IQAC meeting was held on 29.08.2019 at 4.00 PM. in the D.E.Society's Brijlal Jindal College of Physiotherapy Board Room.

Following members were present: -

1. Smt. Aparna Sadhale – Chairperson
2. Dr.Sharad Agarkhedkar
3. Dr.Mahipal Patwardhan
- 4.Shri Anant Athavale
4. Smt. Rajani Pagare
5. Smt. Diptee Bhole
6. Smt. Abha Dhupkar
7. Smt. Radhika Apte
- 8.Neha Apte
- 9.Neha Kulkarni
- 10.. Smt. Snehal S. Joshi – Co-ordinator

Dr.A.R.Joshi had conveyed inability to attend this meeting.

Minutes-

1. It was suggested that ERP team to be approached to find out the solution to monitor frequency of ERP access by student. If possible, ERP access frequency by student should be linked to Internal Assessment marks.
2. It was suggested to have integrated teaching approach whenever possible so as to motivate students for self-learning. 'Inclusion of monthly quiz' as a measure to arouse interest among the students was also discussed in the meeting.
3. It was also suggested to have motivational lectures by alumni and by motivational speakers.
4. All members were informed about the cases evaluation strategy to be implemented from this year.
5. It was decided that Dr. Agarkhedkar would address the faculty regarding POs, PSOs, COs.

Smt. Aparna Sadhale.
Chairperson, IQAC
D.E.Society's
Brijlal Jindal College of Physiotherapy

Smt.Snehal Joshi.
Co-ordinator, IQAC
D.E.Society's
Brijlal Jindal College of Physiotherapy

Suggestions	Action taken
ERP access rate	Contacted ERP team waiting for the response
Monthly quiz /assignments	Few assignments were given on ERP. Few techniques like quiz, seminars were administered to increase active participation of the students.
Speeches by motivational speakers/alumni	2 of Such sessions have been conducted and few are in process

Fourth IQAC Meeting was held on 15.04.2019 at 9.00 am in College Board room. Following members were present for the meeting-

1. Dr. Sharad Agarkhedkar
2. Dr. Aniruddha Joshi
3. Smt. Rajani Pagare
4. Smt. Diptee Bhole
5. Smt. Abha Dhupkar
6. Shri. Pranav Yele
7. Ms. Neha Apte
8. Smt. Aparna Sadhale - Chairperson

Dr. Mahipal Patwardhan, Shri. Anant Athavale & Smt. Snehal Joshi had conveyed their inability to attend the meeting due to personal reasons prior to the meeting.

Minutes-

1. Review of all the activities that is mentor – mentee programme, remedial teaching, functioning of various committees was taken.
2. It was decided to change the mentors of the students for every academic year, if required.
3. During CBL sessions, the student performance should be rated by his/her peer group along with the teacher.
4. Each mentor's mentees belonging to the same class should be encouraged for cross coaching/learning.
5. Each Student's mentor-mentee sheet should have the students Photograph attached to the sheet. The total time dedicated to M-M programme of each student should be calculated & recorded on the sheet at the end of the Academic year. These suggestions will be implemented from Academic year 2019-20 onwards.
6. It was suggested to upload Holiday list published by MUHS on ERP/ College website.
7. It was suggested to make an attempt to upload lesson plan of each topic of each physiotherapy subject of each year on ERP.
8. One orientation meeting on POs, PSOs & COs will be scheduled by 2nd week of June 2019.

CURRICULUM COMMITTEE

IQAC initiated feedback from Alumni about Curriculum

Academic Year 2022-23

(Intake batch 2016)

Feedback from Open ended questions:

1. Everything is perfect, because the theory and practical knowledge I have received from the course, has helped me throughout my master's degree and get a good score. It is also helping me in my employment.
2. Little more workshops
3. More support to student during clinical postings
4. AHA certified BLS, ALS should be mandatory and included in the curriculum.
5. Recent advances must be brainstormed from final year itself.
6. Shifting attitude towards a learning based rather than just exam-oriented curriculum.

CURRICULUM COMMITTEE

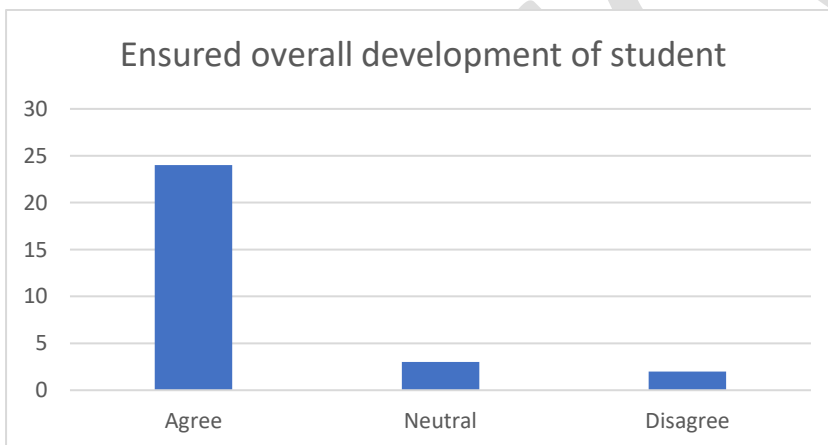

IQAC initiated feedback from Alumni about Curriculum

Academic Year 2021-22

(Intake batch 2015)

The following responses were obtained: n=29

Analysis of Open ended question:

Any suggestions / comments that you may want to provide towards enhancement of the curriculum:

1. Clinical hours followed by the lecture.
2. More exposure in terms of on field therapy would help
3. Updating the syllabus with recent rehabilitation methods and removal of the ones not in use
4. More time allocated to developing communication skills with patients
5. More exposure to sports physiotherapy

6. Introduce all concepts with evidence. More practice of Evidence Based Approach needed
7. More information about research and opportunities should be provided
8. More patient based / practical learning approach
9. Avoid teaching outdated methods/approaches
10. More exposure to Research and Development
11. hands on workshops should be organised more for topics which are rare but are important in clinical practice
12. Inclusion of discharge planning and criteria for discharge in the curriculum
13. In-depth knowledge about the research process

