# Introduction

Knowing which occupations are in high demand is important for South Africa's post-school education and training sector. Since 2014, the Department of Higher Education and Training (DHET) has biennially published a national list of occupations in high demand (OIHD). The list accomplishes the following functions.

**FIGURE 1:** The functions of the list of occupations in high demand

To fulfil its purpose, the list consists of occupations that show comparatively strong employment, wage, and vacancy (job advertisement) growth and for which employers are likely to recruit in the medium term. Therefore, an occupation is considered to be in high demand if it shows the following signals.

**FIGURE 2:** Signs of high occupational demand

A detailed account of the signals that are cumulatively considered to identify the occupations with the highest demand is provided in section 4 of this report.

In addition to presenting the 2024 list of national OIHD (N-OIHD), this report supplies a technical description of the methodology used to identify the occupations. To offer a broader context for the findings and the importance of the list, the next section provides an overview of South Africa's labour market and economic conditions.

**PART 2**

---

# **The South African Economy and Labour Market**

Although South Africa’s labour market has recovered meaningfully from the COVID-19 pandemic’s lows and continues to do so, compared to the pre-pandemic demand, it is still weak. Figure 3 shows South Africa’s real gross domestic product (GDP) and employment growth over the last decade. The impact of the pandemic can be seen in the shifting trends after 2019.

Between 2013 and 2019, real GDP grew at an average annual rate of 1.1% and employment at 1.6%. Unfortunately, although the economic growth over this period increased the employment rate, the labour demand growth exceeded supply, meaning the number of unemployed individuals increased more than that of employed individuals. Resultantly, the unemployment rate rose from 24.7% in 2013 to 28.7% in 2019. Consequently, South Africa entered the labour market crisis caused by the pandemic with an already deteriorating labour market.

In the three years following 2019, real GDP grew by 0.15%, while employment shrank by 1.7% yearly. By 2022, employment had not returned to pre-pandemic levels, and real GDP was only 0.4% higher. Between 2019 and 2022, the unemployed increased by a further 6%, and the unemployment rate from 28.7% to 33.5%. Although there has been a major recovery since the economic doldrums of 2020 and 2021, by 2022, employment was still lower and unemployment was still higher than it was in 2019—a year that ended a decade of labour market deterioration.<sup>1</sup>

Fortunately, recovery from the pandemic continued in 2023. Between the third quarter of 2022 and the same quarter of 2023, employment increased by 6.2%, resulting in an average increase of 900,000 employed individuals between 2022 and 2023, while unemployment only rose by 1.6%. Therefore, although labour demand has not been enough to absorb the increase in supply, demand growth has lowered the most recently available unemployment rate figure to 31.9%, which is 1.6 percentage points lower than the average of 2022.

**FIGURE 3:** South African GDP and the number of employed individuals

Source: Statistics South Africa

<sup>1</sup> In 2009, the unemployment rate sat at 23.7%. By 2015, it rose to 25.1%, and by 2019, unemployment was at a high of 28.7% (Statistics South Africa, 2023).

The number of unemployed individuals in South Africa has been consistently growing since 2009. This phenomenon can be attributed to insufficient labour market demand caused by muted economic expansion or a mismatch between what is demanded by the economy and what is supplied by the labour force.

In South Africa, both reasons are likely. The analysis above shows that the country's economic growth has been low for many years and will plausibly remain constrained over at least the medium term. The National Treasury's 2023 forecasts show real growth of only 1.5% per year, which is lower than the expected population and labour force growth, meaning further decreasing per capita output and income. Also, in a study published by the Labour Market Intelligence research programme, the researchers state, "There is an overarching structural imbalance between the demand for and the supply of skills in the South African economy" (Khuluvhe, et al., 2022).

The current state of South Africa's labour market elevates the importance of utilising a list of OIHD for strategic planning. If successfully used in planning post-school enrolment, training, and skills development, labour market conditions and outcomes can be improved even without increases in absolute or aggregate labour market demand by ensuring that existing demand does not remain unaddressed.

Figures 4 and 5 offer some high-level insight into the industries and occupational categories where we might expect the highest employment demand. The employment growth between 2019 and 2022 is shown in each figure's top panel, and the more recent growth between the third quarters of 2022 and 2023 is shown at the bottom. The growth in the number of employed individuals is on the left, while the corresponding percentage growth is on the right.

Figure 4 shows the sustained impact of the COVID-19 pandemic across nearly all industries. By 2022, only the community and social services, mining, and agriculture industries had returned to their average pre-pandemic employment levels or a little above. All other industries were still far behind where they were in 2019. Overall, occupational demand remained low across industries.

However, since 2022, there has been a significant recovery. The bottom panel of figure 4 shows this across most industries. Except for mining and manufacturing, all other industries recovered substantially. The most notable of these is finance, which shows a net employment decrease of 103,700 between 2022 and 2019, but a net employment increase of 455,500 between Q3 2022 and Q3 2023, resulting in the finance industry employing 351,800 more people in 2023 than it did in 2019. Manufacturing is at the other end of this spectrum. 291,800 fewer people were employed in the manufacturing industry in 2023 than in 2019. The utilities, construction, trade, and transport industries also employed fewer people in 2023 than in 2019, while the agriculture, mining, and community and social services industries employed more. If not for the finance and community and social services industries, South Africa's 2023 unemployment rate would have been significantly higher.<sup>2</sup>

<sup>2</sup> Community and social services spans occupations related to education, health, and welfare. Subsectors include services pertaining to public administration and defence, central government, local authority, social work, veterinary activities, sanitation, membership organisations, recreational, cultural, and sporting activities, entertainment, and news agencies (Statistics South Africa, n.d.).

**FIGURE 4:** Employment growth by industry

Source: Statistics South Africa (2023)

Notes:

- CSS = Community and social services.
- PH = Private households.

Figure 5 shows that over the pandemic period, those with more medium- to high-level technical skills were more protected from the overall labour market downturn. Low-skill jobs such as those in the crafts, trades, domestic, and elementary occupation categories saw large-scale net losses, likely related to significant contractions in the private households, manufacturing, utilities, and construction industries.

Since 2022, the skilled agriculture and professional occupational categories saw continued net employment increases. However, employment in low- and medium-skill occupations started turning around. Those working in the clerical, sales and services, elementary, and plant and machine categories would have experienced an increasing demand for their skills between 2022 and 2023. By the third quarter of 2023, there were 161,700 more clerks, 194,900 more sales and services workers, and 79,200 more plant and machine operators employed than in 2019. Unfortunately, likely due to a constrained manufacturing industry, there were still 64,000 fewer technicians employed and 230,000 fewer craft and related trades workers. The bedrock of the labour market recovery has been the rise in the employment of professionals. In the third quarter of 2023, 463,400 more professionals were employed than in 2023. The uptick is likely related to the strong performance of the community and social services and finance industries, as shown in figure 4.

