secretary of Defense for Research and Engineering to test and evaluate domestically manufactured, bio-based chemicals for corrosion control and mitigation as alternatives to environmentally harmful phosphate-based chemicals sourced primarily from foreign entities.

OPERATIONAL TEST AND EVALUATION, DEFENSE

Fiscal year 2022 budget request	\$216,591,000
Committee recommendation	216,591,000
Change from budget request	---

The Committee recommends an appropriation of \$216,591,000 for Operational Test and Evaluation, Defense which will provide the following program in fiscal year 2022:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request

REPROGRAMMING GUIDANCE FOR THE DEFENSE HEALTH PROGRAM

The Committee includes a provision which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The provision and accompanying report language should not be interpreted as limiting the amount of funds that may be transferred to the In-House Care budget sub-activity from other budget sub-activities within the Defense Health Program. In addition, funding for the In-House Care budget sub-activity continues to be designated as a congressional special interest item. Any transfer of funds from the In-House Care budget sub-activity into the Private Sector Care budget sub-activity or any other budget sub-activity requires the Secretary of Defense to follow prior approval reprogramming procedures for operation and maintenance funds.

The Committee directs the Secretary of Defense to provide written notification to the congressional defense committees of cumulative transfers in excess of \$10,000,000 out of the Private Sector Care budget sub-activity not later than fifteen days after such a transfer. Furthermore, the Committee directs the Secretary of Defense to provide a report to the congressional defense committees not later than 30 days after the enactment of this Act that delineates transfers of funds, and the dates any transfers occurred, from the Private Sector Care budget sub-activity to any other budget sub-activity.

The Committee further directs the Assistant Secretary of Defense for Health Affairs to provide quarterly reports to the congressional defense committees on budget execution data for all Defense Health Program budget changes and to adequately reflect changes to the budget activities requested by the Services in future budget submissions. These reports should also be provided to the Government Accountability Office.

CARRYOVER

For fiscal year 2022, the Committee recommends one percent carryover authority for the operation and maintenance account of the Defense Health Program. The Committee directs the Assistant Secretary of Defense for Health Affairs to submit a detailed spending plan for any fiscal year 2021 designated carryover funds to the congressional defense committees not less than 30 days prior to executing the carryover funds.

PEER-REVIEWED CANCER RESEARCH PROGRAMS

The Committee recommends \$150,000,000 for the peer-reviewed breast cancer research program, \$110,000,000 for the peer-reviewed prostate cancer research program, \$45,000,000 for the peer-reviewed ovarian cancer research program, \$50,000,000 for the peer-reviewed kidney cancer research program, \$20,000,000 for the peer-reviewed lung cancer research program, \$40,000,000 for the peer-reviewed melanoma research program, \$15,000,000 for the peer-reviewed pancreatic cancer research program, \$17,500,000 for the peer-reviewed rare cancer research program, and \$115,000,000 for the peer-reviewed cancer research program that would research

cancers not addressed in the aforementioned programs currently executed by the Department of Defense.

The funds provided in the peer-reviewed cancer research program are directed to be used to conduct research in the following areas: bladder cancer; blood cancers; brain cancer; colorectal cancer; endometrial cancer; esophageal cancer; germ cell cancers; head and neck cancer; liver cancer; lymphoma; mesothelioma; metastatic cancers; neuroblastoma; pediatric brain tumors; pediatric, adolescent, and young adult cancers; sarcoma; stomach cancer; thyroid cancer; and Von Hippel-Lindau cancer. The inclusion of the individual rare cancer research program shall not prohibit the peer-reviewed cancer research program from funding the previously mentioned cancers or cancer subtypes that may be rare by definition.

The funds provided under the peer-reviewed cancer research program shall be used only for the purposes listed above. The Committee directs the Assistant Secretary of Defense for Health Affairs to provide a report not later than 180 days after the enactment of this Act to the congressional defense committees on the status of the peer-reviewed cancer research program. For each research area, the report shall include the funding amount awarded, the progress of the research, and the relevance of the research to servicemembers and their families.

The Committee commends the Department of Defense for ensuring that projects funded through the various peer-reviewed cancer research programs maintain a focus on issues of significance to military populations and the warfighter. This includes promoting collaborative research proposals between Department of Defense researchers and non-military research institutions. These collaborations leverage the knowledge, infrastructure, and access to clinical populations that the partners bring to the research effort. Additionally, promoting these collaborations provides a valuable recruitment and retention incentive for military medical and research personnel. The Committee encourages the Commanding General, United States Army Medical Research and Development Command, to continue to emphasize the importance of these collaborations between military and non-military researchers throughout the peer-review process.

JOINT WARFIGHTER MEDICAL RESEARCH PROGRAM

The Committee recommendation includes \$40,000,000 for the continuation of the joint warfighter medical research program. The funding shall be used to augment and accelerate high priority Department of Defense and Service medical requirements and to continue prior year initiatives that are close to achieving their objectives and yielding a benefit to military medicine. The funding shall not be used for new projects nor for basic research, and it shall be awarded at the discretion of the Secretary of Defense following a review of medical research and development gaps as well as unfinanced medical requirements of the Services. Further, the Committee directs the Assistant Secretary of Defense for Health Affairs to submit a report not later than 180 days after the enactment of this Act to the congressional defense committees that lists the projects that receive funding. The report should include the funding amount awarded to each project, a thorough description of

each project's research, and the benefit the research will provide to the Department of Defense.

COMBAT READINESS MEDICAL RESEARCH PROGRAM

The Committee recommendation includes \$10,000,000 for the Combat Readiness Medical Research program. The program should focus on medical needs of the warfighter on the battlefield. Research should address the "golden hour" for servicemembers with life threatening injuries, battlefield diagnostics, and medical threats and treatments for warfighters deployed around the world.

The Committee expects the Assistant Secretary of Defense for Health Affairs to identify current gaps in medical planning and resources, consider medical capabilities that may mitigate fatalities, enhance battlefield diagnostics, and find solutions for life threatening complications after battlefield injury.

The funding in the Combat Readiness Medical Research program should be used for research and development of rapidly deployable, all-in-one acute and chronic wound care therapy engineered to address complex trauma and start tissue regeneration; repairing or restoring damaged or missing genitourinary organs and tissue; freeze dried plasma and platelets; portable neurological devices in support of mild traumatic brain injury assessment; hand-held detection devices for traumatic brain injury; head trauma injury; ruggedized oxygen generation systems; medical simulation technology; sleep disorders; eating disorders; extracorporeal life support; myalgic encephalomyelitis/chronic fatigue syndrome; regenerative medicine; sarcoidosis; valley fever; complementary health measures to accelerate return to duty; highly infectious disease treatment and transport; preventing and relieving service-related arthritis; and telemedicine.

ELECTRONIC HEALTH RECORDS

The Committee continues to support the efforts that the Department of Defense and the Department of Veterans Affairs are undertaking with regard to electronic health records and the health record system. It is the Committee's ongoing expectation that the Departments' electronic health record systems must be completely and meaningfully interoperable with seamless compatibility.

The Committee notes that one of the determining factors setting the timeline for deployment of the electronic health record is the need to improve informational technology and related infrastructure at military medical facilities. The Committee continues to direct the Secretary of Defense to provide a report to the congressional defense committees not later than 90 days after the enactment of this Act on the status of the installation of all remaining information technology and related infrastructure required to complete the deployment of the electronic health record system, including the timeline to complete installation, and costs associated if the Department accelerated the deployment timeline.

The Committee continues to direct the Comptroller General to perform quarterly performance reviews of the Department of Defense electronic health record deployment so that the Committee can further monitor implementation of the system and whether it is meeting predicted costs.

Additionally, the Committee directs the Director of the Interagency Program Office (IPO) to continue to provide quarterly reports on the progress of interoperability between the two Departments to the House and Senate Defense Appropriations Subcommittees and the House and Senate Military Construction, Veterans Affairs, and Related Agencies Appropriations Subcommittees. The Program Executive Office (PEO) for Defense Healthcare Management Systems (DHMS), in conjunction with the Director of the IPO and the Director of the Defense Health Agency, is directed to provide quarterly reports to the congressional defense committees on the cost of the program, including indirect costs being funded outside of the DHMS Modernization Electronic Health Record program; and schedule of the program, to include milestones, knowledge points, and acquisition timelines, as well as quarterly obligation reports. The Committee directs the PEO DHMS to continue briefing the House and Senate Defense Appropriations Subcommittees on a quarterly basis, coinciding with the report submission.

DESCOPING MILITARY TREATMENT FACILITIES

The Committee notes that the report required by section 703 of the National Defense Authorization Act for Fiscal Year 2017, submitted to Congress in February 2020, communicated the Department's plan to reduce or eliminate healthcare services for dependents and retirees at several military treatment facilities across the country. The Department is revalidating its assumptions in light of the coronavirus pandemic. The Committee questioned the Department's assumptions when the initial report was released, and is interested in the forthcoming conclusions related to the quality and accessibility of private sector care, the cost of changing the venue of care, and the relationship to other reforms, such as reducing the number of military medical billets. The Committee believes that Congress must be a partner in these decisions.

The Committee directs the Assistant Secretary of Defense for Health Affairs, in coordination with the Director of the Defense Health Agency and the Service Surgeons General, to brief the congressional defense committees on the implementation plan prior to the obligation of funds in fiscal year 2022 to close or descope any military treatment facilities, including an update to the market analysis conducted, cost implications, timeline, impact on providers, and benefits or risks to the served population.

REDUCTION OF MILITARY BILLETS

As directed by the National Defense Authorization Act for Fiscal Year 2017, the budget requests for fiscal years 2020 and 2021 included proposals to reduce the number of military medical personnel to increase the number of operational billets required for lethality.

The Department proposed, and the Committee rejected, \$250,000,000 in the fiscal year 2020 budget request and \$334,613,000 in the fiscal year 2021 budget request to mitigate potential access to care issues caused by the reduction of military providers. In both fiscal years the Committee was willing to continue the dialogue on necessary funding once the analysis by the Services had been completed, and when satisfactory and sufficient details on

the Department's plan to mitigate risk and access to care issues were answered. Despite numerous requests, information was not provided, and the Committee did not appropriate the requested funds. Given the continued lack of details regarding the quality and availability of care for beneficiaries, as well as a negative impact on readiness that may be caused by an unnecessary or potentially dangerous shedding of military medical providers, the Committee once again does not recommend funding the requested amount of \$104,462,000 in fiscal year 2022 for the same purpose.

The Committee understands that the military medical manning report required by Section 719 of the National Defense Authorization Act for Fiscal Year 2020 is expected to be delivered to the congressional defense committees during the summer of 2021. This report should respond to questions regarding medical manning requirements for all national defense strategy scenarios, homeland defense mission and pandemic influenza, along with an identification of affected billets and a plan to mitigate potential gaps in health care services caused by realignment or reduction in military medical end strength. While the Committee is cautiously optimistic about the details of this report, proposed reductions to military medical manning is occurring alongside other reforms. As such, the Committee directs the Assistant Secretary of Defense for Health Affairs to submit a report to the congressional defense committees not later than 60 days after the enactment of this Act on the Department's efforts to respond to disturbing reports about the quality and availability of civilian providers, along with other concerns raised in the May 2020 Government Accountability Office evaluation regarding the restructuring plan of military treatment facilities.

METASTATIC CANCER RESEARCH

Research has revealed that there is a genetic basis for susceptibility to metastatic cancer or resistance to metastasis, and the Committee believes that more research is required to develop a comprehensive understanding of this complex process. Clinical trials are an important aspect of that process and a diverse representation of patients in clinical trials is integral to the development of medications and therapies that effectively treat the disease. The Committee encourages the Director, Congressionally Directed Medical Research Program, to continue to partner with outside experts and other federal agencies to implement the recommendation from the April 2018 Task Force Report to Congress on Metastatic Cancer concerning diverse enrollment in clinical trials. The Committee also encourages the Assistant Secretary of Defense for Health Affairs to implement the recommendations to inform patients about risk factors for metastasis (e.g. compliance, obesity, smoking, and alcohol use), increase cancer patient awareness of healthcare resources, and create standardized survivorship care plans for patients with metastatic cancer while validating whether their use improves outcomes for these patients. The Committee is interested in areas where assistance from other federal agencies is required to fully implement the recommendations of the Task Force's report and directs the Assistant Secretary of Defense for Health Affairs to provide a report to the House and Senate Ap-

ropriations Committees not later than 180 days after the enactment of this Act on the progress of implementing the recommendations, including an identification of any barriers to implementation.

