Random Inmate/Resident/Detainee Interviews	
53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	25
54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input checked="" type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None

<p>55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?</p>	<p>The Auditor was provided with the facility inmate roster for selection of a random representation of inmates. The facility roster includes the inmates age, gender, race, ethnicity, date received at facility, tentative release date, program assignments, work assignments, classification level, security level, and housing assignment. This allowed the Auditor to accurately select a random representation of inmates for the random interview process.</p>

<p>Targeted Inmate/Resident/Detainee Interviews</p>	
<p>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</p>	<p>11</p>
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

Yes

No

Was the site review an active, inquiring process that included the following:

<p>Documentation Sampling</p>	
<p>Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.</p>	
<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states the policy of FDC is to establish zero-tolerance standards for sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment in institutions and community corrections while protecting the rights of inmates and offenders, regardless of gender or sexual preference. This will be accomplished through accountability of perpetrators and the punishment of those institutional and community correctional officials who fail to prevent, detect, and respond to sexual abuse, sexual battery, and sexual harassment crimes for incarcerated inmates and those offenders under departmental jurisdiction.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states the FDC will establish and provide implementation of standards for the detection, prevention, elimination, and punishment of sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment. This will be accomplished by increasing the availability of data, information, and training on the incidence of sexual abuse, sexual battery, and sexual harassment, consequently improving the management and administration of correctional facilities.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states the FDC will establish guidelines for proper and immediate reporting of such incidents as well as providing appropriate safeguards for victims, the management of evidence, and actions to be taken from reporting an allegation to substantiation of sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* clearly defines prohibited behaviors regarding sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment. In addition, any inmate, employee, volunteer, or contractor who commits a sexual battery may be criminally prosecuted pursuant to chapter 794, Florida Statute.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states the Office of Institutions, specifically through the PREA Coordinator and Compliance Managers, is responsible for the administration of the

PREA compliance program.

A review of the FDC organizational chart provided evidence that the agency has designated an upper-level position as the PREA Coordinator. The PREA Coordinator reports directly to the FDC Deputy Director of Institutional Operations.

The Auditor conducted an interview with the FDC PREA Coordinator who verified she has sufficient time and authority in her position to accomplish PREA responsibilities for the agency. The PREA Coordinator confirmed to the Auditor, she reports directly to the FDC Deputy Director of Institutional Operations, she oversees fifty-six PREA

Compliance Managers, to include seven PREA Compliance Managers assigned to private facilities; Lake City Correctional Facility is one of these seven private facilities.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states the Compliance Manager will coordinate the compliance program at the facility under the advice of the PREA Coordinator and respond in a timely manner to any request(s) for information from the USDOJ submitted through the PREA Coordinator.

CoreCivic Company Policy 14-2, *Sexual Abuse Prevention and Response* states each CoreCivic facility has a designated PREA Compliance Manager to coordinate efforts at the facility level to comply with PREA Standards. This position is an Administrative Duty Officer level manager appointed by the Warden/Facility Administrator who maintains responsibility for the facility's Sexual Abuse Response and Prevention Program.

The Facility Warden issued the following memorandum on August 13, 2023, *In compliance with the requirements of PREA Standard 115.11 and Florida Department of Corrections Procedure 602.053, Assistant Warden is designated to serve as the PREA Compliance Manager for Lake City Correctional Facility, effective immediately.*

The Auditor interviewed the PREA Compliance Manager and verified he has sufficient time and authority in his position to accomplish the PREA responsibilities for Lake City C. F. Evidence shows that the CoreCivic has designated a facility PREA Compliance Manager for Lake City C. F. as verified through a review of the CoreCivic Organizational chart, the Lake City Correctional Facility organizational chart, and through interviews with the PREA Compliance Manager and the Facility Warden.

The Auditor interviewed the Facility Warden who confirmed the responsibilities of the PREA Compliance Manager assigned to Lake City C. F. and verified he is provided sufficient time and authority in his position to accomplish these responsibilities.

During the tour of the facility, the Auditor witnessed standardized bulletin boards, throughout the facility, in multiple locations, consisting of current agency and facility PREA Zero-Tolerance signage, Audit Notices printed on bright colored paper, internal and external reporting information for inmates and staff.

Upon review of agency policy, the agency and facility organizational charts and upon

	completion of interviews, Lake City C. F. demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Supervisory staff conducting rounds

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states in conjunction with each institution, the Office of Institutions will develop a particularized staffing plan for each institution that provides adequate staffing levels, and where applicable, video monitoring, to protect inmates against sexual abuse, sexual battery, staff sexual misconduct and sexual harassment. This plan shall be reviewed at least once per year to assess, determine, and document whether adjustments are necessary, both by the Warden of the institution and by the PREA Coordinator.

During the pre-on-site phase of the audit, the Auditor reviewed the Florida Department of Corrections Lake City C. F. Staffing Plan Assessment. The Auditor's review of the report, the Auditor noted the facility, when reviewing staffing requirements and the appropriate numbers of assigned staff, took into consideration the following requirements:

- Facility Composition – Gender of population and custody level
- Generally accepted detention and correctional practices.
- Any judicial findings of inadequacy.
- Any inadequacy from internal or external oversight bodies.
- Any findings of inadequacy from Federal investigative agencies.
- All the components of the facility's physical layout (including blind spots);
- Composition of inmate population.
- Number of and placement of supervisory staff.
- Institution programs specific to each shift.
- All applicable State or local laws.
- Prevalence of substantiated and unsubstantiated incidents of sexual abuse.
- Any other relevant factors.
- Video monitoring – placement, operational, and recommendations

The average daily number of inmates on which the facility-staffing plan was predicated on was 893, Medium, Minimum and Community custody level inmates. The facility reported there were no deviations from the staffing plan during the auditing period.

The Auditor conducted an interview with the Facility Warden regarding Lake City C. F. staffing plan. The Facility Warden discussed how the agency and the facility develop all staffing plans based off direction provided in the National Institute of Corrections

and U.S. Department of Justice's, Guidelines for the Development of a Security Program. Additionally, when developing a staffing plan, post chart for Lake City C. F. several items are taken into consideration such as internal reviews, components of the physical plant, composition of the inmate population, the prevalence of substantiated and unsubstantiated allegations of sexual abuse, inmate-on-inmate assaults, and uses of force. The Facility Warden also explained that video monitoring is also taken into consideration. Lake City C. F. has 125 video cameras installed throughout the facility that are reviewed on a regular basis. The Facility Warden confirmed that he conducts an annual staffing review, which is documented and maintained by the Assistant Warden of Programs. To ensure compliance with the staffing plan, Facility Warden, Assistant Warden, and Facility Supervisors conducts rounds for visual verification of staff assignments throughout the facility.

The Auditor conducted interviews with the PREA Compliance Manager who confirmed the process of developing a staffing plan assessment previously described by the Facility Warden.

During the on-site phase, the auditor reviewed the average daily number of inmates' report, staff shift rosters, facility blueprint, and daily inmate activity schedules to verify adequate staff coverage in comparison to inmate population, inmate movement, and facility size and layout. Documentation reviewed provided additional verification of compliance in accordance with the facility's staffing plan.

Florida Department of Corrections Post Order #3 - *Shift Supervisor* states shift supervisors must conduct daily-unannounced rounds and security inspections of all inmate housing and activity areas. All security posts will be visited, and these inspections documented daily on the DC6-207 *Control Room Log*, as well as the DC6-209 *Housing Unit Log*, or DC6-228 *Inspection of Special Housing Record* maintained in each area. The unannounced rounds shall be conducted on all shifts and staff shall not alert other staff members that a round is being conducted.

During the on-site, the Auditor reviewed twelve months of housing logs reflecting supervisor unannounced rounds were conducted and verified the unannounced rounds are being conducted and documented in accordance with the facility Post Order and the PREA Standard. The sample of housing logs reviewed covered each month of the auditing period and were from every shift. In the samples reviewed, the Auditor did not find any consistent patterns or inadequacies. In addition, the Auditor reviewed security video footage of the unannounced rounds which provided further evidence and documentation of the rounds being conducted in accordance with agency policy and this standard.

The Auditor conducted supervisory level staff interviews and inquired how unannounced rounds are completed without staff knowledge. Supervisory level staff indicated this is completed by observing staff movement, monitoring radio transmissions, alternating movement patterns or being unpredictable with times or walking pattern and listening to staff conversations while conducting rounds throughout the facility. Additionally, facility supervisors periodically remind staff of the agency policy prohibiting staff from alerting other staff when supervisory rounds are being completed.

The Auditor toured the facility and observed the daily operational functions, staff interacting with inmates, general inmate movement, inmates out at recreation, inmates participating in programs, inmates completing job assignments, and supervisory staff conducting rounds. These observations provided additional verification of policy and of standard compliance.