CURRICULUM COMMITTEE

IQAC initiated feedback from Alumni about Curriculum

Academic Year 2020-21

(Intake batch 2014)

The following responses were obtained: n=21

Analysis of Open ended question:

Any suggestions / comments that you may want to provide towards enhancement of the curriculum:

1. More inclusion of how to review a paper/article.
2. More evidence based and article based learning
3. More inclusion of recent advances for BPTH students
4. Staff and student interaction should be approachable and friendly yet being strict at same time to improve learning
5. Could have more postings in sports related events
6. To start clinical posting atleast once a week from 1st year
7. Encourage more research
8. Can the institute start fellowship programs for physiotherapy students?
9. If the curriculum had more importance to practical application of the theory into practice, it would have been more beneficial in terms of clinical practice
10. Techniques which are not there in syllabus but are practiced globally have good result should also be included.
11. Enhanced research time and resources along with evidence based attitude would help for the recent and future development of students in the professional career further.
12. Sports & lab based exposure can be added
13. I feel the teaching should be more research based than textbook learning.
Many of the techniques taught in courses are not relevant in current literature.
14. Could include more case discussions.

CURRICULUM COMMITTEE

IQAC initiated feedback from Alumni about Curriculum

Academic Year 2019-20

(Intake batch 2013)

The following responses were obtained: n=20

Analysis of Open ended question:

Any suggestions / comments that you may want to provide towards enhancement of the curriculum:

- The way practical/ clinical placements are evaluated need to be changed.
- Organising camps at rural regions
- Case presentations in every year
- More hands-on workshops to be conducted:
- A course can be added to the curriculum which will be targeted more towards current research in the field and which will encourage students to go through research articles. Also, an addition to the curriculum which will cover topics on Nutrition can be helpful to students (in practice as well as further education) as exercise and nutrition go hand in hand.
- Might be helpful to emphasise on academic literature and evidence resources in addition to conventional textbooks
- Recent advances
- On field exposure and camps

Patient Name: Rajveer Kadam
Mob no: 9922477828
Case: Brain tumor

Rajveer has been undergoing physiotherapy for almost past 5 months now. It has been a wonderful journey to see his improvement over these months. The team here has really helped him to improve on his strength on his right leg and hand due to which he is now able to do a lot of activities independent.

I would like to thank the team for taking immense interest and effort to ensure Rajveer overcomes his weakness and is able to do things independently. The mix of exercises with activities is a great way of engaging the patient especially since Rajveer is only 9 yrs old.

The team also is blessed to have a great guide and teacher Ms. Atiya Shaikh who ensures that adequate attention and proper exercises are taken.

Great team - Rajveer and we are very happy with the progress in him.

Thanks to the entire team for their Effort and Contribution.

- Sushma Kadam
(Mother of Rajveer Kadam)

Feedback from Patients

Link of the website: <https://www.desphysiotherapycollege.com/opd-patient-testimonials/>

OPD Patient Testimonials

Shri Shashikant Parab
OPD Patient

I had visited the Physiotherapy OPD at Fergusson College to seek treatment for ????? have been quite satisfied with treatment given to me by Dr. Namrata (PT) and her team of interns Radhika Joshi, Sanhita Purnaparte, Rutuja Joshi, Anisha Nagarkar, Vidhi Somani, Hetal Paghdar, Durga Kulkarni, Resika Bhide, Resika Bakare and Nidhi Pande.

I come regularly for physiotherapy to this clinic and the above doctors have been kind and helpful to me. They explain the entire process to me in details and have been treating me with constant care. I feel better and recovered almost 80% now as the treatment given to me is good. I never had to wait or have been treated arrogantly by any of these doctors or any other staff and feel good about the same. I would surely recommend this hospital/clinic to more of my friends or relatives for physiotherapy.

Arjun's Mother
OPD Patient

We got the reference regarding physiotherapy OPD at DESCOP from Harshit's mother. Harshit has been a patient of this department for a few years now. Arjun's father and brother approached the college with all his reports to fix an appointment for Arjun. Dr. Atiya Shaikh took a note of all the medical details, right from pre-natal history till date. She asked them to get Arjun along the very next day. Dr. Atiya always considers parents' opinions and suggestions while planning exercise activities and rehabilitation for pediatric patients. This is one of her qualities I like the most. As curious parents, we were looking forward to learn all the details regarding Arjun's condition and his rehabilitation programme, both negative and positive. She explained everything and clarified all our doubts in a non-medico language, we could easily comprehend.

Soon students began to treat Arjun. Initially, it took him a while to get used to the environment and their handling. But, gradually he started enjoying their company and hence, the session. They simplified exercises and tasks for him and incorporated a variety of games to make sure that Arjun enjoyed the session. They were very friendly and took good care of Arjun. When I gave students any suggestions regarding Arjun's treatment, they consulted their faculty and modified the treatment accordingly, as required. I never felt neglected.

During exams and Preparatory leave of students, students of Master's programme particularly, Sonali, Meenakshi and Vishakha managed to handle him independently without any help from other students and treated him very well. It was a great experience with all the members of DESBJCOP and their treatment has helped us a lot. I am thankful to all of them and would like to wish them all the best for their future. Keep it up all of you!

OPD Patient Testimonials | D.E. | +

https://www.dasphysiotherapycollege.com/opd-patient-testimonials/

Mr. Vishal Ukrande
OPD Patient
★★★★★

I was suffering from severe pain after a fall on my outstretched arm initially I did not realize the intensity of the injury and continued to lift heavy objects which is my routine at the gym which only aggravated my injury. I started having popping, clicking in the shoulder and pain with over head arm movements or throwing a ball and a feeling of weakness or instability in the shoulder.

I, hence, decided to visit an orthopaedic surgeon who recommended me MRI which confirmed that I had an antero inferior glenoid labrum tear of the right shoulder. And he suggested surgery, however I believed that surgery is the last option and started to search on internet about this and understood how physiotherapy could help. I stumbled on the Facebook page of Fergusson College of physiotherapy by chance and just walked in after.