MAINTAINING A HIGHLY SKILLED WORKFORCE IN MEDICAL RESEARCH

The Committee encourages the Assistant Secretary of Defense for Health Affairs, the Director of the Defense Health Agency, and the Commander of Army Futures Command to prioritize maintaining a strong workforce of highly-skilled scientists and researchers vital to conducting the medical research necessary to protect warfighters and contribute to the nation-wide response to current and future pandemics.

MENTAL HEALTH PROFESSIONALS

The Committee remains concerned about the shortage of current and prospective mental health care professionals for servicemembers and their families, including social workers, clinical psychologists, and psychiatrists. The Committee directs the Assistant Secretary of Defense for Health Affairs, in coordination with the Service Surgeons General, to brief the House and Senate Appropriations Committees not later than 180 days after the enactment of this Act on an assessment of eligible beneficiaries' demand for behavioral health services, including services provided through telehealth, and funding required to adequately recruit and retain behavioral health professionals required to meet such demand. The assessment shall include a review of tools, such as pay grade increases, use of special and incentive pays, and the pipeline development of increasing the number of professionals in this field through scholarships or programs through the Uniformed Services University. Additionally, the assessment should include a review of related regulations to determine what impact a change in regulations to allow the employment of clinical psychologists who graduate from schools accredited by the Psychological Clinical Science Accreditation System may have on the Military Health System.

The Committee is aware of the limited use of contract providers to provide cognitive and non-cognitive baselines through end-of-service assessments both individually and for unit readiness. As part of meeting the mental health needs of servicemembers, the Committee encourages the Assistant Secretary of Defense for Health Affairs to assess the viability of expanding this program widely across the Services through the use of contract and embedded providers.

RAPID DEPLOYABLE SYNTHETIC VACCINE DEVELOPMENT

The Committee notes the significant advancements in vaccine development and the need to rapidly distribute countermeasures to combat infectious diseases and virus variants when required for the protection of military personnel worldwide. The Committee encourages the Commander, Army Medical Research and Development Command, and the Assistant Secretary of Defense for Health Affairs to research the development of low cost, single dose, highly scalable synthetic peptide vaccines that allow for rapid deployment

to military personnel against COVID-19, new virus variants, and infectious disease threats.

ARMED FORCES RETIREMENT HOMES AND THE DEFENSE HEALTH
AGENCY

The Committee notes the important role that the military health system plays for the care of the military retiree population, especially those living in the two Armed Forces Retirement Homes. As the Defense Health Agency continues to make recommendations for the rescoping of certain military treatment facilities, the Committee encourages the Director of the Defense Health Agency to take necessary steps to ensure in-patient care is available at a military treatment facility within 20 miles of each Armed Forces Retirement Home.

SERVICEMEMBERS AND VETERANS WITH AMYOTROPHIC LATERAL
SCLEROSIS

The Committee is aware of promising research underway through the Amyotrophic Lateral Sclerosis (ALS) Research Program. The Committee encourages the Assistant Secretary of Defense for Health Affairs to prioritize research that can bring effective treatments to people living with ALS as soon as possible.

TRAUMATIC INJURY

The Committee understands the uniqueness of traumatic injuries and neurological diseases sustained by servicemembers in combat. Extramural research focused on accelerating functional recovery and rehabilitation of sensorimotor function that is also personalized to the needs of the patient would have value to injured servicemembers and their caregivers. The Committee is aware of the promising technology of wirelessly activated implantable biomedical technologies capable of focal stimulation inside nerves and encourages the Assistant Secretary of Defense for Health Affairs to explore research into such technologies to offset the effects of limb amputation, orthopedic injury and disease, and other neurodegenerative diseases.

PEER-REVIEWED TOXIC EXPOSURES RESEARCH PROGRAM

The Committee is concerned by the number of known and unknown potentially harmful substances that servicemembers are exposed to as part of their military service. The Committee has funded research linked to exposures through various congressionally directed medical research programs, including the Peer-Reviewed Neurotoxin Exposure Treatment Parkinson's Research Program, which started in 1997 with a focus on dopaminergic neurons that result in Parkinson's disease. Additionally, since 2006, the Peer-Reviewed Gulf War Illness Research Program has also received congressionally directed funding to study the health impacts caused by deployment of warfighters during the Persian Gulf War. The Committee remains committed to helping veterans affected by Parkinson's disease, Gulf War illness, and others exposed to potentially toxic substances which result in multiple, diverse symptoms and health abnormalities.

Transitioning related research to a new, broader program including neurotoxin exposure treatment research, research on Gulf War illness, exposures to burn pits, and other service-related exposures to potentially toxic chemicals and materials will allow the research community to improve scientific understanding and pathobiology from exposure, more efficiently assess comorbidities, and speed the development of treatments, cures, and preventions. Therefore, the Committee recommends \$30,000,000 for a peer-reviewed toxic exposures research program. The funds provided in this program are directed to be used to conduct research of clear scientific merit and direct relevance to neurotoxin exposure; Gulf War illness and its treatment; airborne hazards and burn pits; as well as toxic military exposures in general, including prophylactic medications, pesticides, organophosphates, toxic industrial chemicals, materials, metals, and minerals. The Committee directs the Director, Congressionally Directed Medical Research Programs, to ensure that the program is conducted using competitive selection and peer-review for the identification of research with the highest technical merit and military benefit. Further, the Committee directs that this program be coordinated with similar activities in the Department of Veterans Affairs. Collaborations between researchers at military or veteran institutions and non-military research institutions are encouraged to leverage the knowledge, infrastructure and access to military and veteran populations. The inclusion of the toxic exposures research program shall not prohibit research in any other congressionally directed research program that may be associated with conditions or health abnormalities which may have been the result of toxic exposures.

BRAIN INJURY AND DISEASE PREVENTION RESEARCH

The Committee is supportive of ongoing research and development efforts focused on the increased risk of certain conditions after a servicemember experiences traumatic brain injury. The Committee is aware of research into the relationship between traumatic brain injury and neurodegenerative diseases, such as chronic traumatic encephalopathy and Parkinson's disease. The Committee recommendation includes \$60,000,000 aimed at halting the neurodegenerative processes that follow traumatic brain injury.

NATIONAL DISASTER MEDICAL SYSTEM PILOT

The Committee continues to be concerned with the fracturing of the military health system and is concerned that not enough attention has been placed on medical capabilities and capacity required for the homeland defense mission.

Section 740 of the National Defense Authorization Act for Fiscal Year 2020, as amended by Section 741 of the National Defense Authorization Act for Fiscal Year 2021, authorized a pilot program on civilian and military partnerships to enhance interoperability and medical surge capability and capacity of the National Disaster Medical System. The Department of Defense Appropriations Act, 2021 included \$15,000,000 for the pilot program but the Committee is disappointed that funding was not included as part of the fiscal year 2022 budget request. The Committee recommendation in-

cludes \$15,000,000 and directs that sufficient funding be included in the budget request for fiscal year 2023.

Additionally, as was observed during the response to the COVID 19 pandemic, the nation lacks medical surge capacity beyond what is currently available. Therefore, the Committee recommendation includes \$14,000,000 for the Department of Defense to initiate investment in a joint civilian-military modular surge facility. This type of modular and/or convertible medical surge facility should be adjacent to existing medical facilities and should include laboratories, intensive care units, x-rays, and be able to use the staffing and services available in the medical facility. The initial investment in the Committee recommendation should be used to initiate facility modifications, prepare for construction, and begin development of a training curriculum necessary to activate the surge facility.

EXPANDED RECOVERY SERVICES FOR SERVICEMEMBERS

The Committee recognizes the unique challenges for those combatting substance use disorders, especially for men and women serving in the military. As 80 percent of those treated for substance abuse disorders within the military health system are active duty, ongoing recovery support is essential for optimizing outcomes and maximizing readiness. To combat these issues, the Navy established the My Ongoing Recovery Experience (MORE) program in 2010 and has since enrolled more than 23,500 servicemembers. The program has reported an 88 percent abstinence success rate among those who consistently remained in recovery programming, completed MORE courses, and engaged with recovery professionals. The Committee commends the success of the Navy MORE program as a substance abuse rehabilitation program and encourages the Secretaries of the Army and the Air Force to establish similar programs for their respective Services. The Committee also encourages the Secretary of the Navy to align the Navy MORE program with a peer-based recovery program to further enable participants to successfully build and sustain a life in recovery.

ADVANCED ORTHOPEDIC SURGICAL TRAINING FOR MILITARY ORTHOPEDIC SURGEONS

The Committee understands that servicemembers and their families regularly undergo orthopedic procedures and that these types of musculoskeletal injuries account for a significant amount of medical separations or retirements from military service. Delivery of direct training based on best practices related to orthopedic procedures for injuries to the knee, shoulder, and other extremities has become an increasingly important readiness issue. The Committee encourages the Assistant Secretary of Defense for Health Affairs to develop military-civilian partnerships that ensure that military orthopedic health professionals are provided with advanced surgical training in arthroscopic techniques and to partner with medical professional societies that maintain best practices related to arthroscopic surgery and techniques.

ADDRESSING HEALTH BARRIERS TO MILITARY SERVICE

The Committee is concerned that 71 percent of Americans between the ages of 17 to 24 are ineligible for military service due to obesity, mental and other physical health conditions, or substance abuse. The Committee directs the Secretary of Defense, in coordination with the Service Secretaries, to submit a report to the congressional defense committees not later than 180 days after the enactment of this Act on existing military fitness and nutrition initiatives and campaigns. The report shall include the metrics used to assess the effectiveness of these efforts in recruiting or retaining servicemembers; the resources available to assist applicants and recruits in meeting physical fitness standards in cases where potential applicants or recruits may be disqualified due to a failure of meeting standards; the return on investment from these efforts; and the anticipated costs of the military health system for treating obesity-related health conditions across military, civilian, dependent, and retiree populations.

Additionally, the Committee recognizes that federal support for childhood nutrition, food security, physical education, mental and physical health, and substance abuse prevention benefits all Americans, including those who intend to serve in the military. The Committee believes that the Department of Defense has an obligation to both ensure a ready and fit-to-fight force and to help promote the health of civilians. The Committee encourages the Secretary of Defense to coordinate with the Secretaries of Agriculture and Health and Human Services to identify ways that the Department could contribute to informing physical fitness or nutritional standards for children and young adults across the nation.

PERFORMANCE BASED MATERNITY PAYMENTS FOR FREESTANDING BIRTH CENTERS

Value-based health care is a health care delivery model in which providers, including healthcare facilities and care providers, are paid based on patient health outcomes. The Committee is aware that the Department of Defense conducted a pilot study from 2018 to 2021 to collect data on quality of care measures in maternity hospitals but understands that maternity care provided in freestanding birth centers was not studied. The Committee encourages the Assistant Secretary of Defense for Health Affairs to conduct a pilot study to evaluate the value of maternity care provided in freestanding birth centers. The pilot study could assess the feasibility of incorporating episode-based funded payments in the purchased care component of the TRICARE program by reducing co-payments or cost shares for low-risk populations of covered beneficiaries for antepartum, intrapartum, newborn and postpartum maternity care services provided by certified nurse-midwives and/or physicians within freestanding birth centers.

ANTIVIRAL DEVELOPMENT

The Committee is concerned that there has been insufficient focus for the development of host derived broad-spectrum antivirals as a medical countermeasure. The coronavirus pandemic demonstrated gaps in therapies available to treat emerging infectious

diseases. The Committee encourages the Assistant Secretary of Defense for Health Affairs to research host-derived broad-spectrum antivirals that can treat a myriad of infectious diseases to address national security and public health threats.