Upon review of agency policies, documentation previously discussed, and upon completion of interviews, Lake City C. F. demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

Florida Administrative Code 33-602.204, *Searches of Inmates* states unclothed body searches of inmates will only be conducted by correctional officers who are the same sex as the inmate, except when time and circumstances do not permit the arrival of same sex staff or due to an imminent threat of physical violence when an immediate search is necessary to secure the inmate to prevent injury to staff, inmates, or the public.

Florida Department of Corrections Procedure 602.018, *Contraband & Searches of Inmates* states unclothed searches of inmates will be conducted by staff of the same sex, except in an emergency as determined by the Shift Supervisor. The clothing and the inmate's body will be carefully inspected to determine if contraband is being concealed.

Documentation provided by the facility indicated there were no cross-gender strip searches or cross-gender visual body cavity searches conducted during the last 12 months. The Auditor conducted an interview with the Facility Warden and the PREA Compliance Manager and verified that no cross-gender strip searches or cross-gender visual body cavity searches were conducted.

Florida Department of Corrections Procedure 602.036, *Gender Specific Security Positions, Shifts, Posts, & Assignments* states clothed searches of male inmates will be conducted only by appropriate staff who may be of the opposite sex from the inmates. Clothed searches of female inmates by male staff will only be conducted during an emergency as determined by the Shift Supervisor. The only exception to this section is an instance when time and circumstances do not permit the arrival of female staff or consultation with the Shift Supervisor prior to conducting the search due to an imminent threat of physical violence and a search is needed to secure the inmate to prevent injury to staff or inmates. Strip searches of inmates will be conducted only by those in the Correctional Officer class of the same sex as the inmate, except in emergency circumstances as determined by the Shift Supervisor. All strip searches of inmates conducted by staff of the opposite gender and clothed searches of female inmates done in conjunction with this policy, shall require the staff conducting the search to submit an Incident Report DC6-210, explaining the justification for the search exception.

Florida Department of Corrections Procedure 602.036, *Gender Specific Security*

Positions, Shifts, Posts, & Assignments states inmates will not be supervised by officer of the opposite gender while inmates are showering or in the toilet areas unless appropriate privacy screening is provided to obscure from view the breasts of female inmates and the genitalia and buttocks of both male and female inmates. More intrusive supervision involving viewing the areas of the body specified above must be conducted by officers of the same gender as the inmate being supervised, except in emergency situations where safety and security issues dictate otherwise. Inmates will be required to cover themselves appropriately in accordance with local rules and requirements when not in the shower or not utilizing toilets and while in route to and from these areas.

The Auditor reviewed the provided documentation to include shift schedules, shift rosters, and daily inmate activity schedule. The Auditor observed the facility operations throughout the day, to include continuous inmate movement throughout the facility, continuous physical interactions between staff and inmates, and inmates performing job assignments throughout the facility and within the compound grounds. The Auditor also observed opposite gender announcements being conducted throughout the facility tour. The Auditor compared the information reviewed with her observations made during the facility tour and noted the number of male staff members is more than adequate and covers all shifts.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* and the Florida Department of Corrections General Post Order 01 states staff of the opposite gender will announce at the beginning of each shift that they will be present in the housing unit at any time during the shift. This announcement will be documented on the DC6-209 *Housing Unit Log*.

The Auditor requested an up-to-date facility inmate roster, which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster provides inmate characteristics such as age, gender, race, ethnicity, date received at facility, tentative release date, program assignments, work assignments, classification level, security level, gang affiliation, and housing assignment. This process allowed the Auditor to accurately select a random representation of inmates for the interview process and in accordance with the Auditor's requirements. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

Twenty-five random inmate interviews were completed, and all twenty-five inmates confirmed they have privacy while showering, changing clothes, or using the bathroom facilities. Additionally, all twenty-five inmates interviewed confirmed staff of the opposite gender announced her presence prior to entering the housing unit.

The Auditor conducted a review of housing logs and observed entries indicating opposite gender entering housing dormitory with notification to inmates being announced prior to opposite gender entry. The sample of housing logs reviewed covered several days of each month of the auditing period and were from all shifts. The Auditor also observed the announcement of an opposite gender entering a housing dormitory throughout the on-site tour of the facility, which provided additional documentation and the facility's compliance with this standard.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states staff will not search or physically examine a potential gender dysphoria inmate, transgender inmate, or intersex inmate for the sole purpose of determining the inmate's genital status. If the genital status is unknown, it can be determined through conversation with the inmate, by reviewing medical documentation or if necessary, through a broader medical examination conducted in private by a medical practitioner.

During the pre-on-site phase of the audit, the Auditor reviewed documentation provided by the facility showed the facility has had zero searches of a transgender or intersex for the sole purpose of determining the inmate's genital status.

The Auditor requested an inmate roster for transgender or intersex inmates to conduct targeted interviews. At the time of the on-site, the facility reported one transgender inmate in custody. The Auditor conducted an interview with the transgender inmate and inquired if there was any reason to believe the transgender inmate was strip-searched for the sole purpose of determining genital status; the transgender inmates denied being strip-searched specifically for this purpose, and each indicated staff members communicated extremely well during the intake process. Additionally, the transgender inmate commented to the Auditor that facility staff are available anytime to discuss any issues that may arise.

Florida Department of Corrections Procedure 602.018, *Contraband & Searches of Inmates* states all staff members shall receive training on how to conduct cross-gender pat-down searches and searches of transgender and intersex inmates/offenders in a professional and respectful manner consistent with security correctional environments.

The Auditor reviewed the training records and training curriculum provided to staff members who may have contact with inmates, how to perform cross-gender pat-

	<p>down searches and searches of transgender and intersex inmates. Training records indicated staff members receive training on the agency’s PREA policies and how to perform cross-gender pat-down searches annually. The training curriculum outlined the agency’s policy on cross-gender pat-down searches and searches of transgender and intersex inmates, policy prohibiting search of inmates for the sole purpose of determining the inmate’s genital status, defining exigent circumstances, and conducting searches in a professional and respectful manner.</p> <p>The Auditor interviewed twelve random staff members and inquired to each if they have received training on how to conduct cross-gender pat-down searches and searches of transgender and intersex inmates in a professional manner, consistent with security needs. Each staff member confirmed receiving training on cross-gender searches and searches of transgender and intersex inmates annually during Annual In-Service Training. Additionally, staff confirmed receiving refresher training each month during shift briefings.</p> <p>Upon review of agency policy, staff training records and training curriculum, observations during the on-site visit, and upon completion of interviews, Lake City C. F. demonstrated facility-wide practices that are consistent with policy and with the requirements that complies with the PREA standard.</p>

Florida Department of Corrections Procedure 604.101, *Americans with Disabilities Act* states the Department is required to authorize and/or provide accommodation(s) to inmates with documented disabilities to ensure accessibility for services, programs, and activities. When reviewing an inmate's request for an accommodation, decisions are based on the specific inmate's needs, capabilities, as well as specific criteria for the program or activity. The Americans with Disabilities Act requires the Department to make decisions on a case-by-case basis with facts, not suppositions.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states inmates with recognized disabilities and Limited English Proficiency (LEP) shall be advised of the Department's zero tolerance policy on sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment in accordance with the resources outlined in FDC Procedure 604.101 and other Department resources as appropriate. Resources include closed captioning (deaf/hard of hearing), large print material (impaired vision), and reading of materials to inmate by staff (blind/limited mental capacity). Additional resources include the FDC translator list, Language Line services.

During the pre-on-site phase of the audit, the Auditor reviewed the existing contract between CoreCivic of Tennessee, LLC and Language Line Services, Inc. The contract outlines the translation services provided the facility, rate of service, use of services, and the contract start and ending dates.

During the pre-on-site phase of the audit, the Auditor reviewed the Florida Department of Corrections Sexual Abuse Awareness Educational form. The forms

provide inmates with the facility's zero-tolerance policy, provides definitions for sexual abuse and sexual harassment, and multiple reporting methods and the forms are available in nine languages. Additionally, FDC maintains a list of staff able to translate if necessary and can be contacted by Lake City C. F. staff. Translation services available by FDC Staff include Arabic, Armenian, Chinese, Creole, Danish, Filipino, French, German, Gujarati, Hindi, Italian, Kurdish, Laos, Latin, Native American, Patwa, Portuguese, Punjabi, Romanian, Russian, Spanish, Swedish, Tagalog, Thai, Ukrainian, Urdu, and American Sign Language.

The Auditor conducted an interview with the Agency Head regarding how the agency takes appropriate steps to ensure that all inmates have an equal opportunity to participate in the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The Agency Head detailed the efforts made by the agency to ensure impaired inmates are provided opportunities and benefits equal to those of unimpaired inmates.

Additionally, the Agency Head confirmed the agency does not discriminate based on disability in providing services, programs, and activities (this includes PREA). Effective communication aides, including qualified sign language interpreters, readers, sound amplifiers, captioned television, telecommunication devices for the deaf, digital texts, Braille materials, and large-print signs are available to the inmate population. Inmates with either disabilities or LEP inmates are provided with alternatives to accommodate participation in the PREA program such as videos and brochures tailored to their primary language. PREA training for inmates is provided in a video format that is also closed-captioned to accommodate the hearing impaired. If an inmate is identified with a developmental impairment, training is provided through the video with additional instruction if the inmate indicates he has questions.