**FIGURE 5:** Employment growth by occupational category

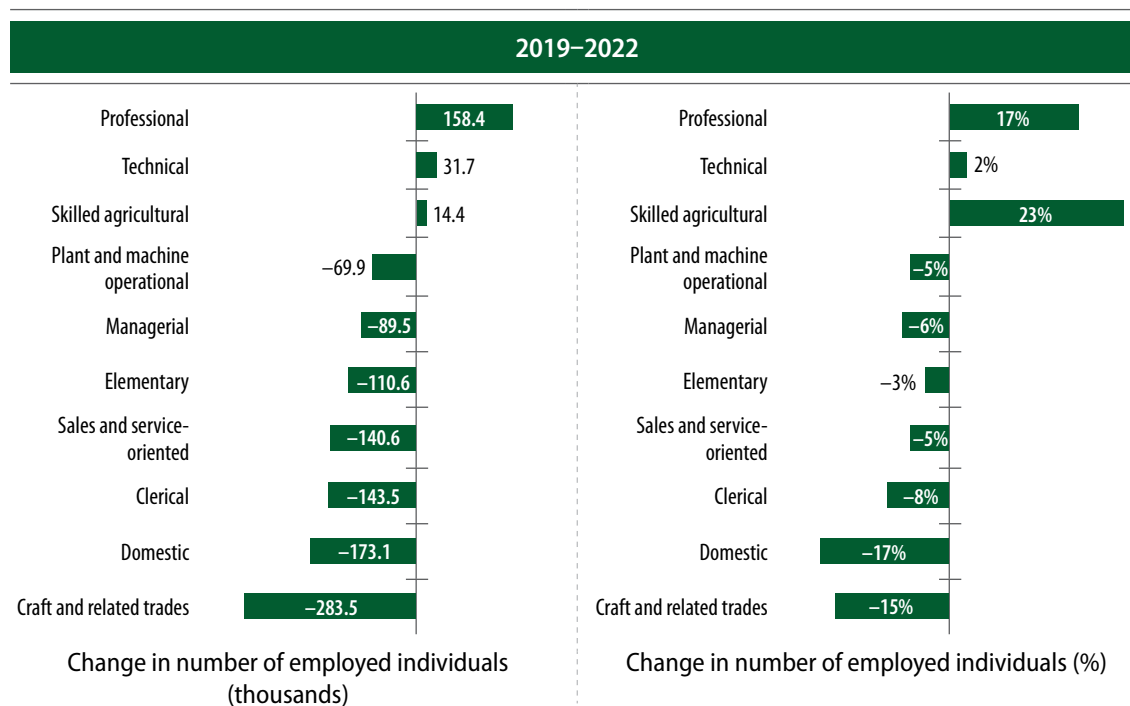

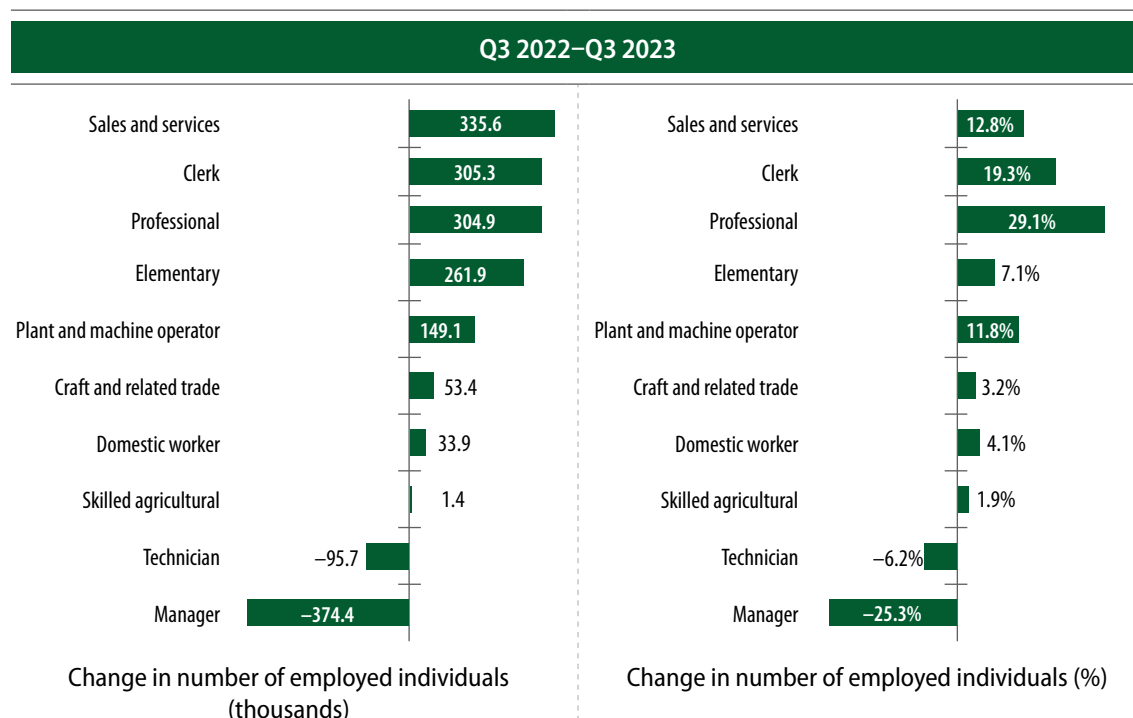

Figure 5: continued

Source: Statistics South Africa (2023)

From the above analysis, we can surmise the following insights, which could inform our expectations of the nature of occupations we might see in the N-OIHD list:

- The COVID-19 pandemic had a devastating impact on South Africa's labour market. Although employment returned to pre-pandemic levels in 2023, in light of a larger labour force than in 2019, more people are unemployed, and consequently, the unemployment rate is still higher.
- The present unemployment rate would have been significantly higher if not for the resilient employment growth of the community and social service industry during the pandemic, and the exceptional recovery of the finance industry during 2023.
- The manufacturing industry sits at the other end of the spectrum, with major contractions during the pandemic and further decline post-pandemic.
- Although contracting between 2019 and 2022, most other industries have seen net employment increases during the latter half of 2022 and 2023 to the degree that employment in 2023 exceeds the 2019 numbers.
- Demand for occupations within the medium- to high-skilled professional, technical, and agricultural categories was comparatively resistant to the effects of the pandemic. Since 2019, although the technical category has constricted, the professional and skilled agriculture categories have continued their ascent.
- After seeing major net employment losses within the low- to medium-skilled sales and services, clerical, and plant and machine operation categories, employment in these categories recovered meaningfully in 2023.
- Workers within the managerial category were worst hit by the pandemic and have not seen an uptick in line with the other categories post-pandemic. Interestingly, as we will see in the list presented below, there is a comparatively high demand for managers, an interesting phenomenon that should be investigated when considering follow-up research.

The next section of the report delves into the historical context of the methodology used to identify occupations in high demand in South Africa. Then, an in-depth technical description of the methodology used to craft the 2024 N-OIHD list is presented.

## PART 3

---

# Evolution of the Methodology Used to Identify Occupations in High Demand in South Africa

The first national list of OIHD was published in 2014. The 2024 list is the fifth iteration. Over this time, the methodology has evolved substantially, responding to the lessons learned from each previous publication. This evolution over time is presented in table 1.

The N-OIHD methodology relies heavily on South Africa’s Organising Framework for Occupations (OFO). Refer to appendix 2 for a comprehensive description of this framework.

**TABLE 1:** A historical overview of the OIHD list

ITERATION OF THE LIST	DEFINING CHARACTERISTICS	BRIEF OVERVIEW OF THE METHODOLOGY USED TO GENERATE THE LIST
2014	A primarily qualitative approach based on the review of strategic government documents.	<ul style="list-style-type: none"> <li>• Various sources were qualitatively analysed, such as pivotal sector education and training authority (SETA) lists, sector skills plans (SSPs), strategic integrated projects (SIPs), and the Joint Initiative for Priority Skills Acquisition (JIPSA).</li> <li>• Given these sources, a points-based approach was used, scoring an occupation out of 100 based on SETA identification, appearance in the SIPs and the JIPSA, the number of associated vacancies, and other factors.</li> <li>• This process created a list of occupations (at the six-digit OFO level), which was then validated and added to by a broad set of private and public sector participants.</li> </ul>
2016	<p>Included quantitative analysis of data from the Quarterly Labour Force Survey (QLFS) and the Job Opportunity Index (JOI) in addition to documentary review.</p> <p>Included quantitative forecasting of occupational growth.<sup>3</sup></p> <p>Entailed a broader validation process with private and public sector stakeholders.</p>	<ul style="list-style-type: none"> <li>• The QLFS and JOI data were analysed to assess occupational growth and job vacancy trends.</li> <li>• Forecasts (up to 2025) of occupational growth were made and then used to ascertain the top 20 job prospects in the country.</li> <li>• Various sources were qualitatively analysed, such as the SETA pivotal lists, the SIPs, the DHET’s call for evidence (CFE), literature in South Africa, and others.</li> <li>• These findings were amalgamated and presented to various private and public stakeholders for validation (although the sample of validators was far smaller than the sample used in the 2014 list).</li> </ul>

<sup>3</sup> Forecasts are often extremely inaccurate. Although future information on labour market trends is critical, it is difficult to obtain forecasts that are reliable. Therefore, forecasts were not included in the 2018 and 2020 iterations of the OIHD list. However, a forecast analysis at an occupational level is at the beginning phases of its development, with the hopes of including the findings of such an analysis in the 2022 iteration of the OIHD list.

ITERATION OF THE LIST	DEFINING CHARACTERISTICS	BRIEF OVERVIEW OF THE METHODOLOGY USED TO GENERATE THE LIST
2018 and 2020	<p>Developed a multidimensional index of demand.</p> <p>Replaced JOI data with data from CareerJunction.</p> <p>Did <i>not</i> use data from quantitative forecasting of occupational growth (since no projections were undertaken during this period)</p> <p>Used a two-stage approach combining quantitative analysis of labour market secondary data with qualitative methods to gain insight into the views of the industry.</p>	<ul style="list-style-type: none"> <li>• The QLFS and CareerJunction data were analysed, and a four-digit OFO-coded list was produced.</li> <li>• Various sources were qualitatively analysed to turn the four-digit list into a six-digit list, such as SETA pivotal lists, the SSPs, the SIPs, the DHET's CFE, grey literature in South Africa, and others.</li> <li>• This list was then validated by a limited number of stakeholders in both the private and public sectors.</li> <li>• For the 2020 list, the draft report for the N-OIHD list was gazetted for public comments.</li> </ul>
2024	<p>Replaced the previous CFE with a survey, which was then distributed via LinkedIn and the DHET networks.</p>	<ul style="list-style-type: none"> <li>• The QLFS and CareerJunction data were analysed.</li> <li>• A four-digit OFO-coded list was produced.</li> <li>• An online survey was distributed to allow employers to list occupations they will be recruiting for in the future.</li> <li>• The OIHD that were indicated by the survey sample were manually mapped to their appropriate six-digit OFO codes.</li> <li>• The secondary data from the QLFS and CareerJunction was combined with the survey data to calculate overall demand scores.</li> </ul>

Source: DNA Economics (2020)

The most profound change over time has been the increasing importance of quantitative data. While there are several approaches internationally to identify skills and occupational shortage, the Shortage Occupations List produced by the UK's Migration Advisory Committee and the Skills for Jobs indicators developed by the Organisation for Economic Co-operation and Development (OECD) have been most helpful in developing the OIHD methodology. In particular, in the absence of a single indicator of occupational shortage, both approaches create a multidimensional index comprised of a range of direct and indirect measures (proxy indicators); that is, they combine several indicators into a single indicator. The strength of such an approach is two-fold. Firstly, because each proxy indicator will, by definition, be imperfect, the index creates a holistic picture utilising cumulative evidence instead of considering each indicator in isolation. Secondly, because each indicator is weighted explicitly, the importance placed on each indicator is transparent and open to discussion and critique.

For the 2024 list, the most significant development was replacing the call for evidence with an online survey. This has increased the coverage of views through two avenues. Firstly, the evidential burden of respondents has been lightened by using their responses as evidence instead of expecting them to provide evidence for their views on occupational demand. The lower requirement on the respondents, in terms of time and administrative effort, increased the response rate. Secondly, instead of only being able to attain the views of a few industry stakeholders, the survey was disseminated beyond immediate networks by forwarding a link via e-mail and social media platforms.

The section below provides a more in-depth description of the 2024 methodology.