I was assessed immediately by the interns and they comforted me by telling me that the injury will heal and I will be able to perform full range of motion with my shoulder. This brought a smile to my face and I was relieved about not undergoing a surgery. With specific treatments given to me, my pain reduced from 10 to just 5, which is bearable and I have almost reached my range, only the last part remaining.

I will want to specially thank the interns Rasika Bhide, Rasika Bakare and Nidhi Pande for their treatment. The environment of the physiotherapy OPD was professional yet friendly and put me at ease with my condition. I want to thank Fergusson College for these inspiring physiotherapists.

Mr. Anagha Lonkar

I am a lecturer in a local college in Pune. Around 3 years back, I noticed that I was unable to write properly on the blackboard. Within 6

Mrs. Anagha Lonkar
OPD Patient
★★★★★

I am a lecturer in a local college in Pune. Around 3 years back, I noticed that I was unable to write properly on the blackboard. Within 6 months, I was having difficulties with almost all tasks and was finding it almost impossible to continue my job.

I consulted many senior doctors and it was found that my small brain (cerebellum???) was atrophying. A friend suggested that I should undergo neuro-physiotherapy and gave me DESBJCOP's reference.

I have been coming for therapy for the past 2 months now, which has been very advantageous for me. I am already finding that many of my physical activities are getting restored. The students, under the guidance of Dr. Snehal Joshi, are monitoring my movements and helping me perform them in a better way. I feel more confident after taking this treatment and I am sure that, given time, my activities will come back to normal.

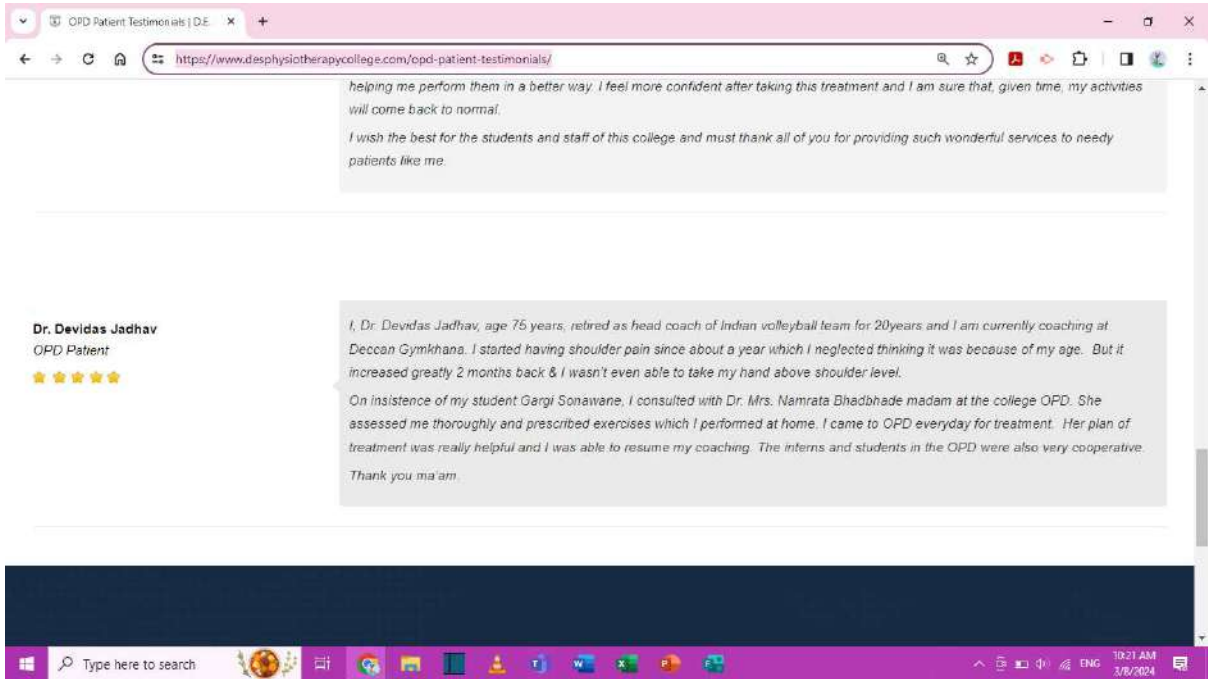

I wish the best for the students and staff of this college and must thank all of you for providing such wonderful services to needy patients like me.

Dr. Devidas Jadhav
OPD Patient
★★★★★

I, Dr. Devidas Jadhav, age 75 years, retired as head coach of Indian volleyball team for 20years and I am currently coaching at Deccan Gymkhana. I started having shoulder pain since about a year which I neglected thinking it was because of my age. But it increased greatly 2 months back & I wasn't even able to take my hand above shoulder level.

On insistence of my student Gargi Sonawane, I consulted with Dr. Mrs. Namrata Bhadbhade madam at the college OPD. She assessed me thoroughly and prescribed exercises which I performed at home. I came to OPD everyday for treatment. Her plan of treatment was really helpful and I was able to resume my coaching. The interns and students in the OPD were also very cooperative.

Dr. Rohini Dange (PT)
HOD, Physiotherapy Dept. Sahyadri
Specialty Hospital, Pune
★★★★★

Being associated with DESBJCOP has been a learning process for both involved. I have seen that the handling of the patients by the students and my staff, and their attitude towards patients, has changed over time, as more of them strive to attain perfection. It has always been fun to work with the students and interns of DESBJCOP. I hope that with this association and mutual learning, we are, together, able to achieve our goal of providing better clinical outcomes by enhanced and smooth functioning of the department.

Dr. Sharmila Paralikar (PT) HOD
Physiotherapy Dept. Deenanath Mangeshkar
Hospital, Pune.
★★★★★

D.E.Society's Brijlal Jindal College of Physiotherapy and Deenanath Mangeshkar hospital, Pune have been in a fruitful association since 2013. Post graduate and under graduate students along with interns have been coming to Deenanath Mangeshkar hospital for their clinical training in various field of rehabilitation. It has been a pleasure to be working with this institute. I would credit this to Principal, Dr. Aparna Sadhale, along with her staff, who have always been very receptive and co-operative. They are excellent teachers and devote lot of time with their students when it comes to bedside clinics and teaching. I have observed that they have mastered the skill to put students at ease when presenting case and there is an interactive open discussion with the students and teacher. They also have been vigilant about their students so as to maintain the decorum of the hospital. I would also like to mention and appreciate that most of the students too, have been eager to learn with a questioning mind. They too behave responsibly so as to maintain the repute of the institute they come from and the institute they come to. I wish all of them a very bright future. We would be happy to have a long association with this institution.