The Agency Head confirmed that every effort is made to provide PREA training in a format that will be easily understood by inmates who have a physical or developmental impairment or who have limited English proficiency. The Florida Department of Corrections maintains a list of translators for every institution and this list is utilized for assisting with translation; the agency also has a contract with the Language Line Services, and this translation service can be utilized at any time.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states inmates shall not be used as interpreters or readers except in exigent circumstances. Lake City C. F. utilizes staff as translators or initiates the use of the Language Line for translation services.

	<p>The Auditor conducted interviews with twelve random staff members, and each confirmed the agency policy prohibiting the use of an inmate to provide translation services; all staff members acknowledged the use of either the language line or contacting another staff member to translate.</p> <p>The Auditor interviewed four targeted inmates with physical or cognitive disabilities, LEP, or hearing or vision impaired. All four inmates acknowledged receiving PREA information during the intake / transfer process and each inmate described receiving the comprehensive PREA orientation within the first day or two after arriving at the facility. Additionally, each inmate acknowledged the information was provided to them in an accessible format specific to their individual needs. The Auditor conducted the targeted interview with the LEP inmate utilizing the Language Line services, which provided further documentation of the availability of services for interpretation.</p> <p>The Auditor conducted a tour of the facility and observed PREA informational bulletins posted in every housing area as well as various locations throughout the compound. These PREA bulletins are posted in multiple languages, located near the phone banks inside the dormitories, as well as several posted in each housing unit entry way, and in common areas (educational and vocational buildings) throughout the facility. The bulletins display phone numbers and addresses to include the victim advocate services offered through Another Way (24/7 Help Line), Gulf Coast Children’s Advocacy Center, or the Tips hotline.</p> <p>Upon review of agency policies, inmate handbook, and upon completion interviews, Lake City C. The Auditor conducted an interview with the agency's Administrative / Human Resources personnel who confirmed that all criminal record background checks for staff and contractors assigned to or working at Lake City C. F. are processed through Florida Department of Corrections (FDC). The FDC Office of Human Resources (OHR) completes the process for Lake City C. F. just as they do for all FDC facilities. The required criminal background checks are completed prior to hiring a new employee, employees who are considered for promotions, or enlisting the services of a contractor or volunteer and at least once every five years. The HR Staff Member confirmed the FDC requirement imposed upon all employees to disclose any previous misconduct and the agency's requirement to provide information regarding a former employee upon request of another institution or agency. The Florida Department of Corrections OHR utilizes the LiveScan fingerprinting

program. LiveScan fingerprinting refers to both the technique and the technology used to capture fingerprints and palm prints electronically. An individual's fingerprints are captured in a digitized format and then transmitted to a state repository and/or the Federal Bureau of Investigations (FBI). LiveScan results can be verified and returned to the source within a matter of hours.

LiveScan fingerprints are based on the fingerprint image data contained in the submission and are unique to the individual. Responses to a fingerprint-based inquiry are based on positive identification. Fingerprints provide for a biometric search of the Criminal History Database (CHRI). If an employee from the Florida Department of Corrections has any contact with any law enforcement agency, the LiveScan program notifies the FDC Emergency Action Center (EAC).

Lake City C. F. reported in the PAQ, in the 12 months prior to the audit, one hundred fifty-two background checks were performed of persons hired or promoted who may have contact with inmates. The Auditor reviewed personnel files of sixteen new hires and recent promotions and included employees with tenure, and those with specialized training. During the pre-on-site phase of the audit, the Auditor reviewed the comprehensive PREA educational video, provided in multiple languages, which is given to all FDC inmates within 24 hours of arriving to a permanent facility. The facility utilizes the PREA educational video titled *PREA: What You Need to Know* produced by Just

Detention International and the PREA Resource Center. Prior to the on-site, the Auditor reviewed thirty-one *Acknowledgement of Receipt of Orientation, Reception* (DC6-134B) and the *Acknowledgment of Receipt of Orientation on PREA* (DC6-134C) and reviewed an additional thirty-six forms from the inmate files selected for the random and targeted interviews. All sixty-two forms contained the inmate's signature, acknowledging receipt and understanding of the facility's rules & regulations and comprehensive PREA Orientation. The facility maintains documentation of inmate participation in Reception & Orientation and the inmate's participation in PREA Orientation with the original forms placed in the inmate's institutional file and receipt of each orientation will be noted in the inmate (electronic) record.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states inmates with recognized disabilities and Limited English Proficiency (LEP) shall be advised of the Department's zero tolerance policy on sexual abuse, sexual battery, staff sexual misconduct, and sexual harassment in accordance with the resources outlined in FDC Procedure 604.101 and other Department resources as appropriate. Resources include closed captioning or American Sign Language interpreter (hearing impaired), large print material (impaired vision), and reading of materials to inmate by staff (blind/limited mental capacity). Additional resources include the FDC translator list or Language Line Services.

The Auditor conducted an interview with the PREA Compliance Manager and discussed the inmate comprehensive PREA orientation and documentation process. The PREA Compliance Manager provided specific details on the process of educating inmates including the initial orientation upon intake into the facility, the comprehensive orientation video, and the continued educational process by using PREA informational pamphlets, Sexual Abuse Awareness brochures, and the Zero Tolerance signage posted throughout the facility.

The Auditor interviewed four targeted inmates with physical or cognitive disabilities, LEP, or hearing or vision impaired. All four inmates acknowledged receiving PREA information during the intake / transfer process and each inmate described receiving the comprehensive PREA orientation within the first day or two after arriving to the facility. Additionally, each inmate acknowledged the information was provided to them in an accessible format specific to their individual needs. The Auditor conducted the targeted interview with the LEP inmate utilizing the Language Line services, which provided further documentation of the availability of services for interpretation.

The Auditor conducted a tour of the facility and observed PREA informational bulletins. These PREA Zero Tolerance signage are posted in multiple languages, located near the phones inside every dormitory, and posted throughout the

compound in common areas, such as the Educational, Vocational, and Food Service buildings. The Zero Tolerance signage are displayed in multiple languages, provide phone numbers, and addresses for the victim advocate services offered through Another Way, the Help Line, and the Tips hotline.

During the facility tour, the Auditor conducted a tour of the Intake and Transfer section of the facility and inquired to Intake Staff how do they ensure current inmates, as well as those transferred from other facilities have been educated on the agency's zero-tolerance policy on sexual abuse or sexual harassment. The Intake Staff informed the Auditor that even if an inmate has already received the orientation in a previous incarnation, all inmates entering the facility receive the PREA comprehensive orientation upon arrival to the facility. The Auditor was able to witness the inmate orientation process as it was being provided to inmates who recently arrived at the facility during the tour of Intake and Transfer.

The Auditor requested an up-to-date facility inmate roster, which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster provides inmate characteristics such as age, gender, race, ethnicity, date received at facility, tentative release date, program assignments, work assignments, classification level, security level, gang affiliation, and housing assignment. This process allowed the Auditor to accurately select a random representation of inmates for the interview process and in accordance with the Auditor's requirements. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

All twenty-five inmates interviewed recalled receiving both the initial PREA orientation and the comprehensive (video) orientation with several inmates describing the area where the orientation is held (Intake & Transfer). All twenty-five inmates also acknowledged the zero-tolerance policy on sexual abuse sexual harassment and the various ways to report such incidents.

Nineteen of the twenty-five Inmates referred to utilizing the multiple PREA Zero Tolerance signage, pamphlets, and Sexual Abuse Awareness brochures, which are posted throughout the facility, as a source of information. All of the twenty-five inmates interviewed referred to utilizing the hotline or staff member as the most direct method to report or inquire about PREA information. All twenty-five inmates interviewed referred to calling a family member as their source outside the facility and all twenty-five inmates interviewed confirmed knowledge of third-party reporting. Twenty-three of the twenty-five inmates interviewed were aware of the availability of submitting an anonymous PREA report.

	<p>Upon review of agency policy and documentation listed above and previously discussed, and upon completion of interviews, in addition to the observations made throughout the on-site tour, Lake City C. F. demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.</p>

Florida Department of Corrections Procedure 108.015, *Sexual Battery, Sexual Harassment, & Sexual Misconduct Investigations* states the Department shall maintain documentation that inspectors have completed the required specialized training in conducting sexual abuse investigations. Training documentation shall be maintained by the Bureau of Professional Development and Training.

During the on-site audit phase, the Auditor reviewed training documentation, which included the specialized training curriculum from the National PREA Resource Center, *Specialized Training: Investigating Sexual Abuse in Confinement Settings* and training certificates of completion verifying investigative staff that conduct sexual abuse investigations attended and completed the required specialized training.