COLLABORATION WITH MINORITY SERVING HEALTH INSTITUTIONS

The Committee encourages the Assistant Secretary of Defense for Health Affairs to work collaboratively in the health research field with Hispanic Serving Institutions, Historically Black Colleges and Universities, and other Minority Serving Institutions.

POST-TRAUMATIC EPILEPSY

The Committee is encouraged by the progress and results of the Team Approach to the Prevention and Treatment of Post-Traumatic Epilepsy Initiative. The Committee encourages the Director, Congressionally Medical Research Programs to support innovative research tools and identify definitive biomarkers to better detect who will develop post-traumatic epilepsy following a traumatic brain injury event.

CHEMICAL AGENTS AND MUNITIONS DESTRUCTION,
DEFENSE

Fiscal year 2022 budget request	\$1,094,352,000
Committee recommendation	1,094,352,000
Change from budget request	---

The Committee recommends an appropriation of \$1,094,352,000 for Chemical Agents and Munitions Destruction, Defense which will provide the following program in fiscal year 2022:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
OPERATION AND MAINTENANCE	93,121	93,121	0
RESEARCH, DEVELOPMENT, TEST AND EVALUATION	1,001,231	1,001,231	0
TOTAL, CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE ..	1,094,352	1,094,352	0

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES,
DEFENSE

Fiscal year 2022 budget request	\$821,908,000
Committee recommendation	844,996,000
Change from budget request	+23,088,000

The Committee recommends an appropriation of \$844,996,000 for Drug Interdiction and Counter-Drug Activities, Defense which will provide the following program in fiscal year 2022:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
COUNTER NARCOTICS SUPPORT	593,250	519,097	- 74,153

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS—Continued

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
Transfer to National Guard Counter-Drug Program		– 33,696	
Project 1387 insufficient budget justification		– 25,457	
Reduce duplicative efforts		– 15,000	
DRUG DEMAND REDUCTION PROGRAM	126,024	126,024	0
NATIONAL GUARD COUNTER DRUG PROGRAM	96,970	194,211	97,241
Transfer from Counter-Narcotics Support		33,696	
Program increase		63,545	
NATIONAL GUARD COUNTER DRUG SCHOOLS	5,664	5,664	0
TOTAL, DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE	821,908	844,996	23,088

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES

The Committee recommendation includes \$519,097,000 for Counter-Narcotics Support, which supports the counter-narcotics activities of United States Northern Command and United States Southern Command, including the operations of the Joint Inter-agency Task Force South. The recommendation transfers \$33,696,000 from Counter-Narcotics Support to the National Guard Counter-Drug Program and reduces funding for international programs, which are supported elsewhere in this Act. The Committee notes that the joint explanatory statement accompanying the Department of Defense Appropriations Act, 2021, directed the Secretary of Defense to ensure that international programs requested and supported by this account do not duplicate programs funded under the Defense Security Cooperation Agency in the Operation and Maintenance, Defense-Wide account. The Committee directs that any notification for funds submitted pursuant to 10 U.S.C. 284 indicate whether the notified program could be carried out pursuant to another authority or by another federal agency.

The Committee recommendation includes legislative language requiring the Secretary of Defense to notify the House and Senate Appropriations Committees not fewer than 15 days prior to the transfer of funds between projects. Such projects are those identified in the PB 47 Project Definitions budget exhibit of the fiscal year 2022 budget justification materials and other documentation supporting the budget request.

OFFICE OF THE INSPECTOR GENERAL

Fiscal year 2022 budget request	\$438,363,000
Committee recommendation	438,363,000
Change from budget request	— — —

The Committee recommends an appropriation of \$438,363,000 for the Office of the Inspector General which will provide the following program in fiscal year 2022:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[In thousands of dollars]

	Budget Request	Committee Recommended	Change from Request
OPERATION AND MAINTENANCE	435,918	435,918	0
PROCUREMENT	80	80	0
RESEARCH, DEVELOPMENT, TEST AND EVALUATION	2,365	2,365	0
TOTAL, OFFICE OF THE INSPECTOR GENERAL	438,363	438,363	0

AFGHANISTAN SECURITY FORCES FUND MONITORING PROGRAM
ASSESSMENT

The Committee directs the Inspector General to provide an assessment of the Department of Defense program to monitor, evaluate, and oversee funds appropriated under the heading Afghanistan Security Forces Fund, and to submit a report along with recommendations to strengthen the program to the congressional defense committees not later than 90 days after the enactment of this Act.

TITLE VII

RELATED AGENCIES

NATIONAL AND MILITARY INTELLIGENCE PROGRAMS

The National Intelligence Program and the Military Intelligence Program budgets funded in this Act consist primarily of resources for the Director of National Intelligence, including the Intelligence Community Management staff, the Central Intelligence Agency (CIA), the Defense Intelligence Agency, the National Reconnaissance Office, the National Security Agency, the National Geospatial-Intelligence Agency, the intelligence services of the Departments of the Army, Navy, and Air Force, and the CIA Retirement and Disability fund.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in a separate, detailed, and comprehensive classified annex. The Intelligence Community, the Department of Defense, and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying the Department of Defense Appropriations Act, 2022.

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND
DISABILITY SYSTEM FUND

Fiscal year 2022 budget request	\$514,000,000
Committee recommendation	514,000,000
Change from budget request	---

The Committee recommends an appropriation of \$514,000,000 for the Central Intelligence Agency Retirement and Disability System Fund. This is a mandatory account.

This appropriation provides payments of benefits to qualified beneficiaries in accordance with the Central Intelligence Agency Retirement Act of 1964 for Certain Employees (P.L. 88-643), as amended by Public Law 94-522. This statute authorized the establishment of the CIA Retirement and Disability System for certain employees and authorized the establishment and maintenance of a fund from which benefits would be paid to those beneficiaries.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

Fiscal year 2022 budget request	\$634,000,000
Committee recommendation	562,500,000
Change from budget request	-71,500,000

The Committee recommends an appropriation of \$562,500,000 for the Intelligence Community Management Account.

UNITED STATES FOREIGN INTELLIGENCE SURVEILLANCE COURT
DECLASSIFICATION OF SIGNIFICANT DECISION, ORDERS, AND OPINIONS

The Committee directs the Director of National Intelligence, in consultation with the Attorney General, to complete, within one year of the enactment of this Act, a one-time declassification review of decisions, orders, and opinions of the Foreign Intelligence Surveillance Court or Foreign Intelligence Surveillance Court of Review that predate the USA Freedom Act, and that include a significant construction or interpretation of any provision of law. Consistent with that review, each such decision, order, or opinion shall be released to the public.

Provisions of 50 U.S.C. § 1872 shall apply, including that the Director of National Intelligence, in consultation with the Attorney General, may satisfy the review requirement by making each such decision, order, or opinion publicly available in redacted form; and that the Director of National Intelligence, in consultation with the Attorney General, may waive the requirement to declassify and release a particular decision, order or opinion if, among other things, such waiver is necessary to protect either the national security of the United States or properly classified intelligence sources and methods.

TITLE VIII

GENERAL PROVISIONS

Title VIII of the accompanying bill includes 160 general provisions. A brief description of each provision follows.

Section 8001 provides that no funds made available in this Act may be used for publicity or propaganda purposes not authorized by Congress.

Section 8002 provides for conditions and limitations on the payment of compensation to, or employment of, foreign nationals.

Section 8003 provides that no funds made available in this Act may be obligated beyond the end of the fiscal year unless expressly provided for a greater period of availability elsewhere in the Act.

Section 8004 limits the obligation of certain funds provided in this Act during the last two months of the fiscal year.

Section 8005 has been amended and provides for the general transfer authority of funds to other military functions.

Section 8006 has been amended and provides that the tables titled "Explanation of Project Level Adjustments" in the Committee report and classified annex shall be carried out in the manner provided by the tables to the same extent as if the tables were included in the text of this Act.

Section 8007 has been amended and provides for the establishment of a baseline for application of reprogramming and transfer authorities for the current fiscal year.

Section 8008 provides for limitations on the use of transfer authority of working capital fund cash balances.

Section 8009 provides that none of the funds appropriated in this Act may be used to initiate a special access program without prior notification to the congressional defense committees.

Section 8010 has been amended provides limitations and conditions on the use of funds made available in this Act to initiate multiyear procurement contracts.

Section 8011 provides for the use and obligation of funds for humanitarian and civic assistance costs.

Section 8012 has been amended and provides that civilian personnel of the Department of Defense may not be managed on the basis of end strength or be subject to end strength limitations.

Section 8013 prohibits funding from being used to influence congressional action on any matters pending before the Congress.

Section 8014 prohibits compensation from being paid to any member of the Army who is participating as a full-time student and who receives benefits from the Education Benefits Fund when time spent as a full-time student is counted toward that member's service commitment.

Section 8015 provides for the transfer of funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program.

Section 8016 provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States.

Section 8017 provides that no funds made available in this Act shall be used for the support of any non-appropriated funds activity of the Department of Defense that procures malt beverages and wine except under certain conditions.

Section 8018 prohibits funds made available to the Department of Defense from being used to demilitarize or dispose of certain surplus firearms and small arms ammunition or ammunition components.

Section 8019 provides a limitation on funds being used for the relocation of any Department of Defense entity into or within the National Capital Region.

Section 8020 provides for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544).

Section 8021 provides for the conveyance, without consideration, of relocatable housing units that are excess to the needs of the Air Force.

Section 8022 provides for the availability of funds for the mitigation of environmental impacts on Indian lands resulting from Department of Defense activities.

Section 8023 provides that no funding for the Defense Media Activity may be used for national or international political or psychological activities.

Section 8024 is new and provides the minimum wage for certain employees.

Section 8025 is new and provides no requirement to submit a report to Congress in any covered provision of law may be satisfied by the submission of a report to Congress pursuant to another provision of law.

Section 8026 has been amended and provides funding for the Civil Air Patrol Corporation.

Section 8027 has been amended and prohibits funding from being used to establish new Department of Defense Federally Funded Research and Development Centers (FFRDC), with certain limitations, and increases funding provided for FFRDCs.

Section 8028 defines the congressional defense committees as the Armed Services Committees of the House and Senate and the Subcommittees on Defense of the House and Senate Appropriations Committees.

Section 8029 defines the congressional intelligence committees as being the Permanent Select Committee on Intelligence of the House, the Select Committee on Intelligence of the Senate, and the Subcommittees on Defense of the Committees on Appropriations of the House and Senate.

Section 8030 provides for competitions between private firms and Department of Defense depot maintenance activities.

Section 8031 requires the Department of Defense to comply with the Buy American Act, chapter 83 of title 41, United States Code.

Section 8032 provides for the Department of Defense to procure carbon, alloy, or armor steel plate melted and rolled only in the United States and Canada.

Section 8033 provides for the revocation of blanket waivers of the Buy American Act.

Section 8034 prohibits funding from being used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

Section 8035 prohibits funding from being used to purchase supercomputers which are not manufactured in the United States.

Section 8036 provides for a waiver of "Buy American" provisions for certain cooperative programs.

Section 8037 prohibits the use of funds for the purchase or manufacture of a United States flag unless such flags are treated as covered items under section 2533a(b) of title 10, United States Code.

Section 8038 provides for the availability of funds contained in the Department of Defense Overseas Military Facility Investment Recovery Account.

Section 8039 provides authority to use operation and maintenance appropriations to purchase items having an investment item unit cost of not more than \$250,000.

Section 8040 prohibits the use of funds in contravention of the First Amendment.

Section 8041 provides authority to use operation and maintenance appropriations for the Asia Pacific Regional Initiative Program.

Section 8042 prohibits the sale of tobacco products in military resale outlets below the most competitive price in the local community.

Section 8043 prohibits the use of Working Capital Funds to purchase specified investment items.

Section 8044 provides that none of the funds appropriated for the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year except for funds appropriated for the Reserve for Contingencies, the Working Capital Fund, or other programs as specified.

