RAJESH KUMAR ■ NEW DELHI

¬he month long Delhi Assembly poll campaign turned into AAP freebies vs BJP freebies vs Congress freebies as the high-voltage campaigning ended at 5 PM on Monday with top leaders from major political parties including Prime Minister Narendra Modi, Home Minister Amit Shah, former Delhi CM Arvind Kejriwal, Congress leaders Rahul Gandhi and Priyanka Gandhi traded fierce jabs.

They accused each other of corruption and failing the city's residents. The fiercely contested electoral battle has been defined by an unprecedented use of Artificial Intelligence (AI)-generated spoofs, sharp political jibes with big guns from all three major parties holding roadshows, public meetings, padayatras and bike rallies in a final push to sway voters.

As the campaign ended on Monday evening, AAP and BJP have claimed to form the next government with Kejriwal predicting to win 55 for sure which can go up to 60. Addressing a press conference alongwith all BJP MPs from Delhi, Union minister Piyush Goyal claimed that the BJP is headed for a massive poll victory in Delhi, similar to what happened

Monday. On the last day of campaigning, Prime Minister Narendra Modi lambasted the AAP government in

Interestingly,

recently in Maharashtra and Haryana. Delhi saying it was promoting only While the AAP branded the BJP as those students to Class 10 who were the "Bharatiya Jhootha Party" (party guaranteed to clear the board of liars) and "Gali Galoch Party" examination to guard its image. "I have heard that in Delhi they do not (abusive party), Prime Minister Narendra Modi referred to the AAP promote students to Class 10 if they as "AAP-Daa" (disaster) and its leader perform poorly in Class 9," Modi said in an interaction with a group of Kejriwal as "Ghoshna Mantri" (minister of announcements). students. "They only allow those Congress, attempting to regain relevance, has called Kejriwal students in Class 10 who are relevance, has called Kejriwal "Farziwal" (Fake) and a "Chhota guaranteed to clear the exam. They fear that if the results are poor, the Recharge" (small recharge) of Modi. image of their government will be tarnished," the PM said in the Kejriwal also slammed the Election interaction, a short video of which Commission, accusing it of favouring was shared by BJP leaders on

social media. Congress, seeking a revival after failing to win any seats in the last two elections, also intensified its efforts. Rahul Gandhi and Priyanka Gandhi held separate roadshows in Kalkaji and

Kasturba Nagar, aiming to regain the party's lost foothold in the capital. BJP has changed its strategy from 2020 and is no longer calling the AAP's freebies as 'revadis' - in fact, it is promising to continue them. Whose face will attract votes? Will people trust Kejriwal again or is the vote this time in the name of Narendra Modi, who is asking people for one chance in Delhi?

BJP campaign got a last-minute boost with Centre's Annual budget announcement. The party was quick to come up with advertisements claiming it was Modi's gift for Delhi. This major announcement became a talking point not just in Delhi but even across the country as it impacts the large pool of salaried households. Around 45 percent middle class voters, a key support base of Modi, has traditionally been a stronghold of the BJP during the Lok Sabha polls, but recently, it felt overlooked as the party has focused on other vote banks.

Traditionally, this vote bank has largely split between the BJP and AAP, but this time on the ground, the feedback is that the middle class could consolidate for the BJP after the announcement of income tax exemptions for up to Rs 12 lakh. The 8th Pay Commission announcement is another positive for the BJP, as a large number of government employees are based in Delhi as

There are 20 percent Dalit vote in the capital, which is primarily based in the jhuggis and clusters and it has been seen favourably towards the AAP, but may see a split now. If the jhuggi voters and Muslims remain fully behind the AAP, it could win big

with 50+ seats. But if there is a split in the jhuggi voters and the middle class consolidates behind the BJP, there could be a repeat of Haryana and Maharashtra results in Delhi.

Voters residing in jhuggi-jhopdi (JJ) clusters have been backing the AAP for the past two elections. These voters are largely poor and the beneficiaries of free bijli-paani, free bus travel for women, mohalla clinics and more. BJP has focused on the slums and jhuggis clusters promising them of a pucca house to everyone in the jhuggis, and the promise to continue free water and power, is what is giving BJP a look-in here. The BJP strongly feels that there will be a split in the 20% Dalit vote this time, which primarily lives in the jhuggis, and this will hurt the AAP badly. Overall, the AAP and BJP are in a neck-and-neck battle here.

The second big factor in Delhi is the 13 percent Muslim vote, and at least 10-12 seats in Delhi where Muslim voters are pre-dominant. For over a decade now, the Muslims have consolidated in Delhi behind the AAP, bringing the party big victories. The BJP's chances in Delhi would have greatly improved if the Muslim votes had split between the AAP, Congress and Asaduddin Owaisi's AIMIM.

Rupee all time low

PIONEER NEWS SERVICE

The Rupee plunged 55 paise to close at an all-time low of 87.17 time low (provisional) against the US Dollar on Monday, as global market sentiments impacted after the Trump administration slapped tariffs on Canada, Mexico and China. Forex traders said the Indian rupee touched a fresh all-time low on a surge in the US Dollar index and weak global markets after Trump Tariffs on Canada Mexico, and China triggered fears of a broad trade war. Donald Trump slapped Canada and Mexico with 25 per cent duties and China with a 10 per cent duty. At the interbank foreign

exchange, the Rupee opened on a weak note at 87.00 and touched an intraday low of 87.29 against the American currency during the session. The local unit finally settled at a record closing low of 87.17 (provisional), lower by 55 paise over its previous close. On Friday, the rupee settled flat at 86.62 against the American currency.

"We expect the rupee to trade with negative bias on strong US Dollar and FII

outflows amid a weak trend in the domestic markets. Worries over tariffs by the US administration may also pressurise the rupee," said Anuj Choudhary - Research Analyst at Mirae Asset Sharekhan. However, any central bank intervention may support the rupee. Traders may take cues from ISM manufacturing PMI data from the US. Investors may remain cautious ahead of the RBI's monetary policy meeting this Choudhary added.

Meanwhile, the Dollar index, which gauges the greenback's strength against a basket of six currencies, was trading 1.01 per cent higher at 109.46. Brent crude, the global oil benchmark, rose 1.41 per cent to USD 76.74 per barrel in futures trade.

GRAP III revoked

STAFF REPORTER ■ NEW DELHI

The Commission for Air Quality Management Management (CAQM) Monday (February 3) lifted Stage III of the Graded Response Action Plan (GRAP) across Delhi-NCR, effective immediately However, measures under GRAP Stage I and II will remain in place to control a statement from the CAQM. The use of BS-III petrol and BS-IV diesel cars (4-wheelers) has been allowed in Delhi and nearby NCR districts after this order.

WEATHER

Stage III of GRAP had been implemented in Delhi on January 31, after a significant deterioration in air quality due to calm winds and smog, which caused the Air Quality Index (AQI) to spike to 365. "Delhi's average AQI has significantly improved as the AQI of the day clocked 286 today as per the AQI Bulletin provided by the Central Pollution Control Board (CPCB), clearly indicating a downward trend.

be stable. Omar Chief Minister Abdullah reacted strongly to the heinous act of violence. "Deeply saddened by the tragic killing of ex-serviceman Manzoor Ahmad Wagay Sahab in Kulgam. My heartfelt condolences to his family, and prayers for the swift recovery of his injured wife and daughter. Such heinous violence has no place in our society and must be condemned in the strongest terms. May peace and justice prevail" the Office of Chief Minister said in a post on X (earlier Twitter).

According to local reports, the terrorists struck around 2.00 p.m. in the thickly populated area of Behibagh and managed to flee from the spot without facing any resistance.

Leader of Opposition in Lok Sabha Rahul Gandhi on Monday created a flutter by raking up the issue of Prime Minister Narendra Modi 'not being invited for coronation of US President Donald Trump last month to which the External Affairs Minister S aishankar dismissed as false and accused the Congress of harming India's

global image. Jaishankar asserted that no discussion about an invitation to Prime Minister Modi ever took place and pointed out that the Prime Minister does not attend such events. Union Minister for Parliamentary Affairs Kiren Rijiju too strongly objected to the remarks. "It is common knowledge that our PM does not attend such events. In fact, India is generally represented by Special Envoys," he clarified. Jaishankar represented India at Donald Trump's inauguration on January 20. He was seated in the first row during the

BJP moves Privilege against Sonia

PIONEER NEWS SERVICE **NEW DELHI**

Bharatiya Janata Party (BJP) MPs on Monday moved a privilege motion against Rajya Sabha MP Sonia Gandhi over her "poor thing" President remark on Droupadi Murmu.