The Auditor conducted an interview a facility investigator who confirmed he is responsible for conducting administrative investigations of inmate-on-inmate sexual harassment within the facility. The Facility Investigator confirmed he has received the required training, reviewed the responsibilities of an investigator, and provided an overview of the administrative investigation process. The Facility Investigator confirmed that the remainder of criminal and administrative investigations are referred to the Office of Inspector General (OIG) for investigation.

The Auditor conducted an interview with an investigator assigned to the Office of Inspector General who confirmed the responsibilities of an investigator, reviewed the process of an investigation, and confirmed the use of a uniform evidence protocol for the collection of physical evidence. The OIG investigator confirmed that the for the exception of administrative investigations of inmate-on-inmate sexual harassment, the OIG investigators are responsible for conducting criminal and administrative investigations for Lake City C. Florida Department of Corrections Health Services Bulletin #15.03.36 *Sexual Battery Medical Action* states all Medical and Mental Health Care Practitioners who work regularly in Florida Department of Corrections facilities, including contracted staff, will be trained in how to detect and assess signs of sexual abuse and sexual harassment. All Medical and Mental Health Care Practitioners will also be trained on how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse and sexual harassment, and how to report allegations of sexual abuse and sexual harassment.

All Medical and Mental Health Care Practitioners will also receive specialized training on recognizing the special medical and mental health needs of all inmates and factors to consider in an inmates' risk of sexual victimization. The agency shall document training of all medical staff to denote employee understanding of material and verified through employee signature.

During the pre-on-site phase of the audit, the Auditor reviewed training records of all medical staff currently assigned to the facility; training records included the training curriculum and certificates of completion (with signatures). The training curriculum included the required elements of the department policy and of the PREA standard.

The Auditor conducted interviews with Medical & Mental Health staff members and confirmed receipt of specialized training on how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse and sexual harassment, and how to report allegations of sexual abuse and sexual harassment. Each Medical and Mental Health staff member also confirmed receiving the Department's general PREA training, which included the zero tolerance to sexual abuse and sexual harassment.

Inmate initial risk screening assessments & reassessments

FDC Health Information Transfer/Arrival Summary (DC4-760A) forms

Florida Department of Corrections Procedure 601.209, *Reception Process - Initial Classification* states during the reception process, all inmates will be subject to screening within 24 hours of arrival for potential mental and physical vulnerabilities that would jeopardize an inmate's safety.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states each time an inmate arrives at an institution, Health Services Staff will screen the inmate upon arrival as soon as possible, and within 24 hours. The screening will assess the inmate's sexual orientation, to include whether the inmate identifies as LGBTI. The screening will also assess if the inmate has a mental, physical, or developmental disorder that requires particularized medical or mental health care.

Florida Department of Corrections Procedure 601.209, *Reception Process - Initial Classification* and Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states within 72 hours of intake, a Classification Officer will screen all inmates to determine if an inmate is at risk of future victimization of sexual abuse, sexual battery, or is at risk of committing sexual abuse or sexual battery. Characteristics such as the inmate's age, criminal record, and prior identified history of sexual victimization or predation will be utilized to make this determination.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states if an inmate is identified as a potential victim or abuser (perpetrator) housing, bed, and work assignments will be appropriately assigned based on known information and established protocol. Within 30 days from the initial intake screening, the institution will reassess the inmate's risk of victimization or abusiveness if additional information is received by the institution. Additionally, an inmate's risk level shall be reassessed when warranted due to a referral, request, and incident of sexual abuse or receipt of any additional information that bears on the inmate's risk of sexual victimization or abusiveness.

The Auditor requested interviews with inmates who disclosed prior sexual victimization during intake. The facility provided the Auditor with documentation which reflected the inmates who disclosed prior sexual victimization were no longer in custody, therefore inmates in this targeted category were not interviewed.

The Auditor requested an up-to-date facility inmate roster, which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster provides inmate characteristics such as age, gender, race, ethnicity, date received at facility, tentative release date, program assignments, work assignments, classification level, security level, gang affiliation, and housing assignment. This process allowed the Auditor to accurately select a random representation of inmates for the interview process and in accordance with the Auditor's requirements. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

Nine of the twenty-five inmates interviewed arrived at the facility twelve months or longer, therefore this interview question was not posed to them. Of the remaining sixteen inmates interviewed, all sixteen inmates recalled the initial risk assessment interview and thirteen of the sixteen recalled the second risk assessment interview occurring with a member of the Classifications Team and within a few weeks to one month after the initial assessment. Each inmate recalled the specific questions asked by the staff member during the initial risk assessment interview, as well as the reason the questions were being asked (risk of sexual victimization).

CoreCivic Company Policy 14-2, *Sexual Abuse Prevention and Response* states the facility shall use the information from the risk screening completed at initial screening and as all subsequent reassessments, in the consideration of housing, recreation work program and other activities.

CoreCivic Company Policy 14-2, *Sexual Abuse Prevention and Response* states screening of inmates should only be used as a guideline for determining appropriate housing and services and should never be used as the sole reason for the deprivation of a program or privilege. The facility shall make individualized case by case determinations about how to ensure the safety of each inmate.

CoreCivic Company Policy 14-2, *Sexual Abuse Prevention and Response* states prohibits discrimination based on an inmate's race, religion, national origin, sex, disability, or political views in making administrative decisions and in providing access to programs.

In accordance with Florida Department of Corrections Procedure 601.209, *Reception Process - Initial Classification* the inmate classification system is comprised of two primary operational components, the State Classification Office, and the Institutional Classification Team. The State Classification Office refers to the office or office staff at the central office level that is responsible for the review of inmate classification decisions. The Institutional Classification Team (ICT) refers to the team consisting of the Warden, Assistant Warden, Classification Supervisor, Chief of Security, and other members as necessary or when appointed. The ICT is responsible for making work, program, housing, and inmate status decisions at a facility and for making other classification recommendations to the State Classification Office.

The Florida Department of Corrections utilizes the Offender Based Information System (OBIS), an electronic offender database system, to organize and store security, program, and other inmate information such as commitment, day-to-day activities, offenses, cases, movement between facilities, and other historical data. The facility medical, mental health, and classification staff are responsible for collecting the required information and entering it into the database, which is shared within the integrated system. For example, Medical and Mental Health staff will complete an initial FDC Health Information Transfer/Arrival Summary (DC4-760A) upon an inmate's arrival to the facility. A specific portion of this information is entered into OBIS, the integrated offender database system, and the information is then shared with Classification staff when assessing an inmate's risk of sexual victimization or sexual abusiveness; specifically shared information include responses to questions that directly relate to the risk screening and needs assessment (Example question - Does the inmate feel the s/he is susceptible to being victimized by an act of sexual abuse or assault?)

Within the Offender Based Information System (OBIS), the Department utilizes the Inmate Risk Management System (IRMS) and Inmate Behavior Assessment Scale (IBAS) to determine an inmate's risk screening and needs assessment. The OBIS auto

populates each inmate's personal demographics (age, weight, height, inmate's own perception of vulnerability, etc. - collected from the Health Information Transfer/Arrival Summary DC4-760A form) and any assessments previously made by a medical or mental health staff member (mental, physical, or developmental disabilities) into the Inmate Risk Management System.

Information collected and entered into the Inmate Risk Management System is then utilized with the Inmate Behavior Assessment Scale to conduct the initial risk screening assessment. The Inmate Behavior Assessment Scale is a series of questions, which include, but not limited to:

- Sexual orientation and/or gender identity.
- Whether the inmate has been a victim of sexual abuse while incarcerated or at any time during his life (adult or child).
- Whether the inmate committed sexual abuse against another person while incarcerated or at any time during his life (adult or child).
- If the inmate is familiar with the prison environment.
- Whether the inmate has been approached or pressured by other inmates for sexual favors.
- Inmate's own perception of vulnerability.

The assessment requires the staff member to also confirm if the inmate has any prior incarcerations, and a criminal history, to include prior convictions for sex offenses. At the conclusion of the interview process, a Sexual Risk Indicator score (SRI) is generated from the responses entered into the system. The SRI score assists Classification staff with determining housing, programming, and job assignments, additional risk, or assessment needs for the inmate, and dependent upon the answer provided by the inmate, the program will automatically generate an immediate referral to medical and mental health staff. The program will automatically generate the next appointment (within 30 days) for each inmate.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states inmates will not be disciplined for refusing to answer, or for not disclosing complete information in response to the questions asked during the risk screening.

The Auditor conducted an interview with a Classification Supervisor regarding the responsibility to conduct screenings for risk of victimization and abusiveness. The Classification Supervisor provided the Auditor with an overview of the inmate classification process and the inmate risk screening process to include how all inmates are screened within 72 hours (or less) of their arrival to the facility.

The Auditor inquired to the Classification Supervisor what actions are taken against inmates who refuse to cooperate or answer the questions in the risk screening process. The Classification Supervisor confirmed that inmates are not disciplined for refusing to cooperate or answer the questions in the risk screening process. If an inmate refuses to answer, another staff member will conduct a follow-up interview at a later date.