**PART 4**

---

# **The 2024 Methodology and Results**

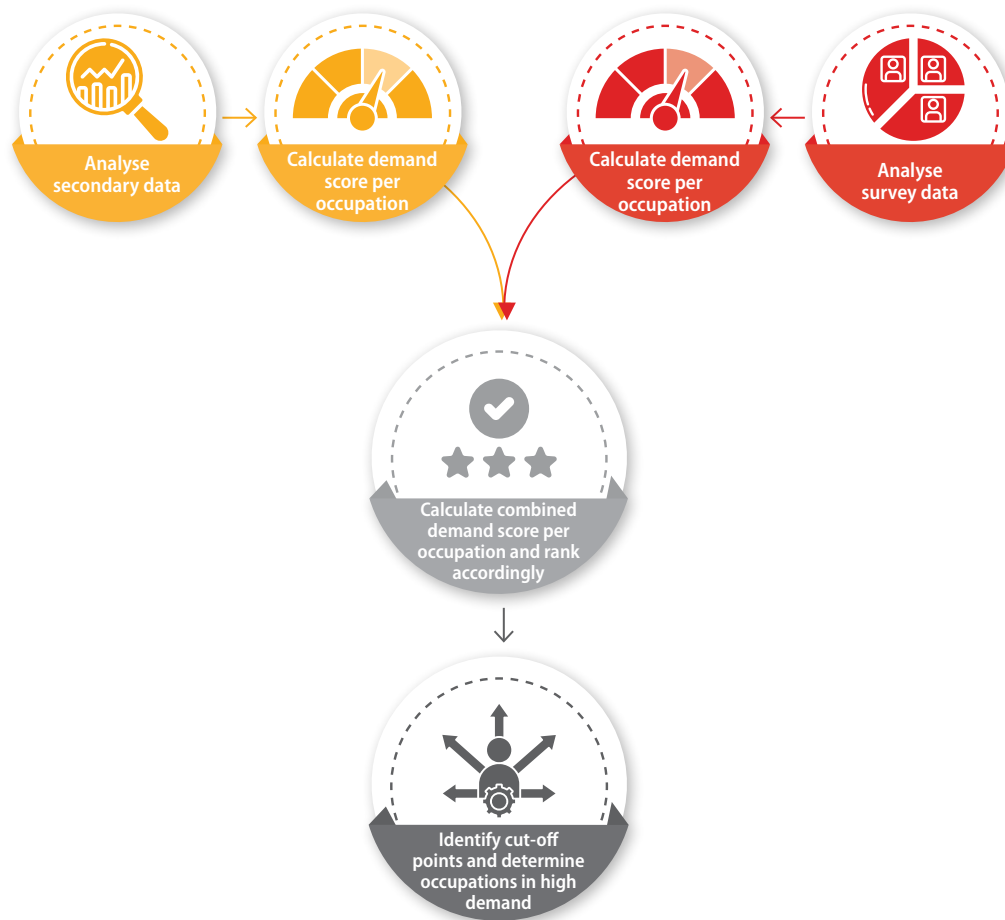

The methodology uses a three-stage approach to identify OIHD. Figure 6 presents a high-level summary of this approach that simultaneously considers all the evidence to identify occupations in the highest demand.

From the left (yellow), the available secondary labour market data was analysed. The analysis involved ranking occupations according to 10 indicators of occupational demand using data from the QLFS, the Labour Market Dynamics Survey (LMDS), and a consolidated PNet and CareerJunction database. A demand score was then calculated for each occupation based on rankings across the respective indicators. This stage and its results are detailed in section 4.1.

From the right (red), an employer survey was designed and distributed via the DHET stakeholder networks in which respondents were asked to list occupations for which they plan to recruit for within the next three years. Demand scores were then calculated for each occupation based on the number of times it was listed and the respondents' level of certainty regarding their recruitment plans. More information regarding this component of the research is presented in section 4.2.

Finally, the evidence produced by the secondary and survey data analyses were combined (light grey and dark grey) for each occupation in the OFO and ranked relative to one another. As per previous versions of the OIHD list, the occupations ranked within the top 25% of all occupations at the OFO six-digit level were included. The consolidated evidence and the resultant list are presented in section 5.

**FIGURE 6:** A high-level overview of the methodology

## 4.1 Secondary data analysis

Table 2 lists and describes the dimensions and indicators of occupational demand used in the secondary data analysis.

**TABLE 2:** The variables used in secondary data analysis

DIMENSION	SOURCE	VARIABLE (INDICATOR)	DESCRIPTION
Employment pressure	QLFS	Employment growth	Number of employed individuals in 2022 relative to 2019
		Change in employment intensity	Average weekly hours in 2022 relative to 2019
		Change in employment duration	Average time employed in 2022 relative to 2019
Wage pressure	LMDS	Mean wage growth	Average wage in 2022 relative to 2019
		Median wage growth	Median wage in 2022 relative to 2019
		Conditional mean wage growth	Conditional mean wage in 2022 relative to 2019 <sup>4</sup>
Vacancy pressure	PNet and CareerJunction	Vacancies	Number of vacancies in 2022
		Vacancy growth	Vacancies in 2022 relative to 2019
		Renewal rate	Percentage of 2022 vacancies that had to be re-advertised
		Renewal rate growth	Renewal rate in 2022 relative to 2019

**Employment pressure:** The QLFS provides information on this dimension. An increasing trend in the number of employed individuals and the average hours of work per week indicates rising demand, while a shorter average employment duration indicates high turnover, more employment choices, and, therefore, higher demand.

**Wage pressure:** The LMDS is published once a year by Statistics South Africa and offers insight into this dimension. The survey consolidates the QLFS and, most importantly, includes wage data. Increasing wages indicate occupational shortage, as employers push wages up to attract candidates from a pool that is becoming smaller and smaller. Along with the average wage per occupation, two additional wage indicators are estimated based on the same data. The median wage ensures that the data is not influenced meaningfully by outliers or anomalies, while the conditional wage removes the impact that experience (proxied by age) has on the salary of an employee.

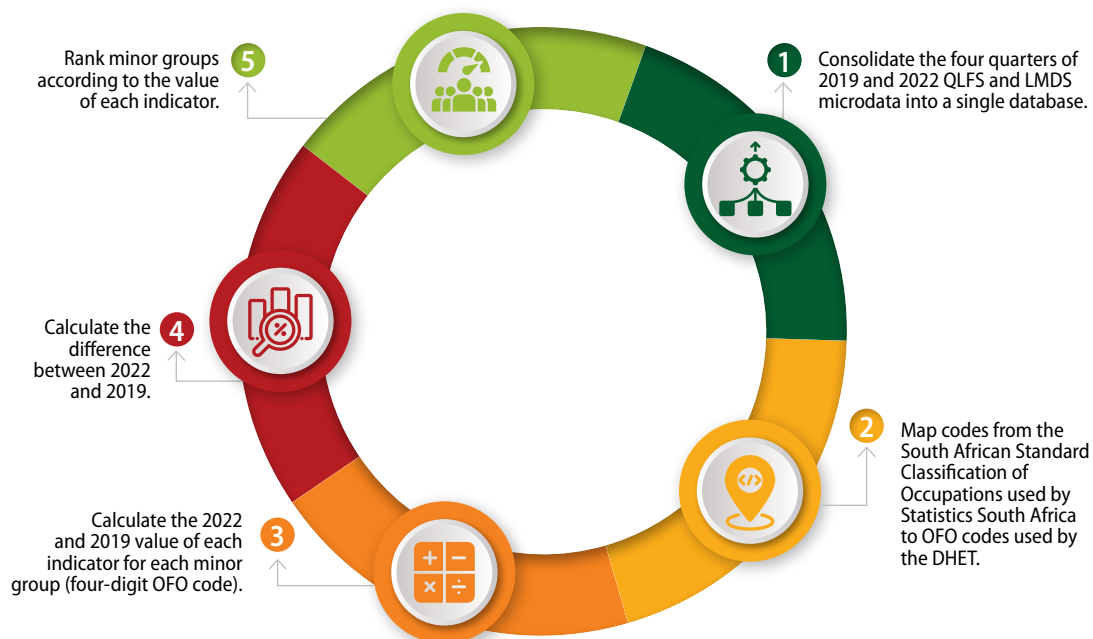

**Vacancy pressure:** Data was collected, consolidated, and summarised from PNet and CareerJunction, which are web-based job search platforms where employers and recruiters can advertise vacancies, and used to signal this dimension. The number of vacancies (job advertisements) in 2022 and the growth in

<sup>4</sup> Conditional on age, which is used as a proxy for level of experience. Essentially, this value indicates growth in wages with the impact of experience on wage removed.

vacancies between 2019 and 2022 are considered strong indicators of current and changing demand, respectively. The renewal rate is the percentage of advertisements re-published after 34 days. This rate is associated with vacancies being hard to fill. The current renewal rate (for 2022) and the change in the renewal rate (the difference between 2019 and 2022) are indicators of current and increasing occupational shortage, respectively.

Figure 7 summarises the process of using these indicators to rank occupations (at the three-digit level) according to overall demand.

**FIGURE 7:** Process flow: Secondary data analysis

These rankings are then used to calculate each unit group's 'secondary data demand score ( $S$ )'. To calculate the  $S$  for unit group  $j$  ( $S_j$ ), we first calculate the average rank across the 10 indicators described in table 2:

$$\text{Average rank of unit group } j (R_j) = \frac{\sum_i R_{ij}}{10}$$

$R_{ij}$  = Rank of unit group  $j$  for indicator  $i$

The  $S$  for each minor group is determined by the difference between the unit group's average rank ( $\bar{R}_j$ ) and the lowest average rank across all unit groups ( $\bar{R}^{min}$ ), that is,  $(\bar{R}_j - \bar{R}^{min})$ , relative to the difference between the highest ( $\bar{R}^{max}$ ) and lowest ( $\bar{R}^{min}$ ) average rank across all unit groups, that is  $(\bar{R}^{max} - \bar{R}^{min})$ . This calculation offers insights into the demand for secondary data specific to each unit group in relation to the overall distribution of average ranks. This value is then subtracted from 1 to associate a higher demand score with a higher revealed demand level.

$$\text{Secondary data demand score}_j(S_j) = 1 - \left( \frac{\bar{R}_j - \bar{R}^{min}}{\bar{R}^{max} - \bar{R}^{min}} \right)$$

$(\bar{R}^{min})$  = Lowest average rank accross all minor groups

$(\bar{R}^{max})$  = Unit group with highest average rank

$(\bar{R}^{min})$  = Unit group with lowest average rank

Table 3 shows the top 10 unit groups identified in the secondary data analysis out of the minor groups in the OFO framework.<sup>5</sup> On average, each major group category contains approximately 3.5 occupations.