The browser's taskbar at the bottom shows the search bar, task icons, and system tray with the date 2/8/2024 and time 10:23 AM.

This screenshot shows the continuation of the testimonials page. It features a testimonial from Dr. Amruta Pande (PT) and a circular stamp from D.E. Society's Brijlal Jindal College of Physiotherapy, Pune-4.

Dr. Amruta Pande (PT)
Physiotherapist, DEIC
★★★★★

Dr. Amruta Pande (PT)
Physiotherapist, DEIC
★★★★★

I am really happy to have DESBJCOP as a part of DEIC. Communication with Dr. Aparna ma'am started prior to the posting of students to Aundh Civil Hospital and she was impressed with the newly developed District Early Intervention Centre (DEIC) project. In the department of Physiotherapy, we treat babies and young children with neurological and orthopaedic conditions at DEIC. The students of DESBJCOP are able to practice different techniques and are able to achieve a good improvement on the patients. The students counsel the parents of these children on a regular basis and also provide home exercises to them. Students of DES put all their efforts and hard work to improve the condition of the patients. I really thank Aparna ma'am and their staff for sending their students as a helping hand to DEIC (Pune). I wish the students the best for their future.

The circular stamp contains the text: "D.E. Society's Brijlal Jindal College of Physiotherapy, Pune-4".

Aayush Yekhade (2008-2011)
Ex-Student

I am, at present, working with the Indian Women's Boxing team and personally looking after MC Mary Kom's fitness schedule. I am on assignment with the Youth Girls' Boxing team, preparing them for the World Boxing Championship. I have been interested in sports since a young age. This inspired me to pursue a career in a field related to sports, which took me in the direction of sports physiotherapy. My ambition to be a sports physiotherapist for the Indian team has now come true. I have always striven to be a better and more successful person than what I was previously, and I will also want the athletes that I train to win Olympic gold medals for our country. I would give the whole credit of my present achievement to my college and professors. The discipline and knowledge that I gained in this institute is still helping me reach heights in my career. I would like to thank my professors for inducing us to perform to our best capabilities and wish the best for my college's progress.

Urmi Chavan (2008-2011)
Ex-Student

Studying at DES for my bachelors has been a crucial and an extremely rewarding learning experience for me. The outstanding guidance and support provided by the staff throughout this journey allowed me to grow, both personally and professionally. The excellent standard and quality of education I received became even more obvious when I stepped out of college and in the professional world. During my time at DES, I got the opportunity to be a part of the first magazine committee along with being elected the cultural secretary, both of which have greatly contributed towards the development of my leadership, decision making, problem solving and time management skills. Having the opportunity to present a research paper at Scientifica first sparked my interest in the area of research and pushed me to pursue a higher degree. After completing my Bachelors, I became more inclined towards research in Orthopaedics, and the upcoming field of Geriatrics. This interest was greatly influenced by the projects I carried out in my final year as well as internship. Hence, I was keen on pursuing a course which had a clinical as well as a research component, which was offered by Sheffield Hallam University, UK. After completing my degree in MSc Advancing Physiotherapy Practice, I planned on gaining experience before pursuing PhD. Hence, I have secured a job as a physiotherapist and was recently granted a Tier 2 work visa. I am currently looking for sponsors/funding for my PhD project on dementia, as there is a substantial gap in research regarding the role of physiotherapy in dementia, despite its worldwide predominance and the burden of the disease.

Nikita Mathur (2008-2011)
Ex-Student

I'm currently pursuing my MSc in Advancing Physiotherapy Practice in Sheffield Hallam University, United Kingdom. Along with my course, I have also obtained a fellowship with the Higher Education Academy of UK (AFHEA) and I'm doing my dissertation in the field of Physiotherapy education in India. After finishing my UG in DES, I gained a work experience of 3'

Ex-Student

★★★★★

I'm currently pursuing my MSc in Advancing Physiotherapy Practice in Sheffield Hallam University, United Kingdom. Along with my course, I have also obtained a fellowship with the Higher Education Academy of UK (AFHEA) and I'm doing my dissertation in the field of Physiotherapy education in India. After finishing my UG in DES, I gained a work experience of 3 years, in sports physiotherapy, fitness and rehabilitation, while also attending seminars and workshops to continue my professional development. With other medical professionals, I also organized and delivered such educational seminars and workshops in the community to improve awareness about health and fitness. It was then that I realized the need for broadening my horizons and getting a global perspective about the new trends in physiotherapy profession. Therefore, I chose to do a degree tailored to my professional interests in both clinical and educational sectors.

Starting my undergraduate degree in DES was not merely a transition from high school to college; for me, it was a life altering decision. Thinking retrospectively, it was the best decision that I made because it allowed me to learn a different culture and language and gave me a chance to live independently, making me a stronger and better person. Needless to mention, the college, the staff and my fellow students had a great contribution in making this journey worthwhile.

Since the college was my home and the staff and students were my chosen family, I was always enthusiastic to participate and represent our college in both the field of academics and extra-curricular activities. Being a part of the first magazine committee and a member of the cultural organising committee, made me learn the importance of failures and instilled the courage in me to face every challenge and do my best. My journey at DESBJCOP not only made me a confident physiotherapy professional but also nurtured the dormant leader in me, polishing my interpersonal skills.

In the near future, I'm planning to return to India to start my practice in both clinical as well as academic sectors of physical therapy. My long term goal is to work with the prime health care education institutes of India in improving the quality of education and university experiences of potential physiotherapy students.

Dr. Priyanka Paliwal (2012-2017)
Ex-Student

★★★★★

Just Keep Going...