The Classification Supervisor confirmed all interviews are conducted privately and the interviews include the classification and risk assessment process, program opportunities, qualifications for job assignments, and educational opportunities. Inmates are also assigned to a Classification Team (assignment is on a rotation basis) upon arrival to the facility. Inmates meet regularly with a team representative to review custody classification status, programs assignments / requirements, job assignments, and to discuss any concerns or issues.

The Auditor reviewed documentation from the inmate files of the thirty-six inmates selected for the random and targeted interviews. These files were selected based upon the inmate sexual abuse investigations, length at facility, and inmates that disclosed sexual orientation as gay, bisexual, or transgender. Each file contained the initial risk screening assessment (SRI) as well as the 30-day risk reassessment (SRA); all risk assessments were filled out completely and in accordance with the facility's policy.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states the facility shall implement appropriate controls on the dissemination within the facility of responses to the questions asked pursuant to risk screenings to ensure privacy of sensitive information that may be used for exploitation by staff or other inmates.

The Auditor conducted separate interviews with the Classification Supervisor and the PREA Coordinator and inquired, how the facility protects such sensitive information. Both the Classification Supervisor and the PREA Coordinator confirmed that access to such information is strictly limited to Classification staff, Medical, and Mental Health and Facility Administration.

Upon review of the agency policies, risk assessments and reassessments, demonstration of the risk screening and needs assessment process during the on-site, and upon completion of the interviews, Lake City C. F. demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the

	PREA standard.

inmate's risk of sexual victimization or abusiveness.

The Florida Department of Corrections utilizes the Offender Based Information System (OBIS), an electronic offender database system, to organize and store security, program, and other inmate information such as commitment, day-to-day activities, offenses, cases, movement between facilities, and other historical data.

Within the Offender Based Information System (OBIS), the Department utilizes the Inmate Risk Management System (IRMS) and Inmate Behavior Assessment Scale (IBAS) to determine an inmate's risk screening and needs assessment. The SRI score assists Classification staff with determining housing, programming, and job assignments, additional risk, or assessment needs for the inmate, and dependent upon the answer provided by the inmate, the program will automatically generate an immediate referral to medical and mental health staff. The program will automatically generate the next appointment (within 30 days) for each inmate.

The Auditor conducted an interview with the PREA Compliance Manager and inquired how the facility uses information obtained from the risk screening assessment interview to keep inmates from being sexually victimized or being sexually abusive. The PREA Compliance Manager described the risk screening process and explained how depending upon the responses given by the inmate is used to assist in the initial classification and with determining the risk level of vulnerability. Inmates perceived to be vulnerable or predatory will be housed and given work / program assignments consistent with custody level and medical status. Inmates at a risk of high victimization are involuntarily segregated, only if an assessment of all other available alternatives has been made and it is determined that no other alternative means of separation from likely abusers exist.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states housing for transgender and intersex inmates will be

determined on a case-by-case basis. The inmate's safety as well as the safety and the security of the institutional compound will be taken into consideration when making the housing determination.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states transgender and intersex inmates will be assessed biannually by Classification. An interview will be conducted as well as a review of their housing, program, and work assignments to determine if there are any changes or threats to the inmate's safety.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states transgender and intersex inmates shall be given the opportunity to shower separately from other inmates.

During the Auditor's interview with the Classification Supervisor, the Auditor inquired how the facility uses the information obtained from the risk screening assessment interviews to determine housing assignment for each inmate, which is done strictly on a case-by-case basis. The Classification Supervisor confirmed that a transgender or intersex inmate's own views on safety is given consideration during this process and if placed in protective custody, such placement is done at the request of the inmate or solely based on the inmate's classification level.

During the Auditor's interview with the PREA Compliance Manager, the Auditor inquired how the facility determines housing and program assignments for transgender or intersex inmates. The PREA Compliance Manager explained that housing for a transgender or intersex inmate is determined on a case-by-case basis. The inmate's safety as well as the safety and the security of the institutional compound will be taken into consideration when making the housing determination.

During the pre-on-site phase of the audit, the Auditor conducted an interview with the PREA Coordinator and inquired how the agency ensures against placing lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities or wings. The PREA Coordinator informed the Auditor that agency policy prohibits such placement.

The Auditor requested an up-to-date inmate roster for gay, bisexual, transgender, and intersex inmates to conduct targeted inmate interviews. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

	<p>The Auditor conducted four separate interviews with inmates who identify as either gay, bisexual, transgender, or intersex. The Auditor inquired to each inmate whether they were placed in a housing area only for gay, bisexual, or transgender or intersex inmates. Each inmate acknowledged being housed in a general population housing area with inmates of the same level of classification. Each inmate explained the classification levels are based on criminal history. Additionally, the Auditor inquired to the inmate who identified as transgender if the opportunity to shower alone without other inmates is provided and the transgender inmate confirmed to the Auditor the facility provides the opportunity to shower alone. The Auditor also inquired to the transgender inmate if staff met with them individually, to discussed housing and program decisions and to discuss safety within the facility. The transgender inmate acknowledged meeting with staff and confirmed these concerns were discussed privately.</p> <p>Upon review of agency policies, risk assessment, demonstration of the risk screening and needs assessment process during the on-site, and upon completion of the interviews, Lake City C. been made and it is determined that there are no available alternative means of separation from likely abusers.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states inmates perceived to be vulnerable would be housed and given work/program assignments consistent with custody level and medical status.

Florida Administrative Code 33-602.220, *Administrative Confinement* states if it is necessary to continue the inmate's confinement beyond this first extension, written authorization must be obtained from the State Classification Office for a 30-day extension. The State Classification Office shall have the authority to authorize one additional one additional 30-day extension. Examples of circumstances for placing an inmate in administrative confinement for this reason include:

- Pending an evaluation for placement in close management
- Special review against other inmates, disciplinary, program change or management transfer
- Pending an investigation into allegations that the inmate is in fear of a staff member
- Any other reason when the facts indicate that the inmate must be removed from the general inmate population for the safety of any inmate or group of inmates or for the security of the institution.

The Auditor conducted an interview with the Facility Warden regarding inmates at high risk of victimization. The Facility Warden explained the Inmate Behavior Assessment Scale (IBAS), which assists in determining risk factors, also helps in choosing appropriate and safe housing assignments for inmates identified as being at risk. Inmates who have made an allegation of sexual abuse and have stated that they are in fear for their safety will be placed in segregated housing, either voluntarily or involuntarily, on a temporary basis until a review can be conducted to verify the extent of the danger. The incident is reviewed as soon as possible, and the inmate will be released from segregation as soon as it can be determined that the inmate is no longer in imminent danger, or as soon as alternative means of separation from an alleged abuser can be arranged. The Facility Warden explained if no safe and suitable housing plan for the inmate can be found in general population at our facility, the inmate is moved to protective custody and an urgent transfer is requested to a more suitable facility based on the inmate's unique needs.

The Auditor conducted an interview with a Facility Staff Member who supervises inmates in segregated housing. The Auditor inquired to the Facility Staff Member if an

	<p>inmate who is placed in segregated housing for protection from sexual abuse or after having alleged sexual abuse, what restrictions are placed on the inmate. The Facility Staff Member articulated those inmates placed in Protective Management (placed in segregated housing for protection) do not have restrictions and retain the same privileges as inmates in general population housing, to include participating in programs and education opportunities. The Facility Staff Member explained if an inmate has restrictions placed on him it would be a result of their behavior or actions, and such action (being placed on restrictions) would require documentation explaining what has been restricted, duration of restriction, and reasons for initiating the restriction.</p> <p>The facility reported no inmates were assigned to involuntary segregated housing due to risk for sexual victimization during the twelve months prior to the audit. During the on-site, the Auditor reviewed investigative files, inmate files and conducted interviews with the Facility Warden, PREA Compliance Manager, and Classification Staff and was able to confirm there were no inmates, who were at risk for sexual victimization, placed in involuntary segregated housing.</p> <p>Upon review of the agency policy and documentation provided and upon completion of the interviews, Lake City C. - verbally to any staff member, volunteer, or contractor

The Auditor reviewed the contract between CoreCivic of Tennessee, LLC and Another Way, Inc. In accordance with the contract, Another Way provides inmates incarcerated at Lake City C. F. with a 24/7 toll-free hotline staffed by certified victim

advocates. Another Way is designated as the outside reporting hotline for inmates housed at Lake City C. F. and allows the inmate to remain anonymous upon request.

The Auditor conducted an interview with an advocate from Another Way and she confirmed the existing MOU and responsibilities within the agreement and provided an overview of services provided to inmates at Lake City C. F. who were victims of sexual abuse. The services include emotional support services, crisis counseling, victim advocate upon request for advocacy accompaniment during forensic exams or investigatory interviews, a sexual abuse/assault crisis help line and the advocacy mailing address for inmate communication with the advocacy services. Another Way provides a 24/7 toll-free rape crisis Help Line, staffed by certified victim advocates. During the facility tour, test calls on inmate phones were conducted inside to ensure availability and functionality; all phones tested were confirmed to be working properly.