**TABLE 3:** The top 10 unit groups

OFO CODE	UNIT GROUP
2021-3323	Buyers
2021-5311	Child Care Workers
2021-3322	Commercial Sales Representatives
2021-5223	Shop Sales Assistants
2021-4226	Receptionists (General)
2021-1212	Human Resource Managers
2021-3434	Chefs
2021-2262	Pharmacists
2021-1321	Manufacturing Managers
2021-2221	Nursing Professionals

Although the secondary data analysis is useful to provide some initial insights into which occupational categories might be more in demand than others, it cannot tell us which occupations within the minor group categories are driving the result we observe in the data. This is why the survey analysis is so important.

## 4.2 Primary data analysis (survey data)

### 4.2.1 Methodology

An online survey was distributed via e-mail and LinkedIn in which employers and recruiters were asked to list occupations they are likely to recruit for over the next three years. The survey was open for eight weeks to maximise the response rate.

<sup>5</sup> Showing 10 minor groups in table 3 is somewhat arbitrary and is for illustrative purposes only. Being in the top 10 does not guarantee that the occupations within the minor group categories will make it to the final list and not being in the top 10 also does not mean that the occupation will not make it onto the list. The ranking based on the secondary data is considered along with the rankings based on the survey data, as shown in the formula presented in section 5.

The question posed was as follows:

- Please list the **specific** occupations your organisation **or the organisations you represent** will likely recruit for over the next three years.
- **Column 1:** Indicate the name of the specific occupation you will be recruiting for. **BE AS SPECIFIC AS POSSIBLE WITH THE NAME OF THE OCCUPATION** (e.g. “Logistics Manager”, rather than just “Manager” or “Welder” rather than just “Artisan”)
  - **Column 2:** Indicate your level of certainty that recruitment will take place on a scale of 1 – 4: 1. “possibly”, 2. “probably”, 3. “nearly certain”, and 4. “definitely”.

The number of times a respondent mentioned an occupation and the average level of certainty that respondents assigned to it were used to estimate survey data demand scores. The approach to calculating these scores is similar to that used for the secondary data.

Following the closure of the survey, each occupation listed was mapped to its corresponding six-digit OFO occupation. This was done using keyword searches in the OFO list, including alternative titles, specialisations, and occupation descriptions to ensure that the six-digit OFO occupation chosen most closely matched the occupations supplied by survey respondents. The mapping is presented in annexure 4.

The diagram below illustrates the steps in the survey analysis process.

**FIGURE 8:** Process flow: Primary (survey) data analysis

The ‘mentions demand score ( $M_j$ )’ and the ‘certainty demand score ( $C_j$ )’ are based on the rank of the particular occupation relative to the maximum rank across all occupations.<sup>6</sup> The following formulas were used to calculate these demand scores.

<sup>6</sup> The maximum rank across all occupations is the rank of the occupations that received zero mentions.

$$M_j = 1 - \left( \frac{R_j^M}{R^{M,max}} \right)$$

$R_j^M$  = Rank of occupation according to mentions

$R^{M,max}$  = Rank of occupation without any mentions

$$C_j = 1 - \left( \frac{R_j^{MC}}{R^{C,max}} \right)$$

$R_j^C$  = Rank of occupation according to average certainty score

$R^{C,max}$  = Rank of occupation without any certainty scores

## 4.2.2 Sample description

788 respondents answered the survey's OIHD question. Various background questions were asked to understand the profile of the sample group. Figure 9 offers an overview of the sample profile in four panels.

Most respondents occupied senior management, professional, and human resources positions, with very few respondents in technical or associate professional positions. The 'other' category consisted mainly of skills and development managers. Respondents were also mostly from organisations in the formal sector as proxied by their tax status. In future iterations of the list, additional plans and efforts will be required to reach the informal sector. Although marginally skewed towards larger companies, there is meaningful coverage of micro, small, and medium companies. Finally, industry and province representation are generally in line with the composition of the labour market.

**FIGURE 9:** Survey sample description

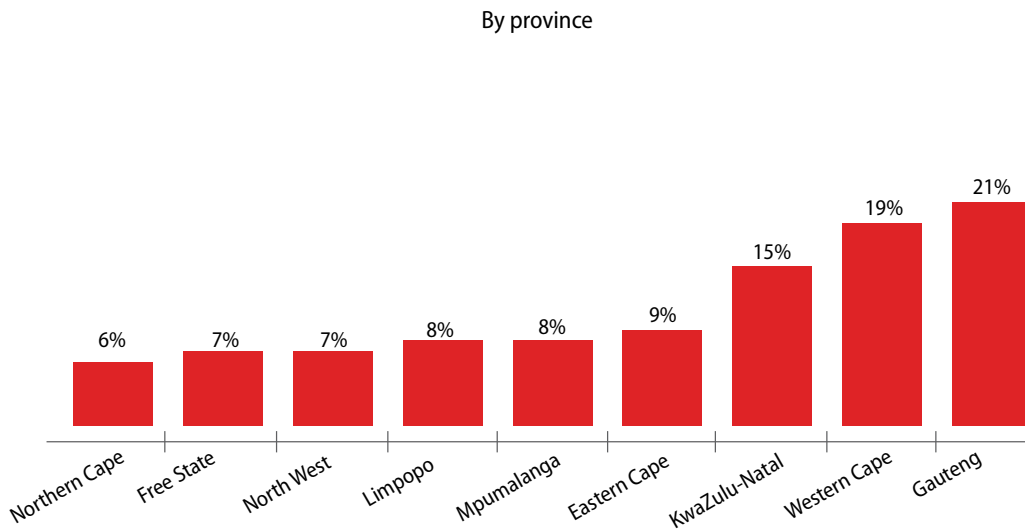

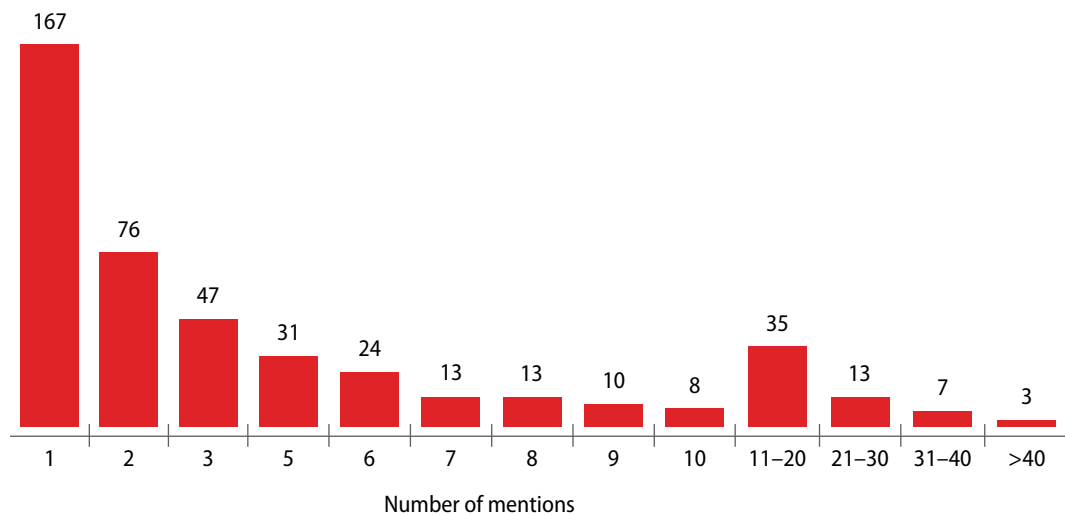

Figure 9: continued

### 4.2.3 Results

Figure 11 presents the results of the survey related to 'mentions' in the form of a histogram. 447 unique occupations were listed by respondents as being in high demand in the country. 20 occupations received more than 20 mentions, with 3 occupations (general clerk, project manager, and electrician) receiving more than 40 mentions. Meanwhile, 35 occupations received between 11 and 20 mentions, 68 occupations between 6 and 10 mentions, and 156 occupations between 2 and 5 mentions. 167 occupations received a single mention.

**FIGURE 11:** The number of occupations per number of mentions

Among the occupations mentioned, most were listed only once. These single mentions do not provide robust evidence, which is why analysing the secondary data is crucial. When they are considered alongside other evidence, even a solitary mention gains meaning. In essence, secondary data contextualises these isolated mentions, turning them into meaningful signals, especially when they align with broader patterns indicating demand in that particular field.

On the other hand, occupations that received more than 20 mentions do not need strong secondary data evidence, as the survey already provides the necessary evidence. The five occupations that had the most mentions were as follows: **General clerk (54 mentions)**, **project manager (47 mentions)**, **electrician (44 mentions)**, **welder (39 mentions)**, and **sales clerk (39 mentions)**. See annexure 2 for the full list of occupation names given in the survey, which were then mapped to OFO occupations.

Figure 10 shows the certainty-related survey results. 47% of occupations mentioned in the survey had an average certainty score between 3 and 4. Nearly 70% of the occupations had a certainty score of above 2, indicating a skewness in the certainty towards the upper end. There is a high negative correlation between the number of mentions and the certainty score due to many single-mention occupations being assigned a high level of certainty, while we see a higher variance in the certainty score among occupations with more mentions. As a result, certainty has been given a lower weight in calculating the total demand score in the next section.

