

# Behaviour Based Safety Management System

- *Behavior-Based Safety (BBS), is a process that informs management and employees overall safety of the workplace.*
- *Behavior-Based Safety is planned to focus workers attention on their own daily safety behavior.*
- *Behavior-Based Safety is a program designed to influence employee actions toward safer outcomes, preventing an accident or injury before it occurs.*
- *Behavior-Based Safety is a program designed to influence employee actions toward safer outcomes, preventing an accident or injury before it occurs.*
- *A culture of Behavior-Based Safety (BBS) focuses on an employee's attention and actions on daily safety behavior.*
- *BBS helps the company observe and measure the attitudes and behaviors of employees that increase risk and provide feedback to change.*

## Are You Ready for Behavior-Based Safety?

## Benefits of BBS