"We write this with great dismay about certain unparliamentary, derogatory and demeaning remarks and demeaning remarks recently made by Smt. Sonia Member Gandhi, Parliament, Rajya Sabha, against the Hon'ble President of India, which warrant serious consideration and disciplinary action," the MPs

chairman. The MPs alleged that the statement was a "clear manifestation of elitist and

anti-tribal mindset of" Sonia Gandhi, who they claimed "is vet to understand the struggle and sensitivity of a tribal poor."

"Given the gravity of this issue, we humbly urge you to take cognizance of this matter initiate appropriate and disciplinary action against Smt. Sonia Gandhi," the MPs said.

"Such action is imperative not only to uphold the sanctity of parliamentary rules but also to reinforce the principles of decorum and mutual respect that are foundational to the effective functioning of our democratic institutions.

not have had to send Foreign Minister S Jaishankar to the US to get an invitation for Prime Minister Narendra Modi for Donald Trump's swearing-in

ceremony. "When we talk to the United States, we would not send the Foreign Minister three-four times to get an invite for our Prime Minister because if we had a production system and technologies, the US President would come here and invite the Prime Minister," said Rahul.

Rijiju said the LoP cannot make such serious, unsubstantiated statements. This is about the relationship between two countries. He is making unverified statements about the invitation of our Prime Minister. He should be responsible. If the Leader of the Opposition Opposition has the information, he must tell the House who has told him that the Foreign Minister visited for this purpose," Rijiju said.

Replying to him, Rahul Gandhi said he would apologise for disturbing the Parliamentary Affairs Minister peace of mind but the Congress leader continued with another his jab raking up the China issue and said that the Indian Army contradicted Prime Minister Narendra Modi's claims about Chinese army intrusion in Ladakh.

India's Chandrika Tandon shines at Grammys with 'Triveni'

ABHI SINGHAL ■ NEW DELHI

Under the dazzling glow of stage lights and the thunderous applause of a global audience Chandrika Krishnamurthy Tandon at the age of 71, made India proud with her first Grammy award for the album 'Triveni' in the Best New Age, Ambient or Chant Album category. The Grammy Awards organised by the Recording Academy, and was held at the Crypto.Com Arena in Los Angeles on late Sunday.

Tandon, an Indian-American vocalist and entrepreneur was earlier also nominated for her album 'Soul Call' in 2009. Her now won work 'Triveni' is a collaborative work with South African flautist Wouter Kellerman and Japanese cellist Eru Matsumoto.

As the music industry's most

honour, prestigious Grammys have long been a platform where legends are born, history is made, and emotions run high. While receiving the award alongside her collaborators, Chandrika Tandon said, ""Music is love, music is light, and music is laughter and let's all be surrounded by love, light, and laughter. Thank you for the music, and thank you to everyone who makes music. Triveni, her album, reflects the essence of its name that symbolises the confluence of Índia's sacred rivers Ganga, Yamuna, and Saraswati. It brings together three globally singer-composer Sonu Tandon, Grammy-winning flautist Wouter Kellerman, Japanese guitarist Matsumoto.

Terror Strikes Again in Amritsar: Police **Checkpoint Targeted in Latest Blast**

MONIKA MALIK CHANDIGARH

n a shocking act of terror, In a shocking act.

Punjab has once again become the target of a violent grenade blast — this time striking a police checkpoint in Fatehgarh Churian, located near the busy Amritsar bypass.
The attack, which occurred
on Monday evening, marked
the 11th bomb blast in the state in recent months targeting police establishments, fueling growing concerns about the alarming rise of terrorist activities in the region. This brazen assault took place at a time when the Punjab Director General of Police (DGP) Gaurav Yadav was on a crucial tour of Pathankot district to review security measures along the state's volatile border dis-

The explosion, which could have resulted in devastating casualties, fortunately caused no injuries. Early reports suggested that two militants on a motorcycle launched a grenade at the police post before fleeing the scene. The explosion sent shockwaves across the region, triggering panic among locals.

The grenade, reportedly hurled from a bridge above, exploded inside the post, further adding to the tower Police ther adding to the terror. Police

police officers, frightened by the attack, locked the police post and fled the spot. Authorities have yet to issue any statement on the incident.

With no group claiming responsibility as of now, authorities are left grappling with the possibility of foreignbacked terrorists orchestrating this attack. Security concerns have been heightened in the area following the blast. A large number of police personnel, including senior offi-cers, later arrived at the site to investigate the matter. Forensic teams are conducting a thorough examination of the area, but authorities have remained tight-lipped, neither confirming nor denying suspicions about the nature of the attack.

Investigation agencies suspected that the attack may have been carried out by associates of Khalistani terrorist Happy Passia, also known as Jeevan Fauji, who is based abroad. This group has been behind several similar attacks on police posts and stations in Punjab, and recent arrests by Punjab Police have linked several of their associates to previous bombings.

The incident occurred amid escalating tensions in Punjab, where multiple terrorist attacks have taken place in the last few months. Experts believed that these attacks are orchestrated by groups operating from across the border, with support from foreignbased operatives. There are also growing fears that these attacks could be part of a larger strategy to destabilize the region and ignite communal

Recent Terrorist Attacks in Punjab

This latest explosion added to a worrying pattern of attacks targeting police stations across the state. In recent months, Punjab has been rocked by a series of grenade explosions and bombings, including incidents at police stations in Amritsar, Gurdaspur, and

On November 24, RDX was found planted near Ajnala police station, though it did not explode. On November 27, a grenade attack took place at a closed police station in Gurbakhsh Nagar. On December 2, a grenade blast occurred at Kathgarh police

arrested. On December 4, a grenade explosion was report ed at Majitha police station, but the police initially dismissed it as a non-terrorist incident. On December 13, a grenade blast rocked Aliwal Batalia police station, with the responsibility claimed by Pak-based terrorist

Happy Passian.

On December 17, the Islamabad police station was attacked with a grenade, which was confirmed by Punjab DGP as a terrorist incident. On January 19, a blast occurred at the Gumatala police station in Amritsar, claimed by Babbbar Khalsa International

This growing wave of terrorist activity is worrying authorities, with intelligence reports pointing to increased cross-border infiltration by militants. The use of drones to drop weapons and explosives is a rising concern, further complicating security operations along Punjab's border.

In response to the attacks, Punjab Police have stepped up surveillance, with increased security measures being implemented across key areas. The State Government has emphasized the importance of coordination between state and central agencies to tackle the terrorist-gangster nexus believed to be behind many of these attacks.

Pb Secures Rs 88k-cr Investment under AAP Govt: Minister

PNS CHANDIGARH

n a major boost to Punjab's industrial sector, the state's Industry Land Commerce Minister Tarunpreet Singh Sond on Monday announced that the state has attracted investments worth Rs 88,014 crore since March 2022.

The investments, spanning multiple industries, are expected to create over four lakh jobs, reinforcing Punjab's position as a business-friendly destination. "Punjab is emerging as an industrial powerhouse. Our industry-friendly policies have attracted both national and international investors, making the state a preferred hub for business expansion," said Sond while inviting more industrialists to set up their ventures in Punjab.

He informed that Punjab has received a total of 5,574 investment proposals since the formation of the AAP-led government, reflecting the growing confidence of investors in the state's poli-

CM Saini hails Centre Govt for allocation of Rs 3416 crore to strengthen rail infrastructure in Hry

Pb DGP Calls for United Action **Against ISI-Backed Network**

CHANDIGARH/PATHANKOT

Punjab Director General of Police (DGP) Gaurav Yadav on Monday issued a strong statement highlighting the growing nexus between gangsters, drug smugglers, and terrorists, stating that these elements are now working together under the directives of Pakistan's intelligence agency, ISI. The DGP emphasized that a joint effort by Punjab Police, the Border Security Force (BSF), and the Indian Army is crucial to counteract this rising threat. "There is no difference between gangsters, smugglers, and terrorists anymore. They have come together and are working for ISI. All forces need to work in unison to neutralize these threats," said DGP Yadav while addressing security personnel at Narot Jaimal Singh, a border town in Punjab.

The state police chief's statement comes at a time when Punjab has witnessed an increase in drone infiltrations, arms smuggling, and narco-terror activities along its border with Pakistan. To strengthen surveillance and control over such illegal activities, Punjab DGP announced a compre-

hensive security upgrade, including the installation of thousands of CCTV cameras in sensitive locations.