The Auditor requested an up-dated facility inmate roster, which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster provides inmate characteristics such as age, gender, race, ethnicity, date received at facility, tentative release date, program assignments, work assignments, classification level, security level, gang affiliation, and housing assignment. This process allowed the Auditor to accurately select a random representation of inmates for the interview process and in accordance with the Auditor's requirements. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

The Auditor conducted twenty-five inmate interviews and inquired to each how they would report an incident of sexual abuse or sexual harassment if it happened to them or another inmate. Twenty-two of the twenty-five inmates interviewed referred to utilizing the hotline or staff member as the most direct method to report or inquire about PREA information. All twenty-five inmates interviewed referred to calling a family member as their source outside the facility and all twenty-five inmates interviewed confirmed knowledge of third-party reporting.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states all reports of sexual abuse, sexual battery, staff sexual misconduct, or sexual harassment received by a staff member shall be documented immediately and shall be investigated thoroughly and accordance to agency policy.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states Facility Staff may report sexual abuse and sexual

harassment of inmates anonymously to the Inspector General TIPS line.

The Auditor requested an up-to-date facility staff roster. The staff roster provided a list of all staff members currently assigned to the facility and was organized by shift assignment and identified each staff members current job assignment and rank. This allowed the Auditor to select a random representation of staff members for the interview process as well as ensure the random representation included all shifts, ranks, tenure, and various job assignments.

The Auditor-conducted twelve random staff interviews and asked each staff member how an inmate can privately report sexual abuse and sexual harassment or retaliation by other inmates or staff for previously reporting sexual abuse and sexual harassment.

Each staff member interviewed was able to articulate the various methods an inmate may privately report an allegation of sexual abuse or sexual harassment (TIPS hotline, third party reporting, CoreCivic Corporate). Staff members also explained that reports concerning sexual abuse or sexual harassment, whether reported verbally or in writing, are considered confidential and must be documented immediately.

The Auditor inquired to each staff member how he/she would report an allegation of sexual abuse or sexual harassment of inmates privately. Staff responses were evenly divided to either calling the Office of the Inspector General (TIPS hotline) or tell his/her immediate supervisor. Staff members expressed confidence in reporting either to the hotline or privately to his/her supervisor and no one reported fear of retaliation.

The Auditor conducted an interview with the PREA Compliance Manager to verify reporting methods for sexual abuse or sexual harassment allegations that are available for inmates and staff. The PREA Compliance Manager confirmed the multiple methods of reporting available for inmates and staff, these reports can be made either verbally, in writing, by a third party and may be done so in private or anonymously and all reports, no matter the method used to report, are confidential and handled promptly and professionally. The PREA Compliance Manager confirmed that the Another Way the designated outside entity for inmate reporting.

During the facility tour, the Auditor conducted thirty-one informal interviews with inmates in the dormitories, work assignments, and while touring the food service, program, and educational buildings. During the informal interviews, the Auditor

	<p>inquired to each inmate regarding the use of the hotline, and all confirmed it is accessible 24 hours a day, 7 days a week and is considered confidential. Throughout the facility tour, the Auditor conducted multiple test calls of the hotline number available for inmates to report. The hotlines are secured, confidential lines. All phones tested during the on-site phase of the audit were found to be in working order.</p> <p>Also, throughout the facility tour, the Auditor observed PREA Zero Tolerance signage posted in all housing dormitories, inmate educational and program areas, in the Visitor Park, and inmate work areas (laundry, barbershop, etc.) and was posted in multiple languages.</p> <p>Upon review of agency policies, documentation provided and upon completion of interviews conducted, Lake City C. Inmates filing grievances alleging sexual abuse shall not be instructed to file the grievances to the</p>

individual(s) who are the subject(s) of the complaint. Additionally, grievances of this nature shall not be referred to the subject(s) of the complaint.

Florida Administrative Code Rule 33-103.006, *Formal Grievance* states there is no time limit on when an inmate or a third party may initiate a grievance regarding allegations of sexual abuse.

Florida Administrative Code Rule 33-103.006, *Formal Grievance* states upon receipt of an emergency grievance the reviewing authority shall take the following action as soon as possible, but no later than two calendar days following receipt: review complaint and contact staff for additional information, if necessary, if an emergency is found to exist, initiate action to alleviate condition giving rise to the emergency, provide a formal response to the inmate within 15 calendar days. If an emergency is not found to exist, a response will be provided to the inmate indicating that the complaint is "not an emergency" with instructions to resubmit at the proper level, signed and dated by the responding employee and returned to the inmate within 72 hours of receipt.

During the pre-on-site phase of the audit, the Auditor reviewed the Florida Department of Corrections Inmate Handbook and confirmed the handbook contains information about the grievance process to include explanation of the two types of grievance, informal and formal. The handbook informs inmates that additional and more detailed grievance information is covered during orientation or they may find the information in Rule 33-103, Florida Administrative Code.

Florida Administrative Code Rule 33-103.006, *Formal Grievance* states the Department shall claim an extension of time to respond, of up to 70 days, if the normal time-period for response is insufficient to make an appropriate decision due to the need for additional investigation. The inmate shall be notified in writing of the extension and a date by which a decision will be made.

Florida Administrative Code Rule 33-103.006, *Formal Grievance* states if an inmate or third party is filing a grievance involving sexual abuse, it shall be clearly stated in the first line of the grievance that it is a grievance related to sexual abuse. Also, on Form DC1-303, the third-party filer shall check the box next to Third Party Grievance Alleging Sexual Abuse. If this statement is not included in the grievance and if the third-party box is not checked, the grievance shall be responded to. This will not be a reason to return the grievance without action to the filer.

Florida Administrative Code Rule 33-103.006, *Formal Grievance* states when third parties initiate a sexual abuse grievance, the inmate will be notified by institutional staff. A staff member shall interview the inmate within two business days of receipt of the third-party grievance alleging sexual abuse. During this interview, the inmate shall elect to allow the grievance to proceed or request that the grievance be stopped by completing the top half of Form DC6-236, *Inmate Request*, stating he elects for the grievance to proceed or stopped. The institution shall document the inmate's desire to either allow or refuse the grievance to proceed under the response section of Form DC6-236. A copy of the request will be placed in the inmate's file.

Florida Administrative Code Rule 33-103.006, *Formal Grievance* states an inmate may file an emergency grievance if they believe they are subject to a substantial risk of imminent sexual abuse. When receiving an emergency grievance from an inmate expressing belief, they are subject to a substantial risk of imminent sexual abuse the institution must take immediate corrective action. Staff handling this grievance shall provide an immediate response within 48 hours and shall issue a final decision within five calendar days from the receipt of the grievance. The final decision will document the agency's determination whether the inmate is in substantial risk of imminent sexual abuse and the action taken in response to the emergency grievance.

Florida Department of Corrections Procedure 602.053, *Prison Rape: Prevention, Detection, & Response* states when it is determined that an inmate has filed a PREA report in bad faith, i.e., knowingly filed a false report, that inmate shall be subject to discipline.

The Auditor conducted three targeted interviews with inmates who reported an allegation of sexual abuse and inquired to each inmate, and inquired to each inmate if the facility notified him of the final decisions made regarding the allegation and if such notification was in writing. One of the three inmates interviewed confirmed to the Auditor he was notified by staff of the case disposition. The Auditor verified the notification (and case status) while reviewing the investigative files and the inmate notification contained the date, case disposition, and inmate signature. The second inmate interviewed informed the Auditor his allegation was still pending. The third inmate interviewed refused to discuss reporting an allegation of sexual abuse.

Upon review of agency policies and of the Florida Department of Corrections Inmate Handbook, and documentation within the investigative case files, and upon completion of interviews conducted, Lake City C. Florida Department of Corrections Procedure 602.053, *Prison Rape – Prevention, Detection, & Response* states inmate victims of sexual abuse, sexual battery, or staff sexual misconduct while incarcerated will be offered timely information about and timely access to emergency contraception and sexually transmitted infections prophylaxis. Additionally, the victim will be offered support services by means of means of a mailing address and/or telephone numbers to local community support groups.

Florida Department of Corrections Procedure 602.053, *Prison Rape – Prevention, Detection, & Response* states any inmate who alleges sexual abuse or sexual battery will be advised of his/her right to crisis intervention services, forensic examination, and to have a victim advocate present during the forensic examination and/or the

investigative interviews.

During the pre-on-site phase of the audit, the Auditor reviewed the Florida Department of Corrections Inmate Orientation Handbook. The FDC Inmate Handbook provides information regarding victim advocacy services for inmates and all information provided will be kept confidential, except information that requires mandatory reporting.