Section 8045 places certain limitations on the use of funds made available in this Act to establish field operating agencies.

Section 8046 places restrictions on converting to contractor performance an activity or function of the Department of Defense unless it meets certain guidelines provided.

(RESCISSIONS)

Section 8047 has been amended and provides for the rescission of \$1,634,954,000 from the following programs:

2015 Appropriations:	
Shipbuilding and Conversion, Navy:	
Expeditionary fast transport	\$4,300,000
2020 Appropriations:	
Missile Procurement, Army:	
Stinger mods	5,000,000
Lethal miniature aerial missile system	1,953,000

Procurement of Weapons and Tracked Combat Vehicles, Army:	
M240 medium machine gun mods	4,500,000
Other Procurement, Army:	
Bridge supplemental set	13,000,000

JNT standoff weapon system	5,500,000

Cooperative engagement capability	7,022,000
Research, Development, Test and Evaluation, Space Force:	
Next generation OPIR	67,000,000
Space test and training range development	2,000,000
Family of advanced BLOS terminals (FAB-T)	15,600,000
Satellite control network	10,000,000
Defense Working Capital Fund:	
Defense Counterintelligence and Security Agency Working Capital Fund	30,000,000

Section 8048 prohibits funds made available in this Act from being used to reduce authorized positions for military technicians (dual status) of the Army National Guard, Air National Guard, Army Reserve, and Air Force Reserve unless such reductions are a direct result of a reduction in military force structure.

Section 8049 prohibits funding from being obligated or expended for assistance to the Democratic People's Republic of Korea unless specifically appropriated for that purpose.

Section 8050 provides for reimbursement to the National Guard and reserve when members of the National Guard and reserve provide intelligence or counterintelligence support to the combatant commands, defense agencies, and joint intelligence activities.

Section 8051 prohibits the transfer of Department of Defense and Central Intelligence Agencies drug interdiction and counter-drug activities funds to other agencies.

Section 8052 provides funding for Red Cross and United Services Organization grants.

Section 8053 provides funds for the Small Business Innovation Research program and the Small Business Technology Transfer program.

Section 8054 prohibits funding from being used for contractor bonuses being paid due to business restructuring.

Section 8055 provides transfer authority for the pay of military personnel in connection with support and services for eligible organizations and activities outside the Department of Defense.

Section 8056 provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts.

Section 8057 provides conditions for the use of equipment of the National Guard Distance Learning Project on a space-available, reimbursable basis.

Section 8058 has been amended and provides funding for Sexual Assault Prevention and Response Programs.

Section 8059 has been amended and provides for the limitation on the use of funds appropriated in title IV to procure end-items for delivery to military forces for operational training, operational use or inventory requirements.

Section 8060 prohibits funding in this Act from being used for repairs or maintenance to military family housing units.

Section 8061 provides obligation authority for new starts for advanced concept technology demonstration projects only after notification to the congressional defense committees.

Section 8062 provides that the Secretary of Defense shall provide a classified quarterly report on certain matters as directed in the classified annex accompanying this Act.

Section 8063 provides for the use of National Guard personnel to support ground-based elements of the National Ballistic Missile Defense System.

Section 8064 prohibits the use of funds made available in this Act to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and is designated as “armor piercing” except for demilitarization purposes.

Section 8065 provides for a waiver by the Chief of the National Guard Bureau or his designee for all or part of consideration in cases of personal property leases of less than one year.

Section 8066 has been amended and provides for the transfer of funds made available in this Act under Operation and Maintenance, Army to other activities of the federal government for classified purposes.

Section 8067 prohibits funding to separate, or to consolidate from within, the National Intelligence Program budget from the Department of Defense budget.

Section 8068 has been amended and provides grant authority for the construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

Section 8069 provides the authority to transfer funding from operation and maintenance accounts for the Army, Navy, and Air Force to the central fund for Fisher Houses and Suites.

Section 8070 provides for the transfer of funds made available in this Act under Operation and Maintenance, Navy to the John C. Stennis Center for Public Service Development Trust Fund.

Section 8071 prohibits the modification of command and control relationships to give Fleet Forces Command operational and administrative control of United States Navy forces assigned to the Pacific fleet.

Section 8072 requires notification for the rapid acquisition and deployment of supplies and associated support services.

Section 8073 has been amended and provides funding and transfer authority for the Israeli Cooperative Programs.

Section 8074 has been amended and provides for the funding of prior year shipbuilding cost increases.

Section 8075 provides that funds made available in this Act for intelligence activities are deemed to be specifically authorized by Congress for purposes of section 504 of the National Security Act of 1947 until the enactment of the Intelligence Authorization Act for the current fiscal year.

Section 8076 prohibits funding from being used to initiate a new start program without prior written notification.

Section 8077 provides that the budget of the President for the subsequent fiscal year shall include separate budget justification documents for costs of the United States Armed Forces’ participation in contingency operations.

Section 8078 prohibits funding from being used for the research, development, test, evaluation, procurement, or deployment of nuclear armed interceptors of a missile defense system.

Section 8079 makes funds available for transfer for the purposes of rapid acquisition and deployment of supplies and associated support services.

Section 8080 prohibits funding from being used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve.

Section 8081 prohibits funding from being used for the integration of foreign intelligence information unless the information has been lawfully collected and processed during conduct of authorized foreign intelligence activities.

Section 8082 prohibits funding from being used to transfer program authority relating to current tactical unmanned aerial vehicles from the Army and requires the Army to retain responsibility for and operational control of the MQ-1C Unmanned Aerial Vehicle.

Section 8083 has been amended and limits the availability of funding provided for the Office of the Director of National Intelligence beyond the current fiscal year, except for funds appropriated for research and technology and the purchase of real property, which shall remain available for the current and the following fiscal years.

Section 8084 provides limitations on the Shipbuilding and Conversion, Navy appropriation.

Section 8085 provides for the establishment of a baseline for application of reprogramming and transfer authorities for the Office of the Director of National Intelligence for the current fiscal year.

Section 8086 places limitations on the reprogramming of funds from the Department of Defense Acquisition Workforce Development Account.

Section 8087 provides for limitations on funding provided for the National Intelligence Program to be available for obligation or expenditure through a reprogramming or transfer of funds in accordance with section 102A(d) of the National Security Act of 1947 (50 U.S.C. 3024(d)).

Section 8088 prohibits the use of funds for the purpose of making remittances to the Department of Defense Acquisition Workforce Development Account.

Section 8089 provides that any agency receiving funds made available in this Act shall post on a public website any report required to be submitted to Congress with certain exceptions.

Section 8090 prohibits the use of funds for federal contracts in excess of \$1,000,000 unless the contractor meets certain conditions.

Section 8091 provides funds for transfer to the Joint Department of Defense–Department of Veterans Affairs Medical Facility Demonstration Fund.

Section 8092 prohibits the use of funds providing certain missile defense information to certain entities.

Section 8093 provides for the purchase of heavy and light armed vehicles for the physical security of personnel or for force protection purposes up to a limit of \$450,000 per vehicle.

Section 8094 has been amended and provides the Director of National Intelligence with general transfer authority with certain limitations.

Section 8095 has been amended and authorizes the use of funds in the Shipbuilding and Conversion, Navy account to purchase five used auxiliary vessels for the National Defense Reserve Fleet.

Section 8096 directs the Secretary of Defense to post grant awards on a public Web site in a searchable format.

Section 8097 places restrictions on transfer amounts available in the Rapid Prototyping Fund.

Section 8098 prohibits the use of funds by the National Security Agency targeting United States persons under authorities granted in the Foreign Intelligence Surveillance Act.

Section 8099 prohibits the transfer of administrative or budgetary resources to the jurisdiction of another Federal agency not financed by this Act without the express authorization of Congress.

Section 8100 has been amended and provides that operation and maintenance funds may be used for any purposes related to the National Defense Reserve Fleet.

Section 8101 prohibits the use of funds to provide counterterrorism support to foreign partners unless the congressional defense committees are notified accordingly.

Section 8102 requires a report related to the National Instant Criminal Background Check System.

Section 8103 has been amended and prohibits the use of funds to award a new TAO Fleet Oiler or FFG Frigate program contract for the acquisition of certain components unless those components are manufactured in the United States.

Section 8104 prohibits funds for the development and design of certain future naval ships unless any contract specifies that all hull, mechanical, and electrical components are manufactured in the United States.

Section 8105 has been amended and prohibits funds for the decommissioning of any Littoral Combat Ships.

Section 8106 prohibits certain transfers from the Department of Defense Acquisition Workforce Development Account.

Section 8107 prohibits the use of funds for gaming or entertainment that involves nude entertainers.

Section 8108 prohibits the use of funding for information technology systems that do not have pornographic content filters.

Section 8109 has been amended and makes funds available through the Office of Local Defense Community Cooperation for transfer to the Secretary of Education, to make grants to construct, renovate, repair, or expand elementary and secondary public schools on military installations.

Section 8110 provides guidance on the implementation of the Policy for Assisted Reproductive Services for the Benefit of Seriously or Severely Ill/Injured Active Duty Service Members.

Section 8111 has been amended and places restrictions on the use of funding for military parades.

Section 8112 has been amended and provides for the use of funds to modify two F-35 Joint Strike Fighters per variant to a test configuration.

Section 8113 provides for funding available in the Defense Health Program for death gratuity payments.

Section 8114 prohibits funds in the Act from being used to enter into a contract or provide a loan to any corporation that has any unpaid Federal tax liability.

Section 8115 has been amended and provides that any advance billing for background investigation services and related services purchased from activities financed using the Defense Working Capital Fund shall be excluded from the calculation of cumulative advance billings.

Section 8116 prohibits funds from being used to transfer the National Reconnaissance Office to the Space Force.

Section 8117 requires the Secretary of Defense to make a certification prior to the transfer of any element to the Space Force.

Section 8118 is new and prohibits funds to establish a field operating agency of the Space Force.

Section 8119 provides funds appropriated under military personnel may be used for expenses for members of the Space Force.

Section 8120 is new and provides that the Commander of United States Cyber Command shall be responsible for resources for the Cyber Mission Forces.

Section 8121 has been amended and reduces funding due to favorable fuel costs.

Section 8122 has been amended and provides funds for agile development, test and evaluation, procurement, production and modification, and the operation and maintenance for certain software pilot programs.

Section 8123 has been amended and provides funding for mitigation of military aircraft noise.

Section 8124 is new and prohibits funds from being used in a manner that does not comply with the requirements of section 365 of H.R. 1280 as passed by the House of Representatives on March 3, 2021.

Section 8125 prohibits the use of funding in contravention of the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment.

Section 8126 provides for the obligation of funds in anticipation of receipt of contributions from the Government of Kuwait.

Section 8127 requires notification of the receipt of contributions from foreign governments.

Section 8128 provides for the procurement of certain vehicles in the United States Central Command area.

Section 8129 provides for the purchase of items of a particular investment unit cost from funding made available for operation and maintenance.

Section 8130 prohibits funding from being used in contravention of the War Powers Resolution.

Section 8131 prohibits the use of funds with respect to Iraq in contravention of the War Powers Resolution.

Section 8132 prohibits the use of funds with respect to Syria in contravention of the War Powers Resolution.

Section 8133 has been amended and provides that nothing in this Act may be construed as authorizing the use of force against Iran and North Korea.

Section 8134 prohibits the establishment of permanent bases in Iraq or Afghanistan or United States control over Iraq or Syria oil resources.

Section 8135 is new and requires the Secretary to provide a notification when a foreign base is open or closed.

Section 8136 is new and requires the Secretary of Defense to provide quarterly reports on the deployment of United States Armed Forces.

Section 8137 prohibits the use of funding under certain headings to procure or transfer man-portable air defense systems.

Section 8138 prohibits funding from being used in violation the Child Soldiers Prevention Act of 2008.

Section 8139 prohibits the transfer of additional C-130 cargo aircraft to the Afghanistan National Security Forces or Afghanistan Air Force.

Section 8140 has been amended and prohibits funds for any member of the Taliban.