2300 CCTVs to Be

Installed Across Border Districts

As part of its efforts to fortify Punjab's security infrastructure, the Punjab Police will install 2,300 high-definition CCTV cameras at 703 strategic locations across all border districts, including Pathankot, Gurdaspur, Amritsar, Tarn Taran, Ferozepur, and Fazilka. 'We are strengthening our second line of defence by deploying advanced surveillance technology. A total of 2,300 CCTV

cameras will be installed at 703 key points in the border belt, with an investment of Rs 45 crore," said DGP Yadav. These surveillance systems

will be integrated with Punjab Police's Central Control System, allowing real-time monitoring of suspicious activities. Special Auto Number Plate Recognition (ANPR) cameras will also be deployed to track vehicles entering and exiting border areas.

Cyber Crime Police Station inaugurated in During his visit to Pathankot, DGP Yadav inaugurated a state-of-the-art Cyber Crime Police Station at Police Station Division-1.

This facility is equipped with advanced digital forensic tools to handle cyber frauds, online scams, and digital terrorism cases. "Citizens can now report cybercrimes directly at the station or through the toll-free helpline 1930. Our goal is to enhance digital security and provide swift responses to cyber-related complaints," the DGP said.

Additionally, the Police Command and Control Centre in Pathankot has been upgraded with 344 new high-resolution cameras, including nightvision and drone-detection systems, to monitor security threats in real time. Another 357 cameras will soon be added to strengthen these arrangements further

Joint Meeting with Army and BSF

DGP Yadav also chaired a high-level joint meeting with officials from Punjab Police, the Indian Army, and the BSF. He emphasized the urgent need for intelligence-sharing and coordinated operations to combat "The cross-border threats.

growing nexus of terrorists, gangsters, and smugglers is a serious concern. We need seamless coordination between Punjab Police, the Army, BSF, and central agencies to dismantle these networks," he said. At the same time, he lauded the efforts of security forces in tackling drone infiltrations and weapon smuggling, while urging the personnel to remain vigilant.

Security Forces Honoured Excellence In recognition of their

exceptional service, the DGP honoured 30 Punjab Police officers with Commendation Discs, while 11 officers received appreciation letters. Three BSF personnel were also felicitated for their dedication to securing Punjab's borders.

To boost morale, DGP Yadav attended a 'Bada Khana a special communal meal organized by the Pathankot Police — where he interacted with officers and personnel from different ranks. Later, he visited Shaheed Kamaljeet Singh Border Outpost (BOP) along the Indo-Pak border to assess security arrangements and discuss future countermeasures with BSF officials.

2 Wanted criminals of Neeraj Pandit gang killed in encounter in Haryana

PNS PALWAL

The Crime Investigation Agency (CIA) of Palwal police shot dead two criminals in an encounter that took place in the district on Sunday night. Both the accused, who hailed from Rewari district, carried a bounty of Rs 1 lakh each. Lauding the CIA team, Superintendent of Police (SP) Palwal Chandra Mohan told Reporters that there is no place for criminals in this district — whether the criminals leave the crime or the district. The slain criminals were

identified as Zorawar (27) and Neeraj (30), the residents of Rewari district, police said. Two people, including a sarpanch, were shot in the attack. After firing, the miscreants fled from the spot in a car and police are seeking their arrest, police said. The encounter took place near Lalwa village on the Palwal-Nuh road around 11 pm on Sunday when the CIA team, led by İnspector Deepak Gulia, put up a barricade after getting information that these crimi-

nals had been present in the area," said a senior police officer. When the police signaled to stop the criminals who were in a car, they opened fire on the CIA team which hit the bulletproof jackets worn by three policemen and they narrowly escaped, he added. The officer said that the police team in retaliation gave a warning and opened fire in self-defense and both the miscreants got injured after getting bullet shots. They were rushed to the hospital where doctors declared them dead, he added. Two countrymade pistols, three live cartridges used by the miscreants in the crime and the car used in the crime on January 19 have also been recovered, said

"Both the deceased criminals were from Rewari district and have been involved in many serious incidents like murder and deadly attack. It has also come to light that both the criminals belong to the Neeraj Pandit gang and are convicted in a murder case, Palwal DSP (Crime) Manoj Verma told Reporters.

Haryana to immediately clear pending claims under Ayushman Bharat Yojana: Govt

PNS CHANDIGARH

The Chief Principal Secretary to the Haryana Chief Minister, Rajesh Khullar and representatives of the Indian Medical Association (IMA) on Monday held a meeting in which an assurance was given that the demands put forth by the IMA will be fulfilled. Under this, all applications received for claims under the Ayushman Bharat Yojana till March 10 will be paid by March 31. For this, an adequate amount will be approved for the department in the revised budget. Apart from this, a budget of Rs 2500 crore will be provided for settlement and timely payment of claims under the Ayushman Bharat Yojana for the next year.

Sangeeta Tetarwal, Chief Executive Officer of Ayushman Bharat Haryana Health Protection Authority, said that Rs 195 crore has been paid for the claim applications received from January 1 till now. The remaining pending claims will be paid in February. Apart from this, the claim applications received till March 10 will be settled by March 31, 2025.

She said the process of the meeting. It was decided in the meeting that the claims related to medicine and pediatrics will be processed by a ing.

special team of specialized doctors. Apart from this, information about suspicious cases that come to light through Artificial Intelligence will be shared with hospitals as soon She said if the claim

amount has been reduced for any reason, then the hospital will give detailed information about the reasons for that reduction. Doctors will be retrained to inspect the claim, so that the payment of the claim can be ensured in a timely manner and unnecessary deductions are not made. It was also discussed in the meeting that if the patient is not willing to get treatment under the Ayushman Bharat Yojana, then he will be given the option to get treatment at his own expense.It was also decided in the meeting that the process of appeal for the claim will be further strengthened. Hospitals will also be given the option to file a second appeal. Strict instructions have been given to the concerned officials to pay the claim amount within the stipulated time limit.

HP Govt secures Rs. 903.21 from NABARD: CM Sukhu

PNS SHIMLA

 $H^{imachal}$ Chief Minister Sukhvinder Singh Sukhu on Monday chaired the meeting with MLAs from Kangra, Kullu and Kinnaur districts to discuss their priorities for the annual budget 2025-26.

He informed that the state government had secured approval for 127 projects worth Rs. 903.21 crore from NABARD for the year 2024-25. These projects include 50 MLA-priority schemes under the Public Works Department worth Rs. 412.75 crore and 23 MLA-priority schemes under the Jal Shakti Vibhag amounting to Rs. 179.07 crore. These schemes include two major initiatives of the state including establishment of a 1.5 LLPD capacity dairy processing plant at Dagwar in Kangra district and 96 electric bus charging stations.

Sukhu assured that efforts were being made to secure approval for more MLA-priority projects from NABARD by March, 2025. Apart from this, the government has allocated Rs. 1087.77 crore under the Rural Infrastructure Development Fund (RIDF) for 2024-25, with 5.28 percent increase as compared to previous year. He said that the state government was working with the motto of 'Vyavastha Parivartan' for the overall and inclusive development of the state. He said that significant decisions had been taken over the past two years in the sectors like education, healthcare, self-employment, tourism, infrastructure, agriculture, horticulture, industry

and women and child devel-

opment. He reiterated that the present state government was dedicated to ensuring rapid and sustainable progress of all sections of the society. The government has increased the daily wages of the MNREGA workers from Rs. 240 to Rs. 300 benefitting over thousand's of the workers.

In the next three years, the state government would introduce various schemes for strengthening the rural economy which would also generate employment opportunities for the local youth. Efforts were also being made to boost tourism in the state, with a special focus on religious and tea tourism. He said that the tea tourism model of West Bengal would also be studied for possible implementation in Himachal Pradesh. He said that the government was working to root-out the drug mafia from the state and assured that stricter measures would be enforced in the near future.

