Postgraduate Pathways

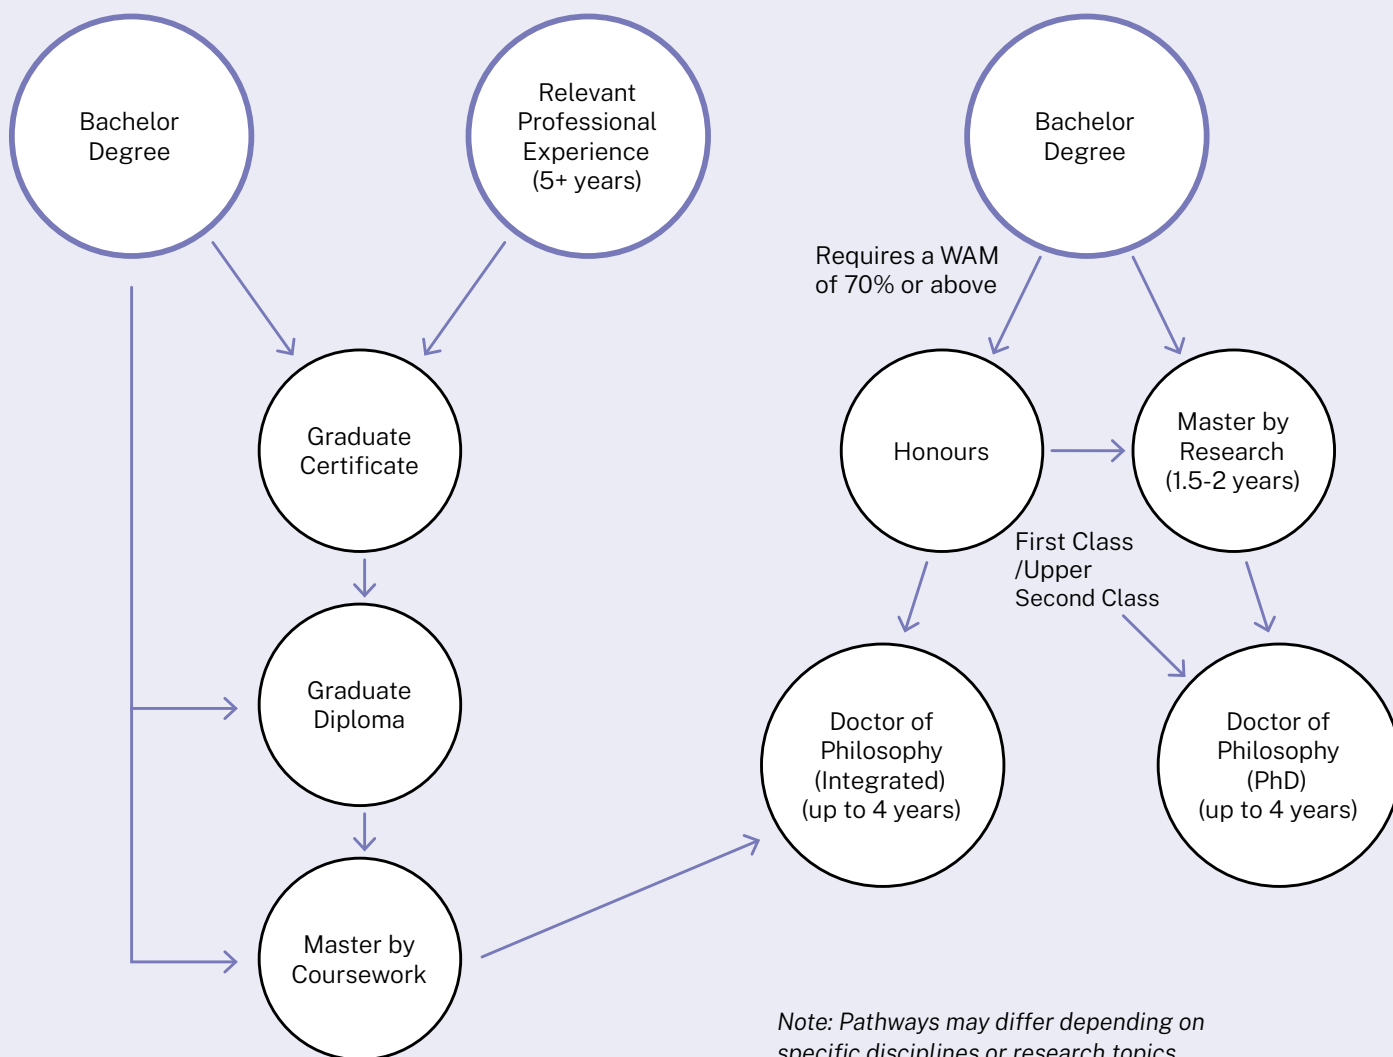

There are several pathways to postgraduate study at ECU and you'll be glad to know that you don't necessarily need a degree to qualify. Real-life industry experience may count.

Coursework pathways

The majority of our postgraduate coursework disciplines offer Graduate Certificate, Graduate Diploma and Master level courses.

Research Pathways

A research degree involves the production of a written body of work that makes an original contribution to knowledge, commonly known as a thesis. The research will be developed over a period of time and will involve identifying a topic, developing a proposal, conducting the research and producing the thesis.