Section 8141 limits the obligation of funding for the Afghanistan Security Forces Fund prior to the approval of a financial and activity plan by the Afghanistan Resources Oversight Council.

Section 8142 has been amended and provides that certain support to friendly foreign countries be made in accordance with section 8005 of this Act.

Section 8143 has been amended and provides lift and sustainment to coalition forces.

Section 8144 requires the Secretary of Defense to certify the use of funds in the Afghanistan Security Forces Fund under certain conditions.

Section 8145 is new and provides funding to the Department of Defense to provide transport and safe passage to certain Afghans.

Section 8146 has been amended and provides funding for International Security Cooperation Programs.

Section 8147 has been amended and provides funding to reimburse key cooperating nations for logistical, military, and other support.

Section 8148 has been amended and provides funding to reimburse certain countries for border security.

Section 8149 provides security assistance to the Government of Jordan.

Section 8150 provides security assistance to the Ukraine.

Section 8151 prohibits funds from being used to enter into a contract with Rosoboronexport.

Section 8152 prohibits the use of funds to provide arms, training, or other assistance to the Azov Battalion.

Section 8153 is new and prohibits funds to support military operations conducted by the Saudi-led coalition against the Houthis in the war in Yemen.

Section 8154 is new and requires an integrated security cooperation strategy for assistance for certain partner countries.

Section 8155 is new and prohibits funds to operate the detention facility at United States Naval Station, Guantanamo Bay, Cuba.

Section 8156 is new and requires the Secretary of Defense to provide information and documents regarding the December 1981 massacre in El Mozote.

Section 8157 is new and prohibits funds to procure light-emitting diode (LED) light bulbs for use in any Government-owned facility or property under the control of the Department of Defense which were not made or assembled in the United States.

Section 8158 is new and prohibits funds to support any activity conducted by, or associated with, the Wuhan Institute of Virology.

Section 8159 is new and repeals the 2001 Authorization for Use of Military Force (P.L. 107-40) 240 days after the date of the enactment of this Act.

Section 8160 is new and repeals the Authorization for Use of Military Force Against Iraq Resolution of 2002 (Public Law 107-243).

HOUSE OF REPRESENTATIVES REPORTING REQUIREMENTS

The following items are included in accordance with various requirements of the Rules of the House of Representatives:

STATEMENT OF GENERAL PERFORMANCE GOALS AND OBJECTIVES

Pursuant to clause 3(c)(4) of rule XIII of the Rules of the House of Representatives, the following is a statement of general performance goals and objectives for which this measure authorizes funding:

The Committee on Appropriations considers program performance, including a program's success in developing and attaining outcome-related goals and objectives, in developing funding recommendations.

PROGRAM DUPLICATION

No provision of this bill establishes or reauthorizes a program of the Federal Government known to be duplicative of another Federal program, a program that was included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111-139, or a program related to a program identified in the most recent Catalog of Federal Domestic Assistance.

TRANSFER OF FUNDS

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House of Representatives, the following is submitted describing the transfer of funds provided in the accompanying bill.

Language has been included under "Operation and Maintenance, Defense-Wide" which provides for the transfer of funds for certain classified activities.

Language has been included under "Environmental Restoration, Army" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under "Environmental Restoration, Navy" which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under “Environmental Restoration, Air Force” which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under “Environmental Restoration, Defense-Wide” which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under “Environmental Restoration, Formerly Used Defense Sites” which provides for the transfer of funds for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris, or for similar purposes.

Language has been included under “Drug Interdiction and Counter-Drug Activities, Defense” which provides for the transfer of funds to appropriations available to the Department of Defense for military personnel of the reserve components; for operation and maintenance; for procurement; and for research, development, test and evaluation for drug interdiction and counter-drug activities of the Department of Defense.

Language has been included under “General Provisions, Sec. 8005” which provides for the transfer of working capital funds to other appropriations accounts of the Department of Defense for military functions.

Language has been included under “General Provisions, Sec. 8008” which provides for the transfer of funds between working capital funds and the “Foreign Currency Fluctuations, Defense” appropriation and the operation and maintenance appropriation accounts.

Language has been included under “General Provisions, Sec. 8015” which provides for the transfer of funds from the Department of Defense Pilot Mentor-Protégé Program to any other appropriation for the purposes of implementing a Mentor-Protégé Program development assistance agreement.

Language has been included under “General Provisions, Sec. 8055” which provides for the transfer of funds from “Operation and Maintenance, Defense-Wide” to appropriations available for the pay of military personnel in connection with support and services of eligible organizations and activities outside the Department of Defense.

Language has been included under “General Provisions, Sec. 8058” which provides for the transfer of funds from “Operation and Maintenance, Defense-Wide” to the Department of the Army, the Department of the Navy, and the Department of the Air Force to support the Sexual Assault Special Victims’ Counsel Program.

Language has been included under “General Provisions, Sec. 8066” which provides for the transfer of funds from “Operation and Maintenance, Army” to other activities of the federal government.

Language has been included under “General Provisions, Sec. 8069” which provides for the transfer of funds from “Operation and Maintenance, Army”, “Operation and Maintenance, Navy”, and “Operation and Maintenance, Air Force” to the central fund established for Fisher Houses and Suites.

Language has been included under “General Provisions, Sec. 8070” which provides for the transfer of funds from “Operation and Maintenance, Navy” to the John C. Stennis Center for Public Service Development Trust Fund.

Language has been included under “General Provisions, Sec. 8073” which provides for the transfer of funds from “Procurement, Defense-Wide” and “Research, Development, Test and Evaluation, Defense-Wide” for the Israeli Cooperative Programs.

Language has been included under “General Provisions, Sec. 8074” which provides for the transfer of funds from “Shipbuilding and Conversion, Navy” to fund prior year shipbuilding cost increases.

Language has been included under “General Provisions, Sec. 8091” which provides for the transfer of funds appropriated for operation and maintenance for the Defense Health Program to the Joint Department of Defense—Department of Veterans Affairs Medical Facility Demonstration Fund.

Language has been included under “General Provisions, Sec. 8094” which provides for the transfer of funds for the National Intelligence Program.

Language has been included under “General Provisions, Sec. 8109” which provides for the transfer of funds from “Operation and Maintenance, Defense-Wide” for elementary and secondary public schools on military installations.

RESCISSIONS

Pursuant to clause 3(f)(2) of rule XIII of the Rules of the House or Representatives, the following table is submitted describing the rescissions recommended in the accompanying bill:

Shipbuilding and Conversion, Navy: Expeditionary Fast Transport, 2015/2023	\$4,300,000
Missile Procurement, Army, 2020/2022	6,953,000
Procurement of Weapons and Tracked Combat Vehicles, Army, 2020/2022	4,500,000
Other Procurement, Army, 2020/2022	13,000,000
Aircraft Procurement, Air Force, 2020/2022	47,000,000
Missile Procurement, Air Force, 2020/2022	40,000,000
Other Procurement, Air Force, 2020/2022	38,000,000
Operation and Maintenance, Defense-Wide, 2021/2022	161,000,000
Afghanistan Security Forces Fund, 2021/2022	200,000,000
Counter-ISIS Train and Equip Fund, 2021/2022	200,000,000
Aircraft Procurement, Army, 2021/2023	5,000,000
Procurement of Weapons and Tracked Combat Vehicles, Army, 2021/2023	4,533,000
Other Procurement, Army, 2021/2023	3,177,000
Aircraft Procurement, Navy, 2021/2023	15,210,000
Weapons Procurement, Navy, 2021/2023	87,035,000
Procurement of Ammunition, Navy and Marine Corps, 2021/2023	5,194,000
Other Procurement, Navy, 2021/2023	64,325,000
Aircraft Procurement, Air Force, 2021/2023	97,700,000
Procurement of Ammunition, Air Force, 2021/2023	351,689,000
Other Procurement, Air Force, 2021/2023	95,000,000
Research, Development, Test and Evaluation, Army, 2021/2022	50,216,000
Research, Development, Test and Evaluation, Navy, 2021/2022	16,522,000
Research, Development, Test and Evaluation, Space Force, 2021/2022	94,600,000
Defense Working Capital Fund: Defense Counterintelligence and Security Agency Working Capital Fund, 2021/20XX	30,000,000

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED
SPENDING ITEMS

The following table is submitted in compliance with clause 9 of rule XXI, and lists the congressional earmarks (as defined in paragraph (e) of clause 9) contained in the bill or in this report. Neither the bill nor the report contain any limited tax benefits or limited tariff benefits as defined in paragraphs (f) or (g) of clause 9 of rule XXI.

DEFENSE

[Community Project Funding Items]

Agency	Account	Recipient	Project	Amount	Requestor(s)
Air Force	RDIE, AF	Texas A&M University—Central Texas, Killeen, TX	Development of Cybersecurity Methodologies	\$2,990,000	Carter (TX)
Air Force	RDIE, AF	Central New York Defense Alliance, Rome, NY	Skydome: Trusted Smart-X Experimentation Environment	200,000	Tenney
Army	RDIE, A	Georgia Southern University, Statesboro, GA	Soldier Athlete Human Performance Optimization	1,500,000	Carter (GA)

CHANGES IN THE APPLICATION OF EXISTING LAW

Pursuant to clause 3(f)(1)(A) of rule XIII of the Rules of the House of Representatives, the following statements are submitted describing the effect of provisions in the accompanying bill which directly or indirectly change the application of existing law.

Language is included in various parts of the bill to continue ongoing activities which require annual authorization or additional legislation, which to date has not been enacted.

The bill includes a number of provisions which place limitations on the use of funds in the bill or change existing limitations and which might, under some circumstances, be construed as changing the application of law.

The bill includes a number of provisions which provide for the transfer of funds and which might, under some circumstances, be construed as changing the application of law.

The bill includes a number of provisions, which have been virtually unchanged for many years that are technically considered legislation.

The bill provides that appropriations shall remain available for more than one year for some programs for which the basic authorizing legislation does not presently authorize each extended availability.

In various places in the bill, the Committee has allocated funds within appropriation accounts in order to fund specific programs.

Language is included in various accounts placing a limitation on funds for emergencies and extraordinary expenses.

Language is included that provides not more than \$3,000,000 for the Combatant Commander Initiative Fund.

Language is included that provides not less than \$50,000,000 for the Procurement Technical Assistance Cooperative Agreement Program, of which not less than \$4,500,000 shall be available for centers.

Language is included that prohibits the consolidation of certain legislative affairs or liaison offices.

Language is included that makes available \$18,000,000 for certain classified activities, allows such funds to be transferred between certain accounts, and exempts such funds from the investment item unit cost ceiling.

Language is included under the heading "Afghanistan Security Forces Fund" that provides for the use of funds for certain purposes; the management of contributions; and various notification and certification requirements. Language is also included that provides not less than \$20,000,000 for the recruitment and retention of women in the Afghanistan National Security Forces, and the recruitment and training of female security personnel.

Language is included under the heading "Counter-ISIS Train and Equip Fund" that provides for the use of funds for certain purposes, compliance with vetting standards, management of contributions, and the submission of certain reports.

Language is included that limits the use of funds for official representation purposes under the heading "United States Court of Appeals for the Armed Forces".

Language is included that limits funds credited or transferred to the Department of Defense Acquisition Workforce Development Account.

Language is included that provides for specific construction, acquisition, or conversion of vessels under the heading "Shipbuilding and Conversion, Navy".

Language is included that provides for the incurring of additional obligations for certain activities under the heading "Shipbuilding and Conversion, Navy".

Language is included that prohibits the use of funds provided under the heading "Shipbuilding and Conversion, Navy" for the construction of any naval vessel, or the construction of major components for the construction or conversion of any naval vessel, in foreign facilities or shipyards.

Language is included under the heading "Shipbuilding and Conversion, Navy" that allows funds to be available for multiyear procurement of critical components to support the common missile compartment of nuclear-powered vessels.

Language is included under the heading "National Guard and Reserve Equipment Account" providing for the procurement of certain items and the submission of modernization priority assessments.

Language is included under the heading "Research, Development, Test and Evaluation, Navy" that provides funds for certain activities related to the V-22.