**FIGURE 10:** The number of occupations per certainty score

# **Consolidation of Evidence and the Final List**

Following the synthesising and analysis of the secondary and survey data, the evidence is consolidated by calculating the weighted demand score for each occupation using the following formula and ranking from highest to lowest.

$$D_j = w_s S_j + w_m M_j + w_c C_j$$

$D_j$  = Weighted demand score for occupation  $j$   
 $w_s$  = Weight given to secondary data demand score = 1  
 $S_j$  = Secondary data demand score of occupation  $j$  = 1  
 $w_m$  = Weight given to mentions demand score  
 $M_j$  = Mentions demand score of occupation  $j$   
 $w_c$  = Weight given to certainty demand score = 0.1  
 $C_j$  = Certainty demand score of occupation  $j$

Figure 11 shows the distribution of the 1,410 occupations in the OFO across the total demand score range.<sup>7</sup> The chart reveals that 952 occupations had demand scores below 0.1, meaning that they rank last across nearly all metrics. The final list of OIHD consists of 350 occupations with demand scores of 0.4 and higher. The list consists of the top 25% (350) occupations.

The order of occupations listed has no relation to priority, but rather follows the ordering of the OFO framework. However, the list ranked according to weighted average ranking across the secondary data, the number of mentions, and the level of certainty can be found in annexure 2 of this report.

**FIGURE 11:** The number of occupations within weighted demand score ranges

<sup>7</sup> Excluding elementary occupations.

### A note on the asterisk (\*)

Some occupations are given an asterisk to indicate a comparatively large number of unemployed individuals registered on the Department of Employment and Labour's Employment Services South Africa (ESSA) database. ESSA is a website on which individuals seeking employment can register and be matched to organisations seeking employees. As a secondary benefit, the jobseeker database also provides insight into the level of unemployment in South Africa per occupation. A comparatively large number of unemployed individuals registered on the database could imply an over-supply of labour for an occupation, which may mean that the occupation should not be on the list. However, there are several reasons that there appear to be so many unemployed work seekers in the occupations on the OIHD list.

- **Geographical dynamics:** Given that the list of OIHD reflects a provincial picture of occupational demand and does not, therefore, consider localised variations, it is expected that jobseekers in the ESSA database could live in areas where occupational demand is lower than the provincial demand.
- **Timing of data availability:** Individuals are not guaranteed to be removed from the database once they find employment. Therefore, there may be individuals registered on the database who are not presently unemployed.
- **Curriculum and skills programme structure:** The post-school education and training system is not offering appropriate training, meaning that the high unemployment witnessed is not due to a lack of demand but rather a lack of the skills needed by the industry.
- **Qualification validation:** There is no qualification validation on the ESSA database. Therefore, while someone might call themselves a qualified x, there is no proof that they actually are, and there is no indication of what they mean by "qualified".

Occupations with an asterisks next to them are considered outliers. An outlier is identified using the interquartile range method.

The outlier occupations were identified as those that had more unemployed individuals than 1.5 times the interquartile range.<sup>8</sup> Therefore, the occupations with an asterisk had more than 638 unemployed individuals registered.<sup>9</sup> These outliers require further investigation into the reasons why the occupation is in high demand in the presence of excess supply.

8 Interquartile range (IQR) = Quartile 3 – Quartile 1

9 Upper outlier boundary = Quartile 3 + 1.5 x (IQR) = 267.5 + 1.5 x (267.5 – 20.5) = 638

**TABLE 4:** The final list of N-OIHD

SIX-DIGIT OFO CODE	SIX-DIGIT OFO OCCUPATION	MINIMUM QUALIFICATION REQUIRED

2021-672107	Special Class Electrician	National Certificate (NQF Level 4)
2021-672205	Telecommunications Technician	National Certificate (NQF Level 4)
2021-681103	Butcher*	National Certificate (NQF Level 4)
2021-681201	Confectionary Baker*	Higher Certificate (NQF Level 5)
2021-681301	Dairyman	Elementary Certificate (NQF Level 2)
2021-683101	Tailor	National Certificate (NQF Level 4)
2021-683401	Upholsterer	National Certificate (NQF Level 4)
2021-684905	Vehicle Body Builder	National Certificate (NQF Level 4)
2021-711101	Mining Operator*	Intermediate Certificate (NQF Level 3)
2021-711201	Mineral Processing Plant Operator	Intermediate Certificate (NQF Level 3)
2021-711301	Driller	Elementary Certificate (NQF Level 2)
2021-711302	Rock Drill Operator	Intermediate Certificate (NQF Level 3)
2021-712101	Metal Processing Plant Operator	General Certificate (NQF Level 1)
2021-715301	Sewing Machine Operator*	Elementary Certificate (NQF Level 2)
2021-715302	Clothing, Textile, and Leather Goods Production Operator*	Elementary Certificate (NQF Level 2)
2021-716108	Seed Processing Machine Operator	No Formal Qualification Required
2021-732202	Taxi Driver	No Formal Qualification Required
2021-733101	Bus Driver*	Professional Driving Permit (No Equivalent NQF Level)
2021-733201	Truck Driver (General)*	Professional Driving Permit (No Equivalent NQF Level)
2021-733204	Tanker Driver	No Formal Qualification Required
2021-733210	Road Construction Plant Operator*	No Formal Qualification Required
2021-733211	Remotely Operated Vehicle (ROV) Pilot	No Formal Qualification Required

SIX-DIGIT OFO CODE	SIX-DIGIT OFO OCCUPATION	MINIMUM QUALIFICATION REQUIRED
2021-734101	Agricultural Mobile Plant (Equipment) Operator*	National Certificate (NQF Level 4)
2021-734206	Loader Operator*	No Formal Qualification Required
2021-734210	Scraper Operator	No Formal Qualification Required
2021-734301	Crane or Hoist Operator*	General Certificate (NQF Level 1)
2021-734402	Forklift Driver*	No Formal Qualification Required
2021-735101	Deck Hand	No Formal Qualification Required

# Conclusion

This technical report on national OIHD sheds light on the country's economic and labour market conditions. South Africa faces significant challenges relating to unemployment and economic growth. In addition to historical unemployment challenges, the impact of the COVID-19 pandemic is evident in the decline in employment growth and the challenges faced during the post-pandemic recovery. Due to projected poor growth on a national level, it is therefore crucial that skills planning closely aligns with occupational demand.

The study reveals 350 OIHD within the country, highlighting critical sectors with occupational demand. The occupations listed are diverse and require high-level professional, managerial, and technical skills, but also low- to medium-level administrative and clerical support.

For policymakers, these findings emphasise the necessity of tailored strategies to address the country's economic conditions. Policy interventions should focus on upskilling programs, aligning education and training with the identified high-demand occupations, and fostering collaboration between educational institutions and industries. Additionally, measures to support sectors experiencing decline, such as trade and manufacturing, could mitigate the impact on employment.

In conclusion, this report provides a foundation for evidence-based policy decisions that can enhance workforce development, support economic recovery, and address the evolving needs of South Africa's labour market.

# Annexures

## Annexure 1: The number of occupations per category in the national OIHD list

South Africa's list of OIHD is colour-coded below according to this key.

OCCUPATIONAL CATEGORIES (COLOUR-CODED)	NUMBER OF LISTED OCCUPATIONS WITHIN EACH CATEGORY
Finance	11
Trades	62
ICT	13
Education, health, and social services	44
Engineering professionals, associate professionals, and technicians	26
Management, other	51
Professionals, other	67
Technicians and associate professionals, other	37
Clerical support, service and sales workers, other	39
<b>Total occupations</b>	<b>350</b>

## Annexure 2: National OIHD ranked according to demand

OFO CODE	OFO TITLE	DEMAND SCORES

## Annexure 3: Survey response mapping

The following list details all the occupations exactly as they were listed by survey respondents, and the corresponding OFO occupations to which they were mapped.

ACCOUNTS CLERK	Accounts Clerk
	Financial Clerks
	Invoice Clerk
ACTUARY	Actuary
AERONAUTICAL ENGINEER	Aeronautical Engineer
AEROPLANE PILOT	Pilots
AGRICULTURAL ENGINEER	Agricultural Engineer
AIR-CONDITIONING AND REFRIGERATION MECHANIC	Refrigeration Apprentice
AIRPORT OR HARBOUR MANAGER	Branch Managers (Airports)
	International Country Managers
ARCHITECT	Architects
	Infrastructure Architects
	Professional Architect
	Solution Architects
ASSESSMENT PRACTITIONER	Assessment Developer
ATTORNEY	Aviation Law
AUTOMOTIVE ENGINE MECHANIC	Petrol engine mechanics
AUTOMOTIVE MOTOR MECHANIC	Tyres fitting and repairs, Windscreen repairs
BIOCHEMIST	Biochemistry
BIOMEDICAL ENGINEER	Biomedical Engineer
BIOTECHNOLOGIST	Biotechnologist

<b>BOILER MAKER</b>	Boile Maker
	Boiler Attendees
	Boiler Maker
	Boilermaker Assessor
	Boilermaker Instructor
	Boilermaker Moderator
	Boilermakers
<b>BOOK OR SCRIPT EDITOR</b>	Script editor for virtual reality content
	Script writer for virtual reality content
<b>BOOKKEEPER</b>	Book keeper
	Book keepers
	Bookkeeper
<b>BRICKLAYER</b>	Artisan Bricklayer
	Artisan: Bricklaying
	Brick Layer and road paving
	Bricklayer
	Bricklayers
<b>BUS DRIVER</b>	Bus Driver
	Bus Drivers
<b>BUSINESS ADMINISTRATOR</b>	Business Administration Services
	Business Administrators
<b>BUSINESS DEVELOPMENT OFFICER</b>	Business developers
	Business development
	Business Development Adinistrator
	Business Development Advisors
	Business Development Analyst
<b>BUTCHER</b>	Business Development Specialist
	Butcher
<b>CALL CENTRE TEAM LEADER</b>	Contact Centre Team Leader
	Contact centre Team leaders
	Contact Centre Trainer