During the on-site phase of the audit, the Auditor reviewed the MOU between CoreCivic of Tennessee, LLC and Another Way, Inc. Another Way, Inc. provides inmates incarcerated at Lake City C. F. with advocacy services for victims of sexual abuse or sexual violence. The services provided include emotional support services, crisis counseling, victim advocate upon request for advocacy accompaniment during forensic exams or investigatory interviews, a mailing address and phone number for inmate communication with the advocacy services.

The Auditor requested an up-to-date facility inmate roster, which provides a list of all inmates currently at the facility and is organized by housing unit. The facility inmate roster provides inmate characteristics such as age, gender, race, ethnicity, date received at facility, tentative release date, program assignments, work assignments, classification level, security level, gang affiliation, and housing assignment. This process allowed the Auditor to accurately select a random representation of inmates for the interview process and in accordance with the Auditor's requirements. All inmate interviews were conducted with the guidance of the National PREA Resource Center, *PREA Compliance Audit Instrument - Interview Guide for Inmates*.

The Auditor conducted twenty-five inmate interviews and inquired to each if they were informed of the services available outside of the facility for dealing with sexual abuse. Twenty-three of the twenty-five inmates interviewed stated there are services available as they were explained to them during the comprehensive PREA orientation (video) and referred to the PREA Zero Tolerance signage posted in the dormitory and throughout the compound, which provides specific details. Several inmates commented to the Auditor the location of the signs (next to the inmate phones), provides multiple opportunities to read the information "every time I use the phone". Twenty-four of the twenty-five inmates interviewed acknowledged being provided mailing address and telephone numbers to victim advocacy services and that such calls are toll-free.

During the facility tour, the Auditor conducted informal interviews with inmates in the housing dormitories and in various work assignments, and while touring the

programs, and educational areas. Throughout the tour, the Auditor noted PREA Zero Tolerance signage and Sexual Abuse Awareness Brochure displayed in all the above areas / buildings.

During the informal interviews with inmates, the Auditor inquired to multiple inmates how he would send correspondence to either a relative, friend, legal counsel, or the advocacy center. Each inmate provided the Auditor with multiple methods to send correspondence, and all felt confident in utilizing such method.

The Auditor conducted three targeted interviews with inmates who reported an allegation of sexual abuse and inquired to each inmate, after reporting, did the facility allow them to contact anyone. Two of the three inmates confirmed to the Auditor, after reporting the incident, each inmate was able to meet with a contracted Medical and Mental Health staff member and that medical staff informed him of the additional services available from the Another Way. One inmate interviewed declined the advocacy services, one inmate accepted. The third inmate interviewed refused to discuss reporting an allegation of sexual abuse.

Upon review of agency policies, victim advocacy contract, observations during the facility tour, and upon completion of interviews, Lake City C. F. demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

The Auditor conducted an interview with the Facility Warden and asked what the process is when your facility receives an allegation from another facility or agency that an incident of sexual abuse or sexual harassment occurred at the facility. The Facility Warden explained the facility, which houses the alleged victim, handles protective measures, and notifies the Office of the Inspector General, if necessary, and the Emergency Action Center. If the time of the alleged occurrence were recent, Lake City C. F. would secure the crime scene until the OIG could collect evidence. If the alleged perpetrator were still housed at Lake City C. F., he would be placed in Administrative Confinement as a PREA perpetrator until Institutional Classification Team (ICT) could review the need to maintain him in confinement.

The Auditor conducted an interview with the Agency Head and inquired if another agency or facility refers allegations of sexual abuse or sexual harassment that occurred within one of your facilities, is there a designated point of contact. The Agency Head explained that the point of contact for all Department related incidents is either the facility where the incident occurred or the Office of the Inspector General. Staff members receiving an allegation will in turn contact the Department's Emergency Action Center (EAC). If an outside agency advises that an inmate reported being sexually victimized at a prior Departmental facility, it is the receiving staff member's responsibility to notify the EAC of the incident. The EAC will provide that staff member with an incident number and a PREA case number. The PREA case number will be utilized to create a record of the incident in the Management Information Notes System (MINS). Once a record is created in MINS, the information is automatically routed to the Office of the Inspector General for review. The Warden at the facility where the inmate reported will also be responsible for notifying the Warden at the facility the incident occurred within 72 hours of receiving the allegation.

In the twelve months prior to the audit, Lake City C. F. reported no allegations of sexual abuse was received from another facility and no allegations were reported from inmates at Lake City C. F. alleging sexual abuse while confined at another facility.

- Preserve and protect any potential crime scene until appropriate steps can be taken to collect evidence.
- If the alleged abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim not take any actions that could destroy physical evidence, including but not limited to, washing, bathing, brushing teeth, changing clothes, urinating, defecating, drinking or eating.
- If the alleged abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged abuser not take any actions that could destroy physical evidence, including but not limited to, washing, bathing, brushing teeth, changing clothes, urinating, defecating, drinking or eating.
- If the first responder is not a security staff member, request that the alleged victim not take any action that could destroy physical evidence, and then notify security staff.

The Auditor requested an up-to-date facility staff roster which provided a list of all staff members currently assigned to the facility and was organized by shift assignment and identified each staff members current job assignment and rank. This allowed the Auditor to select a random representation of staff members for the interview process as well as ensure the random representation included all shifts, ranks, tenure, and various job assignments.

The Auditor conducted twelve random staff interviews and three targeted interviews

(Security Staff who act as First Responders) regarding his/her role as a First Responder to an allegation of sexual abuse. The Staff Members provided specific details of their responsibilities as a First Responder. These responsibilities include separating the victim and abuser, preserving, and protecting the crime scene, requesting that the alleged victim not take any actions that could destroy physical evidence, ensuring the alleged abuser does not take any actions, which would destroy physical evidence, and to immediately notify Medical and Mental Health.

In addition, each Staff Member acknowledged the importance of the agency's response protocol to a sexual abuse allegation as well as his or her role as a First Responder. Every Staff Member interviewed articulated in detail the responsibilities of a First Responder and the importance of his/her responsibility when responding to an incident of sexual abuse or sexual harassment.

The Auditor conducted three targeted interviews with inmates who reported an allegation of sexual abuse and inquired to each inmate after reporting the sexual abuse, how did the facility respond and what did staff do when they first arrived at the scene. Two of the three inmates confirmed to the Auditor that staff responded appropriately and immediately escorted him to medical for treatment and evaluation and to take his initial statement. The third inmate interviewed refused to discuss reporting an allegation of sexual abuse.

Upon review of agency policy, review of investigative documentation, and upon completion of interviews, Lake City C. F. demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

This includes promptly reporting any allegation involving retaliation against alleged victims or identified reporters of sexual abuse, sexual battery, staff sexual misconduct, or sexual harassment.</p>

Florida Department of Corrections Procedure 602.053, *Prison Rape – Prevention, Detection, & Response* states inmates and/or staff who report sexual abuse will be monitored for retaliation for at least 90 days, with at least three contact status checks to occur within the 90-day monitoring period at the 30, 60, and 90-day marks from the date of the allegation.

Florida Department of Corrections Procedure 602.053, *Prison Rape – Prevention, Detection, & Response* states inmate conduct, including a review of disciplinary reports, treatment by other staff and inmates, and changes in housing, program assignments, work assignments, and demeanor will be reviewed along with the period status checks. The facility shall respond appropriately to protect any other individual who cooperates with an investigation and expresses a fear of retaliation.

The Auditor conducted an interview with the Facility Staff Member designated with monitoring retaliation. The Staff Member acknowledged responsibility as the primary staff member designated with monitoring retaliation; however, there are other staff members and the PREA Compliance Manager who can monitor retaliation if either one of them were unavailable for an extended period.

The Staff Member articulated that in an effort to prevent retaliation against inmates and staff who report sexual abuse or harassment or those who cooperate with an investigation, the Staff Member would monitor those individuals for at least 90 days. The Staff Member reviews disciplinary reports, inmate housing or transfers, and negative performance reviews of staff members. If a concern that potential retaliation might occur beyond the 90 days, the Staff Member would continue to monitor conduct and treatment until the issue or threat is resolved.

During the on-site, the Auditor reviewed eight allegations of sexual abuse each file contained forms showing the retaliation monitoring interviews that were conducted with inmates who alleged sexual abuse. Each form provided a detailed explanation of the interview, statements from the inmate, and comments from the Staff Member. The monitoring interviews were conducted at the 30-, 60-, and 90-day review dates.

The Auditor conducted three targeted interviews with inmates who reported an allegation of sexual abuse and inquired to each inmate, if he feels protected against possible revenge from staff or inmates for reporting an incident of sexual abuse. Two of the three inmates interviewed acknowledged feeling safe within the facility as well as acknowledging reporting to staff if he ever felt unsafe. The third inmate

interviewed refused to discuss reporting an allegation of sexual abuse.

During the twelve months prior to the audit, the facility reported no incidents of retaliation. Therefore, inmates in this targeted category were not interviewed.