'What next???' was the question I had when I was standing there, taking my oath on the day of convocation. Anxiously, nervousness, excitement, all these were being felt at the same time. Do I work now? But how will I get a job? Do I start my own clinic? But am I ready for it? Do I study further? Or should I have some practical experience first? There was a long list of do's and don'ts, if's and but's!

Completing your baccalaureate and stepping into the real world is a scary thought. All this time you have been used to living in the cosy, comfortable environment that your teachers and the college give you. They walk with you at every step and are ready to catch you before you trip. They have paved your path to make you a better professional.

You realise this when you step out of that shell and start walking on your own. When I started working independently, when I started taking decisions on my own, when there was no teacher around me to guide me, that's when I realised I was out in the real world now. I consider myself fortunate enough to have gotten a chance to work with great people so far, exploring every area, be it musculoskeletal or neurology or administration. And the process is still on. —

The curiosity for finding new things and exploring the untouched areas has invaded my mind. This wish to be different keeps me going! It is not just about your physiotherapy skills that help you out here, but also your will to work, your will to explore new things and learn more, your ability to connect with people and your will to keep moving, no matter what. It does not matter how much you score in your exams. All that matters is how much you learn, from books, from people around you and the experiences you get; and how much you apply from what you've learnt.

I would like to share a few lessons that I have learnt from all the people that have touched my life so far- my parents, my teachers, my friends and my patients.

- Do what you love and what makes you happy
- Invest in yourself (It can be time or money. Self-investment is the best investment!)
- Surround yourself with the best.

Student's Testimonials | D.E. So...
https://www.desphysiotherapycollege.com/students-testimonials/

Dr. Trimbak Kawidkar,
Ex-Student

1) **In what capacity are you currently working?**
I am working as a Researcher at BETIC, IIT-Bombay. BETIC is Biomedical Engineering Technology (incubation) Center, which is a lab at IIT-B and has sister centers at COEP and VNIT as well. We work on developing Innovative Medical Devices.
I've been working specifically on 3 Projects –
Transforming the Design and Manufacturing of low cost Trans-Femoral Prosthesis for Mass-Customization – Working with a Trust in Mumbai, we have developed a parametric CAD model for profiling of prosthetic socket/stump using just measurements of Patient's residual stump. The project won the Google Impact Challenge Award – 2016 and Google approved a funding of \$350,000 for the project. Working as the project lead, me and a fellow researcher Mr. Shrishail M. Hamine, fabricated India's first 3D Printed Prosthetic Socket.
Customized Medical Devices – We have been 3D printing patient specific anatomical models for Orthopedic surgery planning. Now we have also started manufacturing Patient specific surgical Jigs to help with a precise, calculated and efficient corrective surgery.
Tracheostomy Blockage Detection – A device to detect and notify caregivers, about blockages in the Tracheostomy. We have an Indian Patent filed for the same.

2) **What made you take the decision to take up this path?**
Although having more inclination towards Medical Science, I had always been connecting different fields for understanding subjects and kept studying other subjects like Physics, Chemistry or Engineering topics. Being able to understand other fields with medical perspective, I always wanted to connect Physiotherapy and Medical Science with that of Engineering.

3) **How has the college contributed?**
Since the beginning itself, all faculties were extremely supportive to my enthusiasm in studies, co-curricular activities and out of the box madness. Further, during the internship, they allowed me to do a project based more on device development than research methodology.
The entry to IIT-B happened as a result of getting short-listed for a 5 day course 'MEDIC-2015' conducted by BETIC in September, 2015, when I was working under Dr. R. C. Sharangpani. I joined the lab in December, 2015. The 2 most important factors were: Getting to know about the event and getting immense support from the clinic to attend it. I came to know about the event from Rajni Pagare ma'am.

4) **What are your plans for the future?**

Aishwarya Kamat,
Ex-Student

I am consultant physiotherapist working at a well known clinic in Ontario, Canada. I started here immediately after completing my masters in rehabilitation research from Dalhousie University, Canada.
I have received a lot of help from the college in finalizing on a postgraduation institute. I still remember all the advice and guidance all my professors gave me then and have been applying it since in my work. DESBJCOP has been very influential in making me the person that I am today. I will take this opportunity to specially thank Apama ma'am, whose help made the whole transition easier.
At present, I am developing my skills in manipulative therapy and hope to grow in this field.

Prachi Nagul,
Ex-Student

I am currently working with Volkswagen India, at their Pune plant, as an industrial therapist. This is a part of their Occupational Health Centre (OHC). As a therapist, I look after the physical well being of more than 3200 employees, consisting of shop floor and office staff. I am responsible for addressing complaints related to their work technique and style and am involved in the ergonomic changes that need to be made to the shop floor as and when required.
DESBJCOP has helped me gain immense knowledge about Physiotherapy with excellent hands on experience. In my college tenure, the college has helped me a lot to boost up my confidence and interpersonal skills. When I entered this field, Physiotherapy seemed a very strange world to me. But my faculty was very supportive helped me to look into pathways that I never would have seen otherwise.
Physiotherapy has helped me to change, not only as a professional, but as a person as well. I intend to continue work in the rehabilitation sector and be a part of a rehab centre.

Humaira Ansari,
Ex-Student

After my Bachelor's from DESBJCOP, I diverted my education path to public health, a hitherto less travelled path by a physiotherapist. I completed my Masters in Public Health from the Pune University. Public health includes many avenues, notably disabilities, communicable and non communicable diseases, community based rehabilitation, cardiopulmonary research, nutrition, genetics and musculoskeletal problems. We get the opportunity to provide and run training programs for various conditions under these headings. It was easy for me to correlate health related topics when I was studying for my masters due to my physiotherapy background. I also have strived to introduce physiotherapy into the work that I undertook during my postgraduate study. I can proudly say that I am a public health physiotherapist!