Language is included that specifies the use of certain funds provided under the heading "Defense Health Program".

Language is included that provides that not less than \$10,000,000 of funds provided under the heading "Defense Health Program" shall be available for HIV prevention educational activities.

Language is included under the heading "Defense Health Program" that provides that not less than \$1,104,000,000 shall be made available to the U.S. Army Medical Research and Materiel Command to carry out congressionally directed medical research programs.

Language is included that specifies the use of certain funds provided under the heading "Chemical Agents and Munitions Destruction, Defense".

Language is included that specifies the use of certain funds provided under the heading "Drug-Interdiction and Counter-Drug Activities, Defense".

Language is included that provides that no funds made available in this Act may be used for publicity or propaganda purposes not authorized by Congress.

Language is included that provides for conditions and limitations on the payment of compensation to, or employment of, foreign nationals.

Language is included that provides that no funds made available in this Act may be obligated beyond the end of the fiscal year unless expressly provided for a greater period of availability elsewhere in the Act.

Language is included that limits the obligation of certain funds provided in this Act during the last two months of the fiscal year.

Language is included that provides for the general transfer authority of funds to other military functions.

Language is included that provides that the tables titled "Explanation of Project Level Adjustments" in the Committee report and classified annex shall be carried out in the manner provided by the tables to the same extent as if the tables were included in the text of this Act.

Language is included that provides for the establishment of a baseline for application of reprogramming and transfer authorities for the current fiscal year.

Language is included that provides for limitations on the use of transfer authority of working capital fund cash balances.

Language is included that provides that none of the funds appropriated in this Act may be used to initiate a special access program without prior notification to the congressional defense committees.

Language is included that provides limitations and conditions on the use of funds made available in this Act to initiate multiyear procurement contracts.

Language is included that provides for the use and obligation of funds for humanitarian and civic assistance costs.

Language is included that provides that civilian personnel of the Department of Defense may not be managed on the basis of end strength or be subject to end strength limitations.

Language is included that prohibits funding from being used to influence congressional action on any matters pending before the Congress.

Language is included that prohibits compensation from being paid to any member of the Army who is participating as a full-time student and who receives benefits from the Education Benefits Fund when time spent as a full-time student is counted toward that member's service commitment.

Language is included that provides for the transfer of funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program.

Language is included that provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States.

Language is included that provides that no funds made available in this Act shall be used for the support of any non-appropriated funds activity of the Department of Defense that procures malt beverages and wine except under certain conditions.

Language is included that prohibits funds made available to the Department of Defense from being used to demilitarize or dispose of certain surplus firearms and small arms ammunition or ammunition components.

Language is included that provides a limitation on funds being used for the relocation of any Department of Defense entity into or within the National Capital Region.

Language is included that provides for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544). Section 8021 provides for the conveyance, without consideration, of relocatable housing units that are excess to the needs of the Air Force.

Language is included that provides for the availability of funds for the mitigation of environmental impacts on Indian lands resulting from Department of Defense activities.

Language is included that provides that no funding for the Defense Media Activity may be used for national or international political or psychological activities.

Language is included that provides the minimum wage for certain employees.

Language is included that provides no requirement to submit a report to Congress in any covered provision of law may be satisfied by the submission of a report to Congress pursuant to another provision of law.

Language is included that provides funding for the Civil Air Patrol Corporation.

Language is included that prohibits funding from being used to establish new Department of Defense Federally Funded Research and Development Centers (FFRDC), with certain limitations, and increases funding provided for FFRDCs.

Language is included that defines the congressional defense committees as the Armed Services Committees of the House and Senate and the Subcommittees on Defense of the House and Senate Appropriations Committees.

Language is included that defines the congressional intelligence committees as being the Permanent Select Committee on Intelligence of the House, the Select Committee on Intelligence of the Senate, and the Subcommittees on Defense of the Committees on Appropriations of the House and Senate.

Language is included that provides for competitions between private firms and Department of Defense depot maintenance activities.

Language is included that requires the Department of Defense to comply with the Buy American Act, chapter 83 of title 41, United States Code.

Language is included that provides for the Department of Defense to procure carbon, alloy, or armor steel plate melted and rolled only in the United States and Canada.

Language is included that provides for the revocation of blanket waivers of the Buy American Act.

Language is included that prohibits funding from being used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin.

Language is included that prohibits funding from being used to purchase supercomputers which are not manufactured in the United States.

Language is included that provides for a waiver of "Buy American" provisions for certain cooperative programs.

Language is included that prohibits the use of funds for the purchase or manufacture of a United States flag unless such flags are treated as covered items under section 2533a(b) of title 10, United States Code.

Language is included that provides for the availability of funds contained in the Department of Defense Overseas Military Facility Investment Recovery Account.

Language is included that provides authority to use operation and maintenance appropriations to purchase items having an investment item unit cost of not more than \$250,000.

Language is included that prohibits the use of funds in contravention of the First Amendment.

Language is included that provides authority to use operation and maintenance appropriations for the Asia Pacific Regional Initiative Program.

Language is included that prohibits the sale of tobacco products in military resale outlets below the most competitive price in the local community.

Language is included that prohibits the use of Working Capital Funds to purchase specified investment items.

Language is included that provides that none of the funds appropriated for the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year except for funds appropriated for the Reserve for Contingencies, the Working Capital Fund, or other programs as specified.

Language is included that places certain limitations on the use of funds made available in this Act to establish field operating agencies.

Language is included that places restrictions on converting to contractor performance an activity or function of the Department of Defense unless it meets certain guidelines provided.

Language is included that provides for the rescissions totaling \$1,634,954,000.

Language is included that prohibits funds made available in this Act from being used to reduce authorized positions for military technicians (dual status) of the Army National Guard, Air National Guard, Army Reserve, and Air Force Reserve unless such reductions are a direct result of a reduction in military force structure.

Language is included that prohibits funding from being obligated or expended for assistance to the Democratic People's Republic of Korea unless specifically appropriated for that purpose.

Language is included that provides for reimbursement to the National Guard and reserve when members of the National Guard and reserve provide intelligence or counterintelligence support to the combatant commands, defense agencies, and joint intelligence activities.

Language is included that prohibits the transfer of Department of Defense and Central Intelligence Agencies drug interdiction and counter-drug activities funds to other agencies.

Language is included that provides funding for Red Cross and United Services Organization grants.

Language is included that provides funds for the Small Business Innovation Research program and the Small Business Technology Transfer program.

Language is included that prohibits funding from being used for contractor bonuses being paid due to business restructuring.

Language is included that provides transfer authority for the pay of military personnel in connection with support and services for eligible organizations and activities outside the Department of Defense.

Language is included that provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts.

Language is included that provides conditions for the use of equipment of the National Guard Distance Learning Project on a space-available, reimbursable basis.

Language is included that provides funding for Sexual Assault Prevention and Response Programs.

Language is included that provides for the limitation on the use of funds appropriated in title IV to procure end-items for delivery to military forces for operational training, operational use or inventory requirements.

Language is included that prohibits funding in this Act from being used for repairs or maintenance to military family housing units.

Language is included that provides obligation authority for new starts for advanced concept technology demonstration projects only after notification to the congressional defense committees.

Language is included that provides that the Secretary of Defense shall provide a classified quarterly report on certain matters as directed in the classified annex accompanying this Act.

Language is included that provides for the use of National Guard personnel to support ground-based elements of the National Ballistic Missile Defense System.

Language is included that prohibits the use of funds made available in this Act to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and is designated as "armor piercing" except for demilitarization purposes.

Language is included that provides for a waiver by the Chief of the National Guard Bureau or his designee for all or part of consideration in cases of personal property leases of less than one year.

Language is included that provides for the transfer of funds made available in this Act under Operation and Maintenance, Army to other activities of the federal government for classified purposes.

Language is included that prohibits funding to separate, or to consolidate from within, the National Intelligence Program budget from the Department of Defense budget.

Language is included that provides grant authority for the construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

Language is included that provides the authority to transfer funding from operation and maintenance accounts for the Army, Navy, and Air Force to the central fund for Fisher Houses and Suites.

Language is included that provides for the transfer of funds made available in this Act under Operation and Maintenance, Navy to the John C. Stennis Center for Public Service Development Trust Fund.

Language is included that prohibits the modification of command and control relationships to give Fleet Forces Command oper-

ational and administrative control of United States Navy forces assigned to the Pacific fleet.

Language is included that requires notification for the rapid acquisition and deployment of supplies and associated support services.

Language is included that provides funding and transfer authority for the Israeli Cooperative Programs.

Language is included that provides for the funding of prior year shipbuilding cost increases.

Language is included that provides that funds made available in this Act for intelligence activities are deemed to be specifically authorized by Congress for purposes of section 504 of the National Security Act of 1947 until the enactment of the Intelligence Authorization Act for the current fiscal year.

Language is included that prohibits funding from being used to initiate a new start program without prior written notification.

Language is included that provides that the budget of the President for the subsequent fiscal year shall include separate budget justification documents for costs of the United States Armed Forces' participation in contingency operations.

Language is included that prohibits funding from being used for the research, development, test, evaluation, procurement, or deployment of nuclear armed interceptors of a missile defense system.

Language is included that makes funds available for transfer for the purposes of rapid acquisition and deployment of supplies and associated support services.

Language is included that prohibits funding from being used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve.

Language is included that prohibits funding from being used for the integration of foreign intelligence information unless the information has been lawfully collected and processed during conduct of authorized foreign intelligence activities.

Language is included that prohibits funding from being used to transfer program authority relating to current tactical unmanned aerial vehicles from the Army and requires the Army to retain responsibility for and operational control of the MQ-1C Unmanned Aerial Vehicle.

Language is included that limits the availability of funding provided for the Office of the Director of National Intelligence beyond the current fiscal year, except for funds appropriated for research and technology and the purchase of real property, which shall remain available for the current and the following fiscal years.

Language is included that provides limitations on the Shipbuilding and Conversion, Navy appropriation.

Language is included that provides for the establishment of a baseline for application of reprogramming and transfer authorities for the Office of the Director of National Intelligence for the current fiscal year.

Language is included that places limitations on the reprogramming of funds from the Department of Defense Acquisition Workforce Development Account.

Language is included that provides for limitations on funding provided for the National Intelligence Program to be available for

obligation or expenditure through a reprogramming or transfer of funds in accordance with section 102A(d) of the National Security Act of 1947 (50 U.S.C. 3024(d)).

Language is included that prohibits the use of funds for the purpose of making remittances to the Department of Defense Acquisition Workforce Development Account.

Language is included that provides that any agency receiving funds made available in this Act shall post on a public website any report required to be submitted to Congress with certain exceptions.

Language is included that prohibits the use of funds for federal contracts in excess of \$1,000,000 unless the contractor meets certain conditions.

Language is included that provides funds for transfer to the Joint Department of Defense–Department of Veterans Affairs Medical Facility Demonstration Fund.

Language is included that prohibits the use of funds providing certain missile defense information to certain entities.

Language is included that provides for the purchase of heavy and light armed vehicles for the physical security of personnel or for force protection purposes up to a limit of \$450,000 per vehicle.

Language is included that provides the Director of National Intelligence with general transfer authority with certain limitations.

Language is included that authorizes the use of funds in the Shipbuilding and Conversion, Navy account to purchase five used auxiliary vessels for the National Defense Reserve Fleet.

Language is included that directs the Secretary of Defense to post grant awards on a public Web site in a searchable format.

Language is included that places restrictions on transfer amounts available in the Rapid Prototyping Fund.

Language is included that prohibits the use of funds by the National Security Agency targeting United States persons under authorities granted in the Foreign Intelligence Surveillance Act.

Language is included that prohibits the transfer of administrative or budgetary resources to the jurisdiction of another Federal agency not financed by this Act without the express authorization of Congress.

Language is included that provides that operation and maintenance funds may be used for any purposes related to the National Defense Reserve Fleet.

Language is included that prohibits the use of funds to provide counterterrorism support to foreign partners unless the congressional defense committees are notified accordingly.