CM launches registration form for natur-

al farming
Sukhu also launched a simplified registration form to enroll farmers in natural farming in the State during MLAs priorities meeting and said that it could be filled online or offline by the farmers.He said interested farmers could now connect with natural farming easily by filling up this form. The registration forms, which will generate specific information about the land, crops grown, breed of animals kept by the farmers and some other details regarding training in natural farming, will be distributed amongst farmers in all the Panchayats in

Punjab ignored in budget announced: Rana Gurjeet Singh

Kapurthala: MLA Rana Gurjeet Singh said that the budget for the financial year 2025-26 has completely ignored Punjab which is a cause of disappointment for the people of the state. In a statement, he said the Aam Aadmi Party (AAP) government in Punjab also failed to pursue its case to convince the Government of India that Punjab is a border state and it should be given special benefits and treated as a special case, said the

AI-driven screening colonoscopy enhances polyp

detection rate, finds study

Mohali: On the occasion of World Cancer Day, Fortis Hospital, Mohali unveiled a study that revealed AÍ-assisted colonoscopy significantly enhances polyp (a projecting growth of tissue) detection, outperforming high-definition white light colonoscopy. The findings underscore the critical role of AI in early cancer prevention, with a notably higher detection rate of 55.1% compared to 27.3% using conventional methods. The study, which examined the screening results collected from 501 patients between November 2022 and December 2024, also highlights the importance of screening asymptomatic patients, as nearly half were found to have polyps, enabling early removal and reducing cancer risk. AI proved especially effective in highrisk individuals with a family history of cancer. These results reinforce Al's potential in revolutionizing colorectal cancer screening, ensuring timely intervention and improved patient

No mining or water exploitation in Ramalwas village of Charkhi Dadri: Minister

Chandigarh: Haryana Mines and Geology Minister Krishan Lal Panwar on Monday said that currently, no mining activities or water exploitation are taking place in Ramalwas village, in the Charkhi Dadri district. He further said that instructions have been issued to the concerned officials to prioritize and address any issues raised by the local villagers without delay. The Minister assured that villagers can directly communicate with him or department officials at any time regarding their concerns, and these issues will be resolved promptly. The Minister said that villagers have been protesting for several days at the closed mine in Ramalwas village. They had complained that the mine owner was conducting illegal mining activities and exploiting water resources, which led to a decrease in the groundwater level in the area.

Working women to get Sakhi Niwas in Hry; Day care facility for children too

Chandigarh: To improve facilities for working women, the Haryana government is set to construct women's hostels in Faridabad Sector-78 and Gurugram Sector-9 under the Sakhi Niwas Yojana. This initiative aims to address the accommodation needs of working women by providing them with safe and convenient housing options at Sakhi Niwas. Haryana Mahila Vikas Nigam is currently preparing an action plan for the project. Women residing in Sakhi Niwas will have access to a range of facilities, including daycare services. They will also be able to bring their children with them. The accommodation facility will be available for boys up to 12 years old and girls up to 18 years old. The scheme will benefit all types of working women, including unmarried, married, and divorced individuals. Special priority will be given to women from underprivileged backgrounds and those with physical dis-

Quest for clean energy

With a strong financial backing, the country is poised to make nuclear power a cornerstone of its energy mix

s India continues its journey toward energy transition and sustainability, the role of nuclear power has become increasingly vital. The Union Budget 2025-26, of nuclear power has become increasingly vital. The Silich Segment of nuclear power has become increasingly vital. The Silich Segment of nuclear power has been selected by Finance Minister Nirmala Sitharaman, earmarked Rs 20,000 crore for the Nuclear Energy Mission, aiming to significantly enhance India's nuclear energy capacity. This ambitious initiative is set to propel India towards achieving at least 100 GW of nuclear energy capacity by 2047, a significant leap from the current 8 GW. Presently, nuclear energy constitutes less than 2 per cent of India's total energy mix. With an installed capacity of 8 GW, India's nuclear sector lags behind other energy sources, such as coal, solar and wind. The Modi government is prioritising nuclear power as a stable and clean energy source. The July 2024 Budget had already set the stage for nuclear expansion by highlighting the need to amend the Atomic Energy Act of 1962 to allow private sector participation in nuclear power generation. The 2025-

26 Budget builds upon this foundation by reinforcing the push for small modular reactors (SMRs). India's ambitious renewable energy targets include achieving 500 GW of non-fossil fuel energy capacity by 2030. While solar and wind energy play a crucial role in this mix, they are subject to weather conditions and require large-scale energy storage solutions. Nuclear energy, on the other hand, provides continuous, low-carbon power without the intermittency issues of renewables. SMRs, with a capacity of up to 300 MW, offer distinct advantages over conventional nuclear reactors. Their modular design allows for quicker assembly, reduced costs and

enhanced safety features. By promoting indigenously developed SMRs, India aims to increase its self-reliance in nuclear technology and reduce dependency on foreign nations. The allocation of Rs 20,000 crore under the Nuclear Energy Mission signals a clear intent to boost nuclear power generation. This funding will support research and development in indigenous nuclear technologies, particularly SMRs. Infrastructure development will be a key focus, with plans to set up at least five SMRs by 2033 as part of a long-term nuclear expansion plan. Despite its benefits, nuclear energy in India faces several challenges. Regulatory barriers exist due to the Atomic Energy Act and the Civil Liability for Nuclear Damage Act, which currently limit private sector involvement and require amendments. Public concerns on safety remain a significant issue, as nuclear accidents worldwide have created scepticism, necessitating stringent safety protocols. Technological monopolies present another challenge, as nuclear technology is concentrated among a few global players, making domestic capacity-building initiatives essential. But a push for nuclear energy is the need of the hours. It will reduce country's carbon footprint, enhance energy security, and meet its growing electricity demands sustainably.

Budget 2025: A game changer

for MSMEs and startups

With focus on financial accessibility, technology and market linkages, the budget will strengthen India's startup ecosystem and boost employment

icro, Small and M e d i u m (MSMEs) are the backbone of India's economic structure, contributing nearly 30 per cent to GDP, 45 per cent to our exports and generating employment for over 200 millions. The budget for 2025-26 holds much promise for the 5.7 crore MSMEs in India. As India chases its 'Viksit Bharat' dream, Agriculture, the MSME sector, Investment and Exports have been identified as the key engines for driving growth. MSMEs account for about 27 per cent of India's Gross Domestic Product (GDP), positioning themselves as the backbone of economic activity and growth.

Ranging from small-scale artisans and local service providers to growing businesses across rural and urban India, MSMEs are diverse and significantly contribute to industrial output and innovation in India. In line with the government's recognition of MSMEs as the 'second engine' of economic expansion, the 2025-26 Budget introduces key reforms to enhance financial accessibility, technological adoption, and market linkages. A notable step was the enhancement of the credit guarantee cover for MSMEs from Rs 5 crores to Rs 10 crores, leading to additional credit of Rs 1.5 lakh crore over the next 5 years. By enhancing the investment and turnover limits, the 20.09 million registered MSMEs (19.4 million micro-enterprises, 5,54,000 small enterprises and 52,000 medium enterprises) now have greater and easier access to capital for technological upgradation and to build

Traditionally, MSMEs have battled limited access to affordable and timely credit, inadequate infrastructure, and complex regulations. The increased guarantee cover addresses one of the major pain points for MSMEs and start-ups while the budget's continued emphasis on skilling comises an ongoing supply of skilled labour.

As of January 2025, India has over 159,000 recognised startups, securing its place as the world-class toys while pro-

ecosystem. The special funding options for start-ups and first-time entrepreneurs in the budget are likely to encourage more individuals to start businesses, innovate and generate employment. In this regard, to additional Rs 10,000 crore Fund of Funds Scheme (FFS) and the proposed Deep Tech Fund will provide crucial capital for startups, particularly in AI, Climate Tech, and Agri Tech. Enhanced MSME support and policies will improve the ease of doing business and further accelerate growth for future entrepreneurs.

The new simplified taxation and regulatory framework will attract private capital, which in turn will further accelerate growth. Many MSMEs are labour-intensive. Key industries like leather, and textiles are major employment generators. The focus on improving productivity and quality of the leather industry goods Government through schemes that support design, machinery etc will positively impact the sector's export potential and generate employment too.

With the Government's aim to make India a global hub for toys, MSMEs can consid er setting up units in identified clusters to create an ecosystem that manufactures

AND DEVELOPMENT

moting Indian toy makers, who can perhaps use the infrastructure in these clusters to explore overseas markets. Food processing is another sector that has received attention in the budget and which can make the MSME sector in our country more robust. It gives our farmers an opportunity to sell their produce, gives businesses an opportunity to add value and also generates employment in the northeast region which needs more economic opportunities.

The direct tax benefits provided in the Budget will bolster consumption-led demand through enhanced disposable incomes in the hands of taxpayers. This will further give impetus to MSME production and enhance their overall growth development. Agriculture is the backbone

of the Indian economy and has rightfully received attention in the budget. Most of our farmers hold

small and medium land areas and come under the MSME category. By focusing on 100 districts with low productivity, moderate crop intensity and below-average credit parameters, the farming output will get a boost.

Missions promoting pulse cultivation, and fruit and vegetable cultivation are bound to improve agricultural practices, infrastructure,

employment opportunities, access to credit and promote the food processing industry. It will also help develop the backward areas of rural India and curtail urban migration significantly. The substantial increase in credit through Kisan credit cards is also commendable.