At present I am a UNICEF research fellow, working in the field of genetics and nutrition, based at the MUHS regional centre in Pune. Being associated with a centre for mentally and physically challenged children, I have also been able to maintain my contact with physiotherapy. Studying at DESBJCOP has helped me achieve a lot in this field. The research projects that we undertook during our final year and internship helped me to get a better understanding of research. It also helped enhance my CV as these researches have been published in international journals. Along with the UNICEF fellowship, I also am working as a research fellow for the International Society of Hypertension, UK. I plan to pursue a PhD shortly and am planning to work on disability, as this is a topic common to both public health and physiotherapy. With all this, I aim to work at national and international levels and be involved in policy and decision making programmes.

Chinmay Bhilde,
Ex-Student

I am working in the field of sports physiotherapy since finishing my masters in Orthopaedics and Sports from Manipal University, Udipi, immediately after passing my Bachelors in 2013 from DESBJCOP. At present, I am working with the Olympic Gold Quest shooters team. I am also working with the Indian archery team and select players of the badminton team. Throughout my school and college life, I had always been interested in sports. In college, we used to get a chance to play during sports week. Though I had to sideline sports for a while

I am working in the field of sports physiotherapy since finishing my masters in Orthopaedics and Sports from Manipal University, Udipi, immediately after passing my Bachelors in 2013 from DESBJCOP. At present, I am working with the Olympic Gold Quest shooters team. I am also working with the Indian archery team and select players of the badminton team. Throughout my school and college life, I had always been interested in sports. In college, we used to get a chance to play during sports week. Though I had to sideline sports for a while for educational purposes, I never really could put it out of my life. Hence, when the time came to choose a specialty for my masters, it was easy for me to opt for a sports related field. The college staff and seniors played more than a substantial and valuable role in helping me choose this field. Now, I work with athletes to improve their performances in their pursuit of a gold medal. I take pride in being one of the key members in helping these athletes in achieving their dreams of an Olympic gold by ensuring they receive top-notch treatment.

Priya Joshi,
Ex-Student

I am a licensed Physical Therapist in the state of Indiana, USA. I am currently pursuing Masters in Health Sciences (Neuro-Concentration) at the University of Indianapolis. Having graduated from DESBJCOP, I studied all the basic and important aspects of Physiotherapy here. My college has proven to be one of the biggest contributors in my achievements, shaping my career positively. The teaching and non-teaching staff was both always very supportive. Considering them to be the best available resource and the biggest support, I, till this day, do not hesitate to contact them- no matter what country or time zone I am in. I intended on making a mark as a student ambassador of our country apart from gaining knowledge. My hard work gave me an opportunity to do the Graduate Assistantship at the university. After finishing a mandatory internship in the last semester, I will be completing my post-graduation this year, and hope to implement my knowledge and experience of the advanced rehabilitation techniques here in India.

Akshaya Gad. ★★★★★
Ex-Student.

I have been working at LiveActive Physiotherapy and Sports Injury Clinic with two of the most renowned sports physiotherapists. I always had an affinity for sports and musculoskeletal science. As this field is very specialized, it needs a precise execution and requires a lot of clinical exposure. Hence, I decided to gain this knowledge through work. With this experience as a base, I plan to go in for a Masters of sports physiotherapy. The kind of experience I'm getting wouldn't have been possible without our college; the roots have been built by my prestigious college. We didn't realize this while we were studying, but it's after passing out that we have realized that we stand out in our fraternity. I really thank all my teachers for supporting and teaching us. Aparna ma'am and all the staff have been the best throughout and they will always be special to all of us.

Kritika. ★★★★★
Ex-Student.

I completed my bachelor's degree in physiotherapy from DESBJCOP in 2017. Being good with words, I have been writing since my teenage years. Initially, I used my writing skills as a hobby. But now I have turned it into a full-fledged career. Thus, I joined the editorial team of Curly Tales – a food, travel, lifestyle and luxury website. DESBJCOP helped me gain a perspective of what I wanted to do. During my years in the college, I was able to gain knowledge, have varied experiences and meet people from different walks of life. I passed out of college knowing that it turned me into a better person overall. I would like to continue to work as a writer/editor on a content platform and along with that, I also have plans to start my private physiotherapy practice soon.

Rupal Nand. ★★★★★
Ex-Student.

I completed my graduation from DESBJCOP in 2015 and now am working as the lead protagonist of a Marathi daily series – Goth. I have always been interested in theatre and performance arts. My journey from a physiotherapy student to an actress is a joyful combination of hard work and destiny. It wasn't planned, but just something that happened when opportunity came knocking. During my first year of college I had helped lead a drama team of 16 students for the acclaimed Firodia Cup, a decision supported by the college. I cherish the time in the college, and especially the memories with my batch mates, who have always been very supportive and helpful. The college's cooperation and my determination both helped me manage my academics along with my extra-curricular pursuits.

Dr. Meldrick Gomes (PT) 2016. ★★★★★
Ex-Student.

I dreamt of becoming a physiotherapist since the time I was just 14, when I saw the great Sachin Tendulkar being treated by a physiotherapist. I wanted to choose a profession which had a balance between studies and my huge interest in cricket and being a physiotherapist allowed me just the same. Since then, life has changed dramatically & an amazing journey began. I'm currently working as a sports physiotherapist for an ISL team, Kerala Blasters, which is owned by the great Sachin. It's amazing to be working with the legends of Manchester United football club, Dimitar Berbatov and Wes Brown. Our college was of great help, making me capable and helping me to get what I wanted to achieve. I learnt in college, not only, about studies, but also to dream big & work hard. The hunger to learn more has helped me to be what I am today. I would love to thank Aparna ma'am and DipTEE ma'am, for supporting me even when I was a notorious student in college. Things that I learnt, the memories I made in college will always be close to my heart.

Student's Testimonials | D.E. Soc. x +
https://www.dasphysiotherapycollege.com/students-testimonials/

Heena Mackasare - 2015
Ex-Student - Senior Physiotherapist (M.P.Th), Neuro ICU - Sahaydri Specialty Hospital, Pune

*Sirf hamare teachers aise hai kya...?? OMG! They are always giving us so many instructions! Reach college and postings on time, dress properly, read files, take cases, observe the patients, see X-rays, ABGs, ventilator settings.....
Why do these teachers give us so much personal attention?*

Every student feels what I have felt in my college days: But, when I started working, I realised all this holds a lot of value. If we reach late for work, no one asks the reason, it is automatically a late punch. Our teachers always let us in, inspite of knowing that, sometimes, we gave fake reasons. For this, I really miss college.