CALL OR CONTACT CENTRE AGENT	Call Center agents
	Call center trainers
	Call Centre Agents
	Contact Center Support Agent
	Contact Centre Agent
	Contact Centre agents
CALL OR CONTACT CENTRE MANAGER	Call center managers
	Call Centre Coordinator
	Call Centre Manager
	Call Centre Managers
	Contact centre Campaign managers
	Contact Centre Management
	Contact Centre Manager
	Contact centre managers
	Contact Centre Operations Manager
CARPENTER	Artisan: Carpenter
	Carpenter
	carpentry
CHEF	Chef
	Chefs
	Commis Chef – Pastry
	Cooker
	Facilitator – Chef
	Private chef for food prep
	Restaurant Chef
CHEMICAL ENGINEER	Chemical Eng
	Chemical engineer
	Chemical engineering
	Chemical Engineers
	Chemicals Engineer
CHEMIST	manufacturing research chemistry
	Specialist Chemist

<b>CHIEF INFORMATION OFFICER</b>	Chief Information officer
	Chief Information Officers (CIO)
	Chief Information Security Officer
<b>CIVIL ENGINEER</b>	Civil Engineer
	Civil Engineering
	Civil Engineers
	Engineer Infrastructure
	Professional Civil Engineer
	Senior Civil Engineer
	Superintends Supervisors at Infrastructure
<b>CIVIL ENGINEERING TECHNOLOGIST</b>	Civil Engineering Technologist
	Engineering Technician: Civil Engineering
<b>CLEARING AND FORWARDING AGENT</b>	Clearing & Forwarding Controller
	Clearing and Forwarding Agent
	Clearing and Forwarding Agent – Shipping Agent
	National Clearing & Forwarding Manager
<b>CLINICAL NURSE PRACTITIONER</b>	Clinical facilitators – who has a diploma in nursing education
	nursing practitioner
<b>CLINICAL PSYCHOLOGIST</b>	Clinical Psychologist
<b>COLLEGE PRINCIPAL</b>	Head of Institution (Private Higher Education Institution)
<b>COMMERCIAL HOUSEKEEPER</b>	Hotel/guest house room attendants/housekeeping
<b>COMMERCIAL SALES REPRESENTATIVE</b>	Commercial Sales Representative
	External sales rep
<b>COMMERCIAL SERVICES SALES AGENT</b>	Sales Agent
<b>COMMUNICATION COORDINATOR</b>	Communication Officer
	Community Liaison
<b>COMMUNITY HEALTH WORKER</b>	Community Health Workers – Training
<b>COMPLIANCE OFFICER</b>	Compliance Officer
	Compliance Specialists

<b>CONFECTIONARY BAKER</b>	Bread and Flour Confectionery Baking Confectionary Baker
<b>CONSTRUCTION PROJECT MANAGER</b>	Construction Project Manager Professional Construction Project Manager Project Manager – Construction
<b>CONTACT CENTRE FORECAST ANALYST</b>	Contact Centre Quality Analyst Contact Centre Real Time Analyst
<b>CONTRACT MANAGER</b>	Contract Managers
<b>CORPORATE GENERAL MANAGER</b>	Business Manager Corporate general managers General Manager (Hotel) Generic Management Generic Manager Generic managers
<b>CORPORATE SERVICES MANAGER</b>	Chief Operating Officer COO
<b>COURIER</b>	Couriers / drivers
<b>CREDIT MANAGER</b>	Credit manager
<b>CREDIT OR LOANS OFFICER</b>	Creditors Administrator
<b>CUSTOMER SERVICE MANAGER</b>	Client Service Officers Customer relations manager
<b>DAIRYMAN</b>	Dairyman
<b>DATA MANAGEMENT MANAGER</b>	Data Annotation Coordinator Data Annotation Manager Data Managers
<b>DATA SCIENTIST</b>	Data Intelligence/Specialists Data Scientist Data Scientists Data scientists , AI developers , IT , electric batteries installers Data Scientists and Analysts

<b>DATABASE DESIGNER AND ADMINISTRATOR</b>	Database Designer and Administrator
	Information Technology: Database Admin
<b>DEBT COLLECTOR</b>	Debt Collector
<b>DECK HAND</b>	Unemployed learnership employees – Deck Hand
<b>DEPARTMENTAL HEAD</b>	Academic Head
	Post-School TVET Manager
<b>DEVELOPER PROGRAMMER</b>	AI Developers
	AI Programmer
	Developer Programmer
	Financial AI
	Programme Developer
<b>DIAMOND SORTER AND EVALUATOR</b>	Diamond Analyst
	Diamond Handling
<b>DIESEL MECHANIC</b>	Diesel and petrol mechanic apprentices
	Diesel engine mechanics
	Diesel Mechanic
	Diesel Mechanics
	Motor and Diesel Mechanic
<b>DIGITAL ARTIST</b>	Digital and graphic designers
	Digital Designer
	Digital/Content developers
<b>DIRECTOR (ENTERPRISE / ORGANISATION)</b>	Director
	Director of Studies
<b>DISPATCHING AND RECEIVING CLERK / OFFICER</b>	Receiving and despatch personnel
<b>DRAUGHTSPERSON</b>	Draughtsmen

<b>EARLY CHILDHOOD DEVELOPMENT PRACTITIONER</b>	Early Childhood Development Practitioner
	Early childhood development practitioners
	Early Education Development Teacher
	ECD Facilitator/Assessor/Moderator
	ECD Level 6
	ECD practitioners
	ECD Teacher
	ECD teachers
	Grade R practitioner
<b>ECONOMIST</b>	Development Economist
	Developmental Economist
	Economist
	Senior Economist
	Senior Economist – Transport/Infrastructure
	Senior Energy Economist
	Transport Economist
<b>EDUCATIONAL REGISTRAR</b>	Academic Registrar
<b>ELECTRICAL ENGINEER</b>	Electrical Engineer
	Electrical engineering
	Electrical Engineering Renewable Energy
	Electrical Engineers
	Grid Engineer
	Professional Electrical Engineer
	SCADA Engineers
	Senior Electrical Engineering Officer
	Senior Manager Electricity / Electrical Engineer
<b>ELECTRICAL ENGINEERING TECHNICIAN</b>	Electrical technician
	MV Electrical Technician
<b>ELECTRICAL INSTALLATION INSPECTOR</b>	Electrical Assessor
<b>ELECTRICAL LINE MECHANIC</b>	Electrical HV&LV lines and Substations construction and maintenance
	Electrical line mechanic

<b>ELECTRICIAN</b>	Artisan electrician
	Electrical construction
	Electrical Technicians
	Electrician
	Electrician – Red Seal
	Electrician apprentices
	Electrician artisan
	Electrician/Assistant Maintenance Manager
	Electrician/Maintenance Supervisor
	Electricians
	Installation Electrician
	Registered Electrician IE
	Trackless Electrician
<b>ELECTRONIC ENGINEERING TECHNICIAN</b>	Electronics Engineer Technologist
<b>ELECTRONIC EQUIPMENT MECHANICIAN</b>	Digital machine mechanics
<b>ELECTRONICS ENGINEER</b>	Electronic Engineer
<b>EMERGENCY MEDICINE SPECIALIST</b>	Emergency Medical Care Practitioners
<b>ENERGY EFFICIENCY TECHNICIAN</b>	Energy Efficiency Professionals
<b>ENERGY ENGINEER</b>	Energy Analyst
	Energy System Optimisation Professionals
	Senior Energy Modeller
<b>ENGINEERING MANAGER</b>	Assistant Manager: Engineering
	Chief Engineer
	Engineering Manager
	Manager: Engineering Services
	Post Doc Engineering Management

ENROLLED NURSE	Enrolled Nurse
	Enrolled Nurse Auxillary
	Enrolled Nurses
	Enrolled Nursing Assistant
	Post basic nursing
ENVIRONMENTAL ENGINEER	Environmental Engineer
	Environmental engineers
	Professional (Built Environment)
ENVIRONMENTAL SCIENTIST	Environmental Scientist
EXAMINATION SUPERVISOR	Examiners
EXPLOSIVE ORDNANCE ENGINEER	Explosive Ordnance Engineer
EXTERNAL AUDITOR	External audit manager
	External Auditor
	External auditor managers
FACILITIES MANAGER	Facilities Management
	Facilities Management Coordinator
	Facilities Manager
	Facility/Property Manager
FET PHASE SCHOOL TEACHER (GRADES 10–12)	Afrikaans Teacher
	Afrikaans Teacher Grade 10-12
	English Teacher Grade 10-12
	Mathematics Teacher
	Mathematics teachers
	Maths Teacher
	Teacher
	Teacher – Afrikaans
	Teacher – Mathematics
	Teachers
	Teacher-Science
	teaching

FILING OR REGISTRY CLERK	Technical Record Manager – Helicopters
	Technical Records Officer – Helicopters
FINANCE MANAGER	Department Managers
	Finance Manager
	Finance managers
	Financial Executive
	Financial management
	Financial Manager
	Group Financial Manager
	Head of Finance
Revenue Manager	
FINANCIAL ACCOUNTANT	Financial Accountant
FINANCIAL INVESTMENT ADVISOR	Wealth Manager
FIRE FIGHTER	Fire Fighter
FIRST AID ATTENDANT	First Aid
	first aiders
FITTER AND TURNER	Fitter
	Fitter & Turner
	Fitter and Turner
	Fitters
	Fitting
	Fitting and Turning apprentices
FLEET MANAGER	Chief Clerk: Fleet Managemen
	Fleet Administrator
	Fleet Manager
	Manager Mechanical Services & Fleet Management
	Supervisors / Fleet Controllers
FLIGHT ATTENDANT	Cabin Crew
	Passenger Handling Agents
FOOD AND BEVERAGE SCIENTIST	Food and Beverage Scientist