India's traditional textiles have received a lift with the mission to improve cotton production using sustainable practices and technological support. Not just cotton farmers, but the Indian textile industry has a chance to reclaim its past glory, especially with the political upheaval in neighbouring Bangladesh pushing textile units there into a tailspin. The proposal to transform India Post into a large supply chain across rural India will link up rural artisans to entrepreneurs and markets. While these measures could significantly enhance the growth trajectory of MSMEs and startups, solidifying their role as key drivers of the Indian economy, the need for

The human touch in AI: Why we anthropomorphise machines

DHARMAPALAN

As AI continues to evolve, it is crucial to maintain clear boundaries between machine intelligence and human cognition

n an era increasingly defined by artificial intel-**▲**ligence (AI), a curious psychological phenomenon has emerged—humans are anthropomorphising AI tools. From virtual assistants like Siri and Alexa to large language models like ChatGPT, people often ascribe humanlike emotions, intentions and even personalities to these systems. While this tendency may seem benign or even endearing, it has profound implications for society, ethics, and the way we perceive technology.

By giving AI tools human-like names, voices and personalities, developers create a sense of familiarity and comfort. For instance, when Alexa responds with a cheerful "Hello!" or when ChatGPT uses conversational language to explain complex topics, users are more likely to feel at ease. This human-like interaction fosters trust, making people more willing to rely on AI for tasks ranging from scheduling appointments to providing emotional support. A lot of evidence points to psychological causes for this behaviour. As a species, we have an innate propensity to

attribute human characteristics to things that do not exist. Even inanimate things, like animals and objects, can have feelings and purposes.

The advent of AI has amplified this tendency to an unprecedented degree by creating tools that can engage in decision-making, interactive communication and natural language processing in ways that are reminiscent of humans. Incorporating human-like characteristics into AI systems takes advantage of this natural propensity, making them appear more relatable and trustworthy.

While the benefits of anthropomorphising AI are evident, the practice is not without its pitfalls. When AI tools are designed to mimic human behaviour too closely, users ing with a machine. This blurring of lines can lead to over-reliance, misplaced trust, and even exploitation. For instance, a user might confide deeply personal information to a chatbot, unaware that their data could be stored, analysed, or misused. Deploying AI tools in delicate

situations raises even more serious ethical concerns. Take into account the application of AI in counselling and treatment. Although a chatbot designed to mimic human behaviour can offer some assistance, it can't replace a human expert when it comes to empathy and moral reason-

Users' potential misunderstanding of AI as a substitute for human therapists highlights the importance of openness and limits. The ethical ramifications of anthropomorphisation need to be considered by regulators and lawmakers as AI becomes more integrated into everyday life. AI tools do not yet possess awareness, emotions, or free will; thus, companies must be forthright in informing consumers of these lim-

may forget they are interact- Another important point is

that AI could be used in a deceptive way. Companies and governments might use human-like AI to make convincing and emotionally engaging connections. AI chatbots used for customer service or political campaigns might quietly sway people's views and choices, which raises concerns about ethics and whether users agree to this influence.

While AI can enhance productivity, creativity, and convenience, it is essential to maintain a clear distinction between human intelligence and machine intelligence. Designers should focus on developing efficient and useful AI without encouraging unrealistic emotional attachments. Additionally, individuals should cultivate a healthy scepticism toward AI interactions, recognising the sophisticated abilities yet realising that they are fundamentally non-human. The moment humans forget social interactions and machines start social interactions, it's the end of humanity.

AMERICA RAISES TARIFFS

Madam —The United States has decided to increase tariffs on Canada, Mexico and China. This step can be considered significant in enhancing America's self-reliance and strengthening domestic industries. From the American perspective, this policy aims to boost their economy, increase domestic employment opportunities, and reduce the trade deficit. It will lead to a higher demand for local products in the US, thereby strengthening its production

capacity For India, this situation could open new opportunities. The additional 10 per cent tariff on China may benefit Indian exporters, as it could make Indian products more competitive in the US market. Sectors such as textiles, IT and automobiles are particularly likely to experience growth in exports. Moreover, this decision could also support India's 'Make in India' initiative. If India strengthens its manufacturing capabilities, it could become a better alternative to China for the US. This situation has the potential to further deepen India-US trade relations. Thus, while this policy might pose challenges for some countries, it could create new opportunities for developing nations like India. If India aligns its production and export strategies effectively, it can emerge as a key player in global trade.

TAX RELIEF FOR MIDDLE CLASS Madam— This year's Union Budget of FY 2025-26 is one of the most special ones among every such Union Budget being presented in Modi's prime ministerial term. One of the welcoming aspects of the budget is its substantial focus on the middle class section of society. So far, in the last decade, the Budget's so on the table were serving the two extremes of the society, either the poor class or the rich class. In an attempt to please these extreme sections of society, the government often misses the opportunity to cater to the aspirations of the larger line of society formed by the middle class. The cherry on the cake for the

ndia beat South Africa by nine wickets in the 2025 U-19 T20 World Cup final at the Bayuemas Oval in the Malaysian capital of Kuala

Lumpur. Champions India won all their group-stage matches against West Indies, Malaysia and Sri Lanka before getting the better of Bangladesh and Scotland in the Super Six. In the semifinal, they defeated England to make it six wins on the bounce. Meanwhile, South Africa topped Group C with wins over New Zealand, Samoa, and Nigeria.

In the Super Six round, South Africa defeated Ireland but had to share points with the USA after the game was abandoned due to rain. In the semifinal, they defeated Australia by five wickets to seal their spot in the final. In the final, India defeated South Africa by nine wickets to win the coveted trophy.

middle class people is the increase in the personal income tax slab from erstwhile 7 to 12 lakhs. Just like the government tries every possible attempt to lure the state of Bihar with multiple announcements, similarly, the government's focus on the middle class is welcoming.

The nutritional scheme-like revamping of the poshan abhiyaan, the establishment of five centres of excellence for skilling, Saksham Anganwadi, the National Manufacturing Mission, and so on are among the welcoming initiatives from the side of the government. We hope that the middle-class section of society will happily enjoy the upcoming year with quality improvement on their wellbeing and attentive focus. Hopefully the middle class businessmen as well as the salary class will gain from the welcoming developments announced in the budget 2025-26. Kirti Wadhawan | Kanpur

SONIA GANDHI DRAWS FLAK

Madam — Apropos of the headlines (February 1) 'Rashtrapati Bhavan Slams the Congress' and PM Modi's scathing attack

on Congress, Sonia Gandhi's unsavoury comments on President Draupadi Murmu

have been widely criticised in public. The slangs like 'boring,' 'tired,' and 'poor lady' demean the supreme constitutional authority and supreme commander of armed forces. In the presidential elections, Congress had opposed President Murmu. Embroiling the president in a political wrangle must be condemned. Congress is setting new records of low politics. The ruckus the Congress party created on Hindenburg reports in the Parliament, media, and demonstrations met the inevitable tragic end when the Hindenburg Research wound up its operations. Nothing could be proved, but of course, it misled the people. Congress has not spared any constitutional authority from the Election Commission, CAG, Supreme Court and now the President herself. Congress has finally written its script of losing credibility as a political party.

A PARENTING GUIDE FOR THE DIGITAL AGE

This new era of parenting demands a thoughtful, proactive approach to raising future-ready generations

he 21st century has introduced new challenges and opportunities in parenting. As we raise Generation Alpha (born 2012-2024) and Generation Beta (born 2025-2039), it is crucial to adapt parenting strategies to their digital upbringing, rapid technological advancements and changing societal norms. Ensuring these children grow up healthy, happy and disciplined requires a balance of traditional values and modern approaches.

There is no denying that, unlike previous generations, Generation Alpha and Generation Beta are growing up with easy access to technology, which affects their lifestyle habits. It is of utmost importance that parents/quardians take proactive steps to ensure their children's wellbeing such as providing balanced nutrition such as a diet rich in proteins, vitamins and fibres while limiting processed foods and sugary snacks; reducing screen time and promoting physical activities such as cycling, swimming and team sports to improve fitness and social skills; setting screen-free bedtime routines to ensure quality sleep, which is crucial for the cognitive and emotional development and encouraging children to spend time offline by engaging in hands-on activities like painting, gardening and DIY

Not only these, but in an era of social media influence and fastpaced lifestyles, parents/guardians need to support their children by creating a strong emotional connection; encouraging resilience and a growth mindset; guiding them in reducing digital overload, and engaging them in mindful activities such as yoga, meditation, journaling, or simple relaxation exercises to help them cope with

With instant gratification becoming a norm in the digital age, parents/guardians must realise that these generations will grow up in an Al-driven world, requiring skills beyond academics. Parents/Guardians can help prepare them by encouraging critical thinking and creativity and providing problem-solving challenges, STEM activities and artistic outlets.