Yes, it makes a huge difference being a DES student

Cases, class presentations built up confidence in me. Now, when I have discussions about patients' treatments with my HOD, consultants and surgeons, my opinion is important to them. I realise that all the theory and practical sessions with my teachers made me perfect for this day.

Their "personal attention" not only built trust towards patients, but also each mistake, which was corrected immediately, led towards better treatments. When doctors in the ICU ask me why patients like me so much, with a smile I tell them it's my teachers who have taught me how to build a rapport, take care of and instil confidence in them, to give the best needed treatment.

DES gave me academic knowledge as well as the ability to face practical life situations. When I was in the third year, I saw Shreya Ma'am giving chest physiotherapy to a GBS patient for a full 45 minutes. Due to the subsequent changes in the patient's chest X-Rays, the doctors of Sassoon hospital appreciated Shreya ma'am's hard work and told her that it was because of her that the patient had a short ICU stay. At that time, I was very inspired by her and wanted to be like her. When I started working at Sahaydri Hospital, I treated a GBS patient with the same dedication and the Medical Director of the hospital appreciated my work and the same year, my patient- a 4 year old kid- hoisted the flag at the hospital. The parents, my HOD, doctors and my colleagues were proud of me and I was proud to be Shreya ma'am's student.

To,
The Principal
Deccan Education Society's
Brijlal Jindal College of Physiotherapy, Pune

Respected Madam,

Sub : Appreciation for Good Work & Support

We hereby take this opportunity to appreciate work done by your Physiotherapy College staff & students at our Vikalang Punarvasan Kendra.

We are working together for more than one and half year.

We are very happy for weekly regular visit of your faculty & students to our vikalang punarvasan kendra and for giving their valuable guidance to divyang patients.

Their guidance & suggestions helped us to deliver our social service to maximum number of divyang people.

The patients have learnt better mobility skills after exercise prescription.

College OPD also provides PT treatment and guidance for our underprivileged patients.

Once again many thanks to Deccan Education Society and whole team of Physiotherapy College for giving us support.

Also, Best wishes to the students who are taking education in this field for their bright future to serve physically disabled patients.

Thanking you.

Sincerely

Vinay Khatavkar, Pune

Subject: "Use Heart, Know Heart" - Thank You !

Dear Dr. Snehal,

Greetings from IMDR !

We express our heartfelt appreciation for your team's significant contribution in commemorating World Heart Day 2023. The efforts in raising awareness about cardiovascular diseases were truly commendable and made a lasting impact on our students and staff.

The event, held today at IMDR Quadrangle, was both informative and engaging. Your team demonstrated an emergency treatment for reviving heart attack patients. This practical demonstration, including the explanation of heart attack symptoms and the step-by-step guide on CPR techniques such as compression, revival breathing, and the Heimlich Maneuver, was invaluable.

By equipping our students with the knowledge and skills to respond effectively in emergency situations, you have undoubtedly contributed to their well-being and safety. It is through initiatives like this that we can empower individuals to take charge of their health and potentially save lives.

PFA a few pictures from the event.

Thank You.

Regards
Shikha

SUB: Requisition and Appreciation

Respected Madam,

As per our requirement for the state police games at SRPF ground, Wanowrie, Pune, DES Brijlal Jindal College of Physiotherapy, Pune had provided the physiotherapists.

We appreciate your help in allowing your students to be the part of 33rd Maharashtra state police games 2023 organized from 7th Jan – 13th Jan 2023. Your physiotherapists did a commendable job and were of great help which was highly appreciated by the organizers and all state as well as by the players presenting the nation at international level.

Thanking you for all your help.

Sports - Pune

On behalf of Fit2Sport and DE'S BJ college of Physiotherapy, 4 physios covered a corporate badminton tournament held on the 22nd and 23rd of December 2020 in Pune.

10 teams with 12 participants in each team participated in the event.

The tournament was a good success and all four physiotherapists did a professional job. They actively participated in briefing sessions on management of on-field injuries at the Fit2Sport clinic beforehand.

Following are the names of those who represented Fit2Sport and DESBJCOP.

- 1) Akshay Salve
- 2) Vidhi Kalyani
- 3) Shweta Thakar
- 4) Nakul Nawale

Also want to extend gratitude to the authorities of DESBJCOP in providing better exposure to the students in this field and permitting them to represent Fit2Sport.

Dr. Ajit Mapari

Dear Dr. Sadhale,

We had a very successful tournament with over 260 players from all over Pune, participating over 3 weekends.

We would like to thank your college for providing us with a fantastic team of physios who took care of player injuries. Your team was always present before the commencement of the matches.

We would like to thank the following members of your team Akshay Gujar, Abhay Naik, Nidhi Chikhal, Apoorva Orazkar, Pooja Patil, Vidhi Kalyani, Vishvali Athavale, Shivani Mhaiskar, Neha Apte, Shweta Thakkar, Shweta Shengal, Himani Deo, Mahi Bhandarkar and Devashree Oak.

Special thanks to Namrata Sidhaye Bhadbhade, Apoorva Likhite and Dr. Sharad Agarkhedkar.

Looking forward to your support during our next tournament.

To,

D.E.Society's Brijlal Jindal College of Physiotherapy,

I am writing to you to express my gratitude for the exceptional efforts of Akshay Gujar and Rashmi Thakkar. As students of DESBJCOP, they assisted our senior physiotherapists during international Tennis tournaments held at Deccan Gymkhana in Nov-Dec 2021.

I truly appreciate all that assistance and support extended from the college department.

On behalf of my team, I want to thank both of them and extend gratitude towards the college faculty to continue supporting such activities.

I look forward to seeing our future achievements and successes with such assignments.

Sincerely,
Dr. Ajit Mapari
Consultant sports & exercise medicine.