<b>FOOD AND BEVERAGE TECHNICIAN</b>	Food and Beverage Technician
<b>FORENSIC ACCOUNTANT</b>	Certified Fraud Examiner OFO 2021-242215 – Forensic Accountant Forensic Accountant
<b>FORENSIC TECHNICIAN (BIOLOGY, TOXICOLOGY)</b>	Forensic Technician ( Biology, Toxicology)
<b>FORKLIFT DRIVER</b>	Forklift Forklift Driver Forklift Drivers
<b>FOUNDATION PHASE SCHOOL TEACHER</b>	Educator Educator Basic Education Foundation Phase Teacher Grade 1 – 3 Primary School Educator
<b>FRAUD EXAMINER</b>	Certified Fraud Examiner Certified Fraud Examiner OFO 2021-242215 Certified Fraud Examiner OFO 2021-242215 – Anti-Money Laundering Specialist Certified Fraud Examiner OFO 2021-242215 – Forensic Document Examiner Certified Fraud Examiner OFO 2021-242215 – Penetration Tester Fraud Examiners Fraud Risk Practitioner
<b>GENERAL ACCOUNTANT</b>	Accountant Accountant (General) Accountants BComm Accounting Chartered Accountant Chartered Accountants
<b>GENERAL BIOLOGIST</b>	Biologist

GENERAL CLERK	Bin Clerk
	Clerical Officers and Practitioner
	Clerical Support Workers
	Clerical Worker
	Clerks
	Principal Clerk: Creditors
GENERAL MANAGER PUBLIC SERVICE	Assistant Director: Administration
	Assistant Director: Examinations
	Assistant Director: IT
	Assistant Director: Registrations
	Senior Management
GENERAL MEDICINE SPECIALIST PHYSICIAN	Specialist Physician (General Medicine ) Precision Medicine
GEOLOGIST	Geologist
GEOPHYSICIST	Geophysicist
HAIRDRESSER	Hair dresser/stylist/barber
	Hair stylist and barber
	Hairdresser
	Hairdressing barber
	Qualified hairdressers
HEALTH AND SAFETY MANAGER	Aviation Safety Managers
	Health and Safety Manager
	Health Safety and Environment Manager
HEALTH SERVICE SPECIALISED CLINIC MANAGER	Clinical Manager
	Clinical Manager (Specialised Health Service)
HERITAGE CONSULTANT	Heritage Officer
	Heritage Professionals
	Senior Heritage Professionals

<b>HUMAN RESOURCE MANAGER</b>	B-BBEE Specialist
	Chief HR Manager
	Deputy Director HRD
	Director HR
	Director Human Human Resource Support
	HR Employee Development Specialist
	HR Management
	HR Manager
	HR Practitioner
	human resource
	Human Resource Manager
	Human Resource Practitioner
	Human Resources
	Human Resources Information Specialist (HRIS)
	Human Resources Manager
	Human Resources Officers
	Human Resources Practitioner
Human Resources Professionals	
Snr Manager Human Resource	
<b>HYDROLOGIST</b>	Hydrobiologist
	Hydrologist
	Scientist Manager Geohydrology
	Scientist Manager Hydrology
	Scientist Manager Instream
<b>ICT PROJECT MANAGER</b>	ICT Manager
	ICT Projects Manager

ICT SECURITY SPECIALIST	Cyber Security
	Cyber Security Analyst
	Cyber Security Experts/Engineers
	Cybersecurity engineer
	Cybersecurity specialist/expert
	First Line Cyber Security Engineer
	ICT Network Security Specialist
	ICT Security Specialist
ICT SYSTEMS ANALYST	ICT Systems Analyst
	Systems developers
ICT TRAINER	ICT Software Development Trainer
IMPORT-EXPORT ADMINISTRATOR	Export Controller
	Exports and Imports Contollers
	Import Clerk
	Import Controller
INDUSTRIAL ENGINEER	Business improvement specialists like industrial engineers, supply chain specialists
	Industrial engineer
	Industrial Engineers
	Industrial Engineer
INFORMATION SERVICES MANAGER	Information Services Manager
INFORMATION TECHNOLOGY MANAGER	Head of Technology
	Information Technology Manager
	IT Manager
	IT Managers
	IT Project Manager
	Post Doc Technology & Innovation Management
INSTRUMENT MECHANICIAN	Instrument Machanician
	Instrument Mechanician
	Instrumentation Mechanician
INSURANCE AGENT	Insurance Agent

<b>INSURANCE BROKER</b>	Insurance Broker
<b>INSURANCE CLAIMS ADMINISTRATOR</b>	Insurance Claims Administrator
<b>INSURANCE LOSS ADJUSTER</b>	Insurance Loss Adjuster
<b>INTELLIGENCE OPERATOR</b>	Intelligence Operator
<b>INTERIOR DESIGNER</b>	Interior Designer
<b>INTERMEDIATE PHASE SCHOOL TEACHER (GRADES 4-6)</b>	Afrikaans Teacher Grade 4 -7
	Computer Application Technology teachers
	English Teacher Grade 4 -7
	Math Teacher Gr 4 -7
<b>INTERNAL AUDIT MANAGER</b>	Audit Manager
	Group Internal Audit Manager
<b>INTERNAL AUDITOR</b>	Auditors (Internal)
	Internal Audit and risk management
	Internal Auditor
	Internal Auditors
<b>INTERPRETER</b>	Interpreters
<b>LEGAL MANAGER</b>	Legal manager
<b>LIBRARIAN</b>	Librarian
<b>LINGUIST</b>	Foreign language speakers
<b>LOADER OPERATOR</b>	Bobcat Operator
<b>LOGISTICS MANAGER</b>	1. Managers
	Logistics Manager
	Logistics Managers
	Logistics Supervisor
<b>MAINTENANCE PLANNER</b>	Maintenance Controller
	Maintenance Manager
	Maintenance Planners
<b>MANUFACTURING OPERATIONS MANAGER</b>	Manufacturing Operations Manager

<b>MANUFACTURING RESEARCH CHEMIST</b>	Development Chemist
<b>MANUFACTURING TECHNICIAN</b>	Technician
<b>MARINE ENGINEERING TECHNOLOGIST</b>	Marine Engineering Technologist
<b>MARITIME SEARCH AND RESCUE MISSION COORDINATOR</b>	Duty Controller
<b>MARKETING PRACTITIONER</b>	Digital Marketer
	Digital marketers
	Digital marketing
	Marketing
	Marketing (Sales)
	Marketing and Communications
	Marketing Assistant
	Marketing personnel
	Professional – Marketing
Retail & Marketing	
Sport Promotion	
<b>MATHEMATICIAN</b>	Mathematician
<b>MECHANICAL ENGINEER</b>	Engineers (Mechanical, Electrical, Civil, Instrument)
	Mechanical and electrical engineers
	Mechanical engineer
	Mechanical Engineer (GCC Mines and Works)
	Mechanical Engineering
	Mechanical Engineers
Professional Mechanical Engineer	
<b>MECHANICAL ENGINEERING TECHNICIAN</b>	Mechanical Technicians
<b>MECHANICAL FITTER</b>	Artisan (Mechanical)
	Fitters (Mechanical, Pipe)
	Mech Fitters
	Mechanical Fitter
Mechanical Fitter Apprentice	

<b>MECHATRONICS TECHNICIAN</b>	Mechatronics Technician
<b>MEDICAL SCIENTIST</b>	Medical Scientists and Technologists
<b>MEDICAL TECHNICIAN</b>	Anesthetic Technicians
	Medical equipment technician
	Medical Technicians (all categories)
<b>METALLURGIST</b>	Metallurgists
<b>MIDWIFE</b>	Midwives
<b>MILLWRIGHT</b>	Mill Wrights
	Millwright
	Millwright Apprentice
	Millwrights
<b>MINER</b>	Miner
	Miners
	Trackless Miner
<b>MINING ENGINEER</b>	Mining engineering
	Operations Engineer
	Professional Engineers
<b>MINING MANAGER</b>	Mine Manager
	Mine Manger
	Mining Manager
<b>MINING OPERATOR</b>	Lifting Machinery Operators
	Operator
<b>MINING TECHNICIAN</b>	Process controler
<b>NAIL TECHNICIAN</b>	Nail technician
	Nail technition
<b>NURSE EDUCATOR</b>	Nurse Educator
	Nurse Educators

<b>NURSE MANAGER</b>	Clinical case managers
	Nurse Manager
	Nurse Managers
	Unit managers and nursing managers
	Unit Managers Nursing
<b>OCCUPATIONAL INSTRUCTOR</b>	Occupational Instructor/Trainer
<b>OFFICE ADMINISTRATOR</b>	Office Admin
	Office Administration
	Office administrators
	Office Adminstrators
	Office Admintrators/ Clerks
	Office Clerk
<b>OFFICE MANAGER</b>	Office Manager
<b>OPERATING THEATRE TECHNICIAN</b>	Operating Department Assistants
<b>ORGANISATIONAL RISK MANAGER</b>	Chief Risk Managers
	Organisational Risk Manager
	Risk Manager
<b>PARALEGAL</b>	Paralegal
<b>PATHOLOGIST</b>	Pathologists
<b>PATTERNMAKER</b>	Patternmaker
<b>PAYROLL CLERK</b>	Payroll Administrator
	Payroll Processing clerc
<b>PERSONAL ASSISTANT</b>	Personal Assistant
<b>PHYSICAL ASSET MANAGER</b>	Asset Management Officer
	Asset Manager (Solar Projects)
<b>PHYSIOTHERAPIST</b>	Physiotherapists
<b>PIPE FITTER</b>	Pipe Fitter
	Pipe Fitters