They can also provide proper guidance on responsible internet usage, cybersecurity and online ethics, followed by developing social skills in a hybrid world. Raising healthy, happy and disciplined Gen Alpha and Gen Beta children requires a thoughtful blend of love, guidance, and adaptability. Parents/Guardians must embrace new-age parenting by integrating digital awareness with traditional values while fostering emotional resilience and self-discipline.

By prioritising wellbeing, education and strong moral foundations, one can ensure these generations grow into responsible, fulfilled, and future-ready individuals. Also, by providing proper nutrition, encouraging physical and mental wellbeing, fostering social skills. and setting positive examples, parents/guardians can create an environment where children thrive. It is aptly said that a happy and healthy child is not just the result of luck but of consistent efforts, care and understanding from those who nurture them.

The impact of tariffs: Global shifts and the US dilemma

From China's rapid economic ascent to the stagnation facing developed nations, trade tariffs have profound effects, influencing international trade

he present world is witnessing a situation of several impending tariffs on international trade. Tariffs in international trade are an instrument to reduce imports from specific countries and to promote indigenous production of goods and services. Countries grow rich by producing and selling value-added goods and services. The buyers of these goods and services can be within the country or outside. Obviously, more buyers are outside than inside and for this reason, exports hold the prime key to countries' enrich-

The newly installed government in the USA is proposing to impose trade tariffs on several countries ostensibly to reduce the burden of taxes on the domestic population and promote indigenous manufacturing of goods. For any country, it is the balance of trade i.e. the excess of exports over imports that determines its buying capacity in the international market as well the strength of its monetary currency vis-a-vis the international ruling currency US Dollar. This is true of every country except the USA because its currency is not pegged to gold whereas other currencies are. For this reason, we see how post World War 2 (1939-1945), Japan and Germany developed fast a big indigenous man-ufacturing capability based on modern technologies and through extensive exports of valued added industrial goods like machinery, automobiles and other technological products.

The currencies of these countries gradually strengthened and a stage was reached when their products became price uncompetitive in exports. For example, the Japanese Yen which was equivalent to approximately 0.01 USD in the year 1994 is now traded for USD 0.0064 in 2025. This was true of most of the developed countries at that time (1990 to 2000). The result was that diminishing price competitiveness in exports led to an industrial and economic decline. This led to the constiCASE OF THE

LONG PERIOD

tution of WTO and GATT through which this stagnation hit the economies of the developed countries that sought a revival of high trade and growth. However, the advent of China and its rapid rise on the world economic horizon changed the scenario dramatically and rather unexpectedly. The controlled tariff regime and its regulation under the GATT were greatly leveraged by China through a unique model of eco-nomic growth based on high borrowing, mega-scale production and export focus.

While all the above was going on, even the Chinese economic model began to falter because it was unsustainable, being heavily debt and export-dependent.
The stagnating economies of HAS BEEN Europe and many other countries sought to revive growth through tariffs. Tariffs are basically import duties enabling higher costs of landed goods imported TECHNOLOGY from specific countries. The agreed tariffs under GATT helped the developed countries to grow, albeit to a small degree because of the limitations imposed by demographic factors and technological obsolescence, besides the economic blizzard unleashed by China.

The result of the above developments was that in the last 5-10 years, countries have become increasingly protective and insular in their trade practices and have started putting tariff barriers to protect and bolster their domestic industries.

The case of the USA is typical and different. It has been exporting high-technology goods and liberally importing low-end consumer goods for a long period. But high technology goods including arms and ammunitions export could not keep pace with its requirements due to ever-changing secu-

development of high technology in countries like India, Brazil and South Africa. This has led to the debt of the USA touching an astronomically high figure of 33 trillion USD. This is long-term unsustainable. With the growth of domestic technologies and production facilities in the erstwhile third-world countries, of which India is a prime example, export prospects of US-made products have fallen considerably. This is also due to the emergence

of Chinese multinational companies which are giving a serious challenge to the existing MNCs in Europe and the USA. But the tariff war by the USA on specific countries of the world is not going to be a panacea for its impending economic ills. Its population will have to be made more productive.

With a very high cost of produc- ther the above possibility. tion due to the high cost of ser- Given this, the best course of vices and labour, the US economy is presently not in a favourable position to compete for international exports of lowerend consumer goods in general. Even for high technology goods like warfare and space technology products, it cannot today compete with emerging industrial economies like China and India. What is happening to the USA is quite opposite to what happened to Japan and Germany in the late nineties and thereafter. The continuing strengthening of the USD is due to the flight of the dollar from various countries to the USA by the operations of FIs and FIIs. Excess of money supply in the US economy will lead to runaway inflation which will further impact adversely its middle and lower class population. The imposition of high tariffs on imported goods will have the

rity scenarios, absorption or If the USA chooses to abolish income tax alongside import tariff increase, it could very well end up with huge domestic fiscal deficits which will have to be met by debt or currency printing. Thus what the present US government contemplates could well land it into an economic inflationary spiral.

This situation will be exactly a more intense version of what the government desires to remedy presently. It could be almost something like falling from the frying pan into the fire.

The possibility of all this happening becomes pronounced because of the coming together of BRICS nations and the usage of parallel currencies for international trade. Also, the fact that many countries could well retaliate with countertariffs on the USA after the US imposed tariffs strengthens fur-

action for the US would be to linl once again its currency with gold a process of reversal of what was done in 1971. This will lend stability and sustainability to the US economy and also to the global economy. In general, the matter of trade tariffs is best left to individual countries, looking at their resources and economic circumstances.

Global countries have always been historically interdependent because of their specific areas of strengths and weaknesses in resources. The naturally existing areas of resource abundance and deficiency will remain. However social and political factors are dynamic and will always impinge on policy pronouncements. The prudent and perseverant will win even in this arena.

The colours of identity: Unraveling the layers of race, bias and belonging

Among the many facets of identity, skin colour remains one of the most prominent yet divisive markers of difference

Tariety. A singular word that carries depth, stretching across every horizon within our periphery Everything, whether tangible or intangible, holds a streak of diversity, existing in more than just one form. The human race is the finest testament to this theory, embodying an expansive fluctuation of diversity in ways unparalleled. No two humans are exactly the same, no matter the similarity. From the obvious-gender, ethnicity, nationality—to the microscopic strands of DNA, variety

defines existence. Among the many dimensions of human diversity, skin color stands as one of the most visible yet most divisive. The spectrum of human skin spans hues of black, brown, white, and even shades of yellow,

forming a palette that should symbolise coexistence. However, rather than being embraced as a natural manifestation of diversity, this spectrum has historically been distorted into a hierarchy. The darker shades, unfairly positioned at the bottom, contrast starkly with the privileges afforded to the lighter tones at the top. This stratification of color has shaped life experiaimed at those who adopt

ences, often determining opportunities, treatment, and social perceptions. India, with its rich cultural and genetic diversity, encapsulates nearly the entire range of this scale. To the global eye, Indians and their South Asian neighbours fall in the middle—brown.

This stain of brownness seeps beyond national borders, appearing across continents where South Asians have migrated and settled. However, unlike colors on a painter's palette, which blend to create new shades, human societies tend to resist seamless integration. Instead, racial identities remain dissonant, sometimes even immiscible. The concept of being "white-washed" is one such manifestation of this resistance—an observation

Western customs, implying a dilution of their native culture under the influence of white-

South Asians, however, have long held a deep connection to their cultural roots. Even in foreign lands, communities of brown-skinned individuals tend to cluster together, finding comfort and belonging among their own. This natural act of unity transcends national identities, allowing individuals from India, Pakistan, Bangladesh and Sri Lanka to identify simply as brown in predominantly white societies. Migration dissolves political boundaries, fostering a sense of kinship rooted in shared experiences rather than nationality.

The primary reason for South Asian migration to the West

has historically been the pursuit of a better livelihood. The roots of this movement can be traced back to 19th-century colonisation, where white Europeans established themselves as the superior race while relegating the browns and blacks to a lower status. This racial hierarchy was not only imposed but deeply internalised, embedding itself into the psyche of societies across generations. The consequences of this structured superiority

continue to persist, subtly influencing perceptions and

opportunities to this day. Though the era of overt, institutionalised racial discrimination has passed, its remnants linger. Silent racism manifests in subtle yet persistent ways— being followed in a store, being presumed guilty before proven innocent, or being typecast into stereotypes like smelly" or "uncivilised."

The unspoken biases that people of color endure may be so ingrained in social interactions that they sometimes question whether their experiences of discrimination are real or imagined. But just because racism has grown quieter does not mean it has disappeared. At times, however, this silence gives way to overt expressions

then arises: can racism be unlearned? Can deep-seated biases, cultivated over centuries, be eradicated? Some argue that racism is built on a foundation of illusion—a false construct designed to uphold power structures rather than any scientific or logical basis. Commerce, globalisation and education might pave the way toward dismantling these biases, but the journey is long and uncertain.