Madam,

Conduct of Workshop on Physiotherapy at our Bank Premises at F C Road Pune

We extend a gesture of gratitude to your office for deputing Dr. Deepti Bhole and her team for volunteering a workshop on physiotherapy to officers on the occasion of Bank's foundation day on Oct 1, 2019. The lecture was highly educative and handy for creating awareness about proper sitting postures especially during sitting at workstation for long hours at office. Workshop also helped remove misconception about physiotherapy as the subject also relates to treatment on neurological and cardiac issues that too cure is without medication.

We once again appreciate the volunteer efforts put by your team and look forward for more such workshops in future for the benefit of our staff/employees.

Thanking you !!

Sincerely yours,

I, on behalf of Seva Arogya Foundation express my heartfelt gratitude to you, and your team for the exceptional care and dedication, you've shown while working with our underprivileged patients. Your commitment to improving their quality of life is truly commendable.

There is lack of awareness about the benefits of physiotherapy. With the help of exercise they can fully cured without taking much of tablets. Many a times with the physiotherapy aid their problem get solve permanently.

You treat our patients as individuals, not just medical cases. You ensure that every exercise is completed, follow up with home exercises is done. Your genuine interest in their lives beyond their injuries sets you apart.

Your skilled hands have worked tirelessly to ease their pain and promote healing. Your dedication to helping them regain full range of motion and overcome restrictions is truly inspiring. Thank you for your tireless efforts.

31st March 2019

To,
The Principal,
Brijlal Jindal College of Physiotherapy,
Pune,

Subject: - Certificate of Appreciation

Dear Sir/Madam,

Greetings from SOFOSH!!

This is to certify that faculty and students of DES (Brijlal Jindal College of Physiotherapy) Pune are treating the family deprived and destitute children at Shreevatsa, the child care center run by SOFOSH since the year 2010. Children are benefited by the therapy and is found to be very satisfactory.

This therapy is indeed helpful for the children and we appeal to the college to continue this engagement of students on an ongoing basis.

We are very thankful to the college for the facility provided to the children at Shreevatsa.

This association will continue in future.

Thank you,

SHARMILA SAYED
Administration Head

TEAMS application training

Schedule

Objective- TEAMS application introduction and training in online mode

Date- 28/4/20

Time- 1.00 PM- 5.00 PM

1. Address by Chairman -1PM-1.30 PM
2. Discussion of issues faced during teaching in current times-1.30PM-2.30 PM
3. TEAMS applications introduction- 2.30PM-3.00 PM
4. Break-3.00PM-3.20PM
5. TEAMS application demo-3.20PM-4.00PM
6. Uses and application of ONEDRIVE-4.00 PM-5.00PM

Date- 29/4/20

Time- 1.00 PM- 5.00 PM

1. Sharing the PPT/lecture notes with once demo-1PM-1.30 PM
2. Sharing whiteboard and practice-1.30PM-2.00 PM
3. Creating TEAMS -2.00PM- 3.00PM
4. Giving Assignment online - 2.30PM-3.00 PM
5. Creating lecture link and sharing the the link-3.00PM-3.30PM
6. Break-3.30PM-3.45PM
7. Checking participants during lecture and attendance download -3.45 PM-4.00PM
8. Practice in groups and doubt solving -4.00PM-5.00PM

Effective use of technology for teaching

Instructor- Faculty of Computer Science Department, Dr Snehal Joshi

Date-11/9/18

Time -9AM-5PM

OUTLINE OF THE PROGRAM

- Windows applications introduction- 9.00AM-9.30AM
- How to make effective PPT -9.30AM-10.00AM
- Tea Break-10.00AM-10.015AM
- PPT making practice-10.15AM-10.45AM
- How to use MS Word to prepare notes and documents- 10.45 AM - 11.15 AM
- How to use watermark, Layouts, borders, give references-11.45AM- 12.15PM
- Notes making practice-12.15PM-12.30PM
- How to make PDF from word, JPEG, PPT online using free online tools-12.30PM-1.00PM
- Lunch Break-1.00PM-1.30PM
- Practice-1.30PM-2.00PM
- Assignments in groups - 2.00PM-3.00PM
- Tea Break-3.00PM-3.30PM
- Doubt solving/creative ideas sharing-3.30PM-4.30PM
- Felicitation-4.30 PM-5.00PM

Name of Coordinator: Dr Snehal Joshi (PT)

Name of Speaker: Dr Mugdha Lele

Department: -IQAC+IEC Date:-29 April 2023 Time: 9am-10.30am

Place:-Nawalmal Firodiya Auditorium Online / Offline:-offline

No of participant-108

Activity-an interactive session by Dr Mugdha Lele from venture incubation centre was organised to sensitize students for different avenues related to innovation in Medical technology. Dr Lele Explained about steps in innovation journey along with role of experts in each step. She explained about various programs and opportunities for funding and mentoring related to innovation available. An insight about few upcoming programs and their opening and application deadlines was given by Dr Lele. She encouraged students to visit the centre and avail facilities. Students asked questions, which were aptly answered by the speaker. The session, was well appreciated by students.

Good Clinical Practice by Dr vaishali Deshpande

A session on Good Clinical Practice by Dr vaishali Deshpande was arranged in online mode on 16 May 2020. basic principals of research and good clinical practice were explained. Ethical concerns about research were highlighted. Institute faculty, Ethics Committee members and students attended the session online. The session was well appreciated by the participants.

- Following topics were covered in this training:
 - i. Informed consent
 - ii. Human right protection, safety and wellbeing protection of participants
 - iii. Good Clinical Practice Guidelines (ICMR and ICH) schedule Y regulations in clinical trial
 - iv. Investigator responsibility
 - v. Sponsor responsibility
 - vi. IEC responsibility
 - vii. Essential documents

BASIC RESEACRH METHODOLOGY WORKSHOP FOR STUDENTS

First RM workshop for students from DESBJCOP, Pune was arranged on 30,31 Dec 2018 and 1 Jan 2019 . 2 in house faculty members along with other experts from approved list of MUHS,MET dept were the resource persons for this workshop. It started at 8 am and ended at 5/5.30Pm.Total 47 participants participated in this event. Pre-test, post test scores showed a significant change in participation knowledge .Participants appreciated the workshop.
