ICON GUIDE

WOMEN'S COMPANION PIECE AVAILABLE

Garments on pages 3-6 featuring this icon have a female companion piece on pages 7-9.

TOUCHTEX™ TECHNOLOGY

Superior color retention, soil release and wickability.

TOUCHTEX PRO™

Same features as Touchtex but with an even softer hand. Available on bottoms only.

YARN DYED STRIPES

Yarns are dyed then woven into a striped configuration.

DURABLE PRESS

Minimum pressing or ironing required. Fabric contains a wrinkle-resistant finish.

NO BUTTONS

This garment has no buttons that will fall off or catch.

UV BUTTONS

Non-yellowing buttons for long-lasting whiteness through industrial laundry processing.

TRUBLACK

Our 65% Polyester / 35% Cotton fabric resists fading wash after wash.

ROKAP

A Red Kap® term for our no-roll waistband. This garment has enhanced engineering to withstand industrial laundry stress and abrasion. The waistband has a mesh inner lining inside to reduce breakdown in fabric fibers, giving the pant a permanent crease even after industrial laundering.

RELAXED FIT

Our relaxed fit jeans feature a traditional rise that sits at the natural waist. Relaxed seat and thigh offer more room for mobility, and the slightly tapered leg fits over work boots.

WASH CODES

INDUSTRIAL LAUNDRY

LIGHT SOIL WASH

HOME WASH

FLAME-RESISTANT ICON GUIDE

HRC 1 PROTECTION

Arc-rated FR shirt and FR pants or FR coverall with a required minimum ATPV of 4 cal/cm².

HRC 2 PROTECTION

Arc-rated FR shirt and FR pants or FR coverall with a required minimum ATPV of 8 cal/cm².

NFPA® 2112 COMPLIANT

Bulwark® Protective Apparel offers flame-resistant protective garments that are certified by Underwriters Laboratories to meet the requirements of NFPA® 2112 Standard on Flame Resistant Garments for Protection of Industrial Personnel Against Flash Fire, 2012 Edition. NFPA® 2113 Standard on Selection, Care, Use, and Maintenance of Flame Resistant Garments for Protection of Industrial Personnel Against Flash Fire, 2015 Edition, requires that garments cover the upper and lower body and flammable underlayers as completely as possible. Bulwark® garments meet this requirement either as a single garment such as a coverall or when worn with another certified garment such as a shirt or pants to provide both upper and lower body coverage.

EN ISO 11612:2008

Protective clothing against heat and flame.

IEC 61482-2:2009

Live working. Protective clothing against the thermal hazards of an electric arc.

HI-VISIBILITY ICON GUIDE

UPF 40 RATING

Ultraviolet Protection Factor - A rating designed for fabric and clothing that specifically measures the level of sun protection. UPF measures both UVA and UVB rays.

HI-VISIBILITY CLASS 2 LEVEL 2

Intended for use in activities where greater visibility is necessary during inclement weather conditions or in work environments with risks that exceed those for Class 1. These garments also cover workers who perform tasks that divert their attention from approaching traffic or that put them in close proximity to passing vehicles traveling at 25 mph or higher.

DOMESTIC UNIFORM EMBLEM OPTIONS

Appliqués

Appliqués are the ideal solution when your image identification program requires the use of a logo or design with a unique shape. Appliqués are designed to blend with the fabric of the garment, creating a seamless appearance.

PrintMate™

These emblems are “photo-realistic.” Any design can be scanned to appear on a PrintMate emblem. All PrintMate emblems are vibrant, durable, and custom created.

Two Line Script

A standard size name or company emblem in our standard script lettering. Simple and secure identification for your personnel and customers.

Embroidered Emblem

An embroidered emblem allows your logo to stand out and attract attention. Versatile, durable and beautiful, an embroidered emblem is a professional and eye-catching way to present your company's image.