Yet racism is not a one-way street. Just as people of color face discrimination in whitemajority societies, white individuals experience racism in South Asian countries as well. Whether rooted in resentment from the colonial past, an ingrained inferiority complex, or sheer ignorance, racism in of prejudice. The question India and other parts of the

region is equally loud and apparent. This internal bias is a lingering vestige of colonial influence, stubborn and deeply embedded in the collective consciousness.

Ultimately, our skin color is an inescapable part of our identity. But as history has shown, social constructs evolve. Just as oppression once seemed an immutable reality but has gradually been challenged and deconstructed, so too can racial prejudices fade with time. While the road to a world free of color-based biases is long, there remains a glimmer of hope—a strip of rainbow amidst the storm, promising a better, more inclusive tomor-

Arlington (PTI): Authorities said Sunday they have recovered the remains of 55 of the 67 people killed in the deadliest US air disaster since 2001. Washington, DC Fire and EMS Chief John Donnelly said at a news conference that divers still need to find the bodies of 12 more victims and are committed to the dignified recovery of remains as they prepare to lift wreckage from the Potomac River as early as Monday morn-

"Reuniting those lost in this tragic incident is really what keeps us all going," said Ćolonel Francis B Pera of the Army Corps of Engineers. Portions of the aircraft will be loaded onto flatbed trucks and taken to a hangar for further investigation.

They spoke hours after families of the victims visited the crash site just outside Washington, DC, walking along the banks of the Potomac River near Reagan National Airport to memorialize their loved ones.

Dozens of people arrived in buses with a police escort close to where an American Airlines jet and an Army Black Hawk helicopter collided Wednesday, killing all 67 aboard the two aircraft. Federal investigators were working to piece together the events that led to the crash while recovery crews were set to pull more wreckage from the chilly water.

Transportation Secretary Sean Duffy on Sunday said he wanted to leave federal aviation investigators space to conduct their inquiry. But he posed a range of questions about the crash while appearing on morning TV news programs. "What was happening inside the towers? Were they understaffed? ... The position of the the Black Hawk, were the pilots of the Black Hawk wearing

S Korean appeals court upholds acquittal of Samsung chief Seoul (AP): A South

Korean appeals court on Monday upheld a lower court's ruling acquitted that Samsung Electronics Chairman Lee Jae yong of financial criminal charges over a contentious merger between Samsung affiliates that cemented his grip over the biggest South Korean company. The Seoul High Court rejected an appeal by prosecutors. You Jin Kim, Lee's lawyer, welcomed the ruling, saying he hopes that Lee would now focus on his company following Monday's verdict. Prosecutors can again appeal to the Supreme Court, whose rulings are final. In February 2024, the Seoul Central District Court said the prosecution failed to sufficiently prove the merger between Samsung C&T and Cheil Industries was unlaw fully conducted with an aim to strengthen Lee's control over Samsung Electronics. Lee, a third-generation corporate heir who was officially appointed chairman of Samsung Electronics in October 2022, has led the Samsung group of companies since 2014, when his late father, former chairman Lee Kun-hee, suffered

attack.

Sitharaman encourages states to approach **Finance Commission on tax concerns**

With southern states voicing concerns over unfair' tax 'unfair' tax money devolution, Finance Minister Nirmala Sitharaman has said the states have to engage and highlight their concerns with 16th Finance Commission, whose recommendations will decide how the funds are divided.

Population is one of the criteria used by Finance Commissions to decide how the tax revenues are divided. Southern states, which have managed to check the rise in population, feel they get a raw deal when compared to the northern states with much larger population growth

Ĭn an interview with PTI. Sitharaman said the central government does not decide

on the devolution formula. The devolution of taxes is made in accordance with the recommendations of the Finance Commission and the aggrieved southern states should approach the panel

for change in parameters. "It is for the states to engage with Finance Commission to express their concerns about the parameters based on which the tax devolution principles

are laid down by them. "And if they think over a they've had a decade, distinctly different paradigm happening there. It is for them to highlight those issues to the Finance

recommendations, particularly on the core suggestions, and follows It is not appropriate for them to voice concerns as the central government does not decide devolution of taxes, she added.

PTI ■ NEW DELHI

Central Board of Direct Taxes (CBDT) Chief Ravi Agrawal on Monday asked industry players to give their suggestions on the new income tax bill, which will be tabled in Parliament this week.

The new income tax bill. which will replace the six decade old Income Tax act, 1961, has been drafted within six months and efforts have been made to simplify the language to make compliance easier taxpayers and make it easier to read and understand.

Agrawal said that the new bill has been drafted in such a that way international standards.

Also, the new law has been made concise, as old provisions have been provisions have been removed, making it less bulky. He asked the industry to give their suggestions once the new bill is introduced and assured them that the suggestions would be looked

India's manufacturing growth peaks at six-month high in January

PTI NEW DELHI

India's manufacturing sector growth started the year 2025 on a strong footing and touched a six-month high in January, fuelled by the steepest upturn in exports in nearly 14 years, a monthly survey said on Monday.

The seasonally adjusted HSBC India Manufacturing Purchasing Managers' Index (PMI) rose from December's one-year low of 56.4 to 57.7 in January supported by the fastest upturn in new export orders since February 2011.

In PMI parlance, a print above 50 means expansion, while a score below 50 denotes contraction.

"India's final manufacturing PMI marked a six-month high in January. Domestic and export demand were both strong, supporting new orders growth," said Pranjul Bhandari, Chief India Economist at HSBC.

Goods producers attributed the substantial increase in new orders to better domestic demand and a pick-up in international sales

Subsequently, manufacturers in India continued to scale up production volumes. The latest increase was substantial and the fastest since October

Marcus Rashford will look to reignite his career at Aston Villa after joining on loan for the rest of the season from Manchester United, where he has fallen out with recently hired manager Ruben Amorim.

India is a sleeping giant in golf: Greg Norman

PTI ■ GURUGRAM

Australian legend Greg Norman believes India is a sleeping giant in golf and it would require more competitions in the country to help its players realise their true potential as he pitched for making the recently-concluded International Series here an annual affair.

The 69-year-old former world number one, who has 88 professional titles under his belt, was hopeful of India's growth in the sport.
"One of my initial focus points

was to invest into the sleeping giant, which was the Asian tour. India is a sleeping giant when it comes to Golf. I mean you just look what's happening in India with the game of golf, it has only just started, right?"
Norman told select media on the sidelines of the Asian Tour event here on Sunday.

"For the next 25 years, which is a generation, India is right in the middle of them," he said. Norman was the CEO of LIV, a breakaway league founded in 2022 and financed by Saudi Arabia. It has introduced some fresh

rules like three-day 54-hole tournaments, instead of the traditional 72-hole four-day events. The LIV tournaments have also done away with the concept of weekend cut and all those who start get to play the entire tournament besides being entitled to prize money. The International Series is a partnership between the Asian Tour and LIV but it adheres to the traditional 72-hole concept with a cut at the end of two rounds to ensure that players are entitled to points under the world golf ranking system, which has refused to recognise the 54-hole LIV events.

The LIV events have also faced significant resistance from the existing PGA Tour (USA)and the European Tour, which claim that the parallel tour "disrupts" the sport by offering players higher prize money and a seemingly more relaxed rules structure. Norman believes LIV can have

a great role in helping Indian golf, which was on a high when the likes of Jeev Milkha Singh, Shiv Kapur, SSP Chawrasia, Jyoti Randhawa and Arjun regularly tournaments on all three tours till about a decade back.

However, the momentum has been somewhat lost in the past five years.

"I love LIV to come to India because to me, it's significant, right? Everything takes baby steps. And obviously, the league is important to do that," he pointed out.

"LIV created a new dynamic for the game of golf because it gave an opportunity in the competitive golfing world for a new business model...Different formats have come out and enticed millions and millions of people to come into the

game of golf," he asserted. I truly believe LIV will be the true global golf platform for golf. We want to be in all the continents of the world...We bring a product that's a plug and play that's never been done before. We bring franchise models. We're bringing the youth side of it," he explained.

Praggnanandhaa beats Gukesh to clinch Tata Chess title

PTI WIJK AAN ZEE

¬he Indian juggernaut in international chess ▲ remained unstoppable as Grandmaster R Praggnanandhaa fought through exhaustion and nerves to defeat world champion D Gukesh in a clash of compatriots to clinch the Tata Steel Masters title for the first time in his prolific career.