Language is included that requires a report related to the National Instant Criminal Background Check System.

Language is included that prohibits the use of funds to award a new TAO Fleet Oiler or FFG Frigate program contract for the acquisition of certain components unless those components are manufactured in the United States.

Language is included that prohibits funds for the development and design of certain future naval ships unless any contract specifies that all hull, mechanical, and electrical components are manufactured in the United States.

Language is included that prohibits funds for the decommissioning of any Littoral Combat Ships.

Language is included that prohibits certain transfers from the Department of Defense Acquisition Workforce Development Account.

Language is included that prohibits the use of funds for gaming or entertainment that involves nude entertainers.

Language is included that prohibits the use of funding for information technology systems that do not have pornographic content filters.

Language is included that makes funds available through the Office of Local Defense Community Cooperation for transfer to the Secretary of Education, to make grants to construct, renovate, repair, or expand elementary and secondary public schools on military installations.

Language is included that provides guidance on the implementation of the Policy for Assisted Reproductive Services for the Benefit of Seriously or Severely Ill/Injured Active Duty Service Members.

Language is included that places restrictions on the use of funding for military parades.

Language is included that provides for the use of funds to modify two F-35 Joint Strike Fighters per variant to a test configuration.

Language is included that provides for funding available in the Defense Health Program for death gratuity payments.

Language is included that prohibits funds in the Act from being used to enter into a contract or provide a loan to any corporation that has any unpaid Federal tax liability.

Language is included that provides that any advance billing for background investigation services and related services purchased from activities financed using the Defense Working Capital Fund shall be excluded from the calculation of cumulative advance billings.

Language is included that prohibits funds from being used to transfer the National Reconnaissance Office to the Space Force.

Language is included that requires the Secretary of Defense to make a certification prior to the transfer of any element to the Space Force.

Language is included that prohibits funds to establish a field operating agency of the Space Force.

Language is included that provides funds appropriated under military personnel may be used for expenses for members of the Space Force.

Language is included that provides that the Commander of United States Cyber Command shall be responsible for resources for the Cyber Mission Forces.

Language is included that reduces funding due to favorable fuel costs.

Language is included that provides funds for agile development, test and evaluation, procurement, production and modification, and the operation and maintenance for certain software pilot programs.

Language is included that provides funding for mitigation of military aircraft noise.

Language is included that prohibits funds from being used in a manner that does not comply with the requirements of section 365

of H.R. 1280 as passed by the House of Representatives on March 3, 2021.

Language is included that prohibits the use of funding in contravention of the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment.

Language is included that provides for the obligation of funds in anticipation of receipt of contributions from the Government of Kuwait.

Language is included that requires notification of the receipt of contributions from foreign governments.

Language is included that provides for the procurement of certain vehicles in the United States Central Command area.

Language is included that provides for the purchase of items of a particular investment unit cost from funding made available for operation and maintenance.

Language is included that prohibits funding from being used in contravention of the War Powers Resolution.

Language is included that prohibits the use of funds with respect to Iraq in contravention of the War Powers Resolution.

Language is included that prohibits the use of funds with respect to Syria in contravention of the War Powers Resolution.

Language is included that provides that nothing in this Act may be construed as authorizing the use of force against Iran and North Korea.

Language is included that prohibits the establishment of permanent bases in Iraq or Afghanistan or United States control over Iraq or Syria oil resources.

Language is included that requires the Secretary to provide a notification when a foreign base is open or closed.

Language is included that requires the Secretary of Defense to provide quarterly reports on the deployment of United States Armed Forces.

Language is included that prohibits the use of funding under certain headings to procure or transfer man-portable air defense systems.

Language is included that prohibits funding from being used in violation the Child Soldiers Prevention Act of 2008.

Language is included that prohibits the transfer of additional C-130 cargo aircraft to the Afghanistan National Security Forces or Afghanistan Air Force.

Language is included that prohibits funds for any member of the Taliban.

Language is included that limits the obligation of funding for the Afghanistan Security Forces Fund prior to the approval of a financial and activity plan by the Afghanistan Resources Oversight Council.

Language is included that provides that certain support to friendly foreign countries be made in accordance with section 8005 of this Act.

Language is included that provides lift and sustainment to coalition forces.

Language is included that requires the Secretary of Defense to certify the use of funds in the Afghanistan Security Forces Fund under certain conditions.

Language is included that provides funding to the Department of Defense to provide transport and safe passage to certain Afghans.

Language is included that provides funding for International Security Cooperation Programs.

Language is included that provides funding to reimburse key cooperating nations for logistical, military, and other support.

Language is included that provides funding to reimburse certain countries for border security.

Language is included that provides security assistance to the Government of Jordan.

Language is included that provides security assistance to the Ukraine.

Language is included that prohibits funds from being used to enter into a contract with Rosoboronexport.

Language is included that prohibits the use of funds to provide arms, training, or other assistance to the Azov Battalion.

Language is included that prohibits funds to support military operations conducted by the Saudi-led coalition against the Houthis in the war in Yemen.

Language is included that requires an integrated security cooperation strategy for assistance for certain partner countries.

Language is included that prohibits funds to operate the detention facility at United States Naval Station, Guantanamo Bay, Cuba.

Language is included that requires the Secretary of Defense to provide information and documents regarding the December 1981 massacre in El Mozote.

Language is included that prohibits funds to procure light-emitting diode (LED) light bulbs for use in any Government-owned facility or property under the control of the Department of Defense which were not made or assembled in the United States.

Language is included that prohibits funds to support any activity conducted by, or associated with, the Wuhan Institute of Virology.

Language is included that repeals the 2001 Authorization for Use of Military Force (P.L. 107-40) 240 days after the date of the enactment of this Act.

Language is included that repeals the Authorization for Use of Military Force Against Iraq Resolution of 2002 (Public Law 107-243).

APPROPRIATIONS NOT AUTHORIZED BY LAW

Pursuant to clause 3(f)(1) of rule XIII of the Rules of the House of Representatives, the following table lists the appropriations in the accompanying bill which are not authorized by law:

[In thousands of dollars]

Agency/Program	Last year of authorization	Authorization Level (Base + OCC)	Appropriations in last year of authorization (Base + OCC)	Appropriations in this bill 2022	2022 compared to 2020	2022 compared to 2021
DEPARTMENT OF DEFENSE						
Military Personnel, Army.....	2021	(1)	47,609,886	47,675,354	2,365,250	265,468

1/ The FY 2021 National Defense Authorization Act authorizes \$153,788,445 for military personnel

COMPARISON WITH THE BUDGET RESOLUTION

Pursuant to clause 3(c)(2) of rule XIII of the Rules of the House of Representatives and section 308(a)(1)(A) of the Congressional Budget Act of 1974, the following table compares the levels of new budget authority provided in the bill with the appropriate allocation under section 302(b) of the Budget Act.

[In millions of dollars]

	302(b) Allocation		Budget Authority	Outlays
	Budget Authority	Outlays		
Comparison of amounts in the bill with Committee allocations to its subcommittees: Subcommittee on Defense				
Discretionary	705,939	699,803	705,939	¹ 699,149
Mandatory	514	514	514	¹ 514

¹ Includes outlays from prior-year budget authority.

FIVE-YEAR OUTLAY PROJECTIONS

In compliance with section 308(a)(1)(B) of the Congressional Budget Act of 1974, the following table contains five-year projections associated with the budget authority provided in the accompanying bill.

[In millions of dollars]

	Outlays
Projection of outlays associated with the recommendation:	
2022	¹ 430,559
2023	169,125
2024	47,401
2025	26,139
2026 and future years	20,561

¹ Excludes outlays from prior-year budget authority.

FINANCIAL ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

In accordance with section 308(a)(1)(C) of the Congressional Budget and Impoundment Act of 1974 (Public Law 93-344), as amended, no new budget or outlays are provided by the accompanying bill for financial assistance to State and local governments.

COMMITTEE HEARINGS

For the purposes of clause 3(c)(6) of rule XIII, the following hearings were used to develop or consider the Department of Defense Appropriations Act, 2022:

The Subcommittee on Defense held an oversight hearing on February 24, 2021, entitled "Future Defense Spending." The Subcommittee received testimony from:

Ms. Elizabeth Field, Director of Defense Capabilities and Management, United States Government Accountability Office

Mr. Todd Harrison, Director of Defense Budget Analysis, Center for Strategic and International Studies

Dr. Thomas G. Mahnken, President and CEO, Center for Strategic and Budgetary Assessments

The Subcommittee on Defense held an oversight hearing on March 2, 2021, entitled "U.S. Military Service Academies Overview." The Subcommittee received testimony from:

Vice Admiral Sean Buck, Superintendent, United States Naval Academy

Lieutenant General Richard M. Clark, Superintendent, United States Air Force Academy

Lieutenant General Darry A. Williams, Superintendent, United States Military Academy West Point

The Subcommittee on Defense held an oversight hearing on March 17, 2021, entitled “Climate Change, National Security, and the Arctic.” The Subcommittee received testimony from:

Ms. Sherri Goodman, Senior Fellow, Wilson Center

Vice Admiral Dennis V. McGinn, Advisory Board Member, Center for Climate and Security

The Subcommittee on Defense held an oversight hearing on March 23, 2021, entitled “Future Defense Spending.” The Subcommittee received testimony from:

Dr. James Acton, Co-Director of Nuclear Policy Program and Jessica

T. Mathews Chair, Carnegie Endowment for International Peace

Ms. Nilofar Razi Howe, Senior Fellow, New America

Ms. Mandy Smithberger, Director of the Center for Defense Information, Project on Government Oversight

Mr. Roger Zakheim, Director, Ronald Reagan Presidential Foundation and Institute

The Subcommittee on Defense held an oversight hearing on April 15, 2021, entitled “United States Southern Command.” The Subcommittee received testimony from:

Admiral Craig S. Faller, Commander, United States Southern Command

The Subcommittee on Defense held a closed oversight hearing on April 20, 2021, entitled “United States European Command.” The Subcommittee received testimony from:

General Tod D. Walters, Commander, European Command and NATO Supreme Allied Commander Europe

The Subcommittee on Defense held a closed oversight hearing on April 21, 2021, entitled “United States Africa Command.” The Subcommittee received testimony from:

General Stephen J. Townsend, Commander, United States Africa Command

The Subcommittee on Defense held a closed oversight hearing on April 21, 2021, entitled “United States Central Command.” The Subcommittee received testimony from:

General Kenneth F. McKenzie Jr., Commander, United States Central Command

The Subcommittee on Defense held an oversight hearing on April 29, 2021, entitled “Fiscal Year 2022 United States Navy and Marine Corps Budget.” The Subcommittee received testimony from:

General David H. Berger, Commandant of the Marine Corps

Admiral Michael Gilday, Chief of Navy Operations

The Honorable Thomas W. Harker, Acting Secretary of the Navy

The Subcommittee on Defense held an oversight hearing on May 4, 2021, entitled “Fiscal Year 2022 National Guard and Reserves.” The Subcommittee received testimony from:

Lieutenant General David G. Bellon, Commander, Marine Forces Reserve

Lieutenant General Jody J. Daniels, Chief of the Army Reserve
 General Daniel R. Hokanson, Chief of the National Guard Bureau

Vice Admiral John B. Mustin, Chief of the Navy Reserve
 Lieutenant General Richard W. Scobee, Chief of the Air Force Reserve

The Subcommittee on Defense held an oversight hearing on May 5, 2021, entitled “Fiscal Year 2022 United States Army Budget.” The Subcommittee received testimony from:

General James C. McConville, Chief of Staff of the Army

The Honorable John E. Whitley, Acting Secretary of the Army

The Subcommittee on Defense held an oversight hearing on May 7, 2021, entitled “Fiscal Year 2022 United States Air Force and Space Force Budget.” The Subcommittee received testimony from:

General Charles Q. Brown, Chief of Staff, U.S. Air Force

General John W. Raymond, Secretary, U.S. Space Force

The Honorable John P. Roth, Acting Secretary of the Air Force

The Subcommittee on Defense held a closed oversight hearing on May 18, 2021, entitled “National Security Agency and Cyber Command FY 2022 Posture.” The Subcommittee received testimony from:

General Paul M. Nakasone, Director, Commander, National Security Agency, Cyber Command

The Subcommittee on Defense held a closed oversight hearing on May 19, 2021, entitled “Central Intelligence Agency FY 2022 Posture.” The Subcommittee received testimony from:

The Honorable William J. Burns, Director, Central Intelligence Agency

The Subcommittee on Defense held a closed oversight hearing on May 20, 2021, entitled “World Wide Threat and FY 2022 National Intelligence Program/Military Intelligence Program Posture with the Director of National Intelligence and Under Secretary of Defense for Intelligence & Security.” The Subcommittee received testimony from:

The Honorable Avril Haines, Director of National Intelligence

The Honorable David M. Taylor, Performing Under Secretary of Defense for Intelligence & Security, Department of Defense

The Subcommittee on Defense held an oversight hearing on May 25, 2021, entitled “Fiscal Year 2022 Defense Health and Medical Readiness.” The Subcommittee received testimony from:

Dr. Terry Adirim, Acting Secretary of Defense for Health Affairs

Lieutenant General R. Scott Dingle, Surgeon General, United States Army

Rear Admiral Upper Half Bruce L. Gillingham, Surgeon General, United States Navy

Lieutenant General Dorothy A. Hogg, Surgeon General, United States Air Force

Lieutenant General Ronald Place, Director, Defense Health Agency

The Subcommittee on Defense held an oversight hearing on May 26, 2021, entitled “Defense Environmental Restoration.” The Subcommittee received testimony from:

Ms. Amy Borman, Deputy Assistant Secretary of the Army for Environment, Safety and Occupational Health

Mr. Mark Correll, Deputy Assistant Secretary of the Air Force for Environment, Safety and Infrastructure

Mr. Richard Kidd, Deputy Assistant Secretary of Defense for Environment and Energy Resilience

Mr. Karnig Ohannessian, Deputy Assistant Secretary of the Navy for Environment

The Subcommittee on Defense held an oversight hearing on May 27, 2021, entitled “Fiscal Year 2022 Department of Defense Budget.” The Subcommittee received testimony from:

The Honorable Lloyd J. Austin III, Secretary of Defense

General Mark A. Milley, Chairman of the Joint Chiefs of Staff

COMPLIANCE WITH RULE XIII, CL. 3(e) (RAMSEYER RULE)

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets):

AUTHORIZATION FOR USE OF MILITARY FORCE

(Public Law 107–40)

[SECTION 1. SHORT TITLE.

] This joint resolution may be cited as the “Authorization for Use of Military Force”.**]**

[SEC. 2. AUTHORIZATION FOR USE OF UNITED STATES ARMED FORCES.

[(a) IN GENERAL.—That the President is authorized to use all necessary and appropriate force against those nations, organizations, or persons he determines planned, authorized, committed, or aided the terrorist attacks that occurred on September 11, 2001, or harbored such organizations or persons, in order to prevent any future acts of international terrorism against the United States by such nations, organizations or persons.

[(b) WAR POWERS RESOLUTION REQUIREMENTS.—

[(1) SPECIFIC STATUTORY AUTHORIZATION.—Consistent with section 8(a)(1) of the War Powers Resolution, the Congress declares that this section is intended to constitute specific statutory authorization within the meaning of section 5(b) of the War Powers Resolution.

[(2) APPLICABILITY OF OTHER REQUIREMENTS.—Nothing in this resolution supercedes any requirement of the War Powers Resolution.**]**

**AUTHORIZATION FOR USE OF MILITARY FORCE
AGAINST IRAQ RESOLUTION OF 2002**

(Public Law 107–243)

[SECTION 1. SHORT TITLE.

] This joint resolution may be cited as the “Authorization for Use of Military Force Against Iraq Resolution of 2002”.**]**

[SEC. 2. SUPPORT FOR UNITED STATES DIPLOMATIC EFFORTS.

【The Congress of the United States supports the efforts by the President to—

【(1) strictly enforce through the United Nations Security Council all relevant Security Council resolutions regarding Iraq and encourages him in those efforts; and

【(2) obtain prompt and decisive action by the Security Council to ensure that Iraq abandons its strategy of delay, evasion and noncompliance and promptly and strictly complies with all relevant Security Council resolutions regarding Iraq.

[SEC. 3. AUTHORIZATION FOR USE OF UNITED STATES ARMED FORCES.

【(a) AUTHORIZATION.—The President is authorized to use the Armed Forces of the United States as he determines to be necessary and appropriate in order to—

【(1) defend the national security of the United States against the continuing threat posed by Iraq; and

【(2) enforce all relevant United Nations Security Council resolutions regarding Iraq.

【(b) PRESIDENTIAL DETERMINATION.—In connection with the exercise of the authority granted in subsection (a) to use force the President shall, prior to such exercise or as soon thereafter as may be feasible, but no later than 48 hours after exercising such authority, make available to the Speaker of the House of Representatives and the President pro tempore of the Senate his determination that—

【(1) reliance by the United States on further diplomatic or other peaceful means alone either (A) will not adequately protect the national security of the United States against the continuing threat posed by Iraq or (B) is not likely to lead to enforcement of all relevant United Nations Security Council resolutions regarding Iraq; and

【(2) acting pursuant to this joint resolution is consistent with the United States and other countries continuing to take the necessary actions against international terrorist and terrorist organizations, including those nations, organizations, or persons who planned, authorized, committed or aided the terrorist attacks that occurred on September 11, 2001.

【(c) WAR POWERS RESOLUTION REQUIREMENTS.—

【(1) SPECIFIC STATUTORY AUTHORIZATION.—Consistent with section 8(a)(1) of the War Powers Resolution, the Congress declares that this section is intended to constitute specific statutory authorization within the meaning of section 5(b) of the War Powers Resolution.

【(2) APPLICABILITY OF OTHER REQUIREMENTS.—Nothing in this joint resolution supersedes any requirement of the War Powers Resolution.

[SEC. 4. REPORTS TO CONGRESS.

【(a) REPORTS.—The President shall, at least once every 60 days, submit to the Congress a report on matters relevant to this joint resolution, including actions taken pursuant to the exercise of authority granted in section 3 and the status of planning for efforts that are expected to be required after such actions are completed,

including those actions described in section 7 of the Iraq Liberation Act of 1998 (Public Law 105-338).

【(b) SINGLE CONSOLIDATED REPORT.—To the extent that the submission of any report described in subsection (a) coincides with the submission of any other report on matters relevant to this joint resolution otherwise required to be submitted to Congress pursuant to the reporting requirements of the War Powers Resolution (Public Law 93-148), all such reports may be submitted as a single consolidated report to the Congress.

【(c) RULE OF CONSTRUCTION.—To the extent that the information required by section 3 of the Authorization for Use of Military Force Against Iraq Resolution (Public Law 102-1) is included in the report required by this section, such report shall be considered as meeting the requirements of section 3 of such resolution.】

FULL COMMITTEE VOTES

Pursuant to the provisions of clause 3(b) of rule XIII of the House of Representatives, the results of each roll call vote on an amendment or on the motion to report, together with the names of those voting for and those voting against, are printed below:

Roll Call 1

Date: July 13, 2021

Measure: Defense Bill, FY 2022

Motion by: Mr. Diaz-Balart

Description of Motion: Strikes language in the bill related to the closure of the detention facility at Guantanamo Bay, Cuba and adds four prohibitions related to the facility.

Results: Not Adopted 26 yeas to 31 nays

MINORITY VIEWS

We thank the Chairs of the Full Committee and the Subcommittee for their efforts in producing a Defense Appropriations bill that includes many bipartisan priorities that support our national security and servicemembers. Unfortunately, the topline funding level proposed in this bill is inadequate to meet our urgent national defense requirements. As the Majority proceeds with proposing up to 24 percent increases for other domestic spending bills, this bill effectively cuts funding for our national defense. This is unacceptable at a time when all of our services face significant modernization and readiness challenges. Furthermore, this bill includes many harmful, partisan provisions that prevent us from supporting this bill at this time.

There are many aspects of the bill of which we are appreciative, such as the key investments in platforms that are critical to our warfighters and are supported by many of our Members. These include, but are not limited to, the F-35 Joint Strike Fighter, the Columbia-class Submarine, the Arleigh-Burke Destroyer, and the F/A-18 Super Hornet. We also appreciate the funds directed toward research and development efforts for next-generation technologies that are essential to keeping pace with emerging threats in all warfighting domains.

We are advocates of funding innovative technologies; however, diverting funds from urgent requirements for a vague promise of future capabilities is short sighted. Unfortunately, this is a common theme throughout the bill. For example, this bill does not adequately address critical Army funding needs, such as the funding for the Abrams tank, the Paladin artillery program, and the Joint Light Tactical Vehicle. As a result of the inadequate funding requested in the President's Budget, the Chief of Staff of the Army has requested an additional \$369 million for the Abrams tank to avoid delaying fielding to the National Guard, a request that this bill fails to address. This request is even more important given that the Marine Corps is divesting its armor to reorient to the Pacific.

Alarming, it is clear that the new administration has not shown a commitment to the Navy's need for at least 355 ships. In fact, the President's Budget proposes to decommission more ships than it plans to procure in Fiscal Year 2022. While we thank Chair McCollum for adding an additional Arleigh Burke-class destroyer, the reality is that we should be buying at least 12 to 14 ships this year to keep pace with our adversaries. This bill only funds 8. The ability to maintain freedom of navigation, and if necessary, mobilize our forces around the world depends on a capable and ready Navy. This bill also cuts in key areas such as jamming, sensors, electronic warfare, digital deception, and autonomous systems. Due to the arbitrary topline funding level, this bill takes from today in

the hope that our investments will outpace our adversaries in the 2030-time frame. This is a risk we cannot afford.

During the Full Committee markup of the bill, we were pleased to find common ground with the Majority in the Manager's Amendment to address several issues important to our Members, such as prohibiting funds to the Wuhan Institute of Virology (WIV), increasing funds for quantum computing initiatives, and urging the Navy to enter into agreements to procure more amphibious ships.

Unfortunately, significant policy differences remain. Some of the priorities that the Minority tried to address during the markup that were denied include the following: our opposition to closing the detention facility at Guantanamo Bay, Cuba; our concerns about the partisan manner by which the Department of Defense is attempting to counter extremism; and our support for the Defense Logistics Agency's 1033 Program.

Mr. Diaz-Balart offered an amendment that would reinstate the longstanding, bipartisan provisions to prohibit the closure of the detention facility at Guantanamo Bay, prohibit the transfer of non-citizen detainees at Guantanamo Bay to the United States, among other policies. Republicans are greatly concerned that, even though the new administration has no plan for the remaining detainees at Guantanamo Bay, this bill proposes closing the facility by the end of Fiscal Year 2022. This is a poor strategy to ensure the safety of the American people and our allies. Unfortunately, despite longstanding bipartisan support for these policies, the amendment was defeated 26-31.

Mr. Diaz-Balart also offered an amendment to prohibit the use of funds for the Department of Defense Countering Extremism Working Group until the Department provides a definition of "extremism" that has been approved by the Secretary of Defense, briefs the Committee on the governance structure that will be used to apply this definition to military personnel and recruits, and certifies that these procedures will not violate the First Amendment rights of our servicemembers. Republican Members were unified in their support for these common-sense measures, but this amendment was defeated 24-33.

Finally, Mr. Rutherford offered an amendment to strike Section 8124 of the bill, which limits what excess property can be transferred from the Department of Defense to state and local law enforcement agencies. Despite Republicans providing relevant examples of how high-grade equipment has been used by law enforcement to save the lives of innocent citizens, the amendment was defeated 23-33.

In conclusion, we remain concerned about the insufficient topline funding level and partisan riders in this bill that could jeopardize enactment of final legislation. We want to work with the Majority as we proceed through the legislative process so that the many bipartisan issues of great national importance in this bill will receive the support they deserve.

KAY GRANGER.
KEN CALVERT.