PLUMBER	Artisan Assistant Plumber
	Artisan Electrical, Plumbing, Fitting, Rigger, Millwright, Bricklayer
	Artisan Plumber
	Artisan plumbing
	Artisan: plumbing
	Plumber
	Plumber (General)
	Plumber Arrisan
	Plumber Operators
	Plumbers
	Plumbers/Water reticulation Practitioner
	Plumbing
	Plumbing, solar geyser and heatpump installation skills
POLICY ANALYST	Impact Assessment Practitioner
	Industrial Policy Analyst
	M&E officer
	M&E Specialist
	Monitoring and evaluation
	Monitoring and Evaluation manager
	Monitoring and Evaluation Officer
	Monitoring and Evaluation Officers
	Monitoring and evaluation specialist
	Researcher – Evaluator
	Researchers – conducting research on human security
	Socio-economic researcher/professional
	Specialist Researcher
POLICY AND PLANNING MANAGER	Development Planning Director
	MERL Unit Manager
	Social Policy Specialist
PRODUCTION / OPERATIONS SUPERVISOR (MANUFACTURING)	Production / Operations Supervisor (Manufacturing)
	Production Supervisor
	Production Supervisors
	Production/Operations Supervisor
	Shift Supervisor
	Supervisor
	Supervisors

<b>PRODUCTION ENGINEERING TECHNOLOGIST</b>	Production Engineering Technologist (operator Technologist)
<b>PROGRAM OR PROJECT ADMINISTRATORS</b>	Programme administrators
	Project administrators
<b>PROGRAMME OR PROJECT MANAGER</b>	Infrastructure Project Manager
	PMO Manager
	Post Doc Project Management
	Program of Projects Manager
	Project Developer
	Project Engineer
	Project Management
	Project Management Lecturer
	Project Manager
	Project Manager – Aviation Industry
	Project Manager registered with SACPCMP
	Project managers
	Project Supervisor
	Projects Controller
	Projects Manager
Renewable Energy Project Managers	
Senior Programme Manager	
<b>PROGRAMMER ANALYST</b>	Programmer Analyst
<b>PROPERTY MANAGER</b>	Director Property Management
<b>QUALITY MANAGER</b>	Aviation Quality Managers
	Quality Manager
	Quality Managers
<b>QUANTITY SURVEYOR</b>	Professional Quantity Surveyor
	Quantity Surveyors
<b>RECEPTIONIST (GENERAL)</b>	Receptionist
<b>RECREATION OFFICER</b>	Sport and Recreation Officer
<b>RECRUITMENT MANAGER</b>	Talent Acquisition Specialists

<b>RECRUITMENT OFFICER</b>	Recruiter
	Recruiters
	Recruitment
	Recruitment Administrators
	Recruitment and Selection Officer
	Recruitment Consultant
	Senior Professional Officer: Recruitment
<b>REGISTERED NURSE (CHILD AND FAMILY HEALTH)</b>	Specialist nurses (emergency-, perioperative-, critical care-, pediatric-, neonatology-, obsteric)
<b>REGISTERED NURSE (CRITICAL CARE AND EMERGENCY)</b>	ICU – Trained Professional Nurses
	ICU – Specialised Registered Nurses
	ICU – Trained Registered Nurse
	Registered Nurse – Neonatal ICU
	Registered Nurse ICU qualified
	Registered Nurse Trauma qualified
	Specialist professional nurse (ICU)
<b>REGISTERED NURSE (MEDICAL)</b>	Registered Nurse
	Registered Nurse – General
	Registered Nurse General
	Registered Nurses
<b>REGISTERED NURSE (MENTAL HEALTH)</b>	Specialist professional nurse (Mental Health)
<b>REGISTERED NURSE (OPERATING THEATRE)</b>	Registered Nurse (Operating theatre) MALE BLACK
	Registered Nurse (Operating theatre) MALE COLOURED
	Registered Nurse (Operating theatre) MALE INDIAN
<b>REMOTELY OPERATED VEHICLE (ROV) PILOT</b>	Drone Pilots
	Drone Specialist
<b>RESEARCH AND DEVELOPMENT MANAGER</b>	Research and Development Manager
<b>RESIDENT MEDICAL OFFICER</b>	Medical Officers
<b>RETAIL BUYER</b>	Buyer
	Buyers
	Retail Buyer

RETAIL GENERAL MANAGER	Branch Manager
	Department Manager
	Merchandise management ( buying and planning )
	Retail Managers
	Retail Operations Managers
	Site Managers
RETAIL PHARMACIST	Pharmacist
	Pharmacist
	Pharmacists
	Responsible Pharmacist
RIGGER	Fitters, electricians, riggers and instrumentation
	Rigger
	Riggers

## Annexure 4: Organising Framework for Occupations (OFO)

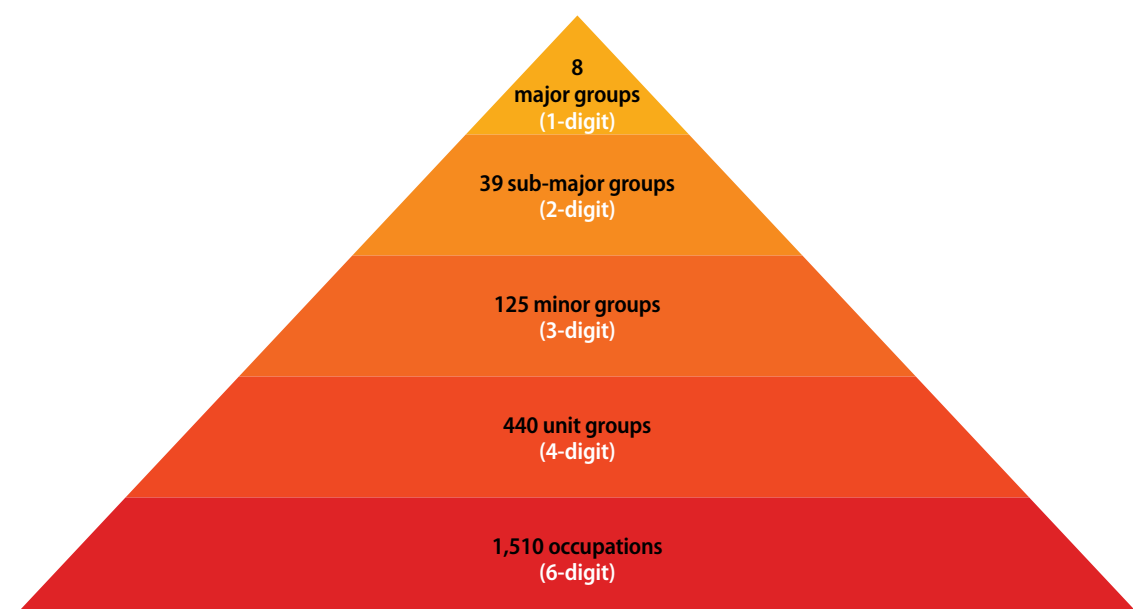

According to the DHET, the OFO is a classification framework that attempts to “establish a common language for talking about occupations”. As Reddy et al. explain in the 2018 Occupations in High Demand in South Africa: A Technical Report, “The OFO is a skill-based, coded classification system of occupations which is used by the DHET for ‘identifying, reporting and monitoring skills demand and supply’ in the labour market. It captures almost all occupations in the country and classifies them by skill level and skill specialisation.”

The framework gives each occupation a six-digit numeric code. Occupations are then grouped into four-digit unit groups, which are further grouped into three-digit minor groups, two-digit sub-major groups, and finally, one-digit major groups. Within the six digits of the occupation, each number refers to a specific grouping.

As shown in Figure 12, the eight one-digit major groups together encapsulate the entire set of 1,510 six-digit occupations.

**FIGURE 12:** The number of classifications in the OFO

Source: The Department of Higher Education and Training, 2019

The eight major groups will be of specific interest when analysing the composition of the lists in their respective technical reports. These groups indicate the skill level and the broad area of specialisation. Figure 13 maps the major groups to the National Qualifications Framework (NQF) levels. It shows that as the major groups move from 1 to 8, the NQF levels decrease.

**FIGURE 13:** The relationship between OFO major categories and NQF levels

LEVEL OF SKILL REQUIRED FOR A GIVEN NQF	NQF LEVEL	OFO MAJOR GROUP			
High	10	<div style="text-align: center;"> <span style="border: 1px solid black; border-radius: 50%; padding: 2px 6px;">2</span>                      Professionals                 </div>		<div style="text-align: center;"> <span style="border: 1px solid black; border-radius: 50%; padding: 2px 6px;">1</span>                      Managers                 </div>

Note:  
The level of skill required is in accordance with the National Skills Development Strategy.

## Annexure 5: Survey questions

---

### Basic information

1. Please select the option that most closely represents the role at your place of work.
  - Owner, director, manager, or executive
  - Professional
  - Technician or associate professional
  - Clerical support, sales, and/or trades worker
  - Plant or machine operator or assembler
  - Human resources practitioner
  - Other (please specify)
2. Is your enterprise registered for tax with the South African Revenue Services?
  - Yes
  - No
  - I don't know
3. What size is your enterprise in terms of the number of employees?
  - Micro (1–10 employees)
  - Small (11–50 employees)
  - Medium (51–250 employees)
  - Large (more than 250 employees)
4. What industry does your enterprise operate in? If you are an industry or occupation representative body, please indicate the industry you represent.
  - Agriculture, hunting, forestry, and fishing
  - Community, social, and personal services (including education and healthcare)
  - Construction
  - Electricity, gas, and water supply
  - Financial intermediation, insurance, real estate, and business services
  - Manufacturing
  - Mining and quarrying
  - Private households
  - Transport and storage
  - Telecommunications
  - Wholesale and retail trade
  - Other (please specify)
5. Please list the specific occupations your organisation or the organisations you represent will likely recruit for over the next three years.

**Column 1:** Indicate the name of the specific occupation you will be recruiting for. BE AS SPECIFIC AS POSSIBLE WITH THE NAME OF THE OCCUPATION (e.g., “Logistics Manager”, rather than just “Manager”, or “Welder” rather than just “Artisan”)

**Column 2:** Indicate your level of certainty that recruitment will take place on a scale of 1–4: 1. “possibly”, 2. “probably”, 3. “nearly certain”, and 4. “definitely”.