The Auditor conducted an interview with the Facility Warden and inquired on the different measures taken to protect inmates and staff from retaliation for reporting allegations of sexual abuse or sexual harassment. The Facility Warden confirmed the facility would take all necessary steps to protect any person who reports a sexual abuse / harassment incident from retaliation. Inmates are monitored at least every thirty days for 90 days or longer, as appropriate, following the PREA allegation. The Facility Warden explained that housing changes or transfers of inmates, disciplinary action against staff members – including possible dismissal – or other means of removal of those who retaliate against someone who reports an allegation.

The Auditor conducted an interview with the Agency Head and inquired how the agency protects inmates or staff from retaliation for sexual abuse or sexual harassment allegations. The Agency Head explained that facilities deploy numerous measures including housing, program, and work assignments changes. If warranted, an inmate may be transferred to another Department facility in order to protect him from retaliation. All inmates who report sexual abuse are monitored for retaliation for at least 90 days. Staff members are required to monitor the inmate with periodic status checks every 30 days to ensure they are not experiencing any additional problems. Inmates are also provided information for the local rape crisis center for emotional support services.

The Agency Head also explained that staff members might be afforded the ability to change posts to protect them from retaliation. They are also monitored for retaliation for at least 90 days following a report of sexual abuse or sexual harassment.

The Auditor inquired to the Agency Head if an individual cooperates with an investigation expresses a fear of retaliation, what measures does the agency take to protect that individual against retaliation. The Agency Head explained the same process previously described is utilized. If the individual is an inmate, he may be afforded a housing change or transfer to another Department facility. That inmate will also be subject to the 90-day monitoring. If the individual is a staff member, they may be provided the opportunity to change posts and will be subject to the 90-day monitoring.

The Auditor verified this information through a combination of staff interviews and review of sexual abuse and sexual harassment allegations. According to documentation provided to the Auditor, the inmate was held in involuntary segregated housing for a period of four days while pending transfer to another facility. Due to the inmate's transfer to another facility, inmates in this targeted category were not interviewed.</p> <p>The Auditor conducted an interview with a Facility Staff Member who supervises inmates in segregated housing. Staff Member articulated that inmate placed in Protective Management (placed in segregated housing for protection) do not have restrictions and retain the same privileges as inmates in general population housing, to include participating in programs, education, and work opportunities. The Facility Staff Member explained if an inmate has restrictions placed on him it would be a result of their behavior or actions, and such action (being placed on restrictions) would require documentation explaining what has been restricted, duration of restriction, and reasons for initiating the restriction.

During the on-site phase of the audit, the Auditor reviewed twelve investigative files, which included eight sexual abuse allegations. The Auditor did not find any other instances where inmates that alleged sexual abuse or sexual harassment were placed in involuntary segregated housing. Of the twelve investigative files reviewed, only one inmate was placed in involuntary segregated housing, as previously mentioned.

The Auditor conducted an interview with the Facility Warden regarding inmates who alleged sexual abuse. Inmates who have made an allegation of sexual abuse and have stated that they are in fear for their safety will be placed in segregated housing, either voluntarily or involuntarily, on a temporary basis until a review can be conducted to verify the extent of the danger. The incident is reviewed as soon as possible, and the inmate will be released from segregation as soon as it can be determined that the inmate is no longer in imminent danger, or as soon as alternative means of separation from an alleged abuser can be arranged.

Upon review of agency policy, Housing Preference forms, and upon completion of the interviews, Lake City C. F. demonstrated facility-wide practices that are consistent with policy and the requirements that complies with the PREA standard.

The Auditor reviewed twelve allegations of sexual abuse and sexual harassment and were selected based upon the Auditor's requirement to review the required steps and processes and to verify compliance with multiple PREA Standards.

The Auditor's review included eight sexual abuse allegations and four sexual harassment allegations. The sexual abuse allegations included three inmate-on-inmate allegations with all three investigations closed as unsubstantiated. The remaining five sexual abuse allegations were staff-on-inmate allegations with four investigations closed as unsubstantiated and one investigation pending with the Office of Inspector General. The four sexual harassment allegations included two inmate-on-inmate allegations both investigations closed as unsubstantiated and two staff-on-inmate allegations which were closed as unfounded.

The Auditor reviewed each investigation thoroughly and systematically to ensure each case contained all the correct procedures, completed documentation, and that all processes were completed as required. Each case reviewed by the Auditor, contained all documented reports for that specific incident, an inmate body chart, inmate notifications, a description of the physical and testimonial evidence, the reasoning behind credibility assessments and the investigative facts and findings. Additionally, each completed report included an assessment as to whether staff actions or a failure to act on the part of staff contributed to the abuse. The Auditor reviewed each case thoroughly and systematically to ensure each case contained all the correct procedures, completed documentation, and that all processes were completed as required.

Upon completion of reviewing the investigation files, the Auditor determined that the facility (to include but not limited to Investigators, Staff First Responders, Medical and Mental Health, PREA Compliance Manger, Supervisory Staff, etc.) followed the required steps and processes for all reported allegations. At the time of the Auditor's review, there were no cases referred for prosecution.

The Auditor conducted three targeted interviews with inmates who reported an allegation of sexual abuse and inquired to each inmate if the facility notified him of the final decisions made regarding the allegation and if such notification was in writing. One of the three inmates interviewed confirmed to the Auditor he was notified by staff of the case disposition. The Auditor verified the notification (and case status) while reviewing the investigative files and the inmate notification contained the date, case disposition, and inmate signature. The second inmate interviewed informed the Auditor his allegation was still pending. The third inmate interviewed refused to discuss reporting an allegation of sexual abuse.

The Auditor conducted an interview with the Investigator and inquired about the agency's notification procedures, to an alleged victim of sexual abuse, when the case is closed and whether the allegation has a final determination of substantiated, unsubstantiated, or unfounded. This review team shall consist of the Assistant Warden, Chief of Security, and Classification Supervisor.</p> <p>Florida Department of Corrections Procedure 602.053, <i>Prison Rape – Prevention, Detection, & Response</i> states the review team will also obtain input via reports from line supervisors, investigators, and medical or mental health practitioners. The Sexual Abuse Incident Review Committee shall meet to assess the adequacy of staffing levels in the area where the incident happened, consider whether the incident/ allegation was motivated by race, ethnicity, LGBTI identification, gang affiliation, or</p>

other group dynamics at the institution.

The committee shall also examine the area the incident allegedly occurred to assess whether physical barriers or obstructions in the area may have enabled abuse, assess whether monitoring technology should be deployed or augmented to supplement supervision by staff and on a monthly basis, prepare a report with recommendations for improvements and submit to the PREA Coordinator.

During the pre-on-site phase of the audit, the Auditor reviewed Sexual Abuse Incident Review/Facility Investigation Summary provided by the facility. The reports contained the required elements of the PREA standard to include:

- Consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse.
- Consider whether the incident or allegation was motivated by race, ethnicity, gender identity; LGBTI identification, status, or perceived status or gang affiliation; or was motivated or otherwise caused by other group dynamics.
- Examine the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse.
- Assess the adequacy of the staffing levels in that area during different shifts.
- Assess whether monitoring technology would be deployed or augmented to supplement supervision by staff; and
- Prepare a report of its finding including, but not necessarily limited to, determinations made pursuant to the above considerations and any recommendations for improvement.

The review was completed in its entirety, within the required time limits, and signed by the Chief of Security, Facility Warden, and the PREA Compliance Manager (Assistant Warden of Programs).

During the on-site phase of the audit, the Auditor reviewed eight sexual abuse investigations which included seven unsubstantiated allegations and one allegation that was pending a final disposition. During the Auditor's review of each closed investigation, a sexual abuse incident review was completed for each investigation, excluding the unfounded and pending investigations, and all sexual abuse incident reviews were completed within the required 30 days.

The Auditor conducted an interview with an Incident Review Team member and inquired if the Sexual Abuse Incident Review (SAIR) Team considers whether an

incident or allegation was motivated by race, ethnicity, or gender identity and if the SAIR Team examines the area in the facility where the incident allegedly occurred. The Incident Review Team member confirmed the SAIR Team does consider whether the incident was motivated by race, ethnicity, or gender identity, and gang affiliation. The SAIR Team also tours the area where the alleged incident occurred as well as consider if additional monitoring technology should be deployed or augmented to supplement supervision by staff. The Incident Review Team member explained how touring the area in conjunction with reviewing monitoring technology provides the team with the best possible representation of an incident and assists the SAIR Team in determining if changes or additions to monitoring technology is warranted.

The Auditor conducted an interview with the Facility Warden and discussed the Sexual Abuse Incident Review (SAIR) process. The Facility Warden explained the SAIR Team includes the PREA Compliance Manager (Assistant Warden of Programs), Chief of Security, at least one Classification Supervisor, and the Facility Warden. The SAIR Team always seeks input from Investigators, Line Staff, and Medical and Mental Health personnel.