The bespectacled 19-year-old from Chennai, a city that has become the cradle of Indian chess, came from behind to upstage the 18-year-old world number three 2-1 in the tiebreaker of the event's 87th edition here on Sunday.

This was after both players ended up tied on 8.5 points after losing their 13th-round games. While Gukesh lost to fellow Indian Arjun Erigaisi, Praggnanandhaa went down to Vincent Keymer of

In the tie-breaker, there was huge drama typical of two young players looking to win each and every game they played in the tournament as they played the tie-

"I am still shaking, it was such a crazy day. I don't know how to express. I didn't really expect to win. Somehow things went my way," Praggnanandhaa told the official tournament website after his triumph.

Asked if it was the most tense day of his chess career, which began when he was a mere two years of

"Today is more special because I won the tournament. Definitely most stressful day," he responded. The teenager became the first Indian after Viswanathan Anand to win the title. Anand won it thrice (2003, 2004 and 2006) individually when it was called the Corus Chess Tournament, named on the title sponsor of that time. The legend also shared the honours twice (1989 and 1998) in its earliest form of Hoogovens Tournament.

Praggnanandhaa faced the Benoni with reversed colours in the first game of the tie-break and it seemed like he had equalised easily in the middle game.

However, Gukesh had

thoughts as he kept trying and won, thanks to a blunder by Praggnanandhaa that cost him a full rook

In a must-win second game of the Praggnanandhaa the Trompowsky tiebreaker, employed the Trompowsky opening, and this time Gukesh could claim a slight advantage with his black pieces.

"I was just trying to relax, to rest a bit. It was a very difficult game. Against Vincent I didn't play anywhere close to the level I was playing here. I should buy something for Arjun. At some point I thought Gukesh was better," the former world youth

champion quipped.
"For sure, (this win) it is the highlight. When I came here, I wanted to win but the field was very strong. I didn't really think about it much until yesterday," he added.

"I am completely exhausted. I was also quite tired. I just want to get some rest now.

During the tie-break, by just keeping his position together, Praggnanandhaa patiently waited and capitalised on an unforced

error from Gukesh to first knock down a pawn and then his technical abilities were enough to see the normal blitz games

through with a 1-1 score. This took the match into sudden death, where Praggnanandhaa drew white and once again Gukesh was better with some imaginative play on the queen side that netted him a pawn.

The sudden death had a time control of two minutes and thirty seconds for white against three for black but that did not deter Praggnanandhaa from trying to

defend an inferior endgame.

Just while the position looked completely drawn and another game was on the cards, Gukesh lost control in the battle of nerves and first lost a pawn then his last remaining knight.

Praggnanandhaa showed perfect technique to take the full point and his maiden victory at the Masters. For Gukesh, this was the second year running when he tied for first position and lost the tiebreaker. In the previous edition, Gukesh had lost to Chinese Wei Yi.

Bevan inducted to Cricket Australia's Hall of Fame

PTI MELBOURNE

 $F^{ormer\ batter\ Michael}_{Bevan,\ widely\ regarded\ as}$ one of the greatest ODI finishers who displayed impeccable game awareness and mastered difficult run chases with minimal risk, has been inducted to Cricket Australia's Hall of Fame. The 54-year-old, who was a

part of Australia's 1999 and 2003 World Cup-winning teams, made 6912 ODI runs at a brilliant average of 53.58 in 232 games, batting in middle-order, mostly number six.

During his career that ran from 1994 to 2004, Bevan exemplified maximum returns at minimum risk, and required rate during chases in check by picking singles and twos that would often lull the opposition and ultimately steer Australia over the line.

"Congratulations to former Australian player Michael Bevan on his induction to the Australian Cricket Hall of Fame," Cricket Australia Cricket Australia posted on X.

Speaking to 'cricket.Com.Au', the imposing left-hander, who has also dabbled in coaching, said his ODI success was down to a deep understanding of the format. "When I reflect on my oneday career, and get an understanding of why I performed like I did, how I was able to manage the innings, or the run rate...I think that was sort of natural to me," he said. "Minimising

understanding which bowlers to target, what types of shots to play in certain situations, and the ability to understand when to put your foot down, and when to take the foot off the accelerator as well...(were) the principles that I used," he added the owner of 67 unbeaten ODI knocks who struck 46 half-centuries and six hundreds in the format. could never really replicate that success in Tests

and Bevan said he accepted that the traditional form was not really meant for him quite early. Bevan played only 18 Tests. He made his debut in 1994 and played the five-day game only till 1998.

I wasn't ready to play Test cricket. I had my own e said

His long-time captain Steve Waugh was a huge fan of his work ethic in the nets and in his book, he mentioned that Bevan "would literally invent strokes to fuel his search for greatness and his desire to levels attain new excellence."

Bevan could maneuver Australia out of trouble with his tenacity and the ability to find the gaps in the tightest fields to keep the scoreboard ticking and eventually chase down targets for victories by the thinnest of margins.
"...I felt with the one-day game, I always did what I did

 I had the ability to win close games, and that was always there. It wasn't something that I learned or had to go through, it was really just intrinsic, which is kind of a bit weird," he said of his career.

Buttler praises Abhishek Sharma's innings

PTI MUMBAI

England captain Jos Buttler Chas heaped high praise on Abhishek Sharma for smashing a whirlwind 54-ball 135 in India's 150-run win in the fifth T20I here, describing the record knock as one of the finest examples of "clean ball striking". Abhishek entered record

books with the second fastest T20I century by an Indian batter off 37 balls and hit 13 sixes -- the most in an innings for any player from the country, powering the hosts to 247 for nine. 'Yeah, (we are) obviously

disappointed (with the result), they (India) played a fantastic batting innings. I think credit to Abhishek Sharma, I thought that's as clean a ball striking as I've seen, I thought he played fantastically well," Buttler told the media after India recorded their second biggest T20I win by runs on Sunday

Buttler denied England were 'shellshocked" from Abhishek's onslaught on his bowlers but said there were only two options for his side either to go boom or bust.
"We always sit down and think

ndia head coach Gautam

or how we could have stopped him, but some days I think you have to give a lot of credit to the opposition, I thought he played brilliantly well," Buttler

"Shellshocked's not quite the word, I think. It can be difficult sometimes when a player gets on a roll and they play as well as he did," Buttler

"Looking back at the last IPL, him and Travis Head were the same at the top of the order for Sunrisers (Hyderabad) and obviously he's brought that into India "He (Abhishek) played a

brilliant innings and sometimes you want to credit

the opposition. You always think of what more could you do, how could we get him out, how could we slow him down and, but yeah, credit to us for, you know, sticking in there and fighting back and keeping

them down to 240 after the start they got," Buttler said. The England captain acknowledged the pitch remained the same for his batters as the visitors were bowled out for 97 in 10.3 overs with Phil Salt scoring a 23-ball

"I've played in a few games like this and it generally goes one of two ways, you either get actually somewhere near or you fall in a heap and today was that day," he said.

"The way Phil Salt went out there and struck the ball, it was obviously a really good wicket, vou needed someone to go with him and one or two guys to catch fire and that's the way you're going to chase that

"Like I said, you either get quite close in games like this and surprise yourselves or it doesn't work but, no, we doesn't work Dut, 110, we certainly won't change the way we want to play. We need to, you know, keep backing that, be even more committed and you're desperate to do well and execute that," he said. Buttler said he wouldn't want

England to change their style of play after a 1-4 series loss to "We've had our moments actually in all the games bar

the first one probably and today. We had moments in Chennai, Pune and obviously the game we won in Rajkot,"

"As we get more experienced, more committed to the style we want to play and the nuances of the game of how we're going to win those moments, then (we would) go on to win the match and win series," he added.

We want to play high-risk, high-reward cricket in T20s: Gambhir

■Gambhir said the team is ready to push the barriers in T20 Internationals with the adoption of a fresh "high-risk, high-reward" approach, and the target is now "to get 250-260 regularly" in the format. That shift in mindset was evident in India's 4-1 mauling of England in the justconcluded five-match series. In the fourth T20I at Pune, India kept attacking England despite losing wickets to eventually set a match-winning 181 for 9, and at Mumbai on Sunday, the hosts raced to 247 for 9, their fourth highest total in this format.

That's the kind of T20 cricket we want to play. We don't want to fear losing a game of cricket. We want to play highrisk, high-reward cricket. that ideology really well," Gambhir told the host broadcaster after the match on Sunday.

"We want to try and get to 250-260 regularly. And in trying to do that, there'll be games where we'll get bundled out for 120-130. And that is what T20 cricket is all about. "Unless and until you don't

play that high-risk cricket, you won't get those big rewards as well. Most importantly, I think we're on the right track. Come those big tournaments, we want to
